## Executive Summary

Nebraska statute 85-1416(2)(c) requires the Coordinating Commission for Postsecondary Education (CCPE) to prepare a *Tuition, Fees, and Financial Aid Report* for the Governor and the Appropriations Committee of the Legislature in even-numbered years to inform the development of the State’s biennial budget. This report analyzes public policy issues relating to tuition, fees, and financial aid for Nebraska students and compares Nebraska’s public postsecondary institutions with peer institutions. This report offers insight into interrelated issues facing Nebraska students and their families and Nebraska’s public postsecondary institutions to assist policymakers as they allocate state resources.

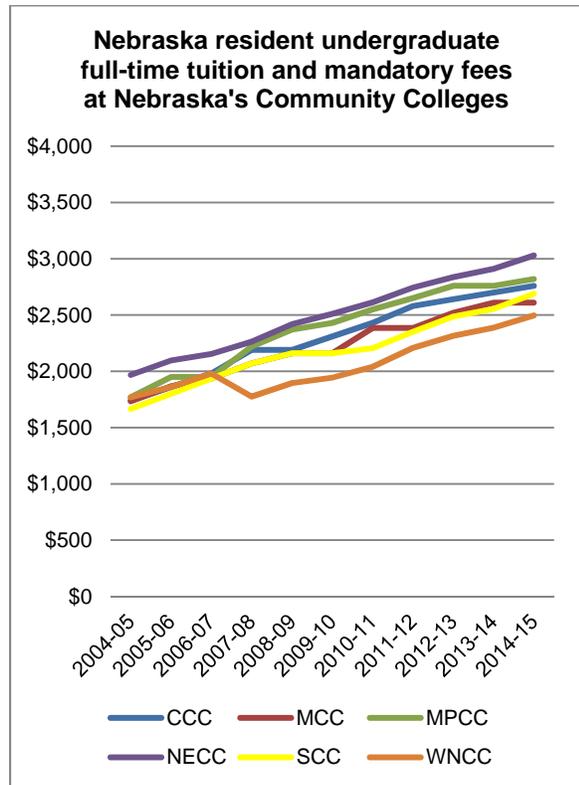

From 2004-05 to 2014-15, **undergraduate full-time equivalency (FTE) enrollment** increased 6.8% at Nebraska’s public postsecondary institutions.

- University of Nebraska increased 13%.
- State Colleges increased 5%.
- Community Colleges increased 1%.

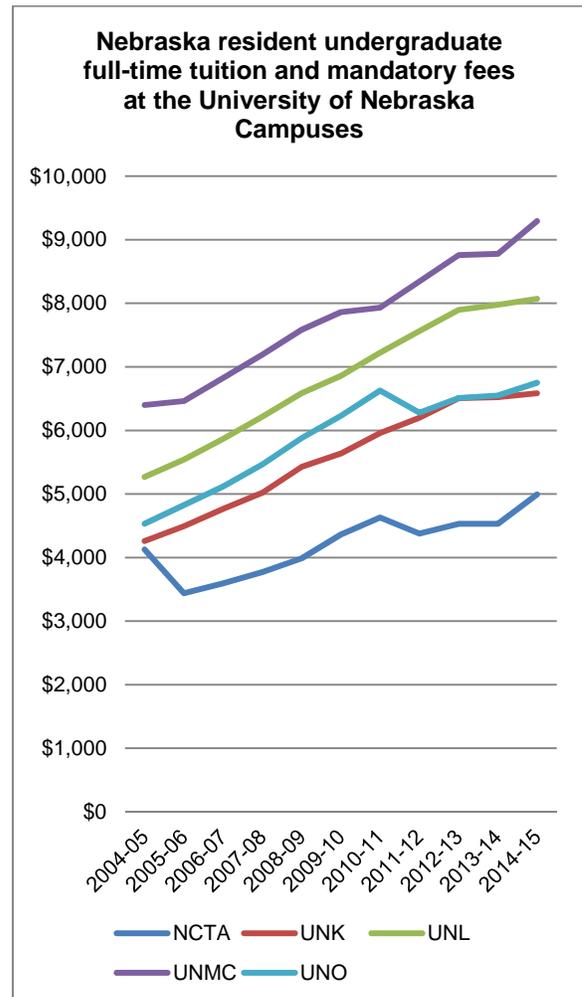

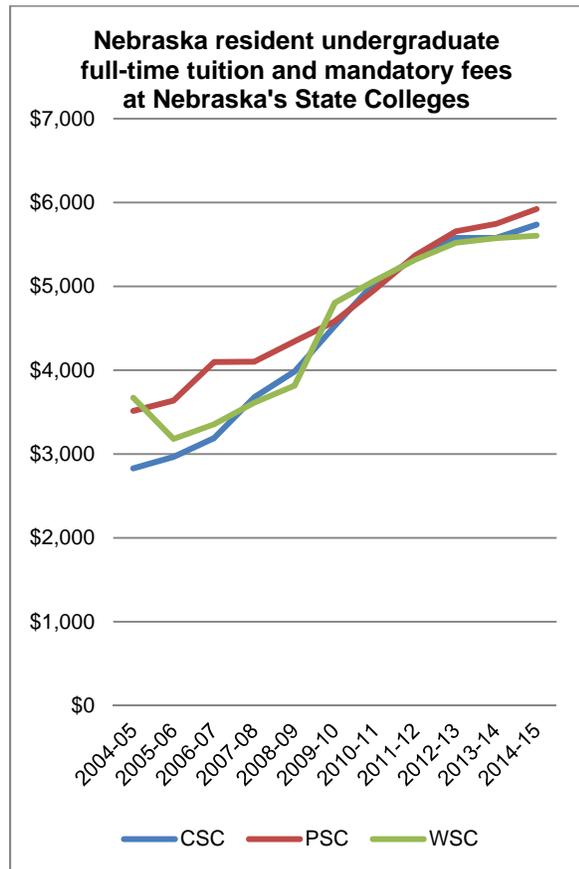

From 2004-05 to 2014-15, **graduate FTE enrollment** increased 57% at Nebraska’s public postsecondary institutions.

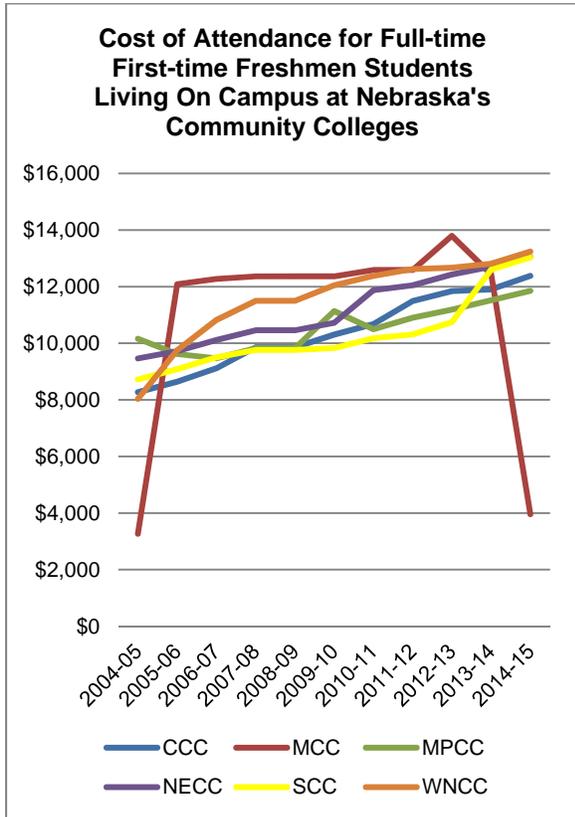

- University of Nebraska increased 65%.
- State Colleges increased 7%.

From 2004-05 to 2014-15, **tuition and mandatory fees** for a full-time, Nebraska resident undergraduate student increased at all of Nebraska's public postsecondary institutions.

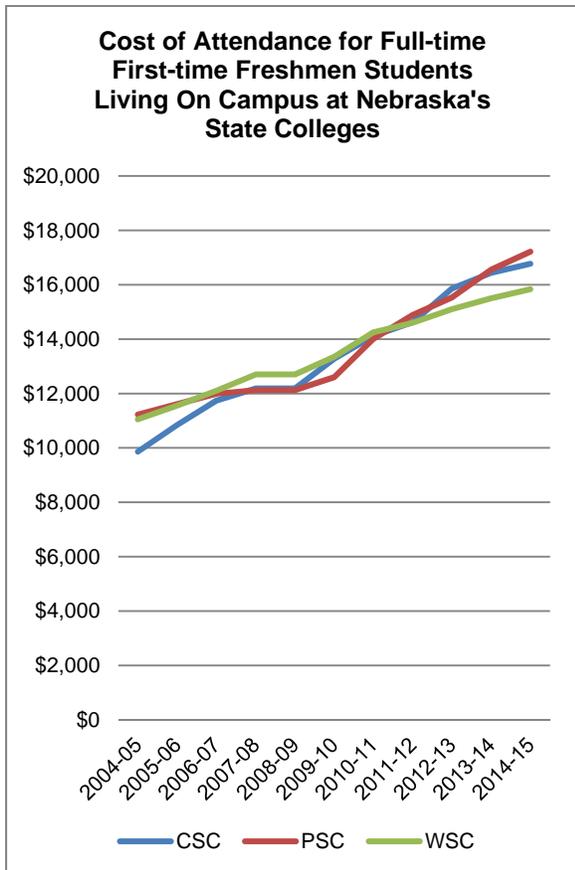

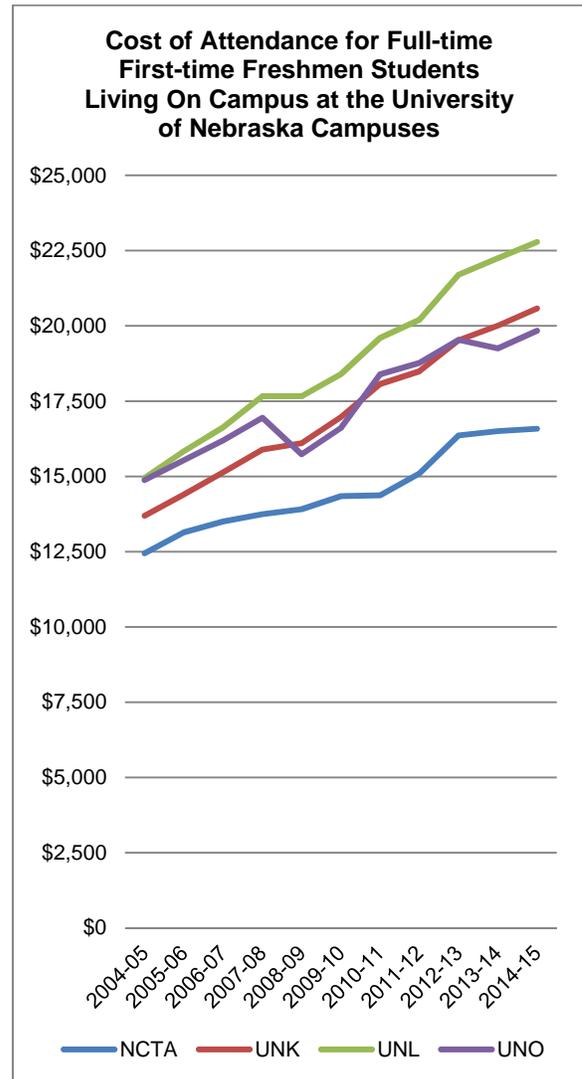

- The smallest increase – 21% – occurred at the Nebraska College of Technical Agriculture.
- The largest increase – 103% – occurred at Chadron State College.

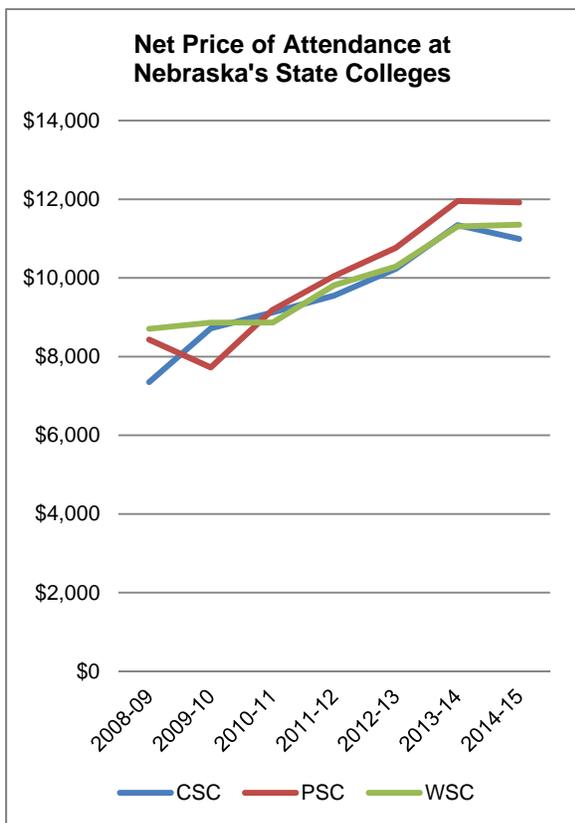

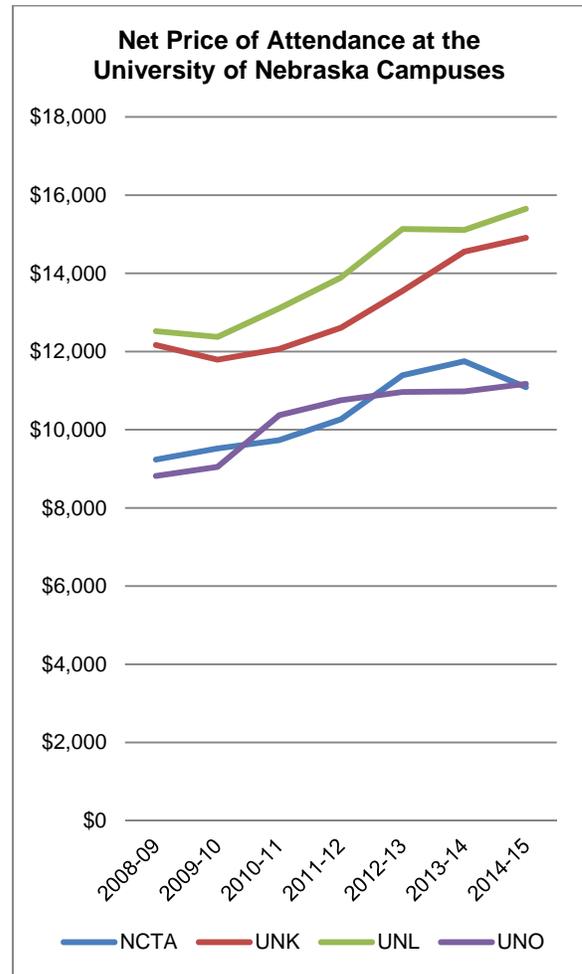

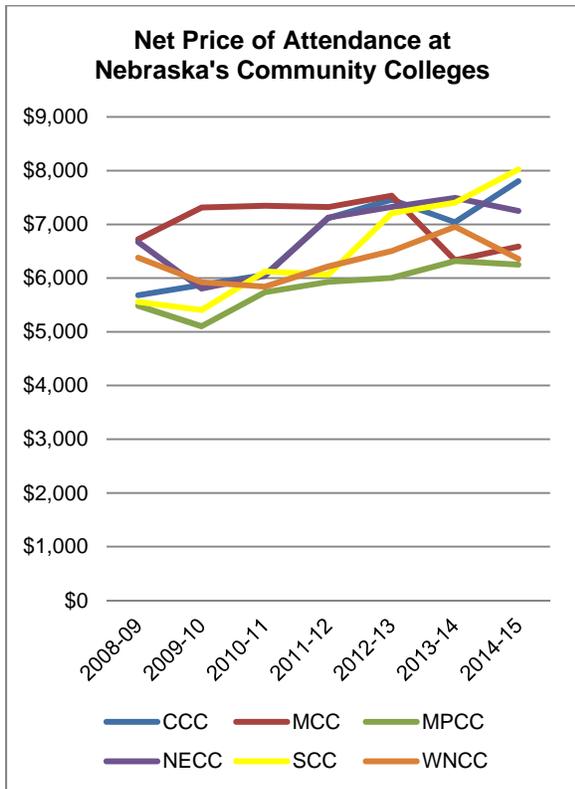

From 2004-05 to 2014-15, the **cost of attendance** for a full-time, first-time freshman student living on campus increased at all of Nebraska's public postsecondary institutions<sup>1</sup>.

- The smallest increase – 17% – occurred at Mid-Plains Community College.
- The largest increase – 70% – occurred at Chadron State College.

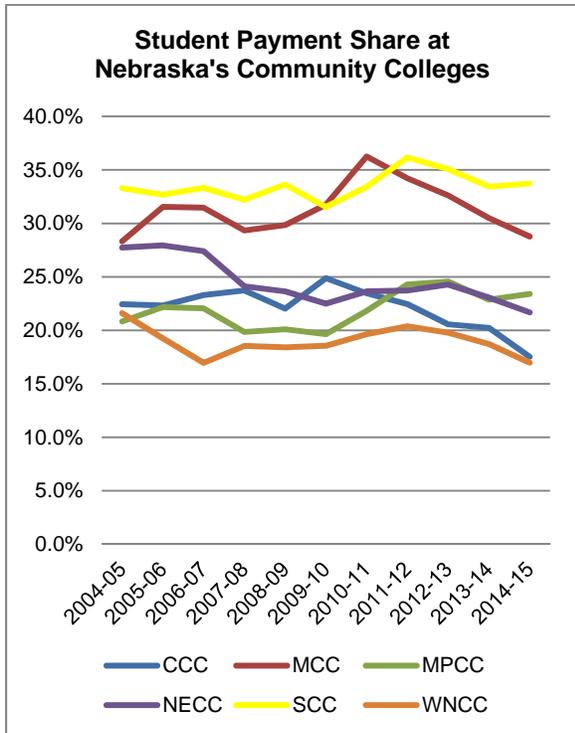

<sup>1</sup> Cost of attendance includes amounts for tuition and fees, books and supplies, on-campus living, transportation, and other miscellaneous costs. From 2005-06 to 2013-14, MCC had on campus housing. UNMC is not included as it does not enroll freshman students.

From 2008-09 to 2014-15, the **average net price of attendance** for full-time, first-time degree- or certificate-seeking undergraduate students increased at most of Nebraska's public postsecondary institutions<sup>1</sup>.

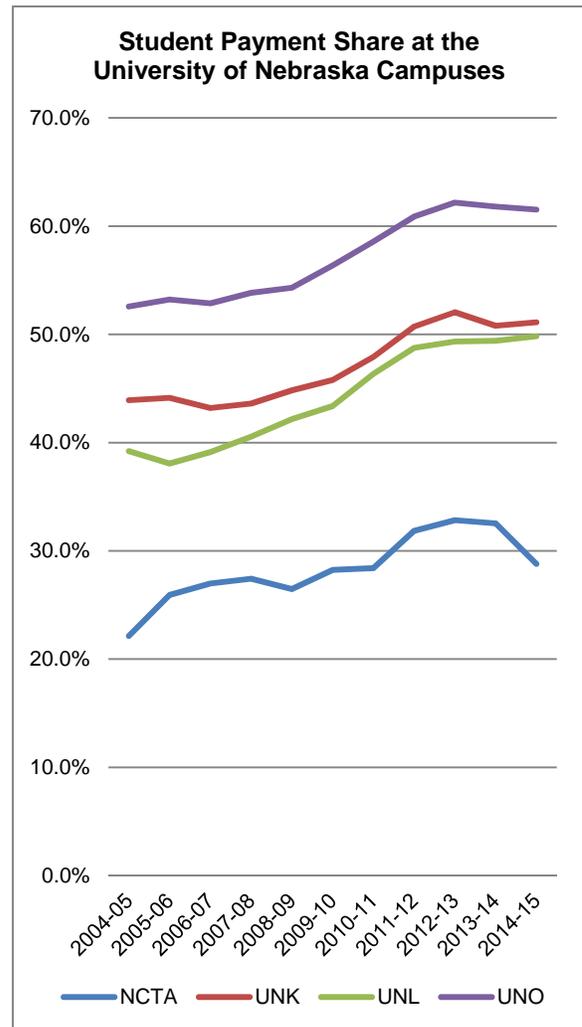

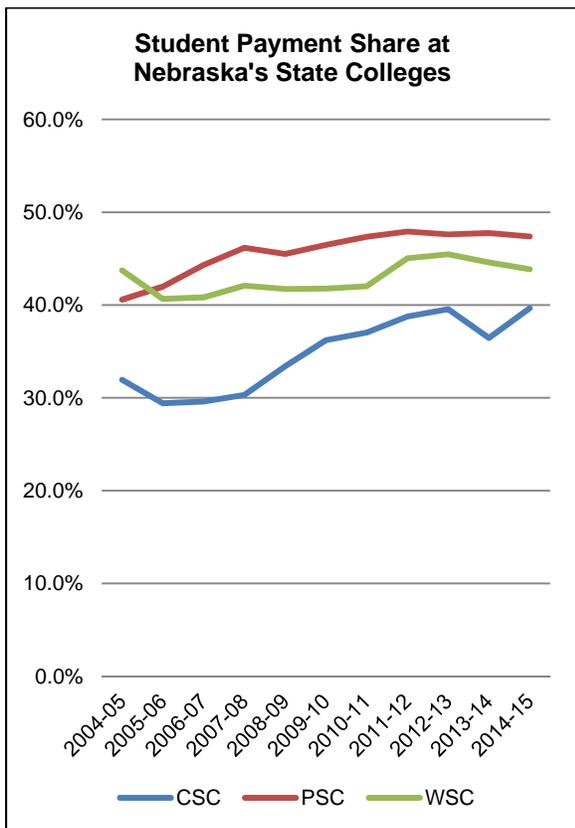

- WNCC showed no change, while MCC showed a 2% decline.
- Among the other institutions, NECC showed the smallest increase at 9%, while CSC had the largest increase at 50%.

<sup>1</sup> Net price is defined as the total cost of attendance minus any grants or scholarships. UNMC is not included, as it does not enroll first-time students.

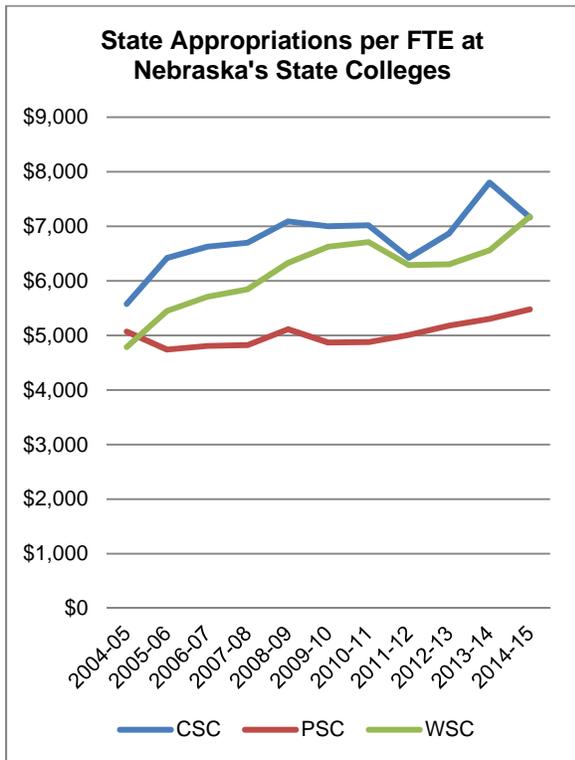

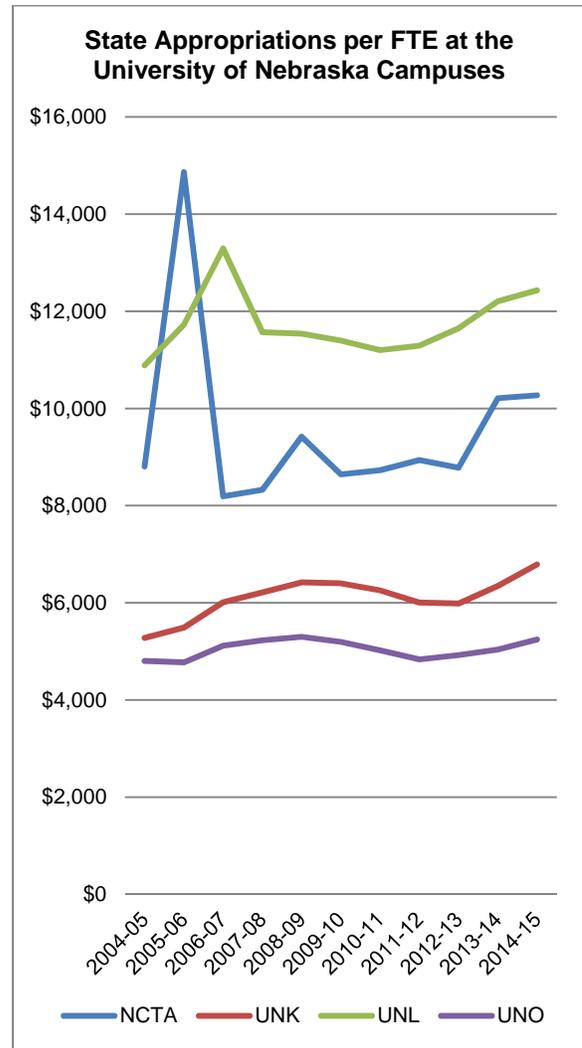

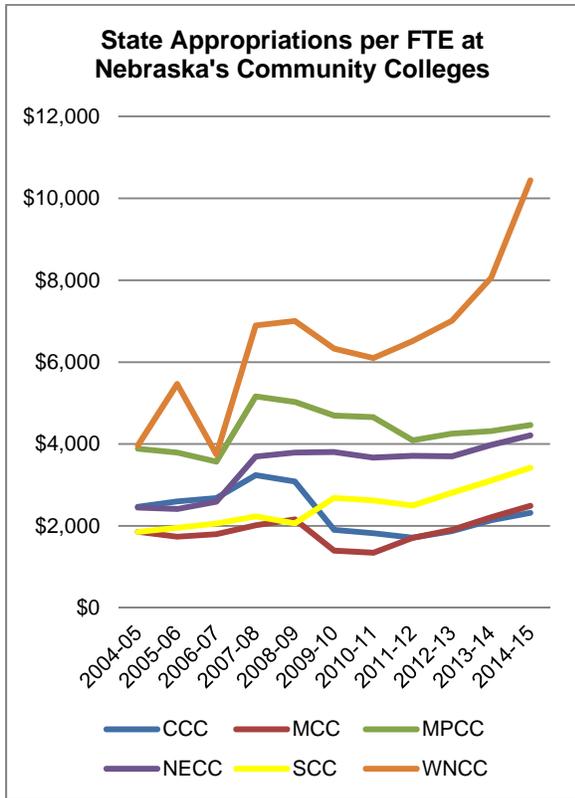

From 2004-05 to 2014-15, the **student payment share** increased at most of Nebraska's public postsecondary institutions<sup>1</sup>.

- CCC, NECC and WNCC showed a decrease of 22%, 22% and 21%, respectively.
- Among the other institutions, SCC showed the smallest increase at 1%, while NCTA had the largest increase at 30%.

<sup>1</sup> Student payment share is the percentage that students' tuition and fees contribute yearly to an institution's income. The other contributors are state general appropriations and, for community colleges, local (property tax) revenue.

From 2004-05 to 2014-15, **state appropriations per FTE** increased at most of Nebraska's public postsecondary institutions<sup>1</sup>.

- CCC showed a decrease of 6%.
- Among the other institutions, PSC showed the smallest increase at 8%, while WNCC had the largest increase at 163%. The increase at WNCC is largely due to a change in classification of some courses from credit to noncredit. This measure includes FTE from credit-bearing courses only.

<sup>1</sup> UNMC is not included in student share or state appropriations per FTE due to the nature of its programs and student body.

## INTRODUCTION

Nebraska statute 85-1416(2)(c) requires the Coordinating Commission for Postsecondary Education to prepare biennially the *Tuition, Fees, and Financial Aid Report*. College affordability is an important component of the Commission's *Comprehensive Statewide Plan for Postsecondary Education* (Coordinating Commission for Postsecondary Education, 2016), which includes a major statewide goal that states:

*Nebraska postsecondary institutions and policymakers will collaborate to ensure that lack of financial resources will not prevent students from accessing and completing postsecondary education in a timely manner without unreasonable student debt.*

This report studies the public policy issues relating to tuition, fees, and financial aid for students attending Nebraska's public postsecondary institutions. It examines significant, interrelated issues facing the state's students and its institutions of higher education, such as:

- The affordability of attending a public postsecondary institution;
- The state's level of investment in higher education; and
- Trends in financial aid, including Nebraska's state grant program.

The appendices of this report offer in-depth information about Nebraska's public postsecondary institutions in relation to their peer groups in:

- State appropriations per full-time equivalent student;
- Student payment share and affordability;
- Tuition, fees, and enrollment trends;
- Tuition and fee increases compared to inflation; and
- Financial aid.

### Data Caveats

Most data for this report were obtained from the Integrated Postsecondary Education Data System (IPEDS), a database of educational statistics collected and maintained by the U.S. Department of Education. All postsecondary institutions that participate in federal financial aid programs must complete a number of IPEDS surveys annually. Some financial aid data used in this report were obtained from the U.S. Department of Education's office of Federal Student Aid (FSA). Because the Nebraska College of Technical Agriculture is treated as a component of the University of Nebraska Lincoln by FSA, its financial aid information was obtained from the Coordinating Commission's Supplemental Form.

Comparisons with peer institutions in the appendix allow each of Nebraska's public postsecondary institutions to assess key indicators in relation to data from similar institutions. As discussed in the Commission's *Comprehensive Statewide Plan for Postsecondary Education* (Coordinating Commission for Postsecondary Education, 2016), comparisons also provide a method of assessing an institution's progress toward

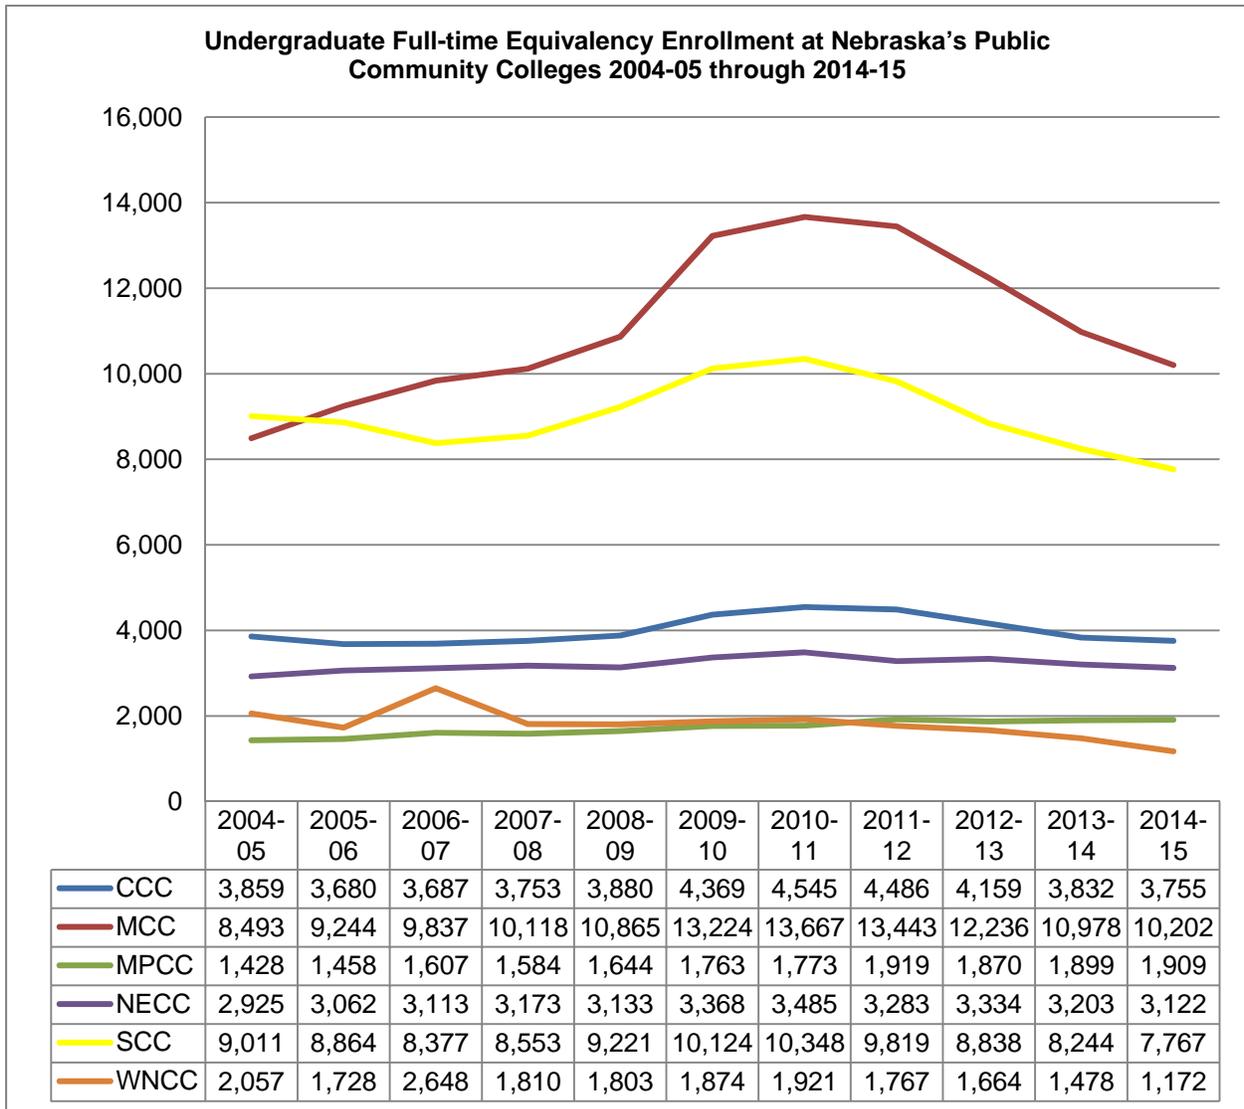

specific goals and outcomes. This information should also help promote attainment of the major statewide goals in the *Comprehensive Plan*.

New sets of peer institutions for the community colleges were selected in 2014 by the Coordinating Commission in consultation with the presidents of each respective Nebraska community college and were used for the first time in the 2014 report. New peers were selected for the state colleges in consultation with the Nebraska State College System office and the University of Nebraska campuses in consultation with the University of Nebraska Central Administration in 2014 and 2015. Those peers are being used for the first time in this year's appendix.

## Enrollment

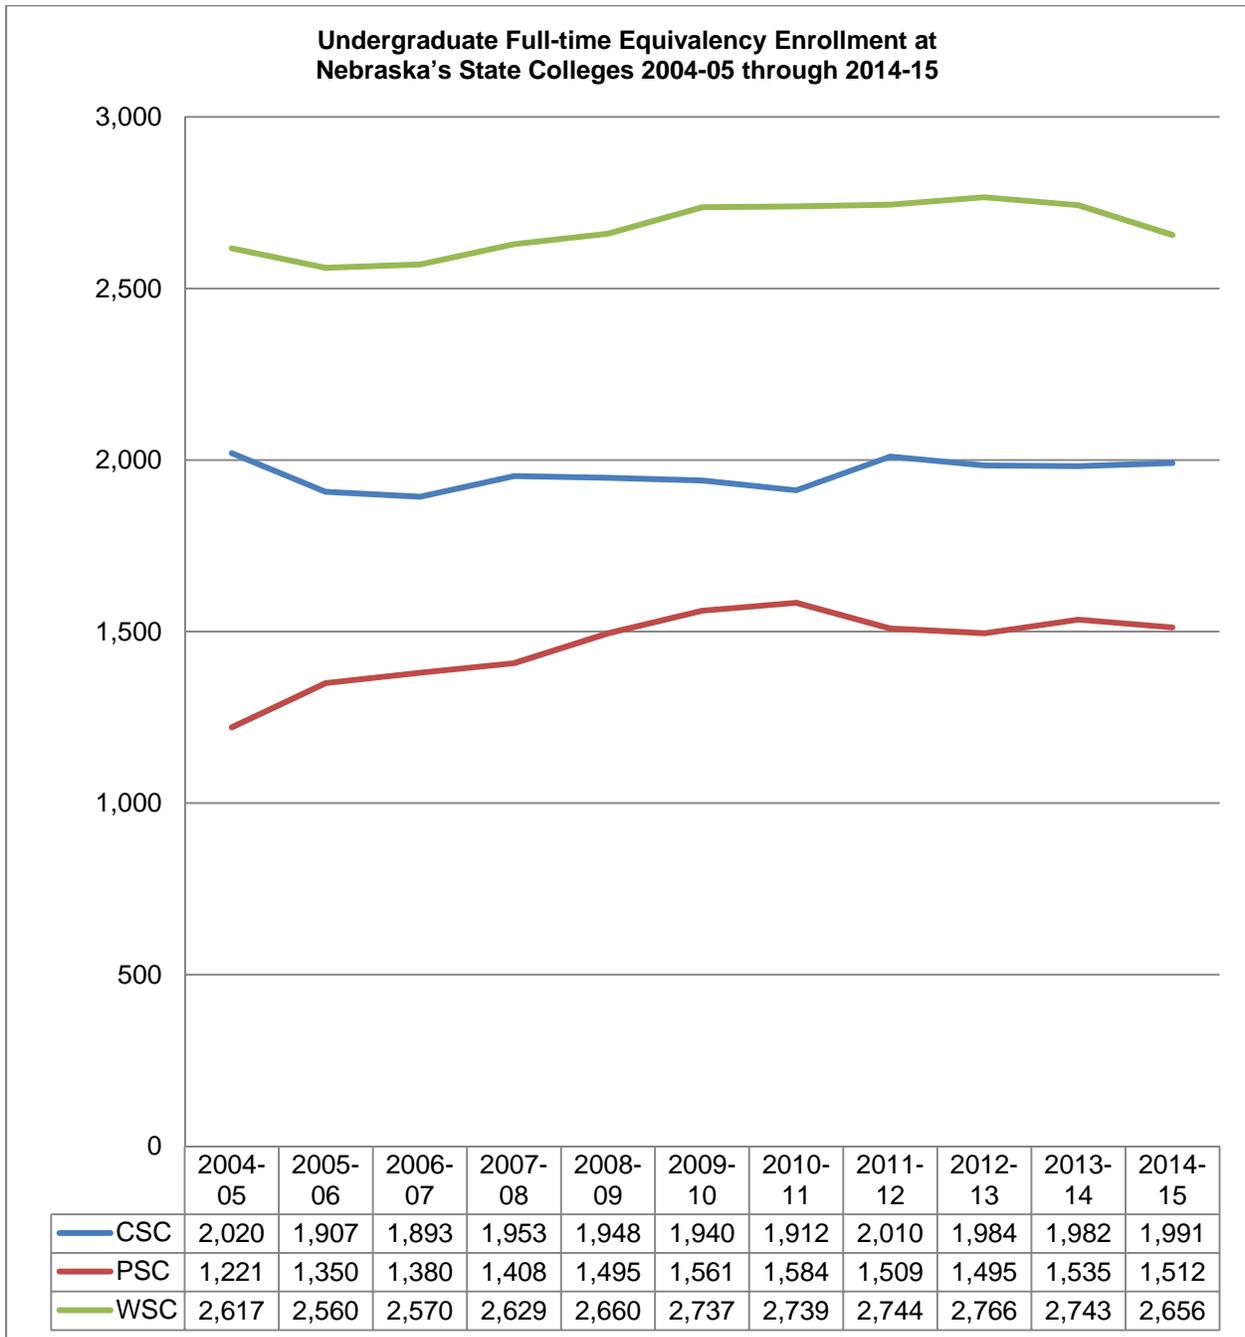

To provide context for measures in this report based on full-time equivalency enrollment, the following charts show the enrollment trends for Nebraska’s public postsecondary institutions.

### Undergraduate FTE Enrollment

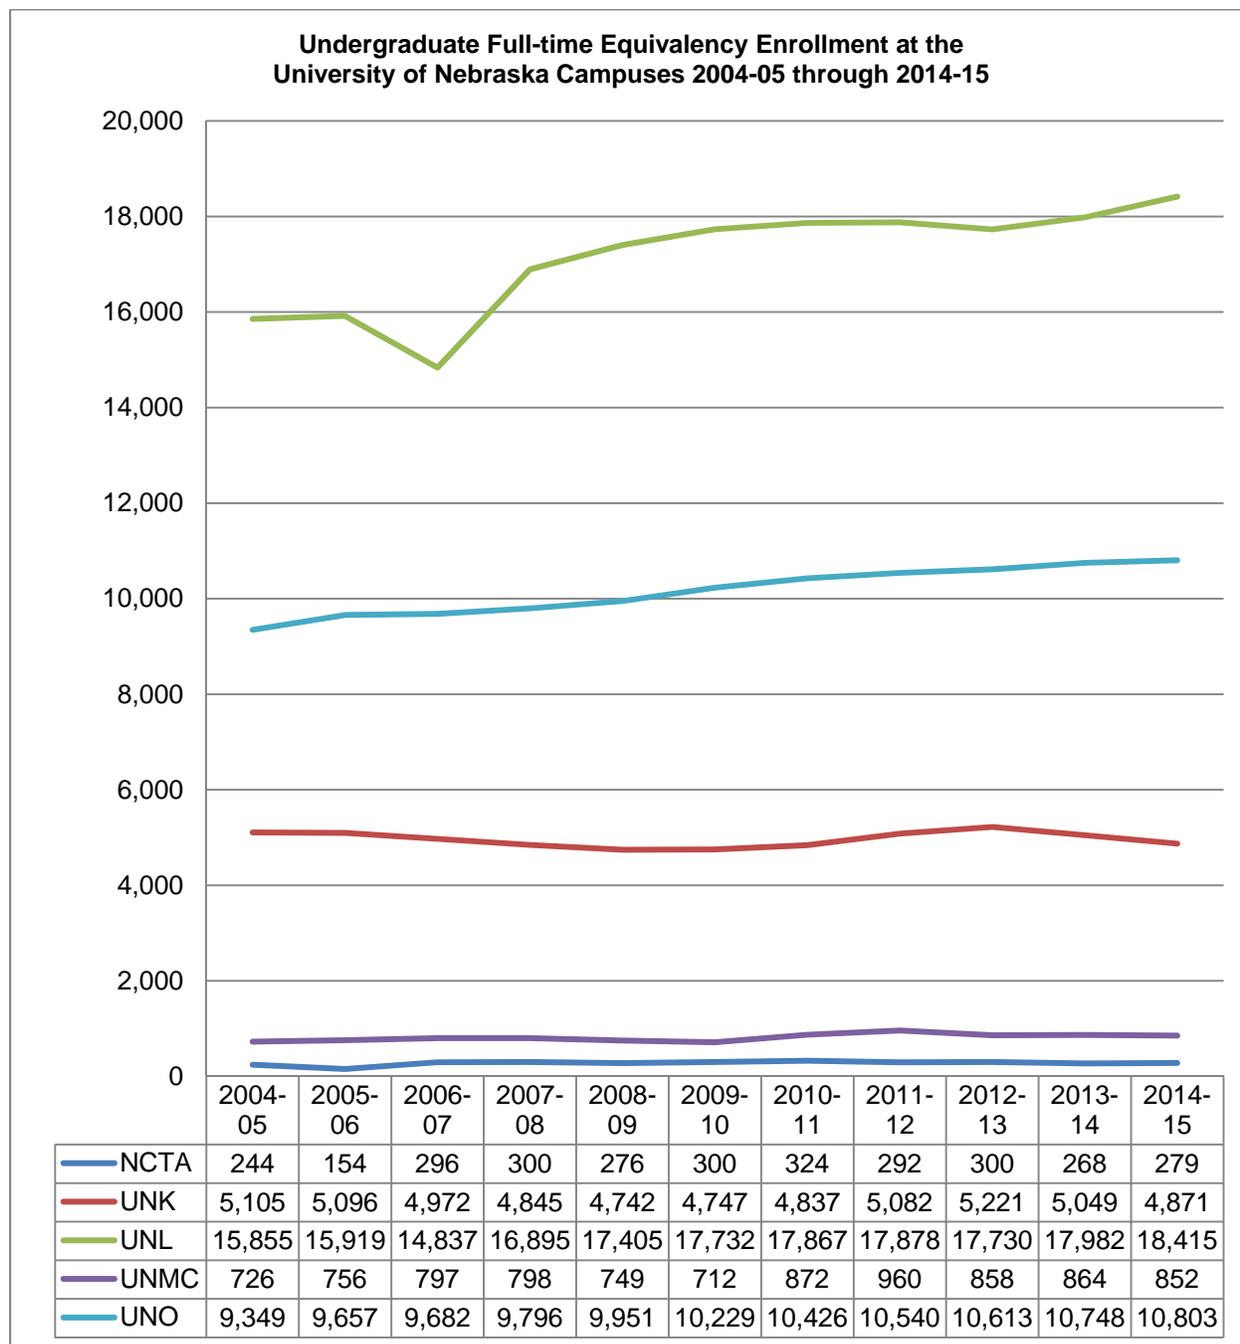

From 2004-05 to 2014-15, undergraduate FTE enrollment at Nebraska’s public community colleges:

- increased 34% at Mid-Plains Community College
- increased 20% at Metropolitan Community College
- increased 7% at Northeast Community College
- *decreased* 3% at Central Community College
- *decreased* 14% at Southeast Community College
- *decreased* 43% at Western Nebraska Community College

From 2004-05 to 2014-15, undergraduate FTE enrollment at Nebraska's state colleges:

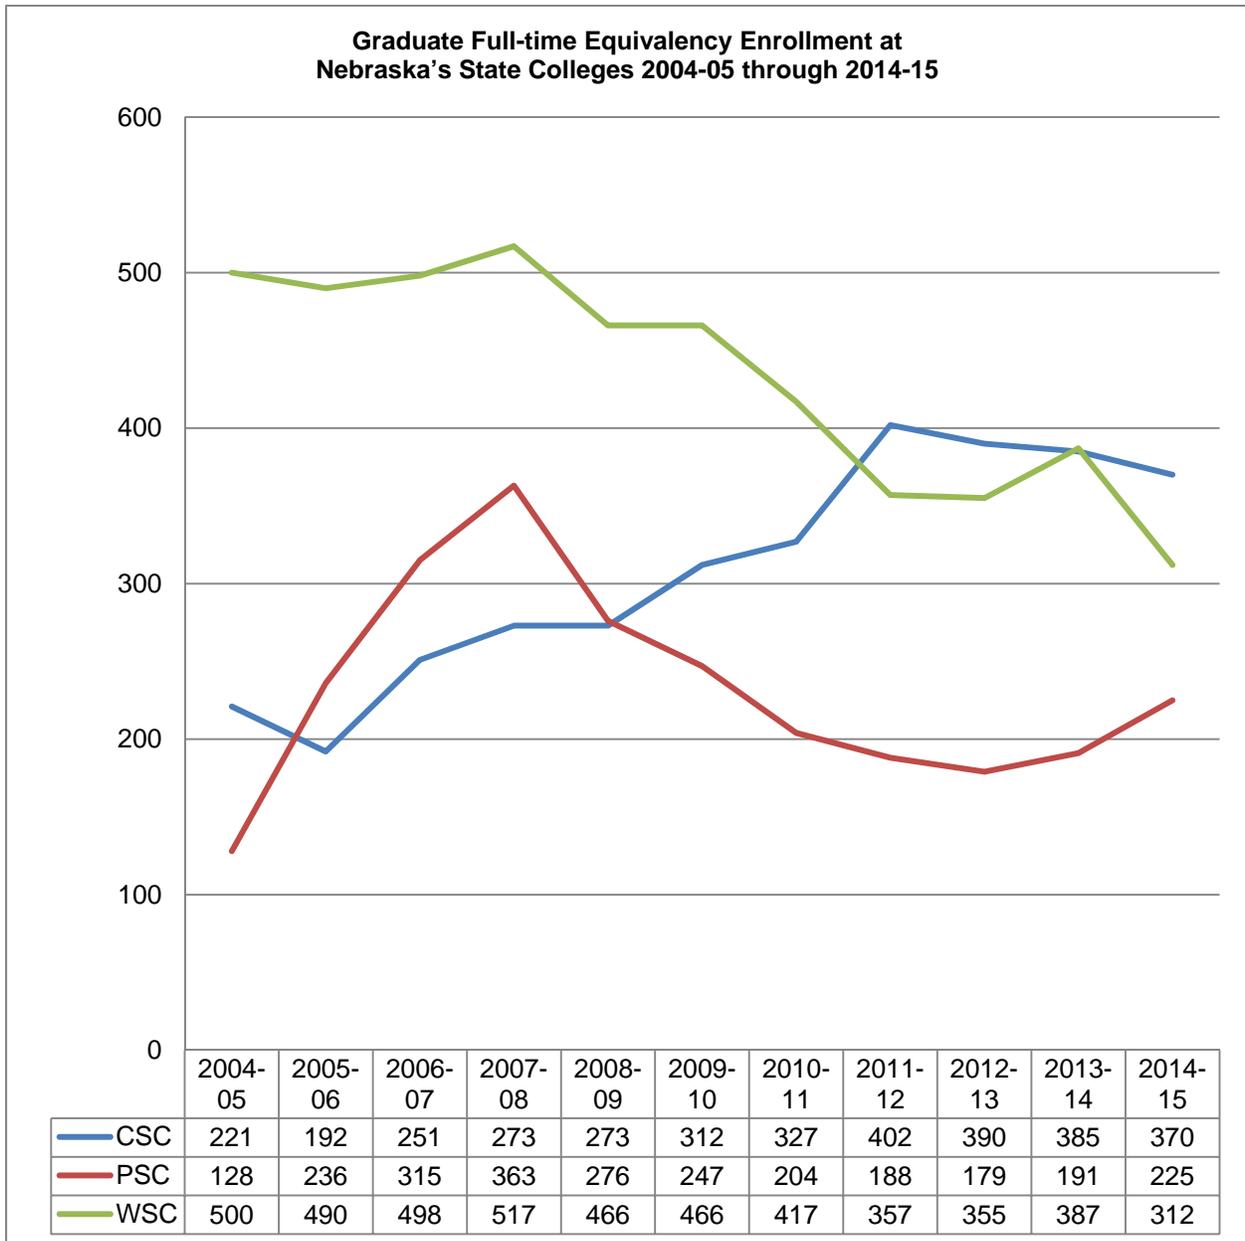

- increased 24% at Peru State College
- increased 1% at Wayne State College
- *decreased* 1% at Chadron State College

From 2004-05 to 2014-15, undergraduate FTE enrollment at the University of Nebraska campuses:

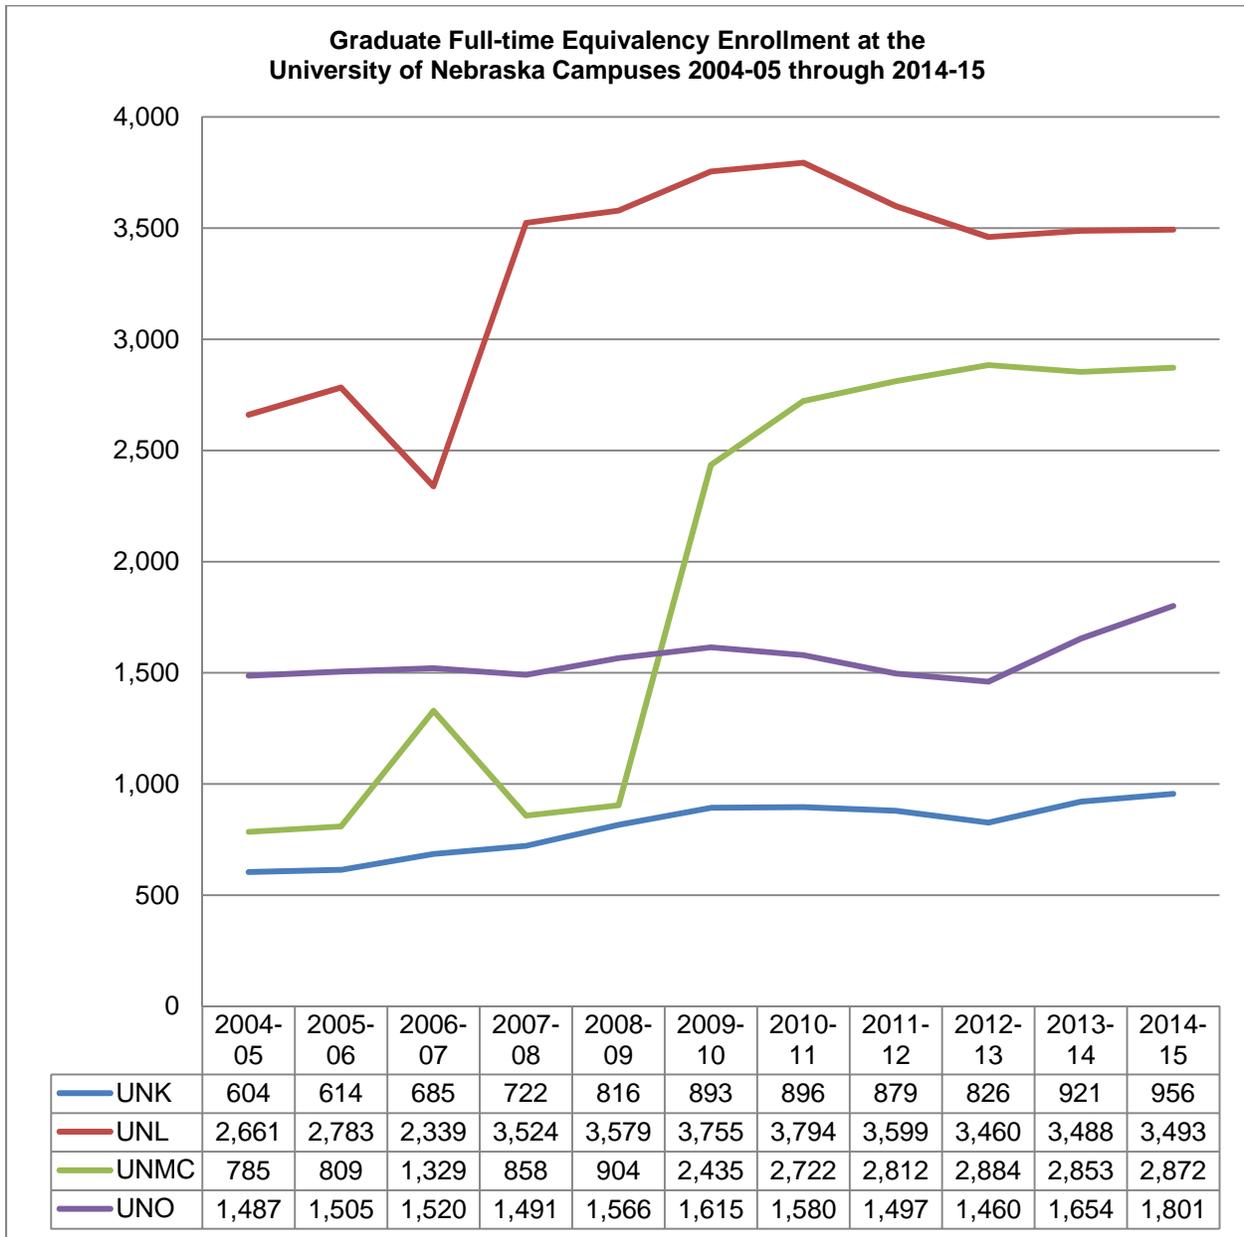

- increased 17% at the University of Nebraska Medical Center
- increased 16% at the University of Nebraska – Lincoln
- increased 16% at the University of Nebraska at Omaha
- increased 14% at the Nebraska College of Technical Agriculture
- *decreased* 5% at the University of Nebraska at Kearney

**Graduate FTE Enrollment**

From 2004-05 to 2014-15, graduate FTE enrollment at Nebraska's state colleges:

- increased 76% at Peru State College
- increased 67% at Chadron State College
- *decreased* 38% at Wayne State College

From 2004-05 to 2014-15, graduate FTE enrollment at the University of Nebraska campuses:

- increased 266% at the University of Nebraska Medical Center
- increased 58% at the University of Nebraska at Kearney
- increased 31% at the University of Nebraska – Lincoln
- increased 21% at the University of Nebraska at Omaha

## AFFORDABILITY

Affordable access to postsecondary education is a foundational value and a major goal of Nebraska's *Comprehensive Statewide Plan for Postsecondary Education* (Coordinating Commission for Postsecondary Education, 2016). To determine if college is more or less affordable in Nebraska than it has been in the past, this section examines tuition and mandatory fees, cost of attendance, and the net price of attendance.

### Tuition and Mandatory Fees

"Tuition and mandatory fees," for the purpose of this report, is the amount charged a Nebraska resident student enrolled in 30 semester or 45 quarter credit hours for the academic year. As at their peer institutions, Nebraska's public postsecondary institutions have increased their tuition and mandatory fee charges significantly over the past decade. However, the increases were mitigated in part by an agreement between the Governor, the University of Nebraska, and the Nebraska State College System in the 2012-2014 biennium budget that included a significant increase in state appropriations and led to little to no increase from 2012-13 to 2013-14 at these institutions.<sup>1</sup>

As a means of promoting broad access to postsecondary education, the Commission continues to recommend that tuition and mandatory fee charges should be at or below the mean of the established peer group for each public institution. In 2014-15, undergraduate Nebraska students attending public four-year institutions paid less than the national average of \$9,139 for tuition and mandatory fees, and Nebraska students attending two-year public institutions paid less than the national average of \$3,347. Nationwide, from 2004-05 to 2014-15, tuition and mandatory fees at community colleges increased an average of 60%, and by an average of 78% at public four-year institutions. In Nebraska, the increases were 56% and 57%, respectively (The College Board, 2014).

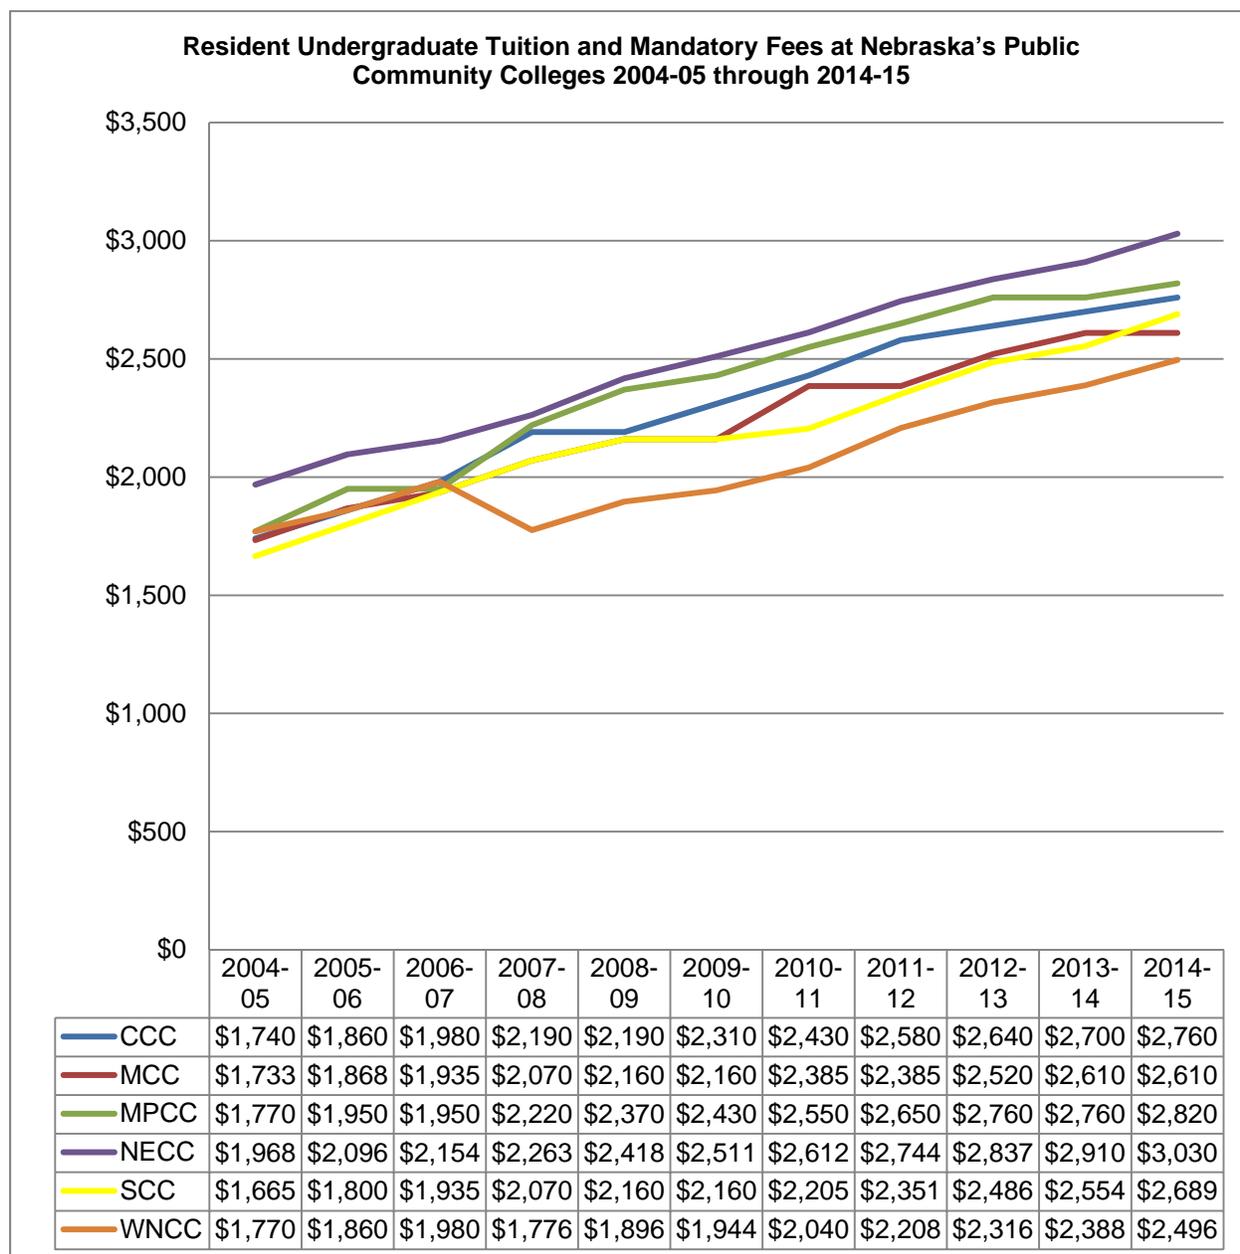

Nebraska's public postsecondary institutions continue to meet the Commission's recommendation to set tuition and fee rates at levels that are appropriate to each sector's role and mission as stated in the *Comprehensive Plan* (Coordinating Commission for Postsecondary Education, 2016). The community colleges have the lowest undergraduate resident tuition and fee rates, followed by the state colleges and then institutions in the University of Nebraska system.

Regarding nonresident tuition and fees, the Commission has encouraged Nebraska institutions of higher education to use low nonresident charges as a recruiting tool to attract out-of-state students. However, as recommended in previous *Tuition, Fees, and Financial Aid Reports*, institutions are encouraged to review nonresident charges to assure that low, nonresident rates do not adversely affect programs and tuition charges for Nebraska-resident students. Consistent with that guidance, Nebraska institutions generally charge a lower out-of-state premium than do their peers in other states. The exceptions are the University of Nebraska-Lincoln, the University of Nebraska at

<sup>1</sup> The agreement was to freeze tuition, but institutions may have increased fees.

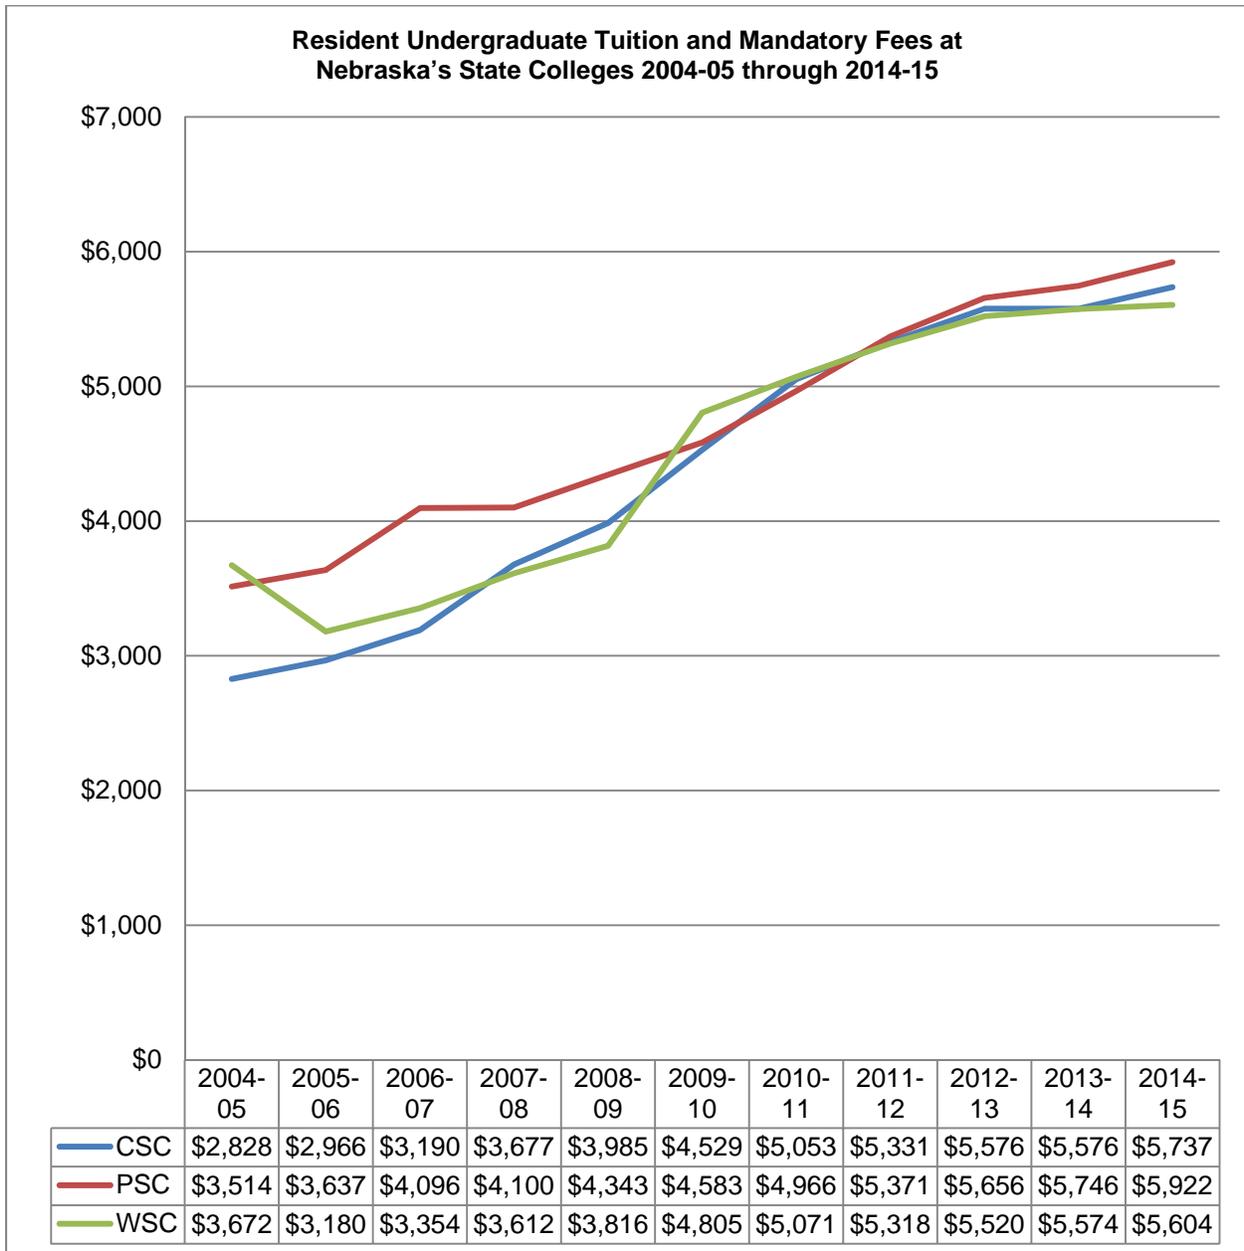

Omaha, and the University of Nebraska Medical Center. The following pages reflect changes in tuition and fees occurring with Nebraska public postsecondary institutions.

### Resident Undergraduate Tuition & Mandatory Fees

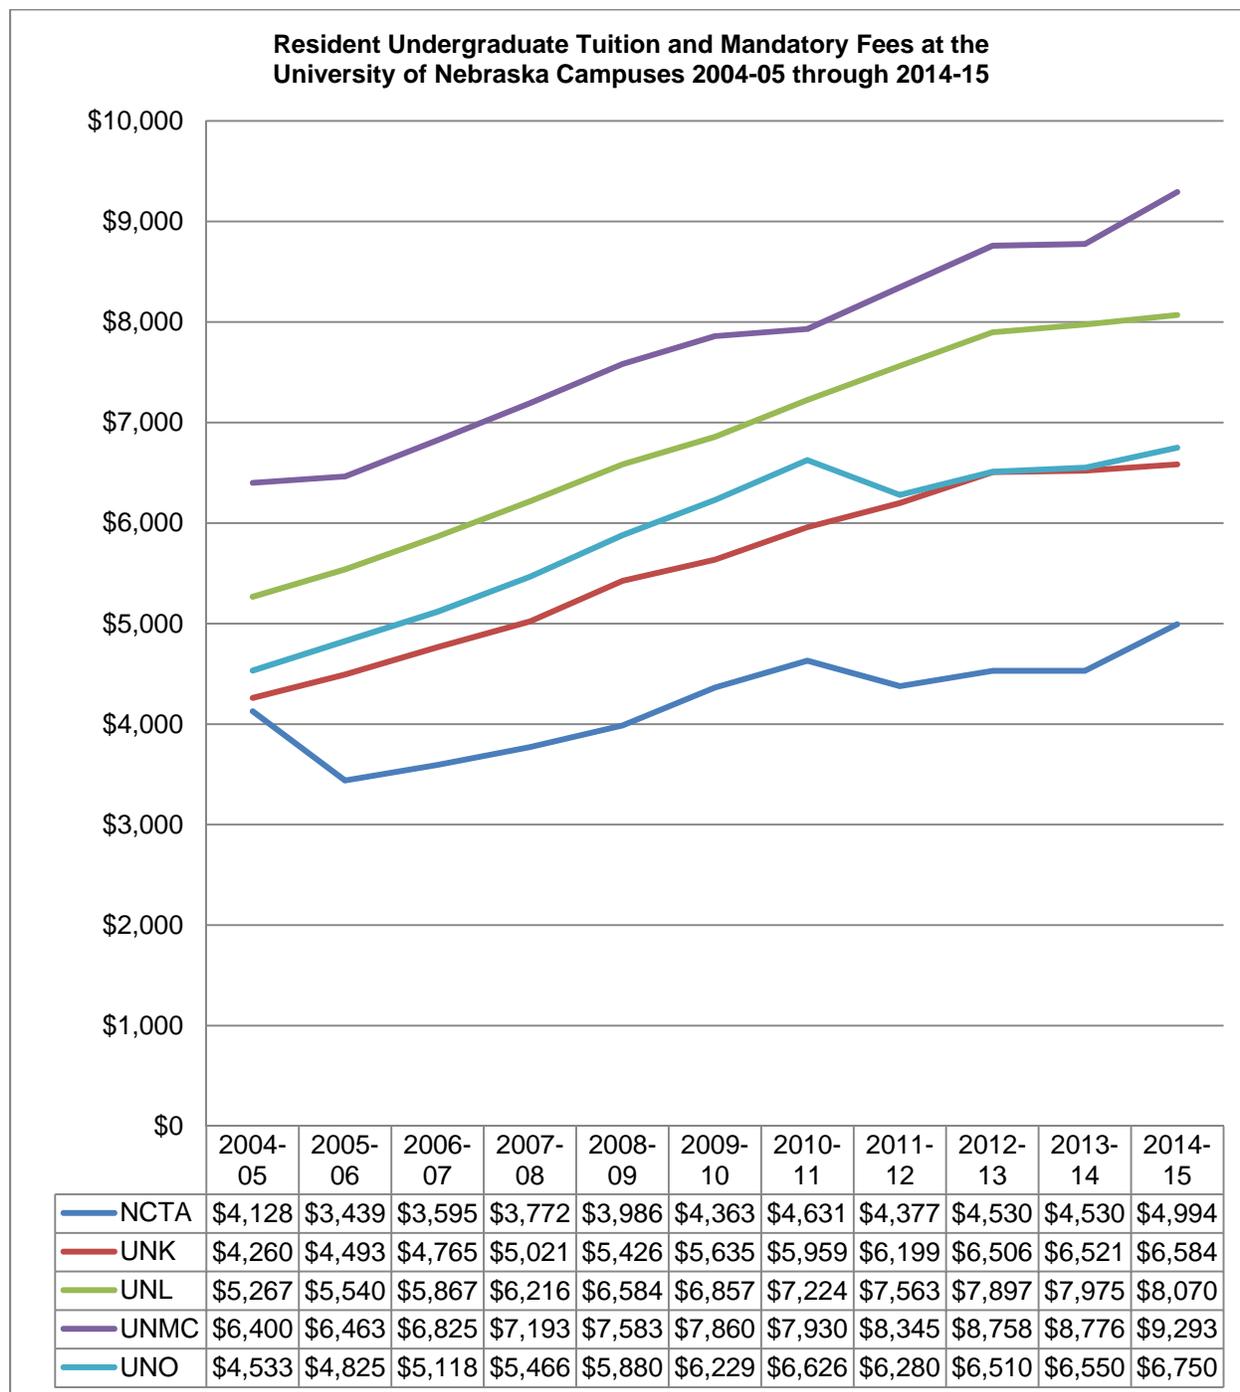

From 2004-05 to 2014-15, tuition and mandatory fees for a full-time Nebraska-resident undergraduate student at Nebraska's community colleges increased:

- 62% at Southeast Community College
- 59% at Central Community College
- 59% at Mid-Plains Community College
- 54% at Northeast Community College
- 51% at Metropolitan Community College
- 41% at Western Nebraska Community College

From 2004-05 to 2014-15, tuition and mandatory fees for a full-time Nebraska-resident undergraduate student at Nebraska's state colleges increased:

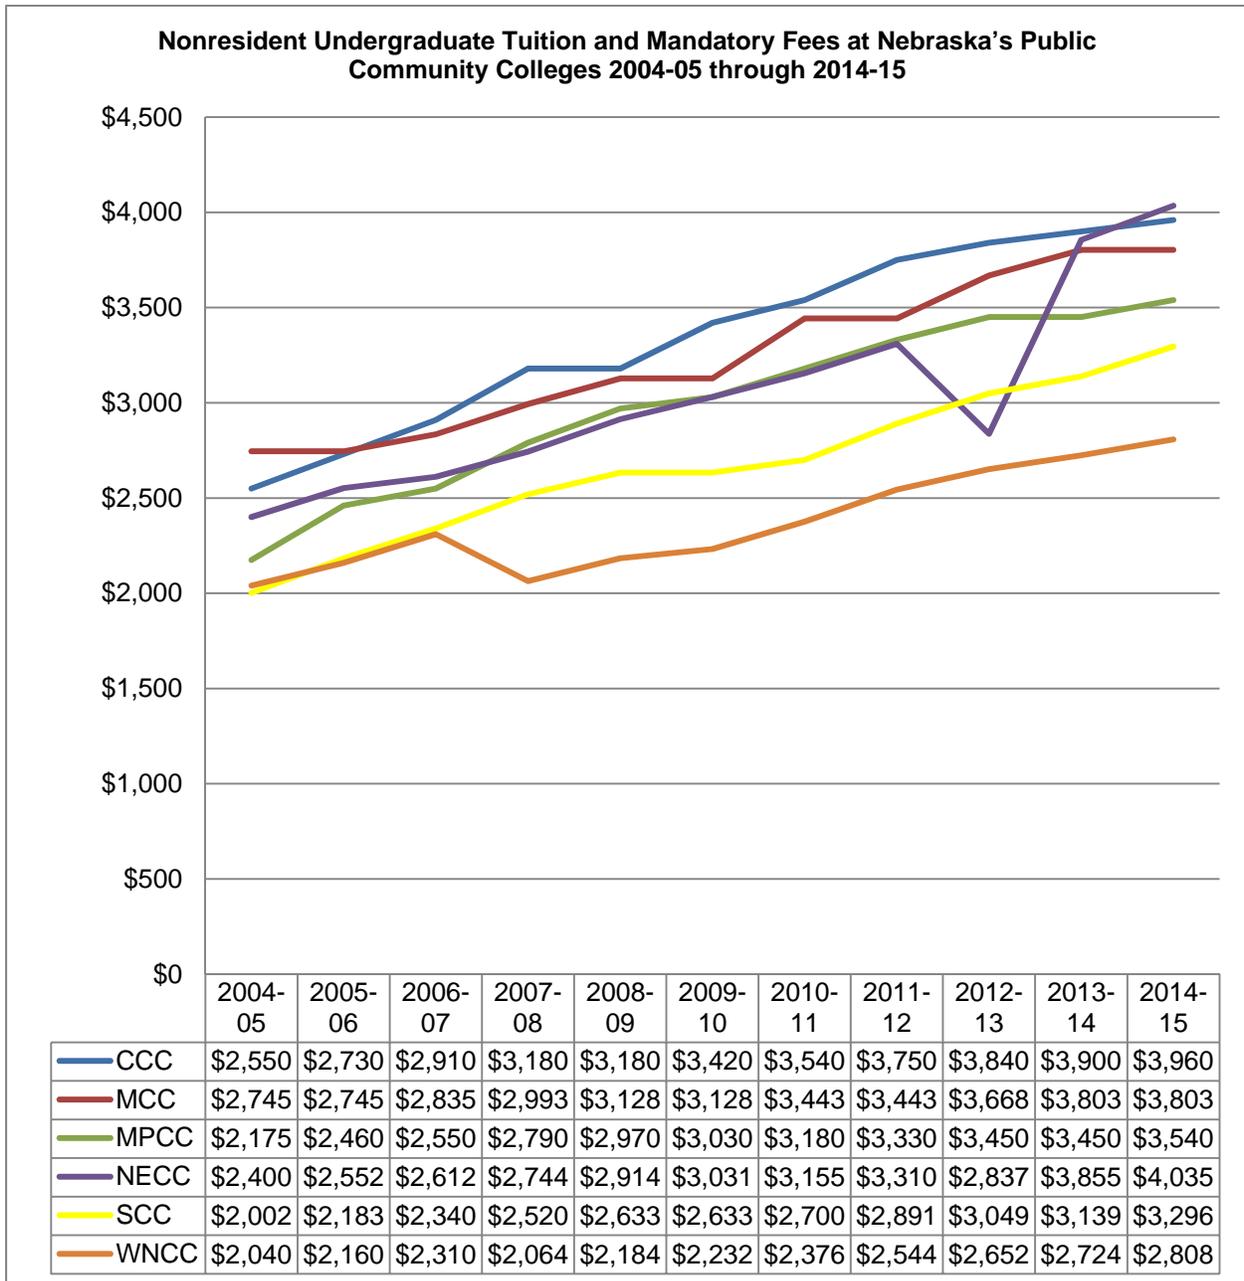

- 103% at Chadron State College
- 69% at Peru State College
- 53% at Wayne State College

From 2004-05 to 2014-15, tuition and mandatory fees for a full-time Nebraska-resident undergraduate student at the University of Nebraska campuses increased:

- 55% at the University of Nebraska at Kearney
- 53% at the University of Nebraska – Lincoln
- 49% at the University of Nebraska at Omaha
- 45% at the University of Nebraska Medical Center
- 21% at the Nebraska College of Technical Agriculture

### Nonresident Undergraduate Tuition & Mandatory Fees

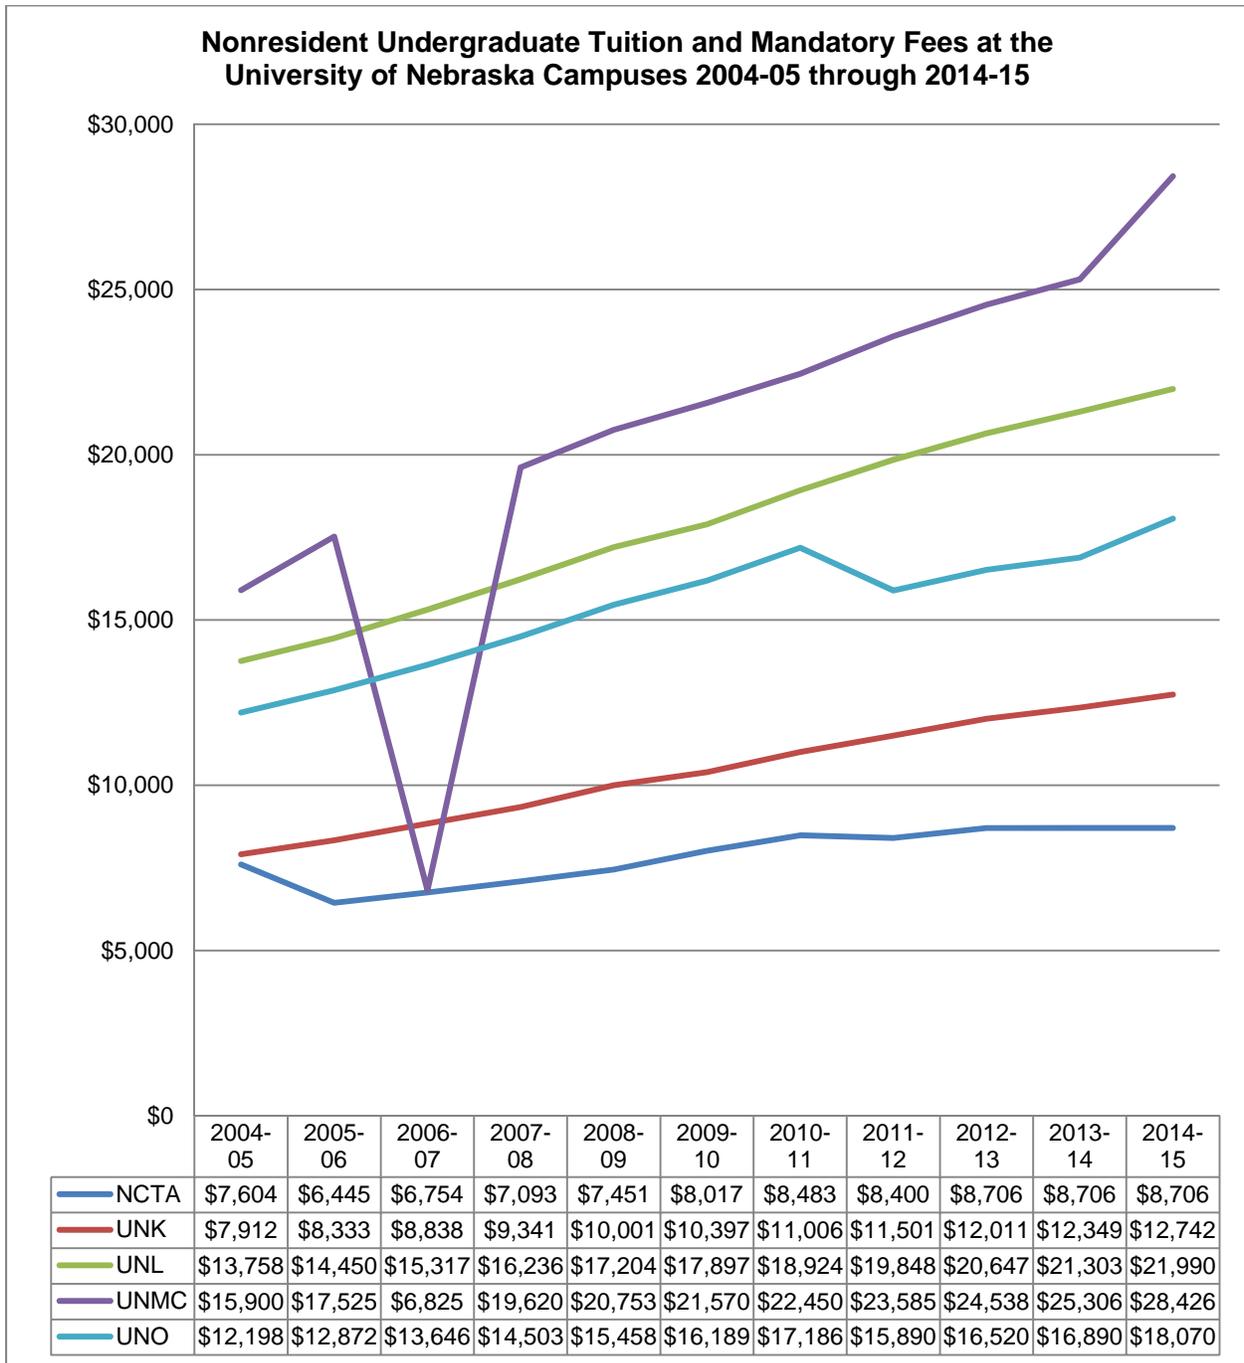

From 2004-05 to 2014-15, tuition and mandatory fees for a full-time nonresident undergraduate student at Nebraska's community colleges increased:

- 68% at Northeast Community College
- 65% at Southeast Community College
- 63% at Mid-Plains Community College
- 55% at Central Community College
- 39% at Metropolitan Community College
- 38% at Western Nebraska Community College

From 2004-05 to 2014-15, tuition and mandatory fees for a full-time nonresident undergraduate student at Nebraska's state colleges:

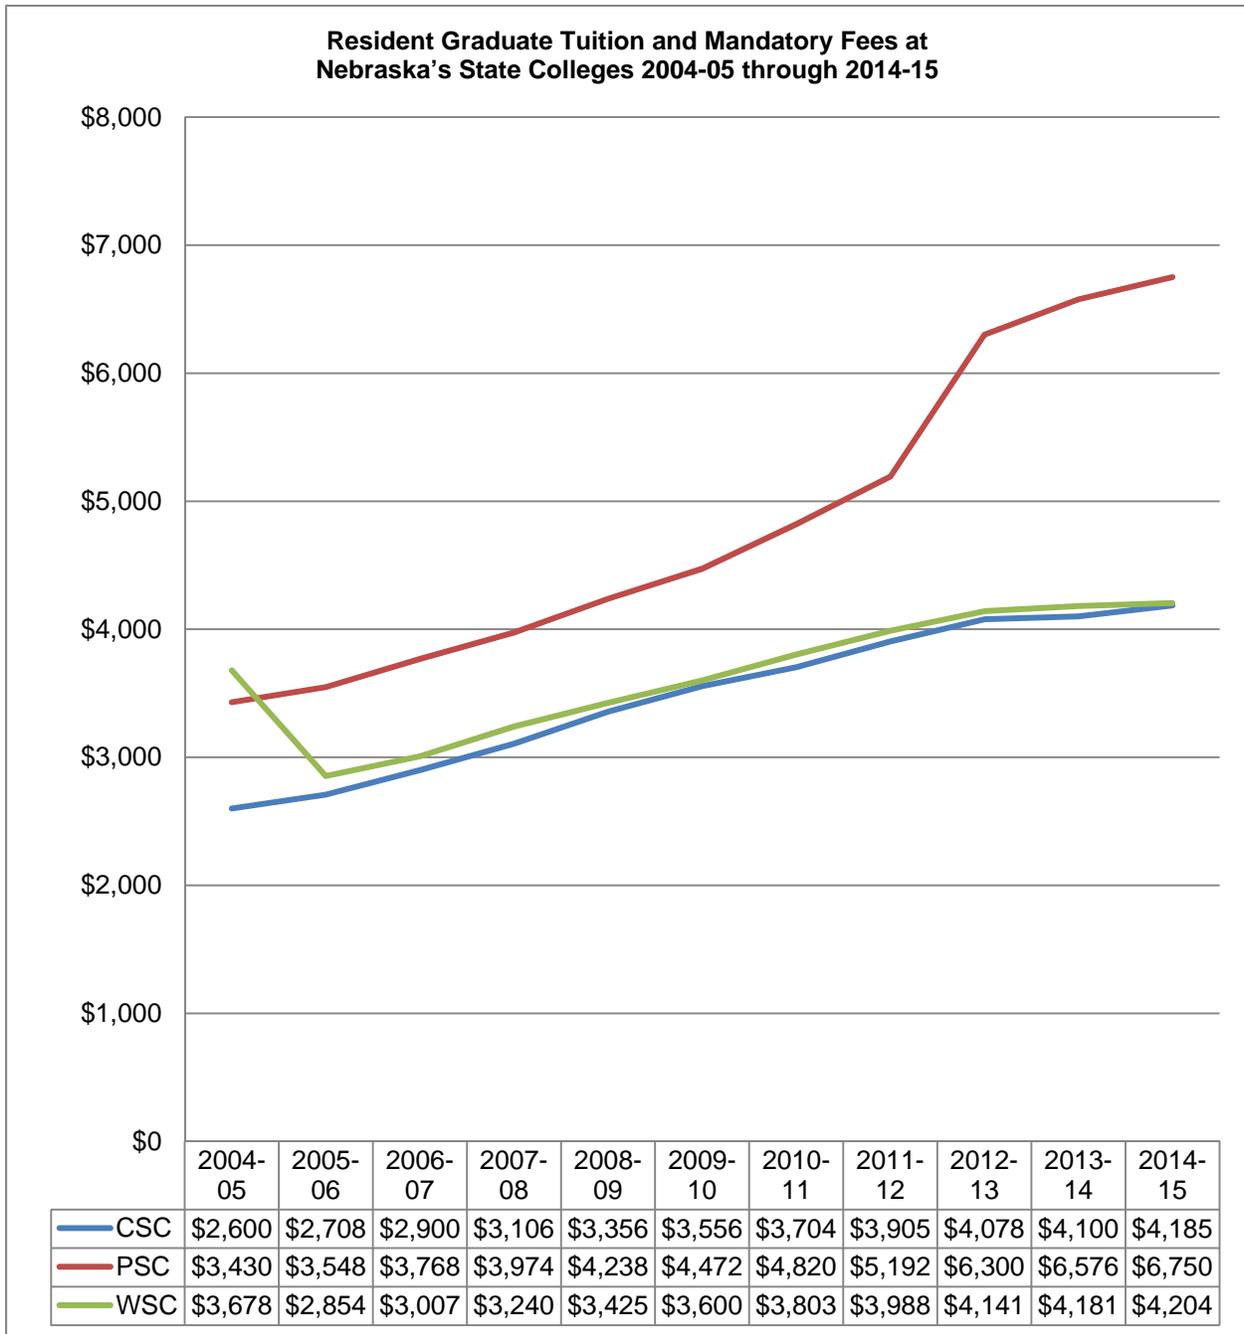

- increased 50% at Wayne State College
- increased 13% at Chadron State College
- *decreased* 7% at Peru State College

From 2004-05 to 2014-15, tuition and mandatory fees for a full-time nonresident undergraduate student at the University of Nebraska campuses increased:

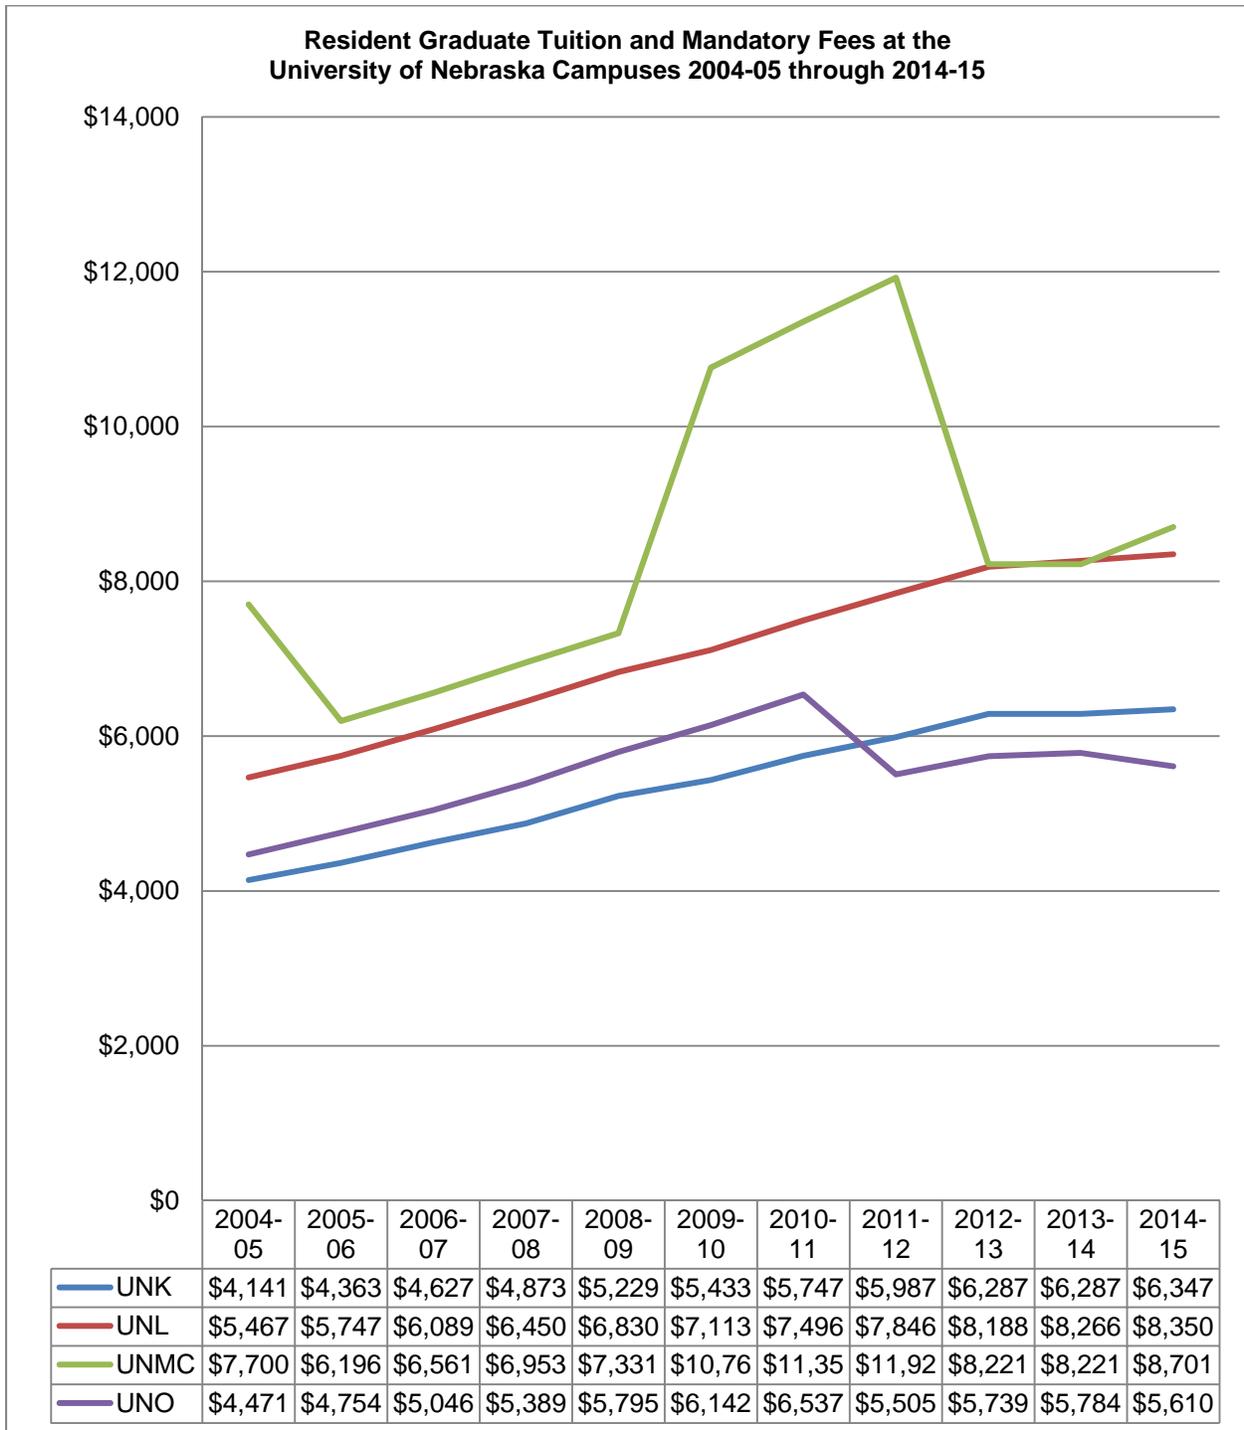

- 79% at the University of Nebraska Medical Center
- 61% at the University of Nebraska at Kearney
- 60% at the University of Nebraska – Lincoln
- 48% at the University of Nebraska at Omaha
- 14% at the Nebraska College of Technical Agriculture

### Resident Graduate Tuition & Mandatory Fees

From 2004-05 to 2014-15, tuition and mandatory fees for a full-time Nebraska-resident graduate student at Nebraska's state colleges increased:

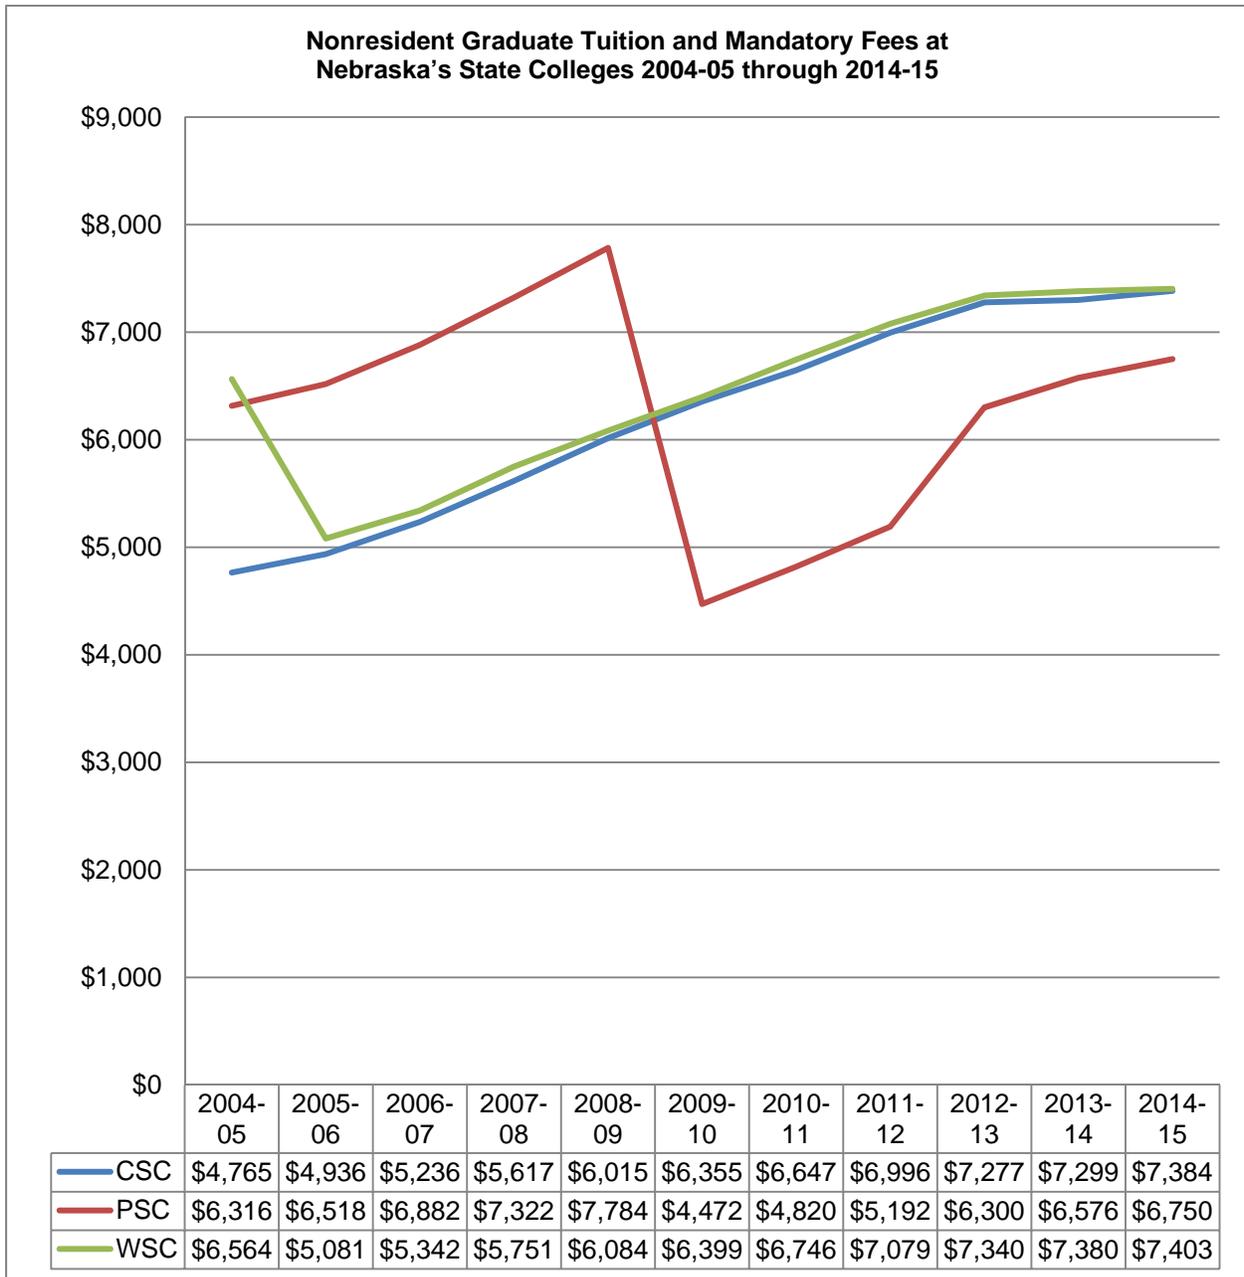

- 97% at Peru State College
- 61% at Chadron State College
- 14% at Wayne State College

From 2004-05 to 2014-15, tuition and mandatory fees for a full-time Nebraska-resident graduate student at the University of Nebraska campuses increased:

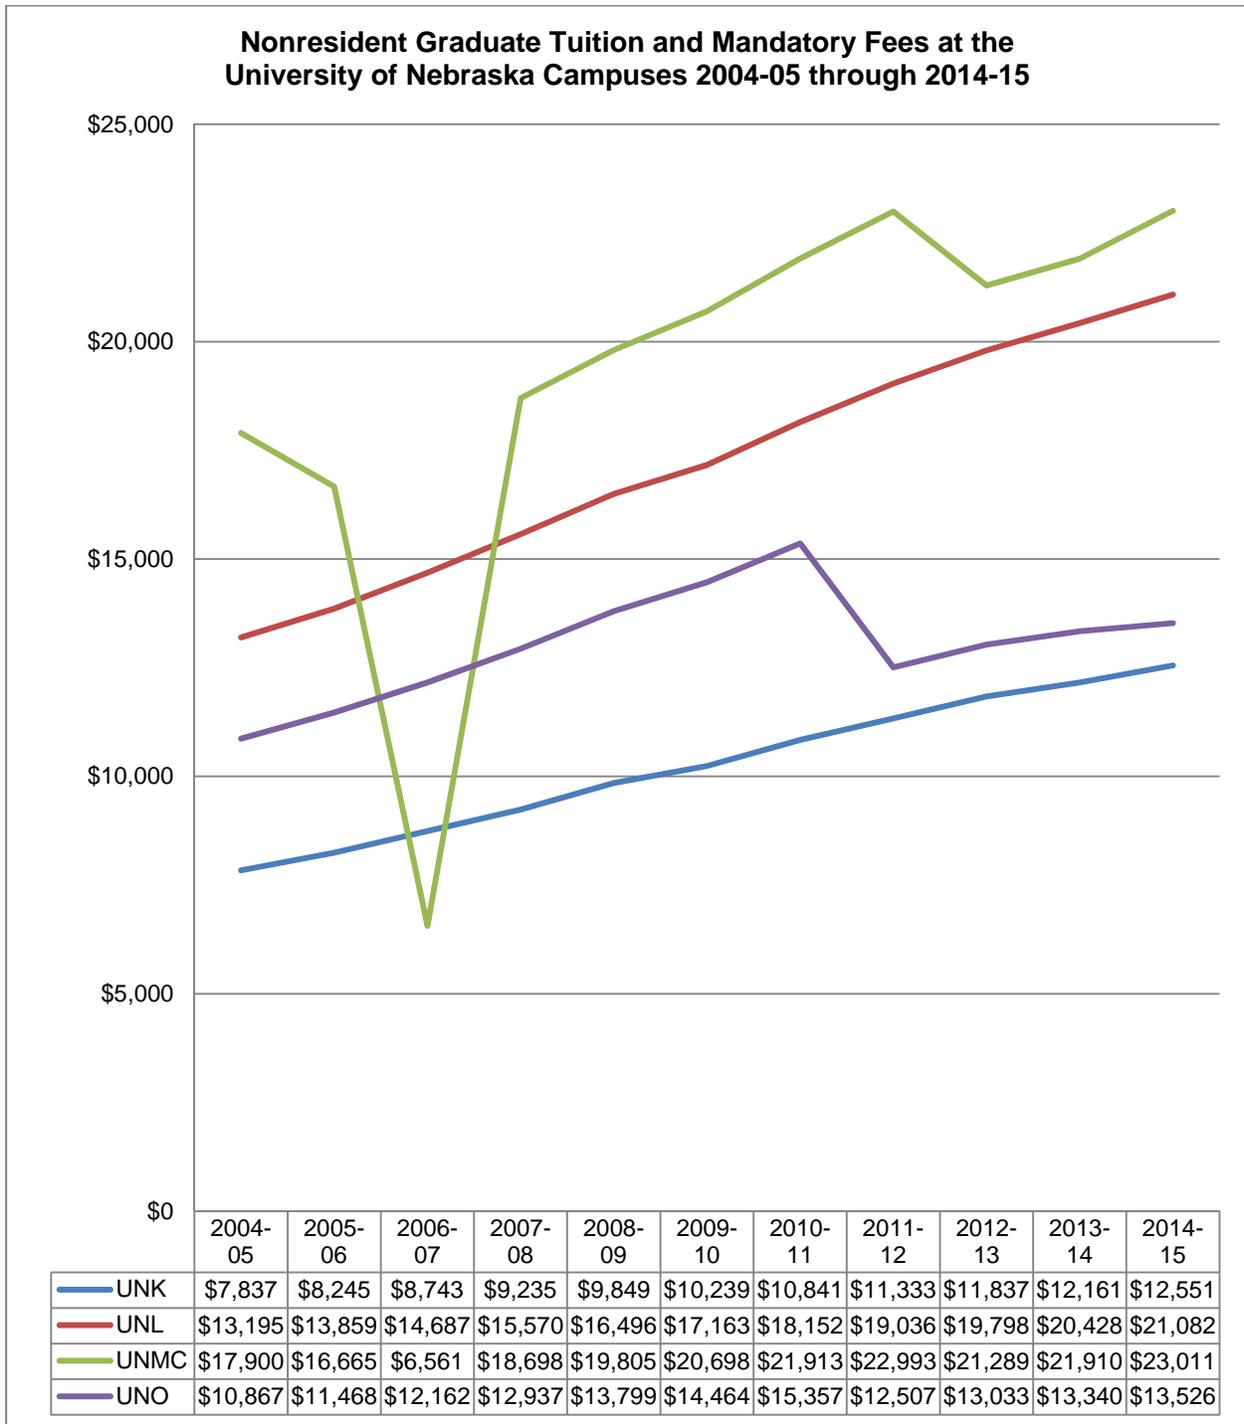

- 53% at the University of Nebraska at Kearney
- 53% at the University of Nebraska – Lincoln
- 25% at the University of Nebraska at Omaha
- 13% at the University of Nebraska Medical Center

### Nonresident Graduate Tuition & Mandatory Fees

From 2004-05 to 2014-15, tuition and mandatory fees for a full-time nonresident graduate student at Nebraska's state colleges increased:

- 55% at Chadron State College
- 13% at Wayne State College
- 7% at Peru State College

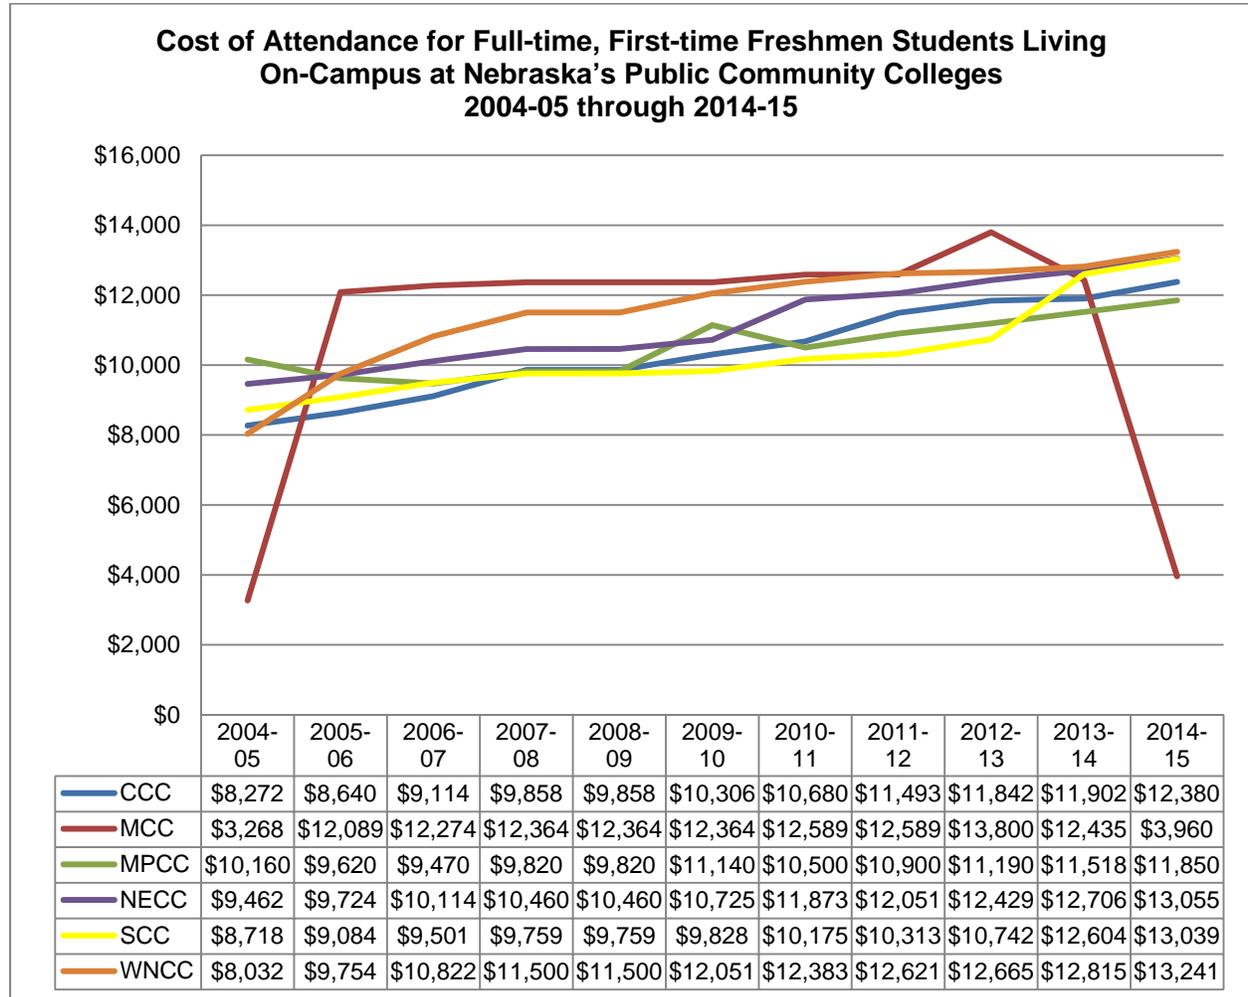

From 2004-05 to 2014-15, tuition and mandatory fees for a full-time nonresident graduate student at the University of Nebraska campuses increased:

- 60% at the University of Nebraska at Kearney
- 60% at the University of Nebraska – Lincoln
- 29% at the University of Nebraska Medical Center
- 24% at the University of Nebraska at Omaha

### Cost of Attendance

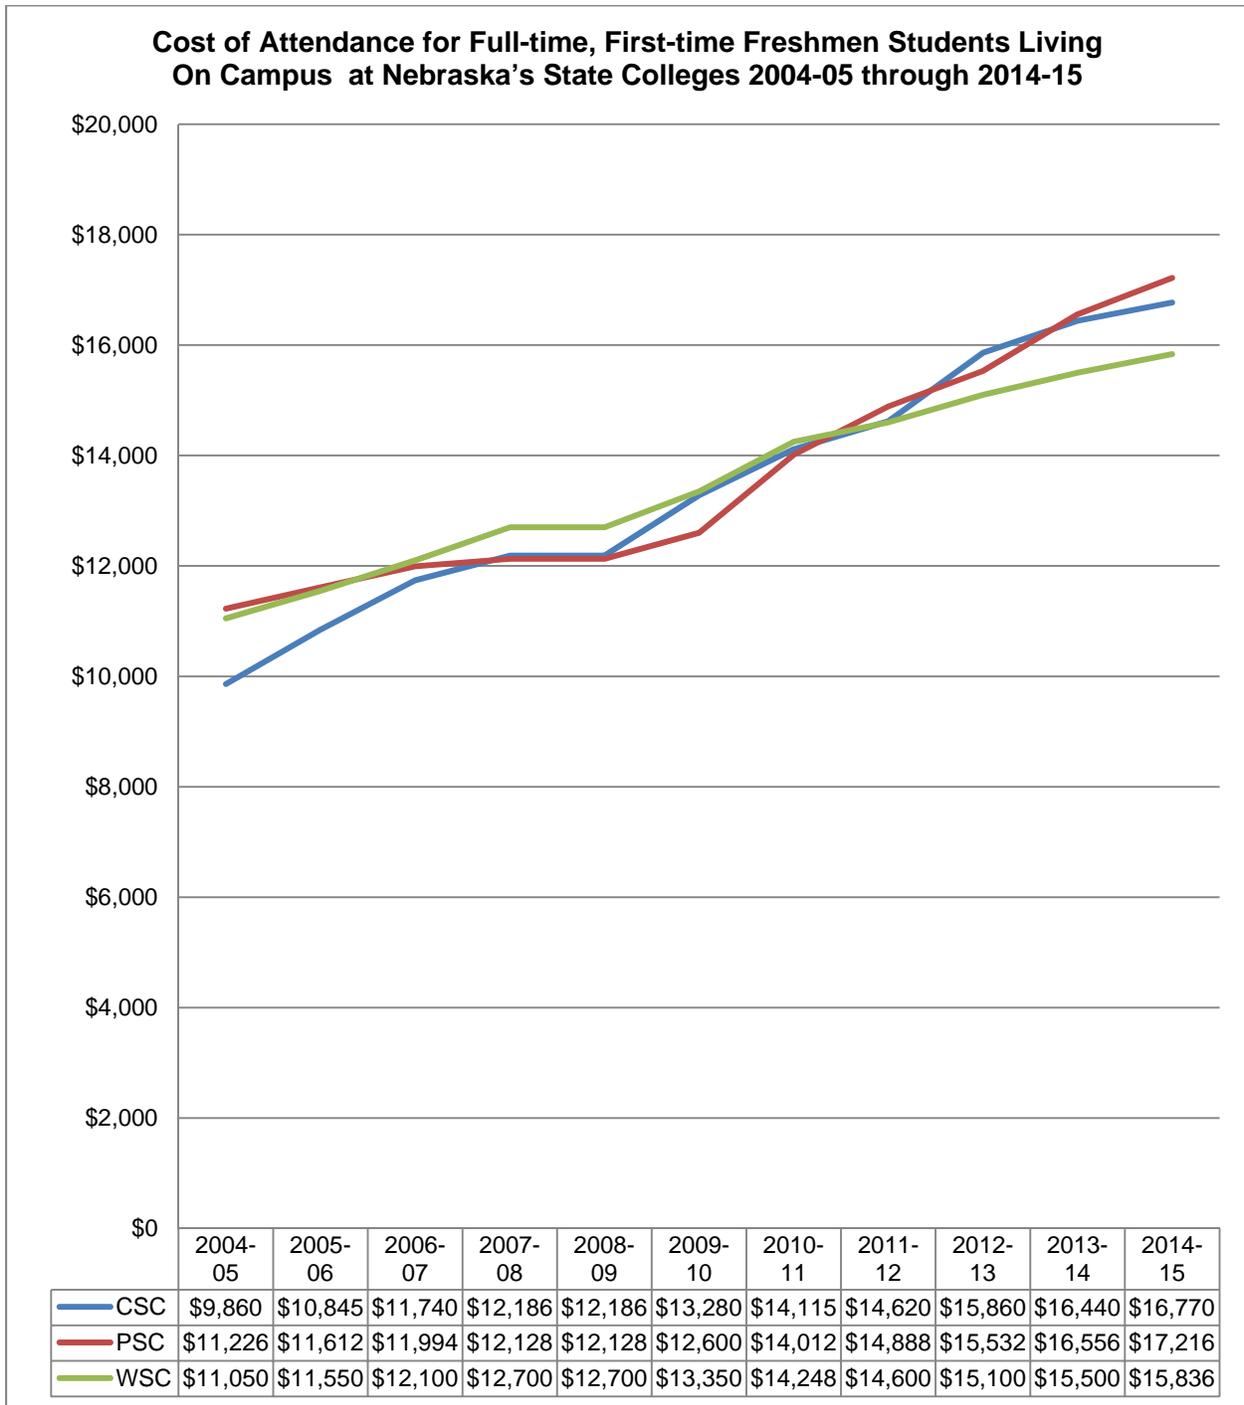

Cost of Attendance is an estimate assigned by each institution’s financial aid office of the expenses a student will have for one year of attendance at a college or university. Variables that make up the cost of attendance include tuition and fees based on the classification of the student (undergraduate/graduate, resident/non-resident, full-time/part-time), living expenses (on-campus/off-campus/with parent), books and supplies, transportation, and other miscellaneous expenses. For this report only on-campus living, transportation, and other miscellaneous expenses are reported<sup>1</sup>.

From 2004-05 to 2014-15, the cost of attendance for a full-time, first-time freshman student living on campus at Nebraska’s community colleges increased:

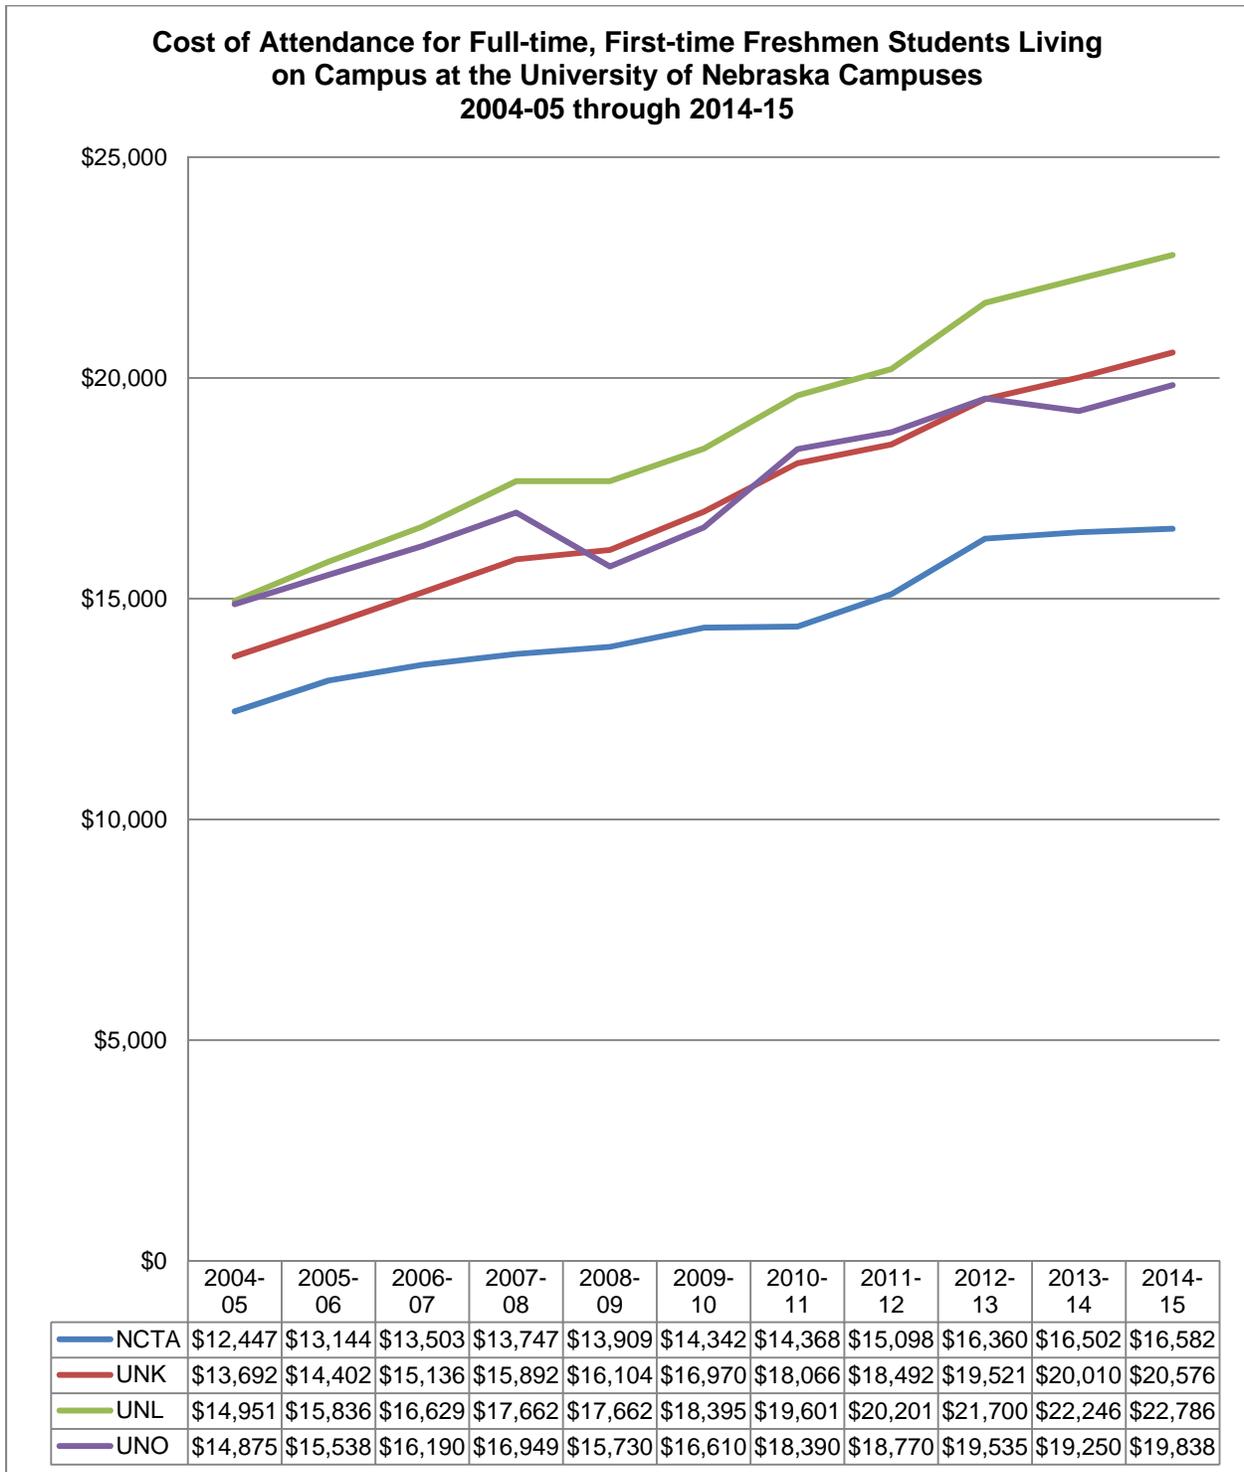

- 65% at Western Nebraska Community College
- 50% at Central Community College
- 50% at Southeast Community College
- 38% at Northeast Community College
- 21% at Metropolitan Community College
- 17% at Mid-Plains Community College

<sup>1</sup> From 2005-06 to 2013-14 MCC had on-campus housing. UNMC is not included as it does not enroll freshmen students.

From 2004-05 to 2014-15, the cost of attendance for a full-time, first-time freshman student living on campus at Nebraska’s state colleges increased:

- 70% at Chadron State College
- 53% at Peru State College
- 43% at Wayne State College

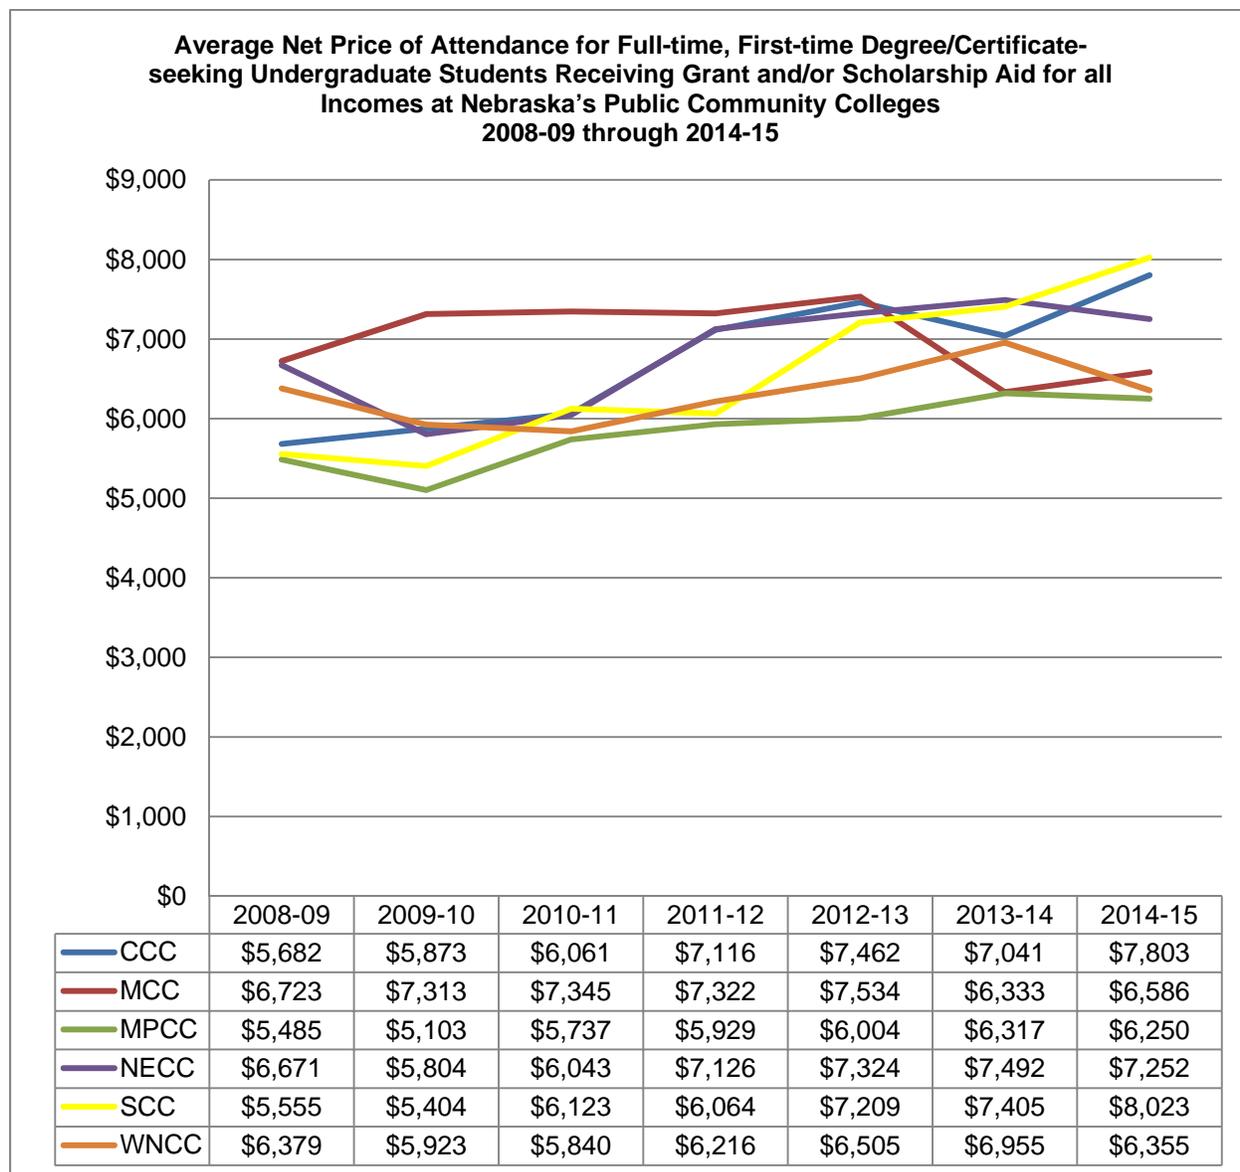

From 2004-05 to 2014-15, the cost of attendance for a full-time, first-time freshman student living on campus at the University of Nebraska campuses increased:

- 52% at the University of Nebraska – Lincoln
- 50% at the University of Nebraska at Kearney
- 33% at the Nebraska College of Technical Agriculture
- 33% at the University of Nebraska at Omaha

### Average Net Price of Attendance

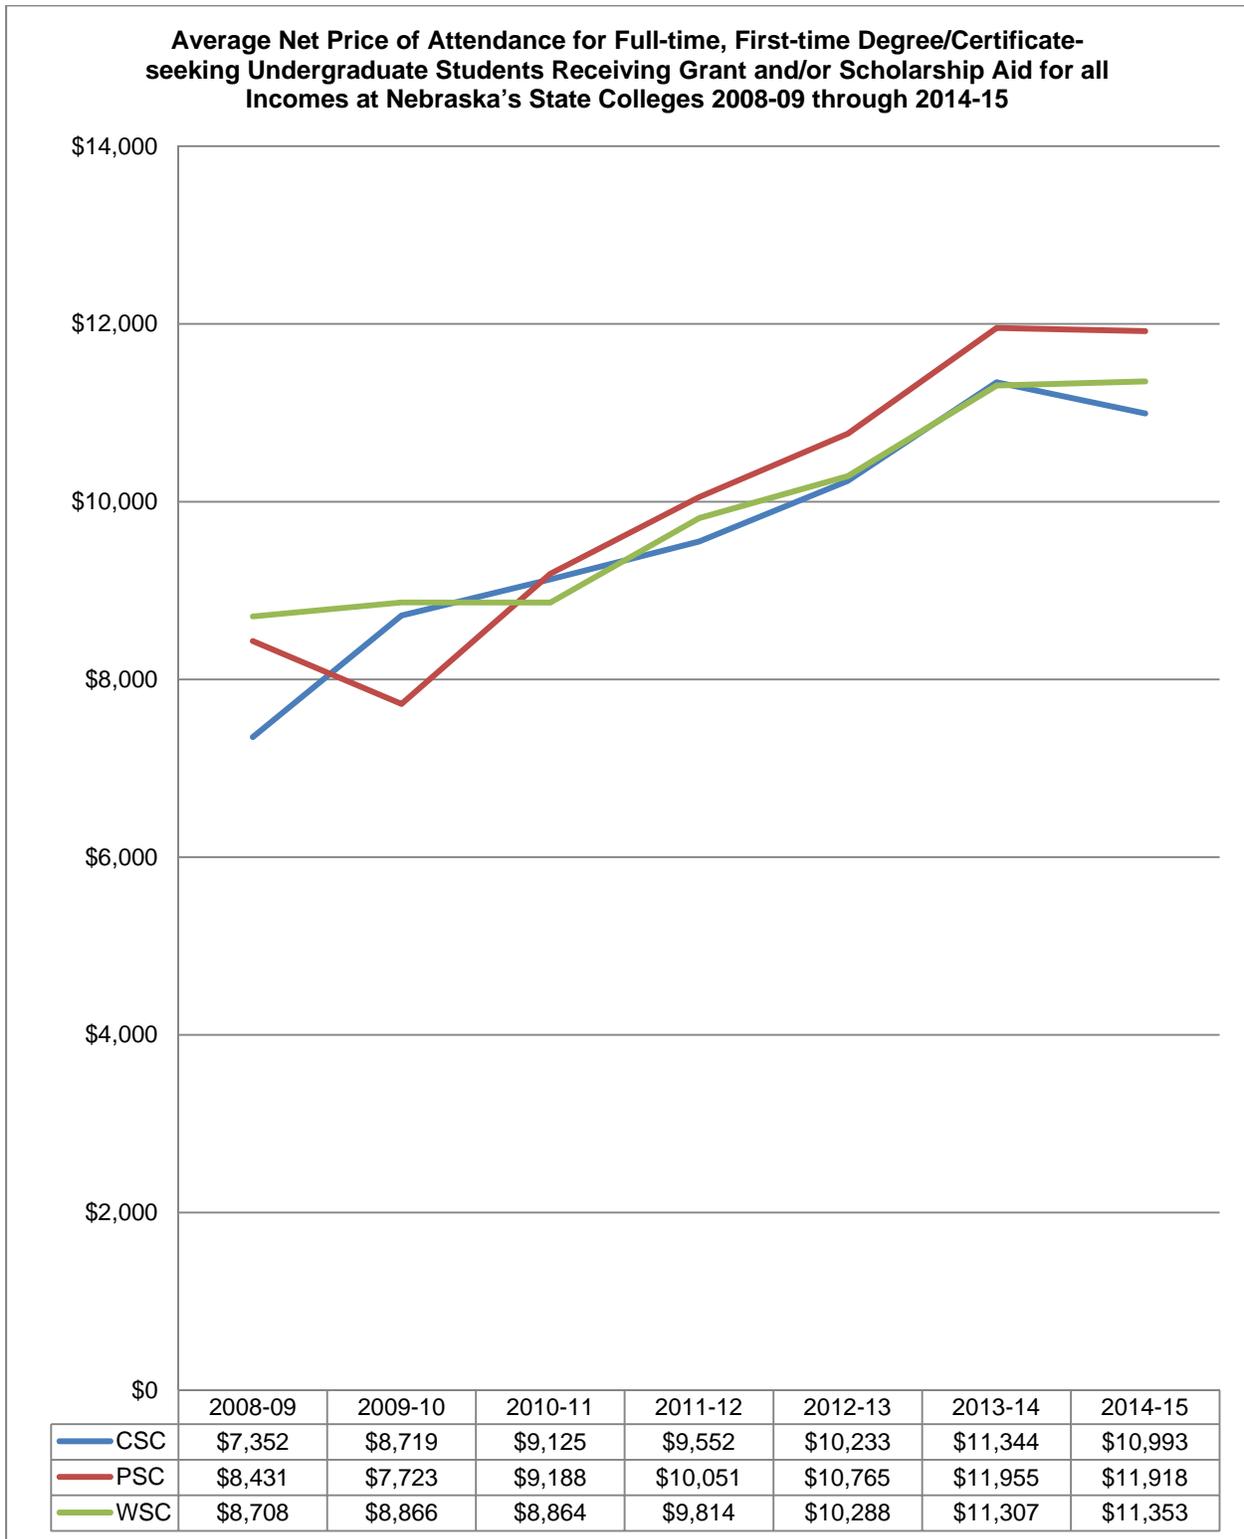

Another way to look at affordability is the net price that a student pays to attend college. Net price is defined as the difference between the full cost to attend a college or university minus any grants and/or scholarships awarded to the student.<sup>1</sup>

From 2008-09 to 2014-15, the average net price of attendance for a student at Nebraska's community colleges:

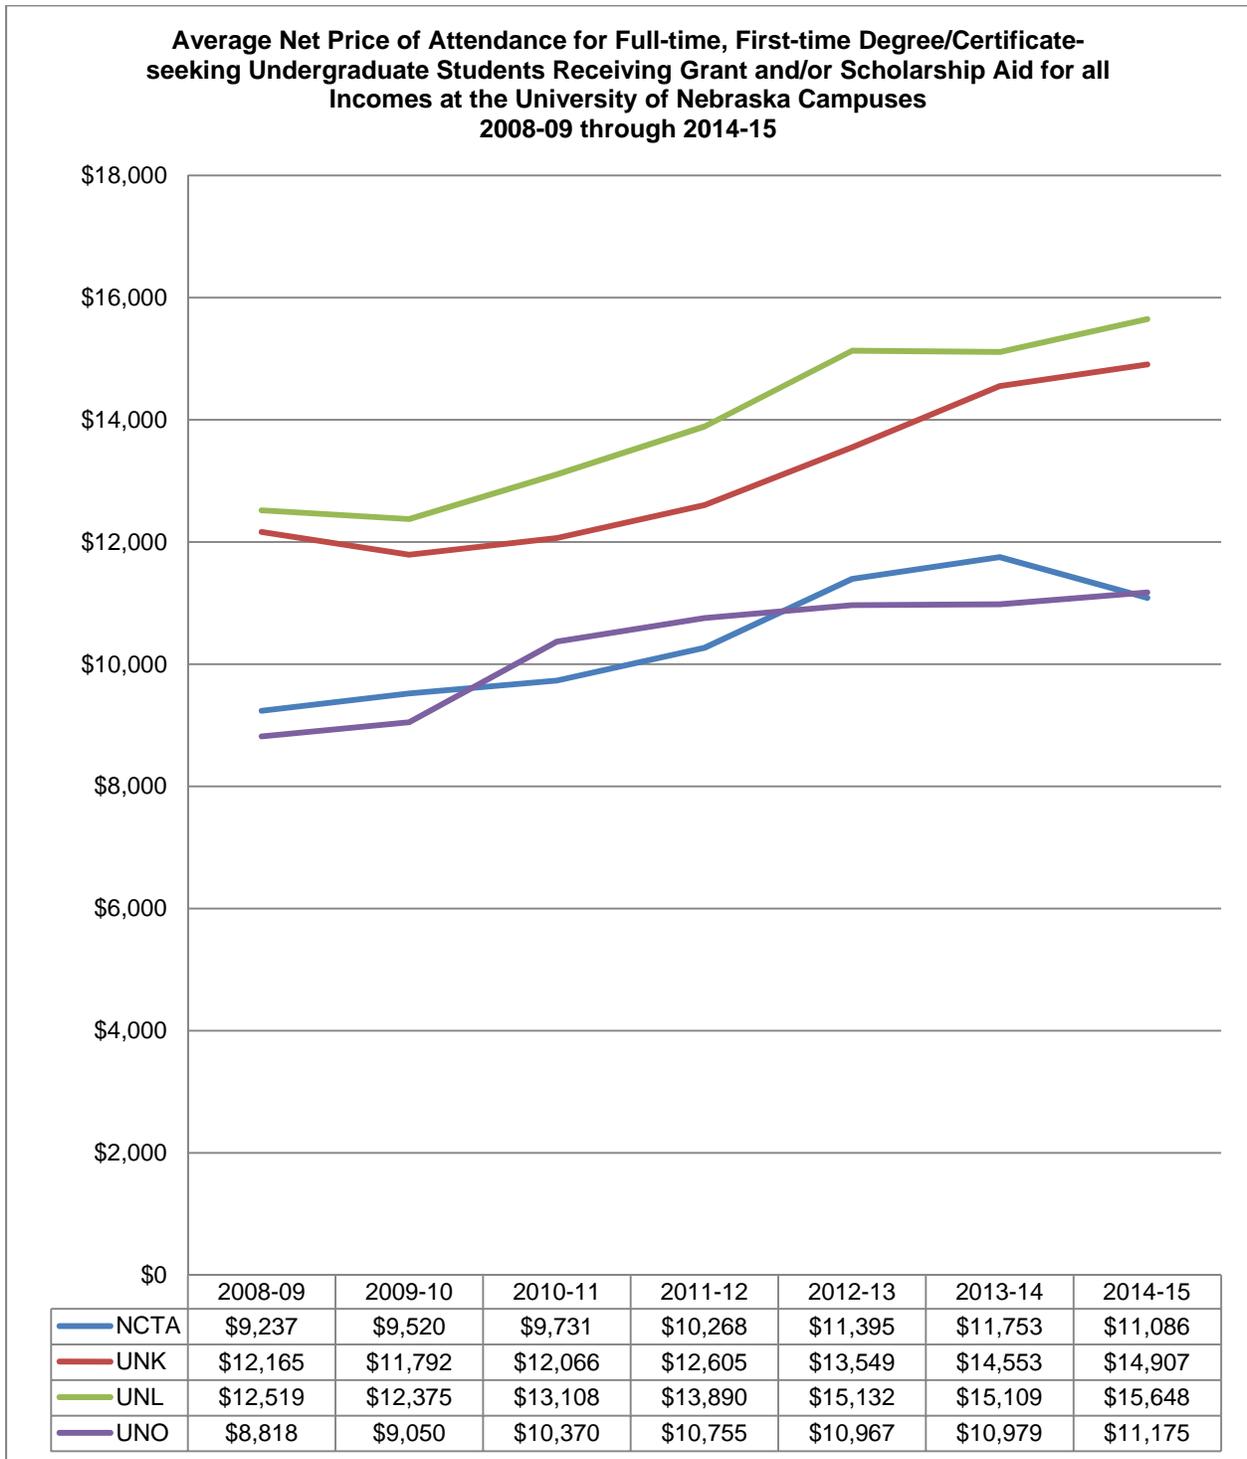

- increased 44% at Southeast Community College
- increased 37% at Central Community College
- increased 14% at Mid-Plains Community College
- increased 9% at Northeast Community College
- showed no change at Western Nebraska Community College
- *decreased* 2% at Metropolitan Community College

<sup>1</sup> UNMC is not included as it does not enroll first-time students. 2008-09 was the first year this information was required by IPEDS.

From 2008-09 to 2014-15, the average net price of attendance for a student at Nebraska's state colleges increased:

- 50% at Chadron State College
- 41% at Peru State College
- 30% at Wayne State College

From 2008-09 to 2014-15, the average net price of attendance for a student at the University of Nebraska campuses:

- increased 27% at the University of Nebraska at Omaha
- increased 25% at the University of Nebraska – Lincoln
- increased 23% at the University of Nebraska at Kearney
- increased 20% at the Nebraska College of Technical Agriculture

In addition to average net price of attendance, IPEDS data can be used to calculate net price of attendance across five levels of family income. This information demonstrates that net price of attendance after subtracting grant aid is lower for low income families than for high income families. However, as a share of family income, the net price of attendance is still high for most families, resulting in the need to borrow and work a significant number of hours during the school year.

<b>Net Price of Attendance for Full-time, First-time Degree/Certificate-seeking Undergraduate Students Receiving Grant or Scholarship Aid, 2014-15 Academic Year</b>						
	<b>Average Net Price by Family Income</b>					
	<u>All Incomes</u>	<u>\$0 - \$30,000</u>	<u>\$30,001 - \$48,000</u>	<u>\$48,001 - \$75,000</u>	<u>\$75,001 - \$110,000</u>	<u>Over \$110,000</u>

## Student Payment Share

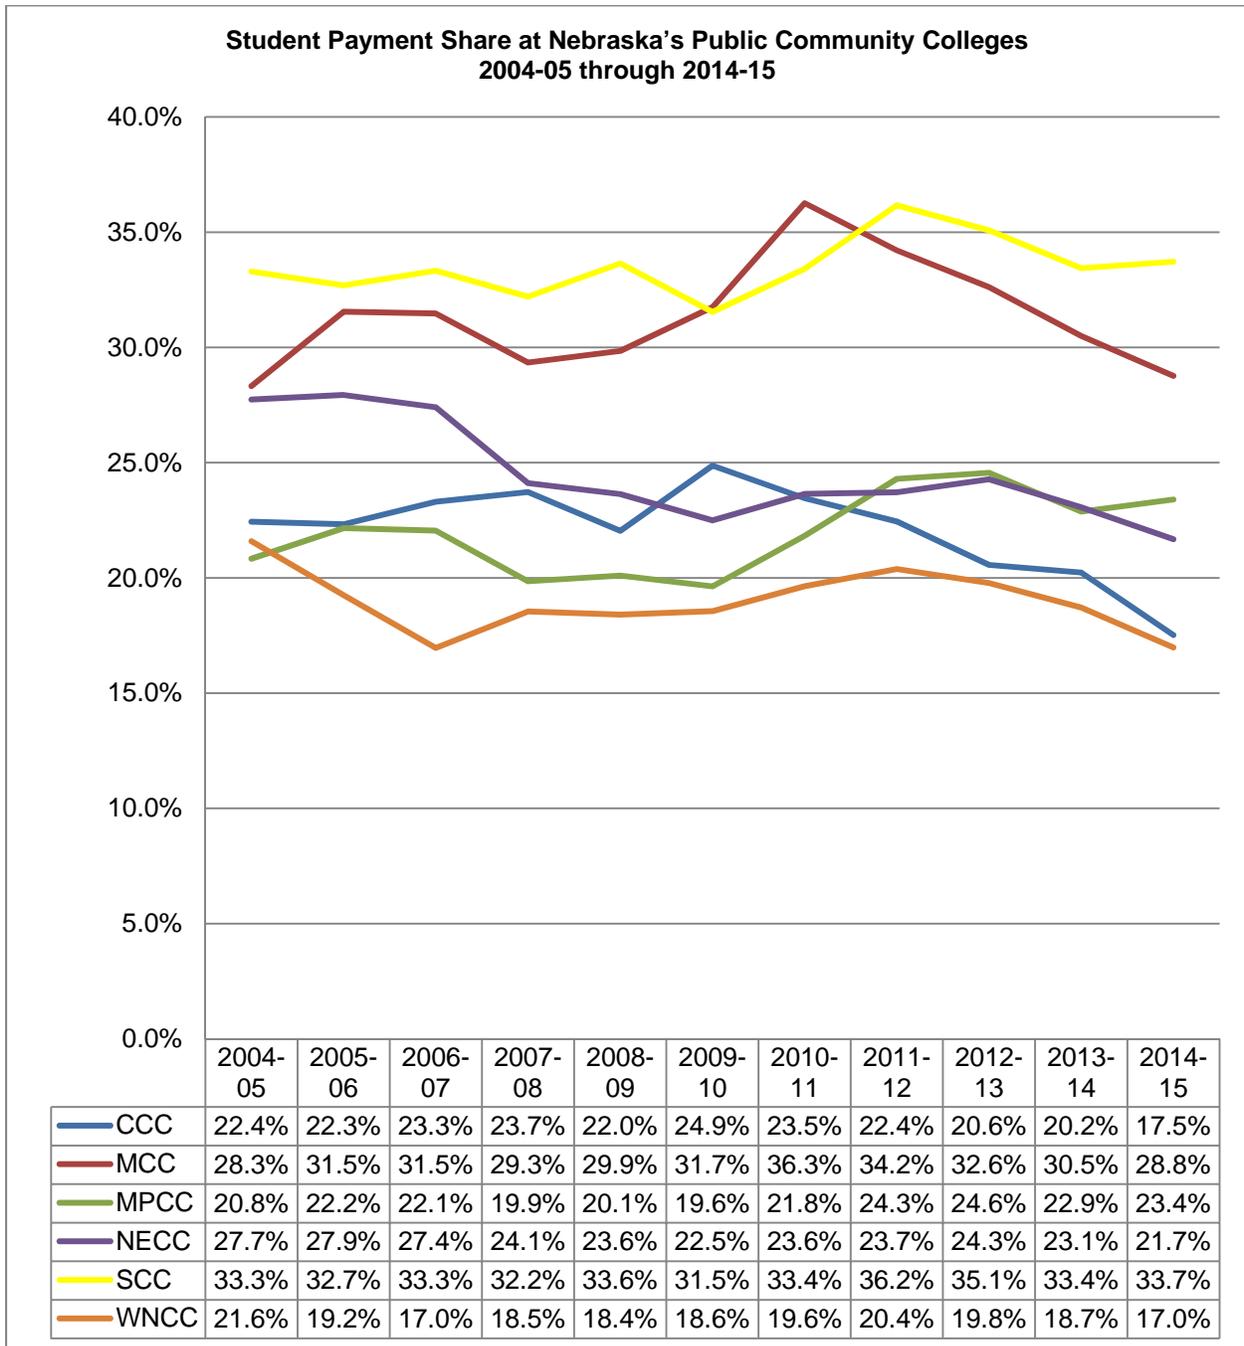

Contrary to what many students may believe, the State of Nebraska and its taxpayers bear the majority of the costs to educate Nebraska's public postsecondary students. Students, however, pay a percentage of the costs through tuition and fees. The "student payment share" reported in this document for four-year institutions is determined by a formula that divides the aggregate tuition and mandatory fee revenue in a given year by the public institution's state appropriation, plus the aggregate tuition and mandatory fees revenue. For two-year institutions, the student payment share is determined by a formula that divides the aggregate tuition and mandatory fee revenue in a given year by the institution's state appropriation, plus the tuition and mandatory fees revenue, plus the institution's property tax revenue. Details are displayed on the following pages.

Four-year public institutions receive a majority of their funding for operations from two sources: the state and students. Two-year public institutions receive a majority of funding from the state aid and local taxes assessed on property within the institutions' service areas. As students contribute a higher percentage to their educational costs, affordability is reduced, especially for students from low-income families.

The Commission has recommended guidelines on the student payment share for educational costs in the *Comprehensive Statewide Plan for Postsecondary Education* (Coordinating Commission for Postsecondary Education, 2016). These guidelines reflect role and mission differences between the various public higher education sectors:

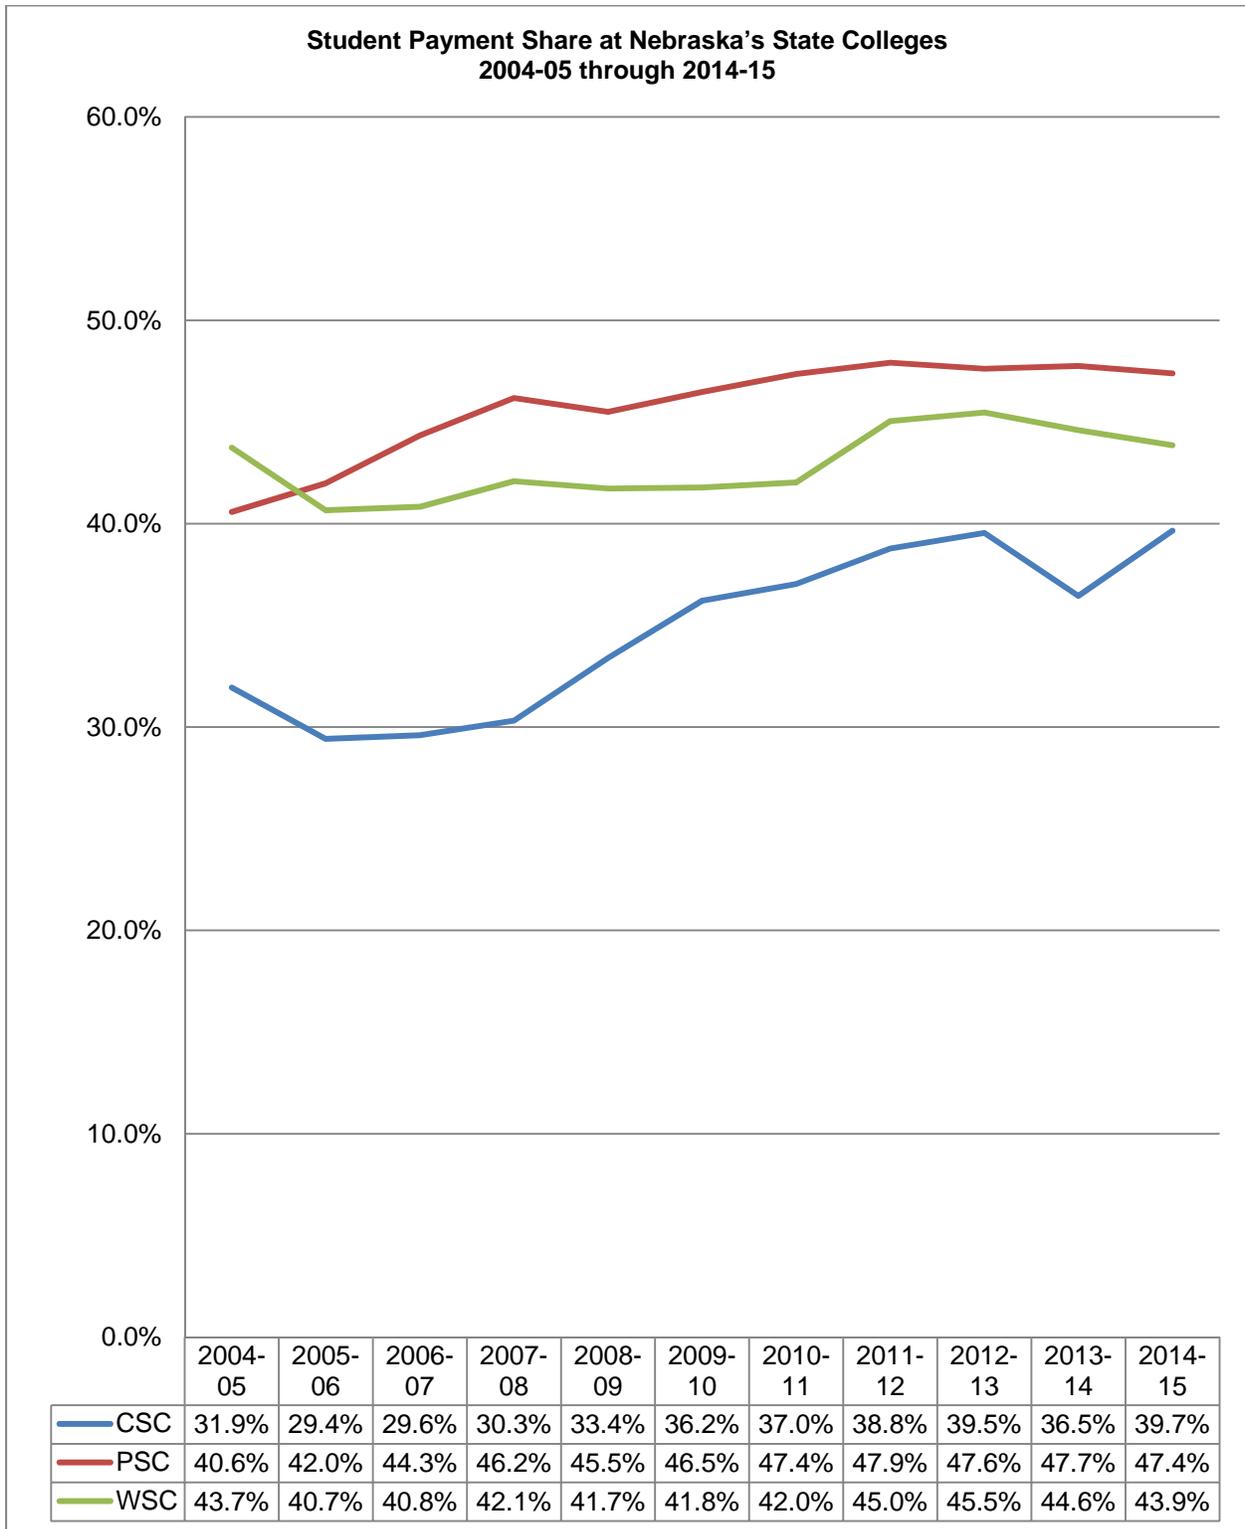

- At the community colleges, the student payment share should be the lowest of the three public sectors.
- At the state colleges, the student payment share should be greater than the student's share at the community colleges, but less than at the University of Nebraska campuses.
- At the University of Nebraska campuses, the student payment share should be greater than the students' payment share at both the community colleges and the state colleges.

The student payment share at Nebraska public institutions is consistent with established guidelines. Students at the University of Nebraska at Omaha have the highest student payment share of Nebraska public institutions at 61.5 percent, followed by students at the University of Nebraska at Kearney at 51.1 percent. Students at all other institutions contribute less than 50 percent of an institution's revenue. In general, if enrollment increases at an institution and the state appropriation is reduced or remains level, the student payment share will increase. Likewise, if enrollment remains the same but the amount of state appropriation is reduced, the student payment share will increase. The following pages provide student payment share information for the public postsecondary institutions in Nebraska.

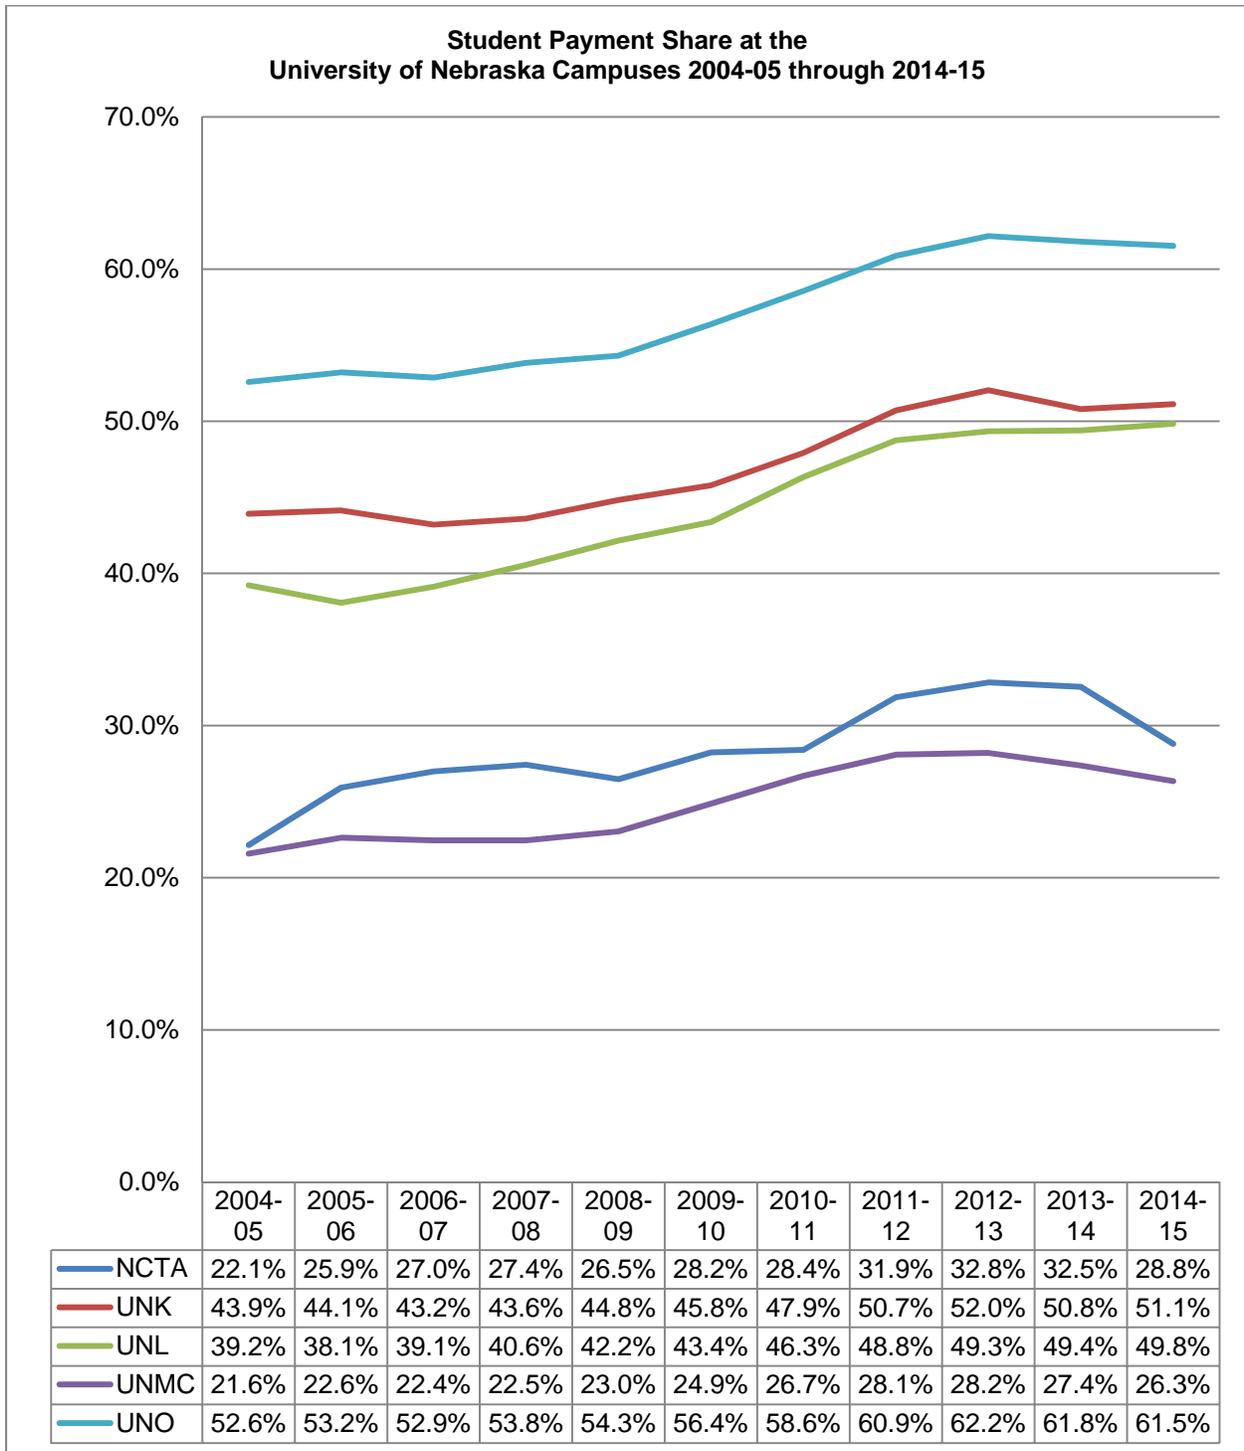

From 2004-05 to 2014-15, the student contribution at Nebraska's public community colleges:

- increased 12% at Mid-Plains Community College
- increased 2% at Metropolitan Community College
- increased 1% at Southeast Community College
- *decreased* 21% at Western Nebraska Community College
- *decreased* 22% at Central Community College
- *decreased* 22% at Northeast Community College

From 2004-05 to 2014-15, the student contribution at Nebraska's state colleges:

- increased 24% at Chadron State College
- increased 17% at Peru State College
- showed almost no change at Wayne State College

From 2004-05 to 2014-15, the student contribution at the University of Nebraska campuses:

- increased 30% at the Nebraska College of Technical Agriculture
- increased 27% at the University of Nebraska – Lincoln
- increased 22% at the University of Nebraska Medical Center
- increased 17% at the University of Nebraska at Omaha
- increased 16% at the University of Nebraska at Kearney

## STATE INVESTMENT

On February 17, 2009, President Obama signed into law the American Recovery and Reinvestment Act (ARRA). The Act had three main goals: create new jobs and save existing jobs; spur economic activity and invest in long-term growth; and foster accountability and transparency in government spending by providing more than \$700 billion dollars in federal spending to individuals, states and other localities (Recovery.gov). Of the funds sent to states, \$5.9 billion was used by states to restore the level of state support for public higher education during the 2009-10 and 2010-11 academic years. (Center for the Study of Education Policy, 2016).

From FY11 to FY15, when looking strictly at state funds, only 12 states saw a reduction in funding for higher education. When taking into account the states that used stimulus funds to supplement state funding, a total of 21 states saw a decrease in higher education funding. However, funding for higher education is looking positive. From FY14 to FY15, only eight states decreased their funding for higher education. (Center for the Study of Education Policy, 2016).

This section of the report covers two topics: appropriation comparisons within Nebraska, and appropriation comparisons with other states.

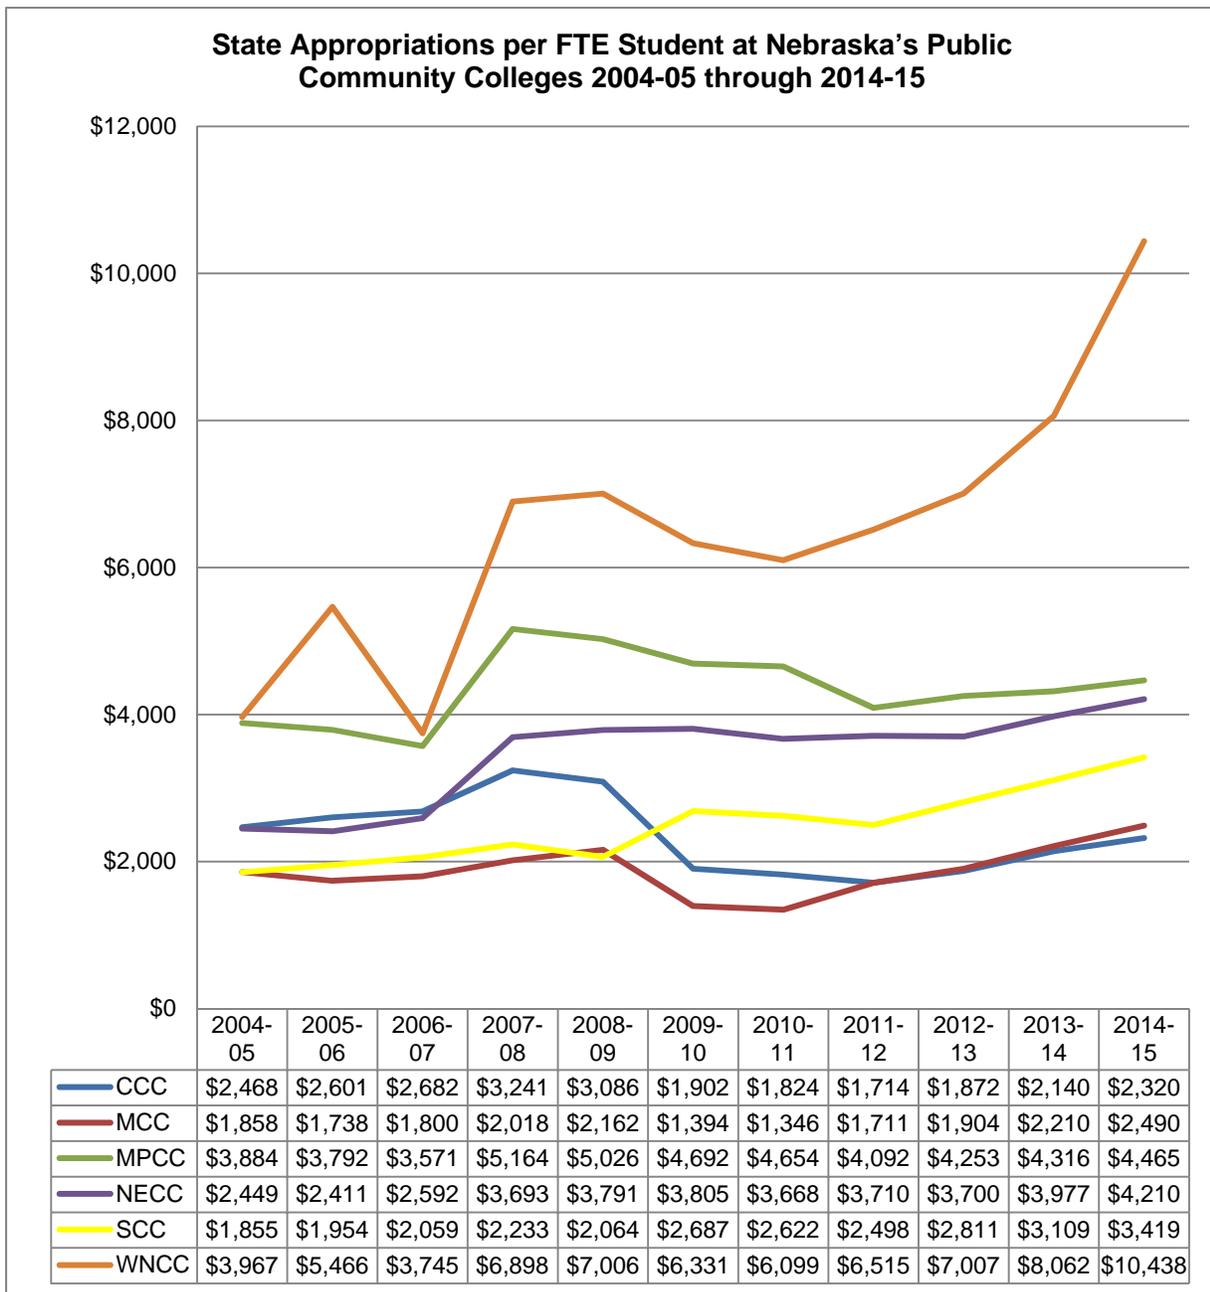

### Appropriations Comparisons within the State

The following information looks at state appropriations per full-time equivalent (FTE) student. The dollar amounts exclude funds appropriated or re-appropriated for tuition and capital appropriations. To arrive at the appropriations per full-time student, the base state appropriations is divided by the number of full-time equivalent students at the institution. (Note: Enrollment decreases can therefore lead to increases in appropriations per full-time equivalent student, and vice versa.)

In addition to state appropriations, the community colleges receive income from property taxes; therefore, this report provides two additional sets of data, one that shows the amount of property tax income received by each community college and one in which the state appropriations and property taxes are added together to derive a total state-and-local appropriations per full-time equivalent student within the community college sector.

During the appropriation process, the six community college areas request increases to the base appropriation. The Legislature takes these requests as well as economic and financial factors into consideration when determining an overall amount to appropriate to the six community college areas. This overall appropriation is then allocated to each area based on a statutory formula. Individual community colleges do not receive specific appropriations from the Legislature. The state college system and the University system also request increases to their respective base appropriations based on specific needs. Much like the community college process, the Legislature takes these requests as well as economic and financial factors into consideration when determining an amount to appropriate for the state college system and an amount to appropriate for the University system. The respective governing boards then allocate a portion of the appropriation to individual campuses. The Legislature has, on occasion, set aside funding for specific purposes that can only be used for that purpose.

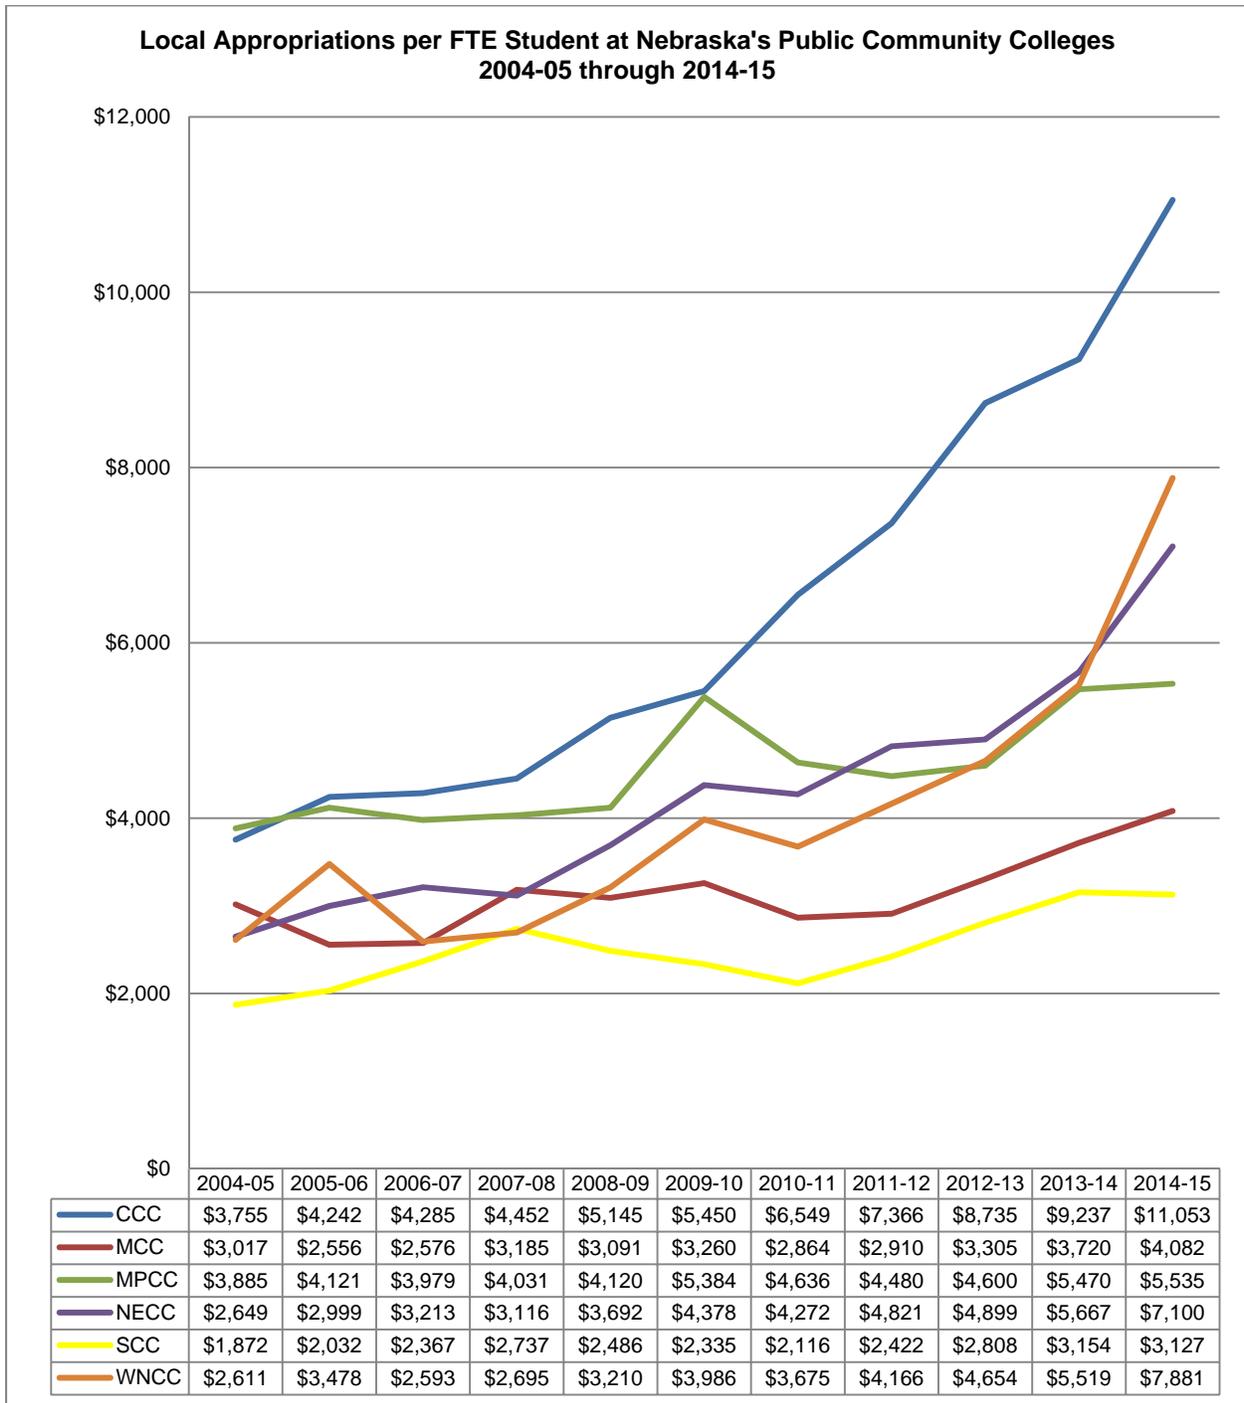

### Community Colleges

From 2004-05 to 2014-15, state appropriations per full-time equivalent student at Nebraska's community colleges:

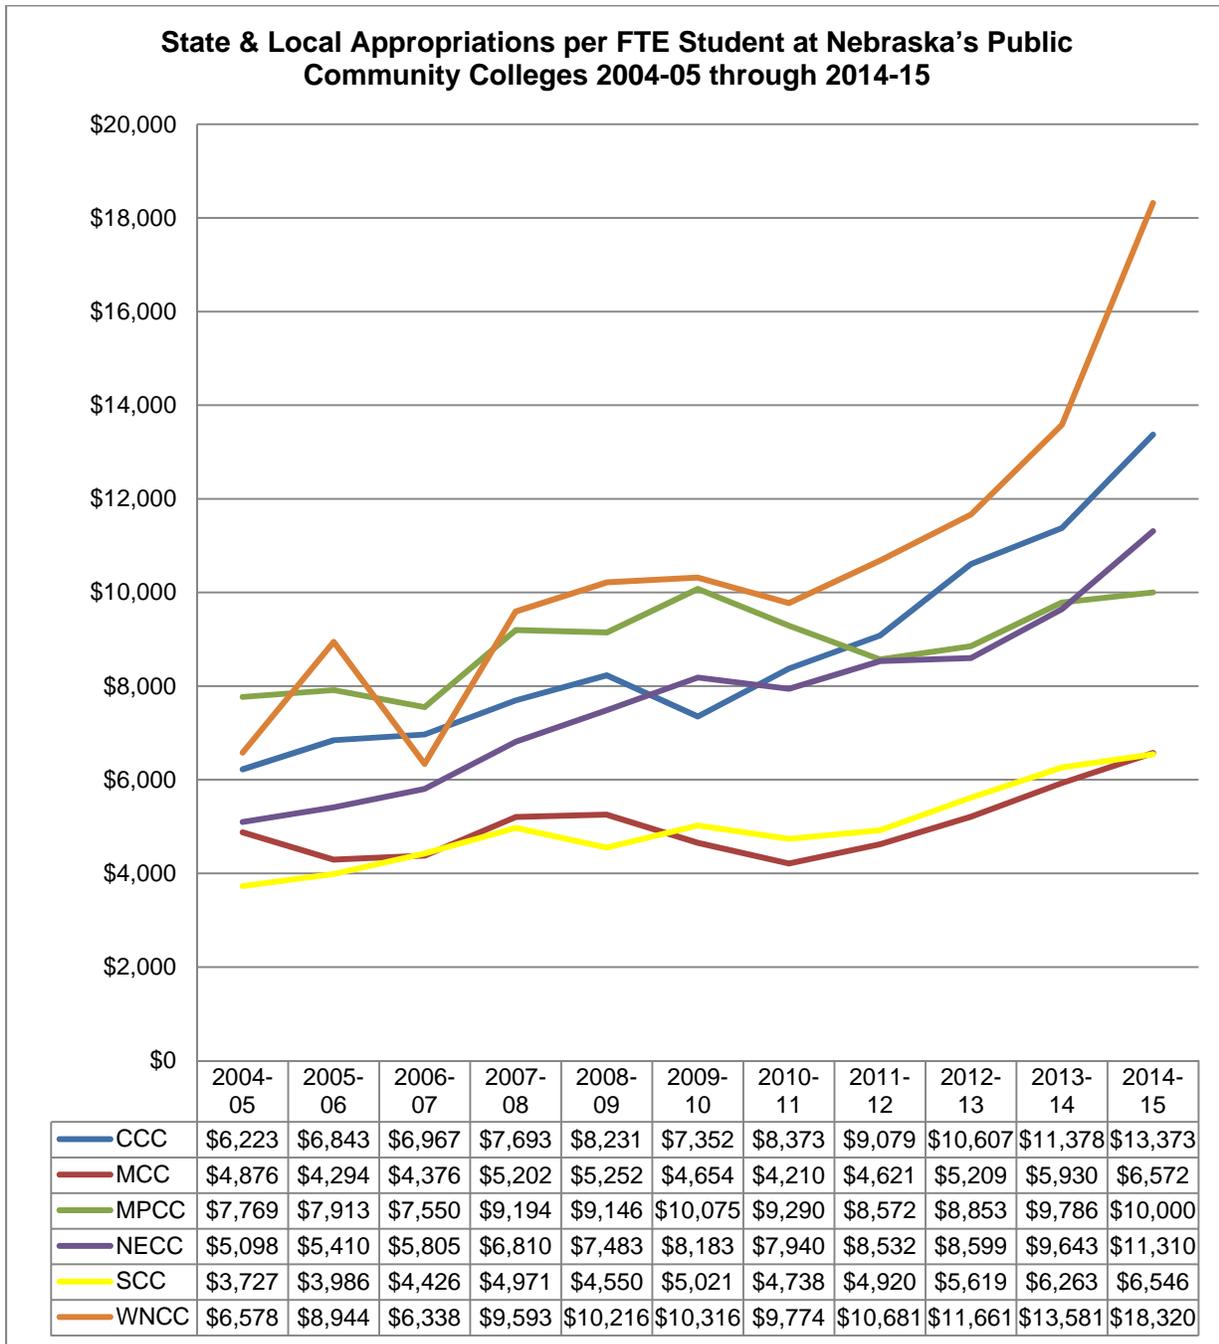

- increased 163% at Western Nebraska Community College<sup>1</sup>
- increased 84% at Southeast Community College
- increased 72% at Northeast Community College
- increased 34% at Metropolitan Community College
- increased 15% at Mid-Plains Community College
- *decreased* 6% at Central Community College

<sup>1</sup> WNCC reclassification of some credit-bearing courses to non-credit in 2014-15 affects this measure.

From 2004-05 to 2014-15, local appropriations per full-time equivalent student at Nebraska's community colleges increased:

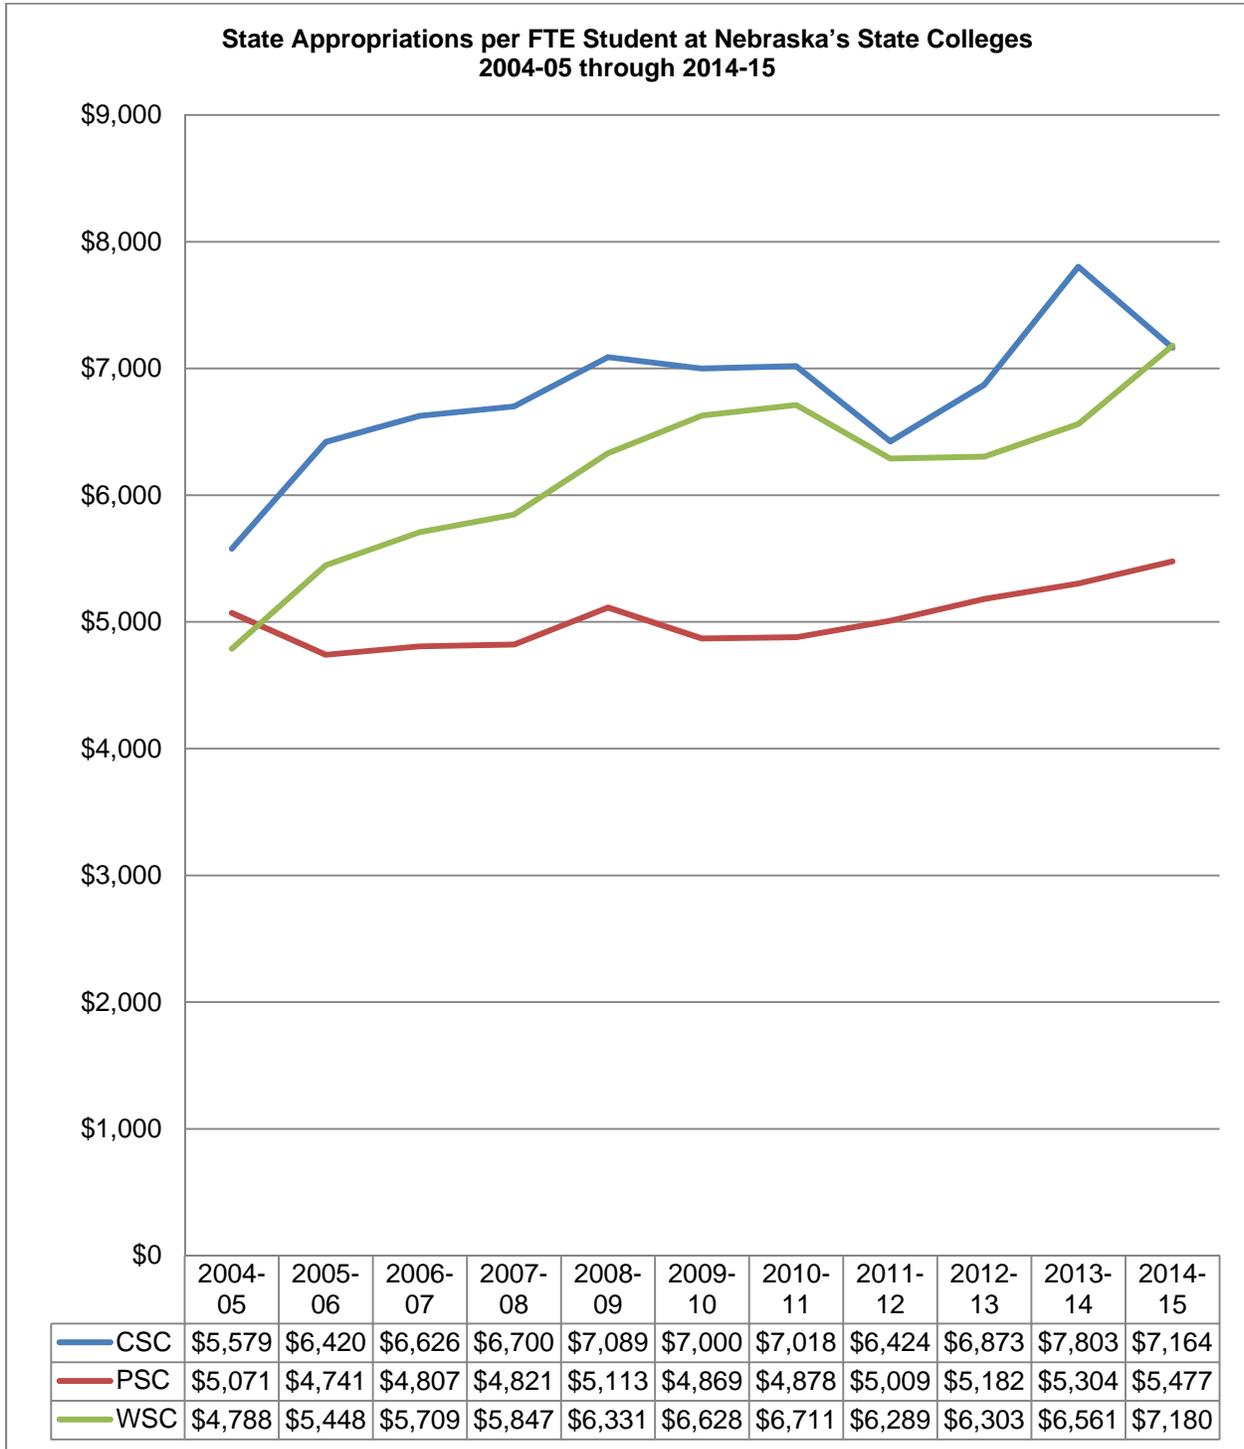

- 202% at Western Nebraska Community College
- 194% at Central Community College
- 168% at Northeast Community College
- 67% at Southeast Community College
- 42% at Mid-Plains Community College
- 35% at Metropolitan Community College

From 2004-05 to 2014-15, state and local appropriations per full-time equivalent student at Nebraska's community colleges increased:

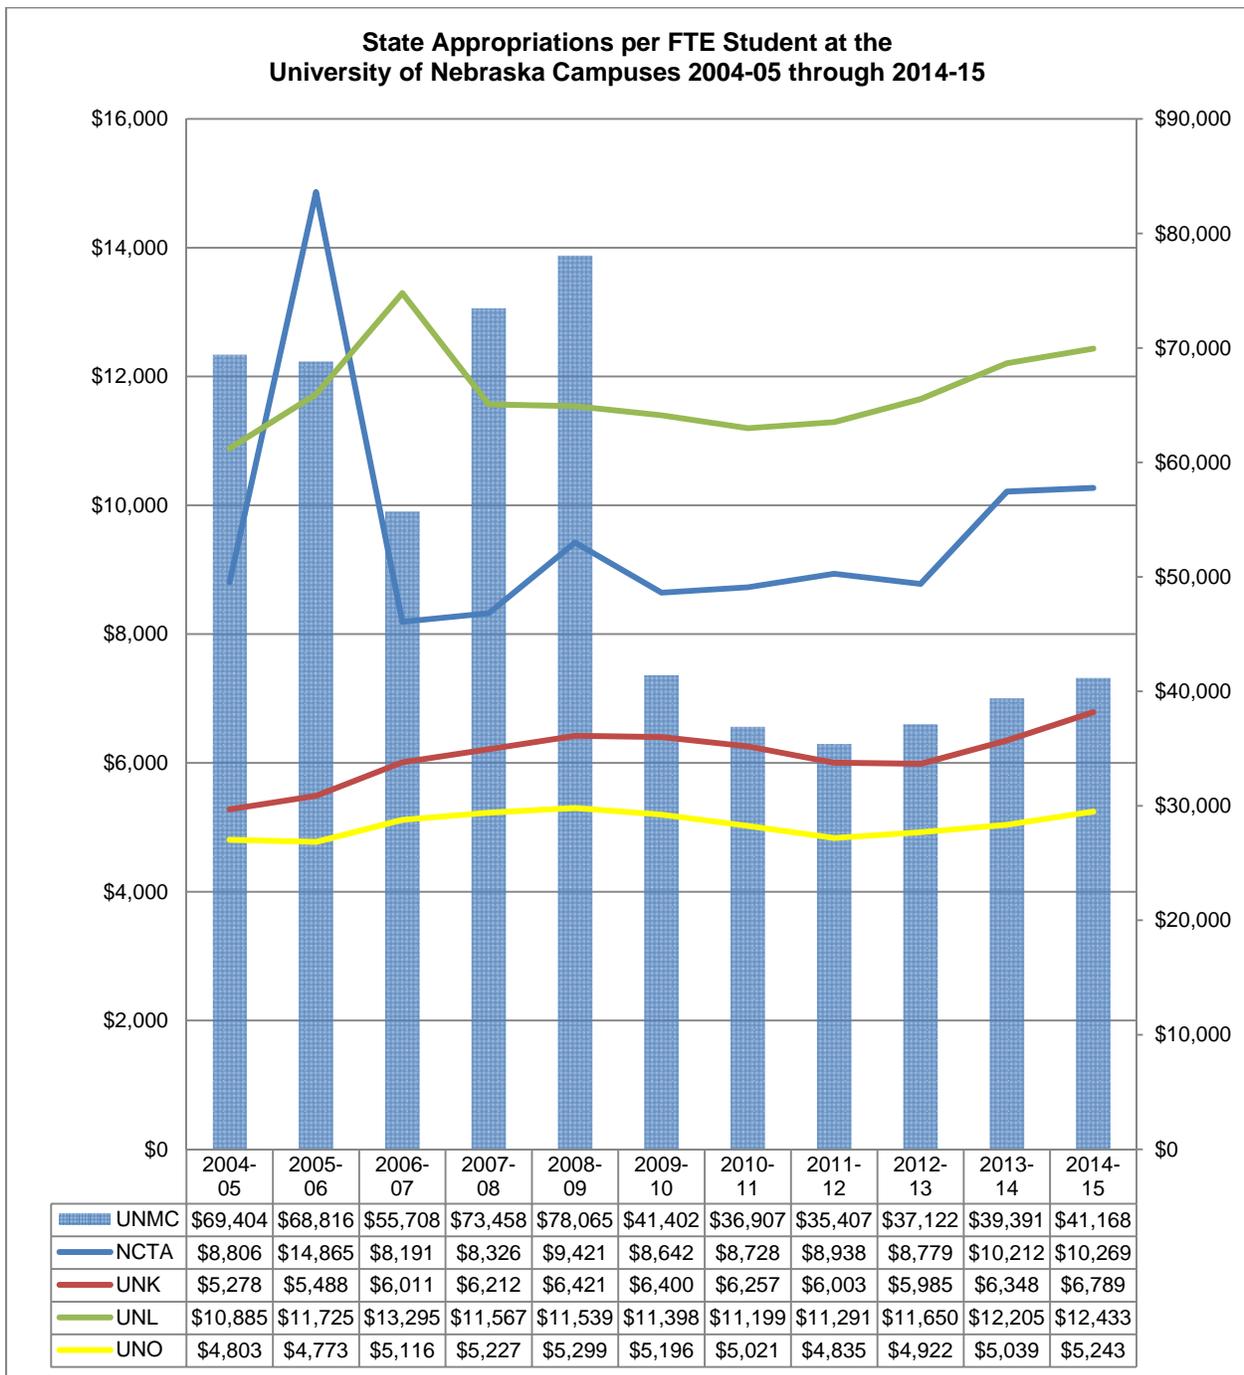

- 178% at Western Nebraska Community College
- 122% at Northeast Community College
- 115% at Central Community College
- 76% at Southeast Community College
- 35% at Metropolitan Community College
- 29% at Mid-Plains Community College

### State Colleges and University of Nebraska Campuses

From 2004-05 to 2014-15, state appropriations per full-time equivalent student at Nebraska's state colleges increased:

- 50% at Wayne State College
- 28% at Chadron State College
- 8% at Peru State College

From 2004-05 to 2014-15, state appropriations per full-time equivalent student at the University of Nebraska campuses<sup>1</sup>:

- increased 29% at the University of Nebraska at Kearney
- increased 17% at the Nebraska College of Technical Agriculture
- increased 14% at the University of Nebraska – Lincoln
- increased 9% at the University of Nebraska at Omaha
- *decreased* 41% at the University of Nebraska Medical Center

<sup>1</sup> The decrease in 2009-10 was likely due to the change in how FTE was calculated for students formerly classified as first-professionals.

## Appropriations Comparisons with Other States

One of the major statewide goals in Nebraska's *Comprehensive Plan* states that:

Nebraska will value higher education and support its investment in public higher education through fair and reliable funding policies that provide appropriate levels of support to enable institutions to excel and meet the educational needs of the State and its students (Coordinating Commission for Postsecondary Education, 2016).

The State of Nebraska has been strongly supportive of higher education. In direct financial terms, in FY15 Nebraska's appropriation of state tax dollars for higher education operating expenses was \$717,198,058. This represents a 4.2 percent increase over FY14. The nation averaged a 5.2 percent increase from FY14 to FY15.

Additionally, the \$717,198,058 represents an 11.8 percent increase over five years (FY10 to FY15). When stimulus funds are taken into account Nebraska ranks 10<sup>th</sup> in the nation for that period. Nationally, states increased their appropriations by an average of 3.4 percent during that same period. When stimulus funds are not taken into account, the nation saw a 9.6% increase in funding for higher education; Nebraska ranked 16<sup>th</sup> in the nation (note: Nebraska did not apply any of its federal stimulus funds directly to postsecondary education) (Center for the Study of Education Policy, 2016).

Other ways to measure a state's investment in higher education include appropriations per \$1,000 in personal income and appropriations per capita. For FY15, Nebraska's appropriation per \$1,000 of personal income was \$8.05, which is an increase over FY14's funding per \$1,000 of personal income from \$7.83. The \$8.05 ranked Nebraska 10<sup>th</sup> in the nation and was significantly higher than the national average of \$5.55. (Center for the Study of Education Policy, 2016)

Additionally, for FY15, Nebraska's appropriation per capita was \$381.18, an increase over FY14's amount of \$368.21. The FY15 amount was significantly higher than the national average of \$254.48 and ranked Nebraska 7<sup>th</sup> in the nation. (Center for the Study of Education Policy, 2016).

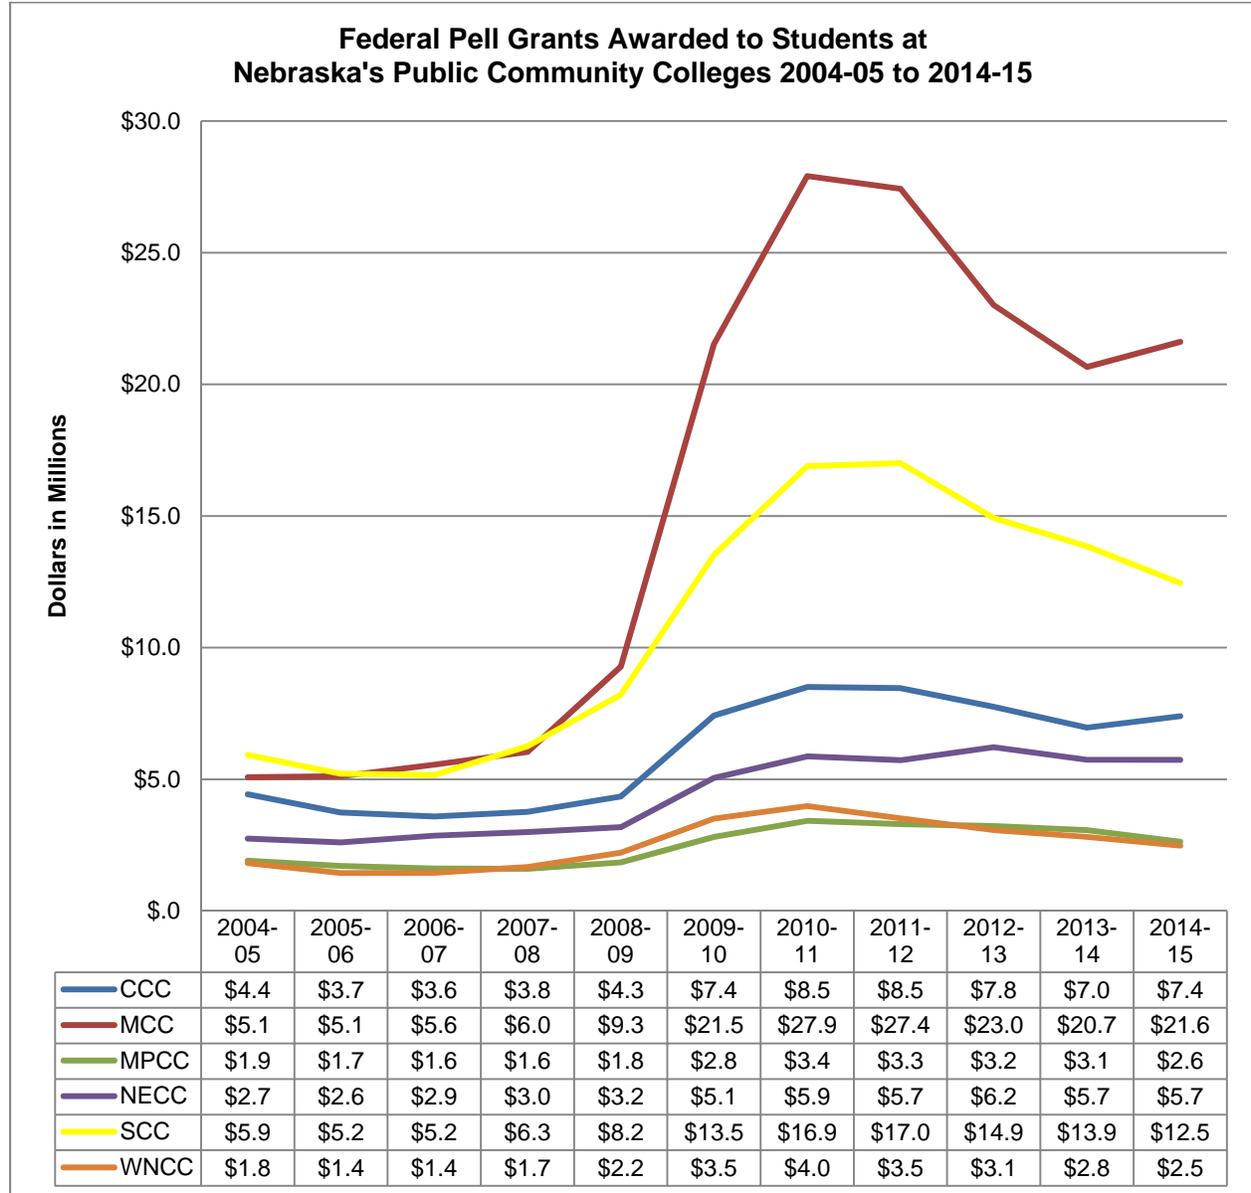

## FINANCIAL AID

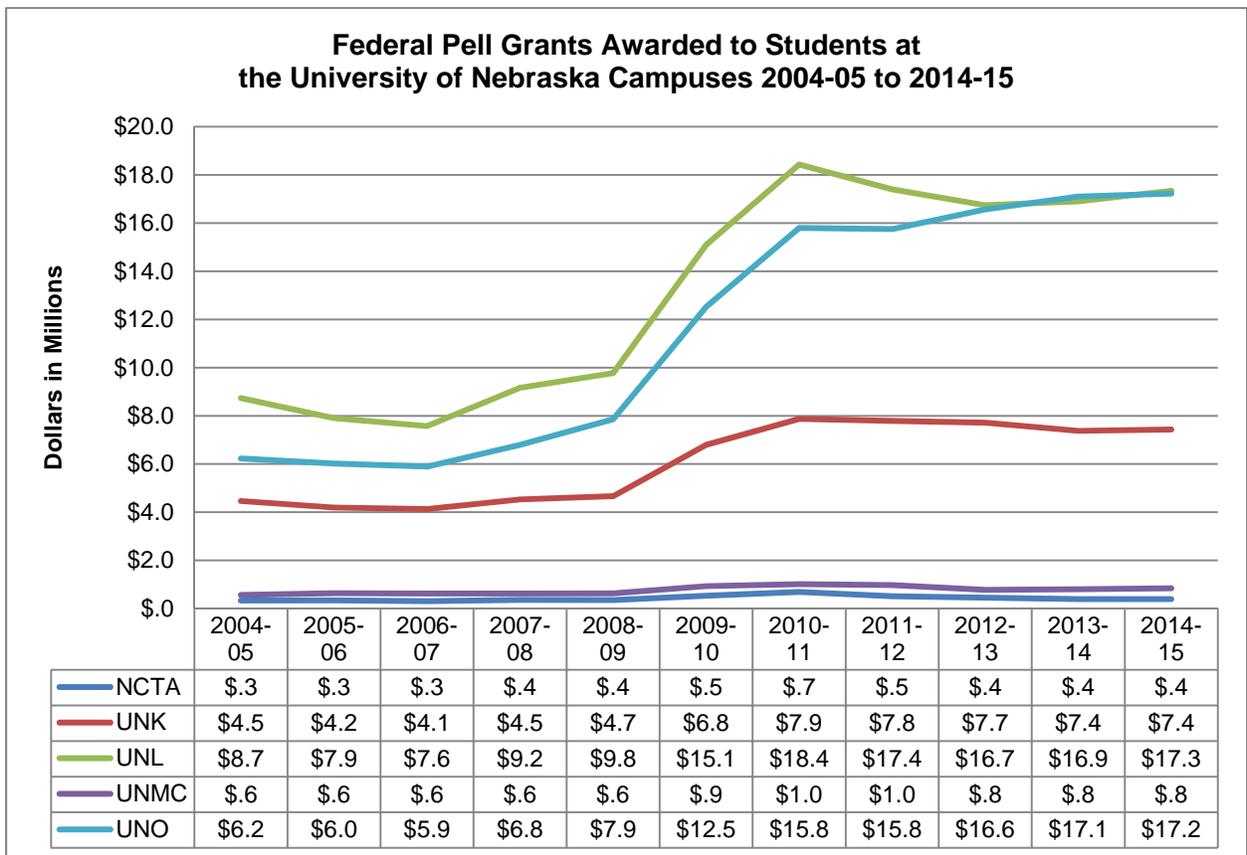

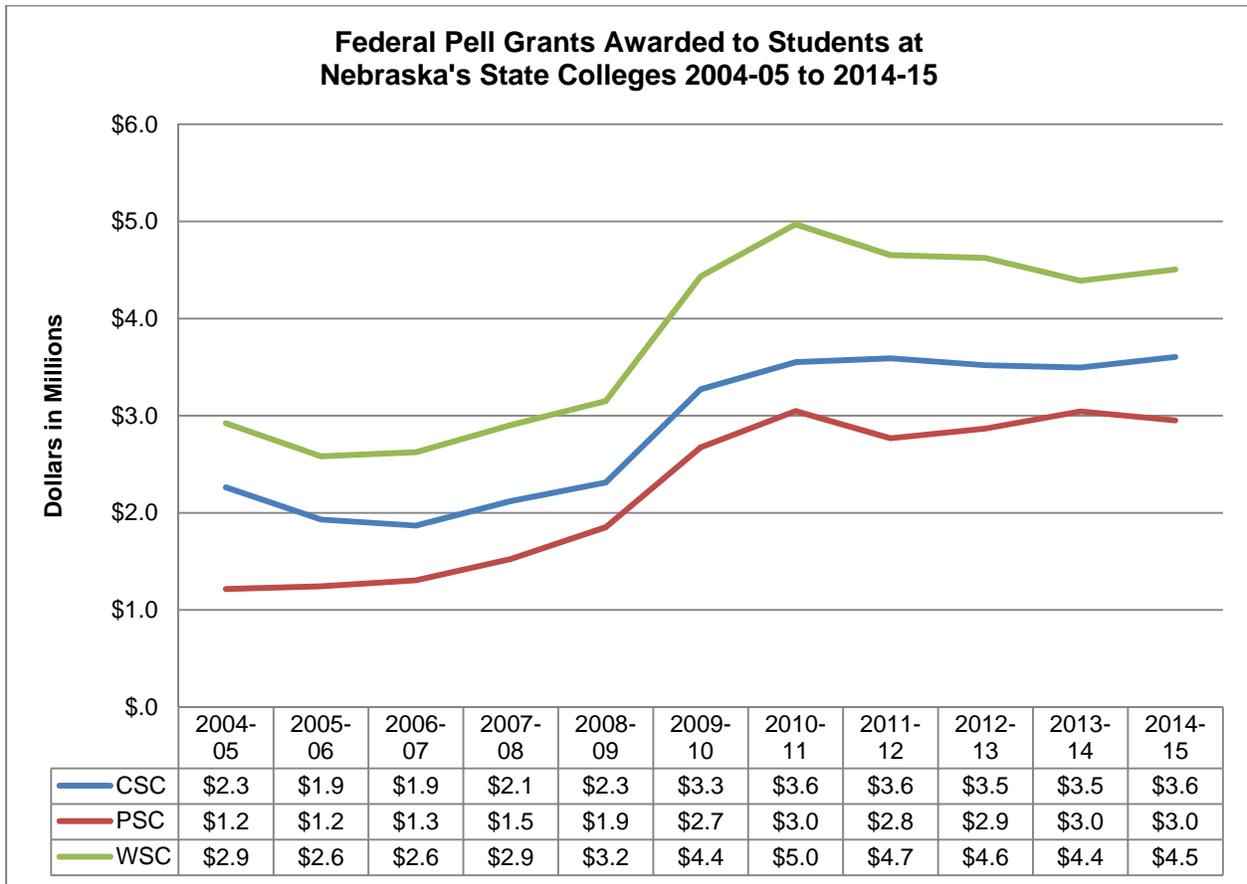

The federal government provides the majority of financial aid for students in postsecondary education. Overall, that funding totaled \$161.3 billion in 2014-15 (The College Board, 2016). The U.S. Department of Education (ED) publishes a comprehensive source of information about federal student aid programs, which can be found at <https://studentaid.ed.gov/>.

Funds from the following financial aid programs are potentially available to students attending Nebraska's postsecondary institutions based on eligibility guidelines established by the federal government, state, or institution.

### Federal Pell Grant

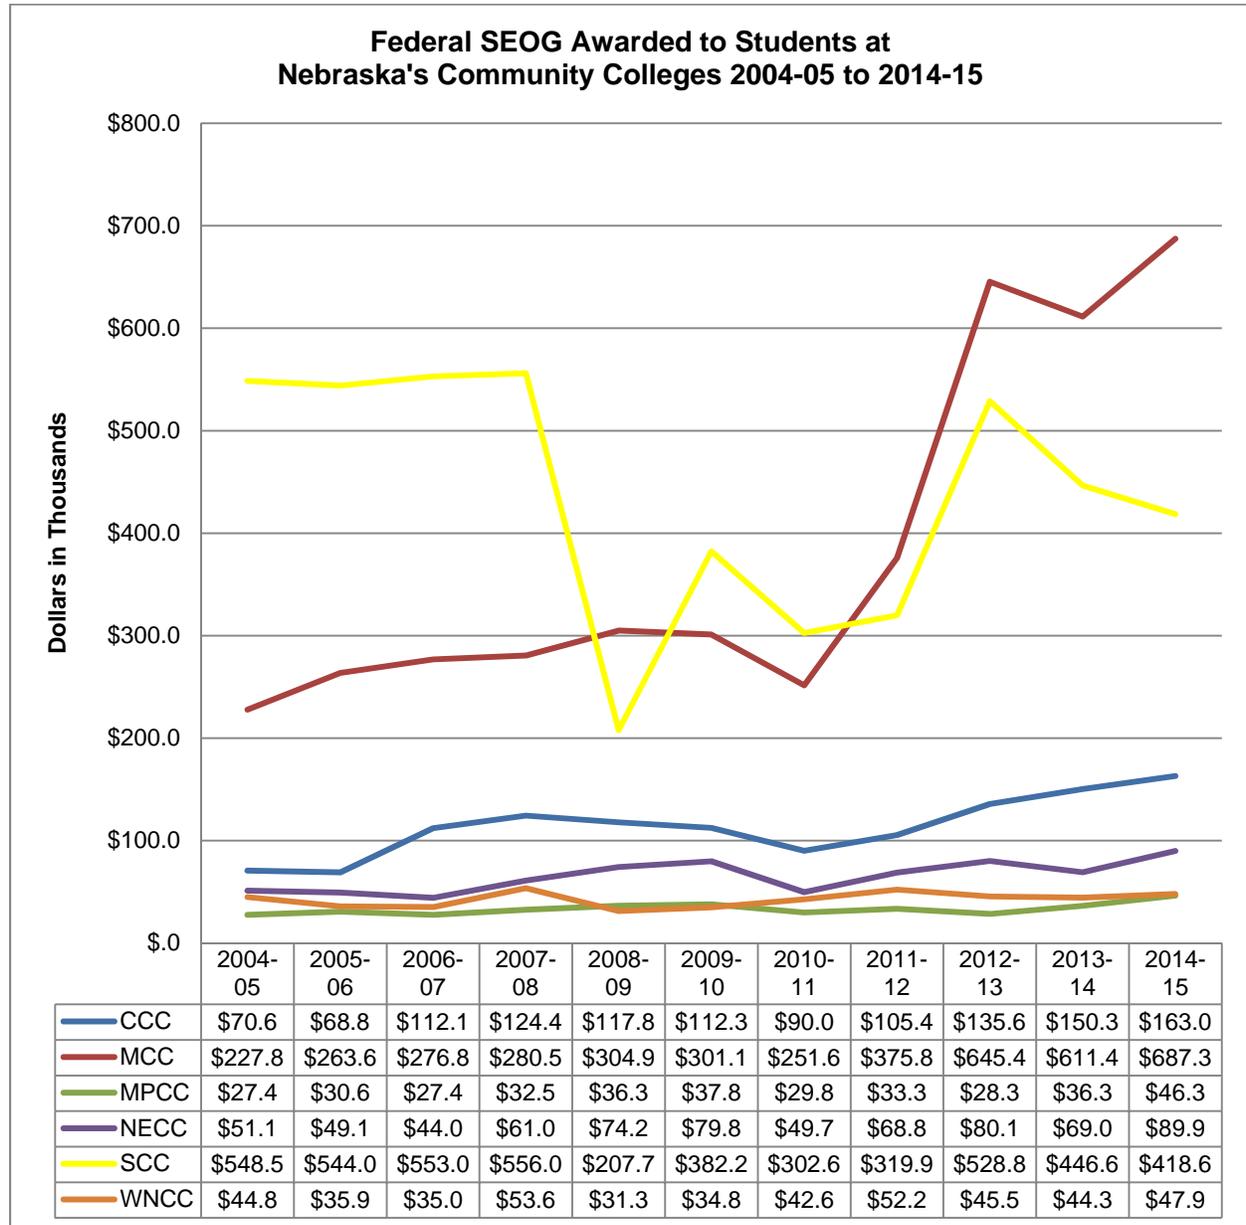

Federal Pell Grants are awarded to undergraduates who have not earned a bachelor's degree and who demonstrate high financial need. Pell Grants do not have to be repaid. The award range for Pell Grants for the award year 2014-15 academic year was \$602 to \$5,730.

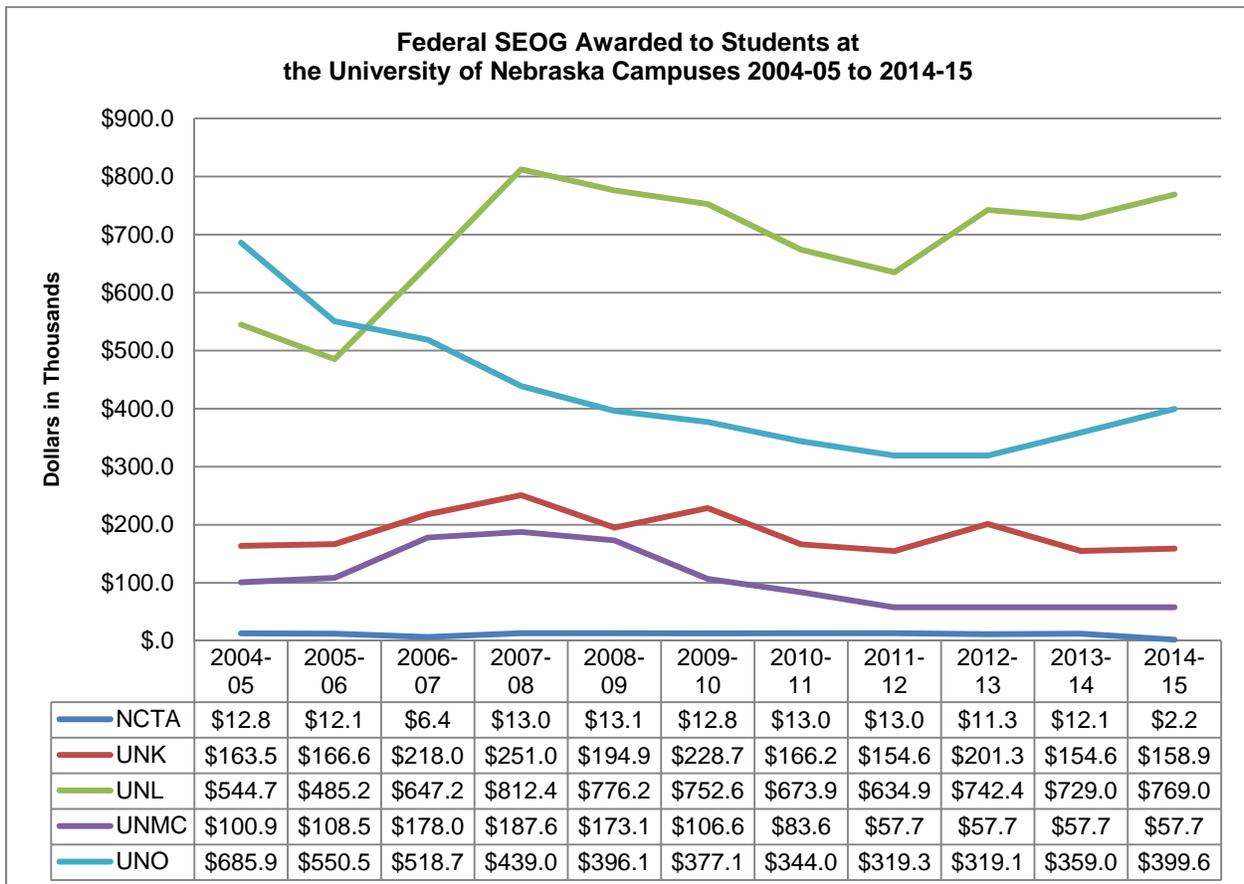

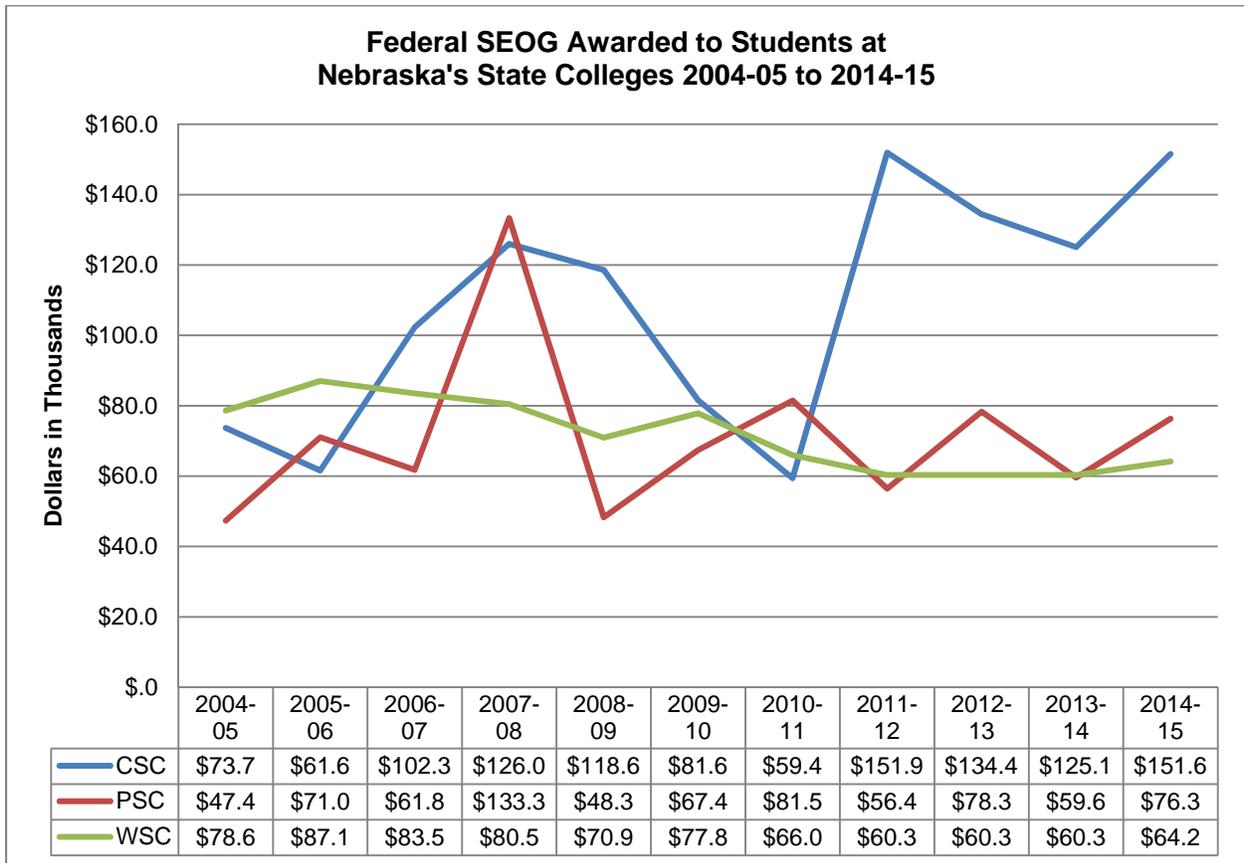

### Federal Supplemental Educational Opportunity Grant (FSEOG)

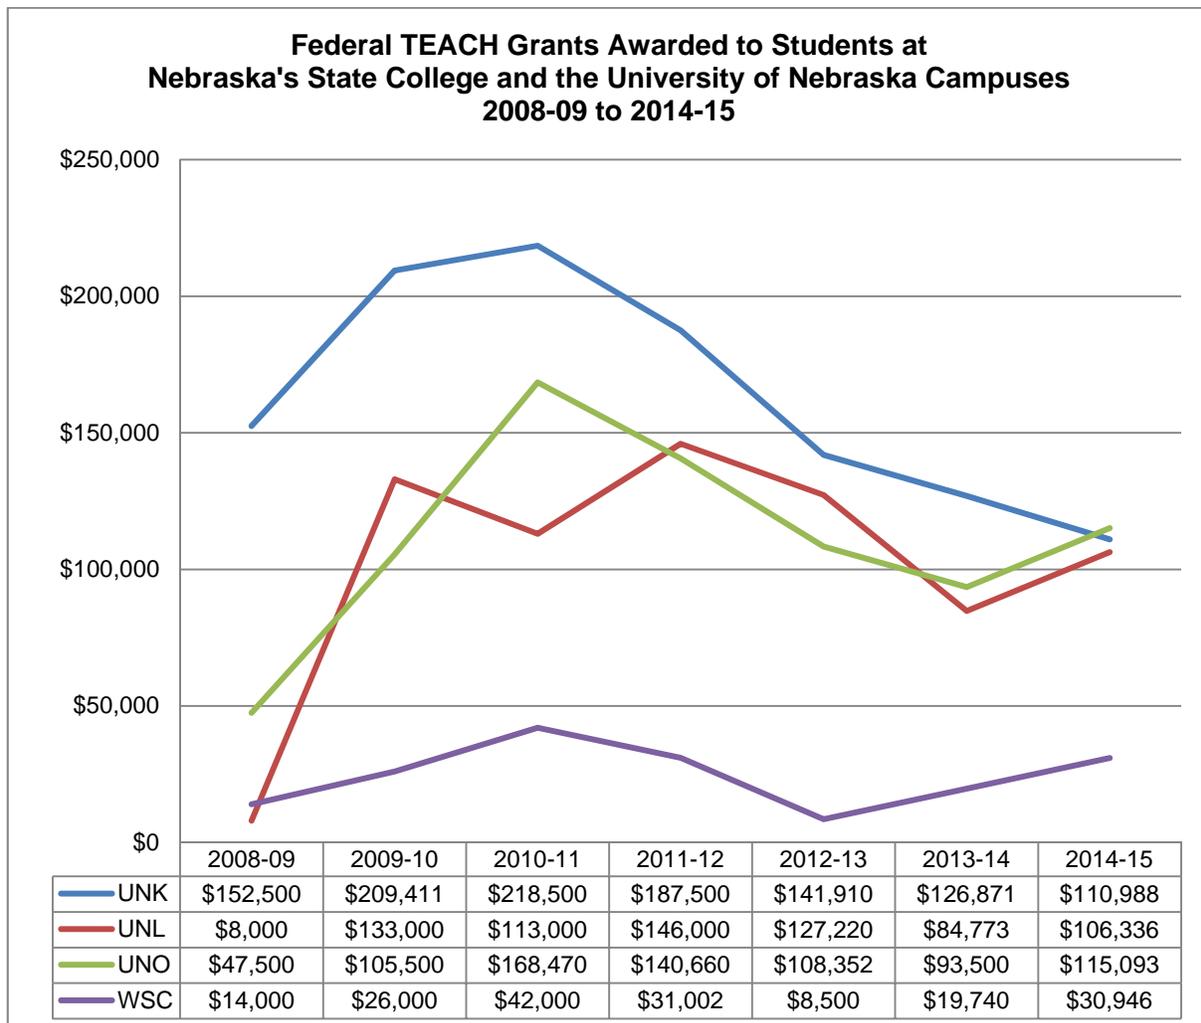

Undergraduate students who have exceptional need and who have not received a bachelor’s degree are eligible to receive the FSEOG. FSEOG awards can range from \$100 to \$4,000 and do not have to be repaid, but awards are subject to the availability of funds at a student’s institution.

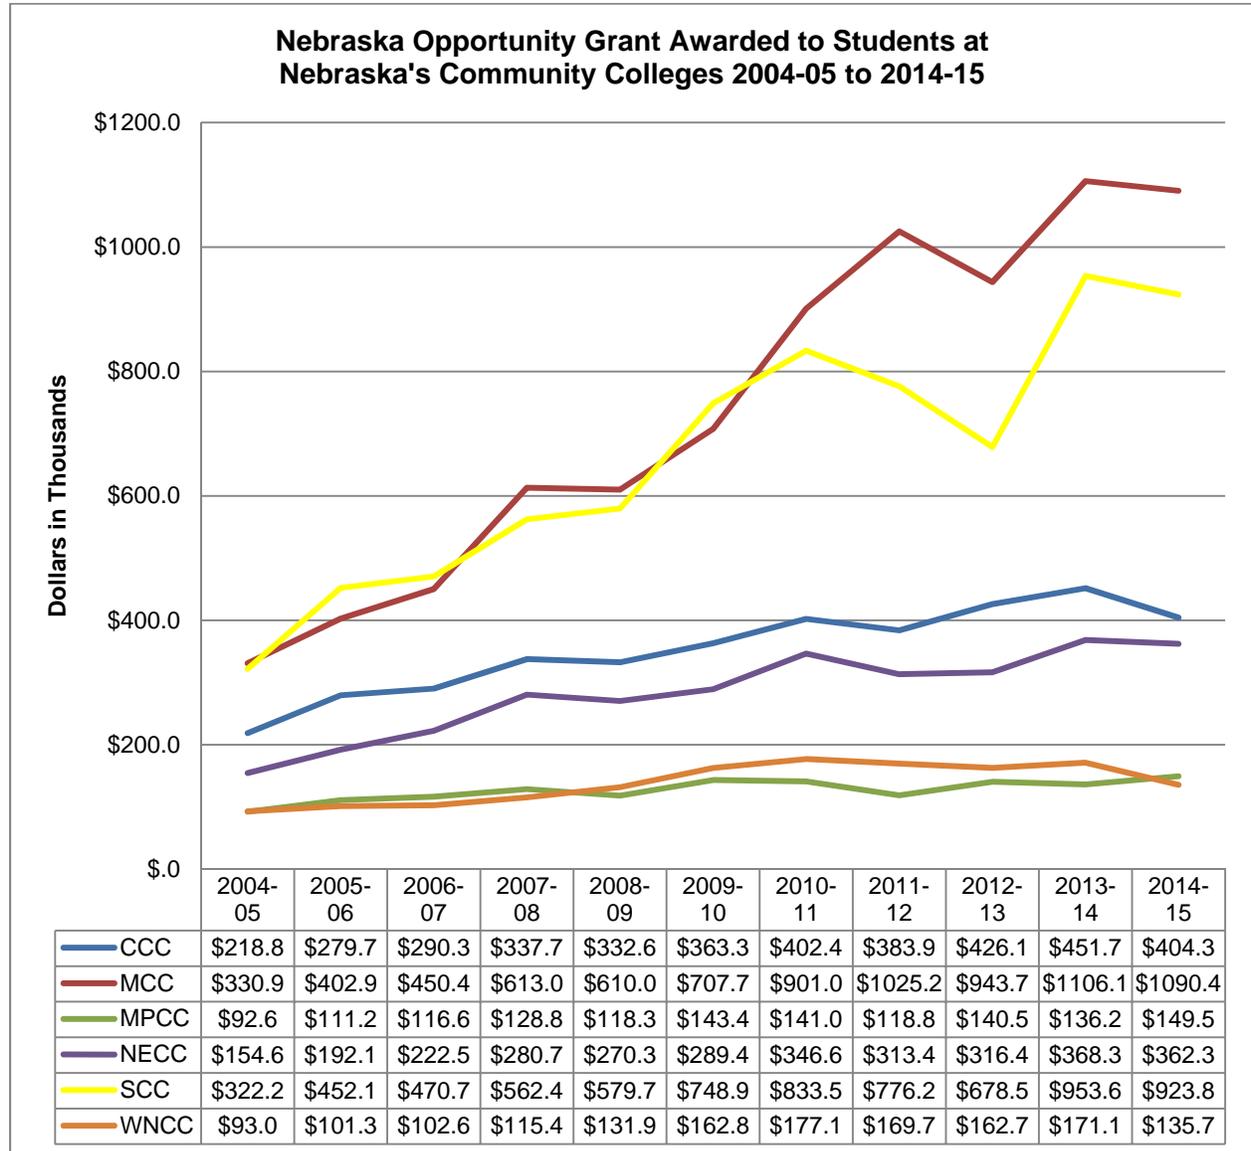

### Teacher Education Assistance for College and Higher Education Grant (TEACH)

The TEACH grant program was established by the federal government under the College Cost Reduction and Access Act (CCRAA) in 2007 to benefit current and prospective teachers. Students may be awarded up to \$4,000 per academic year. Undergraduate and post-baccalaureate students may receive up to a total of \$16,000, while graduate students may receive up to \$8,000. Eligible students must be currently completing or planning to complete coursework necessary to begin a career in teaching. There are, however, graduate degree alternatives for teachers or retirees with experience in a teacher shortage area. To be considered for a grant, a student must have a score above the 75th percentile on an admissions test, such as SAT, ACT, or GRE, or at least a 3.25 GPA. Students must sign an understanding of terms document to certify they understand the terms of the grant and the teaching service requirements. The student must teach full time for at least four years within eight years of completing the program at a Title I school as a highly qualified teacher and/or in a specified subject area (mathematics, science, foreign language, bilingual education, special education, reading or another “high need” field as designated by the state). If the service requirement is not met, the grant must be repaid as an unsubsidized direct Stafford Loan with interest from the date(s) of original disbursement.

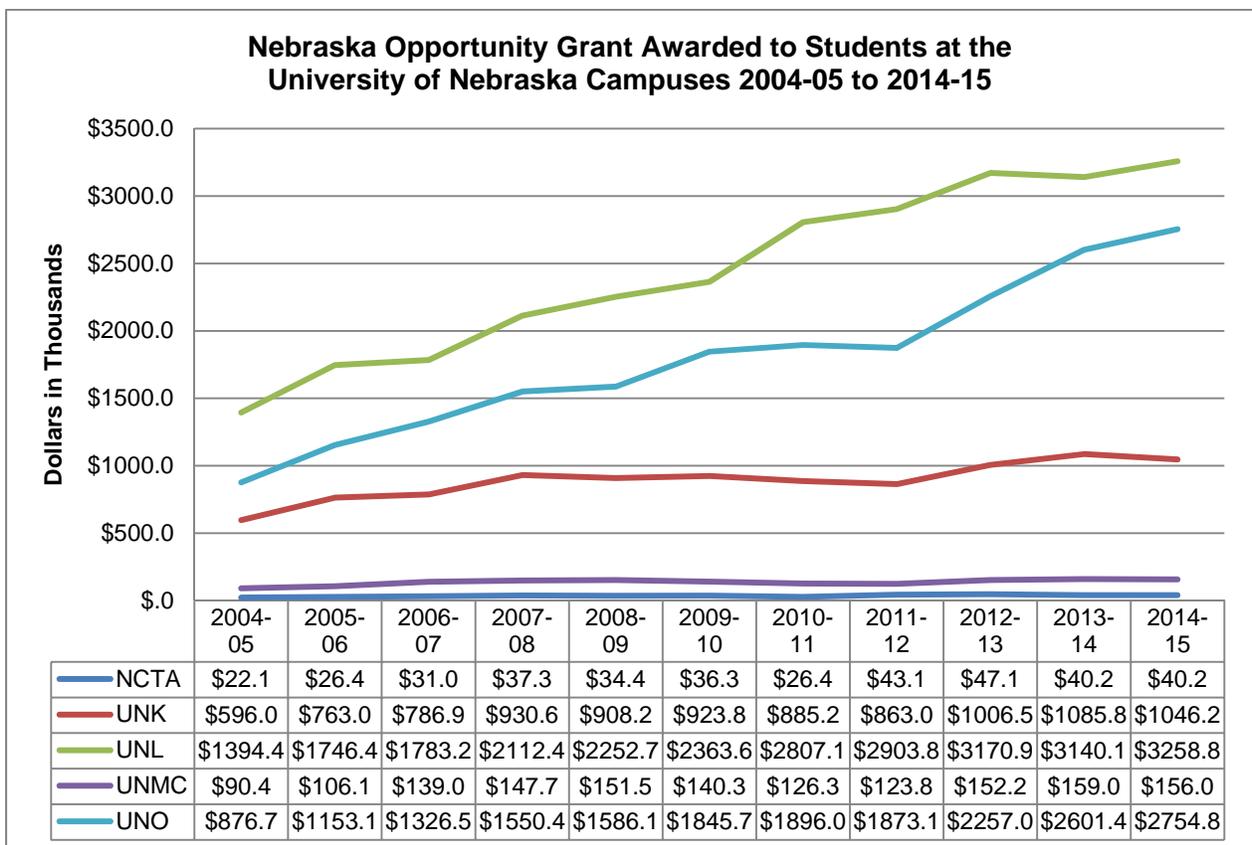

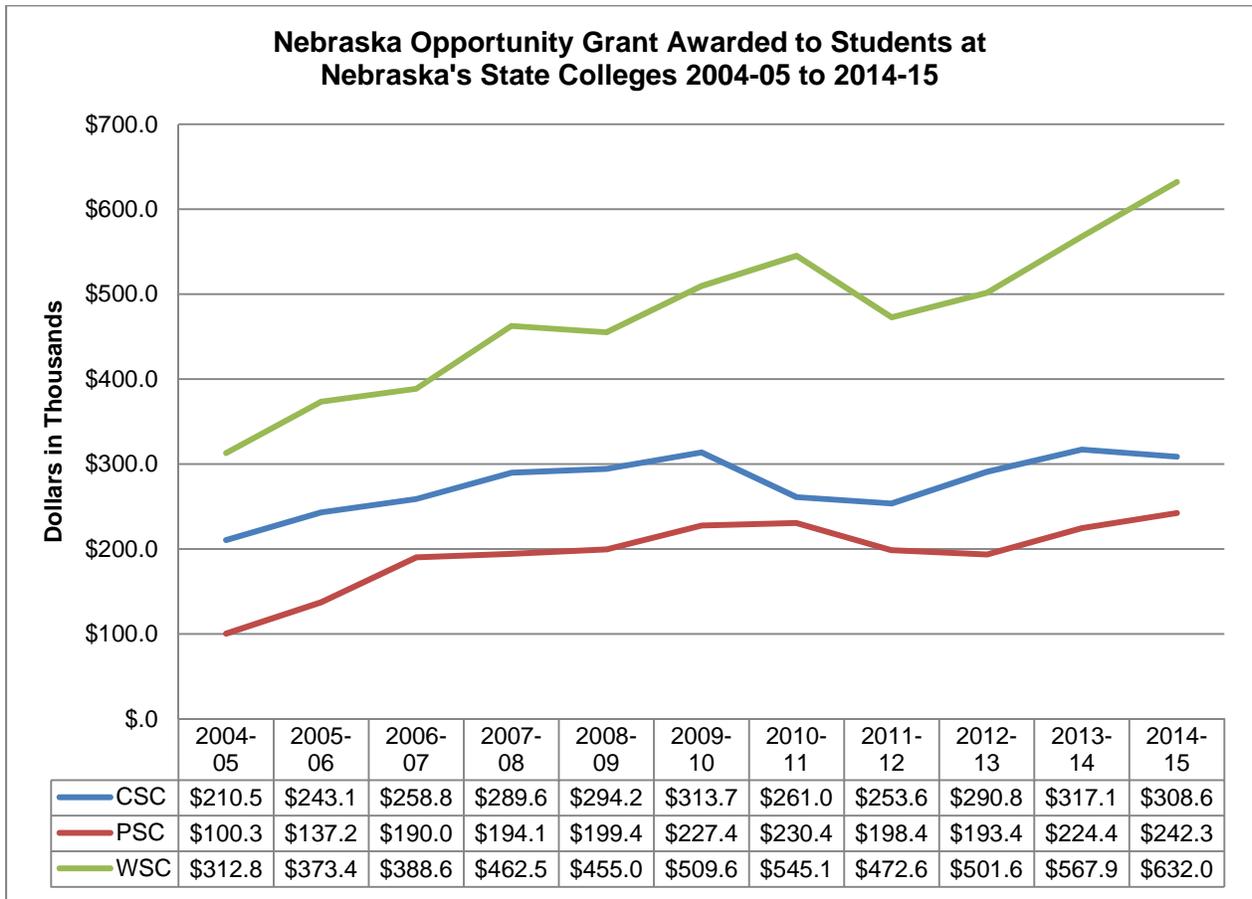

### Nebraska Opportunity Grant (NOG)

State grants are awarded to Nebraska-resident students attending eligible Nebraska postsecondary institutions who demonstrate financial need. Funding for the grant through the 2010-11 academic year came from both the federal government through its Leveraging Educational Assistance Partnership (LEAP) and Special Leveraging Educational Assistance Partnership (SLEAP) program authorizations and from the state through the Nebraska Lottery and the state’s General fund. Effective with the 2011-12 academic year the grant is funded only through the Nebraska Lottery and the state’s General fund<sup>1</sup>.

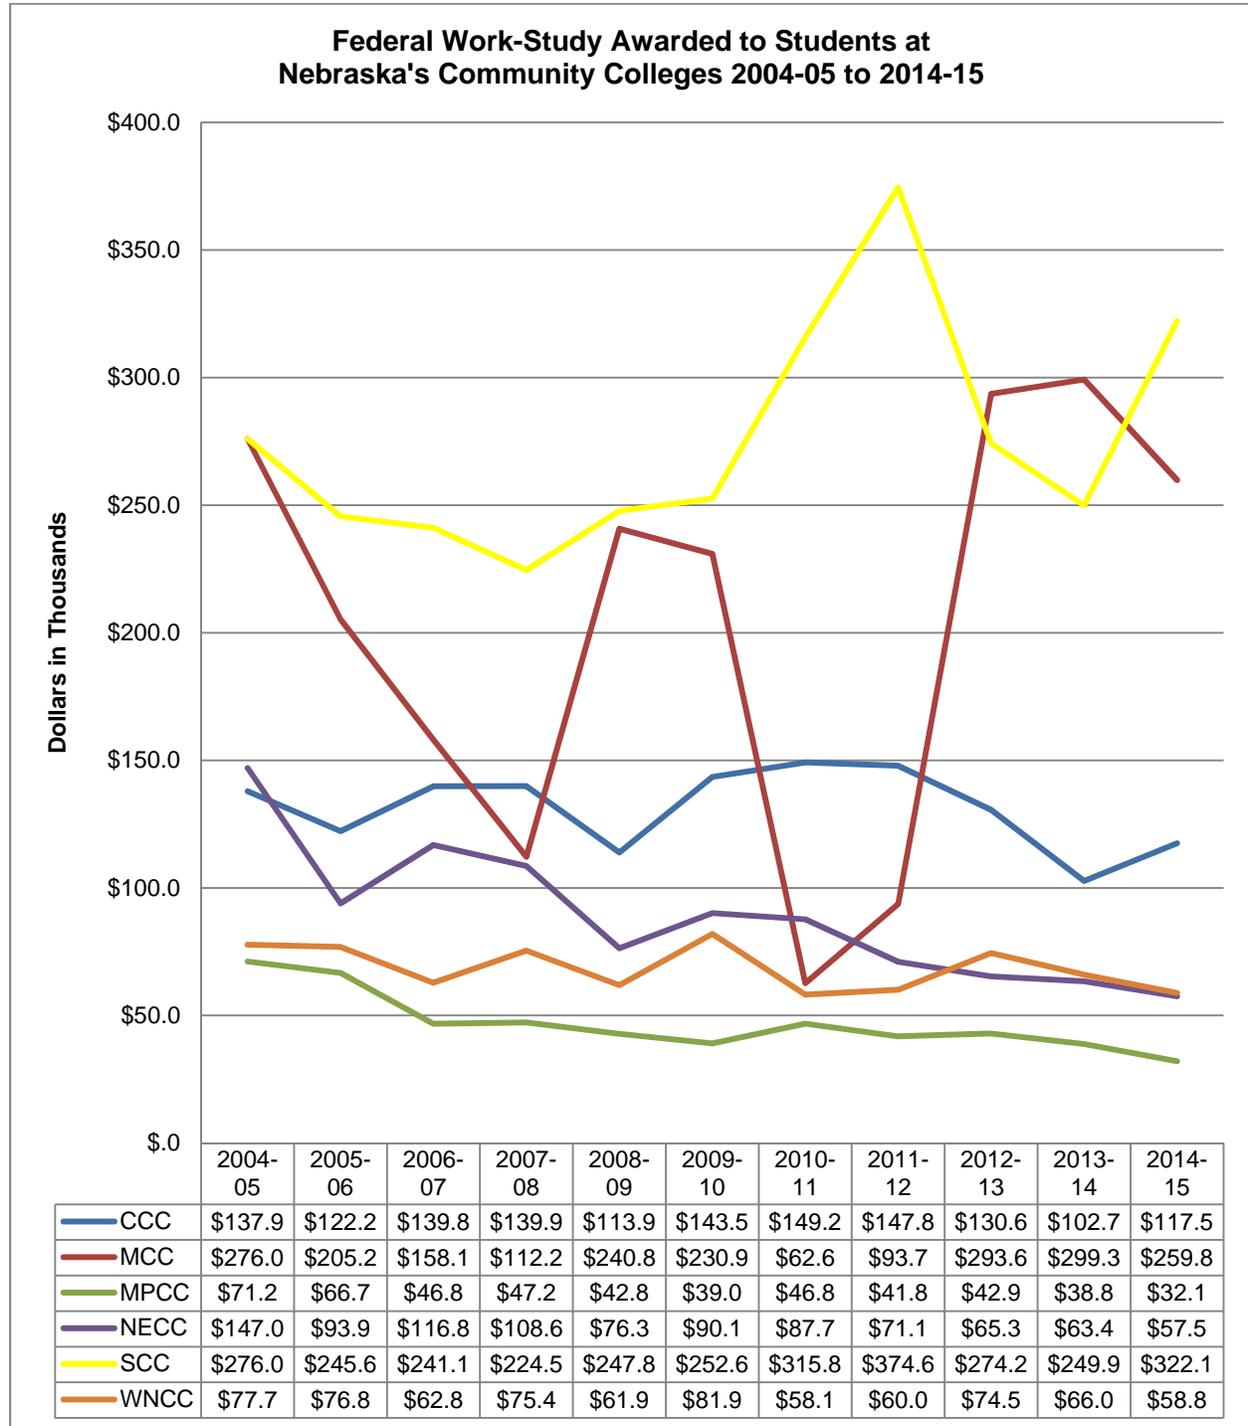

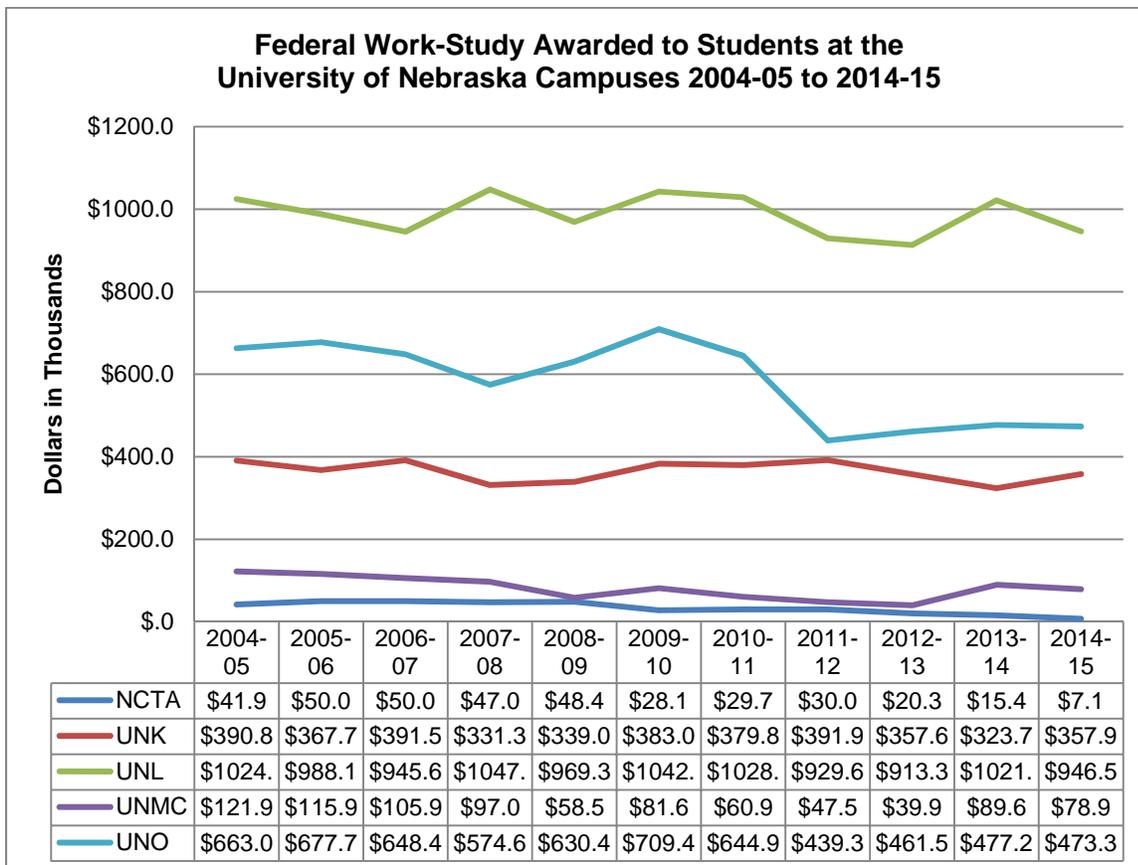

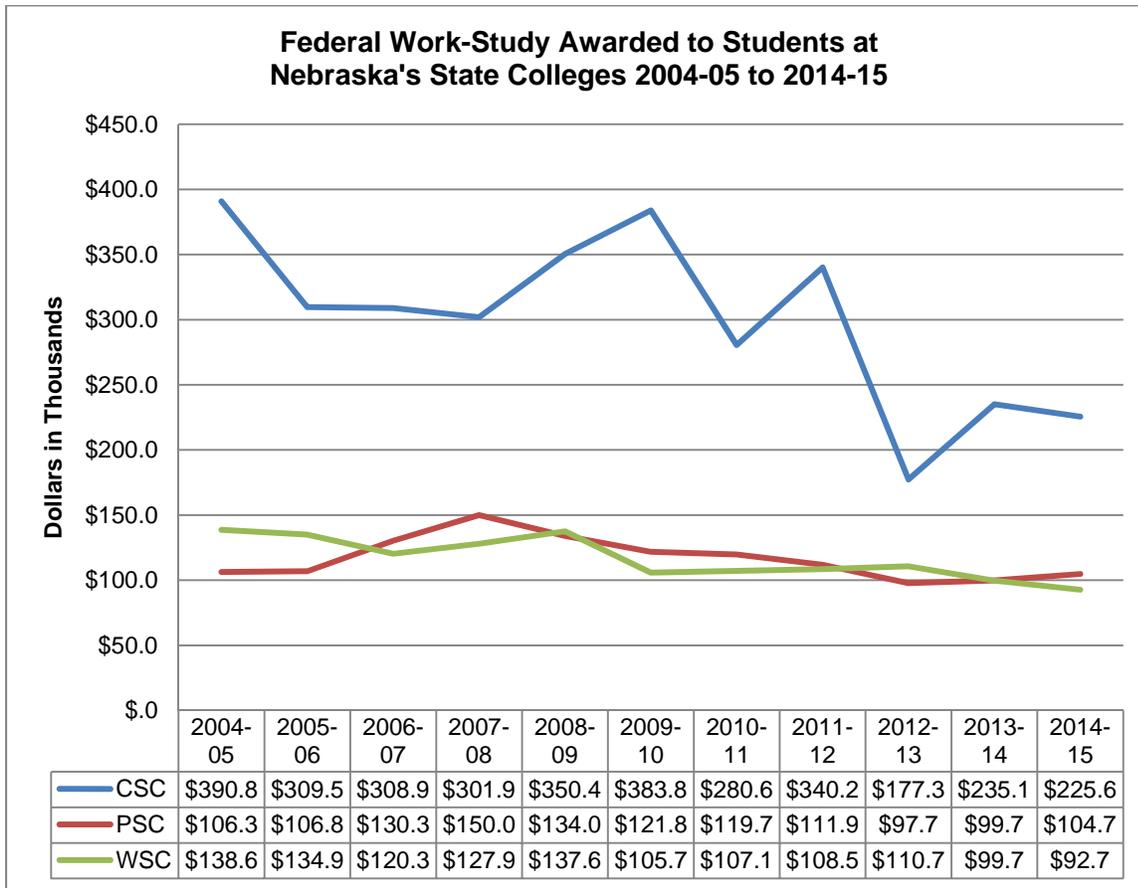

<sup>1</sup> The Nebraska Opportunity Grant, previously named the Nebraska State Grant, was first awarded to students during the 2003-04 academic year. Grant funds were awarded prior to 2003-04 under three different grant programs. The following graph represents funding only awarded to students attending public institutions. NOG funds were also awarded to students attending private nonprofit and private for profit institutions. See page 57 for additional information.

### Federal Work-Study (FWS)

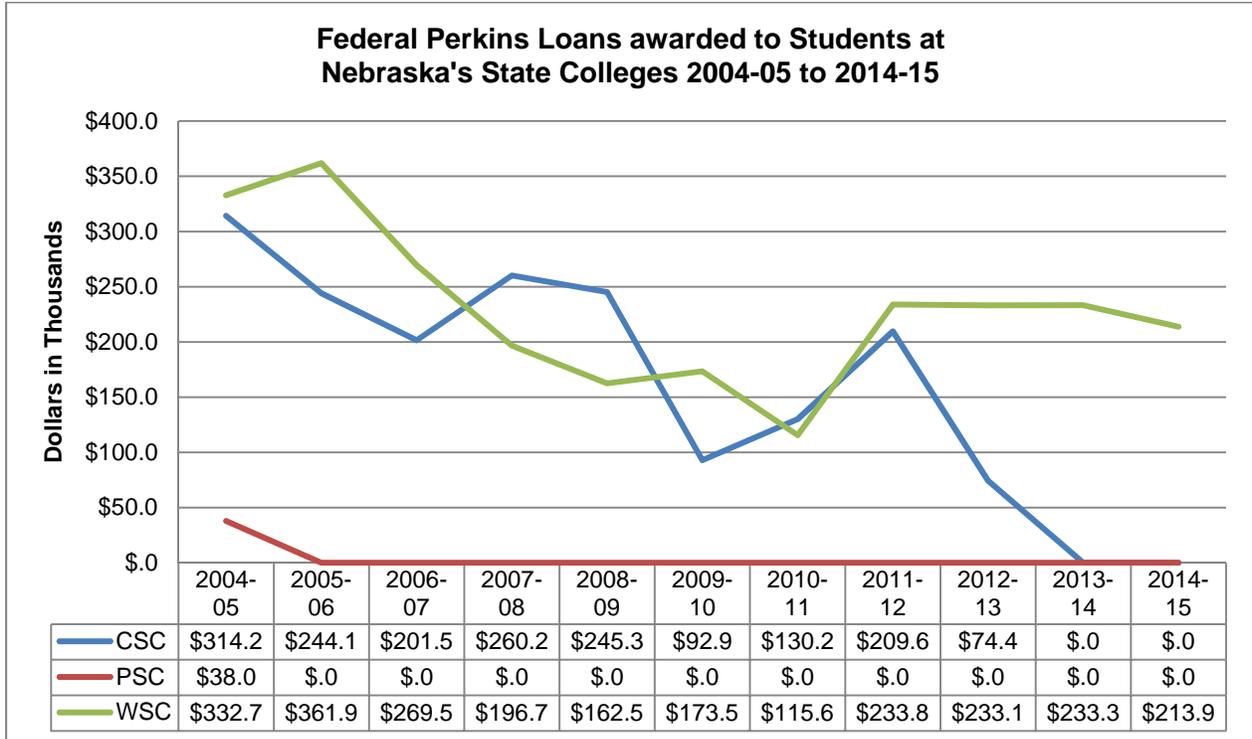

The FWS program provides on- and off-campus jobs for graduate and undergraduate students who demonstrate financial need. Work-study amounts awarded vary from institution to institution.

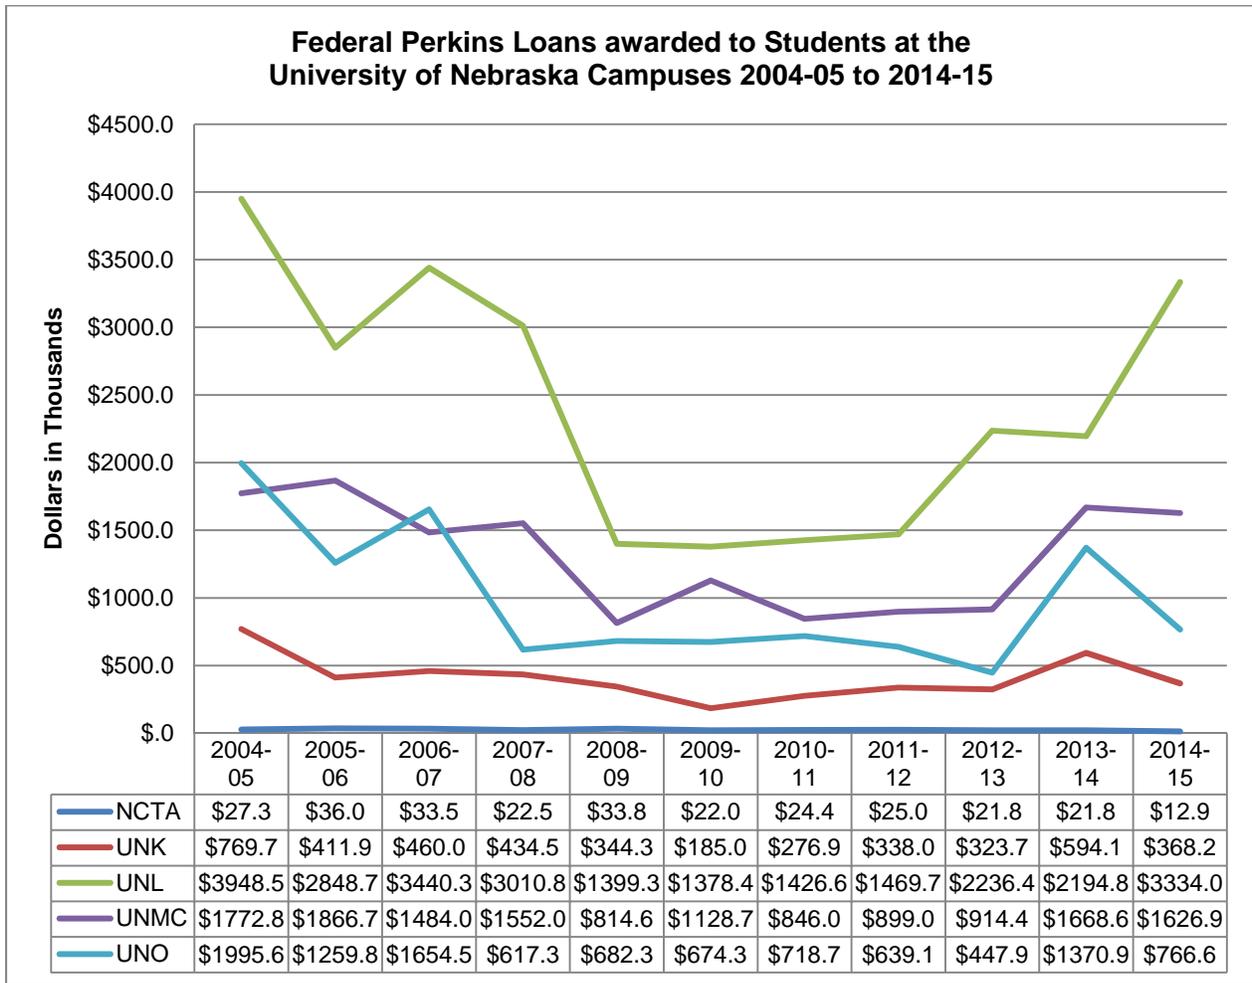

### Federal Perkins Loan

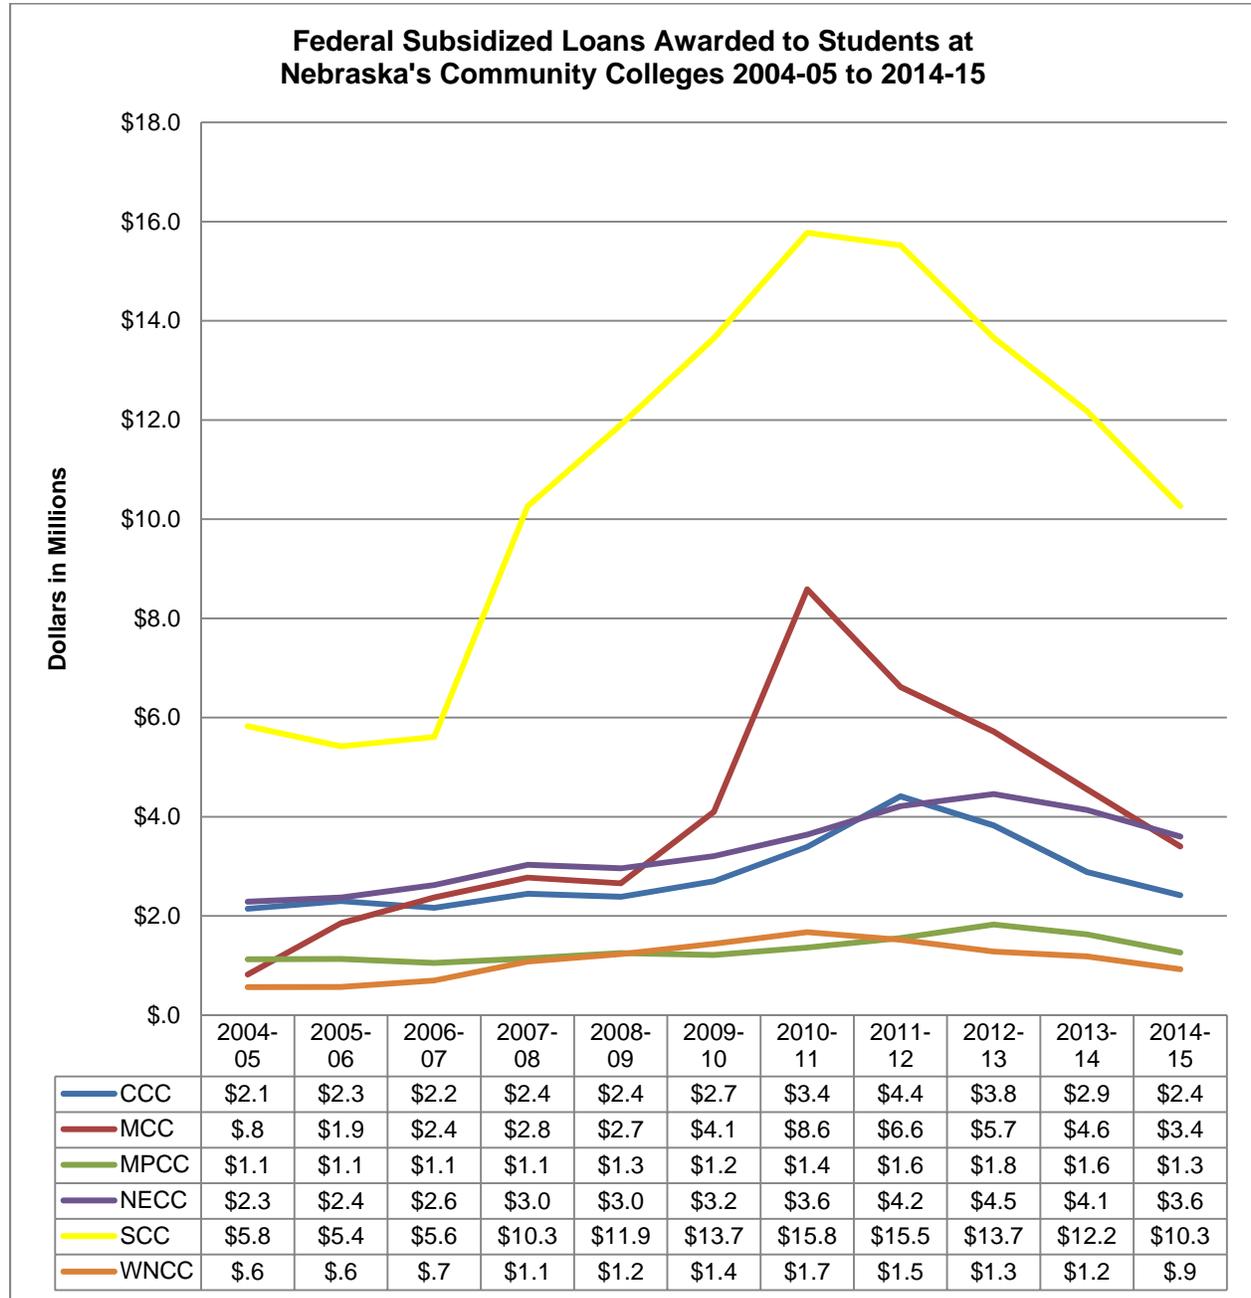

Perkins Loans are fixed, low-interest (5 percent) loans available to graduate and undergraduate students with financial need. Undergraduate students may borrow up to \$4,000 per year, and graduate students may borrow up to \$6,000 per year, depending on the availability of funds at their institution.

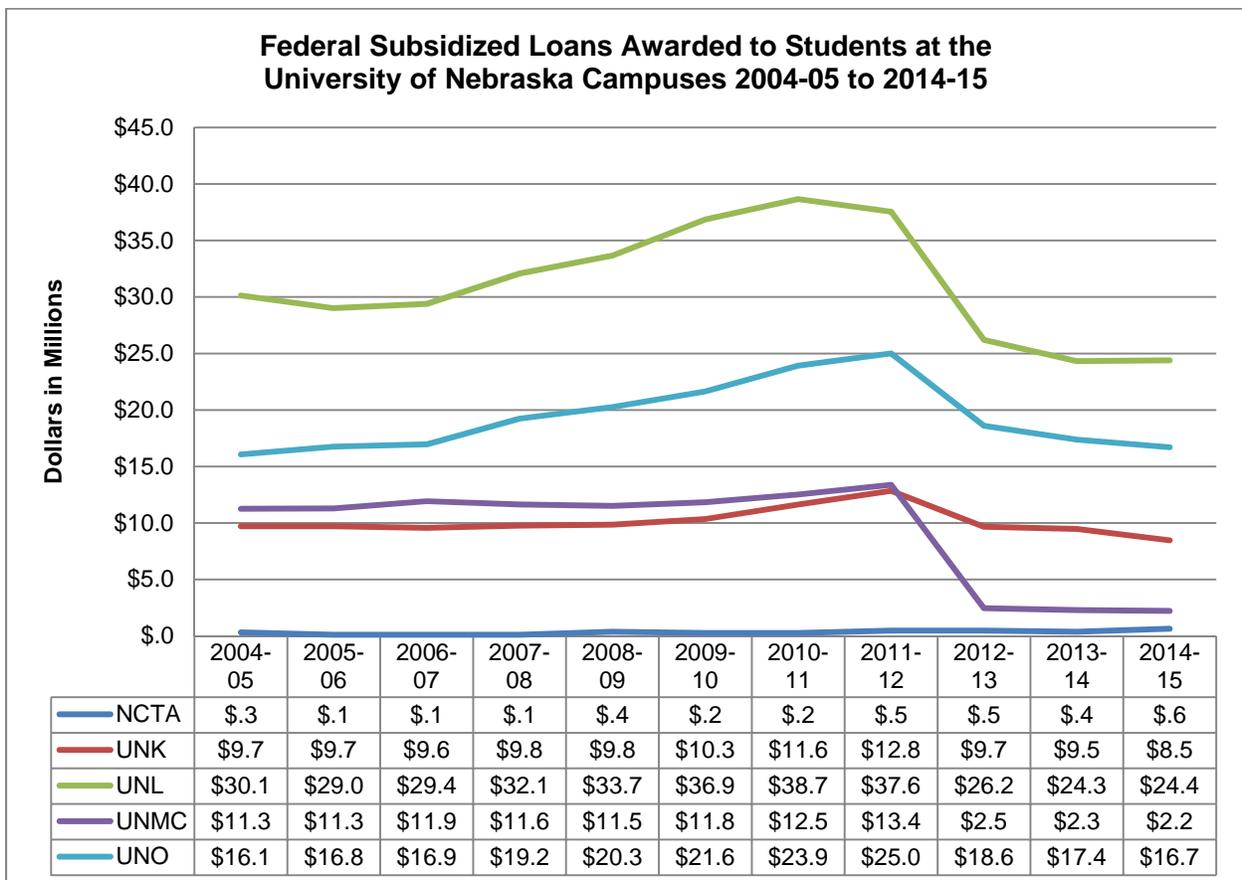

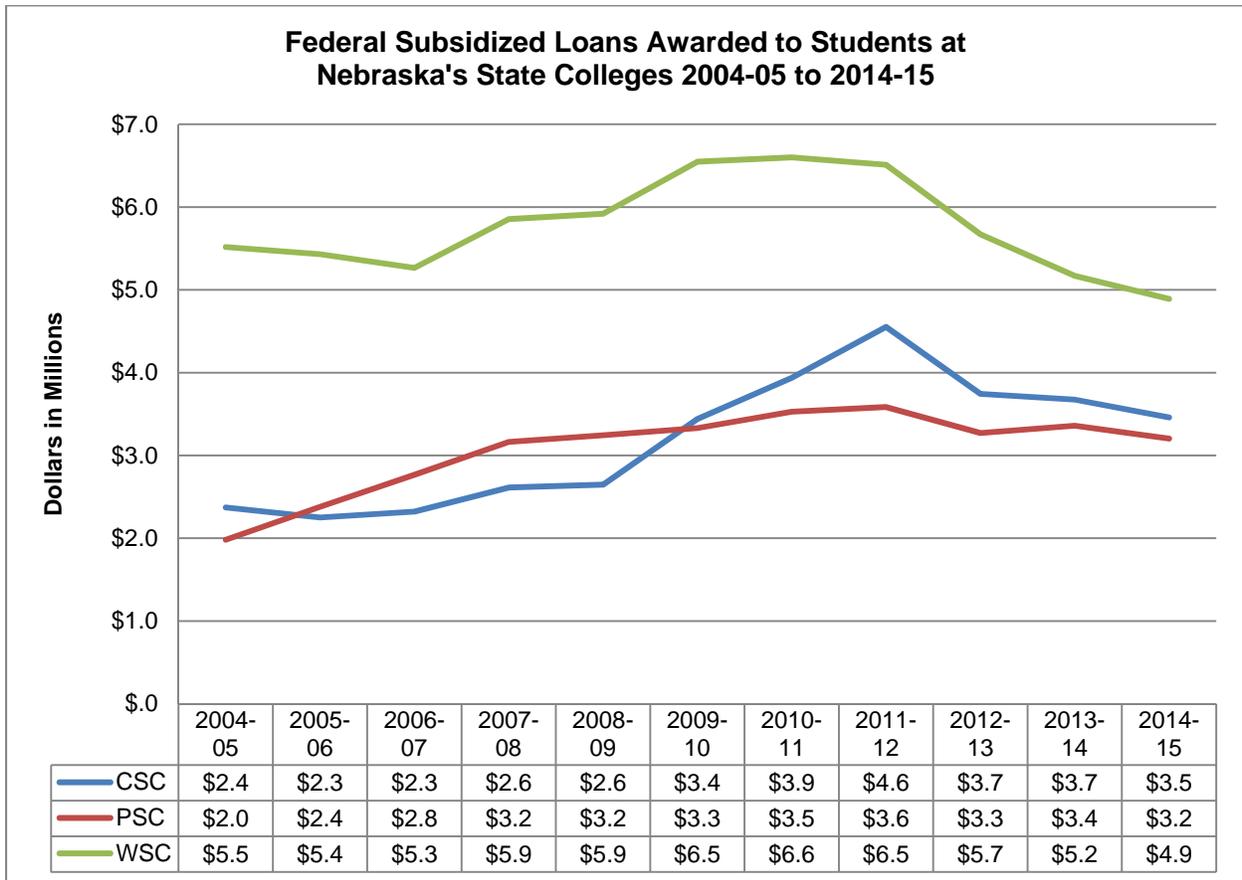

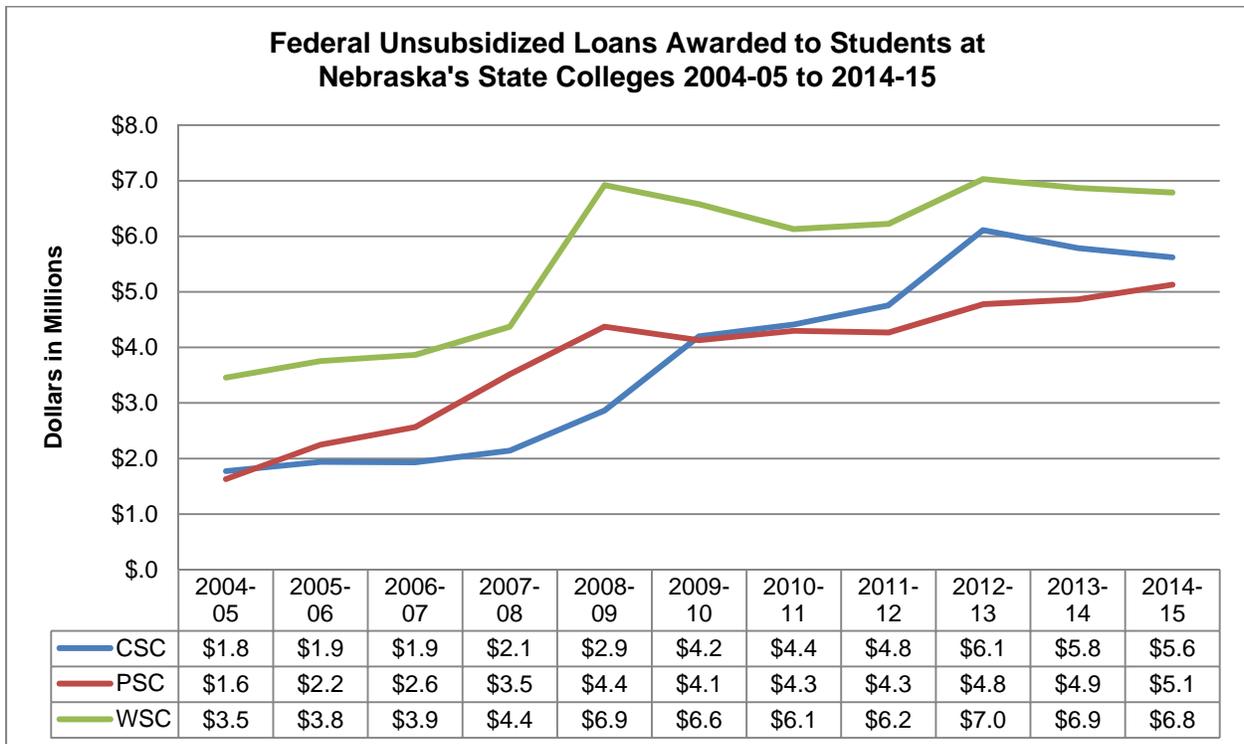

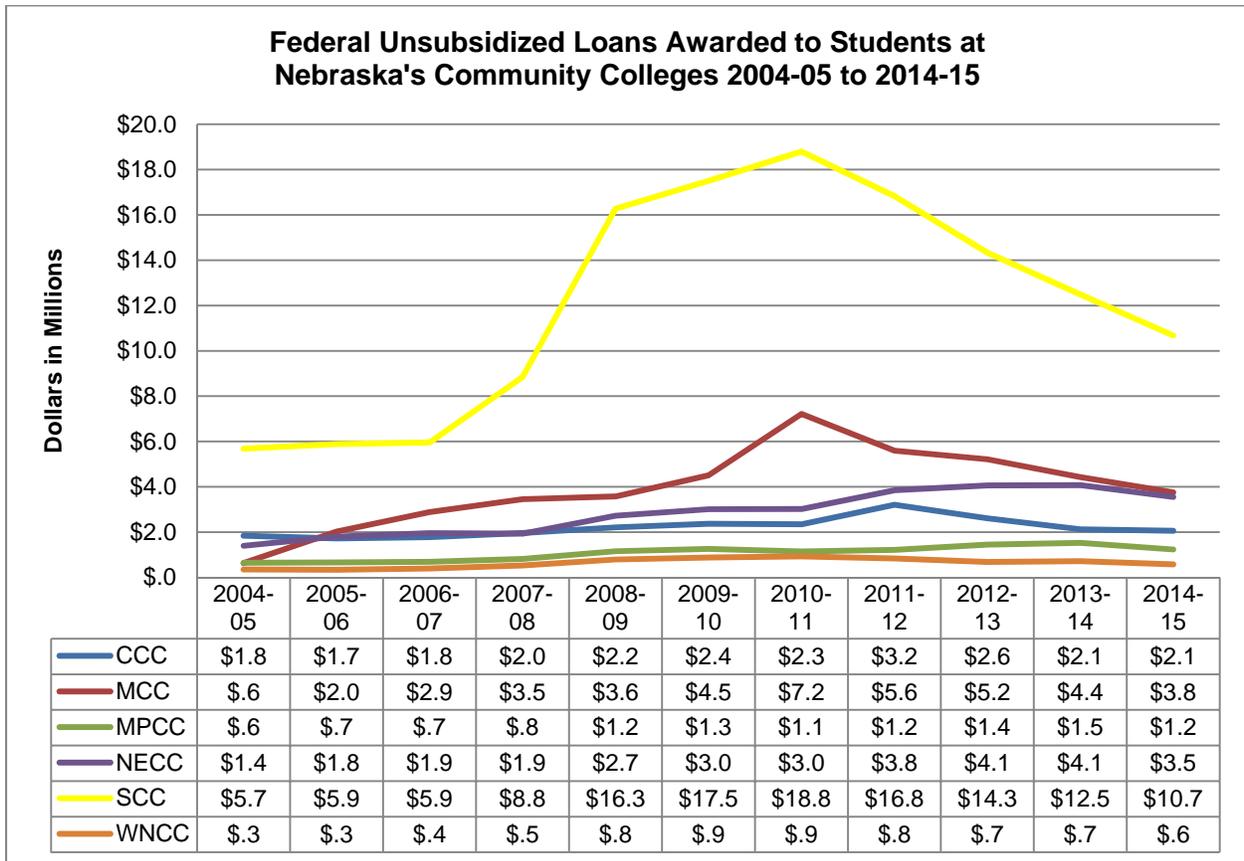

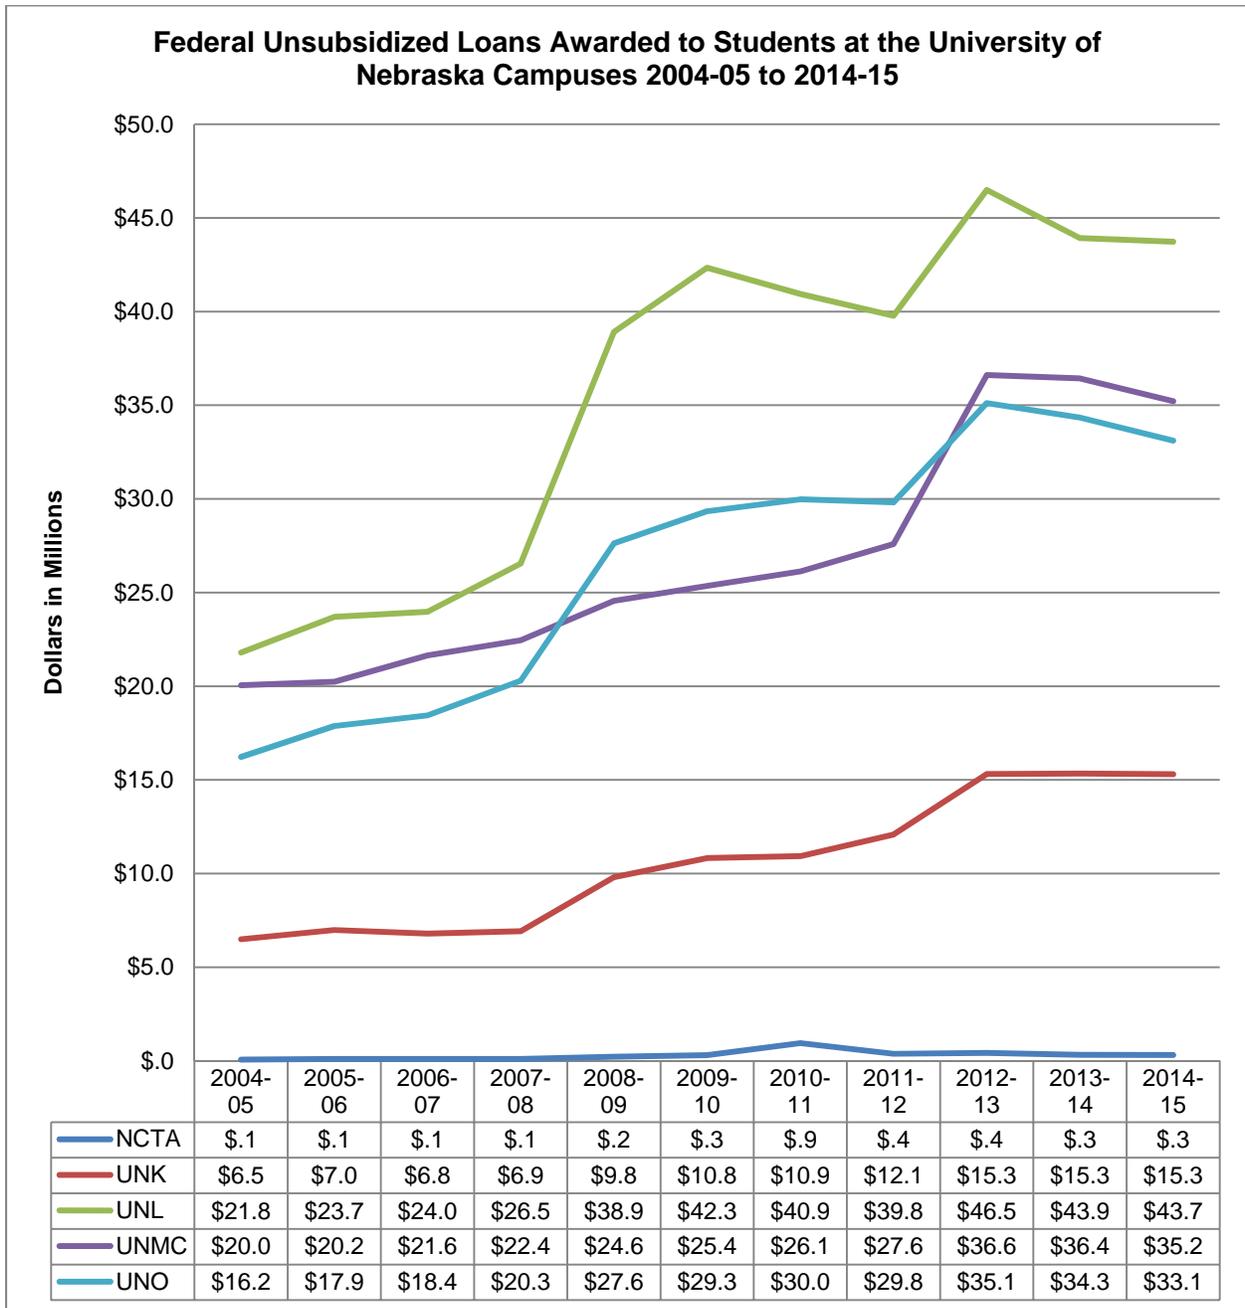

### Federal Subsidized (Sub) and Unsubsidized (Unsub) Direct Loans

Direct Subsidized and Unsubsidized Loans are available to undergraduate and graduate students. Students must demonstrate financial need in order to qualify for a Subsidized Loan, for which the federal government pays the interest while the student is in school. Unsubsidized Loans are available to all students, but borrowers are responsible for the interest while in school. Effective with the 2012-13 academic year graduate students are not eligible to borrow Subsidized Loans. Yearly loan limits for Direct Loans range from \$3,500 to \$20,500, depending on grade level and dependency status.

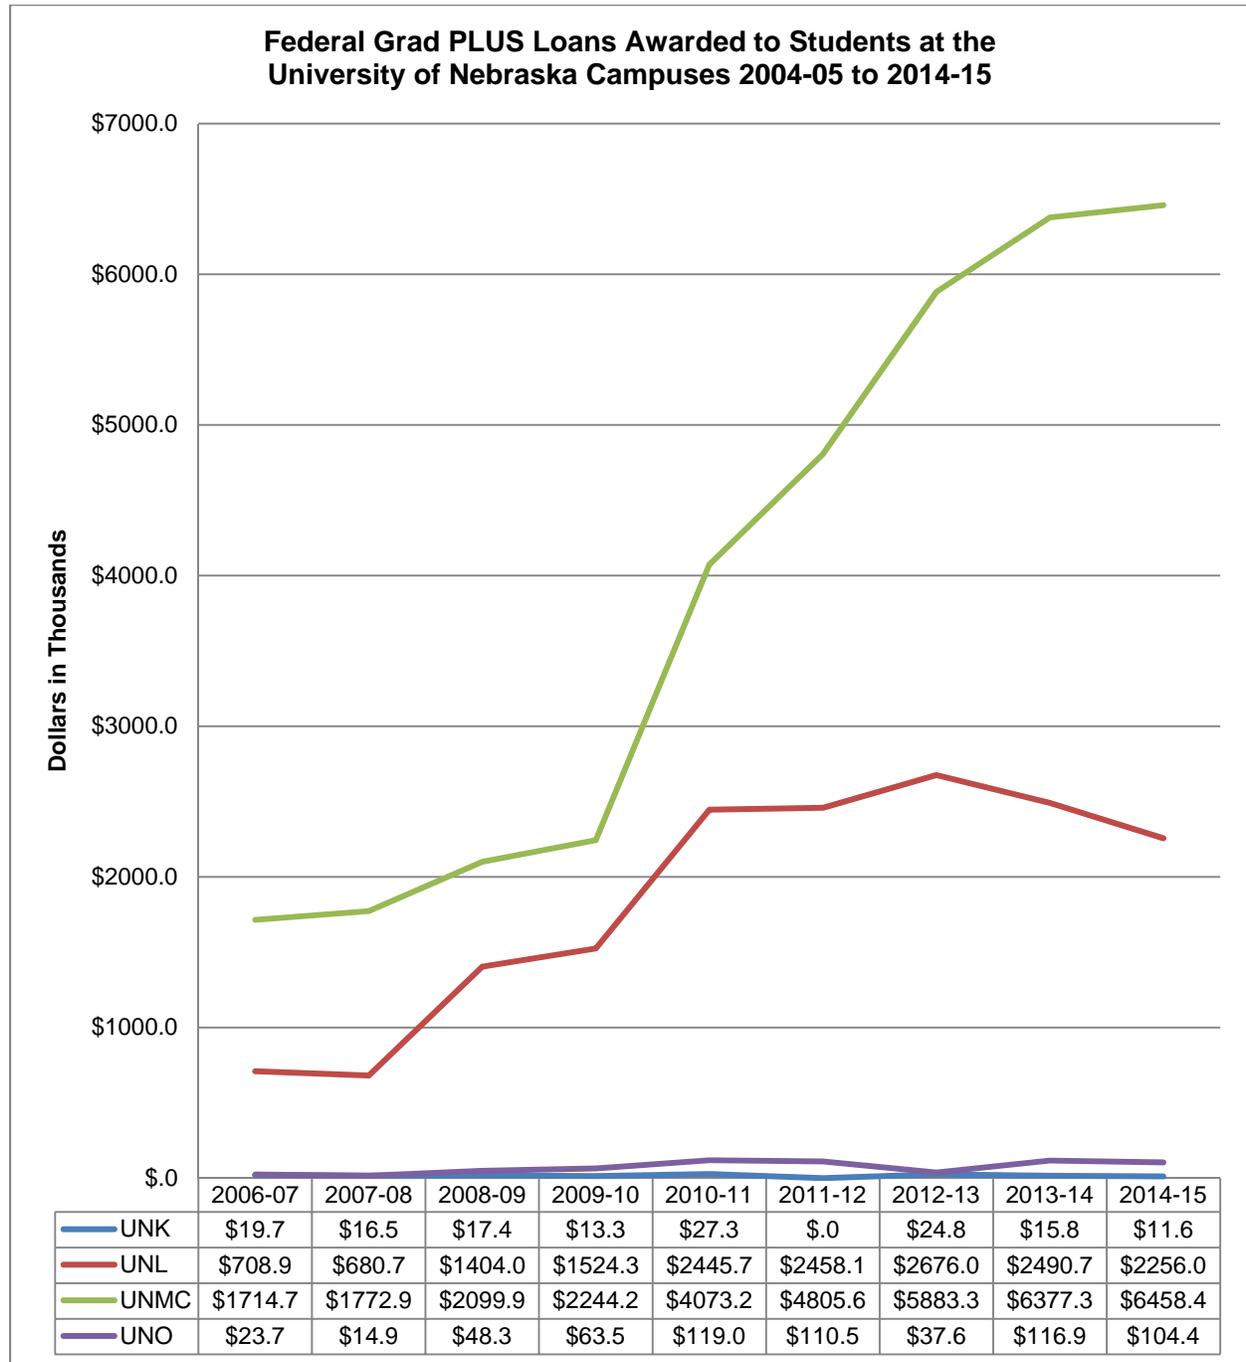

### Federal Grad PLUS Loans

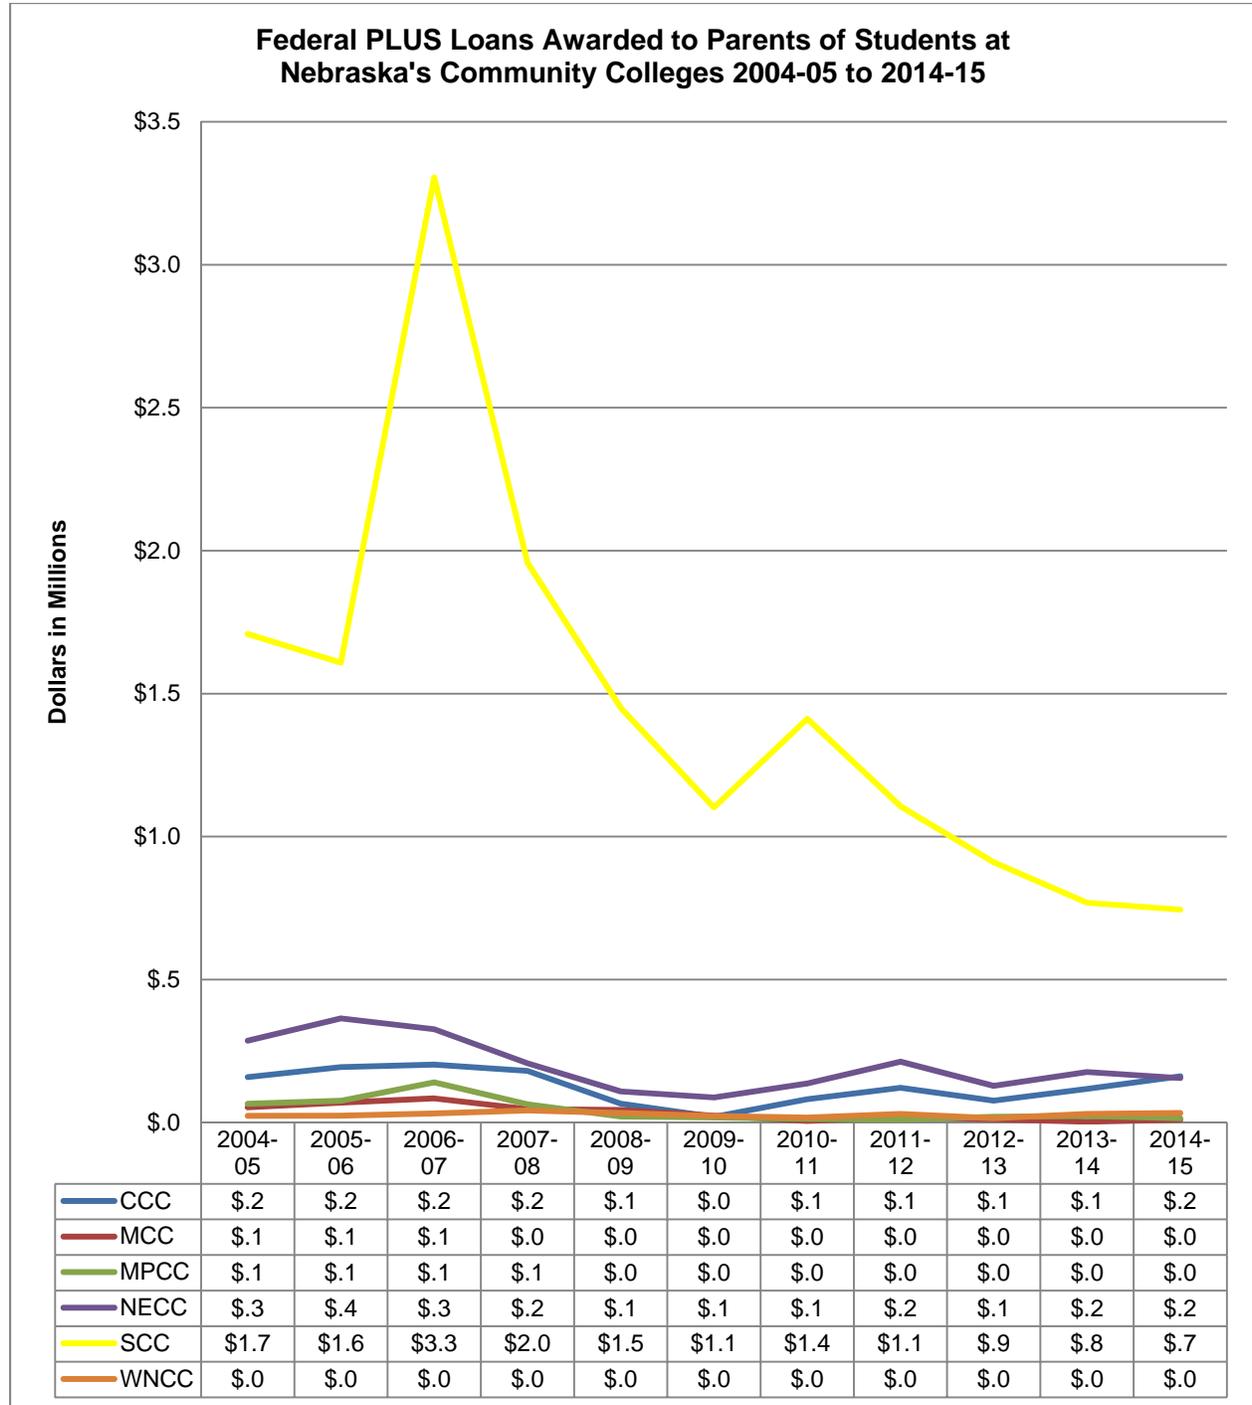

A graduate or professional degree student is eligible to borrow under the Grad PLUS program for up to his or her cost of attendance minus other estimated financial assistance. Applicants must apply for their annual loan maximum eligibility under the Federal Subsidized and Unsubsidized Loan Program before applying for a Grad PLUS loan<sup>1</sup>.

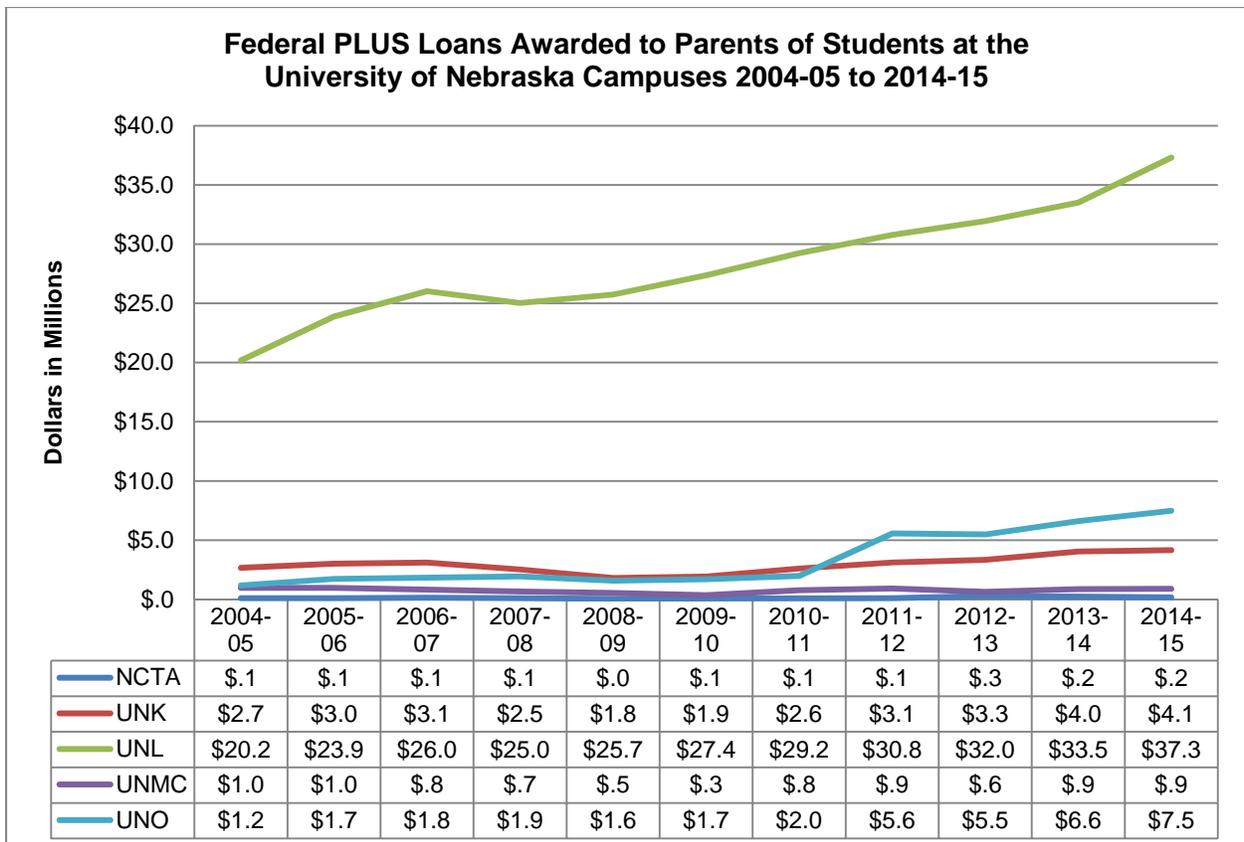

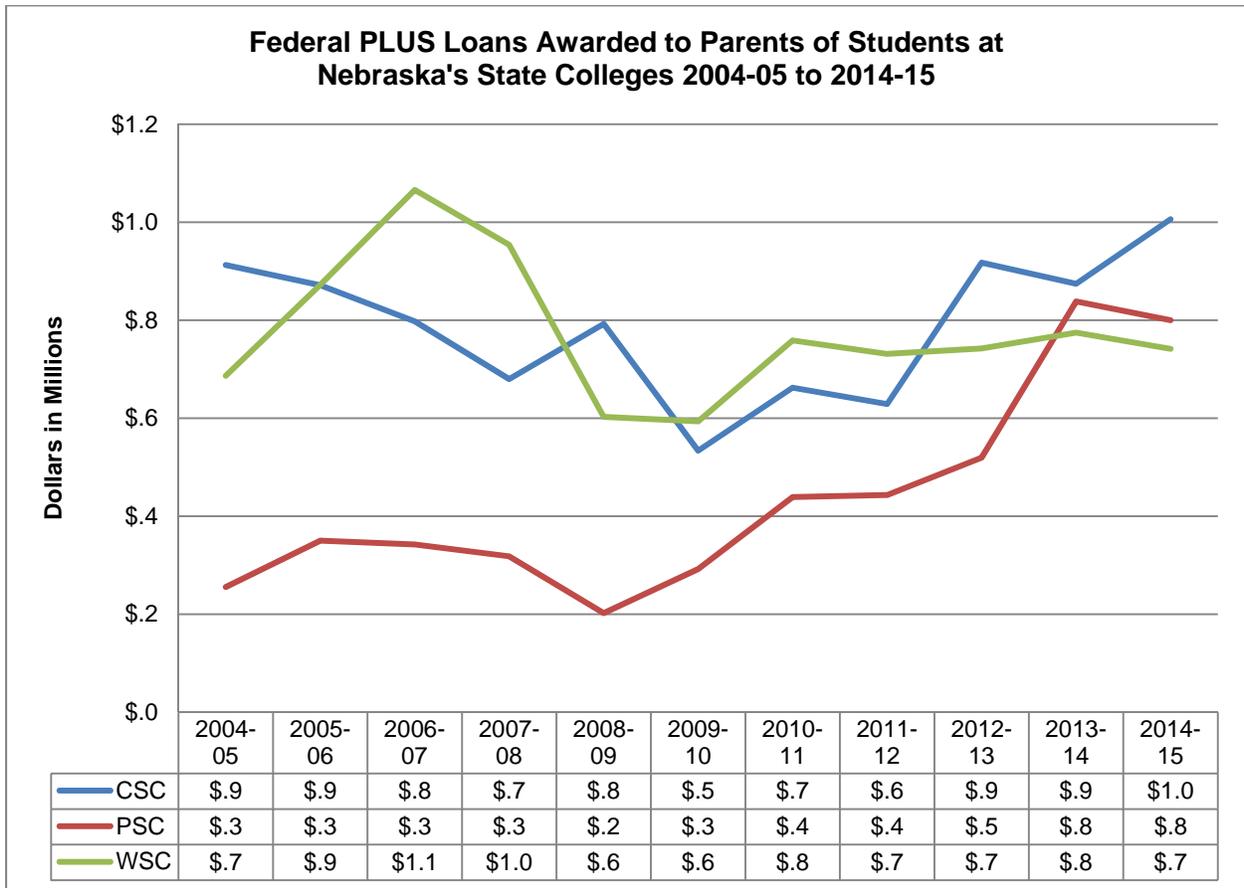

<sup>1</sup> Because GRAD Plus Loans are only available to graduate and professional students, community college students are not eligible for this loan. Graduate students at the State Colleges have not needed to utilize this program, as their costs can be covered by other aid, including the Subsidized and Unsubsidized Direct loans.

### Federal PLUS Loans

PLUS loans are available to the parents of dependent undergraduate students. These loans are not need-based. Parents may borrow up to the student’s cost of attendance, less any other financial aid received.

As the information presented in the preceding pages indicates, the current system of federal financial aid is complex and daunting for student and parents. In addition, certain “terms of art”—not always clear—are used.

As discussed earlier in this report, tuition and mandatory fees and the student payment share have increased considerably over the past 10 years. Therefore, having financial aid available to assist with college expenses is a necessity for many students. While the State has been generous in its financial support of the Nebraska Opportunity Grant program (see p.[57](#)), other types of financial assistance have not received funding increases, and some have actually received decreased funding, such as the Perkins Loan program. Consequently, students have relied primarily upon student loans, both federal and private, to fund their education.

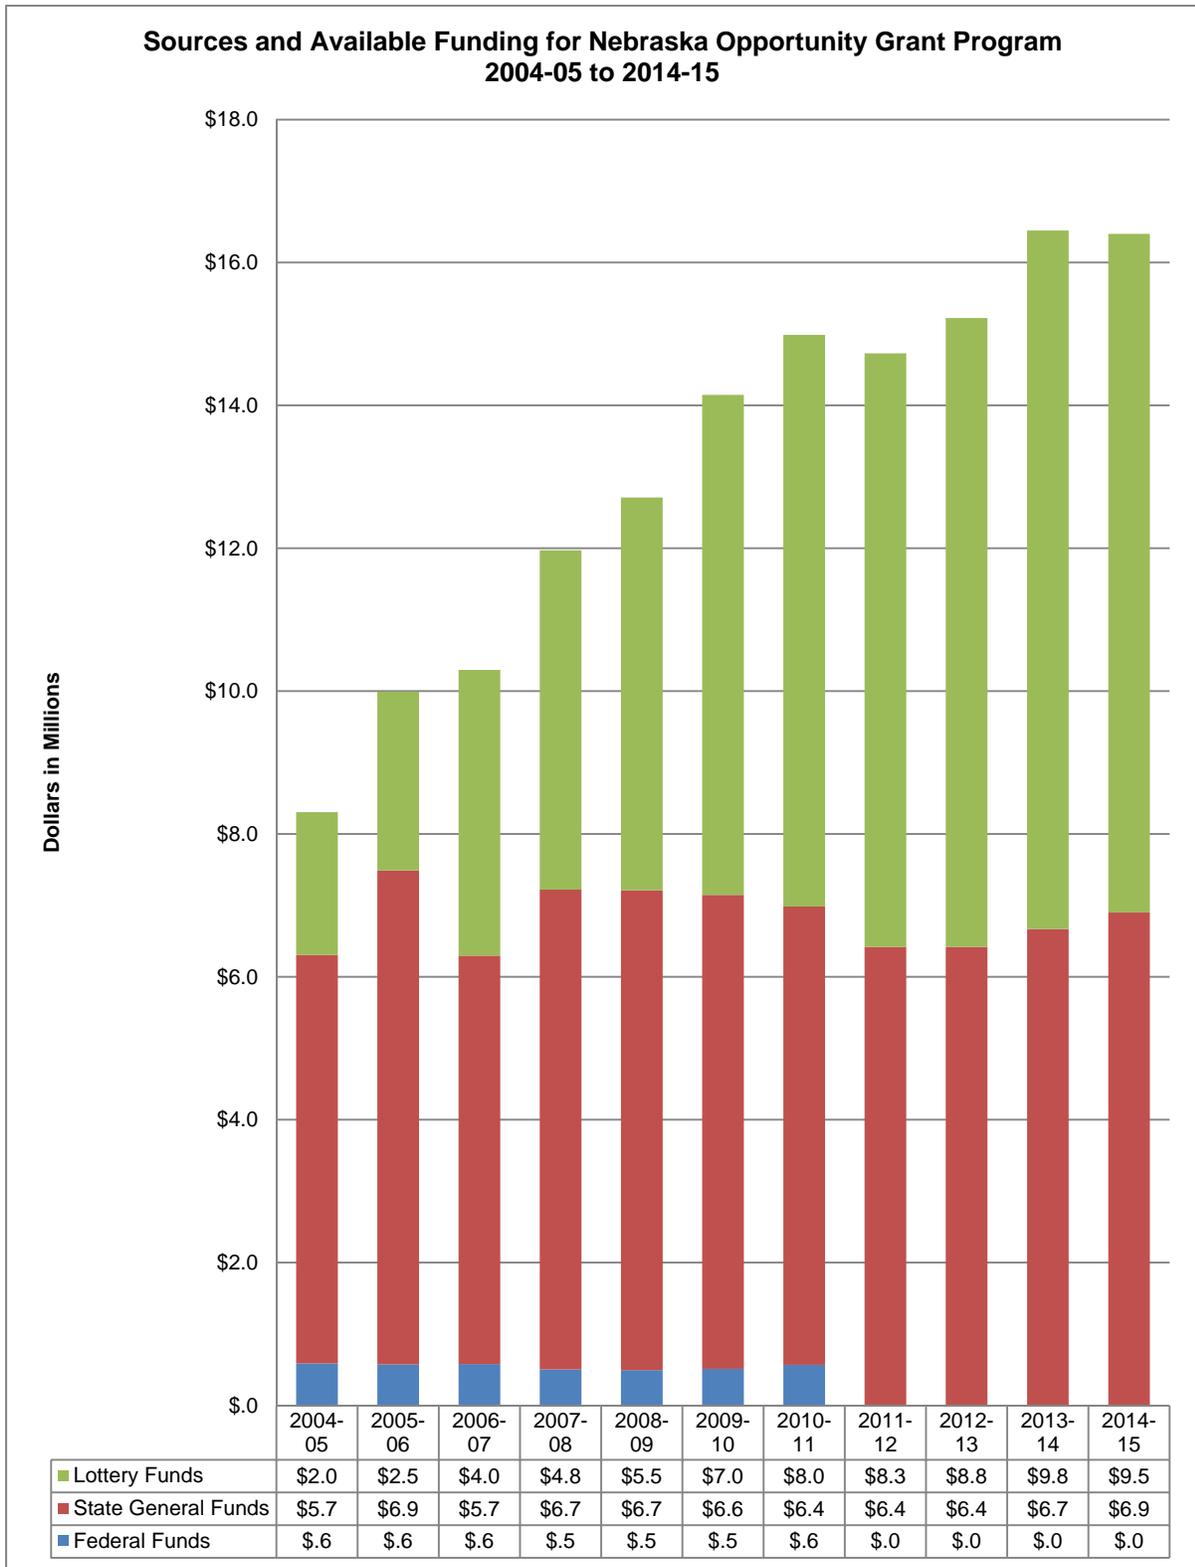

## State Grant Trends

The Nebraska Opportunity Grant (NOG)<sup>1</sup> is administered by the Coordinating Commission and awarded to students in consultation with financial aid administrators at Nebraska's public postsecondary institutions. Prior to the 2010-11 academic year, the NOG could only be awarded to students who were a.) residents of Nebraska, b.) attending an eligible Nebraska college or university, and c.) low-income students defined by the Commission as those who were eligible for the Federal Pell Grant. Effective with the 2010-11 academic year, a low-income student has been defined as a student who meets the first two qualifications and has an Expected Family Contribution equal to or less than the amount stipulated in statute as a result of completing the Free Application for Federal Student Aid (FAFSA). While the state has significantly increased funding over the past few years, additional funds are needed. In 2013-14, Nebraska ranked 32<sup>nd</sup> among the states in estimated need-based, state-provided student aid grant dollars per full-time undergraduate enrollment (National Association of State Student Grant and Aid Programs, 2015). This is an increase from 33<sup>rd</sup> in 2012-13.

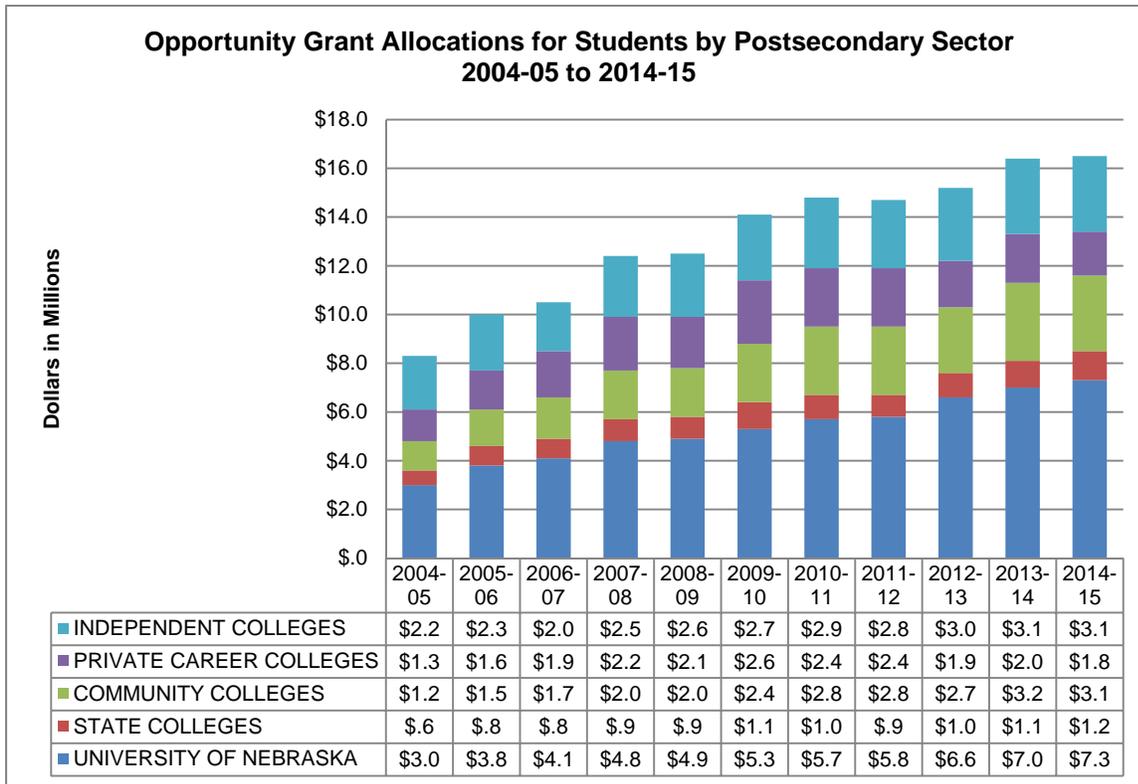

The following charts show the make-up of the program funding followed by a chart that shows the allocations by sector.

<sup>1</sup> Prior to the 2010-11 academic year, Nebraska's state grant program was called the Nebraska State Grant, authorized under the Nebraska Scholarship Act (2003).

### State Grant Funding

### Allocations by Sector

From 2004-05 to 2014-15, allocations of the Nebraska Opportunity Grant increased:

- 158% within the community college sector
- 143% within the University of Nebraska sector
- 100% within the State College sector
- 38% within the private for-profit sector
- 41% within the independent college and university sector
  
- increased 142% within the public sector
- increased 40% within the private sector

From 2009-10 to 2014-15, allocations of the Nebraska Opportunity Grant:

- increased 38% within the University of Nebraska sector
- increased 29% within the community college sector
- increased 15% within the independent college and university sector
- increased 9% within the State College sector
- **decreased** 31% within the private for profit sector
  
- increased 32% within the public sector
- **decreased** 8% within the private sector

## Student Loan Trends

The most prominent trend in student financial aid has been the growing reliance on student and family borrowing for higher education. Since the early 1980s, federal financial aid programs have encouraged this trend by transforming a system based mainly on need-based grants to one dominated by loans.

Student loan borrowing has increased substantially. Nationwide, from 2004-05 to 2014-15, federal loan borrowing (Perkins, subsidized, unsubsidized, GRAD PLUS and PLUS) increased 39 percent, with the bulk of this increase occurring in the Unsubsidized program, which increased 88 percent. The GRAD PLUS loan has grown 217 percent from 2006-07 (the first year it was offered) to 2014-15 (The College Board, 2016).

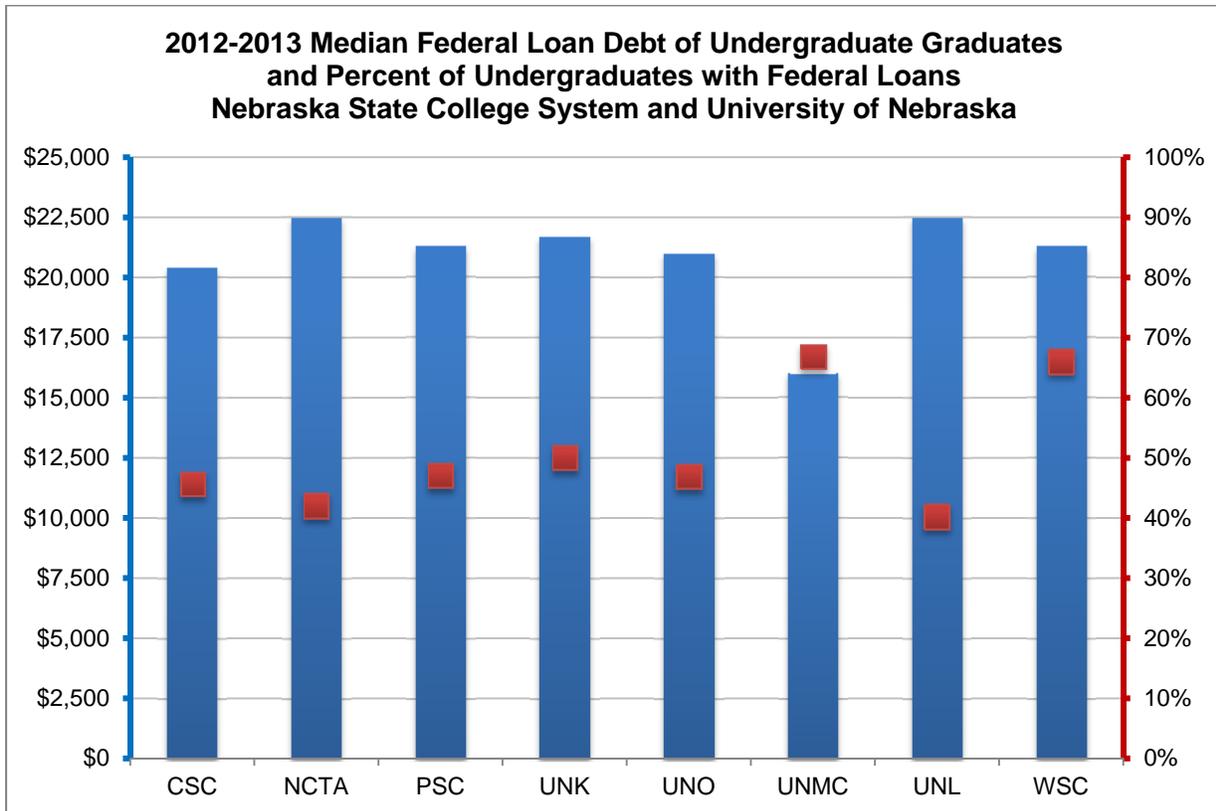

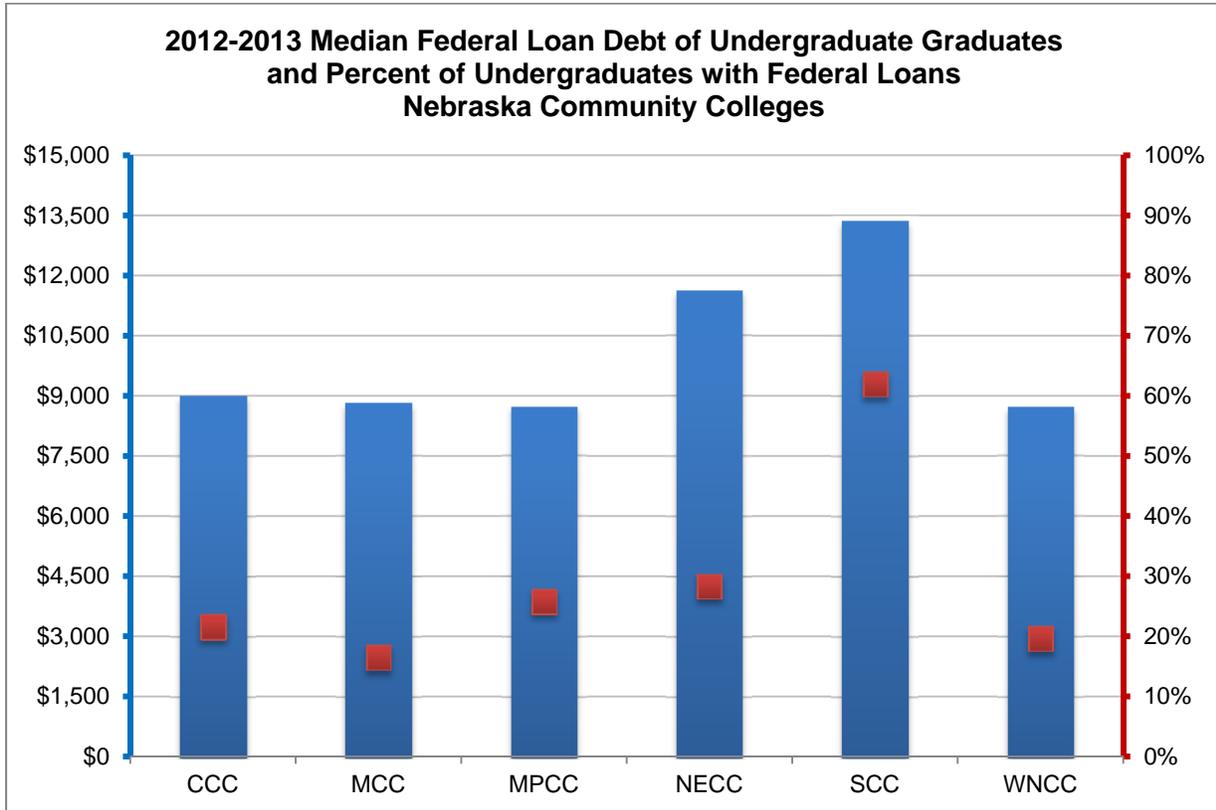

There is good news in that total borrowing in the federal loan programs from 2009-10 to 2014-15 decreased by 13 percent. Additionally, private loan program borrowing has decreased 43 percent from 2004-05 to 2014-15. While specific reasons for the decrease cannot be determined, a common theme refers to the growth in the GRAD PLUS program (see page [53](#)) (The College Board, 2016).

According to the Project on Student Debt, students who graduated in 2014 from a Nebraska public or private four-year institution had an average student loan debt of \$26,473. This compared to the national average of \$29,400 and ranked Nebraska 23<sup>rd</sup> in the nation (Project on Student Debt, 2015)

According to the Consumer Financial Protection Bureau, total student loan debt outstanding from federal and private loans exceeded the \$1 trillion mark in late 2011, an amount that exceeds credit card debt and auto loans (Chopra, 2012). That amount has since risen to \$1.2 trillion (Thompson, 2014).

Borrowing at Nebraska's public postsecondary institutions can be found on pages [47-55](#).

**Median Federal Loan Debt and Percent of Undergraduates with Federal Loans**

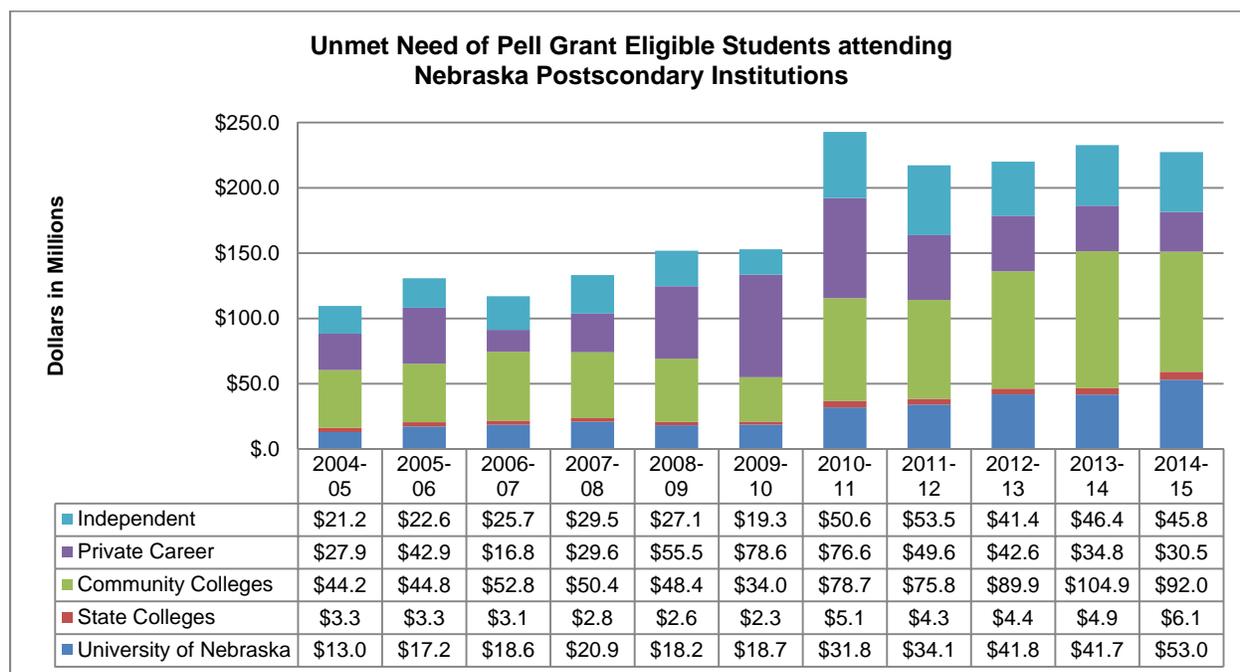

Source: (US Department of Education College Scorecard)

### Unmet Financial Need

The Coordinating Commission requests information from all of Nebraska’s postsecondary education institutions that participate in the Nebraska Opportunity Grant regarding the amount of “unmet need” for Pell Grant students who were Nebraska residents.

Unmet financial need, as defined by the Commission, is the cost of a student’s tuition and mandatory fees, plus room and board, plus books and supplies, minus all financial aid received excluding work study or PLUS. If a student has unmet financial need, then it is likely the student has not been awarded the financial resources needed to help pay his or her educational expenses. Therefore, the only option for a student may be to take out a private (alternative) student loan.

The following chart shows the total unmet need in Nebraska by sector from 2004-05 to 2014-15:

This data represents only the unmet need of the neediest Nebraska students – those receiving Pell Grants. As reported by many of the state’s college financial aid directors, there is also a significant unmet need among students who do not qualify for Pell Grant assistance, but whose families do not have the extra financial resources to contribute to the cost of education. For that reason, the Commission recommended and the Legislature approved the changes that were implemented with the creation of the Nebraska Opportunity Act (see page 58).

## CONCLUSIONS

In this *2016 Tuition, Fees, and Financial Aid Report*, findings for each of the three interrelated areas of affordability, state investment, and financial aid identify some areas of concern and suggest that incremental changes are needed. These concerns are especially important considering the *Comprehensive Statewide Plan for Postsecondary Education's* (Coordinating Commission for Postsecondary Education, 2016) aims that Nebraska be among the top ten states in educational attainment.

### **Affordability of Higher Education**

Affording higher education has become more difficult for students and their families in Nebraska, a situation common throughout the country. Not only has there been a significant increase in the amount students pay in tuition and fees, but the total cost of attendance has increased considerably as well. Even with grants and scholarships available to assist with the cost of education, with the exception of two institutions, the net price of attendance has also increased. Therefore, families are contributing more of their incomes to the costs of educating one or more family members. Nevertheless, these increased costs are less dramatic at most Nebraska institutions than at their peers in other states.

- All of Nebraska's public postsecondary institutions charge less than the 2014-15 average tuition and mandatory fees for a resident, undergraduate student charged *by their peers*.
- Compared to 2014-15 resident tuition and fees, the percent of 2014-15 non-resident tuition and mandatory fees is considerably less than the peers' average at all but three of Nebraska's public postsecondary institutions (the University of Nebraska at Omaha, the University of Nebraska - Lincoln, and the University of Nebraska Medical Center).
- All but three of Nebraska's public postsecondary institutions (Central Community College, Northeast Community College, Western Nebraska Community College) showed a decrease in the student payment shares from 2004-05 to 2014-15, and all but Southeast Community College were lower than their peers' average.

### **State Investment in Higher Education**

While Nebraska has increased its appropriation to public postsecondary institutions, state investment in higher education will continue to be vulnerable to other state obligations in future years. Therefore, families will likely be contributing larger portions of their income to educate their students in Nebraska, and/or student debt loads will continue to increase.

## Comparisons with Peers

- When comparing 2014-15 state appropriations at Nebraska's community colleges to those of their peers, Central Community College, Metropolitan Community College and Mid-Plains Community College have a lower appropriation per full-time equivalent student when compared to the average of their peers. The other three community colleges have a higher appropriation per full-time equivalent student when compared to the average of their peers.
- The amount of 2014-15 state appropriations per full-time equivalent student at all three state colleges and at all five University of Nebraska campuses is greater than the average of their peers.

## Financial Aid for Higher Education

Financial aid for higher education has become increasingly important for students and families in Nebraska. While Nebraska has historically been supportive financially of the Nebraska Opportunity Grant, per-student state-provided support for needy students remains low when compared to the rest of the country. Without the state increasing its appropriation, it is highly unlikely that ranking will improve. Because of this fact, student loan borrowing will likely continue to increase in the near future.

## RECOMMENDATIONS

Based on the findings in this report, the Coordinating Commission recommends the following courses of action in the interrelated areas of affordability, state investment, and financial aid. By implementing these objectives, the state will come closer to achieving the goals set out in Nebraska's *Comprehensive Statewide Plan for Postsecondary Education* (Coordinating Commission for Postsecondary Education, 2016).

### Affordability of Higher Education

- Institutions should exert all reasonable efforts to restrain tuition and fee increases and other student expenses, while continuing to offer high-quality education, service, and research.
- Students should attempt to complete their academic programs in an efficient manner, moving toward graduation at a steady pace, thereby reducing those “out-of-pocket” expenses and, in many cases, higher student loan debt loads. Institutions should evaluate and address institutional and systemic barriers to timely graduation.

### State Investment in Higher Education

- Having an educated population significantly enhances the economic and social well-being of a state. Therefore, **the Commission recommends that the Legislature maintain appropriate levels of state appropriations for public postsecondary institutions in Nebraska.**

### Financial Aid for Higher Education

- Since students from low-income families would primarily benefit from financial assistance awarded from the state, **the Commission encourages increased funding for the Nebraska Opportunity Grant program.**

### Central Community College

Black Hawk College	Moline	Illinois
Central Carolina Community College	Sanford	North Carolina
Eastern Arizona College	Thatcher	Arizona
Hutchinson Community College	Hutchinson	Kansas
Indian Hills Community College	Ottumwa	Iowa
Iowa Central Community College	Fort Dodge	Iowa
Jackson College	Jackson	Michigan
Laramie County Community College	Cheyenne	Wyoming
Paris Junior College	Paris	Texas
Shasta College	Redding	California

### Metropolitan Community College Area

Community College of Allegheny County	Pittsburgh	Pennsylvania
Des Moines Area Community College	Ankeny	Iowa
Erie Community College	Buffalo	New York
Greenville Technical College	Greenville	South Carolina
Guilford Technical Community College	Jamestown	North Carolina
Joliet Junior College	Joliet	Illinois
Mesa Community College	Mesa	Arizona
San Jacinto Community College	Pasadena	Texas
Tulsa Community College	Tulsa	Oklahoma
Wake Technical Community College	Raleigh	North Carolina

### Mid-Plains Community College

Carl Sandburg College	Galesburg	Illinois
Cloud County Community College	Concordia	Kansas
College of the Albemarle	Elizabeth City	North Carolina
Flathead Valley Community College	Kalispell	Montana
Highland Community College	Highland	Kansas
Iowa Lakes Community College	Estherville	Iowa
Lake Michigan College	Benton Harbor	Michigan
Southeastern Community College	West Burlington	Iowa
Southwestern Michigan College	Dowagiac	Michigan
Western Nebraska Community College	Scottsbluff	Nebraska

## Northeast Community College

Casper College	Casper	Wyoming
Central Community College	Grand Island	Nebraska
Crowder College	Neosho	Missouri
Eastern Arizona College	Thatcher	Arizona
Grayson College	Denison	Texas
Hutchinson Community College	Hutchinson	Kansas
Illinois Valley Community College	Oglesby	Illinois
Linn-Benton Community College	Albany	Oregon
State Fair Community College	Sedalia	Missouri
Western Iowa Tech Community College	Sioux City	Iowa

## Southeast Community College

Cape Fear Community College	Wilmington	North Carolina
Cochise County Community College District	Douglas	Arizona
College of Lake County	Grayslake	Illinois
Des Moines Area Community College	Ankeny	Iowa
Elgin Community College	Elgin	Illinois
Guilford Technical Community College	Jamestown	North Carolina
Hinds Community College	Raymond	Mississippi
Joliet Junior College	Joliet	Illinois
Kirkwood Community College	Cedar Rapids	Iowa
Madison Area Technical College	Madison	Wisconsin

## Western Nebraska Community College

Central Wyoming College	Riverton	Wyoming
Coffeyville Community College	Coffeyville	Kansas
Dodge City Community College	Dodge City	Kansas
Flathead Valley Community College	Kalispell	Montana
Mid-Plains Community College	North Platte	Nebraska
Rockingham Community College	Wentworth	North Carolina
Shawnee Community College	Ullin	Illinois
Southeastern Community College	West Burlington	Iowa
Southeastern Illinois College	Harrisburg	Illinois
Surry Community College	Dobson	North Carolina

**State Colleges**

Chadron State College

Granite State College	Concord	New Hampshire
Lincoln University	Jefferson City	Missouri
Missouri Western State University	Saint Joseph	Missouri
Montana State University-Billings	Billings	Montana
Ohio State University-Lima Campus	Lima	Ohio
Ohio State University-Newark Campus	Newark	Ohio
Peru State College	Peru	Nebraska
Shawnee State University	Portsmouth	Ohio
University of Arkansas at Monticello	Monticello	Arkansas
Wayne State College	Wayne	Nebraska

Peru State College

Chadron State College	Chadron	Nebraska
Granite State College	Concord	New Hampshire
Lincoln University	Jefferson City	Missouri
Missouri Western State University	Saint Joseph	Missouri
Montana State University-Billings	Billings	Montana
Ohio State University-Lima Campus	Lima	Ohio
Ohio State University-Newark Campus	Newark	Ohio
Shawnee State University	Portsmouth	Ohio
University of Arkansas at Monticello	Monticello	Arkansas
Wayne State College	Wayne	Nebraska

Wayne State College

Chadron State College	Chadron	Nebraska
Granite State College	Concord	New Hampshire
Lincoln University	Jefferson City	Missouri
Missouri Western State University	Saint Joseph	Missouri
Montana State University-Billings	Billings	Montana
Ohio State University-Lima Campus	Lima	Ohio
Ohio State University-Newark Campus	Newark	Ohio
Peru State College	Peru	Nebraska
Shawnee State University	Portsmouth	Ohio
University of Arkansas at Monticello	Monticello	Arkansas

**University of Nebraska**

Nebraska College of Technical Agriculture

For detailed information on how these institutions were selected please see  
[https://ccpe.nebraska.gov/sites/ccpe.nebraska.gov/files/doc/NCTA\\_PeerReport.pdf](https://ccpe.nebraska.gov/sites/ccpe.nebraska.gov/files/doc/NCTA_PeerReport.pdf).

Abraham Baldwin Agricultural College	Tifton	Georgia
Iowa Lakes Community College	Estherville	Iowa
Lake Area Technical Institute	Watertown	South Dakota
Mitchell Technical Institute	Mitchell	South Dakota
Morrisville State College	Morrisville	New York
Northland Community and Technical College	Thief River Falls	Minnesota
Ohio State University Agricultural Technical Institute	Wooster	Ohio
South Central College	North Mankato	Minnesota
State Technical College of Missouri	Linn	Missouri
SUNY College of Agriculture and Technology at Cobleskill	Cobleskill	New York

University of Nebraska-Lincoln

For detailed information on how these institutions were selected please see  
[https://ccpe.nebraska.gov/sites/ccpe.nebraska.gov/files/doc/UNL\\_PeerReport.pdf](https://ccpe.nebraska.gov/sites/ccpe.nebraska.gov/files/doc/UNL_PeerReport.pdf).

Colorado State University-Fort Collins	Fort Collins	Colorado
Iowa State University	Ames	Iowa
Louisiana State University and Agricultural & Mechanical College	Baton Rouge	Louisiana
The University of Tennessee-Knoxville	Knoxville	Tennessee
University of Iowa	Iowa City	Iowa
University of Kansas	Lawrence	Kansas
University of Kentucky	Lexington	Kentucky
University of Missouri-Columbia	Columbia	Missouri
University of Oklahoma-Norman Campus	Norman	Oklahoma
Washington State University	Pullman	Washington

University of Nebraska at Kearney

For detailed information on how these institutions were selected please see  
[https://ccpe.nebraska.gov/sites/ccpe.nebraska.gov/files/doc/UNKPeerReport\\_2015.pdf](https://ccpe.nebraska.gov/sites/ccpe.nebraska.gov/files/doc/UNKPeerReport_2015.pdf).

Eastern Illinois University	Charleston	Illinois
Emporia State University	Emporia	Kansas
Minnesota State University Moorhead	Moorhead	Minnesota
Northwest Missouri State University	Maryville	Missouri
Pittsburg State University	Pittsburg	Kansas
Shippensburg University of Pennsylvania	Shippensburg	Pennsylvania
University of Central Missouri	Warrensburg	Missouri
Western Carolina University	Cullowhee	North Carolina
Western Illinois University	Macomb	Illinois
Winona State University	Winona	Minnesota

## University of Nebraska at Omaha

For detailed information on how these institutions were selected please see  
[https://ccpe.nebraska.gov/sites/ccpe.nebraska.gov/files/doc/UNOPeerReport\\_2015.pdf](https://ccpe.nebraska.gov/sites/ccpe.nebraska.gov/files/doc/UNOPeerReport_2015.pdf).

Cleveland State University	Cleveland	Ohio
Eastern Michigan University	Ypsilanti	Michigan
Northern Kentucky University	Highland Heights	Kentucky
The University of Tennessee-Chattanooga	Chattanooga	Tennessee
University of Central Oklahoma	Edmond	Oklahoma
University of Colorado Colorado Spring	Colorado Springs	Colorado
University of Missouri-St Louis	St Louis	Missouri
University of North Carolina at Greensboro	Greensboro	North Carolina
University of North Florida	Jacksonville	Florida
Wichita State University	Wichita	Kansas

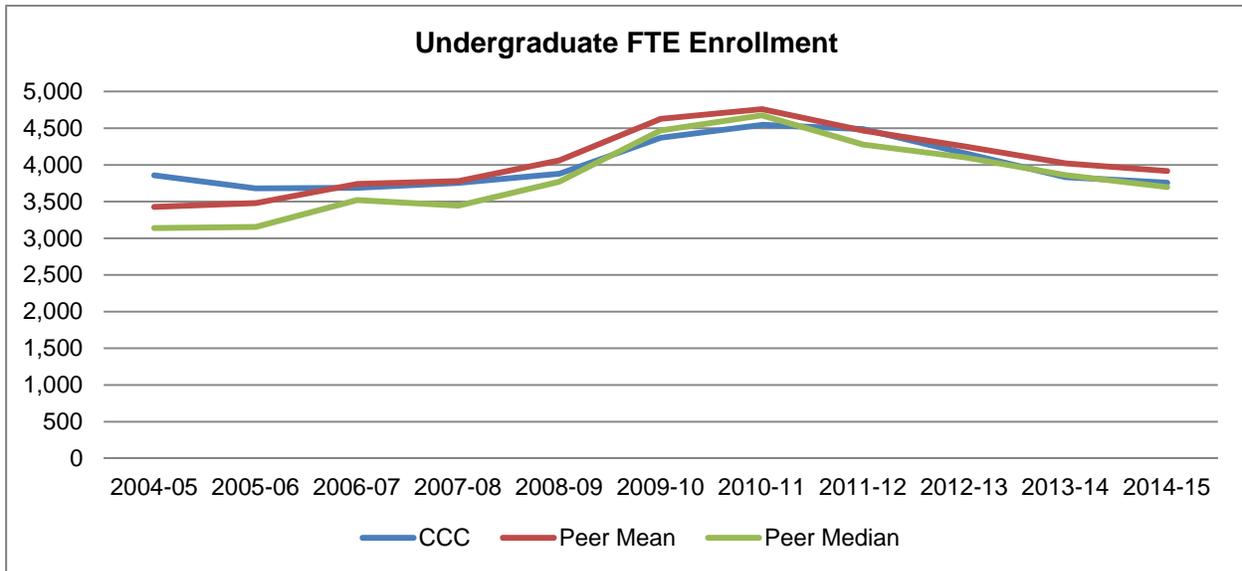

## University of Nebraska Medical Center

For detailed information on how these institutions were selected please see  
[https://ccpe.nebraska.gov/sites/ccpe.nebraska.gov/files/doc/UNMC\\_PeerReport.pdf](https://ccpe.nebraska.gov/sites/ccpe.nebraska.gov/files/doc/UNMC_PeerReport.pdf).

Medical University of South Carolina	Charleston	South Carolina
Ohio State University-Main Campus	Columbus	Ohio
The University of Tennessee-Knoxville	Knoxville	Tennessee
University of Arizona	Tucson	Arizona
University of Connecticut	Storrs	Connecticut
University of Iowa	Iowa City	Iowa
University of Kansas	Lawrence	Kansas
University of Kentucky	Lexington	Kentucky
University of Utah	Salt Lake City	Utah
Virginia Commonwealth University	Richmond	Virginia

# Appendix B Central Community College and its Peers

**FTE Enrollment**

Peer group mean and median is computed excluding data for CCC

Central Community College & Peers 2014-15 FTE Enrollment

**Cost of Attendance**

Peer group mean & median is computed excluding data for MPCC. Peer group amounts for Room & Board, Other Expenses, & Cost of Attendance are included in the peer mean and median calculation only when the Room & Board for the peer institutions & Nebraska institution either both have amounts or neither have amounts.

**Cost of Attendance**

Peer group mean & median is computed excluding data for NECC. Peer group amounts for Room & Board, Other Expenses, & Cost of Attendance are included in the peer mean and median calculation only when the Room & Board for the peer institutions & Nebraska institution either both have amounts or neither have amounts.

**Cost of Attendance**

Peer group mean & median is computed excluding data for CSC. Peer group amounts for Room & Board, Other Expenses, & Cost of Attendance are included in the peer mean and median calculation only when the Room & Board for the peer institutions & Nebraska institution either both have amounts or neither have amounts.

**Cost of Attendance**

Peer group mean & median is computed excluding data for NCTA. Peer group amounts for Room & Board, Other Expenses, & Cost of Attendance are included in the peer mean and median calculation only when the Room & Board for the peer institutions & Nebraska institution either both have amounts or neither have amounts.
