Re: New Hire Report to the Legislature

Pursuant to Neb. Rev. Stat. §48-2307, the Nebraska Department of Health and Human Services is required to issue a report to the Legislature on or before January 31st of each year which discloses the number of employees reported to the Department and the number of matches during the preceding calendar year (2021) for the purposes of the Child Support Enforcement New Hire Reporting Act.

The New Hire Reporting Act requires employers who hire or re-hire any employee, to report this information to the Nebraska State Directory of New Hires. The data is cross-referenced and matched with parties who have an open Child Support Enforcement case. New Hire Reporting assists in the location, establishment and enforcement of child support orders.

Number of New Hire employees reported in 2021: 562,181

Number of New Hire matches with an open child support file in 2021: 23,388

Thank you for the opportunity to provide this information.

Sincerely,

Stephanie L. Beasley, MSW
Director
Division of Children and Family Services

Pete Ricketts, Governor
