## **Nebraska Elemental Formula Reimbursement Program Annual Report December 2014**

The Nebraska Elemental Formula Reimbursement Program was created by Nebraska Revised Statute 68-158\*, with the operative date of July 1, 2014. During the period of July 1, 2014 through December 15, 2014, the following activities were completed:

1. Developed application guidelines and forms, posted on the Department of Health and Human Services (DHHS) website at <http://dhhs.ne.gov/publichealth/Pages/ElementalFormulaReimbursementProgram.aspx>.
2. Conducted outreach to inform the public of the program –
  - Information posted on the DHHS Twitter and Facebook accounts.
  - Article published in the Nebraska Medical Association’s electronic newsletter “STAT.”
  - Contacted Children’s Hospital and Boys Town National Research Hospital, facilities providing care to many of the patients that require medically necessary amino acid-based elemental formulas.
3. Enrolled 18 individuals and expended \$9,049.66. Three additional individuals have applied with approval still in process. One application was denied.

\*Nebraska Revised Statute 68-158

The Department of Health and Human Services shall establish a program to provide amino acid-based elemental formulas for the diagnosis and treatment of Immunoglobulin E and non-Immunoglobulin E mediated allergies to multiple food proteins, food-protein-induced enterocolitis syndrome, eosinophilic disorders, and impaired absorption of nutrients caused by disorders affecting the absorptive surface, functional length, and motility of the gastrointestinal tract, when the ordering physician has issued a written order stating that the amino acid-based elemental formula is medically necessary for the treatment of a disease or disorder. Up to fifty percent of the actual out-of-pocket cost, not to exceed twelve thousand dollars, for amino acid-based elemental formulas shall be available to an individual without fees each twelve-month period. The department shall distribute funds on a first-come, first-served basis. Nothing in this section is deemed to be an entitlement. The maximum total General Fund expenditures per year for amino acid-based elemental formulas shall not exceed two hundred fifty thousand dollars each fiscal year in FY2014-15 and FY2015-16. The Department of Health and Human Services shall provide an electronic report on the program to the Legislature annually on or before December 15 of each year.
