- d. To postpone to a certain time.
- e. To commit.
- f. To amend.
- g. To postpone indefinitely.

Such motions shall have precedence in the order in which they are arranged; except that motions to postpone indefinitely and amend do not yield to each other. No motion to postpone to a certain time, to commit or to postpone indefinitely being decided, shall again be allowed on the same day at the same stage of the bill or proposition.

Sec. 5. Motion to Strike Enacting Clause; Effect, Precedence. A motion to strike the enacting clause of a bill, if carried, is equivalent to rejection of the bill. Such motion shall not have precedence over a motion to amend nor over a motion to postpone indefinitely.

Sec. 6. Motion to Adjourn, Adjourn to Time Certain, to Recess: Precedence. A motion to adjourn, or a motion to fix the day to which the Legislature shall adjourn shall always be in order, except:

- a. While a member is speaking.
- b. When a motion to adjourn has just been defeated.
- c. When a motion to fix the day to which the Legislature shall adjourn has just been defeated.
- d. After the final reading of a bill and during roll call thereon.

Provided, however, that a motion to adjourn to a time certain shall have precedence over a motion to adjourn; and provided further, that a motion to recess shall take precedence over either of such motions.

Sec. 7. Motion to Adjourn Pending Motion to Suspend Rules. Pending a motion to suspend the rules, the presiding officer may entertain one motion to adjourn, but after the

result thereon is announced he shall entertain no other motion until the vote has been taken on suspension.

Sec. 8. The Previous Question, Form. The previous question shall be in this form, "Shall the debate now close?"

Sec. 9. The Previous Question: Seconds Required, Vote Necessary, Effect. The previous question shall be in order when demanded by five or more members and must be sustained by the vote of a majority of the elected members, and until decided shall, except as provided in Section 11 of this rule, preclude further debate and all amendments and motions, except one motion to adjourn and one motion to lay on the table.

Sec. 10. Previous Question Undebatable. On a previous question there shall be no debate. All incidental questions of order, arising after a motion is made for a previous question, and pending such motion, shall be decided, whether on appeal or otherwise, without debate.

Sec. 11. Previous Question Ordered: Proponent to Close Debate. When the previous question shall have been ordered on a proposition under debate, the mover, proponent or introducer of such proposition shall be given the right to close the debate thereon.

Sec. 12. Questions of Privilege, What Are. Questions of privilege shall be, first, those affecting the rights of the Legislature collectively, its safety, dignity, and the integrity of its proceedings; second, the rights, reputation, and conduct of members, individually, in their representative capacity only; and shall have precedence over all other questions, except motions to adjourn.

Question of privilege is not in order for introduction of guests while member speaking. Rule 4, Sec. 6.

Sec. 13. Reconsideration: Who May Move, Time for Motion. When a question has been decided, it shall be in order for any member voting with the prevailing side, or

not voting, to move a reconsideration thereof. A motion to reconsider must be made on the same day the original question was decided or on the next legislative day, except when it be to reconsider the vote on a bill which lacked the constitutional majority on a final reading. In such case, it must be made on the same day the original question was decided or on one of the next three legislative days. If the Legislature shall refuse to reconsider, or upon reconsideration shall affirm its first decision, no further motion to reconsider shall be in order unless by unanimous consent.

Motion to reconsider cannot be withdrawn without leave. Rule 10, Sec. 3.

Sec. 14. Reconsideration, Precedence. Every motion to reconsider shall take precedence over all other questions, except a motion to adjourn.

Sec. 15. Reconsideration, Vote Necessary. For its adoption, a motion to reconsider shall require the vote of a majority of the elected members, except:

- a. Where such motion be to reconsider the vote on a bill which lacked the constitutional majority on a final reading, then a three-fifths vote shall be required for adoption.
- b. Where such motion be to reconsider the vote on a bill which lacked the constitutional majority on a final reading with the emergency clause attached, but which received the constitutional majority with the emergency clause stricken and the purpose of the motion is to again add the emergency clause, then a two-thirds vote of the elected members shall be required for adoption.

Sec. 16. Amendments in Order. When a motion or other proposition is under consideration, a motion to amend and a motion to amend that amendment shall be in order.

Sec. 17. Amendment to Title of Bills. Amendments to the title shall not be in order during the consideration of a

bill or resolution on general or select file until the bill or resolution shall have been considered in full.

Sec. 18. Amendment Laid on Table Does Not Carry Principle Measure. When an amendment proposed to any pending measure is laid on the table, it shall not carry with it or prejudice such measure.

Sec. 19. Amendments, Preference in Consideration. When the Legislature is considering bills on either general or select file, after giving consideration to standing committee amendments, it shall give preference to such amendments as may have been on file with the Clerk, with copies on the members' desks for one legislative day in advance, and then to such other amendments as have been deposited with the Clerk, in the order in which they were received by him.

Sec. 20. Amendments, Must Be Germane. No motion, proposition or subject, different from that under consideration, shall be admitted under color of amendment.

Sec. 21. Division of a Question, When. Any member may call for the division of a question, which shall be divided if it comprehends propositions in substance so distinct that, one being taken away, a substantive proposition shall remain for the decision of the Legislature. A motion to strike out and insert shall be deemed indivisible; but a motion to strike out, being lost, shall not preclude an amendment or a motion to strike out or insert.

RULE 11

**BUDGET MESSAGE
OF
GOVERNOR VICTOR E. ANDERSON**

January 7, 1959

The budget recommendation which I am presenting to this honorable body today represents a conservative middle-of-the-road approach to state spending. Nearly everyone in the state is familiar with my fiscal policies and my desire to provide all the necessary services to the people at the least possible expense, and at the same time to continue Nebraska's progress. I have at all times recommended that we be penny wise without being pound foolish. I am sure that our tax paying citizens have a right to expect this kind of administration.

I have always favored spending money to save money; in other words, spend money to improve methods which in the long run will be beneficial to our state. We have all seen the results which are obtained by this kind of program and I urge you to continue to probe and examine all spending, to continue to keep the taxpayers' interest foremost in your deliberations and to continue Nebraska's progress.

We frequently hear the statement that "our budget must be within our ability to pay". That is undoubtedly true, but it should not be the only test. We must not spend our financial resources simply because we are able to foot the bill. We must only spend when absolute need arises. Any other policy is foolhardy and builds a feeling of contempt for government.

Nebraska has the best tax record in the nation and this has not come about by accident. As a matter of fact, Nebraska's taxpayers paid \$1,348,000 less in property taxes last year than they paid in 1955. Many of you have served in previous sessions and know from first hand experience how we happen to be in our present enviable position. You are to be congratulated on your part in making such a record possible and my wish for you is the strength and courage to continue.

State budgeting is not merely a study of how to find a way to raise the money requested. It is the much more difficult task of determining whether the requests are for necessities. When it is felt that frills have been included, or that selfish pressure groups have been influential in the request, we are faced with the unpleasant job of saying so.

The budget presented to you today indicates an overall increase of 3.8 per cent. Some items, I believe, deserve specific comment.

The University of Nebraska has requested a substantial increase. I believe in our University, and I am convinced that we should keep it a strong institution, one that ranks high in the nation.

The "A" or Continuation Budget for the University requests salary increases for members of the faculty. We cannot have a high ranking University without a capable staff, and we cannot retain our capable staff unless we overcome our disadvantage in the current spirited competitive bidding for the services of our faculty by other educational institutions. I recommend that the "A" Budget increase of \$4,272,000 be granted.

We find ourselves in a rapidly changing agricultural situation. Not only is our agricultural economy changing, but also we are attempting to change our farming methods to keep pace with Twentieth Century progress. A great deal of the research which will enable us to maintain our progress can and should be done by our University. Of prime importance is the possible development of industrial uses for farm produce, research into groundwater and irrigation, continued research into better seeds which will produce better plants, more adaptable to Nebraska conditions. Very important to all of us is research into control of livestock diseases and many other items of vast importance to our agricultural economy.

In the "B" or Expansion Budget the University requested slightly less than two million dollars which is not for strictly educational purposes. Most of this money is for further development of our agricultural experiment stations and research, and directly benefits Nebraska's agricultural economy and our farmers and ranchers. I have recommended an increase of \$1,078,000 of the "B" Budget, \$796,500 of which is for the important research matters I have just mentioned. My recommendation is about one-half of the original request. After conferring with Chancellor Hardin and the Agricultural Advisory Council, I feel that this amount is necessary. This recommendation has the approval of the Agricultural Advisory Council. The Council is made up of leaders of our state who have taken a sound, realistic approach to the problem of development of agriculture in Nebraska. These people serve the state unselfishly, I am impressed with the reasonableness of their approach, and therefore recommend the foregoing amount.

Our Normal Schools have, for the past several years, faced many of the same problems that have plagued the University. High on the list of obstacles in the way of improved operation is the faculty salary schedule. Here again I have recommended that we raise our standards to somewhere near the average being paid by competing educational institutions. Therefore, I have recommended an increase of \$2,216,000.

Civil Defense should rank very high in your considerations this session. In the light of world conditions today, I feel I have a duty to call your special attention to the fact that protection of the lives and the property of our people is the responsibility of all officials at all levels of government. In this day of guided ballistic missiles, bombs of terrifying destructive power, and man made rockets orbiting in our universe, we can no longer expect invasion to begin on the perimeter of our country. Invasion can start anywhere, including Nebraska.

In the last three years our state has taken the lead in the preparation of comprehensive plans for Civil Defense and the preservation of government in an emergency. These plans have been approved by the federal government, and have served as models for the other states. I consider it important that they be put into effect immediately. Our previous appropriations for Civil Defense have been extremely modest, and in my opinion are now entirely inadequate. My budget recommends additional funds for this purpose.

Also included in my budget is the recommended increase for our State Safety Patrol. My recommendation indicates the necessity for an increase in order to keep the Patrol operating at its present level of service. The "B" Budget asks for a substantial increase in personnel with a corresponding substantial increase in funds.

I have allowed the request for increased personnel to remain in my budget, but only conditionally. The frightening highway fatality toll is something we cannot and must not ignore. However, the increase in fatalities experienced in Nebraska this past year did not occur on our state highway system. As a matter of fact, the state highway toll was somewhat less than in 1957. I believe this demonstrates the effectiveness of the comparatively small force in our highway patrol, and I would recommend some increase in personnel for work on our state highway system and the new interstate highway as it progresses. I do not recommend the entire requested increase unless the Legislature should decide that our Safety Patrol should engage in some work away from our state highway system. In other words, if additional patrol duties are assigned, I could recommend the entire request. If no additional duties are assigned, I could recommend only a modest increase in patrol personnel.

In the last session of the Legislature, a budget in excess of \$100,000 was granted to the Soil and Water Conservation Committee. \$50,000 represented an increase in the Committee's budget for an experiment. The experiment consisted of placing a part time state employee in the various federal soil conservation offices throughout the state, which then enabled the federal soil technicians

to do more work in the field. According to the reports made to me, the experiment was more successful than had been anticipated, and our agricultural population is enthusiastic for expansion of this service. Therefore I have recommended an increase of \$285,200 for the Committee.

The Board of Control has asked again for a modest increase in the mental health program. You will recall that at the last two sessions I specifically requested a substantial increase for this program. I did this because I felt that the program would be beneficial to Nebraskans, and also the program would be "spending money to save money". As a result of the Legislature's decision to grant an increased budget, we today have about 623 less mental patients than we had in 1955. We have about 623 more people leading normal lives, when just a few short years ago they could have been expected to remain in our mental institutions for the rest of their lives. We cannot measure a useful life in dollars but the facts show that the counties now have to pay a great deal less because of the reduction in the number of patients. True, the treatment costs the state more per patient but Dr. Wittson feels that in continuing the program, it will be possible to reduce our patient population by another 500 in the ensuing years. I am sure you will see the great need for continuing this program.

This session of this honorable body will be faced with many difficult and important decisions, not the least of which will be the appropriation bill. I have served in the Legislature, and I know from experience just how important your actions will be to the people of our state. You will be called upon to make decisions that affect the lives and bank accounts of all our people. I am sure that Nebraska's Legislature is a great deal more responsive to the wishes of the people than some of the complex Legislatures of other states. I am hopeful that your decisions will be made easily, simply because you are especially alert to the wishes of the people.

INAUGURAL ADDRESS OF GOVERNOR RALPH G. BROOKS

January 8, 1959

Mr. President, Mr. Speaker, Chief Justice and Associate Justices of the Supreme Court, Senators of the Sixty-ninth Session of the Legislature of the State of Nebraska:

I wish to discuss a few of our many problems which I think should be paramount in our deliberations.

REVENUE

Taxation is one of our first considerations. Specifically I would focus our attention on:

Assessment,

Enforcement, and

Extension of the taxing power to proper fields of revenue.

In assessment there should be an adequate, indiscriminate and equitable valuation of real, personal and intangible property.

If enforcement fails because of the nonfeasance of local officers, it is the duty of the Governor to remove the officials. If it fails because of inadequate machinery or defective laws, the situation should be remedied by legislation. Let us make it clear that the Governor of this State will enforce the tax laws at any level and at any time with dispatch and with impartiality.

As to the extension of the taxing power to proper fields of revenue, I mention the fact that of twenty-five states that have pari-mutuel betting, Nebraska is the only one that receives no revenue from taxation. The proposal to tax this activity has been a plank in the State Democratic Platform in 1956 and in 1958. Taxing legalized games of chance is also a legitimate source of revenue.

Immunity from taxation of non-profit organizations should also be the subject of survey. There is no intention here to hamper the institutions which these considerations may affect. It is rather a stated belief that both the Legislature and those who are concerned should approach and decide the problem in a realistic manner that will, in the long run, prove satisfactory and beneficial to all. Let us here observe that the largest non-profit organization in which our taxpayers and ourselves are vitally interested is the State of Nebraska itself.

HOUSEHOLD GOODS

The unrealistic tax on household goods, from both the standpoint of assessment and enforcement, should be abolished.

THE TAX COMMISSIONER

The Office of Tax Commissioner should be divorced from extraneous duties so that he may devote the entire resources of himself and office to this vital service.

Revenue collected by other states, which Nebraska does not collect, is in the form of interest on idle time state funds on deposit. A low interest rate on these time deposits should be profitable to such depositories and bring revenue to the State of Nebraska. The State Treasurer should be directed to offer these funds on time deposits to Nebraska institutions on terms set forth by you and the Treasurer should also be directed to invest any remainder in U. S. Government Bonds. I recommend that Your Honorable Body consider legislation implementing this procedure.

HIGHWAY SAFETY

As pressing as the tax situation, and more critical, is the death toll on our state highways. I am suggesting that the Legislature immediately consider the enactment of measures to:

Reduce the speed limit on non-hard surface roads to 50 miles per hour by day and 45 miles per hour by night. These speeds are approved by established engineering formulae.

Post non-hard surface roads with the new speed limits.

Increase patrol service to add new roads to the patrol system and improve the patrol of present roads.

Coordinate the State Patrol with county and local peace officers.

Provide for stricter standards of examination and re-examination for drivers' licenses.

Increase penalties for first offenders.

Increase penalties for drunken drivers.

When a few people are killed in a burning building or there is a drowning in a lake, we look upon it with horror. Today, at the end of 1958, there are 343 vacant places in the homes of people whose loved ones were killed on our highways. I therefore recommend immediate passage, with the emergency clause, of legislation embodying the aforesaid principles together with what other supplementary measures Your Honorable Body may include.

This is not alone the problem or responsibility of the Legislature. Therefore, the Office of Governor will call within twenty days a conference of county attorneys, sheriffs, judges, lay groups interested in traffic safety, and other law enforcement officers to meet with the State Highway Patrol authorities and to discuss:

A new concept for adherence to the basic speed laws.

More careful investigation of accidents.

Stricter enforcement of revoked drivers' licenses.

The matter of arrest and convictions.

Securing the interest and enlisting the aid of all media of communication, press, radio, and television to bring this vital factor of daily living squarely before all our people.

EDUCATION

Our school systems are so organized that the cost of education ranges from \$200 per pupil per year to \$600 per pupil per year in schools of the same class and with the same number of teachers; in our state the taxable wealth back of each individual pupil ranges from \$3,200 per pupil to \$50,000 per pupil. School costs are becoming confiscatory in some communities. Our talk about equality of educational opportunity becomes a travesty. The smallest economic-political unit that can grapple with this situation is the State of Nebraska. The Legislature is the School Board of the State of Nebraska.

In higher education, the University of Nebraska and the State Teachers Colleges, the problem is the maintenance of qualified instructors and adequate equipment.

HIGHWAYS

The work of the Highway Department will go forward as rapidly as possible and will meet the requirements of Federal Aid, so that neither time nor money will be lost. There have been some complaints on the Sufficiency Rating. The State Engineer, with the Highway Advisory Commission, will study this policy-making guide, and if any defects exist, will remedy them in order to clarify its terms and facilitate its fair and impartial application to Nebraska's road needs.

AGRICULTURE

In the technology of food production and the use of tranquilizers, antibiotics and hormones in livestock feeding, agriculture in Nebraska must avail itself of the latest research. Improved seed, fertilizers, insecticides, irrigation and labor-saving devices contribute to the continuing transformation of farm production. One of the most important and far-reaching concerns is the use and conservation of Nebraska's vast underground water supply. These are the factors which should bring Nebraska to the forefront in industrial use of farm products and in the whole field of Agri-Business.

NEBRASKA RESOURCES

I heartily favor the work of the Division of Nebraska Resources. I will welcome the efforts of the Legislature to improve and strengthen its activities. The promotion of tourist travel and industrial development are absolutely essential if we are to capitalize upon the resources of our great State.

BOARD OF CONTROL AND HIGHWAY COMMISSION

The people of Nebraska have, by constitutional amendment, empowered the Legislature, on the one hand to abolish the Board of Control, and on the other hand to create a new and independent commission for the operation of the State Highway Department. It appears that these ideas are in conflict. One abolishes a board, the other creates one. I feel that the conflict, apparent or real, should be one for serious study by the Legislature.

If the Board of Control is to be eliminated, I suggest that the activities now conducted by it be divided between two directors appointed by, and serving directly under, the Office of Governor. These might be the Division or Department of Correction, having in charge all of the penal institutions of the State. The other would be the Department of Public Assistance, whose work would entail the administration of the State Hospitals and the State assistance agencies, since these two activities constantly interweave in their operation.

CIVIL DEFENSE

The United States Office of Civil and Mobilization Defense has designated five critical target areas in Nebraska. It is the obligation of every citizen and every official at all levels of government to realize that "target area" means danger area. We should, therefore, render all support and assistance to the Civil Defense Agency of Nebraska.

BUDGET

We are confronted with an unprecedented budgetary request for the current biennium. All but ten of the forty-six spending agencies requested increases. The budget for the last biennium amounted to \$338,049,309.51. The requested budget amounts to \$351,288,881.82, or an overall proposed increase of \$13,239,572.31. Any increase must be accompanied by a definite showing of the additional service to be rendered and a distinctly demonstrated demand for that service.

BI-PARTISAN COMMISSION

It is in my mind to appoint a bi-partisan commission of able and conscientious citizens to analyze the operation of the State government with a view to streamlining its activities and reducing the expenditures of the government. This, of course, will be an extra-legal body and will not entail any expense on the part of the State.

MAINTENANCE

When a new building is erected or new equipment purchased, maintenance begins on the first day. We cannot afford to let our investment deteriorate by reason of neglect in custodial care or in lack of essential repair. Money spent in maintenance and repair is the best insurance against large expenditures later on to make up for day-to-day inattention. This situation is emphasized by the thousands of dollars requested by various agencies for renovation and replacement and by evidences of the need for like attention to the Capitol building itself.

CIVIL SERVICE

I do not believe that the employees in the State House and in the several institutions under our authority should be subject to political compulsion. I believe that we should look forward to the establishment of a State Civil Service plan by which terms of service, salary and retirement should be included. I believe that it also should include safeguards against inefficiency, incompetence and disregard for authority. In this connection, let me also say that I will not seek or accept and will have no one in my name seek or accept any contributions for the purpose of supporting me in any political campaign. If employees wish to contribute to another political party, they should feel free to do so without fear of compromising their employment. I do not believe that employees of the State should buy or pay rent on their jobs.

I have been placed in a position of authority. Authority imposes responsibility. I have accepted the authority. I will not evade the responsibility. I will make mistakes. I need your help and counsel. I ask your help and counsel.

Senators of the Sixty-ninth Session of the Legislature of the State of Nebraska, individually and collectively, I thank you.

**REPORT OF JUDGES OF THE SUPREME COURT
AS TO DEFECTS IN CONSTITUTION AND LAWS
OF NEBRASKA**

To the Members of the Sixty-ninth Session of the
Nebraska Legislature:

Section 49-702, Reissue Revised Statutes of Nebraska, 1943, imposes the duty upon the Revisor of Statutes to prepare the report of the Judges of the Supreme Court as to defects in the Constitution and laws of Nebraska, and to draft in the form of bills legislation to carry out the recommendations contained in the report.

The Supreme Court does not assume to sponsor legislation. It does have the duty of reporting to the Legislature defects in existing laws ascertained by it or by officers of the court acting under its supervision and direction. The responsibility for making its report and drafting bills to remedy defects has been placed by the Legislature upon the Reporter of the Supreme Court who is ex officio Revisor of Statutes.

A report has been made to each regular session of the Legislature since the office of Revisor of Statutes was established in 1945. The process of discovering and correcting mistakes in legislation is a continuing one. The office of the Revisor of Statutes serves as a clearing house for the reporting of defects in existing laws. Corrective legislation is then drafted by this office to cure the defects. This year the Revisor of Statutes has prepared and submits for consideration as corrective legislation forty-six amendatory bills and three bills which are strictly repeals of existing laws.

Another of the duties imposed upon the Revisor of Statutes is to arrange and correlate for publication replacements of permanent volumes of the statutes. Commencing in 1947 and continuing through 1953, the Legislature authorized the reissuance of all four of the original volumes of the Revised Statutes of 1943. In each biennium one volume was reissued and brought up-to-date.

Each original volume was replaced by two volumes. In 1955, the Legislature authorized the reissuance of Volume II and the Index. In 1957, the Legislature authorized the reissuance of Volumes IV and V. This year a bill is being submitted to reissue Volumes III and IIIA.

The bills that have been prepared to accompany this report will be delivered upon request to the Chairman of the Committee to which this report is referred.

Respectfully submitted,

(Signed) Walter D. James
Revisor of Statutes

Referred to the Committee on Judiciary.

SELECT COMMITTEE REPORT

Special Committee on Contest

Mr. President: Your Special Committee on Contest submits the following report with reference to the contest of the election for the office of member of the Nebraska State Legislature from the 7th Legislative District.

Your Committee will meet at 9:00 o'clock a.m. January 15, 1959 in the East Senate Chamber for the purpose of conducting a re-count of the votes cast at the general election held on November 4, 1958, for the office of member of the Nebraska State Legislature from the 7th Legislative District. The count will be conducted in the presence of the attorneys for the incumbent, William R. Skarda, Jr., and the contestant, Charles F. Tvrdik, if they so desire.

During the counting of the ballots either party will be given an opportunity to challenge the vote of any ballot, in which case such ballot will be laid aside for later determination by the Committee. The length of the counting day will be determined by the contestants and their attorneys.

The Election Commissioner and his Deputy from Douglas County will be present to conduct the re-count. Six counters from the Lincoln area will be hired by the Clerk of the Legislature to tabulate the votes. The Committee will determine the validity and count the votes which are challenged by the attorneys for the respective parties during the course of the ballot counting. Should it be necessary to rule on the challenged ballots, the Committee will consider using the Attorney General as the judge in all cases.

Any member of the Legislature will be allowed in the Chamber, but only as observers.

(Signed) William Moulton
Chairman

RESOLUTIONS

LEGISLATIVE RESOLUTION 6. Re: Television Broadcaster Repeater Stations.

Introduced by John G. Donner, 27th District, Earl Hollenbeck, 40th District, and Jack Romans, 29th District.

WHEREAS, the Federal Communications Commission on December 31, 1958 announced a decision prohibiting the operation of low

power television broadcaster repeater stations on Very High Frequency channels and requiring existing stations to apply for conversion to licensed Ultra High Frequency translators by April 1; and

WHEREAS, the cost of conversion to an operation of Ultra High Frequency translators would be prohibitive in the sparsely settled areas in Nebraska; and

WHEREAS, because of the distances involved in the sparsely settled areas of Nebraska the use of repeater stations on Very High Frequency channels does not interfere with licensed operations using the same channel.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NEBRASKA LEGISLATURE IN SIXTY-NINTH SESSION ASSEMBLED:

1. That this Legislature respectfully requests the Federal Communications Commission to reconsider its decision of December 31 insofar as it applies to Nebraska and permit the continued operation of low power television repeater stations on Very High Frequency channels in this state.

2. That a copy of this resolution be sent to the Federal Communications Commission and to each of the members from Nebraska in the United States House of Representatives and the Senate.

LEGISLATIVE RESOLUTION 7. Re: Legislative Council Study of State Government Reorganization.

Introduced by Otto H. Liebers, 18th District, Richard D. Marvel, 31st District, and Don Thompson, 33rd District.

WHEREAS, there has been no comprehensive reorganization of the Nebraska state government since 1919; and

WHEREAS, many additional executive or administrative agencies have been established during the last forty years; and

WHEREAS, the growth of administrative agencies is believed to have resulted in an unnecessary overlapping and duplication of functions with a consequent loss of efficiency and increase in costs.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NEBRASKA LEGISLATURE IN SIXTY-NINTH SESSION ASSEMBLED:

1. That the Nebraska Legislative Council be directed to study and examine into the following matters:

(a) The functions and duties of all executive or administrative departments, boards, commissions, and other agencies;

(b) The internal organization and operation of such executive or administrative agencies; and

(c) All other matters designed to produce efficiency and economy in the state administration.

The counting of votes started at 9:30 A.M. on January 15, 1959 and was concluded at 3: P.M. on January 16, 1959. Mr. Tvrdik after consulting with his attorney and his personal representative at the recount, Mr. Joseph Kutilek, has definitely concluded that there was a free election and honest count on behalf of both candidates.

Mr. Tvrdik wishes that I express for him his sincere thanks to the members of the Nebraska Legislature for affording him this recount opportunity and particular thanks to the fine committee who conducted the recount. He desires to also compliment the Election Commissioner of Douglas County and all of the election officials and workers in his district for their sincere efforts to insure all candidates a free election, and for the fine condition of their records.

To Mr. William Skarda he offers his congratulations and states that he is happy to accept the final result of this recount and desires to wish for him, a most successful term in the Nebraska Legislature.

Governor Escorted

The committee escorted Governor Brooks into the Chamber where he delivered the following:

BUDGET MESSAGE OF GOVERNOR RALPH G. BROOKS

January 23, 1959

The recommendations contained in the budget I am today presenting to this honorable body represent the same fiscal views I have employed in my thirty-two years of service to the school systems of Nebraska. Those fiscal views require that each budgetary request satisfy the primary and fundamental test of a public demand for the service represented by the budgetary allotment.

This year, this legislative body, confronted with almost unprecedented budgetary demands, must weigh and evaluate two factors which form a very necessary part in the preparation of any budget. The first factor in that budget is the ability of the people to pay for the budgetary item; the second factor is the evaluation of the demand for the budgetary item proposed.

I have said that I do not feel that there should be any budgetary increases over the amounts provided by the previous legislative sessions unless there is a distinct showing of the additional service to be furnished by virtue of that budgetary increase and a distinctly demonstrated demand for such additional service.

To that end, I have attempted to analyze, with all possible care and consideration in the short period of time allotted to me for that purpose, every fund comprising a part of our state financial framework and it is my thought that the budgetary recommendation hereinafter set forth represents an application of conservative realism to the demands of Nebraskans for service and to the ability of Nebraskans to pay for that service.

In that connection, permit me to first set forth that a distinctly demonstrated demand for additional service is that evidenced by the demand for an improved highway traffic safety program and, in response to that distinctly demonstrated demand, I have proposed that the budget of the State Safety Patrol be increased over

that set forth in the 1957-59 biennium in order to enable the Superintendent of Law Enforcement and Public Safety to add 50 men to his present comparatively small staff; this recommendation contains the proviso, however, that these 50 additional men, properly equipped, shall be used for the sole purpose of serving as highway patrol officers and shall not be assigned to any other incidental purpose in connection with the administration of the State Safety Patrol system.

A further indication of a distinctly demonstrated demand is that which has been made known to me by those interested in developing the Nebraska park and recreation sites, not only as tourist incentives but also for the enjoyment of our own good people. Here again, in response to that demand, I have recommended a substantial increase in the budget of the Game, Forestation and Parks Commission from that of the previous biennium.

Of additional interest to all Nebraskans, and I can assure you that there are few things closer to me personally, is our fine system of colleges and universities. With reference to our four state teachers' colleges, which operate in a very limited area within the realm of tax revenue, I have recommended an increase over the previous biennium which will enable equitable salary adjustments.

With reference to the University of Nebraska, I respectfully call attention to the fact that there are two operating funds in the University fiscal area that neither of these funds is affected by tax revenues that these funds are available, nevertheless, for the payment of instructors' salaries and for the advancement of research programs as well as for the purchase of equipment the University also participates in the Building Fund levy to say nothing of the grants received through federal funds and other sources such as the University of Nebraska College of Medicine levy and the levy for the care of indigent persons. With reference to the two cash operating funds, one of those funds results from student tuition and student fees and this year's proposed increase for the 1959-61 biennium is \$1,700,000.00 greater than it was in 1955 and \$400,000.00 greater than that of the 1957-59 biennium, indicating that this fund is increasing at the rate of an approximate one-half million dollars each biennium. Attention is also respectfully drawn to the fact that in the other cash operating fund account of the University, the amount appropriated in this fund has increased from an approximate sixteen and one-half million dollars in 1955 through an approximate eighteen and three-fourths million dollars in 1957 to a \$20,750,000.00 appropriation in 1959, further indicating that this fund is increasing at a rate in excess of two million dollars each biennium. The over-all increase in the budget for the University of Nebraska by virtue of the increase in these cash operating fund

appropriations, along with the two million dollars I have recommended for application upon salary adjustments, makes the total University of Nebraska budgetary increase in the sum of approximately \$7,600,000.00 of which increase, however, but two million dollars will be derived from general property tax funds.

In the preparation of this budget, I have been highly appreciative of the excellent conclusions reached by the Legislative Council and particularly those committees on the Budget and on Cash Funds and Budgeting. Pursuant to the recommendations of those two committees, I have directed that the most realistic estimate possible be applied to the unexpended balances expected at the end of the present biennium. In addition, I have observed the suggestions with reference to the appropriation of cash funds on a not-to-exceed basis and you will note from an examination of the budget that the number of funds to which this suggested budgetary practice is applied has been increased from three in 1957-59 to twenty-three in the 1959-61 biennium. I know that we will be submitted to a great many expressions of opinion on this budgetary practice but I urge you to join with me in a careful evaluation of this fiscal policy which seven of your members formulated, and your entire Legislative Council approved. We may be reasonably certain that adherence to this budget practice at this time will provide a substantial reward in the examination of unexpended balances two years hence.

Despite a conscientious and determined effort to be conservatively realistic in every phase of the preparation of this budget, it, nevertheless, displays an over-all increase in the grand total budget of approximately seven million dollars. Of this seven million dollars, there will be raised from the property tax levy the sum of \$4,688,065.52, subject to an additional downward revision for estimated cash funds to be received during the biennium in the sum of \$600,000.00.

An additional item of consideration in the preparation of this budget has been my desire to provide for reasonable salary increases in each department and these figures are reflected in the budgetary recommendations. Consideration must be given, if legislation is enacted, to an additional budgetary recommendation for any retirement system to state employees which may be instituted.

The budget contains a recommendation with reference to the Governor's mansion and this has been made on the basis of the belief that the legislature desires to have the mansion used for state functions; if the mansion is to be used only as the private home of the Governor, the Governor will be the first to recommend a reduction in this budgetary proposal.

This budgetary message constitutes the framework of the financial proposals of the various departments that I am recommending to this legislative body in accordance with a statute which requires me, within fifteen days after the presentation of the budgetary message of the outgoing governor, to present to you the results of my study of that budget. These budgetary proposals represent the result of these studies. It may well be that additional evidence will be brought to my attention which will reveal that there is a distinctly demonstrated demand for services reflected through budgetary increases beyond those I have included in this financial framework. If such evidence is presented or if additional data be made available upon which any upward or downward revision can be predicated, I look forward to the opportunity of visiting with the informed members of your Budget Committee as well as each member of this distinguished body to consider any phase of this financial picture which will serve to advance our State and our people in the Nebraska we all know and love so well.

Respectfully submitted,
(Signed) Ralph G. Brooks
GOVERNOR

RESOLUTIONS

LEGISLATIVE RESOLUTION 9. Re: Legislative Council Study of State Charitable, Mental, Reformatory, and Penal Institutions.

Introduced by Hal Bridenbaugh, 13th District; Peter H. Clausen, 16th District; and John Aufenkamp, 2nd District.

WHEREAS, the members of the Board of Control as now constituted have charge of all institutions with full power to manage, control and govern them, and

WHEREAS, by the constitutional amendment of Article IV, section 19, Constitution of Nebraska, the general management, control, and government of all state charitable, mental, reformatory, and penal institutions shall be vested as determined by the Legislature, and

WHEREAS, some desire that the management of such institutions be under the general management, control, and government of other created body or bodies, and

WHEREAS, the Legislative Council in recommending the amendment of Article IV, section 19, Constitution of Nebraska recommended that changes in the present set up be made only after additional extensive study has been made of the possible benefits or adverse effects of a change in the institutional system, and

WHEREAS, it is important that careful study be made as to whether there should be any changes made in such general management, control, and government of such institutions.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NEBRASKA LEGISLATURE IN SIXTY-NINTH SESSION ASSEMBLED:

1. That the Legislative Council appoint a committee to make a complete study of the functions, needs, management, and government of the various state charitable, mental, reformatory, and penal institutions and report its findings to the next session of the Nebraska Legislature with recommendations of the type of body to manage, control, and govern the same.

Referred to the Legislative Council Executive Board.

LEGISLATIVE RESOLUTION 10. Re: Legislative Council Study of the Board of Control.

Introduced by Hans O. Jensen, 25th District; Harold B. Stryker, 17th District; and Richard D. Marvel, 31st District.

Inasmuch as the people of Nebr. have seen fit to lay the jurisdiction and responsibility of the Board of Control upon the Legislature and inasmuch as this matter is of extreme importance in that it deals with the welfare and future of over 10,000 unfortunates, we believe that it is a matter that should have the very best consideration and study that the 69th session can give to the matter.

We believe that no emergency exists that would condone nor call for piecemeal approach to this matter.

Be it therefore resolved that the 69th session set up a study committee to make an overall study of this matter during the interim and to be prepared to make recommendation to the 70th session of the Nebr. Legislature from this study.

Referred to the Legislative Council Executive Board.

RESOLUTIONS**LEGISLATIVE RESOLUTION 11. Re: Federal Excise Tax on Gasoline.**

Introduced by Don Thompson, 33rd District; Richard D. Marvel, 31st District; and Hans O. Jensen, 25th District.

WHEREAS, since the enactment in 1919 of the first state gasoline tax, this levy has been historically and rightfully a state tax, and

WHEREAS, the gasoline tax has traditionally provided the major portion of the funds needed by the states to construct and maintain their highway systems, and

WHEREAS, in 1932, the federal government also imposed an excise tax on gasoline, as a temporary, emergency, revenue-producing measure, and

WHEREAS, the expressed, and reaffirmed, intent of Congress to vacate this tax field has not been carried out, and

WHEREAS, instead, the original federal excise on gasoline has been continued and increased by 200 per cent, and

WHEREAS, the mounting federal tax on this product threatens to preempt this legitimate tax source belonging by priority and equity to the states, and

WHEREAS, further increase in the federal gasoline tax rate would lead to serious restriction upon the ability of the states to secure funds for needed highway improvements.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NEBRASKA LEGISLATURE IN SIXTY-NINTH SESSION ASSEMBLED:

1. That the Sixty-ninth Session of the Nebraska Legislature, does respectfully record its opposition to any further increase in the present federal excise tax on gasoline.

2. That a copy of this resolution be transmitted by the Clerk of the Legislature to the office of the President of the United States

and to the members of the House of Representatives and of the United States Senate from Nebraska, and to the Chairman of the Ways and Means Committee of the House of Representatives and to the Chairman of the Finance Committee of the United States Senate.

Special Committee on Contest

Mr. President: Your Special Committee on the contest in Legislative District No. 21 reports the following with reference to the recount of votes in said District.

You asked me and my committee to make a study of this recount and report to you, at which time we received all of the information pertaining to the recount from the deposition obtained from the hearings in Gage County held in Beatrice. In this report Mr. Crosby, the attorney for Willard H. Waldo, submitted a brief showing they were of the opinion that there were irregularities in the formality of filing bonds. Pertaining to this brief, the committee contacted the Attorney General's office for an opinion concerning the above mentioned irregularities. The opinion of the Attorney General stated

that all facts seemed to be in order, so the committee agreed to continue with the recount. (Copy of Attorney General's opinion is herewith attached.)

The recount started Monday, January 19, 1959 at 1:30 P. M. under the direct supervision and rules set forth by the Special Legislative Committee on the 21st district recount with the agreement of the attorney for George F. Fulton and attorney for Willard H. Waldo that it be stipulated that they would abide by the ruling of the Attorney General's office on challenged ballots.

Wednesday afternoon, at the conclusion of the counting of the non-contested ballots, the records showed that Willard H. Waldo was leading George F. Fulton by 3 votes. Willard H. Waldo received 3,968 votes, and George F. Fulton received 3,965 votes.

The committee requested the Attorney General's office to examine the 117 challenged ballots and to make a determination of the same. This was done Thursday morning, January 22, 1959 at 10:00 A. M. in the presence of the recount committee and attorneys for both parties. Of the 117 challenged ballots, 60 were challenged by the attorney for Willard H. Waldo, and 57 by the attorney for George F. Fulton. After examination and ruling by the Attorney General's office, 96 of the 117 challenged ballots were passed. Willard H. Waldo received 43 and George F. Fulton received 53 of these votes.

The reason for contesting the 96 ballots was due to the fact they were marked with a check mark instead of an X, and a very small number contained X's a little bit outside the square, or behind the name instead of in front. These check marks and other reasons mentioned above, were ruled by the Attorney General's office to show intent and passed.

Then, of the remaining 21 ballots, 17 were thrown out because of only one judge's name on the back instead of the required two.

With respect to the remaining 4 ballots, the objections as to validity were as follows:

Two ballots were marked identically with an X for both candidates. One ballot, across the top of said ballot, had the following words, "Straight Democrat ticket," and that ballot was thrown out.

The final ballot was challenged on the grounds that in the space provided for a write-in candidate, one of the two candidates names was written in this space with no X beside the write-in line. This was done although the voter had placed an X in the box for the same person whose name was written in.

On Monday morning, January 26, 1959, the committee heard the final argument from the attorneys for Willard H. Waldo and George F. Fulton at 9:00 A. M. giving each side fifteen minutes to state their case and answer questions of the committee members.

After reviewing the final counting of both the challenged and unchallenged votes, the records show that George F. Fulton was ahead by 7 votes.

Final tabulation of the votes was as follows:

Willard H. Waldo	4011
George F. Fulton	4018

Therefore, we recommend that George F. Fulton be seated as senator from the 21st district.

UNANIMOUS CONSENT—Print Report

Mr. Vosoba renewed the request found in the Legislative Journal for the Eighteenth Day for unanimous consent to print the majority and minority reports of the Judiciary Committee relative to Legislative Resolution 2. No objections. So ordered.

JUDICIARY COMMITTEE**STATEMENT ON LEGISLATIVE RESOLUTION 2**

This resolution, as amended, asks that the Legislature direct the attorney general to bring court suit to determine whether Ak-Sar-Ben and a number of other organizations conducting horse racing are subject to property tax and if so, that back taxes be collected from them. The resolution has nothing to do with the proposal to place a tax on the proceeds from parimutual betting—the resolution deals only with the property tax.

The introducer stated that in his opinion that Ak-Sar-Ben's horse racing and similar activities make it taxable. It was pointed out to him that an attorney general's opinion in 1936 held Ak-Sar-Ben to be non-taxable; that it and other corporations had been treated as non-taxable for many years; that many non-profit corporations, such as veterans organizations, have money-raising activities; and that the federal government has held Ak-Sar-Ben to be non-taxable. Although he was asked numerous times, the principal introducer did not state to the satisfaction of the majority of the committee on what theory Ak-Sar-Ben could be held taxable.

The chairman of the committee quoted the attorney general as having authorized him to report at the hearing that the attorney general believed that an action to hold Ak-Sar-Ben taxable "has little or no chance of success," and would cost the state conservatively a minimum of \$30,000. The majority of the committee believes that suits with so little apparent prospect of success and at such great expense are not justified. Assuming a number of suits, the expense could well run into hundreds of thousands of dollars.

The principal introducer argued that the possible tax status of Ak-Sar-Ben has never been determined by court decision so there should be a suit. However, this contention could be made about hundreds of other non-profit corporations which also have not had their status settled by the courts. And, there are untold thousands of legal questions which have not been determined by the Nebraska courts. The majority of the committee doubts the wisdom of bringing lawsuits just because the questions involved have never been determined before, particularly where the chances of success are slight and the cost of suit great. This is especially true where, as here, the question has been settled by an attorney general's opinion and practice of many years.

The introducer said he had not asked the governor to have the action brought, though the majority of this committee believes this would be the necessary course before the Legislature should involve itself. The introducer had not talked to the attorney general at all about the matter. He made no effort to learn from the attorney general as to the attorney general's thoughts on the suit, the chances of success, where the suit would be brought, procedures to follow, or the merits of the resolution generally. Nor, had he talked to any assistant attorney general within the last year about the matter. He only had a letter, a year old, from the attorney general's office, stating generally some of the problems as to possible tax liability of Ak-Sar-Ben, without conclusion

thereon. The introducer asked the suit to be brought in the Supreme Court, though it is very doubtful that the Supreme Court would accept original jurisdiction. The majority of the committee believes that the matter should certainly have been discussed with the attorney general, so intelligent consideration could be made.

Testimony also indicated that if Ak-Sar-Ben and county fair associations are held liable for back taxes, these taxes might go back so many years that these associations would be put out of business. A decision might also subject to back tax liabilities and put out of operation hundreds of other non-profit Nebraska corporations, such as American Legion clubs, V.F.W. clubs, Y.M.C.A., Y.W.C.A., labor temples, Elks, Eagles, Odd-Fellows, Masonic Lodge, Knights of Columbus, Boy Scouts, religious societies, etc., where these organizations carry on fund-raising activities. The majority of the committee doubts either the fairness or desirability of subjecting to taxes for many years back, and possibly putting out of business, these organizations which have for so long carried on community activities, relying on tax-exempt status. The tax gain to the state would be far more than offset by the state's loss from destruction of these organizations.

Finally, there presently are ample avenues open for testing the liability of Ak-Sar-Ben or any other non-profit corporation at the county level. And, the majority of the committee believes that the question of enforcing the tax laws is primarily a matter for the executive branch of the government. Therefore, this resolution should have been directed to the governor for his decision before submission to the Legislature.

Appearing on behalf of the resolution were the principal introducer and Mr. George J. Thomas of Omaha, who stated the reasons above explained for the resolution. Appearing in opposition to the bill were: Senator Russillo; Mr. J. J. Isaacson, General Manager of Aksarben; Mr. Yale C. Holland, attorney representing Ak-Sar-Ben; Mr. Warren Albert, attorney from Columbus, representing outstate racing associations; Mr. Al Raun, Walthill, representing State Fair Board and County Fair Associations; and Senator Jack Romans.

Those in opposition explained the various activities of Ak-sar-ben and county agriculture societies and how these did not subject Ak-sar-ben to tax liability.

The resolution was indefinitely postponed by a vote of 4 in favor, 2 in opposition, 1 present and not voting.

(Signed) Ray C. Simmons, Chairman

Minority Report on LR 2

The committee unanimously amended the resolution to (1) limit it to "similar corporations *conducting pari-mutuel betting*" and (2) to direct the suit to be brought in the District Court if the Supreme Court declines to take jurisdiction, and direct an appeal to the Supreme Court if the District Court decision would be adverse to the State. These amendments are set out in full on the attached sheet.

Putting aside personalities and prejudices, and attempting to judge Legislative Resolution 2 solely on its merits, the undersigned minority of the Judiciary Committee recommend that LR 2, as amended in committee, be approved by the Legislature of Nebraska for the following reasons:

The question of whether Aksarben, and similar organizations conducting *pari-mutuel betting*, are tax-exempt is not legislative or political, but is purely a legal question: law applied to facts. There has never been a final or authoritative legal determination of this question, and only the Supreme Court can make that final determination, in an action commenced in the proper court.

Hundreds of thousands of dollars in tax money may be involved.

We do not indicate any opinion as to whether these organizations are actually tax-exempt or not, nor whether they should be tax-exempt or not, but we do firmly believe that the public interests, as well as those of Aksarben and similar organizations conducting *pari-mutuel betting*, require a legal determination of this important legal question.

AMENDMENTS TO LEGISLATIVE RESOLUTION 2

Amend LR 2:

By inserting "*conducting pari-mutuel betting*" after the words "similar corporations" in paragraph 2, line 1, and section 1, line 3.

By adding the following at the end of section 1:

"In the event the Supreme Court refuses to accept such action as an original action, the Attorney General is then directed to commence such action in the appropriate district court and to appeal to the Supreme Court from any adverse decision."

By striking line 1 of section 2 and inserting in place thereof:

"2. If in such action it shall be finally determined".

STANDING COMMITTEE REPORTS**Committee on Committees**

Mr. President: Your Committee on Committees submits the following report with respect to its investigation regarding the contest of the election for Governor on November 4, 1958.

The Committee met on January 12, 1959 to decide upon procedure to be followed in conducting the investigation. It was decided to invite the attorneys representing the opposing sides in this issue to meet with the Committee on alternate days and present a summary of the evidence from their respective points of view.

The Committee then decided to examine the ballots sent in by the various county clerks in order to ascertain their condition and state of preservation. This was done at the close of business on January 12.

It was further decided that the press would be allowed at all meetings of the Committee, but that news releases should

be issued only by the Chairman. Executive meetings were to be restricted to the members of the Committee and representatives of the press.

The Committee next met on January 14, 1959 at which time Attorneys Robert A. Nelson, Lincoln, and Jack Devoe, Lincoln, representing the proponents of a recount, presented their thinking as to why there should be a recount.

On January 15, 1959 the Committee met with Attorneys Joseph Ginsburg, Lincoln, and Bernard Boyle, Omaha, representing the opponents of a recount, who presented their arguments as to why there should not be a recount.

The Committee then invited Mr. Clarence S. Beck, Attorney General of the State of Nebraska, to meet with them on January 26, 1959 to explain various points of the election laws and to give a summary of the research upon which was based his opinion that it is mandatory to hold a recount in this case. Mr. Beck and Assistant Attorney General Homer Hamilton duly met with the Committee on January 26 and again on January 28.

On Thursday, January 29, 1959, after considering all information which had been presented, the Committee on Committees voted by secret ballot on this matter. The vote was seven to six in favor of recommending to the Legislature that the votes cast for Governor in the November 4, 1958 election be recounted.

(Signed) William Moulton, Chairman

MOTION—Accept Report

Mr. President: I move that the report of the Committee on Committees with regard to contest on the Governor election be accepted. (Signed) William Moulton

UNANIMOUS CONSENT—Print Report

Mr. Vosoba requested unanimous consent that the following report of the Committee on Committees, relating to the contest on the Governor recount, be read by the Clerk of the Legislature and be included in the daily Journal. No objections. So ordered.

COMMITTEE ON COMMITTEES**Contest on Governor Recount****SUMMARY OF EVIDENCE PRESENTED**

1. The Committee on Committees met in the West Senate Lounge on January 12, 1959 to consider the matter of the contest in election of Governor.

A. Senator Stryker presented each member of the Committee with a copy of an opinion prepared for Senator Lautenschlager by Walter Raecke containing various arguments against a recount.

B. Committee decided upon rules to be followed in conducting further meetings. It was decided to invite attorneys for the opposing sides to meet with the Committee on January 14 (Republican) and January 15 (Democratic) to give a summary of the evidence from their respective points of view. The Chairman appointed Senator Munnely to contact the Democratic attorneys and Senator Thompson to contact the Republican attorneys.

C. The Committee decided to examine, in a body, the ballots sent in by the county clerks in order to ascertain the condition of these ballots. This was done at the close of the same Legislative day.

D. The Committee decided that the press would be allowed at all meetings, but that news releases must come from the Chairman of the Committee, and be concurred in by all members of the Committee.

E. The Committee decided that Executive Meetings would be restricted to the members of the press and the members of the Committee.

F. The Committee decided to have copies made for each member of the Committee of the opinion of the Attorney General which contains the following conclusion:

“Where the grounds of contest are that votes were illegally counted for the contestee or that mistakes in counting were made, sufficient to change the result of the election, and where a showing is made that the ballots presented to the Legislature were properly preserved, it then becomes incumbent on the Legislature to count the ballots and determine the result.”

2. The Committee on Committees met at 2: PM on January 14, 1959 in the East Senate Lounge with Republican Attorneys Robert A. Nelson and Jack Devoe.

(A) Attorney Robert Nelson addressed the Committee:

(1) Stated he would present the Committee with a summary of the evidence obtained at the recount hearings in December. A summary was subsequently furnished by Mr. Nelson and has been included in the Committee records.

(2) Stated notice in this case was based upon errors and irregularities in counting and certification of the votes.

(3) Stated no allegations of fraud or collusion were made. To prove fraud in a matter of this kind is almost impossible.

(4) Stated the real issue in this case is manner in which counting of ballots was done and the methods used by the canvassing boards in tabulating and certifying the results. Definite errors were revealed which could affect thousands of votes.

(5) Stated that methods used by some counting boards not in accordance with statutes. Safeguards provided by the statutes were disregarded.

(6) Stated an unlimited bond set by Mr. Wishart. The \$20,000.00 was just a payment in good faith. They will pay all costs if they lose on the recount. They have paid all bills to date. Security of \$20,000.00 was the amount set by the Secretary of State, but liability of Mr. Wishart is unlimited and not within the \$20,000.00 bond, although that amount is more than adequate.

(7) Only further expense will be the expense involved in the actual recount.

(8) Stated recount should be completed within a matter of days. Twenty-five votes a minute can be counted without difficulty.

(9) Right to vote is one of the most fundamental rights that citizens have. People are entitled to know who was elected and the only way that can be ascertained is by a recount of the ballots.

(10) Stated a recount is necessary to prevent apathy on the part of voters in future elections.

B. Mr. Devoe then briefly addressed the Committee:

(1) Stated that the course of United States history has been changed in numerous instances by one vote.

(2) Stated the Legislature should do everything in its power to see that the people of Nebraska have the right to have their votes checked.

C. During the question and answer period following the talks, the following points were brought out:

(1) It is the holding of our courts that it is mandatory for the Legislature to have a recount.

(2) Those ballots which have not been properly preserved cannot be counted, but they would be thrown out and the count as certified by the canvassing board for that precinct would be taken.

(3) Since the provisions of the statutes have been complied with in requesting a contest, it is mandatory to have a recount. The Legislature has no choice.

(4) Proper preservation of ballots does not mean that because the seal has been broken or because they haven't been kept as provided by law they have not been properly preserved so as to be counted.

(5) You can't defeat the will of the voters because of a human element entering into it.

(6) You can't determine how many ballots have been improperly preserved without opening the ballot boxes and examining them.

(7) If a public official does not comply with the law, the voters should not be penalized.

(8) Spoiled ballots would not enter into a recount. A spoiled ballot is taken up and the voter given another ballot.

(9) Obvious errors in a recount might indicate fraud, but it would be hard to prove.

(10) Election boards have been becoming more lax through the years. Condition has been getting worse.

(11) No attorney fees in this case. Attorney fees cannot be taxed as costs or expenses in any case unless shown by statute. Only cost would be hiring people to do the recounting.

(12) Suggest hiring ten counting boards, or forty people.

3. The Committee met at 2: PM on January 15, 1959 in the East Senate Chamber with Democratic Attorneys Joseph Ginsburg, Lincoln, and Bernard Boyle, Omaha.

A. Attorney Joseph Ginsburg addressed the Committee:

(1) Stated there are some fundamental things to be considered, such as sanctity of the ballot box and stability of state government.

(2) Said he would furnish the Committee with a synopsis of his remarks. This synopsis has been received and is included in the Committee records.

(3) Stated that the statutes of Nebraska provide for an election contest but not a recount. There is no procedure for a recount.

(4) Stated that an election contest is based on stated, definite, specified irregularities of illegal voting or fraud. A recount is simply a retabulation of the vote.

(5) Referred the Committee to Sections 32-1001 to 32-1010 of Revised Statutes of Nebraska with regard to rules, etc.

(6) Stated contester must show possibility that the recount will show in his favor.

(7) Stated Republican Party has no right to demand a recount simply as a fishing expedition.

(8) The deviations from exact, strict procedure on election boards would indicate no dishonesty on part of election board officials.

(9) Stated that testimony at election hearings in December nullified or negated the Republican assertions.

(10) Stated that ballots which have been charged as illegal cannot be determined and counted at the rate of twenty-four per minute. Each ballot in every precinct must be examined.

(11) Stated it would probably take a year to recount all these ballots under the conditions which would prevail.

(12) Only irregularity evidenced in this entire record is one that is favorable to the contestee's side, according to Mr. Ginsburg.

(13) Two methods were used in issuing absentee ballots. When the voter personally appeared before the Election Commissioner, they gave him an oath to sign, but left out other questions on the blank. When the request came in by mail they filled out the questionnaire in its entirety. The law does not provide for any such distinction. About 200 mail votes made in this way.

(14) Stated that contester based his request upon suspicion only and a thought that a recount might develop errors. Burden of proof on contester to prove that illegalities and irregularities did exist to such an extent as would have affected the result of the election.

(15) Stated that evidence as to specific irregularities is very meager and resolves itself down to an overage of four votes in Lancaster County and an overage of eleven votes in Douglas County. All other errors caught by the canvassing board and corrected.

(16) Stated that the Opinion of the Attorney General makes no reference to the fundamental distinction between a recount and an election contest.

(17) Stated that the Opinion of the Attorney General fails to observe that the Constitution of Nebraska is specific that election contests for executive offices of the state shall be determined by the Legislature. (Art. IV, Sec. IV, Constitution of Nebr.)

(18) Stated that the opinion of the Attorney General is not designed to compel the Legislature to make a recount, but is to instruct the Legislature as to the state of the law.

(19) Stated that the Opinion of the Attorney General does not stand up under any sort of critical analysis because it does not distinguish between a contest and a recount.

B. Mr. Bernard Boyle then briefly addressed the Committee:

(1) Stated he hoped the Legislature would decide this matter in a non-partisan manner and not along party lines.

(2) Stated that only those who have read the evidence can know anything about the facts. This should not be decided on hearsay evidence.

C. The following points were brought out during the question and answer period which followed:

(1) All witnesses were called in by contesters except those testifying as to condition of the ballots.

(2) None of the witnesses appearing at the depositions admitted that the count was in error.

(3) If this matter is held in abeyance by the Legislature and not decided, it is possible the Democratic Party might go to the Supreme Court.

(4) If the Legislature decides against a recount, the Republicans might resort to a mandamus, which is a judicial proceeding.

(5) Containers in which ballots are kept must be intact or the courts can't admit them into evidence.

(6) Mr. Ginsburg knows of no statute which gives the con-
tester the right to go into a ballot. The Legislature can go into the ballot if it wishes, but no law gives any contester that right.

4. The Committee met at 1: PM on January 26, 1959 in the West Senate Lounge. Attorney General Beck and his Assistant, Mr. Homer Hamilton were present to speak to the Committee

and answer any questions which might be asked. Mr. Beck turned the meeting over to Mr. Hamilton who, he stated, had done the research in compiling the Attorney General opinion holding that it is mandatory for the Legislature to have a recount.

A. Mr. Hamilton addressed the Committee as follows:

(1) Stated the Attorney General's office is not on any side in this matter. Their position is advisory only. The matter has been treated as an attorney and client proposition.

(2) Stated their opinion is based upon what the law says.

(3) Stated that this particular matter is governed by the Constitution of Nebraska.

(4) Stated a contest over a seat in the Legislature would be held under a different Constitutional provision than would enter into this matter.

(5) Determining membership in the Legislature is an exclusive right of that body.

(6) The original act governing contests in elections of state officers was passed in 1879 and has not been amended much since that time.

(7) Mr. Hamilton referred to Sections 32-1001 to 32-1010, Revised Statutes of Nebraska and read passages to the Committee from those Sections.

(8) Stated an election contest could be resolved simply from the depositions. If either party asks to have the ballots brought in, they shall be brought in. They are then put with other evidence.

(9) Said we have to take the position that all parts of the statute mean something. If the law says that you can get the ballots and bring them in and have them opened and inspected and then determine the result, the only way you could determine the result would be to count them. You couldn't have determined by earlier testimony what the official count was without going to the ballots. If the words "Bring them in, open them, and inspect them" mean anything we are unable to see how you could do this in any other way than by counting them.

(10) Statute provides that the bond is to be forfeited if the contest fails. You would not know if the contest fails unless you count the ballots.

(11) Mr. Hamilton mentioned a case where a contest was had for the office of county attorney. The District Court took

the position it was not forced to count ballots unless there was some preliminary evidence showing there were enough mistakes to change the result. The Supreme Court disagreed with this finding on the basis that when those things are alleged the best and only evidence is the ballots themselves, and directed the District Court to recount the ballots without additional proof.

(12) Stated that ballots should not be counted if they haven't been properly preserved or in substantially the same condition as they were when marked. If it appears unauthorized persons have had access to them they should not be considered.

(13) Stated that while the word "recount" does not appear in the statutes, if the words of the statute mean anything, it just means that somebody must recount the ballots.

B. During the question and answer period which followed Mr. Hamilton's talk, the following points were brought out:

(1) There are two forms of evidence; the depositions and the ballots. There is no rule that would allow you to consider part of the evidence and disregard the other part. You have to consider the ballots as evidence and there is no way to determine the correctness of the count by not counting them.

(2) "Contest" does not necessarily mean "recount." You can have a contest without a recount. Contest is an overall proceeding. As a part of it you might have a recount. Why open and inspect the ballots if you don't recount them?

(3) The presumption is that the duly elected officials perform their duty according to law and that the ballots brought in are the original ballots. When they are delivered by the proper official to the proper place they may be presumed to be the original ballots cast in the various precincts.

(4) Stated the Legislature will have to decide whether somebody tampered with the ballots where some of the seals are broken. Presumption is that our county officials do their duty and do it properly.

(5) If the Legislature decides not to recount, the only recourse would be an action by the contester for a writ of mandamus.

5. The Committee met at 1:15 PM on January 28 in the West Senate Lounge for the purpose of asking further questions of C. S. Beck, Attorney General, and Homer Hamilton, Assistant Attorney General.

A. The following points were brought out during the question and answer period.

(1) From a legal standpoint, according to Mr. Beck, there must be a recount.

(2) The Legislature must decide whether the ballots have been preserved so they can be counted.

(3) It would be up to the Legislature to decide whether to take the results as shown by the official canvassing board if ballots from certain precincts are not counted.

(4) The Legislature will vote on the question no matter which way the Committee advises.

(5) If the Legislature decided not to recount, it is possible that a writ of mandamus may be issued by the court ordering the recount. The Legislature is sitting as a canvassing board in this instance.

(6) There is a presumption that the county officials have properly performed their duty. In that case, the proof would have to be made that the boxes of ballots have been tampered with; however, you must start with the presumption that they were properly cared for and delivered.

(7) The ballots and depositions are all part of the evidence.

(8) The difference in number of votes between the two candidates has nothing to do with whether a recount must be held.

(9) There is no recourse with regard to one-signature ballots, that is, ballots signed by only one election judge. That voter is automatically disfranchised.

(10) Nebraska courts have held it isn't necessary to take depositions in a matter of this kind.

(11) The contester called for the depositions in this case. They would not necessarily have had to be taken, but since they were they are a part of the evidence. They could not prove the allegation of mistakes or errors by the use of depositions. You would have to count the votes.

(12) Corpus Juris Secundum gives both sides of a question. Courts in some other states have said that you don't have the right to recount, but our court took the opposite view. They have stated you don't need this prior evidence (depositions).

(13) If the Legislature decides to recount the ballots, it isn't likely that any court would issue a restraining order.

(14) If there was a recount and the contester won, there would be no recourse open to the contestee. That would be the end of it.

(15) No one on the Attorney General's staff made the statement that this matter could be prolonged for two years.

(16) If you could get directly before the Supreme Court in this matter, you should have an answer in six weeks to two months. If the case went to District Court, however, there is no telling how long it might drag along.

MOTION—Governor Recount

Mr. President: I move that the Legislature direct that a recount be held in the 1958 Governor race. (Signed) Ray C. Simmons

Recess

On a motion by Mr. Carpenter, the Legislature recessed from 10:52 until 11:08 a.m., to permit those members who had not viewed the ballots, the opportunity to do so.

UNANIMOUS CONSENT—Division of Question

issued when the ballots were brought in, and that he be requested to explain the changes referred to by him in his previous report to the Legislature. No objections. So ordered.

Mr. Carpenter raised a point of order regarding rules under which the committee would operate if the Legislature should decide to recount the ballots for Governor.

The Secretary of State, Frank Marsh, appeared and brought with him the receipts signed by those bringing the ballots, and he read and explained the course followed by himself and the Clerk of the Legislature when the ballots were received.

Mr. Carpenter requested a record vote on the Vosoba amendment.

Mr. Clarence Beck
 Attorney General
 State House
 Lincoln, Nebraska

Dear Sir:

I am enclosing herewith a copy of a bond furnished by Mr. Wishart, together with a copy of a certified check made payable to the State of Nebraska.

I would like to have your opinion as to the following questions: You will note that the bond is specific in that it recites as follows: "I shall pay to the proper authorities all costs which are charged or assessed against me as provided by law."

This provision is, of course, contrary to the direction of the statutes and I presume there is a reason for its being written in the form that is expressed in the bond.

Will you advise the mechanics necessary in the event that the result of the election of the Governor of the State of Nebraska is not reversed as to who and how and by what statute authority could anyone proceed to collect under the bond for the expenses incurred in the recount to meet the qualifications (as provided by law).

The check in the amount of \$20,000 is made out to the State of Nebraska which I presume is a pertinent part of the bond itself and the amount could not be expended unless someone complied with the provision as provided by law. Under what procedure could this certified check be made available to pay the expenses of a recount and by whom?

As time is of some importance, I would appreciate as prompt a reply as possible.

Sincerely,

TERRY CARPENTER

February 9, 1959

Senator Terry Carpenter
Nebraska State Legislature
State Capitol
Lincoln, Nebraska

Dear Senator Carpenter:

You have inquired as to the procedure to be followed for collection of costs in the event the pending election contest for Governor fails.

Section 32-1009 provides in part:

“* * *. The contestant must also, within three days after giving the required notice of the contest of any election, file a bond in the office of the Secretary of State, with security to be approved by that officer, conditioned to pay all costs in case the contest fails.”

The bond submitted is conditioned to pay “to the proper authorities all costs which are charged or assessed against me, as provided by law, * * *.”

It is true that the condition of the bond is not in the exact wording of the statute, but inasmuch as we are informed that a three judge district court has ruled the bond sufficient we must presume for purposes of this opinion that the bond is sufficient and imposes liability on the contestant in the event the contest fails.

There appears in the Legislative Journal for the twenty-first day covering proceedings on Tuesday, February 3, 1959, on page 360, a statement by the attorney for the contestant that all bills have been paid to date and in subsection (7) that the only further expense will be the expense involved in the actual recount. Therefore, at this time we must assume that only the costs incidental to the recounting of the ballots are involved.

Section 32-1015 authorizes the opening and inspection of the ballots in the presence of the presiding officer of the Legislature unless they have been committed to the chairman of a committee. We are informed that a committee has been appointed to make the recount, subject to submission to the Legislature and approval thereof, of a method of procedure. It is assumed that either the committee or some other proper official will engage the services of judges and clerks to do the actual recounting under the supervision and control of the committee. This will involve certain expenditures by the Legislature for which an appropriation will be necessary unless funds are now available. This expense is certainly a part of the costs for which the State is entitled to be reimbursed in the event the contest fails.

In the event there is no change in the election, and after all the costs of recounting have been determined, the Clerk of the Legislature, under the direction of that body, should submit a statement of these costs to the contestant. In the event these costs are not paid within a reasonable time the Legislature would be authorized under the provisions of Section 84-205, subsection (9), to direct the Attorney General to institute proceedings against the contestee and on his bond. The twenty thousand dollar security posted by the contestant in the form of a certified check and made payable to the State of Nebraska could be turned over to the State Treasurer under direc-

tion of the Legislature for that purpose where the costs do not exceed twenty thousand dollars, and thus any action on the bond could be avoided. The fact that the certified check is made to the State of Nebraska rather than to the Legislature or to some designated state official is immaterial.

As previously mentioned it has been stated by the attorney for the contestant that all other costs have been paid. In the event that this is not correct any county clerk who incurred expenses in bringing the ballots to Lincoln or any witness who desires and is entitled to collect for witness fees and any shorthand reporter could properly present their claims to the Clerk of the Legislature to be approved by that body and included in the recount costs. This could also be done by any notary public before whom previous depositions may have been taken and the fees in such cases are governed by Section 33-133. However, any such reporter or notary public would also have recourse against the person or persons for whom the depositions were taken, the same as in any other civil proceeding.

It should also be noted that when the recount is finished, and if there is no change in the result, the contestant could pay directly for the services performed by those doing the actual recounting. If this is done the Legislature will not be involved in any payments or in collecting the costs from the contestant, if the contest fails.

Respectfully submitted,

CLARENCE S. BECK
Attorney General

44-501. No policy or contract of fire and lightning insurance, including a renewal thereof, shall be made, issued, used or delivered by any insurer or by any agent or representative thereof, on property within this state other than such as shall conform in all particulars as to blanks, size of type, context, provisions, agreements and conditions with the 1943 Standard Fire Insurance Policy of the State of New York, a copy of which shall be filed in the office of the Director of Insurance as standard policy for this state, and no other or different provision, agreement, condition or clause shall in any manner be made a part of such contract or policy or be endorsed thereon or delivered therewith except as provided in subsections (1) to (9) of this section.

(1) The name of the company, its location and place of business, the date of its incorporation or organization, and the state or county under which the same is organized, the amount of paid up capital stock, whether it is a stock, mutual, reciprocal, or assessment company, the names of its officers, the number and the date of the policy, and appropriate company emblems may be printed on policies issued on property in this state; *Provided*, that any insurer organized under special charter provisions may so indicate upon its policy, and may add a statement of the plan under which it operates in this state.

In lieu of the facsimile signatures of the president and secretary of the insurer on such policy, there may appear the signature or signatures of such persons as are duly authorized by the insurer to execute the contract. No such policy shall be void if the facsimile signature or signatures of any officer of the company shall not correspond with the actual persons who are such officers at the inception of the contract if such policy is countersigned by a duly authorized agent of the insurer.

(2) Printed or written forms of description and specifications or schedules of the property covered by any particular policy and any other matter necessary to express clearly all the facts and conditions of insurance on any particular risk, which facts or conditions shall in no case be inconsistent with or a waiver of any of the provisions or conditions of the standard policy herein provided for, may be written upon or attached or appended to any policy issued on property in this state. Appropriate forms of supplemental contracts, contracts or endorsements, whereby the interest in the property described in such policy shall be insured against one or more of the perils which insurer is empowered to assume, may be used in connection with the standard policy. Such forms of contracts, supplemental contracts, or endorsement attached or printed thereon may contain provisions and stipulations inconsistent with the standard policy if applicable only to such other perils. The pages of the standard policy may be renumbered and rearranged for convenience in the preparation of individual contracts and to provide space for the listing of rates and premiums for coverages insured thereunder or under endorsements attached or printed thereon, and such other data as may be included for duplication on daily reports for office records.

(3) A company, corporation, or association organized or incorporated under and in pursuance of the laws of this state or elsewhere, if entitled to do business in this state, may with the approval of the Director of Insurance, if the same is not already included in the standard form as filed in the office of the Department of Insurance, print on its policies, any provision which it is required by law to insert therein, if said provision is not in conflict with the laws of this state or the United States, or of the provisions of the standard form provided for herein, but such provision shall be printed apart from the other provisions, agreements, or conditions of the policy and in type not smaller than the body of the policy and a separate title, as follows: "Provisions required by law to be stated in this policy," and be a part of the policy.

(4) There may be endorsed on the outside of any policy provided for in this section for the name, with the word "Agent or Agents" and place of business, of any insurance agent or agents, either by writing, printing, stamping or otherwise. There may also be added, with the approval of the Director of Insurance, a statement of the group of companies with which the company is financially affiliated, and the usual company medallion.

(5) When two or more companies, each having previously complied with the laws of this state, unite to issue a joint policy, there

may be expressed in the headline of each policy the fact of the severalty of the contract; and also the proportion of premiums to be paid to each company and the proportion of liability which each company agrees to assume. In the printed conditions of such policy the necessary change may be made from the singular to plural number, when reference is had to the companies issuing such policy.

(6) This section shall not apply to motor vehicle, inland marine nor ocean marine insurance; nor shall it apply to reinsurance contracts between insurance companies. *The Director of Insurance may approve a form of policy which includes, either on an unspecified basis as to coverage or for an indivisible premium, coverage against the peril of fire and substantial coverage against other perils, without complying with the provision of this section; Provided, such policy with respect to the peril of fire includes provisions which are the substantial equivalent of the minimum provisions of the standard policy herein provided for; and provided further, the policy is complete as to all its terms without reference to any other document.*

(7) If the policy be made by a mutual assessment or other company having special regulations lawfully applicable to its organization, membership, policies or contracts of insurance, such regulations shall apply to and form a part of the policy as the same may be written or printed upon, attached or appended thereto.

(8) Policies of assessment associations may be issued with such modifications as shall be approved in writing by the Department of Insurance.

(9) Any other coverage which a company is authorized to write under the laws of this state may be written in combination with a fire insurance policy."

STATEMENT—Introduce Bill

Nebraska has an excellent public record law as to rights of persons to examine public records but it nowhere defines what a public record is nor does it permit copying by persons not a veteran, nor does it provide for getting certified copies, nor the making of abstracts nor the use of information from public records as privileged, nor remedies if examination is denied.

Based on a study of 49 state laws on this subject, an amendment to these laws is hereby presented which retains the existing Nebraska law and phraseology but adds to it what is a public record, the right to copy and make abstracts except where statutes bar, the right to buy certified copies upon payment of costs, a remedy for denial of examination, etc., and the privileged status of public records, certified copies, and accurate abstracts and communications and publications when correctly describing the original record.

RESOLUTIONS**LEGISLATIVE RESOLUTION 17. Re: Federal Grant in Aid Programs.**

Introduced by Ray C. Simmons, 11th District.

WHEREAS, through federal grant in aid programs the federal government by extravagant and unnecessary spending is forcing Nebraska and its communities also to spend extravagantly to match and thus obtain back part of their own money; and

WHEREAS, the city of Fremont, Nebraska has found on several occasions that it has cost the city less to pay the entire cost of construction and other projects than to take part in federal matching-fund programs and that it would have been highly wasteful to accept such federal "aid;" and

WHEREAS, the city of Fremont, Nebraska has further found restrictions in the federal programs to be highly undesirable; and

WHEREAS, the Chamber of Commerce of Fremont, Nebraska has endorsed "A Declaration of Independence from Federal Dependence," declaring that it steadfastly resists further encroachment by the federal government on local, county, and state government and further declares its desire to limit the use of federal grant in aid funds with a corresponding reduction in federal tax levies and governmental controls; and

WHEREAS, the Fremont Chamber of Commerce calls on all citizens throughout the forty-nine states to back this Declaration of Independence.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NEBRASKA LEGISLATURE IN SIXTY-NINTH SESSION ASSEMBLED:

1. That the Nebraska Legislature endorses and supports the above described Declaration;

2. That copies of this resolution together with the described Declaration be transmitted to the Vice President of the United States as President of the Senate of the United States, to the Speaker of the House of Representatives of the United States, and to each member from Nebraska in the Senate of the United States and in the House of Representatives of the United States.

3. That copies of this resolution be transmitted to the presiding officers of the Legislatures of the other forty-eight states for their information and consideration.

UNANIMOUS CONSENT—Read and Print Letter

Mr. Carpenter requested unanimous consent to have the following letter from the State Tax Commissioner read and printed in the Journal. No objections. So ordered.

January 28, 1959

Senator Terry Carpenter
State Capitol
Lincoln, Nebraska

Dear Senator Carpenter:

You have asked for information concerning all of the investigations of intangible taxes made by this office during the last six months. Some of the information you have requested is not available to us at the moment. For example, we know that in some instances assessments have been made, but we have no knowledge of whether taxes have been paid. Further explanatory notes will be included in the body of this letter.

During the past six months we have held formal hearings involving twelve individuals who are listed below.

Adams County	Value of Intangible Property not Taxed	Taxes
Robert Burke, Hastings	\$ 7,300.80	\$ 43.80
Eunice and Agnes Chapman, Hastings	40,845.42	245.07
Lothar F. Egan, Hastings	8,700.00	52.20
J. J. Lewis, Hastings	11,000.00	66.00
Homer K. McDill, Hastings	41,000.00	246.00
Ben Sherman, Hastings	288,000.00	1,728.00

Important note: During the period between our hearings and the making of an assessment at the tangible rate, all of the above individuals appeared before the Adams County Board and pre-

sented schedules in the above amounts and notified the Board that these amounts represented omitted intangible property. The Board instructed the assessor to make an assessment and to apply the 50% penalty which is required on omitted intangible property at the county level.

Subsequent to the above hearings, we issued "hold orders" to the assessor on nineteen additional individuals in Adams County in anticipation of holding hearings. Seventeen of these people joined the above individuals in appearing before the Board, and made assessments of their omitted property, thus eliminating any cause for holding hearings. It has been reported to us that a total of \$56,000.00 in taxes, including penalties and excluding interest, resulted from the above investigations.

A conference with staff members of the Attorney General's office revealed the fact that the law under which we took action is not superior to the laws allowing county officials to assess omitted property. For this reason we began functioning in a slightly different manner. When intangible property was discovered by this office, we informed the assessor and gave him a chance to make an assessment. When he failed to make an assessment and our records indicated reason to believe intangible property had been omitted, we then sent notices for hearing. Since that time the following formal hearings have been held.

	Value of Intangible Property not Taxed	Taxes
Boyd County		
Anoka-Butte Lumber Co., Anoka	\$194,000.00	\$11,000.00

Note: The principals of Anoka-Butte Lumber Co. appeared at the hearing without counsel. The intangible property consisted of accounts receivable, the value of which was determined at the time of the hearing. Therefore this assessment is the one and only assessment in which we have been successful in levying the tangible rate. We have been advised that there is a strong possibility of an appeal in this case.

	Value of Intangible Property not Taxed	Taxes
Custer County		
Credit Bureau, Inc., Broken Bow	\$8,000.00	\$ 48.00

At the hearing for this corporation evidence was introduced which showed that the intangible property had been declared on the Corporation Schedule, but had not been transferred to the Business Personal Property Schedule. This disclosure made it difficult to pinpoint the responsibility for the property not being

taxed, and thus the taxpayer was allowed to make his assessment to the county under a 50% penalty rather than at the tangible rate.

Gage County	Value of Intangible Property not Taxed	Taxes
Jefferson B. Weston, Beatrice	\$2,347,648.00	\$14,085.89
Herbert T. Weston, Jr., Beatrice	3,403,814.00	20,422.88
Collins Weston, Beatrice	2,609,229.00	15,655.37

Note: These three people offered supplemental schedules covering the above omitted intangible property to the county assessor immediately prior to the time of our hearing. The assessor accepted the supplemental schedules, but we declined to cancel the hearing. Evidence introduced at the hearing indicated that the above figures were substantially correct, and since there was no longer any omitted intangible property, no assessment at the tangible rate was made by us. The taxes indicated above are at the rate of four mills plus 50% penalty.

We have requested an official Attorney General's opinion on the specific point of whether the assessor may accept a supplemental schedule after a notice of hearing has been sent to a taxpayer from this office.

Hall County — It has been reported to us that approximately \$6,000.00 in taxes have resulted from our investigations in Hall County, even though no formal hearings have as yet been held in that county.

In addition to the specific cases outlined above, at least two thousand schedules in more than forty counties have been checked. Also somewhere between four hundred and five hundred federal income tax returns have been examined. The foregoing has been done entirely by the special investigator on our staff. Our staff of fieldmen have assisted assessors and county boards in many hundreds of examinations involving both tangible and intangible property.

At the present time we have about one hundred fifty cases pending on which investigations have not yet been completed.

We have been criticized for our so-called selectivity in these matters. I think it is important that it be made clear to all concerned that for the most part our investigations have been made at the request of local officials or on "tips" received from taxpayers. Our limited staff cannot possibly examine and investigate the more than one-half million schedules on file throughout the

state. We have tried to avoid the possibility of holding a public hearing on innocent taxpayers, for this reason — we have been morally certain in every instance that omitted property did exist before attempting to make an assessment. Therefore the possibility exists that we have passed over omitted property simply because proof was not available to us prior to a hearing.

If additional information is required for your purpose, we will be happy to supply it.

Very truly yours,

(Signed) F. A. Herrington

MOTION—Amend Rules

Mr. President: I move that Rule 12, Section 8 be amended by inserting therein a new paragraph to follow subsection "e" thereof and to read as follows:

"f. Motions made pursuant to subsections c, d and e hereof may be adopted only upon the affirmative vote of a majority of the elected members." (Signed) George Syas

Referred to the Rules Committee.

RULES OF PROCEDURE FOR THE RECOUNT OF BALLOTS FOR GOVERNOR CAST AT THE GENERAL ELECTION IN 1958.

I. DESIGNATION OF AUTHORITY

The Nebraska Constitution, Art. IV, Sec. 4, provides that the contested election of a state executive officer shall be determined by Legislature in such manner as may be prescribed by law. Section 32-1003, R. R. S. 1943, provides that the Legislature shall hear and determine cases of contested elections of officers of the executive department. The Legislature duly ap-

pointed a committee of five of its members to supervise the re-counting of the ballots.

II. LEGISLATIVE COMMITTEE AND COUNTING AREA

The committee consists of five legislative members: Chairman, A. A. Fenske, Harold B. Stryker, Oliver Olinger, J. O. Peck, and Richard D. Marvel. An area will be set up in the basement of the Capital building, as close as possible to the place where the ballots have been stored. Such area will be closed off and admittance granted to only those persons hereinafter described. During the counting of ballots, at least one member of the committee will at all times be present in the area, except in an emergency for a short period. All decisions of any nature pertaining to the counting of ballots shall be made by the members of the committee and may not be delegated to any other person or persons. The committee or any member representing its entire membership at any given time shall be in absolute control of the entire counting area. A secretary shall at all times be present with the committee member for the purpose of recording all rulings on ballots.

III. LEGAL COUNSEL

The official legal advisor to the committee shall be the Attorney General of Nebraska or such one of his assistants as he may designate for the purpose. The legal advisor will at all times be present in the counting area for the purpose of consultation with the committee.

IV. RULES OF LAW PERTAINING TO CONSTRUCTION OF BALLOTS

In order to expedite and to make as uniform as possible all decisions of the committee with respect to contested or challenged ballots, the committee will adopt as its decisions the rulings indicated in a document prepared by the Attorney General at the request of the committee, entitled "Memorandum of Rules of Law Applicable to a Counting of Ballots", whenever a particular challenge is based on a situation covered by the memorandum. Before such memorandum is adopted, attorneys for both parties may examine the same and, at a time set for such purpose, may offer any objection to any point of law contained therein or may offer amendments. The committee then will adopt such amendments, if any, it believes appropriate. On points not covered in the memorandum, the committee or any one or more members, with the advice of the legal advisor if desired, shall rule.

V. PERSONS ENTITLED TO ADMISSION TO THE COUNTING AREA AND THEIR DUTIES

1. Members of the legislative committee — Membership and duties prescribed in Paragraph II.

2. Secretary or secretaries — As designated by the committee to record all rulings on challenged ballots.

3. Legal advisor to the committee — Duties described in Paragraph III.

4. Sixty-six judges and clerks — The specific procedure of counting is described in Paragraph VI., *infra*. The sixty-six persons will compose eleven teams of six persons each. Each team shall be constituted of three republican members and three democrat members approved by the respective parties, but recommended on the basis of competence by the Lancaster County Election Commissioner. Up to, but not more than, ten teams will be engaged at all times in counting ballots. The eleventh team will serve as fill-in members if needed, and will otherwise carry ballots or perform such duties as may be directed by the committee or one or more of its members. The members of the spare team shall remain in the area during the same periods as the regular team and shall abide by the same rules. The committee, in its discretion, may rotate the spare team so that a regular team may be relieved.

5. Six supervisors of counting — Three republican and three democrat ex-senators of the Nebraska Legislature shall act as supervisors. Their duties shall be to serve as a general go-between from the counting team to the committee. Such supervisor shall not have power to rule on any challenged ballot, but shall attempt to insure that all procedures operate smoothly at the counting tables. They shall perform such other duties as may from time to time be assigned them by the committee.

6. At least two Nebraska Safety Patrolmen — These men, as designated by the committee, shall be instructed in the general security measures to be taken to protect and preserve the integrity of all ballots, both before and after counting. One of the patrolmen shall accompany every messenger who carries ballots to and from the vault in which they are stored. The patrolmen assigned to such duty shall also be in charge of admission of persons to the area. They shall deny access to any and all unauthorized persons. The patrolmen shall, at the direction of the committee or any member, cause to be removed any person who violates any rule herein adopted, and such person may not be readmitted without approval of the committee. The patrolmen assigned to duty as herein provided shall not be paid other than his usual salary, but the por-

tion of his salary which is attributable to such duty shall be repaid the state out of funds available for the recount. The patrolmen shall perform such other duties as may from time to time be assigned by the committee.

7. Two Representatives of Political Parties — One representative representing each political party shall be authorized to be present at all times during the counting as an observer for his party, provided that such representatives shall not be either candidate for Governor or Mr. Joseph Wishart of Lincoln, Nebraska. It is expressly understood that a condition of their continued presence is that they will remain silent as to all matters pertaining to the counting of ballots. The representatives may not challenge ballots nor may they in any manner argue with any committee member in the counting area, the committee legal advisor, the judges and clerks of the counting board, or the supervisors. The representatives may make notations of any rulings they so desire. They may also, without violation of rules, discuss the matters pertaining to the counting with any member of the committee when such member is not on duty in the counting area.

8. Newsmen or women — Such accredited members of the various news media as wish may have access to the counting area at the hours of 10:30 a.m. and 4:30 p.m. daily, the taking of pictures will be only as permitted by the committee and discussions with persons in the area must not be permitted to create a disturbing influence.

9. Advisor to the committee on counting procedures — At the request of the committee, the election commissioner of Lancaster County has agreed to give any assistance on procedural matters of counting.

10. Such other persons as may be specifically authorized to enter the area by a member of the committee.

VI. COUNTING PROCEDURES

Ten tables, each to be assigned a number, shall be placed in the area, with six chairs to be placed at each table as directed by the committee. The six members of each team, three republicans and three democrats, shall be seated at the table as the committee shall designate. Ballots, poll books and lists of voters shall be brought to one end of the table, to be known as the "receiving end". Receiving members, one from each political party, shall, without opening, count the number of ballots and compare with the total of persons voting as shown by the poll books. See Paragraph IX. as to what to do in the event of an excess of ballots.

See Paragraph X. as to a shortage of ballots. The two members of the receiving team shall then open and examine each ballot to determine that it has been properly signed by two judges of election at the general election. If the ballot reveals a lack of necessary signatures, such ballot shall be placed in a pile at the receiving end of the table for examination by a committee member or members. Such pile shall be known as the "questioned pile". They may also place in the questioned pile any ballot which is obviously mutilated.

If the ballot as received at the first station is proper as to signature and condition, it will then be passed to the next position as designated by the committee where it will be examined for challenge as to marking. The two persons at this station, one democrat and one republican, shall both have the right of challenge of such ballot as to marking or condition and such ballot will be placed in the questioned pile. The supervisors may also direct that a ballot be moved to the questioned pile.

If the ballot is not challenged it shall be read to the members of the tallying team, one republican and one democrat, and shall there be separately tallied in the books to be provided for that purpose by each member of that station. Each ballot shall be tallied by marking a straight line in the square provided. When there are four straight lines in a square the fifth line shall be made at a slant through the four upright lines in the square, and then the process shall begin anew in the next square to the right. The tally clerks, that is, the persons at the third position, shall at intervals of five ballots check with each other to see that totals at all times agree, and as each precinct is completed the total tally for the precinct shall be compared and must agree. The committee shall make such other decisions with respect to procedure of counting as it may from time to time desire.

A. The Questioned Pile

For each precinct in which there are challenged ballots, three envelopes shall be prepared. One shall state, "For Anderson on recount"; One shall state, "For Brooks on recount"; and one shall state, "Rejected on recount". As a precinct is completed, the committee member present shall be called to rule on questioned ballots. As a ruling is made, the tally clerks shall enter a mark for the person in whose favor the ruling is made. If the ruling is that the ballot should be rejected, no marks shall be made. Ballots marked as "rejected" on the original count shall also be opened, passed on by the committee, returned to their original envelope and resealed. After the rulings have been made, the ballots question on the recount shall be placed in the appropriate

envelope as indicated above, sealed, and placed with the ballots which were counted without question. After each precinct is completely tallied, except for absent and disabled voter ballots, the committee shall make such arrangements for the tabulation of the votes by machine or otherwise as it sees fit so that sub-totals of precincts and totals of the county may be shown. The ballots shall then be collected by the person designated by the committee for that purpose, returned to their package, sealed and placed in a secure manner in the vault.

B. Absent and Disabled Voters' Ballots

At the completion of the tally and tabulation of each county, the committee shall cause the absent and disabled voters' ballots from such county to be counted and tabulated. Where it is determined that illegal votes were counted on the original count of absent and disabled voters ballots, on the recount the number of illegal ballots shall be so apportioned that each candidate shall have deducted a share of them proportioned according to the whole number of votes received by him.

VII. WAGES, HOURS & BREAKS

The counting process shall commence at eight o'clock a.m. and continue until five o'clock p.m. with one hour off for lunch. There shall be one break of twenty minutes in both the morning and the afternoon for refreshment and rest. Arrangements shall be made to prepare coffee for the break in the area. Counting will continue on consecutive days, Monday through Friday, or starting at such other day as the committee shall declare, until the recount is concluded.

The members of the counting team shall receive as wages the sum of \$1.50 per hour. The supervisors shall receive as compensation the sum of \$15.00 per day, and if from some place other than Lincoln, shall receive \$5.00 per day as expenses.

VIII. EVIDENCE OF BALLOT TAMPERING

If a committee member, supervisor or other person reports that there is an appearance of tampering having occurred with any group of ballots, the ballots shall be left in their exact status quo and a member of the committee notified immediately. The committee shall make an examination of the group of ballots concerned, cause photographs to be made or follow such other procedure as it deems necessary under the circumstances to present a report on the incident. Three members of the committee shall be deemed sufficient for the purpose of making the exam-

ination if it appears that it is not possible to obtain the presence of the entire committee, provided, that at least one member from each political party on the committee shall be present. The counting of that group of ballots involved in the challenge shall be stopped while the committee makes its report to the Legislature. The counting teams not involved with a count of the ballots concerned shall continue counting the precincts assigned to them. As soon as the Legislature instructs the committee with respect to the challenged ballots, the committee shall give the counting team or teams the appropriate instructions.

IX. WHERE THERE ARE MORE BALLOTS THAN THERE ARE VOTERS SHOWN ON THE POLL BOOKS

Where ballots in excess of the voters shown by the poll books occur during the counting at the election, section 32-481, R. R. S. provides that all ballots shall be returned unopened to the ballot box, the box locked and the ballots therein thoroughly shaken. One of the judges shall then draw out the number of ballots which were shown to be excessive by the poll book. These excess ballots shall be placed, unopened, in a separate envelope, marked "excessive ballots", and sent with other returns to the county clerk or the election commissioner.

Generally, therefore, excessive ballots will have been determined upon the original count and will be included in a separate package with all materials. If it should be determined upon the recount that excessive ballots exist in addition to the ones drawn off at the first counting, the ballots previously counted shall be returned unopened to a container which will hold them and an additional number of ballots shall be withdrawn. These ballots shall be placed unopened in an envelope, marked "additional excessive ballots", and sealed. They shall not be counted, but shall be preserved with the other ballots.

If no excessive ballots were withdrawn at the original count, but appear at the recount, the procedure of section 32-481 should be followed as nearly as possible.

X. WHERE THERE ARE LESS BALLOTS THAN THERE ARE VOTERS SHOWN ON THE POLL BOOKS

In this situation, the circumstances shall be reported to a member of the committee who shall note the county and precinct, the number of ballots which are indicated to be short by the poll books, and report the circumstances to the full committee, who will in turn prepare a report of the incident, describing the county and precinct, for presentation to the entire Legislature.

XI. MUTILATED BALLOTS

There are two problems here. An individual ballot may evidence a mutilation through the action of the voter. In this case there is a question of fact as to whether the ballot shall be counted because of the identification or distinguishing factor. If the mutilation is not great and it does not appear that it was purposely made, the ballot should be counted.

A second problem exists if the condition of a group of ballots indicates that damage occurred in storage of the ballots subsequent to the original count. Examples are water damage, rat damage, careless handling. The same procedure should be followed as indicated in Paragraph VIII., supra, with respect to investigating and reporting. If the ballots are ordered counted by the Legislature they should be counted insofar as the actual marking can be determined. In counting these ballots, the committee member should make a separate tally of the total number of damaged ballots, the nature of the damage, the number of ballots counted for each candidate, the number of ballots rejected as not readable or not countable. This information should be preserved as a part of the record of the recount.

MESSAGE FROM THE GOVERNOR

February 20, 1959

Mr. Speaker, Mr. President and
Members of the Legislature:

My attention has been directed to the proposal of the Legislature to recount the votes cast for the office of Governor at the general election held on November 4, 1958. In order that there may be no mistake as to my position, and in order that certain statements of principle made by my counsel be of record and be known to your entire body, I do submit the following:

1. You have been advised by the Attorney General of the State of Nebraska that proceeding in the determination of the election contest is in the exercise of quasi judicial powers. I must emphasize, however, that the rules for procedure which your honorable body has adopted have not provided the elements essential to a quasi judicial function. The resolution of an election contest involving, as it does, some 430,000 ballots cast in the State of Nebraska, requires patient investigating of the evidence, which is wholly irreconcilable with the theory that such a contest can be completed and all determinations made within a matter of several weeks. I must point out that legal and moral considerations of fairness and propriety would require that in the proceedings had incident to the determination of this election contest, including the recount, the responsible parties, as well as their attorneys, should be permitted to participate. The proposed rules for recount as adopted by your honorable body would place in the hands of employees of the Recount Committee the exclusive right and privilege for the making of challenges to ballots, and the presenting of all questions relating to the validity of ballots. Plainly, such a provision taking away from the parties their fundamental right to question ballots and procedures is a derogation of the Constitution and of fair play.

2. I must observe that before any recount could be of value that it must be demonstrated that the ballots which are sought to be counted are the identical ballots which were cast at the election. Any doubt of any nature upon this point makes of the recount a wholly frivolous procedure. I am not advised that your honorable body has ever undertaken to investigate fully the condition of the ballots and of their containers, or has ever arrived at a conclusion that the ballots are a fair, proper and accurate representation of the vote that was cast. Parenthetically, I would ob-

serve that to arrive at any such conclusion would not only necessitate an examination of containers and their condition, but also an audit of the unused and excess ballots. I do not find in your proposed rules that any such inquiry or investigation is to be made.

3. I desire to further direct your attention to the memoranda of rules of law applicable to the counting of the ballots, which are referred to in the proposed rules of procedure. I am advised by my attorney that he has specifically directed the attention of the Recount Committee to the subject matter under Paragraph III of said memoranda of rules, and has stated that all absentee ballots, that is, mail ballots and ballots cast by the voter previous to the election date, are subject to the same general rule and principle of strict construction. My attorney, Mr. Joseph Ginsburg, of Lincoln, Nebraska, advises that on February 18, 1959, Mr. Richard Williams, Assistant Attorney General of the State of Nebraska, who has been counseling the Recount Committee, stated to him that my attorney's contention in this respect was entirely correct, but that no correction would be made on the memoranda of rules of law applicable. I feel it desirable that this agreement as to statement of legal principles which are applicable be made definitely a part of the record pertaining to these proceedings.

4. It is further my position that your honorable body is proceeding to determine this election contest in a legislative void, and not in conformance with the Constitutional mandate which requires the resolution of such a contest in the manner as prescribed by law. I question most seriously whether your honorable body may proceed under this Constitutional provision without the adoption of statutory provisions. I cannot regard the adoption of rules by the Legislature which have application to one particular election contest to be in conformance with the Constitutional mandate.

5. I must note and observe that your honorable body is not in fact engaged in your Constitutional authority to resolve an election contest in accordance with law, but is actually proceeding to make a recount of the votes had and cast for the office of Governor on the general election held on November 4, 1958. It seems to me axiomatic that there is a fundamental distinction between an election contest and a recount, and that your honorable body is not in conformance with your Constitutional authority in proceeding with this matter purely as an election recount.

6. I must further observe that the rules of procedure adopted by your body on February 18, 1959 place in the hands of one member of the Recount Committee, who may happen to be present at the moment, the important power of making decisions that may be

made with reference to the validity of particular ballots, or any other issues. This I regard as in derogation of the responsibility of your body. I must observe that the Legislature, on February 3, 1959 authorized and appointed a committee of five Senators, who shall conduct the recount, and at the conclusion thereof to file a report to the Legislature. Apparently, such an authority as has been assumed by your body, to-wit: The making of a recount, has now been delegated to a five-man committee. In turn, the five-man committee has delegated its responsibility to any particular member who happens to be present at a particular time. These provisions would appear to be irreconcilable with legal requirements, as well as elemental notions, of justice and fair play.

In summary, therefore, I observe to your body that in the absence of a factual determination made upon proper investigation and inquiry, that the ballots to be recounted are in the same condition as when originally cast, and are a fair, accurate and honest representation of the expression of the voters made on November 4, 1958, any recount would be fruitless and useless, and of no purpose. Neither I, as an interested party, nor the electorate of the State of Nebraska, could attach any significance to the result of a recount which is not preceded by a full and fair and honest determination of this preliminary inquiry. As I have also observed more specifically, I cannot feel that in the authority which your body proposes to exercise in this matter that fair, proper or reasonable provisions have been made for the protection of the rights of the parties. A decent respect for the efforts of the thousands of election officials who served as election workers in the general election of November 4, 1958, and a regard for the presumption of regularity that attends the performance by them of their count, and of the official canvass and abstract of official votes, would seem to require some showing of manifest error or misconduct before going behind these official returns. I feel that the Legislature of the State of Nebraska is, therefore, lending itself to an undertaking to find evidence to substantiate claims of irregularity and misconduct, evidenced only by an unsworn general and sweeping notice of contest filed in the hope that a recount might find the evidence which the contestant concedes is unknown and unavailable.

Respectfully submitted,

Honorable Frank J. Brady, State Tax Commissioner.

You enclose copy of letter from the county attorney of Red Willow County, which is as follows:

"A certain liquor dealer in McCook has asked whether the amount of Federal tax paid upon a quantity of liquor may be taken into consideration at the time his invoice is given to the county assessor of this county."

"For example: A case of liquor is purchased for the sum of \$20.00. Upon that case of liquor a Federal tax of \$12.00 is paid. For the purpose of county assessment, must the case of liquor be turned in at \$20.00 or at its actual value, less the amount of Federal taxes?"

In our opinion the retailer owning the liquor should be taxed on the basis of what it cost him to buy the same from the wholesaler. It would make no difference if the wholesaler's price to him included federal taxes paid on the liquor, nor would the retailer be permitted to deduct, from the amount which he paid the manufacturer, any federal taxes which he himself might be required to pay.

Stated differently: (a) Any federal or state tax paid by the wholesaler or distributor and included in the purchase price of the liquor, must be considered as having been absorbed into that purchase price and cannot be deducted; (b) If there are any federal taxes assessed against the retailer, these cannot be deducted from the value of the property for the purpose of arriving at its value for personal property assessment; (c) The retailer should be assessed on the basis of the price that he paid the wholesaler or distributor for the liquor.

ASSESSMENTS

Determining Value for Assessment Purposes of a Retail Stock of Liquor

Mr. W. O. Baldwin, County Attorney, Hebron:

You request our opinion as to the manner of determining the value for assessment purposes of a retail stock of liquor.

Sec. 77-201, R. S. 1943, provides:

“All property in this state, not expressly exempt therefrom, shall be subject to taxation, and shall be valued and assessed at its actual value.”

It was held in the case of *Wilson & Co., Inc. v. Otoe County*, 140 Neb. 518, 300 N. W. 415, that the valuation of a product for tax purposes should be the value of the product in the market in the ordinary course of trade.

It has been contended that, in determining the value of liquor for taxation purposes, the federal and state excise taxes should be deducted from the market value. This office has ruled against that contention. It is our position that the excise taxes paid by the manufacturers or producers of liquor are an element of the cost of the product and necessarily enhance its market value, and there is no more reason for deducting this element of the cost from the value than there is for deducting the cost of the labor, transportation, or any other element of the cost which goes into the final market value of the product. See *Reports of the Attorney General of Nebraska, 1939-1942*, p. 54; *1947-1948*, p. 485. The value of almost every product on the market includes taxes of one kind or another, yet such taxes are not deductible in assessing the value of the product for tax purposes. No reason occurs to us for making an exception in the case of alcoholic liquors.

TAX ON INTOXICATING LIQUORS

Legal Method To Assess Value After Payment Of The Various Revenue Taxes

Mr. Robert Armstrong, State Tax Commissioner, State House:

By a copy of a letter dated February 9 addressed to you from S. L. Marks, Deputy County Attorney of Douglas County, we have been asked for an opinion as to whether the federal tax and the Nebraska state tax upon intoxicating liquors should be deducted in reaching the value of such liquor for assessment purposes. In an opinion dated April 8, 1942, this question was answered in the negative as to liquor in retailers stocks. Page 54, 1939-1942, *Report of Attorney General, Nebraska*.

The pertinent statute of Nebraska is Section 77-201, R. S. 1943 which provides as follows:

“All property in this state, not expressly exempt therefrom, shall be subject to taxation, and shall be valued and assessed at its actual value.”

That the valuation for tax purposes should be the value of the product in the market in the ordinary course of trade is the general rule for assessment in the State of Nebraska. See *Wilson & Co. Inc. v. Otoe County*, 149 Neb. 518, 300 N. W. 415.

State and federal taxes upon intoxicating liquors are paid under present federal laws and under state law and the regulations of the State Liquor Commission by the manufacturer at the place of manufacture and prior to shipment to distributors in Nebraska. In the case of imported liquor, the tax is paid and stamps evidencing its payment are affixed prior to shipment into the State of Nebraska. The liquor in the hands of wholesalers or retailers is a product, the value of which has already been augmented by the payment of the tax thereon. In the 1942 case of *Consolidated Distributors v. City of Atlanta*, 20 S. E. (2d) 421 (Ga.), (certiorari denied in the United States Supreme Court at 317 U. S. 662) the identical question was presented and the Supreme Court of Georgia held in what we consider to be a well-reasoned case that the *ad valorem* tax upon liquor was properly assessed upon a valuation which included the payment of other taxes already levied on that particular product. The court said of such taxes:

“* * * Such taxes, even though they may in effect have been ‘passed on’ ultimately to the purchaser by an increase in the purchase-price covering the amount of tax, were an element of cost, first to the dealer and then to the purchaser, by this increased amount which each was required to pay. In determining the cost to the dealer, it is immaterial whether he or the manufacturer paid the stamp tax under the arrangement between them, since in either event the amount paid became part of the actual cost to the dealer. Since the City of Atlanta was authorized under its charter to levy and collect ‘an ad valorem tax on all * * * personal property’ (Ga. L. 1874, p. 122, s. 25), which amount would ordinarily be based on the true market value in the usual course of trade (Code, s 92-4101; 26 R. C. L., s 323), and since in ascertaining such value every fact and circumstance bearing thereon should be considered (State ex rel. Attorney General v. Halliday, 61 Ohio St. 352, 56 N. E. 118, 49 L. R. A. 427),

and since liquors on sale without payment of the tax required to make a sale lawful would be illegal and valueless in the ordinary course of trade, but their value would be augmented to the extent of such a paid tax, the City in this case was authorized to require that such taxes, increasing to that extent the cost to the dealer, should be included as an element in assessing the value of the liquor. * * *"

There is a paucity of comparable authority in the cases which we have been able to find. The case of Gruen Watch Co. v. Evatt (Ohio, 1944) 55 N. E. (2d) 794, held that the payment of customs duties upon imported watch parts could not be claimed as an item reducing the value of such parts when assessed for payment of ad valorem taxes. The Ohio court, citing Lash v. United States, 276 U. S. 175, held that the value of the parts as enhanced by the payment of customs duty was the proper value for the assessor to consider. Further, in the case of State v. Minnesota Tax Commission, 227 N. W. 43, an automobile dealer (under only slightly comparable statutes) was denied any reduction in the assessed value of automobiles, in his stock by reason of payment of other automobile taxes thereon. It is our opinion that the assessors in this state should assess the liquor found in the stocks of wholesalers and retailers at its present value in the market in the ordinary course of trade and that such value shall be arrived at by considering the value of the liquor together with the tax already paid thereupon.

The Nebraska Wholesale Liquor Distributors Association has forwarded to this office a brief setting forth many interesting facts regarding the liquor tax situation and industry. In that brief it is argued:

1. That assessment of liquor at full value will result in a confiscatory tax, and
2. That such assessment results in double taxation being an ad valorem tax on already paid federal and state taxes.

In connection with the first contention, the figures submitted indicate that the liquor business has and will continue to suffer from the added imposition of taxes. We are unable to say whether the state's greater interest lies in the collection of taxes in increased amounts upon liquor or in the reduction of consumption of liquor within the state, with less revenue. That is purely a matter of legislative policy. We do not think it material to the question presented whether the liquor dealers can make adequate profits *at present retail prices*. If the assessment of liquor in the manner that it has always been assessed hitherto results in an

unsatisfactory margin of profits at present prices, we know of no reason that prices may not be increased to cover the cost of operation and to afford a fair margin of profit. We feel that the figures and facts shown in the wholesaling and retailing of liquor indicate that in each case the dealers take their reasonable mark-up and percentage profits upon the basis of an article worth the amount paid for it which amount includes the payment of all the taxes theretofore assessed. We do not feel that the assessment of property upon such basis is in any way confiscatory.

As to the second point contained in the industry's brief, there is a citation of the case *F. Strauss & Sons, Inc. v. Coverdale*, Assessor, 205 La. 903, 18 So. (2d) 496 (1944). This case holds that the amount representing the cost of federal and state revenue tax shall not be considered in assessing liquor in Louisiana. Of this case we may only say that we do not agree with the reasoning of the court nor with the result therein obtained. This case was decided subsequent to the opinion of this office mentioned above. It conflicts with and cites the *Consolidated Distributors v. Atlanta* case quoted from in this opinion. The Louisiana court does not in our opinion successfully attack the reasoning in the Georgia case and merely states that it is unable to agree with the Georgia court. One judge in the Louisiana case dissented from the ruling as it related to the federal tax. Because the matter represented a ruling of the state court upon the assessment of a state tax, we assume that no review could have been obtained in the Supreme Court of the United States and that none was sought or had.

It is common knowledge that a portion of the cost of every article sold is representative of some taxes paid by the persons producing the raw material processing or manufacturing the article itself and then importing, distributing, or merchandising it in the various stages of commerce. That assessment for general ad valorem tax should follow the product both to its source and deduction be allowed for all taxes would seem absurd under a statute which provides for assessment at the actual value.

We feel that the statement of the law as made in the Georgia case is that which should be applied to the proposition in our state. You will therefore be advised that the assessment should be made upon the value of the liquor in the ordinary course of trade and that such values should contemplate the fact that the value is clearly enhanced by the prior payment of the various revenue taxes levied upon the manufacture, importation, or distribution of alcoholic liquors.

16-114. No owner of real estate *located* within the corporate limits of such a city of the first class or within three miles of the corporate limits of any city of the first class when such real estate is located in the same county as such city and outside of any organized city or village shall be permitted to subdivide, plat, or layout said real estate into blocks and lots, or parcels, without having first obtained from the city engineer a plat or plan for the avenues, streets, and alleys to be laid out within or across the same; and such plat or plan of the avenues, streets, and alleys shall be made so that such avenues, streets and alleys, so far as practicable, shall correspond in width, name, and direction and be continuous of the avenues, streets, and alleys in the city contiguous or near the real estate to be subdivided as aforesaid. The mayor and council shall have power to compel the owner of such

real estate, in subdividing the same, to lay out and dedicate to the public the avenues, streets, and alleys to be within or across such real estate in accordance with said plat or plan, and shall further have the power to prohibit the selling or offering for sale any lot or parts of such real estate not subdivided and platted as herein required. Such a city shall have authority within the area above described to regulate the subdivision of land for the purpose, whether immediate or future, of transfer of ownership or building development, except that the city shall have no power to regulate subdivision in those instances where the smallest parcel created is more than five acres in area; to prescribe standards for laying out subdivisions in harmony with the comprehensive plan; to require the installation of improvements; to require a good and sufficient bond guaranteeing installation of such improvements; and to require the dedication of land for public purposes.

Subdivision shall mean the division of a lot, tract, or parcel of land into two or more lots, sites, or other divisions of land for the purpose, whether immediate or future, of ownership or building development, except that the division of land shall not be considered to be subdivision when the smallest parcel created is more than five acres in area.

Subdivision plats shall be approved by the city planning commission on recommendation by the planning director and public works and utilities department and shall be submitted to the council for its consideration and legislative action. The council may withhold approval of a plat until the public works and utilities department has certified that the improvements required by the regulations have been satisfactorily installed or until a sufficient bond guaranteeing installation of the improvements has been posted with the city. Any and all additions to be made to the city shall be made, so far as the same relate to the avenues, streets and alleys therein, under and in accordance with the provisions of sections 16-112 to 16-114.

Sec. 5. Every city of the first class shall have power in the area which is within the city or within three miles of the corporate limits of the city and outside of any organized city or village to regulate and restrict the location, height, bulk and size of buildings and other structures; the percentage of a lot that may be occupied; the size of yards, courts and other open spaces; the density of population; and the locations, and uses of buildings, structures, and land for trade, industry, business, residence, and other purposes. Such city shall have power in this area to divide the area zoned into districts of such number, shape, and area as may be best suited to carry out the purposes of this section, and to regulate, restrict, or prohibit the erection, construction, recon-

struction, alteration or use of buildings, structures, or land within the total area zoned or within districts; Provided, that all such regulations shall be uniform for each class or kind of buildings throughout each district, even though regulations for one district may differ from those applicable to other districts. Such zoning regulations shall be designed to secure safety from fire, flood and other dangers and to promote the public health, safety and general welfare, and shall be made with consideration having been given to the character of the various parts of the area zoned and their peculiar suitability for particular uses and types of development, and with a view to conserving property values and encouraging the most appropriate use of land throughout the area zoned. Such zoning regulations may include reasonable provisions regarding nonconforming uses and their gradual elimination.

53-132. (1) All original and renewal applications for license to sell alcoholic liquors, including beer regardless of alcoholic content, at retail by the drink within the corporate limits of cities or villages, shall be filed in each instance with the municipal clerk of the local governing body, at least fifteen days before the hearing thereon is had. The bond properly executed, required by section 53-138.02, shall accompany the application, together with the license fee and cash deposit for defraying the cost of publication of notice for hearing thereon as provided in subsection (2) of this section. *The license fee and cash deposit for defraying cost of publication of notice for hearing thereon, as provided in subsection (2) of this section, shall accompany the application.*

(2) At the next regular or special meeting of the local governing body of a city or village, referred to in subsection (1) of this section, after the filing of such an application, the local governing body shall fix a time and place at which a hearing will be had upon such application and at which such local governing body shall receive competent evidence under oath, either orally or by affidavit from any person bearing upon the propriety of the issuance of such license. Notice of the time and place of hearing on the application before the local governing body shall be published at the expense of the applicant in a legal newspaper in or of general circulation in such city or village one time not less than three days nor more than seven days before the time of the hearing.

(3) The notice of the filing of the application, in addition to the precise time and place of hearing, referred to in subsection (2) of this section, shall include the name and address of the

applicant, the general character of the license applied for, and the legal description of the premises sought to be licensed. If, after such hearing, a majority of the members-elect of the local governing body shall favor the issuance of such retailer's license to the applicant, they shall by motion direct the mayor or chairman of the board of trustees, as the case may be, to endorse his written approval on the bond and they shall cause a resolution favoring the issuance of such license to be spread at large in the minutes of their proceedings.

(4) The municipal clerk shall make up and prepare in triplicate original that part of the standard form of a license, as is prescribed by the commission, as provided in subsection (3) of this section, to be executed on behalf of the local governing body, to be signed by the mayor or chairman of the board of trustees, as the case may be, whose signature shall be attested thereon by the signature of the municipal clerk over the seal of the city or village. Forthwith thereafter, the municipal clerk shall forward, by either registered or certified mail, the license issued in triplicate original to the commission, together with the state registration fee in the sum of two dollars.

(5) The commission shall cause the license to be countersigned by its chairman, attested by its secretary over the seal of the commission, as a matter of course if *the commission has received from the applicant a bond, as described in section 53-138.02, effective for the term of the license*, unless within three days after the receipt of such license executed by the local governing body, as provided in subsection (4) of this section, objections in writing by not less than three persons residing within said city or village or also by any one of the duly appointed inspectors of the Nebraska Liquor Control Commission shall be lodged with the secretary of the commission protesting the issuance, the countersigning and completing the issuance of such license, in which event the commission shall proceed, as in the case of an appeal from any other final order of the local governing body, as provided in section 53-1,115. Such objections shall be filed in duplicate signed by the objectors and shall state with particularity the grounds thereof. If the commission is satisfied that the objections state sufficient facts to substantiate said objections, it shall set the matter for hearing within twenty days from the date of the filing of said objections and shall serve notice upon the applicant of the time and place of such hearing, and shall furnish to said applicant a copy of said objections. At the time of filing such objections, by residents of said city or village, there shall also be filed by such persons objecting, a sufficient security for costs which the commission shall deem adequate to cover all costs liable to accrue,

including reporting the testimony and making up complete transcripts thereof, and extending the reporter's original notes in type-writing, and such costs may be taxed to such persons objecting if the commission shall decide that there was not reasonable ground for the filing of such objection. If no protest in writing be lodged with the secretary, as provided in this subsection, the commission shall retain the second duplicate original for the permanent records of the commission, and return by registered or certified mail not later than the fourth day after their receipt, the original and the first duplicate of such license, properly executed, to the municipal clerk who forwarded them; and the municipal clerk shall forthwith deliver the original license to the applicant and retain the first duplicate original thereof for the files of the local governing body.

UNANIMOUS CONSENT—Read and Print Opinion

Mr. Carpenter requested unanimous consent to have an Attorney General's opinion read and printed in the Journal. No objections. So ordered.

The Clerk read the following opinion:

November 13, 1958

SUBJECT: Taxation—Taxation of amounts due from the State on construction projects on building materials used in such projects.

REQUESTED BY: Jack W. Rodgers, Director of Research, Capitol Building, Lincoln, Nebraska.

OPINION BY: Clarence S. Beck, Attorney General,
H. G. Hamilton, Assistant Attorney General.

QUESTION: 1. Should accounts receivable due from the Department of Roads of the State of Nebraska be listed on business intangible tax returns by contractors?

CONCLUSION: 1. Yes.

QUESTION: 2. Should materials be listed for tax purposes which have been delivered to the construction site but which have not been incorporated into the project?

CONCLUSION: 2. Yes.

QUESTION: 3. What is the situation with regard to such materials which have been incorporated into the project?

CONCLUSION: 3. They should be assessed to the contractor.

QUESTION: 4. Would the result be different if the Department of Roads has made partial payments on the contracts in accordance with their standard specifications?

CONCLUSION: 4. No.

ANALYSIS

Every person in this state is required to list for purposes of taxation all his credits and other forms of personal property either owned or held by him on assessment date. Section 77-1201, R. S. Supp. 1957. Accounts receivable from the state should be classified as intangible property. Section 77-701. Our court has clearly determined that all intangibles, not specifically exempt, in this state must be returned, assessed, and taxed in Nebraska. *International Harvester Co. v. Douglas County*, 146 Neb. 555. The fact that the funds are owed by the state to the contractor does not change the fact that actual ownership of the credits or book accounts is in the contractor. We are not aware of any rule of law which would make such intangibles immune from taxation.

Your second question is answered by the cases of *Dunnegan v. Jensen*, 112 Neb. 266 and *Chapin-Colglazier Construction Co. v. Hamilton Co.*, 112 Neb. 269. The first case involved the ownership of unlaidd sewer pipe to be installed in a city sanitary sewer system, and which had been placed on the streets for the purpose of being laid. The second case involved paving materials delivered to the site of a paving contract, but had not yet become a part of the completed project. In both cases the Court held that the contractor still owned, on assessment date, the materials and that they were properly taxable to them.

Your third question relates to such materials which have become incorporated in the project. Although this situation was not involved in the two cases previously mentioned the Court strongly indicated that title remains in the contractor until the work is completed. In the latter case the court stated:

“* * *. For the mutual convenience of the parties, loose paving materials were inspected and approved by the city before becoming parts of the completed whole. While carloads of bricks used for paving had been consigned to the city of Aurora in care of plaintiff, they were owned by the latter until the title thereto changed upon completion of the pavement. * * *.”

The Nebraska State Highway Department Standard Specifications, in Article 8.10, provide that when all the work is completed and final inspection is made and the work accepted by the engineer, the contractor will be released from further obligation, except as set forth in his bond. It is further provided that the contract is complete when all work has been accepted by the engineer and the final estimate has been made. The Department does not have possession of nor does it exercise any control over a project, or the materials used, other than for inspection purposes until the construction is completed and the work accepted. The specifications are not definite as to when title passes, but if the title to the materials does not change until the contract is completed and accepted, as indicated by the above authorities, it necessarily follows that until these things occur the material used are still owned by the contractor and are taxable to him.

In answer to your fourth question, your attention is directed to Article 9.07 of the Standard Specifications of the Department of Roads. This section provides generally for partial payments on construction contracts according to estimates of the work accomplished, and for structural steel when delivered to or near the site of the work. However, there is no indication of intention that title passes to the state when these partial payments are made,

and this provision must be read in connection with Article 8.10, previously mentioned, where it is agreed that the contract is not completed until all the work has been accepted and final estimate made. In fact, we are informed by officials of the Department of Roads that these partial payments are made only for convenience of the contractors in their financing arrangements with the supplier of the materials used. Ordinarily partial payments on a contract do not affect the intention of the parties as to when title to goods shall pass. An example of this rule is found in *Grand Rapids Bank & Lumber Co. v. Inland Tp. 98 N. W. 980* (Mich.). There the plaintiff had contracted with a mill owner for finished lumber to be loaded on cars. The contract provided that partial payment should be made when the logs to be milled were delivered and piled at the mill. The Court held that the mill owner was liable for the payment of taxes on the finished lumber until it was actually loaded on cars and accepted by the plaintiff in accordance with the contract. We must conclude that partial payment by the state to the contractor was not intended to and could not legally transfer title to the materials used or on hand to the state and that they should be assessed to the contractor.

Very truly yours,

CLARENCE S. BECK

MOTION—Introduce Bill

Mr. President: I move that the Committee on Government be permitted to introduce a new bill to correct sections 1 and 3 of LB 119, which finally enacted did not include the emergency service activities as intended by the Legislature. This bill makes technical amendments to clarify sections 1 and 3 of LB 119. (Signed) Dwain Williams, Chairman

STATEMENT—Introduce Bill

LB 119 enacted by the Legislature provides that a municipality may furnish fire protection and emergency service outside its corporate limits. LB 122, a companion bill, provides governmental immunity from suit for acts outside the city limits in providing fire, police or emergency service.

By inadvertence, the language of Sections 1 and 3 of LB 119 as finally enacted did not include emergency service activities as intended by the Legislature. This bill makes technical amendments to clarify Sections 1 and 3 of LB 119 to include all phases of fire, police, or emergency service, and conforms LB 119 with LB 122.

Permission to introduce the bill granted with 38 ayes, 0 nays, and 5 not voting.

MOTION—Introduce Bill

Mr. President: I move that the Committee on Judiciary be permitted to introduce a bill, the purpose of which is set forth in the statement submitted herewith. (Signed) Ray C. Simmons, Chairman

STATEMENT—Introduce Bill

June 6, 1952, a letter of opinion was given to Paul T. Gilbert of the Game, Forestation and Parks Commission, in response to the question of whether or not a license is necessary for an individual to fish in his privately-owned pond which has been privately stocked. The attorney general indicated in his opinion none was necessary. This issue was tested in County Court of Merrick County in 1957 and the Judge in like manner ruled no license was necessary for the owner or his invitee. The attorney general's office reaffirms his previous stand and feels that privately-owned ponds, privately stocked, are outside of the jurisdiction of our Game, Forestation and Parks Commission.

This bill merely clears the ambiguity of the present statutes and would clarify in line with the opinion of the attorney general and the court finding.

(Signed) Ray C. Simmons, Chairman

Permission to introduce the bill granted with 35 ayes, 0 nays, and 8 not voting.

MOTION—Introduce Bill

Mr. President: I move that the Committee on Judiciary be permitted to introduce a bill, the purpose of which is set forth in the statement submitted herewith. (Signed) Ray C. Simmons, Chairman

STATEMENT—Introduce Bill

Present statutes provide that the county judge in any county having a population of more than 16,000 is barred from private law practice in all of the courts of the state. This provision has, of course, worked very well and is desirable.

However, it often becomes necessary because of the sickness or absence of the county judge or because the latter may be interested in a specific case that another attorney serve as acting county judge. This raises the problem as to whether a lawyer by becoming acting county judge, even though he may only do such in one case, is thereby barred under the statutes from private law practice. Needless to say, no lawyer would be willing to serve as acting county judge if he is carrying on a private law practice and his service as acting county judge would bar him from continuing to practice law in any of our courts.

There has been considerable concern about this by our county judges. The matter was taken up some months ago with the attorney general but because of uncertainty as to the requirements of the law, the county judges and the attorney general believe that this matter should be clarified by statute. The bill merely provides that restrictions against the private practice of law shall not apply to an acting county judge.

(Signed) Ray C. Simmons, Chairman

Permission to introduce the bill granted with 31 ayes, 0 nays, and 12 not voting.

MOTION—Introduce Bill

Mr. President: I move that the Committee on Judiciary be permitted to introduce a bill, the purpose of which is set forth in the statement submitted herewith. (Signed) Ray C. Simmons, Chairman

STATEMENT—Introduce Bill

The 1957 legislature enacted bills requiring that personal notice be given to certain persons who might be interested in litigation, where previously mere newspaper notice has been sufficient. This was done so that Nebraska statutes would be in compliance with U. S. Supreme Court decisions which hold that mere newspaper notice to parties is insufficient where personal notice can be given.

The bills enacted by the 1957 session received considerable study before their enactment and have worked very satisfactorily. However, some lawyers believe that one of the statutes enacted should be clarified to make it clear that it is not necessary to serve a notice upon certain parties where the latter have waived the notice in writing, entered a voluntary appearance or been personally served. This bill makes this clarification. The bill has been carefully checked by some members of the Judicial Council and by attorneys, who agree that it is desirable legislation.

(Signed) Ray C. Simmons, Chairman

Permission to introduce the bill granted with 31 ayes, 0 nays, and 12 not voting.

"Section 1. That section 60-407, Revised Statutes Supplement, 1957, as amended by section 3, Legislative Bill 215, Sixty-ninth Session, Nebraska State Legislature, 1959, be amended to read as follows:

60-407. (1) No license to operate a motor vehicle shall be granted to any applicant, who shall or shall not have possessed an operator's license prior to September 1, 1945, until such applicant satisfies the examiner that he possesses, with or without the aid of spectacles, sufficient powers of eyesight to enable him to operate a motor vehicle on the highways of this state, with a reasonable degree of safety. If, from the examination given any applicant, it appears that the applicant's powers of eyesight are such that he cannot operate a motor vehicle on the highways of this state with a reasonable degree of safety, the examiner shall require the applicant to present a doctor's or optometrist's certificate to the effect that the applicant has sufficient powers of eyesight for such purpose before issuing a license to such applicant. If the application to operate a motor vehicle required by this act discloses that the applicant for such license suffers from any other physical defect or defects of a character which may affect the safety of operation by such applicant of a motor vehicle, the examiner shall require such applicant to show cause why such license should be granted, and shall require such applicant, through such personal examination and demonstration as may be prescribed by the director, to show the necessary ability to safely operate a motor vehicle on the public highways. If the examiner is satisfied, after such demonstration, that such applicant has the ability to safely operate such motor vehicle, an operator's license may be issued to the applicant subject, at the discretion of the director, to a limitation

to operate only such motor vehicles as the license shall designate. The director may, at the request of a law enforcement officer, or when he has reason to believe that such person may be physically or mentally incompetent to operate a motor vehicle or whose driving record appears to the department to justify such examination, give notice to the holder of an operator's license to appear before an examiner for examination to operate a motor vehicle safely. A refusal to appear before an examiner for such examination shall be unlawful. If such license holder cannot qualify at such examination, his operator's license shall be immediately surrendered to such examiner and forwarded to the director who shall cancel his license and privilege to operate a motor vehicle; *Provided*, that a refusal to appear before an examiner for examination after notice to do so or to surrender an operator's license on demand, shall be unlawful and any person failing to surrender his operator's license as required by the provisions of this section shall, upon conviction thereof, be fined in a sum not to exceed five hundred dollars, or imprisoned in the county jail not to exceed thirty days, or both such a fine and imprisonment. No operator's license referred to in this subsection of this section shall, under any circumstances, be issued to any person who has not attained the age of twenty years.

(2) Minors sixteen years of age and over and who have not reached their twentieth birthday shall be issued a probationary license, as referred to in subsection (4) of this section. Each such license shall expire on September 1 of each year and be renewable on that date and shall become delinquent sixty days thereafter.

(3) Minors who have not attained the age set forth in subsection (1) of this section but are over the age of fourteen years, except within metropolitan, primary, and first-class cities, may be issued, by the county treasurer, a limited permit, as referred to in subsection (4) of this section, to drive a motor vehicle to and from the school building where he attends school, by the nearest highway or street from his place of residence, if such child lives a distance of one and one half miles or more from such school. Such limited permit shall be used for the sole purpose of transporting such minor to attend school; *Provided*, such a permit shall not be issued until such minor has appeared before an examiner to demonstrate that he is capable of successfully operating a motor vehicle and has in his possession an examiner's certificate authorizing the county treasurer to issue a school permit. *Any such minor desiring such limited permit may first obtain a learner's permit from an examiner, which permit shall be valid for a period of two months. While holding such a permit, the minor may operate a motor vehicle on the highways of this state if he has*

seated next to him and supervising his operation of the vehicle a person who is a licensed operator and who is also either a parent or guardian of the minor or a person over the age of twenty-one years who is authorized in writing by the minor's parent or guardian to supervise the actions of the minor in operating the vehicle. Prior to issuance of such learner's permit it shall not be required that such minor demonstrate that he is capable of successfully operating a motor vehicle.

(4) Each individual, under the age of twenty-one years, who is making an application for his first operator's or probationary license or a limited or learner's permit, must furnish proof of age, either by birth certificate or written information signed by one of his parents or his guardian, to show that such applicant has attained the age, respectively, as required by subsection (1), (2), or (3) of this section. All probationary licenses and limited permits issued, as provided by subsection (2) or (3) of this section, respectively, shall be subject to revocation under the terms of section 60-427, and any minor who shall violate the terms of such probationary license or limited permit shall be deemed guilty of a misdemeanor and, upon conviction thereof, shall be punished as provided in section 39-7,127.

(5) Any person who shall have attained the age of fifteen and one half years or more may obtain a learner's permit, referred to in subsection (4) of this section, from an examiner which shall be valid for a period of six months and he may operate a motor vehicle on the highways of this state if he is accompanied at all times by a licensed operator who is at least twenty-one years of age and who is actually occupying the seat beside the driver. Any person who shall have attained the age of fifteen years may operate a motor vehicle over the highways of the state if he is accompanied at all times by a licensed operator who shall be a high school driver training instructor certified by the Commissioner of Education.

UNANIMOUS CONSENT—Read and Print Letter

Mr. Carpenter requested unanimous consent to have a letter requesting an Attorney General's opinion read by the Clerk, and that it be printed in the Legislative Journal. No objections. So ordered.

The Clerk read the following letter:

March 16, 1959

Mr. Clarence E. Beck
Attorney General
State House
Lincoln, Nebraska

Dear Mr. Beck:

Section 7 of Article III, Constitution of Nebraska, provides that the aggregate salaries of all the members of the legislature "shall be \$37,500 per annum, divided equally among the members and payable in such manner and at such times as shall be provided by law." The section then contains the following language:

"In addition to his salary, each member shall receive an amount equal to his actual expenses in traveling by the most usual route once to and returning from each regular or special session. Members of the legislature shall receive no pay nor perquisites other than said salary and expenses."

I will appreciate your answers to the following three questions:

(1) Section 81-822 RRS 1943 provides that members of the Nebraska Commission on Intergovernmental Cooperation, at least six of whom are members of the legislature, "shall serve without compensation, but they shall be paid their necessary expenses in carrying out their obligations under sections 81-816 to 81-824." It has been customary for the legislature to appropriate money for such expenses and they have been paid. The expenses so paid have included traveling expenses. Are such payments in violation of the constitutional provision that a legislator shall receive no pay nor perquisites other than his salary and expense for one trip to and from each session.

(2) Section 50-415 RRS 1943 provides that members of the Legislative Council, all of whom are legislators, "shall be compensated for actual expenses incurred while attending sessions of the council and the members of any committee of the council

shall be compensated for actual expenses incurred while on business of the committee." Funds have been appropriated for such expenses in the past and they have been paid. Are such payments in violation of the constitutional provision that a legislator shall receive no pay nor perquisites other than his salary and expense for one trip to and from each session?

(3) If payment of expenses to legislative members of the Commission on Intergovernmental Cooperation and to members of the Legislative Council are not prohibited by Section 7 of Article III of the Constitution, then would not a simple legislative enactment providing that all legislators be compensated for their actual expenses incurred while attending each regular or special session of the legislature be valid and constitutional?

Sincerely,

TERRY CARPENTER

UNANIMOUS CONSENT—Read and Print Letter

Mr. Carpenter requested unanimous consent to have a letter read by the Clerk, and that it be printed in the Legislative Journal. No objections. So ordered.

The Clerk read the following letter:

March 17, 1959

The Hon. Ralph G. Brooks
Governor of the State of Nebraska
State House
Lincoln, Nebraska

Dear Governor:

I am enclosing herewith a letter from the Attorney General relative to the assessing of intangible items issued by building and loan associations in the hands of the taxpayer for the purpose of assessment and the payment of taxes. The opinion is self-explanatory and it indicates that the method by which building and loan stocks are now assessed and have been for many years is completely unacceptable. In my opinion steps must be taken by your office to direct the State Tax Commissioner to do the following things:

(1) Adopt a rule for all county assessors indicating the method by which building and loan securities must be assessed and taxed and direct them to make the necessary effort to collect on the values that have been incorrectly reported in the past.

(2) Request all building and loans, both state and national, that each and every building and loan association in Nebraska will furnish the State Tax Commissioner a list of all the stockholders as of March 1, 1959 and every year thereafter on the proper reporting date. The list should include the names, amounts and addresses of each stockholder. Steps should be taken to assess those who do not report the correct amounts as of March 1, 1959 to assess them the tangible rate as provided by law.

(3) Have each building and loan company report to the State Tax Commissioner, who shall report in turn to the county assessors, the value of such stock following the formula as indicated by the Attorney General's opinion of February 23, 1959. I am also including herewith a newspaper article which is quoting Mr. Leslie Mar-

tin of Omaha, President of the Nebraska Savings and Loan League. It is the opinion of their attorneys that the opinion of the Attorney General is in error; and if that is their position and if they resist the payment that the present laws indicate, then immediate steps should be made by your office directing the Attorney General to move into the courts to protect the position of the general taxpayers of the State of Nebraska.

(4) A number of building and loan associations for the past ten years or so have misinterpreted the meaning of the word "gross income" and it is reported as gross income after deducting many items of expense and dividends, which according to the opinion of the Attorney General is not permitted. These reports are filed with each county assessor, sworn to under oath, and I request you to direct the State Tax Commissioner to go back as far as legally possible and collect the tax due the State of Nebraska and its sub-divisions of government in those cases where the above conditions have prevailed.

I stand ready to assist you and the Tax Commissioner in the above suggestions and the further verifications of the above situations outlined.

Sincerely,

TERRY CARPENTER

Sec. 3. *It shall be unlawful for any person, firm, corporation or association in the State of Nebraska to purchase, possess, keep, sell, offer for sale, barter, exchange, give away, or otherwise dispose of virulent hog cholera virus; Provided, that the provisions of this section shall not apply to the manufacture, possession, shipment or storage of virulent hog cholera virus in this state for use in the manufacture and development of serums and vaccines or for experimental purposes for the further development thereof by any manufacturer or for interstate shipment, or to the University of Nebraska College of Agriculture for experimental purposes; and provided further, the State Veterinarian may, upon determination in the case of a specific hog production operation or general outbreak of hog cholera, that the use of modified live hog cholera vaccine will not successfully control hog cholera, issue a special permit to a qualified veterinarian for the use of virulent hog cholera virus; and provided further, that the State Veterinarian upon the issuance of such permit shall prescribe and enforce such other management controls as shall be necessary to safeguard the hog production industry.*

1. Amend the bill, Section 1, page 4, reinsert lines 93 and 94.

2. Amend the bill, sec. 2 by striking lines 1 and 2 thereof and substituting therefor the following:

That Section 3-502, Revised Statutes Supplement, 1957, be amended to read as follows:

3-502. Any city now or hereafter owning or operating an airport is hereby authorized to create an airport authority to be managed and controlled by a board, which board, when and if appointed, shall have full and exclusive jurisdiction and control over all facilities owned or thereafter acquired by such city for the purpose of aviation operation, air navigation, and air safety operation; *PROVIDED*, that this act shall not become operative as to any city unless the mayor and city council in their discretion shall activate the airport authority by the mayor appointing and the council approving the board members as hereinafter provided. Each such board shall be a body corporate and politic, constituting a public corporation and an agency of the city for which such board is established. Each board *in cities of the primary, first, and second classes and in villages* shall consist of five members to be selected as follows: (1) (a) The mayor, with the approval of the city council, shall appoint one member who shall serve until his successor, elected at the first general city election following such appointment, shall qualify and take office, (b) the mayor, with the approval of the city council, shall appoint two members who shall serve until their successors, elected at the second general city election following such appointment, shall qualify and take office, and (c) the mayor, with the approval of the city council, shall appoint two members who shall serve until their successors, elected at the third general city election following such appointment, shall qualify and take office; and (2) upon the expiration of the terms of such appointed officers, members of the board shall be nominated and elected in the manner provided by law for the election of officers of the city concerned and shall take office at the same time as the officers of such city. Members of such board shall be residents of the city for which such authority is created, and, except for members initially appointed, shall serve for a term of four years. Any vacancy on such board, resulting other than from expiration of a term of office shall be filled by temporary appointment by the mayor until a successor can be elected, at the next general city election, to serve the unexpired portion, if any, of the term. A member of such board may be removed from office for incompetence, neglect of duty, or malfeasance in office. An action for the removal of such officer may be brought, upon resolution of the city council, in the district court of the county in which such city is located.

Each board in cities of the metropolitan class shall consist of five members to be selected as follows: (1) (a) The mayor,

with the approval of the city council, shall appoint one member who shall serve for one year, (b) the mayor, with the approval of the city council, shall appoint two members who shall serve for two years, and (c) the mayor, with the approval of the city council, shall appoint two members who shall serve for three years; and (2) upon the expiration of the terms of such appointed officers, members of the board shall be nominated by the mayor and approved by the city council, and shall serve for a term of four years. Any vacancy on such board, resulting other than from expiration of a term of office, shall be filled by the mayor, with the approval of the city council, and such appointee shall serve the unexpired portion, if any, of the term of the member whose office was vacated. Any member of such board may be removed from office by the mayor, with the consent of the city council.

The members of the board hereby created shall not be entitled to compensation for their services, but shall be entitled to reimbursement of expenses paid or incurred in the performance of the duties imposed upon them by the provisions of this act to be paid as herein provided. A majority of the members of the board then in office shall constitute a quorum. The board may delegate to one or more of the members, or to its officers, agents, and employees, such powers and duties as it may deem proper. The board and its corporate existence shall continue only for a period of twenty years from the date of appointment of the members thereof and thereafter until all its liabilities have been met and its bonds have been paid in full or such liabilities and bonds have otherwise been discharged. When all liabilities incurred by the authority of every kind and character have been met and all its bonds have been paid in full, or such liabilities and bonds have otherwise been discharged, all rights and properties of the authority shall pass to and be vested in the city. The authority shall have and retain full and exclusive jurisdiction and control over all projects under its jurisdiction, with the right and duty to charge and collect revenues therefrom, for the benefit of the holders of any of its bonds or other liabilities. Upon the authority's ceasing to exist all its remaining rights and properties shall pass to and vest in the city.

3. Amend the bill by adding new Section 3 thereto as follows:

That section 3-505, Revised Statutes Supplement, 1957, be amended to read as follows:

3-505. Officers and employees of any board or department in or of a city may be transferred to the authority established in the city, and shall be eligible for such transfer and appointment without examination to offices and positions under the authority. Officers or employees of such city, who shall have accepted such

transfer and who are at the time of such transfer members or beneficiaries of any existing pension or retirement system, shall continue to have the rights, privileges, obligations, and status with respect to such system or systems as are now prescribed by law. *In a city of the metropolitan class, all offices and positions under the authority shall be classified under the merit system of the city, and provided that in such cities the authority may enter into an agreement with the city to provide for the continued coverage of officers and employees of the authority under the city's social security system, pension, or retirement plan, and shall pay its proportionate cost of such pension or retirement plan and expense of social security coverage.*

4. Amend the bill, by adding a new Section 4 thereto as follows:

Sec. 4. That original Sections 3-504, 3-502, and 3-505, Revised Statutes Supplement, 1957, are repealed.

5. Amend the bill by adding a new Section 5 thereto as follows:

Sec. 5. Since an emergency exists, this act shall be in full force and effect from and after its approval, according to law.

6. Amend the title to conform.

MESSAGE FROM THE GOVERNOR

March 19, 1959

The President, Mr. Speaker and
Members of the Legislature
State Capitol Building
Lincoln, Nebraska

Gentlemen and Mrs. Orme:

This is to request permission of your honorable body to allow me to introduce a bill for an act relating to the giving of consent to chemical tests in drunken driving cases and providing for revocation of motor vehicle operators' licenses in prescribed circumstances, together with penalty and the emergency provisions.

This legislation, if enacted, will establish "implied consent" to chemical analysis of bodily fluids in drunken driving cases, the implied consent emanating from the fact of operation of a motor vehicle upon a public highway in this state. Present law does not permit this chemical analysis in instances where the subject declines to give consent to such analysis.

This legislation has the support of our farm organizations, churches, and the three hundred representatives of various organizations throughout Nebraska who attended the Traffic Safety Conference in Lincoln on January 28, 1959. It is presently in effective use in other states and is a distinct forward step in combatting our increasing traffic problem.

As Governor, I heartily endorse this bill and recommend its passage with all possible dispatch.

Respectfully submitted,

STATE OF NEBRASKA
(Signed) Ralph G. Brooks
GOVERNOR

53-132. (1) All original and renewal applications for license to sell alcoholic liquors, including beer regardless of alcoholic content, at retail by the drink within the corporate limits of cities or villages, shall be filed in each instance with the municipal clerk of the local governing body, at least fifteen days before the hearing thereon is had. The license fee and cash deposit for defraying cost of publication of notice for hearing thereon,

as provided in subsection (2) of this section, shall accompany the application.

(2) At the next regular or special meeting of the local governing body of a city or village, referred to in subsection (1) of this section, after the filing of such an application, the local governing body shall fix a time and place at which a hearing will be had upon such application and at which such local governing body shall receive competent evidence under oath, either orally or by affidavit from any person bearing upon the propriety of the issuance of such license. Notice of the time and place of hearing on the application before the local governing body shall be published at the expense of the applicant in a legal newspaper in or of general circulation in such city or village one time not less than three days nor more than seven *fourteen* days before the time of the hearing.

(3) The notice of the filing of the application, in addition to the precise time and place of hearing, referred to in subsection (2) of this section, shall include the name and address of the applicant, the general character of the license applied for, and the legal description of the premises sought to be licensed. If, after such hearing, a majority of the members-elect of the local governing body shall favor the issuance of such retailer's license to the applicant, they shall cause a resolution favoring the issuance of such license to be spread at large in the minutes of their proceedings.

(4) The municipal clerk shall make up and prepare in triplicate original that part of the standard form of a license, as is prescribed by the commission, as provided in subsection (3) of this section, to be executed on behalf of the local governing body, to be signed by the mayor or chairman of the board of trustees, as the case may be, whose signature shall be attested thereon by the signature of the municipal clerk over the seal of the city or village. Forthwith thereafter, the municipal clerk shall forward, by either registered or certified mail, the license issued in triplicate original to the commission, together with the state registration fee in the sum of two dollars.

(5) The commission shall cause the license to be countersigned by its chairman, attested by its secretary over the seal of the commission, as a matter of course if the commission has received from the applicant a bond, as described in section 53-138.02, effective for the term of the license, unless within three days after the receipt of such license executed by the local governing body, as provided in subsection (4) of this section, objections in writing by not less than three persons residing within said

city or village or also by any one of the duly appointed inspectors of the Nebraska Liquor Control Commission shall be lodged with the secretary of the commission protesting the issuance, the countersigning and completing the issuance of such license, in which event the commission shall proceed, as in the case of an appeal from any other final order of the local governing body, as provided in section 53-1,115. Such objections shall be filed in duplicate signed by the objectors and shall state with particularity the grounds thereof. If the commission is satisfied that the objections state sufficient facts to substantiate said objections, it shall set the matter for hearing within twenty days from the date of the filing of said objections and shall serve notice upon the applicant of the time and place of such hearing, and shall furnish to said applicant a copy of said objections. At the time of filing such objections, by residents of said city or village, there shall also be filed by such persons objecting, a sufficient security for costs which the commission shall deem adequate to cover all costs liable to accrue, including reporting the testimony and making up complete transcripts thereof, and extending the reporter's original notes in typewriting, and such costs may be taxed to such persons objecting if the commission shall decide that there was not reasonable ground for the filing of such objection. If no protest in writing be lodged with the secretary, as provided in this subsection, the commission shall retain the second duplicate original for the permanent records of the commission, and return by registered or certified mail not later than the fourth day after their receipt, the original and the first duplicate of such license, properly executed, in the municipal clerk who forwarded them; and the municipal clerk shall forthwith deliver the original license to the applicant and retain the first duplicate original thereof for the files of the local governing body.

(6) Pending return of license finally issued by the commission, the municipal clerk shall retain the license fee in trust for the applicant."

MESSAGE FROM THE GOVERNOR

March 19, 1959

The President, the Speaker and
Members of the Legislature
State Capitol Building
Lincoln, Nebraska

Gentlemen and Mrs. Orme:

This is to request permission of your honorable body to allow me to introduce a bill for an act relating to revenue and providing that, commencing July 1, 1959, banks shall pay interest at the rate of three per cent per annum on the average daily balance for the privilege of holding deposits of the State.

According to the statement of the State Treasurer of February 28, 1959, there was on deposit in the various banks throughout Nebraska the sum of \$20,584,676.70 in state funds. The State Treasurer advises me that an estimate of the average daily balance so deposited, on a year round basis, is \$20,000,000.00.

This legislation, if enacted, will provide a new source of revenue in the estimated sum of \$600,000.00 a year and which, if credited directly to the account of the State General Fund in the manner prescribed by the legislation, will alleviate a portion of the increasing property tax burden imposed upon our people by the additional costs of state government resulting from additional demands for extended state services.

As Governor, I heartily endorse this bill and recommend its passage, with the emergency clause, with all possible dispatch.

Respectfully submitted,

STATE OF NEBRASKA
(Signed) Ralph G. Brooks
GOVERNOR

RESOLUTIONS

LEGISLATIVE RESOLUTION 23. Re: Memorializing Congress to Enact Legislation Relative to Water and Property Rights.

By Don Thompson, 33rd District; Hans O. Jensen, 25th District; and Harold B. Stryker, 17th District.

WHEREAS, recent decisions of the federal courts and recent assertions from the United States Department of Justice have deprived states and persons of rights which said states and persons previously enjoyed to regulate and control the use of the water in the respective states; and

WHEREAS, said decisions and assertions are further a part of a general pattern developing gradually into federal supremacy

and usurpation over water which, if continued, will destroy individual and state rights over water and substitute in lieu thereof an all powerful centralized government control thereover;

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NEBRASKA LEGISLATURE IN SIXTY-NINTH SESSION ASSEMBLED:

1. That the Congress and President of the United States and the representatives of Nebraska in the Congress of the United States be, and they are hereby urged and requested to take all necessary action to (a) preserve the water rights of the individual and the states and to prevent federal usurpation of those rights; (b) see that legislation is initiated and supported to recognize and protect rights of individuals and states which have been taken from them by the federal courts and the Department of Justice; and (3) in every way possible, to reaffirm, renew, and defend the concepts that water rights are property rights and that established rights to the use of water, by a state or an individual, should not be taken away without due process of law and adequate compensation.

2. That certified copies of this resolution be promptly transmitted to the President and Vice President of the United States, Speaker of the House of Representatives of the United States, Chairman of the United States Senate and House Committee of Interior and Insular Affairs, United States Senator Roman L. Hruska, United States Senator Carl T. Curtis, United State Representative Phil Weaver, United States Representative Glenn Cunningham, United States Representative Donald F. MOTION—Introduce Bill

Mr. President: I move that the Committee on Judiciary be permitted to introduce a bill, the purpose of which is set forth in the statement submitted herewith. (Signed) Ray C. Simmons, Chairman

STATEMENT—Introduce Bill

The bill was prepared and recommended by the Deputy Secretary of State and involves trade names. Under law, trade names may be registered with the Secretary of State for a fee of \$2.00 for an original registration and \$1.00 for a change in original registration, and are valid for twenty years. This means that the owner of a trade name is only paying ten cents per year for his right. The Deputy Secretary of State says that there has been an increase in cost of registering the trade names and in the other administrative costs.

This bill changes from \$2.00 to \$5.00 the cost of an original registration and from \$1.00 to \$2.00 the cost of a change in original registration. Also, it would reduce the length of the life of a trade name from 20 years to 10 years, at the expiration of which time the trade name may, of course, be renewed. The Deputy Secretary of State said that there are many old trade names long since abandoned. If the life were reduced from 20 to 10 years it would clear out considerable trade names no longer being used.

Finally, the bill would strike from the present statutes the requirement that the Secretary of State notify the registrant by registered mail at least ninety days before the expiration of his registration. Such notification is believed to be an unnecessary expense, particularly since it would require notification as to many trade names that have since been abandoned.

(Signed) Ray C. Simmons, Chairman

Permission to introduce the bill granted with 26 ayes, 1 nay, and 16 not voting.

BILLS ON FIRST READING

The following bill was read the first time by title:

LEGISLATIVE BILL 698. By Committee on Judiciary, Ray C. Simmons, 11th District, Chairman.

A bill for an act to amend section 87-204, Reissue Revised Statutes of Nebraska, 1943, relating to trade name; to increase the fee for registration and to change the original registration of trade names; to change the time when registration of trade names shall expire; to eliminate surplus language; and to repeal the original section.

MOTION—Introduce Bill

Mr. President: I move that the Committee on Judiciary be permitted to introduce a bill, the purpose of which is set forth in the statement submitted herewith. (Signed) Ray C. Simmons, Chairman

STATEMENT—Introduce Bill

This bill is recommended by the Deputy Secretary of State and deals with trade-marks. Under law, labels, trade-marks and other forms of advertisement may be filed for record in the office of the Secretary of State. The Secretary of State then will deliver to the person a certificate of record of the same upon the payment of a fee of \$2.00.

The only change that this bill proposes is that the fee be increased from \$2.00 to \$5.00 because of the increased cost in filing and preparing the certificate. The Deputy Secretary of State feels that the fee must be so increased if these operations are to be made on a pay-as-you-go basis.

Mr. Williams requested unanimous consent for permission for the Clerk to read an opinion from the Attorney General, and that it be printed in the Journal. No objections. So ordered.

The Clerk read the following opinion:

April 2, 1959

Hon. Dwain Williams
State Senator
State Legislature
Building

Dear Senator:

You have asked our opinion as to the effect of the proposed amendment to Sec. 3-504 (12) which deals with the Cities Airport

Authorities Act. To begin with Sec. 18-1505, R. R. S. 1943, has for many years provided that any city may without a vote of the electors levy an annual tax of not to exceed one mill for the purpose of construction, leasing, improving, maintaining and managing an aviation field.

The Cities Airport Authorities Act is permissive legislation which authorizes a city, at its option, to create an airport authority.

The purpose of Sec. 3-504 (12) is to provide that if a city elects to create an airport authority then the airport authority shall certify annually to the city council the amount of tax to be levied for airport purposes. This tax, to be certified to the city council by the airport authorities must be within the limits and pursuant to the provisions of existing laws authorizing the cities to levy taxes for airport purposes. The existing law on that subject is Sec. 18-1505 mentioned above.

You have asked whether this would permit the city to levy a tax and the airport authority to levy, or order the levy, of an additional tax. The answer is definitely in the negative. The effect of the law is simply to authorize the airport authority, if one is created, to notify the city council how much of a tax it should levy under Sec. 18-1505 not exceeding of course the one mill limit imposed by Sec. 18-1505.

The proposed amendment consists simply of striking the words "and expended by the authority for the purposes set forth in said laws." The effect of this amendment is simply this: As the law now reads the airport taxes when collected and turned over to the authority could be expended only for the purposes specified in Sec. 18-1505, that is, for construction, leasing, improving, maintaining and managing the airport.

The effect of taking out the above quoted language would be simply to remove that limitation on the power of the airport authority and permit cities (except metropolitan cities) to use money derived from the levy of one mill or less, made in accordance with Sec. 18-1505, to pay interest or principal on revenue bonds issued by the authority for the improvement, etc. of the airport.

You have also requested our opinion concerning certain other amendments to this Act. All of these amendments deal with the situation in Omaha and have no effect whatever upon the main purpose of L. B. 512. They deal principally with the creation of an Authority in Omaha and the terms of the members of the Omaha Airport Authority.

Very truly yours,

CLARENCE S. BECK
Attorney General

Mr. President: I move that the Judiciary Committee be permitted to introduce a bill, the purpose of which is set forth in the attached statement. (Signed) Ray C. Simmons, Chairman

STATEMENT—Introduce Bill

This bill was recommended to the Judiciary Committee by Senator McHugh and would raise from a maximum of \$5.00 to a maximum of \$10.00 per day the amount that a court bailiff shall receive for his service in counties having a population of 60,000 inhabitants or less. Jurors now receive \$6.00 per day under Sec. 33-107. Bailiffs receive \$5.00 per day. It is believed that the bailiff who has charge of the jury should at least receive as much as the jurors and that the amount paid the bailiff should be more in keeping with the present cost of living.

MOTION—Introduce Bill

Mr. President: I move that the Judiciary Committee be permitted to introduce a bill, the purpose of which is set forth in the attached statement. (Signed) Ray C. Simmons, Chairman

STATEMENT—Introduce Bill

Under present law where a person brings suit for personal injuries the defendant can take the plaintiff's deposition and ask him about the nature of or extent of his injuries. However, the defendant cannot take the deposition of the plaintiff's doctor if the plaintiff or doctor insists upon the doctor's privilege, which prevents

him from being required to testify as to what he learned about the plaintiff's physical condition. At the trial, later held, the doctor can testify in full about the plaintiff's condition and the defendant would have no way of knowing previously what the doctor's testimony would be.

This bill is recommended by the Lincoln Bar Association and provides that once a person has brought suit for personal injuries, that by so doing he automatically waives the doctor's privilege so that the defendant can take the doctor's deposition. This would permit the defendant to know in advance of trial the nature of the plaintiff's injuries and what the doctor's testimony would be. The Lincoln Bar Association feels that this bill is desirable since it is a part of the growing trend of permitting parties to learn in advance of trial what the testimony of opponents will be, and to prevent surprise at trials.

MESSAGE OF GOVERNOR RALPH G. BROOKS — APRIL 7, 1959

Mr. Speaker, Mr. President and
Members of the Legislature:

I have asked permission to come before your honorable body today to discuss with you the important subject of money.

I am coming before you at this time because I know that, through what I personally, and all Nebraska acknowledges to be an intensely dedicated effort on your part, you have progressed with your legislative deliberations to such a point that you are now beginning to consider revenue bills and bills calling for the disbursement of public moneys.

In this connection, permit me to respectfully submit that the budget for the previous biennium from all sources was in the sum of \$338,049,309.51 of which \$48,548,956.02 resulted from the imposition of a tax on the property of our people. The budget for the present biennium, recommended by my predecessor, was in the sum of \$351,136,572.63 or \$13,287,263.12 higher than that of the previous biennium and called for the levy of \$57,255,858.98 in property taxes. Your attention is also invited to the fact that, of the total budget recommendation of \$345,301,128.85 made by this administration, of which \$51,469,351.20 was to be raised in property taxes, and that this budget figure, although \$5,786,507.78 below that recommended by my predecessor, nevertheless represents an overall increase in the budget of the State of Nebraska over the previous biennium of \$7,251,819.34.

In addition to the recommendation set forth in the budget, however, it has been brought to my attention that you have pending before you legislation calling for, at the present time, additional disbursements in the sum of over 12 million dollars. It is with reference to these particular items that I wish to make myself abundantly clear.

Almost without exception, no provision is made in these revenue measures for the necessary funds with which to furnish the services represented by the legislation or the additional amount of money to be appropriated. Under these circumstances, we can only assume that it is intended that these sums of money are proposed to be levied through the General Fund.

Members of the Legislature, it is only fair that I inform you that, insofar as expenditures above and beyond those called for in my budgetary message are concerned, those additional measures which call for an additional number of dollars to be levied through the General Fund cannot have the approval of my office. This, I might add, also extends to the budget message itself although I am pleased to inform you that, at this writing, the Budget Committee and my office are reportedly in substantial agreement concerning the disbursement of moneys for the operation of state government during the ensuing biennium.

By the same token, there are additional measures before you for the raising of revenue. It is the sincere hope of my office that any revenue so derived will be credited directly to the General Fund and will not be earmarked for any specific purpose in order that our property taxpayers can obtain some measure of property tax relief. At the same time, such new sources of revenue should not be the subject of exploration as to an appropriate new place for the expenditure of this money but should be applied toward deferring present expenses of government.

You have done an exceptionally responsible piece of work thus far in this legislative session. You are to be saluted for it. I hope that, by observation of the conservatively realistic principles I have here mentioned, you can continue to perform that significant task for the property taxpayers of our State.

The increases represented by my budgetary recommendations over that of the previous biennium demonstrate a recognition of the fact that Nebraska agencies have been starved for several years by virtue of hardtack proposals. I do not think we can fulfill our duties as responsible government leaders, by curtailing of services of such agencies when demanded by our people. As a result, we have increases in the budget in some of the departments under the Governor, as well as in other areas of our government. In those areas where my previous budgetary recommendation has appeared to be inadequate, I have sent special word to the Budget Committee apprising them of any new appraisal of my position with reference to the amount of money which should be appropriated for a particular agency during the coming biennium.

In summary, therefore, I respectfully urge you (1) to examine closely any legislative item calling for the disbursement of funds; (2) make sure that such legislative proposal provides the source of such funds so proposed to be disbursed and make certain that it is not expected that they will be raised through the imposition of an additional property tax and (3) where new sources of revenue are devised, that such revenue, when realized, will be credited to the the General Fund to relieve our property taxpayers rather than seeking new areas and new ways in which to spend the new revenue so realized.

Each of us has a responsibility to see that Nebraska's government is administered prudently and economically. A key to our entire prudent and economic tax structure will lie in the assessment of property. I should like to say to you, at this time also, that as Governor, I expect to enforce the tax laws with which you have provided the Tax Commissioner and that I expect the Tax Commissioner to implement that tax legislation, wherever necessary, with appropriate regulations. I expect the tax laws to be enforced at every level. We have an additional time in this assessment period in which, if any taxpayer has reason to believe that he has incompletely listed his property, he may go in and amend his schedule. Whether that taxpayer goes in and amends his schedule or not is, at this moment, a matter of concern primarily to him. I make this statement to you at this time in order that there may be no mistake among you concerning my intentions with reference to the enforcement of the tax laws and that there may be no mistaken idea among our taxpayers that this administration does not intend to enforce the tax laws to the fullest, to see that all property is listed for taxation, and that they cannot later say that they did not realize that this administration did so intend.

Thank you.

Respectfully submitted,

STATE OF NEBRASKA

RESOLUTIONS

LEGISLATIVE RESOLUTION 26. Re: Legislative Intent of LB 42 and LB 51.

By Terry Carpenter, 42nd District.

WHEREAS, the Sixty-ninth Session of the Legislature of Nebraska has duly enacted legislation in the form of Legislative Bill 42 and is considering the enacting legislation in the form of Legislative Bill 51, amending appropriate sections of the laws of Nebraska relative to the collection of taxes and the imposing of penalties in connection therewith, and

WHEREAS, concern has been expressed that the law so amended and about to be amended might be construed to authorize and direct the Tax Commissioner, the State Board of Equalization and Assessment, or county assessors to impose penalties upon taxpayers for tax years prior to 1959, and

WHEREAS, it is the intent of the Legislature in the enactment of the said statutes to encourage full disclosure by taxpayers for tax years after 1958 and in no way to create a deterrent to such full disclosure by threat of penalties relative to tax years prior to 1959, and

WHEREAS, it is of importance to the courts and administrative officers of the state in the construction and interpretation of the said enactments that they have a clear statement of the legislative intent of this Legislature in the adoption of the said enactments.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NEBRASKA LEGISLATURE IN SIXTY-NINTH SESSION ASSEMBLED:

1. That it is the expressed intention of this Legislature in enacting Legislative Bill 42 and Legislative Bill 51 to prescribe and impose penalties for willful omission of property from tax returns of taxpayers only prospectively and not retroactively, it being the considered opinion of this Legislature that it is to the best interests of the state and the residents and taxpayers thereof that every encouragement be given to the full and complete return of property by taxpayers for the tax year 1959 and thereafter without fear of imposition of penalties in connection with returns made prior to the year, 1959.

MESSAGE FROM THE GOVERNOR

April 7, 1959

Mr. President, Mr. Speaker
and Members of the Legislature

I am, herewith, returning to you LB 331 without my signature. I am returning the bill for the following reasons:

(1) The work of the committees of the Legislative Council constitutes a distinct contribution to the background and material upon which legislative deliberations are based. In my opinion, it would be an undue restriction upon the work of these important committees were it required that a majority of the committee be present at each sitting of the same.

(2) I further feel that committees of the Legislative Council, acting with reference to specialized matters assigned to them, should have the privilege of making their own rules and I note from the

records of the Legislative Council that these rules have been prescribed by such committees at the outset of its hearings.

(3) I do not feel the State of Nebraska should suffer by virtue of the inability of a majority of the Legislative Council Committee to be present and that committee activity by less than a majority of the committee, when conducted in accordance with the rules of that committee, should be encouraged when the best interests of Nebraska can be served.

(4) The work of the committees of the Legislative Council has functioned admirably without this limitation since 1937 and this office can see no purpose in the imposition of a restriction at this late time.

Respectfully submitted,

STATE OF NEBRASKA

MESSAGE FROM THE GOVERNOR

April 9, 1959

Mr. President, Mr. Speaker and
Members of the Legislature:

I respectfully request your permission to introduce legislation which has been publicly declared to be necessary by all of the affected segments of the important area of Nebraska's economy which this legislative proposal is designed to regulate.

During the studies and hearings of the committee appointed by your excellent Legislative Council, testimony was elicited to the effect that Nebraska is in need of a State Labor Relations Law. This pronouncement was made by responsible representatives of both management and labor.

As a matter of fact, the committee of your distinguished Legislative Council announced as its objective in the public press of November 20, 1958 and in its official report, the enactment of a State Labor Relations Act but, subsequently, stated in the public press of February 1, 1959 that the committee had not been able to agree on a proposed law that the committee felt would be fair to everyone, according to the statement of the committee chairman, and that the committee did not want to offer anything that was not absolutely fair to all sides.

In order that the expressed need for a State Labor Relations Law, as voiced by both management and labor may be met in a manner that is fair to every concerned segment of industry, I am respectfully requesting permission to introduce a State Labor Relations Act. This proposed legislation will:

- (1) apply to that area of activity where state law can operate within the limits of our Constitution, that is, the area of intra-state commerce;
- (2) guarantee the right of employees to join or refuse to join labor organizations without retaliation by management or by labor organizations;
- (3) define employer "unfair labor practices" such as
 - (a) interference with membership or
 - (b) partiality, or
 - (c) discrimination, or
 - (d) refusal to bargain;

- (4) define union "unfair labor practices" such as
 - (a) interference with membership
 - (b) interference with an employer's freedom of choice of bargaining representatives,
 - (c) forcing self-employed persons to join a union,
 - (d) causing employers to discriminate against non-union employees or applicants for employment,
 - (e) refusal to bargain collectively,
 - (f) striking to force recognition of a union other than the certified bargaining representative,
 - (g) engaging in secondary picketing without describing the identity of the employer in dispute,
 - (h) picketing within one year after losing a valid representation election and
 - (i) requesting the payment of initiation fees and dues not uniformly required of all members;
- (5) provide for secret impartial representative elections under a Commissioner of Elections who would administer the election procedure and for which judicial appeals would be available.

This proposal also provides that persons injured by unfair labor practices may seek both damages and the remedy of injunction with provision for preliminary injunctions and temporary restraining orders before trial available in exceptional cases.

This legislative proposal also seeks to substitute orderly procedure for economic combat and provides that an employer and a union can agree to submit to arbitration any issue which is a proper subject of collective bargaining.

I know that this Legislature is sincere in its effort in this field. I respectfully submit to you that a State Labor Relations Law, along the lines of this proposal, is the only available avenue if we are to be fair to all parties concerned and by all parties, I mean not only our management interests and our labor interests, but also our consumer interests.

I hope that any legislation adopted in this field will be straightforward, direct and objective. I consider this proposal to fit that description. In addition, I believe it to be beyond the suspicion of unconstitutionality and to be within the jurisdictional confine of our legislative and administrative authority.

I respectfully urge its enactment.

Respectfully submitted,

STATE OF NEBRASKA

60-301. As used in sections 60-301 to 60-344, and in section 3 of this act, unless the context otherwise requires:

(1) Motor vehicles shall include motorcycles and all vehicles propelled by any power other than muscular power, except farm

tractors, farm tractors used occasionally outside of general farm usage, road rollers, and any vehicles which run only on rails or tracks;

(2) Highways shall include public streets, roads, turnpikes, parks, parkways, drives, alleys, and other public ways used for the passage of road vehicles;

(3) Trucks shall include motor vehicles equipped or used to carry anything other than passengers;

(4) Trailer shall include every vehicle without motor power carrying persons or property and being pulled by a motor vehicle and so constructed that no part of its weight rests upon the towing vehicle;

(5) Semitrailer shall mean every vehicle without motive power designed for carrying persons or property and for being drawn by a motor vehicle and so constructed that some part of its weight and that of its load rests upon or is carried by the towing vehicle;

(6) Cabin trailer shall mean every vehicle without motive power designed for living quarters and for being drawn by a motor vehicle; and

(7) Truck-tractor shall mean every motor vehicle designed and used primarily for drawing other vehicles, and not so constructed as to carry a load other than a part of the weight of the vehicle and load being drawn.;

(8) *Owner shall mean a person, firm or corporation who holds a legal title of a vehicle, or in the event a vehicle is the subject of an agreement for the conditional sale thereof with the right of purchase upon performance of the conditions stated in the agreement and with an immediate right of possession vested in the conditional vendee, or in the event while a vehicle is subject to a lease of thirty days or more with an immediate right of possession vested in such lessee, or in event a mortgagor of a vehicle is entitled to possession, then such conditional vendee, lessee or mortgagor shall be deemed the owner for the purpose of this act;*

(9) *Vehicle shall be every device in, upon or by which any person or property is or may be transported or drawn upon a public highway, excepting devices moved by human power or used exclusively upon stationary rails or tracks; and*

(10) *Fleet shall include only those commercial vehicles which actually travel a portion of their total miles in the state. A fleet must include three or more commercial vehicles.*

Sec. 2. That section 60-305.03, Revised Statutes Supplement, 1957, be amended to read as follows:

60-305.03. (1) In case a foreign state or territory is not reciprocal as to license fees on commercial trucks, truck-tractors, semitrailers, trailers, or buses, the owners of such nonresident vehicles from those states or territories will be required to pay the same license fees as are charged residents of this state in such foreign state or territory. In case no fees are charged in Nebraska on trucks, truck-tractors, semitrailers, trailers, or buses, other than license fees, and the reciprocity law of any other foreign state or territory does not act to exempt Nebraska trucks, truck-tractors, semitrailers, trailers, or buses operating in that state from payment of all fees whatsoever, the owners of such foreign trucks, truck-tractors, semitrailers, trailers, or buses shall be required to pay a fee in an amount equal to the fee of whatever character, other than license fee, is charged by such other state to foreign trucks, truck-tractors, semitrailers, trailers, or buses; *Provided*, that the owners of all foreign trucks, truck-tractors, semitrailers, trailers, or buses, doing intrastate hauling in this state, shall be required to pay the same registration fees as those required to be paid by residents of this state, *unless such vehicles are registered as a part of a fleet in interstate commerce, as provided in section 3 of this act*. In no case shall the fee charged to an owner of a foreign motor vehicle exceed the total fees required to be paid on like vehicles by residents of this state. The Department of Motor Vehicles shall remit all such fees collected to the State Treasurer, who shall place such money in the Highway Cash Fund.

(2) In order to effect the purposes of section 60-305.02 and subsection (1) of this section, the Department of Motor Vehicles shall have authority to enter into reciprocal agreements with the responsible officers of other states, provinces, or countries as to licenses and permit fees, under which motor vehicles, trucks, truck-tractors, semitrailers, trailers, or buses properly licensed or registered in other states, provinces, or countries may be operated in interstate commerce in this state without a Nebraska registration or the payment of permit fees or taxes; *Provided*, that like provisions are accorded to vehicles owned by Nebraska citizens when operated in such other state, provinces, or countries. *In order to effect the purposes of section 60-305.02 and subsection (1) of this section, and section 3 of this act, the Director of Motor Vehicles shall have the power, duty and authority to enter into reciprocal agreements with the duly authorized representatives of other jurisdictions, including states, districts, territories or possessions of the United States, and foreign countries, states or provinces granting to vehicles or owners of vehicles which are properly registered or licensed in such jurisdictions, and for which evidence of compliance is supplied, benefits,*

privileges and exemptions from the payment, wholly or partially, of any fees, or other charges imposed upon such vehicles or owners with respect to the operations or ownership of such vehicles under the laws of this state. Such agreements or arrangements shall provide that vehicles registered or licensed in this state when operated upon the highways of such other jurisdictions shall receive exemptions, benefits and privileges of a similar kind or to a similar degree as are extended to vehicles from such jurisdictions in this state. The director may withdraw from any agreement when he determines that it shall be for the best interest of the State of Nebraska upon thirty days notice.

Notwithstanding any provisions of the Nebraska statutes to the contrary or inconsistent herewith, such agreements may provide with respect to resident or nonresident fleets of three or more commercial vehicles which are engaged in interstate and intrastate commerce, that the registrations of such fleets can be apportioned between this state and other states in which such fleets operate in accordance with the method set out in section 3 of this act.

(3) In the absence of an agreement of arrangement with any jurisdiction, the Director of Motor Vehicles is authorized to examine the laws and requirements of such jurisdiction and to declare the extent and nature of exemptions, benefits and privileges to be extended to vehicles registered in such jurisdiction, or to the owners or operators of such vehicles.

Where no written agreement or arrangement has been entered into with another jurisdiction, or declaration issued pertaining thereto, any vehicle properly registered in such jurisdiction, and for which evidence of compliance is supplied, may be operated in this state and shall receive the same exemptions, benefits and privileges granted by such other jurisdiction to vehicles registered in this state.

(4) Where a trailer or semitrailer has been duly registered in any jurisdiction, no registration or license fee therefor shall be required in this state when such trailer or semitrailer is operated in combination with any tractor or truck properly licensed or registered in accordance with this act or agreements, arrangements or declarations pursuant to this act.

(5) All agreements, arrangements, declarations and amendments authorized by this act shall be in writing and shall become effective when filed in the office of the Director of Motor Vehicles.

(6) Agreements or arrangements entered into or declarations issued under the authority herein granted may contain provisions denying exemptions, benefits and privileges granted thereunder to any vehicle which is in violation of conditions stated therein.

(7) *Properly registered shall mean a vehicle licensed or registered in one of the following:*

(a) *The jurisdiction where the person registering the vehicle has his legal residence, or*

(b) *The jurisdiction in which a commercial vehicle is registered, where the operation in which such vehicle is used has a principal place of business therein, and from or in which the vehicle is most frequently dispatched, garaged, serviced, maintained, operated or otherwise controlled, and the vehicle is assigned to such principal place of business, or*

(c) *The jurisdiction where, because of an agreement or arrangement between two or more jurisdictions, or pursuant to a declaration, the person registering the commercial vehicle has licensed the vehicle as required by said jurisdiction.*

(8) *It shall be unlawful to operate trucks, truck-tractors, semitrailers, trailers, or buses owned by nonresidents who are not in compliance with the provisions of subsections (1) and (2) of this section and with section 60-305.02, or any agreement executed under the authority granted hereunder.*

Sec. 3. (1) *Any owner engaged in operating a fleet of three or more vehicles in this state in interstate commerce may, in lieu of registration of such vehicles under the general provisions of sections 60-301 to 60-344, register and license such fleet for operation in this state by filing a sworn statement with the Department of Motor Vehicles, which shall be in such form and contain such information as the department shall require, declaring the total mileage operated by such vehicles in all states and in this state during the preceding year and describing and identifying each such vehicle to be operated in this state during the ensuing license year. Upon receipt of such statement, the department shall determine the total fee payment which shall be equal to the amount obtained by applying the proportion of instate fleet miles to total fleet miles, as reported in said states, to the fees which would otherwise be required for total fleet registration in this state, and shall notify the applicant of the amount so determined. The applicant shall then proceed to register a proportion of his fleet in Nebraska, as provided in sections 60-302 and 60-303, so that the total fees paid for such vehicle registration shall be at least equal to the amount of fees determined to be due by the department. At the time of applying for such registration, the applicant shall present the determination of the department of the amount of fees due to the county treasurer from which he seeks registration of his vehicles, and the county treasurer, upon completion of such registration shall notify the department of such*

registration, and the total amount of registration fees paid by such applicant.

Upon receipt of reports of county treasurers that the applicant has registered a sufficient number of vehicles in Nebraska so that the aggregate fees paid are equal to or greater than the amount of fees determined to be due, the department shall issue to the applicant a sufficient number of distinctive number plates, or stickers or tags for each of the vehicles of his fleet, identifying it as a part of an interstate fleet proportionally registered.

The vehicles so registered shall be exempt from all further registration and license fees under sections 60-301 to 60-344 for movement or operation in the State of Nebraska. The proportional registration and licensing provision of this section shall apply to vehicles added to said fleets and operated in this state during the license year.

The right of applicants to proportional registration hereunder shall be subject to the terms and conditions of any reciprocity agreement, contract or consent made by the Department of Motor Vehicles.

When a nonresident fleet owner has registered his vehicles on an apportionment basis, his vehicles shall be considered as fully registered for interstate and intrastate commerce. Each vehicle of a fleet registered by a resident of Nebraska on an apportionment basis shall be considered as fully registered for interstate commerce and intrastate commerce.

(2) Mileage proportions for interstate fleets not operated in this state during the preceding year will be determined by the department upon the sworn application of the applicant on forms to be supplied by the department which will show the operations of the preceding year in other states and estimated operations in Nebraska, or if no operations were conducted the previous year, a full statement of the proposed method of operation.

(3) Any owner complying with and being granted proportional registration shall preserve the records on which the application is made for a period of four years following the year upon which said application is based. Upon request of the department, the owner agrees to make such records available to the department at its office for audit as to accuracy of computation and payments, or to pay the costs of an audit at the home office of the owner by duly appointed representative of the department. The department may enter into agreements with agencies of other states administering motor vehicle registration laws for joint audits of any such owner. All payments received to cover the costs of an audit shall

be paid by the department into the state treasury and the State Treasurer shall credit the same to the state General Fund.

(4) If it is determined by the Department of Motor Vehicles that the owner should have paid a greater amount of fee under the provisions of this act than was paid the department shall deny the owner the right to further registration for a fleet license until such additional amount fee is paid.

(5) In those cases where it is necessary to secure a title to a vehicle to be registered under the provisions of this act, the application for such title shall be made to the department, and the department is authorized to issue such title upon the payment of the fee prescribed by law.

(6) This section shall become operative with respect to fees due and payable without regard to this section on and after January 1, 1960, but this shall not prevent the department from taking such administrative action prior to such operative date as will facilitate the operation of this section.

(7) Every applicant who shall license any vehicles under the provisions of this act which by law are subject to assessment for taxation in this state shall exhibit proof by tax receipt or otherwise as provided by section 60-303.

Sec. 4. Nothing in this act shall affect the validity or operation of any reciprocity agreement or arrangement presently existing and in effect between Nebraska and any other jurisdiction, and all such agreements or arrangements shall continue until specifically cancelled by the Director of Motor Vehicles or replaced by a new agreement or arrangement in accordance with the provisions of this act.

Sec. 5. That original sections 60-301 and 60-305.03, Revised Statutes Supplement, 1957, are repealed.

2. Amend the title to conform.

LEGISLATIVE BILL 475. Indefinitely postponed.

STANDING COMMITTEE REPORTS

Government

LEGISLATIVE BILL 630. Placed on General File as amended.

Standing Committee amendments to LB 630:

1. Amend the bill by striking sections 1 to 4 and inserting in lieu thereof the following:

“Section 1. As used in this act, unless the context otherwise requires:

Cabin trailer shall mean every vehicle without motive power designed for living quarters and for being drawn by a motor vehicle.

Sec. 2. Except as otherwise provided in this act, the owner of every cabin trailer which is located in this state for a period of thirty days or more shall obtain a permit therefor, in the manner hereinafter prescribed; provided however, that no such permit shall be required for cabin trailers which are registered for operation upon the highways in the state in accordance with Chapter 60, article 3, Reissue Revised Statutes of Nebraska, 1943, and amendments thereto, or for cabin trailers owned by dealers or manufacturers which are unoccupied and held for sale or resale.

Sec. 3. Every owner of such a cabin trailer shall make application for a permit to the county treasurer of the county in which said owner resides or is domiciled or conducts a bona fide business; or, if such owner is not a resident of this state, such application shall be made to the county treasurer of the county in which such owner actually lives or conducts a bona fide business, except as otherwise expressly provided. Any person, firm, association or corporation who is neither a resident of this state nor

domiciled herein, but who desires to obtain a permit for such a cabin trailer owned by such person, firm or association or corporation, may register the same in any county of this state. The application shall contain a statement of the name, post-office address and place of business or employment of the applicant, a description of the cabin trailer, including the name of the maker, the number, if any, affixed or assigned thereto by the manufacturer, the weight and length of the vehicle, the year, model and the trade name or other designation given thereto by the manufacturer, if any. Every applicant for permit, at the time of making such application, shall exhibit to the county treasurer the certificate of title to such cabin trailer. Contemporaneously with such application, the applicant shall pay a permit fee in the amount of two dollars, which shall be credited to the general fund of the county. Upon proper application being made and the payment of the permit fee and the tax provided in section 6 of this act, the applicant shall be issued a serially numbered written permit.

Sec. 4. The county shall, in each even numbered year, furnish to every owner of a cabin trailer for which a permit is issued a number plate bearing the permit number assigned to such cabin trailer, in figures not less than two inches in height. In each odd numbered year, in lieu of furnishing such a plate, the county shall furnish to every person for whose cabin trailer a permit has been issued, a renewal tab which shall bear the year for which furnished and be so constructed as to permit the same to be permanently affixed to the number plate. The number plate assigned and issued to each cabin trailer which is registered hereunder shall be conspicuously displayed at the rear exterior thereof.

Sec. 5. Such permit shall be renewed annually in the same manner and upon the payment of the same fee as provided for original issuance. Such renewal shall become due on the first day of January of each year and delinquent on March 1 of each year. On making an application for renewal, the permit for the preceding year must be presented with the application. In case such permit is not presented, the county treasurer shall not issue the renewal permit until a sworn statement shall be made stating what disposition has been made of the previous permit; and an additional fee of one dollar shall be charged. The plate furnished by the county shall be valid during the calendar year for which issued and, when renewal tabs are issued and have been affixed thereto, they shall also be valid for the calendar year designated by such renewal tab.

Sec. 6. In addition to the permit fee provided by this act, there is hereby imposed upon such cabin trailers a motor vehicle

tax, which shall be assessed, computed, collected, allocated and subject to refund, in the same manner prescribed by Chapter 77, article 12, Reissue Revised Statutes of Nebraska, 1943, and amendments thereto, for the taxation of motor vehicles registered for operation upon the public highways of this state.

Sec. 7. In issuing such permits or renewals, the county treasurer shall neither receive nor accept such application nor permit fee nor issue any permit for any such cabin trailer, unless the applicant shall first exhibit proof by tax receipt or otherwise (1) that he has paid all applicable personal taxes upon such cabin trailer based on the computation thereof made in the preceding year for which such application for permit is made, (2) that he was the owner of another cabin trailer, or other motor vehicles, on which he paid the personal taxes during such year, or (3) that he owned no cabin trailer or other motor vehicle upon which personal taxes might have been levied during such year.

Sec. 8. The owner, lessee or manager of a land upon which is parked or located a cabin trailer for a period of thirty days, shall immediately thereafter report to the county assessor in the county in which such land is located, the name, post-office address and place of business or occupation of the owner or occupant thereof, the make, year model, length and trade name or other designation given thereto by the manufacturer, if any, and the date the cabin trailer was first parked or located on such land.

Sec. 9. It shall be unlawful for any person to own or occupy any cabin trailer located in this state for more than thirty days unless a current permit or renewal therefor has been issued, and a number plate is displayed thereon, in compliance with this act.

Sec. 10. Any person violating any of the provisions of this act shall be guilty of a misdemeanor and shall, upon conviction thereof, be fined in a sum not to exceed fifty dollars.

Sec. 11. That sections 81-2,198, 81-2,199, 81-2,200, 81-2,201, 81-2,202, 81-2,203, 81-2,204, 81-2,205, 81-2,206, 81-2,207, 81-2,208, 81-2,209, 81-2,210, Reissue Revised Statutes of Nebraska, 1943, are hereby repealed.”

Mr. Simmons offered the following amendments:

1. Amend the bill, by striking sections 1 to 3 and inserting in lieu thereof five new sections to be known as sections 1 to 5 and to read as follows:

“Section 1. The public policy of the state as to employment relations in the furtherance of which this act is passed is declared to be as follows:

(1) It recognizes that there are three major interests involved, namely: That of the public, the employee, and the employer. These three interests are to a considerable extent interrelated. It is the policy of the state to protect and promote each of these interests with due regard to the situation and to the rights of the others.

(2) Industrial peace, regular and adequate income for the employee, and uninterrupted production of goods and services are promotive of all of these interests. They are largely dependent upon the maintenance of fair, friendly and mutually satisfactory employment relations and the availability of suitable machinery for the peaceful adjustment of whatever controversies may arise. It is recognized that certain employers, including farmers and farmer cooperatives, in addition to their general employer problems, face special problems arising from perishable commodities and seasonal production which require adequate consideration. It is also recognized that whatever may be the rights of disputants with respect to each other in any controversy regarding employment relations, they should not be permitted, in

the conduct of their controversy, to intrude directly into the primary rights of third parties to earn a livelihood, transact business and engage in the ordinary affairs of life by any lawful means and free from molestation, interference, restraint or coercion.

(3) Negotiations of terms and conditions of work should result from voluntary agreement between employer and employee. For the purpose of such negotiation an employee has the right, if he desires, to associate with others in organizing and bargaining collectively through representatives of his own choosing, without intimidation or coercion from any source.

(4) It is the policy of the state, in order to preserve and promote the interests of the public, the employee, and the employer alike, to establish standards of fair conduct in employment relations and to provide a convenient and expeditious method through the courts by which these interests may have their respective rights and obligations adjudicated. While limiting individual and group rights of aggression and defense, the state substitutes processes of justice for the more primitive methods of trial by combat.

Sec. 2. As used in this act, unless the context otherwise requires:

(1) Labor organization in this act, shall mean any organization, association or group of any kind, or any agency or employee representation committee or plan, whether incorporated or unincorporated, which exists for the purpose, in whole or in part, of dealing with employers concerning grievances, labor disputes, wages, rates of pay, hours of employment, or conditions of work;

(2) Labor dispute shall mean any controversy between an employer and the majority of his employees concerning the right or process or details of collective bargaining or the designation of an employee representative. Any organization with which either the employer or such majority is affiliated may be considered a party to the labor dispute;

(3) Employer shall mean a person who engages the services of an employee, and includes any person acting on behalf of an employer within the scope of his authority, express or implied, but shall not include the state or any political subdivision thereof, or any labor organization or anyone acting in behalf of such organization other than when it is acting as an employer in fact;

(4) Person shall include one or more individuals, partnerships, associations, corporations, legal representatives, trustees or receivers; and

(5) Secondary boycott shall mean combining or conspiring to cause or threaten to cause injury to one with whom no labor dispute exists, whether by (a) withholding patronage, labor, or other beneficial business intercourse, or by intentionally and unreasonably hindering or delaying the same, (b) picketing, (c) refusing to handle, install, use or work on particular materials, equipment or supplies, or (d) by any other unlawful means, in order to bring him against his will into a concerted plan to coerce or inflict damage upon another.

Sec. 3. It shall be unlawful for any person to engage in a secondary boycott as herein defined, notwithstanding the provisions of any contract to the contrary; or to hinder or prevent, by threats, intimidation, force, coercion or sabotage, the obtaining, use or disposition of materials, equipment or services; or to combine or conspire to hinder or prevent, by any means whatsoever, the obtaining, use or disposition of materials, equipment or services; *Provided*, that nothing herein shall prevent sympathetic strikes in support of those in similar occupations working for other employers in the same craft.

Sec. 4. Employees shall have the right of self-organization and the right to form, join or assist labor organizations, to bargain collectively through representatives of their own choosing, and to engage in lawful, concerted activities for the purpose of collective bargaining or other mutual aid or protection; and such employees shall also have the right to refrain from any or all of such activities.

Sec. 5. Any person injured in his business, property or person by reason of any unlawful act as defined in section 3 of this act, may sue therefor in the district courts of this state, and shall recover the damages sustained by him, trebled, his reasonable attorneys' fees and the cost of the litigation."

2. Amend the bill, by renumbering sections 4 to 8 as sections 6 to 10 respectively.

3. Amend renumbered section 6 of the bill, line 4 by striking "2" and inserting "3", and line 5 by striking "2" and inserting "5".

4. Amend the bill, by inserting two new sections immediately after renumbered section 10 to be known as sections 11 and 12, and to read as follows:

"Sec. 11. Except as otherwise specifically provided, nothing contained in this act shall be construed so as to interfere with or impede or diminish in any way the right to strike or the right

of individuals to work; nor shall anything in this act be so construed as to invade unlawfully the right to freedom of speech.

Sec. 12. It is the intention of the Legislature that this act shall operate according to its terms to the full extent permitted by the Constitution of the State of Nebraska and of the United Statutes of America. In event any section or part of this act, or the application thereof to any person or situation shall be held unconstitutional, the act shall nevertheless continue in full effect with respect to all parts and applications thereof not so held to be unconstitutional."

5. Amend the bill, by renumbering section 9 as section 13.

6. Amend the title to conform.

MESSAGE FROM THE GOVERNOR

April 9, 1959

The President, Mr. Speaker and
Members of the Legislature
State Capitol
Lincoln, Nebraska

Gentlemen and Mrs. Orme:

This letter is to respectfully request permission of your honorable body to introduce legislation to harmonize and coordinate existing procedures for determining our state boundaries.

At this time, we have three boundary commissions. One deals with boundaries between Nebraska and South Dakota; a second with boundary problems between Iowa and Nebraska; and a third with those between Nebraska and Missouri.

With these three different commissions and three different sets of commissioners, it is inescapable that variances in philosophy and

policy have developed concerning boundary determination. As a result, we determine our boundary by the middle of the stream under the views of one commission; we determine it by references to landmarks and practices in the views of another commission.

Therefore, it is respectfully requested that this proposed legislation be introduced for the purpose of abolishing existing commissions and creating one new commission which, by an analysis of the factual questions presented, can develop a policy of boundary determination that will be consistent in all respects and in all cases and thereby contribute to a more stable and positive solution of the important decisions these matters present.

Respectfully submitted,

STATE OF NEBRASKA
