

**One Hundred Third Legislature - Second Session - 2014**

**Introducer's Statement of Intent**

**LB882**

---

**Chairperson: Senator Ken Schilz**

**Committee: Agriculture**

**Date of Hearing: February 04, 2014**

The following constitutes the reasons for this bill and the purposes which are sought to be accomplished thereby:

LB 882 defines how the Climate Assessment and Response Committee defines "cyclical climate change" to include information and research, including all climate forcings considered relevant by scientists, including human influence.

The bill also removes a requirement that the Climate Assessment and Response Committee prepare an initial report on cyclical climate change in Nebraska on September 1, 2014.

It also requires the committee to accept other reports submitted and review them in order to produce a final report on December 1, 2014.
