

One Hundred Eighth Legislature - Second Session - 2024

Introducer's Statement of Intent

LB1255

Chairperson: Senator Mike Moser

Committee: Transportation and Telecommunications

Date of Hearing: February 20, 2024

The following constitutes the reasons for this bill and the purposes which are sought to be accomplished thereby:

The intent of LB1255 is to speed up and streamline the migration to the next-generation 911 system and eliminate one of the problems leading to 911 outages in Nebraska.

Specifically, LB1255 will ensure that telecommunications service providers transmit all 911 calls to next-generation 911 or other points designated by the state 911 director and complete all translation and routing to deliver all 911 calls, including associated location information in the requested Internet protocol-enabled service format to next-generation 911 or other points designated by the state 911 director that allow 911 calls to be answered. Under LB1255, this migration must happen no later than a year after the effective date of this act or within a year after the 911 Director makes a written notification.

Principal Introducer: _____

Senator John Fredrickson
