Summary of purpose and/or changes:

LB 32, introduced on behalf of the Department of Natural Resources, would remove the requirement that surface water appropriations for storage and plan approvals for dams be issued at the same time.

Section 1 amends 46-1654, relating to the application process under the Safety of Dams and Reservoirs Act, by removing the requirement that approval for a water appropriation and approval under the act be issued simultaneously.

Section 2 repeals the original section.

Chris Langemeier, Chairperson
