

One Hundred Third Legislature - Second Session - 2014

Introducer's Statement of Intent

LB930

Chairperson: Senator Annette Dubas

Committee: Transportation and Telecommunications

Date of Hearing: February 18, 2014

The following constitutes the reasons for this bill and the purposes which are sought to be accomplished thereby:

LB 930 would amend the One-Call Notification System Act to require that, unless otherwise agreed to in writing, a representative of the operator of an underground natural gas transmission line be present during excavation within 25 feet of a line. Additionally, the bill provides that an operator of facilities other than natural gas transmission lines may declare their underground facilities as critical, requiring the presence of a representative of the operator if excavation will occur within 25 feet of the facility.

Principal Introducer: _____

Senator Dan Watermeier
