2 new sections:
3 Sec. 3. (1) On or before December 1, 2015, on or before August 1, 4 2020, and on or before August 1 of every fifth year thereafter, the board
5 shall prepare a report that provides (a) a five-year history of planted
6 and harvested wheat acres and the number of bushels of wheat harvested
7 within each district established under section 2-2304 or subsection (2)
8 of this section and (b) appropriate graphic, narrative, or other
9 description and analysis of trends in the (i) geographic distribution of
10 wheat production within the state and (ii) marketing destination and end-
11 use markets, including any geographic distinctions or distinctions due to
12 wheat variety or attributes for Nebraska-grown wheat. The board shall
13 notify the Director of Agriculture and the chairperson of the Agriculture
14 Committee of the Legislature of the completion and availability of the
15 reports prepared pursuant to this subsection.
16 (2)(a) The composition of the board as defined by section 2-2304
17 shall continue until such time as a plan is implemented pursuant to this
18 subsection based on a determination by the board that the districts and
19 at-large membership as defined by section 2-2304 are incompatible with an
20 equitable representation of producers of wheat due to changing geographic
21 distribution of wheat production in the state, changing marketing
22 patterns, or availability of qualified individuals to serve as board
23 members. In order to maintain equitable representation of wheat
24 producers, the board may, from time-to-time as necessary and appropriate,
25 prepare a plan to revise the composition of the board by redefining the
boundaries of the districts, by increasing or decreasing the number of
members selected by the districts, by increasing or decreasing the number
of members selected from the state at-large, or by any combination of
such methods. Any plan to revise the composition of the board may
reassign members of the board at the time such plan takes effect to
assume membership as the representative of a redesignated district within
which such member resides or reassign such member as an at-large member.
Any plan to revise the composition of the board shall not eliminate the
membership of any member of the board at the time such plan takes effect
prior to the expiration of the term of such member. Any plan to revise
the composition of the board shall not affect any qualification to serve
as a member of the board or the procedure for nomination and appointment
to the board.
(b) Whenever the board proposes a plan to revise the composition of
the board as provided in this subsection, the board shall provide notice
of the plan along with any graphic or narrative description of such plan
and a written explanation of the need to revise the composition of the
board to the Director of Agriculture and chairperson of the Agriculture
Committee of the Legislature on or before November 1 of the year prior to
when such plan would be implemented, and any such plan shall not be
implemented until ninety days after adjournment of the next regular
session of the Legislature.
Sec. 12. (1) On or before December 1, 2015, on or before August 1,
2020, and on or before August 1 of every fifth year thereafter, the board
shall prepare a report that provides (a) a five-year history of planted
and harvested corn acres and the number of bushels of corn harvested
within each district established under section 2-3615 or subsection (2)
of this section and (b) appropriate graphic, narrative, or other
description and analysis of trends in the (i) geographic distribution of
corn production within the state and (ii) marketing destination and end-

corn variety or attributes for Nebraska-grown corn. The board shall
notify the Director of Agriculture and the chairperson of the Agriculture
Committee of the Legislature of the completion and availability of the
reports prepared pursuant to this subsection.
(2)(a) The composition of the board as defined by section 2-3615
shall continue until such time as a plan is implemented pursuant to this
subsection based on a determination by the board that the districts and
at-large membership as defined by section 2-3615 are incompatible with an
equitable representation of producers of corn due to changing geographic
distribution of corn production in the state, changing marketing
patterns, or availability of qualified individuals to serve as board
members. In order to maintain equitable representation of corn producers,
the board may, from time-to-time as necessary and appropriate, prepare a
plan to revise the composition of the board by redefining the boundaries
of the districts, by increasing or decreasing the number of members
selected by the districts, by increasing or decreasing the number of

methods. Any plan to revise the composition of the board may reassign
members of the board at the time such plan takes effect to assume membership as the representative of a redesignated district within which such member resides or reassign such member as an at-large member. Any plan to revise the composition of the board shall not eliminate the membership of any member of the board at the time such plan takes effect prior to the expiration of the term of such member. Any plan to revise the composition of the board shall not affect any qualification to serve as a member of the board or the procedure for nomination and appointment to the board.

(b) Whenever the board proposes a plan to revise the composition of the board as provided in this subsection, the board shall provide notice of the plan along with any graphic or narrative description of such plan and a written explanation of the need to revise the composition of the board to the Director of Agriculture and chairperson of the Agriculture Committee of the Legislature on or before November 1 of the year prior to when such plan would be implemented, and any such plan shall not be implemented until ninety days after adjournment of the next regular session of the Legislature.

(2)(a) The composition of the board as defined by section 2-4004 or as provided by this section prior to the effective date of this act shall continue until such time as a plan is implemented pursuant to this subsection based on a determination by the board that the districts and at-large membership as defined by section 2-4004 or as provided by this section prior to the effective date of this act are incompatible with an equitable representation of producers of grain sorghum due to changing geographic distribution of grain sorghum production in the state, changing marketing patterns, or availability of qualified individuals to serve as board members. The composition of the board as defined by section 2-4004 shall continue until such time as the board determines that the districts and at-large membership as defined by such section are incompatible with an equitable representation of producers of grain
sorghum due to changing geographic distribution of grain sorghum production in the state, changing marketing patterns, or availability of qualified individuals to serve as board members. The board may, from time to time as appropriate, by rule and regulation, redesignate districts and the number of at-large members to provide for an equitable representation of producers of grain sorghum, except that the number of appointed members of the board shall be either seven or five and the number of districts shall be no greater than six nor fewer than three.
