LEGISLATIVE BILL 652. Placed on General File as amended.

Standing Committee amendments to LB 652:

1. Amend the bill by striking Sections 1 to 13 and inserting the following:

Section 1. This act may be cited as the Nebraska Installment Sales Act.

Sec. 2. When used in this act unless the context otherwise requires:

(1) Goods shall mean all personal property including motor vehicles. Goods shall not include money or things in action but shall include goods which, at the time of sale or subsequently are so affixed to realty as to become part thereof whether or not severable therefrom.

(2) Motor vehicle shall mean any automobile, mobile home, motorcycle, truck, trailer, semitrailer, truck-tractor primarily designed or used to transport persons or property on a public highway, road or street.

(3) Retail buyer or buyer shall mean a person who buys goods from a retail seller under a retail installment contract and not for the purpose of resale.

(4) Retail seller or seller shall mean a person engaged in the business of selling goods to a retail buyer under a retail installment contract.

(5) Retail installment contract or contract shall mean an agreement evidencing a retail installment sale entered into in this state pursuant to which a buyer promises to pay in one or more deferred installments the time sale price of goods and pursuant to which the title to or a lien upon the goods is retained or taken by the seller as security for the payment of the retail installment contract. The term includes a conditional sale contract, a chattel mortgage, a lien instrument, or a bailment or leasing by which the bailee or lessee contracts to pay a sum substantially equivalent to the value of the goods and by which it is agreed the bailee or lessee is bound to become or has the option of becoming the owner of such goods.

(6) Cash sale price shall mean the price stated in a retail installment contract for which the seller would have sold to the buyer and the buyer would have bought from the seller goods which are the subject matter of the contract, if such sale had been a sale for cash instead of a time sale. The cash price may include, if itemized, any taxes, registration, certificate of title and license fees and costs for accessories and for the installation, delivery or servicing of goods.

(7) Basic time price shall mean the cash sale price of the goods which are the subject matter of the contract plus the amount, if any, included in the contract if a separate identified charge is made therefor, for insurance, minus the buyer's down payment in money or goods.

(8) Time price differential shall mean the amount, as limited herein, to be added to the basic time price.

(9) Time sales price shall mean the total of the cash sale price of the goods, plus the amount, if any, included for insurance, if a separate identified charge is made therefor, and the time price differential.

(10) Sales finance company shall mean a person engaged, in whole or in part, in the business of purchasing retail installment contracts from one or more sellers. The term includes but is not limited to a bank, trust company, investment company, savings and loan association or small loan licensee, if so engaged.

(11) Director shall mean the Director of Banking.

Sec. 3. Each retail installment contract shall be in writing, shall be signed by both the buyer and the seller and shall contain the following items and a copy thereof shall be delivered or mailed to the buyer: (1) The cash sale price of the goods; (2) the amount of the buyer's down payment, and whether made in money or goods, or partly in money and partly in goods, including a brief description of any goods traded in; (3) the difference between subdivisions (1) and (2) of this section; (4) the amount, if any, included for insurance if a separate charge is made therefor, specifying the types of coverages; (5) the basic time price, which is the sum of subdivisions (3) and (4) of this section; (6) the time price differential; (7) the amount of the time price balance, which is the sum of subdivisions (5) and (6) of this section, payable in installments by the buyer to the seller; (8) the number, amount and due date or period of each installment; and (9) the time sales price.

The above items need not be stated in the sequence or order set forth above. Additional items may be included to explain the computations made in determining the amount to be paid by the buyer.

No retail installment contract shall be signed by the buyer or proffered by seller when it contains blank spaces to be filled in after execution except, that if delivery of the goods is not made at the time of the execution of the contract, the identifying numbers or marks of the goods, or similar information, and the due date of the first installment may be inserted in the contract after its execution.

Upon written request from the buyer the holder of a retail installment contract shall give or forward to the buyer a written statement of the dates and amounts of payments and the total amount unpaid under such contract. A buyer shall be given a written receipt for any payment when made in cash.

After payment of all sums for which the buyer is obligated under a contract, the holder shall deliver or mail to the buyer at his last-known address one or more good and sufficient instruments to acknowledge payment in full and shall release all security in the goods.

Sec. 4. The amount, if any, included for insurance, which may be purchased by the holder of the contract, shall not exceed the applicable premium rates chargeable in accordance with filings, if any, with the Department of Insurance. If dual interest insurance on the goods is purchased by the holder it shall, within thirty days after execution of the retail installment contract, send or cause to be sent to the buyer a policy or policies or certificate of insurance, written by an insurance company authorized to do business in this state, clearly setting forth the amount of the premium, the kind or kinds of insurance, the coverages and all the terms and conditions of the contract or contracts of insurance. If any insurance is cancelled, or the premium adjusted, any refund of the insurance premium plus the unearned price differential thereon received by the holder shall be credited to the next maturing installments of the contract except to the extent applied toward payment for similar insurance protecting the interests of the buyer and the holder or either of them.

Sec. 5. (a) Notwithstanding the provisions of any other law, the time price differential shall not exceed the following schedules:

(1) As to motor vehicles:

CLASS 1. Any new motor vehicle designated by the manufacturer by a year model not earlier than the year in which the sale is made - eight dollars per one hundred dollars per year.

CLASS 2. Any new motor vehicle not in Class 1 and any used motor vehicle designated by the manufacturer by a year model of the same or not more than two years prior to the year in which the sale is made - ten dollars per one hundred dollars per year.

CLASS 3. Any used motor vehicle not in Class 2 and designated by the manufacturer by a year model not more than four years prior to the year in which the sale is made - thirteen dollars per one hundred dollars per year.

CLASS 4. Any used motor vehicle not in Class 2 or Class 3 and designated by the manufacturer by a year model more than four years prior to the year in which the sale is made - fifteen dollars per one hundred dollars per year.

(2) As to goods other than motor vehicles: (i) On so much of the basic time price as does not exceed three hundred dollars,

twelve dollars per one hundred dollars per year; (ii) if the basic time price exceeds three hundred dollars, but is one thousand dollars or less, ten dollars per one hundred dollars per year on that portion over three hundred dollars; and (iii) if the basic time price exceeds one thousand dollars, eight dollars per one hundred dollars per year on that portion over one thousand dollars.

(b) When the retail installment contract is payable in substantially equal and consecutive monthly installments, the time price differential in subsection (a) hereof shall be computed on the basic time price of each contract, as determined in section 3 of this act, from the date of the contract until the due date of the final installment, notwithstanding that the time price balance is required to be paid in installments. When the basic time price is less than one hundred dollars and the contract life does not exceed twelve months, a time price differential of seventy-five cents per each five dollars or portion thereof may be charged, received and collected.

(c) When a retail installment contract provides for payment other than in substantially equal and consecutive monthly installments, the time price differential may be at a rate which will provide the same return as is permitted on substantially equal monthly payment contracts under subsections (a) and (b), having due regard for the schedule of payments.

(d) Every contract payable in two or more installments shall provide for payment of such installments at approximately equal periodic intervals of time and be so arranged that no installment is substantially greater in amount than any preceding installment; *Provided*, that in order to facilitate payment in accordance with the buyer's seasonal or intermittent income a contract may reduce or omit payments over any period or periods in which the buyer's income is reduced or suspended.

Sec. 6. Where a buyer makes any subsequent purchases of goods, other than motor vehicles, from a seller from whom he has previously purchased goods under one or more retail installment contracts and the amounts under such contract or contracts to the extent of cash sale price thereof have not been fully paid the subsequent purchases may be included in and consolidated with one or more of the prior contract or contracts. A memorandum of such additional purchases shall be prepared by the seller inserted in or attached to the seller's counterpart of the contract and shall set forth:

(1) The names of the seller and the buyer and a description of the additional goods sold and all the information with

respect to the additional purchase required by section 3 of this act to be included in a retail installment contract;

(2) The consolidated time price balance to be paid by the buyer; and

(3) The revised payments.

A copy of said memorandum shall be delivered to the buyer as provided in and subject to the provisions of section 3 of this act. When such subsequent purchases are made, the entire amount of all payments made prior to such subsequent purchases shall be deemed to have been applied on previous purchases.

Each payment, thereafter made on a consolidated retail installment contract in connection with which the seller has retained title or other security interest in any of the goods purchased under any one of the retail installment contracts included in such consolidation, shall be deemed to be allocated to all of the various purchases in the same ratio or proportion as the original cash sale prices of the various purchases bear to one another. Where the amount of each deferred payment is increased in connection with such subsequent purchase, the subsequent payments, at the seller's option, may be deemed to be allocated as follows: An amount equal to the original installment payment to the previous purchase, the balance to the subsequent purchase. However, the amount of any initial payment or down payment on the subsequent purchase shall be allocated in its entirety to such subsequent purchase. The provisions of this section shall not apply to cases involving equipment, parts, or to other merchandise attached or affixed to goods previously purchased, or to repairs or services in connection therewith rendered by the seller at the buyer's request.

Sec. 7. Retail installment contracts other than motor vehicles negotiated and entered into by mail without personal solicitation by salesmen or other representatives of the seller and based upon the catalog of the seller or other printed solicitation of business, which is distributed and made available generally to the public, if such catalog or other printed solicitation clearly sets forth the cash and time sale prices and other terms of sales to be made through such medium, may be made as provided in this section. All provisions of this act shall apply to such sales except that the seller shall not be required to deliver a copy of the contract to the buyer as provided in section 3 of this act and if the contract when received by the seller contains any blank spaces the seller may insert in the appropriate blank space the amounts of money and other terms which are set forth in the seller's catalog or other printed solicitation which

is then in effect. In lieu of sending the buyer a copy of the contract as provided in section 3 of this act, the seller shall furnish to the buyer a written statement of any items inserted in the blank spaces in the contract received from the buyer.

Sec. 8. A retail installment contract may provide and the holder thereof may collect a delinquency charge on each installment in default for a period not less than ten days an amount not in excess of five per cent of each installment or five dollars, whichever is less, or in lieu thereof interest after maturity on each such installment not exceeding the highest permissible contract rate.

Sec. 9. Notwithstanding the provisions of any contract to the contrary, any buyer may prepay in full or in part at any time before maturity the obligation of any contract and in so paying such obligation shall receive a refund credit thereon for such anticipation of payments. The amount of such refund shall represent at least as great a proportion of the time price differential as the sum of the monthly time balances after the month prepayment is made, bears to the sum of all the monthly time balances under the schedule of payments in the contract. Where the amount of credit is less than one dollar no refund need be made.

Sec. 10. Any person who shall knowingly violate any provision of this act or engage in the business of a sales finance company in this state without a license therefor as provided in this act shall be guilty of a misdemeanor and shall, upon conviction thereof, be punished by a fine of not more than five hundred dollars or by imprisonment for not more than six months, or both.

Sec. 11. If any seller or sales finance company, in the making or collection of an installment contract shall directly or indirectly, contract for, take, or receive, charges in excess of those authorized by this act, such contract shall be void and uncollectible as to (1) all of the excessive portion of the time price differential, (2) the first one thousand dollars on the time price differential authorized by section 5, and (3) the first four thousand dollars of the principal balance of the contract. If any seller or sales finance company violates any provision of this act, other than the violations described above, except as a result of an accidental and bona fide error, such installment contract shall be void and uncollectible as to (1) the first five hundred dollars of the time price differential and the first one thousand dollars of the principal of such contract. If any of such money has been paid by the buyer, such buyer or his assignee may recover under this act in a civil

suit brought within one year after the due date, or any extension thereof, of the last installment of the contract.

Sec. 12. (1) No person shall engage in the business of a sales finance company in this state without obtaining a license therefor from the Department of Banking as provided in this act; *Provided*, that no bank, trust company, industrial loan, investment companies or small loan licensee authorized to do business in this state shall be required to obtain a license under this act but shall comply with all of the other provisions of this act.

(2) (a) Within sixty days after the effective date of this act each place of business operating under a license under this act shall have and properly display therein, a nontransferable and nonassignable license. The same person may obtain additional licenses upon compliance with this act as to each license. Application for a license shall be on a form prescribed and furnished by the director. A licensee may move his place of business from one place to another within a county without obtaining a new license, provided he gives written notice thereof to the director at least ten days prior to such removal. (b) The director shall after an application has been filed for a license under this act investigate the facts, and, if he shall find that the experience, character and general fitness of the applicant and of the members thereof if the applicant be a corporation or association, and of the officers and directors thereof if the applicant be a corporation, are such as to warrant belief that the business will be operated honestly, fairly and efficiently within the purposes of this act, the director shall issue and deliver a license to the applicant to do business as a sales finance company in accordance with the license and the provisions of this act. The director shall have the power to reject any application for a license. The director shall, within his discretion, make an examination and inspection concerning the propriety of the issuance of a license to any applicant. The cost of such examination and inspection shall be borne by the applicant.

(3) Submitted with each application shall be one hundred dollars as a license fee. The license year shall begin on October 1 of each year. Each license shall remain in force until surrendered.

(4) All money collected under the authority of this act shall be paid into the state treasury by the director and shall be credited by the State Treasurer to the "Retail Installment Sales Fund" and which fund when appropriated by the Legislature shall be available to the director for the purpose of paying the cost of administering and enforcing the provisions of this act, and any duties imposed upon the department by any other law.

(5) Every licensee shall, on or before the first day of October, pay to the director the sum of one hundred dollars for each license held as a license fee for the succeeding year. Failure to pay such license fee within the time prescribed shall automatically revoke such license.

(6) (a) Any sales finance company in business on the date this act takes effect may continue in operation but must obtain a license within sixty days from said date in accordance with the provisions of this act. (b) No license shall be granted to any person unless and until such applicant therefor, shall file with the director a designation in writing that appoints the director to act as applicant's agent, upon whom all judicial and other process or legal notices directed to such applicant may be served. Service upon the agent, so designated, shall be equivalent to personal service on the applicant or licensee. Copies of such appointment, certified by the director, shall be deemed sufficient evidence thereof, and shall be admitted in evidence with the same force and effect as the original thereof might be admitted. In such written designation, the licensee shall agree that any lawful process against licensee, which is served upon such attorney or agent, shall be of the same legal force and validity as if served upon the licensee, and that the authority shall continue in force so long as any liability remains outstanding in this state. (c) Service shall be made in duplicate upon the director, and shall be deemed sufficient service upon such licensee. No such service shall be valid or binding against such licensee when licensee is required thereunder to file answer, pleading or defense within ten days from the date of mailing the copy of such service to such licensee. When legal process against any such licensee is served upon the director, it shall forthwith, by registered mail, send one of the duplicate copies prepaid and directed to licensee.

(7) Renewal of a license originally granted under this act may be denied, or a license may be suspended or revoked by the director on the following grounds: (a) Material misstatement in the application for license; (b) Wilful failure to comply with any provision of this act relating to retail installment contracts; (c) Defrauding any retail buyer to the buyer's damage; and (d) Fraudulent misrepresentation, circumvention or concealment by the licensee through whatever subterfuge or device of any of the material particulars or the nature thereof required to be stated or furnished to the retail buyer under this act.

(8) If a licensee is a partnership, association or corporation, it shall be sufficient cause for the suspension or revocation of a license that any officer, director or trustee of a licensed association or corporation, or any member of a licensed partnership, has

so acted or failed to act as would be cause for suspending or revoking a license to such party as an individual.

(9) No license shall be denied, suspended or revoked except after hearing thereon. The director shall give the licensee at least ten days' written notice, in the form of an order to show cause, of the time and place of such hearing by certified mail addressed to the principal place of business in this state of such licensee. The said notice shall contain the grounds of complaint against the licensee. Any order suspending or revoking such license shall recite the grounds upon which the same is based. The order shall be entered upon the records of the director and shall not be effective until after thirty days' written notice thereof given after such entry forwarded by certified mail to the licensee at such principal place of business. No revocation, suspension or surrender of any license shall impair or affect the obligation of any lawful retail installment contract acquired previously thereto by the licensee.

(10) Any person, licensee, or applicant considering himself aggrieved by an order of the director may within thirty days from the entry of the order complained of, take an appeal to the district court of Lancaster County, Nebraska, by serving upon the director a written notice of such appeal and a demand in writing for a certified transcript of all papers on file in his office affecting or relating to such order, and the payment of the fee therefor. The appeal shall be prosecuted and perfected in the same manner as appeals are taken from the action of the Auditor of Public Accounts in the disallowance of claims. The court shall hear the appeal de novo as in equity and without a jury, and shall render judgment and apportion costs as may be equitable.

(11) The director or his duly authorized representative shall have the power to make such investigations as he shall deem necessary and, to the extent necessary for this purpose, he may examine such licensee or any other person and shall have the power to compel the production of all relevant books, records, accounts and documents. The expenses of the director incurred in the examination of the books and records of licensees shall be charged to the licensees so examined by the director as soon as reasonably possible. Each licensee shall be billed by the director for the amount so charged to such licensee. If said charge is not paid within thirty days after the mailing of such bill, the license of said licensee may be suspended or revoked.

(12) The director shall have the power to make such general rules and regulations and specific rulings, demands and findings as may be necessary for the proper conduct of the business li-

censed under this act, and the enforcement of said act, in addition thereto and not inconsistent therewith.

(13) Whenever the director has reasonable cause to believe that any person is violating or is threatening to or intends to violate any of the provisions of this act, it may, in addition to all actions provided for in this act and without prejudice thereto, enter an order requiring such person to desist or to refrain from such violation. An action may also be brought, on the relation of the Attorney General and the director, to enjoin such person from engaging in or continuing such violation or from doing any act or acts in furtherance thereof.

(14) In any such action an order or judgment may be entered awarding such preliminary or final injunction as may be deemed proper. In addition to all other means provided by law for the enforcement of a restraining order or injunction, the court, in which such action is brought, shall have power and jurisdiction to impound and appoint a receiver for the property and business of the defendant, including books, papers, documents and records pertaining thereto or so much thereof as the court may deem reasonably necessary to prevent violations of this act through or by means of the use of said property and business. Such receiver, when so appointed and qualified, shall have such powers and duties as to custody, collection, administration, winding up and liquidation of such property and business as shall, from time to time, be conferred upon the said receiver by the court.

Sec. 13. The Director of the Department of Banking for his services with respect to administration of sections 1 to 12 of this act shall receive the sum of five thousand dollars per annum, payable monthly, to be paid out of the Retail Installment Sales Fund, in addition to the salary set out in section 8-101, Revised Statutes Supplement, 1957.

Sec. 14. If any provision of this act, or the application thereof to any person or circumstances, is held invalid, such invalidity shall not affect other provisions or the application of the act which can be given effect without the invalid provision or application, and to this end the provisions of the act are declared severable.

2. Amend the title of the bill by striking lines 2 to 14 and inserting the following:

MESSAGE FROM THE GOVERNOR

April 11, 1959

Mr. President, Mr. Speaker,
and Members of the Legislature

Gentlemen and Mrs. Orme:

I am respectfully returning LB 86 to your Honorable Body without my signature.

In so doing I recognize the momentarily unpopular reaction to this disapproval of the Bingo legislation. I must, however, extend an even greater recognition to what I consider the long range unfavorable consequences of inadequate regulation in this field.

By popular vote, our people have indicated a desire for legalized Bingo; it is not my purpose to attempt to deprive them of this activity. By the same token, however, our people have placed the responsibility for appropriate regulation of this game in the hands of their elected legislators and executives and it is the feeling of this office that LB 86 does not adequately discharge that responsibility.

Our local enforcement officials are already overburdened; yet, we place upon them the enforcement and local supervision of this

activity. The only result can be little or no regulation. Aside from the licensing provision of the law, our State Government is without any direct authoritative enforcement power.

Except upon the Sabbath, Bingo can be played 24 hours a day by all persons who are sixteen years of age in games without limitation as to stake. Under such circumstances, the possible and well nigh probable consequences are readily foreseeable and would make our state a haven for organized and unrestricted gambling.

I am personally aware that those who have labored long to provide this legislation are greatly disturbed that, if LB 86 becomes a law, their entire efforts will have been for naught and that there will be a demand for the abolition of the game before the next session of the legislature.

I feel that there is yet ample time in this session to enact Bingo legislation that will be responsive to the will of the people and responsible in the regulation of the game. If your Honorable Body will so permit I will be pleased to offer legislation for introduction that will encompass the desirable provisions of LB 86 and include regulatory measures designed to protect our best interests.

In the enactment of Bingo Legislation, Nebraska is moving into an area in which we must tread with the utmost deliberate care and caution. We do not exercise that care and caution as a responsible State Government by legislatively washing our hands of supervisory responsibility such as we have assumed in the areas of pari-mutuel betting and the consumption of liquor. These two fields might well provide examples of regulation for our coming Bingo activity.

Thank you.

Respectfully submitted,

MESSAGE FROM THE GOVERNOR

April 11, 1959

The President, The Speaker
and Members of the Legislature

Gentlemen and Mrs. Orme:

I am respectfully returning LB 684 to you without my approval. The office of the Tax Commissioner is one appointed by the Governor.

The attorneys serving that department should similarly be appointed by the head of that department and the Governor.

The present department has two attorneys on its staff, appointed by the Tax Commissioner and no reason is demonstrated for a discontinuance of that practice for, to all intents and purposes, that arrangement is working both efficiently and effectively.

This legislation will merely create an additional division of authority within the department between two constitutional officers and no useful purpose can be observed.

Respectfully submitted,

STATE OF NEBRASKA

UNANIMOUS CONSENT—Print Attorney General's Opinion

Mr. Carpenter requested unanimous consent to have an opinion from the Attorney General printed in the Journal. No objections. So ordered.

April 13, 1959

Senator Terry Carpenter
Nebraska Legislature
State Capitol
Lincoln, Nebraska

Dear Senator:

You have asked three questions. The first deals with the Nebraska Commission on Intergovernmental Cooperation which is established by Sections 81-816 to 81-824, R. R. S. 1943. This commission consists, in part, of five senators and the President and the Speaker of the Legislature, Section 81-816. The members of the commission serve without compensation, but are paid their necessary expenses in carrying out their obligations, Section 81-822. Your next question deals with the legislative council established by Chapter 50, Article 4. In that connection, Section 50-415, R. R. S. 1943, provides that the members of the council shall be compensated for actual expenses and members of the committees of the council shall be reimbursed actual expenses. You then inquire if the payment of such expenses is a violation of Section 7, Article III, Constitution of Nebraska. This section insofar as applicable provides:

“* * *. The aggregate salaries of all members shall be \$37,500 per annum, divided equally among the members and payable in such manner and at such times as shall be provided by law. In addition to his salary, each member shall receive an amount equal to his actual expenses in traveling by the most usual route once to and returning from each regular or special session of the Legislature. Members of the Legislature shall receive no pay nor perquisites other than said salary and expenses, and employees of the Legislature shall receive no compensation other than their salary or per diem.”

Your third question states that if actual expenses are proper under this constitutional provision, then, could not the Legislature provide for the payment of actual expenses during the period the Legislature is in actual session?

The above section of the Constitution was adopted by the people of this state on November 6, 1934. The amendment was proposed by initiative petition. The last session of the bicameral legislature was held during 1935. The first session of the present type Legislature was held in 1937, Constitution, Section 5, Article III. The provisions of law pertaining to the Legislative Council were first enacted in 1937, L. B. 395, Laws 1937, C. 118, p. 421. This act

has been amended from time to time but the amendments are not essential to the questions here involved. Section 11 of this law provided that the members of the council should be compensated for actual expenses incurred while attending sessions of the council. Likewise the provisions of the law pertaining to the Nebraska Commission on Intergovernmental Cooperation were enacted in 1937, L. B. 543, Laws 1937, C. 110, p. 406.

In considering these questions it is well to consider certain well established rules of law. Every legislative act is surrounded by a presumption of constitutionality and this presumption continues until the act under review clearly appears to contravene some provision of the Constitution. *United Community Service v. The Omaha National Bank*, 162 Neb. 786, 77 N. W. 2d 576. It is also basic that the meaning of a constitutional provision is to be determined as of the time of its adoption, and the intent and understanding of its framers and the people who adopted it is the principal inquiry in construing it. It is likewise true that legislative and official interpretation long acquiesced in is entitled to great weight in seeking the meaning of a doubtful constitutional provision. *State, ex rel. State Railway Commission v. Ramsey*, 151 Neb. 333, 37 N. W. 2d 502.

So far as the present inquiries are concerned there appears to be no question as to what the Legislature intended when it provided that members of the legislative council and the members of the Nebraska Commission on Intergovernmental Cooperation who also may be members of the Legislature shall receive their actual expenses in carrying out their obligations as members of these committees. The essential question is whether or not Section 7, Article III is susceptible of construction. We believe that it is. Referring to this provision it seems clear that the phrase, "Members of the Legislature shall receive no pay nor perquisites other than said salary and expenses," could be construed to mean that the members could receive no other funds from the state under any guise whatsoever. On the other hand it could be construed to mean that the term "perquisites" refers to "compensation or reward for the performance of an official duty." If so construed then such term would not include reimbursement for actual expenses for service as a member of an interim committee and the payment of such expenses would be proper. The term has been so construed as used in the Constitution in the case of *State v. Sheldon*, 78 Neb. 552, 111 N. W. 372. This section could also be interpreted to mean that the restriction as to the receipt of actual expenses is limited to the attendance at a regular or special session of the Legislature, so that expenditures for actual expenses incurred while in the service of some special committee would not be within the inhibition.

Evidently the Legislature has so believed. We suggest these possibilities to show that there is a doubt as to the proper interpretation of this constitutional provision.

Evidently such a doubt existed in 1937 for the question was previously raised. The Legislative Council Journals for 1937-38 contain a copy of an opinion of the Attorney General of Nebraska under date of October 11, 1937, directed to the Auditor of Public Accounts concerning the constitutionality of L. B. 395, 1937 Legislature, which was the bill setting up and establishing the Legislative Council. In that opinion it was pointed out that there is a distinction made as to expenses incurred while attending a regular or special session of the Legislature and those incurred at another time or place other than a regular or special session. In that opinion it was stated:

“In all of these decisions the courts recognize a very vital distinction between personal and legislative or official expenses. The rule followed is that the legislative or official expenses may be paid but that personal expenses may not be paid. The salary provided by law for each member is intended to pay not only for his services but also for his attendance at legislative sessions. At such sessions he is not entitled also to an allowance for living expenses.”

The opinion went on to state:

“In other words expenses of such committees when acting for and in pursuance to the direction of the legislature at times when or places where the legislature is not in session become legislative or official as distinguished from personal expenses.”

Thus we have a legislative construction of the meaning of this constitutional provision. This legislative construction was contemporaneous with the adoption of this provision by the people of the state. This legislative construction is bolstered and concurred in by the administrative construction of the Attorney General and apparently has not been questioned for a period of some twenty years. While such interpretation is not binding, it is entitled to great weight. We cannot say, as a matter of law, that the construction placed upon this provision of the Constitution by the Legislature and prior administrative interpretation is clearly wrong. Nor can we say that the questioned statutes clearly contravene Section 7, Article 3, of the Constitution.

We therefore conclude that the payment of actual expenses to members of the Legislature while serving as members of the legislative council and as members of committees of the legislative council is not in violation of Section 7, Article III, Constitution of Nebraska. The same holding and reasoning applies to service

as a member of the Nebraska Commission on Intergovernmental Cooperation. However, in view of the previous construction placed upon this section, it would be a violation of the above provision for the Legislature to provide for the payment of their personal expenses during regular and special sessions of the Legislature.

Very truly yours,

CLARENCE S. BECK
Attorney General

MESSAGE FROM THE GOVERNOR

April 17, 1959

Mr. President, Mr. Speaker and
Members of the Legislature
State Capitol
Lincoln, Nebraska

Gentlemen and Mrs. Orme:

I respectfully request your permission to introduce legislation which will restore to importance the meaning of the Sabbath by prohibiting, with certain exceptions, the operation of retail stores on Sunday.

There can be little doubt that the first day of the week, commonly known as Sunday, has been overly secularized and that, as a result, the spiritual, the family and cultural standards have been lessened thereby. At the same time, little can be said for the slight advancement made in financial circles by the business done on this day.

By the same token, a great many of our communities, through local ordinances and regulations, have prohibited retail practices on the Sabbath with the result that those outside the pale of their jurisdiction have continued to do business without regard for the rules of the adjacent community or for their business associates who may live within the confines of that community and thereby are restricted from doing business on Sunday.

Therefore, in order to give effect to the local ordinances of many of our cities, in order to eliminate interference with the observance

of the Sabbath, I respectfully ask the introduction of this legislation and urge its enactment with the Emergency Clause.

Respectfully submitted,

STATE OF NEBRASKA
(Signed) Ralph G. Brooks
GOVERNOR

RESOLUTIONS

LEGISLATIVE RESOLUTION 28. Re: License Plate Tab of Reflector Type Material.

Introduced by Committee on Public Works, Arnold Ruhnke, 22nd District, Chairman.

WHEREAS, there is considerable public criticism in regard to the tabs placed on motor vehicle license plates for 1959, as to location of the tab on such plates; and

WHEREAS, there was a savings of approximately seventy-five thousand dollars in 1959 by use of present tabs; and

UNANIMOUS CONSENT—Print Communication

Mr. Aufenkamp requested unanimous consent to have a portion of the communication from Viggo C. Olsen, Nebraska City, printed in the Journal. No objections. So ordered.

Senator John Aufenkamp
State House
Lincoln, Nebraska

Dear John:

.....

Last week we lined up 18 cars and took all of the kids from the Blind School to the Shrine Circus in Omaha. Each car had a teacher along with the kids to help keep them organized. The Shrine had made arrangements to feed them at the Salvation Army Headquarters. It was surprising how much those blind kids got out of the circus. I really believe some of the totally blind got more out of it by asking questions and visualizing what was going on than some of us who can see.

I had five kindergarten kids; four girls and one boy. During the trip up and back I learned to know them and I discovered that you do not need to pity them; each of them have developed an individuality and a personality and you come to love and respect them for that.

After discovering the personality of each of these kids and realizing that without an opportunity to go to school they would be completely helpless and lost in darkness, I realized what a wonderful thing our State is doing in providing the facilities to convert these kids into happy, well adjusted, useful citizens.

.....

Sincerely,

Vic

MESSAGE FROM THE GOVERNOR

April 28, 1959

Mr. President, Mr. Speaker and
Members of the Legislature
State Capitol
Lincoln, Nebraska

Gentlemen and Mrs. Orme:

I respectfully request your permission to introduce a legislative bill authorizing the Department of Roads to acquire advertising rights along the route of the Interstate Highway, to prescribe the purpose and require such acquisition, to authorize agreements with the Secretary of Commerce, and to provide for rules and regulations.

In the presentation of this legislation, I want first to pay tribute to our great outdoor advertising industry and its contribution to public education, safe driving practices and informational material. The role of its members in a motoring America is well recognized. Their interest in the advancement of America, and our great State, is a source of permanent gratification. Their interest also is assurance to me of their support of this legislation which I now present for the reasons hereinafter stated.

This request is motivated by a three-fold purpose. First, the regulation of advertising rights in the manner prescribed by this legislation will result in an increased contribution by the federal government to the Nebraska portion of the Interstate Highway Program of an estimated \$1,000,000; this increased contribution will free a similar sum of revenues raised within our own borders for use upon existing or projected highway programs.

The monetary consideration, in and of itself, is more than adequate to justify this legislative proposal. There is a second motivation, however, in the increased safety factor which it is believed will result from a regulation of such advertising privileges with accompanying elimination of traffic distractions.

Third in the order of significance is the fact that landscaping and parkway developments along the route of the Interstate will be unencumbered and unhampered by the necessity of extending consideration to advertising rights in use, in the absence of this legislation, at the time such contemplated developments are placed in practice.

I, therefore, respectfully urge the enactment of this legislation. Thank you.

Respectfully submitted,

MESSAGE FROM THE GOVERNOR

April 28, 1959

Mr. President, Mr. Speaker and
Members of the Legislature
State Capitol
Lincoln, Nebraska

Gentlemen and Mrs. Orme:

I respectfully request your permission to introduce legislation which will provide additional duties for the Nebraska Safety Patrol with reference to the inspection of motor vehicles.

Under existing law, our Nebraska Safety Patrol officers do not have authority to maintain check points or to conduct checking areas and thereby ascertain whether a motorist is duly authorized to operate a motor vehicle, or whether that vehicle is in proper mechanical condition.

This has proved to be a serious deterrent to effective enforcement of laws affecting a motorist whose operating licenses have been suspended. Also it has permitted mechanically unsafe vehicles to be operated in a virtually unrestricted fashion.

In the interest of the safety of Nebraska motorists and the effective enforcement of existing laws, I respectfully urge the enactment of this legislation with all possible dispatch.

Respectfully submitted,

LEGISLATIVE RESOLUTION 31. Re: Memorializing the General Services Administration Protesting Disposal of the Omaha Alcohol Plant.

Introduced by Hans O. Jensen, 25th District.

WHEREAS, Agriculture is the basic industry in Nebraska, and

WHEREAS, one of the major problems facing agriculture, the state and the nation is the practical and economic disposal of the abundant production brought about by increased efficiency and technological advance of farm and ranch operations, and

WHEREAS, there are various proposals now pending in the Congress of the United States to promote a greater usage of farm products in industry, and

WHEREAS, these proposals call for greatly expanded programs of research in this field with experimental operation of pilot plants and facilities, and

WHEREAS, such legislative proposals have broad bipartisan support and hold a promise of a solution for disposal of farm surpluses and improvement of farm income, and

WHEREAS, these proposals also call for lease to private individuals or corporations of present government owned facilities which might be used in such programs of research and utilization, and

WHEREAS, one such plant is located in Omaha, Nebraska, close to ample supplies of surplus grain with excellent transportation facilities, water supply, and labor resources.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NEBRASKA LEGISLATURE IN SIXTY-NINTH SESSION ASSEMBLED:

1. We memorialize the General Services Administration of the United States that we protest any sale or disposal of the Omaha alcohol plant or any such similar plant prior to possible usage development for such plant under legislation now pending or being considered by the Congress of the United States or which might be introduced which legislation has for its purpose an expanded program of industrial usage for agricultural products.

MESSAGE FROM THE GOVERNOR

April 24, 1959

Mr. President, Mr. Speaker
and Members of the Legislature:

Gentlemen and Mrs. Orme:

I respectfully request permission of your honorable body to introduce legislation to establish a Nebraska Civil Service System, including the creation of a Civil Service Commission and a Director for its administration with prescribed duties, powers and compensation and to further provide for the assumption of the functions of the present Merit System Council, which legislation will further provide for the classification of positions, the establishment of compensation and the conducting of competitive examinations.

This legislation has been the subject of discussion for far too many years; it has never received the legislative attention that a matter of this importance to the State of Nebraska should merit. Nebraska has, over the years, been fortunate in recruiting people into public service who have dedicated themselves, at considerably less remuneration than might be extended to them by private industry, to the advancement of good government and the best interests of the State of Nebraska. Yet, as I assumed the duties of the office of Governor, I learned of the concern of these good people and the lack of security they were reportedly experiencing by virtue of a change in governmental administration. This feeling of insecurity and apprehension is small compensation for their dedicated service and should be eliminated.

Conversely, I learned of departments where the turnover in personnel approached a staggering ratio and here, at the other end of the ladder of public service, I found that insecurity in position, with other factors, was the basic cause for this unfavorable employment condition.

In the same connection, I was appalled to learn of the lack of standards as far as qualifications for employment were concerned, a condition which can best be remedied by a well-designed system of competitive examinations attuned to the responsibilities and talents required in the position sought.

Therefore, in order to ensure to the State of Nebraska that its public servants, when employed, will be qualified for the positions in which they are placed, in order to provide a systematic program of classification, salary and promotional standards, in order to create for our employees an employment condition which is not subject to termination on the outcome of an election, I respectfully request your permission to introduce the legislation above described and I urge its enactment with all possible dispatch.

Respectfully submitted

STATE OF NEBRASKA
(Signed) Ralph G. Brooks

MESSAGE FROM THE GOVERNOR

May 4, 1959

Mr. President, Mr. Speaker and
Members of the Legislature
State Capitol
Lincoln, Nebraska

Gentlemen and Mrs. Orme:

This message is to inform your honorable body that I have per-
mitted LB 560 to become law without my signature.

I believe that:

(1) LB 560 cannot be applied constitutionally to secondary boy-
cotts which were the avowed objective of the measure because of
federal preemption of this field of law;

(2) The injunctive provisions and the damage provisions of LB 560 cannot be applied constitutionally in cases affecting interstate commerce, and instances in which interstate commerce is not affected are so remote as to make the law virtually inoperable in practical application;

(3) The prohibitions of LB 560 are of dubious constitutionality even as applied to local commerce because (a) it supposedly guarantees individual employees' rights but provides no method for their enforcement thereby constituting a promise to the ear which is broken to the heart; (b) the criminal prohibitions are vague and uncertain; (c) it curbs only improper union practices and takes no cognizance of unfair management techniques; and

(4) LB 560 does not deal with the major causes of labor-management strife nor the major interferences by both employers and labor organizations with the rights of individual employees.

Despite the foregoing personal convictions, I well recognize that the subject of labor-management relations in Nebraska has descended from a basis of law and fact to one of base emotionalism. Frequently, the subject has caused emotional outbursts that have little connection with reality. Frequently, as in this instance, the subject has created a demand for legislation that is patently unworkable and unfair.

Ordinarily, I would consider it my duty as Governor to veto such a bill. This, however, is not an ordinary situation. A large segment of the public has been led to believe that LB 560 can do that which it cannot do and that it can cure that which it does not have the constitutional power to treat.

I believe, however, that the State of Nebraska will benefit if the air is cleared on the subject of labor-management legislation. I feel that LB 560, as the subject of legislative experiment with subsequent judicial analysis, can serve as a vehicle to clarify the atmosphere.

Therefore, in recognizing the obvious will of the legislature that LB 560 should be tried, I am permitting it to become law. When it proves to be a gaudy package without substantive effect, we can then proceed with the task of considering sound legislation.

I would not feel free to take such a course were it not for my firm conviction that our courts, under the established doctrine of separation of powers, should pass upon the constitutionality of this measure; were I to veto this bill, I would be invading their province. We can now await developments and observe whether the pur-

ported legislative panacea is a remedy for our industrial ills. The proponents of LB 560 now have a free and untrammelled opportunity to prove the merit of their treatment and have assumed the corresponding burden of proving that the law is not a snare and a delusion.

Respectfully submitted,

STATE OF NEBRASKA
GOVERNOR

MESSAGE FROM THE GOVERNOR

April 29, 1959

The President, the Speaker and
Members of the Legislature
State Capitol Building
Lincoln, Nebraska

Gentlemen and Mrs. Orme:

This is to request permission of your honorable body to allow me to introduce a bill for an act relating to motor vehicles, changing penalties for violating the speed laws of the state and excepting

certain suspensions from the effect of the Motor Vehicle Safety Responsibility Act.

At the Traffic Safety Conference, held in Lincoln on January 28, 1959, penalty increase for first offense speeders was considered to be a key step in combatting our increasing safety problem.

This legislation, if enacted, will provide that first offense speeders shall be fined not less than twenty-five dollars nor more than one hundred dollars, or imprisoned in the county jail for not more than thirty days, or both, and shall be ordered not to drive any motor vehicle for a period of seventy-two hours and suspend his license during that period; subsequent offenders shall be subjected to a minimum fine of fifty dollars, with the optional jail sentence, or both, and a thirty day license suspension.

In order to avoid administrative problems in connection with the Motor Vehicle Safety Responsibility Act, the provisions of that act will not be applicable in cases involving suspension for first offense violation of the speed law.

This legislation received the unanimous support of over three hundred representatives of various organizations throughout Nebraska.

As Governor, I heartily endorse this bill and recommend its passage with all possible dispatch.

Respectfully submitted,

STATE OF NEBRASKA
(Signed) Ralph G. Brooks
GOVERNOR

Communications

Letter from Walter Rogers, Chairman, Subcommittee on Irrigation and Reclamation, House of Representatives, acknowledging receipt of Legislative Resolution 27.

MESSAGE FROM THE GOVERNOR

May 7, 1959

Mr. President, Mr. Speaker and
Members of the Legislature
State Capitol
Lincoln, Nebraska

Gentlemen and Mrs. Orme:

This letter is to request permission of your honorable body to introduce legislation to implement the constitutional vote of the people authorizing the legalization of the game of bingo.

At the outset of this message, I should like to pay tribute to the diligent and dedicated effort of your Government Committee for without its conscientious effort in the preparation of earlier legislation considered by this body, a great many of the sound principles incorporated in the legislative proposal I now present would still be imaginary and unrealistic. At the same time, in asking Senator Klaver to introduce this proposal, I do so in the sure realization that his interest in this field over a period of several years, coupled with his painstaking study of bingo legislation in other jurisdictions, can result only in a stellar contribution to sounder legislation within the intent of our Nebraska people.

In addition, in presenting this new bingo legislation, I do so with the further confidence that emanates from the support of the social, fraternal, veterans and religious organizations who were unable to extend unequivocal approval to legislation which did not provide adequate enforcement measures but who do now recognize those desirable qualities in the legislation I present to you this day.

The intention of this legislation is to permit legalized bingo as a recreational and social diversion. It is its further intention to mitigate the possibility of big-time, free-wheeling, unrestricted and irresponsible gambling with its resultant adverse effect upon the moral fibre and economic structure of our Nebraska communities and our Nebraska people. I have been assured that this is the type of legislation contemplated by our veterans organizations. I have been assured also that, if bingo is to be legalized, this is the type of legislation advocated by our religious organizations. Those interested in bingo for entertainment in their social clubs, civic promotions and agricultural fairs have indicated similar approval.

Your honorable body has previously considered, to an extensive degree, an earlier bingo proposal. The current legislation has made great use of that earlier measure. It does, however, offer for your approval the following significant alternatives and additional provisions:

(1) It places the licensing, supervision and enforcement in an appointive officer. I suggest the Director of Agriculture and Inspection. I do not feel that such supervision should be vested in an elected official because of the possibility of recriminations by the electorate when displeased by the strictness of the enforcement.

(2) It specifies the non-assignability and non-transferability of the bingo license and, in providing for the conspicuous display of the license at the bingo playing location, prohibits the removal of that license for the purpose of conducting bingo games at a place other than that described in the application and such license.

(3) It prohibits the payment of commissions or salaries to employees which are based upon a percentage of the receipts accruing to the licensee by virtue of the bingo operation.

(4) It prohibits the computation of rentals upon the basis of a percentage of the receipts accruing to a licensee by virtue of such bingo operation when the licensee is in occupancy of premises as a tenant.

(5) It continues the prohibition against bingo playing on Sunday and, at the same time, limits the hours of play on secular days to 10:00 A.M. until midnight.

(6) This proposal raises the age limitation from sixteen years to twenty-one years.

(7) In preserving the limitation of thirty cents for each player for each game, it permits the issuance of any number of cards to a player so long as the thirty cent limitation per game is not exceeded.

(8) This legislative proposal calls for the imposition of a mandatory 10% tax on the gross proceeds received from bingo operation. One-half of the tax so collected will be retained by the county, city or village for credit to its General Fund and thereby furnish a partial measure of relief from our property tax burden. The remainder of the tax will accrue to the State of Nebraska to defray the costs of administration and supervision with any remaining balance credited to the General Fund.

(9) In view of the imposition of this tax, and in view of the fact that all proceeds, without exemption, shall be subject thereto, it was believed advisable to increase the retained percentage of the licensee to 50% of the amount remaining after the deduction of such tax. Further, the amount of prizes in one daily session is not to exceed \$750.00, the amount of receipts is not to exceed \$1,500.00 and there are to be no more than ten daily sessions in a calendar month.

(10) The proposal carries strong provisions for strict state enforcement and imposes upon the administering official definite responsibilities for the licensing, supervision, regulation and enforcement of the activity in coordination and cooperation with county and community law enforcement officials.

(11) In order to insure enforcement, penalty provisions have been made more realistic. The provisions for local option have been extended to counties as well as cities and villages.

(12) Where merchandise is offered as a prize to the winner, this law specifies that he shall have the option of receiving cash in lieu thereof.

I commend this legislative proposal to your immediate and expeditious attention in order that it may be enacted promptly with the emergency clause.

Thank you.

Respectfully submitted,

MOTION—Introduce Bill

Mr. President: I move that the Committee on Education be permitted to introduce a bill, the purpose of which is set forth in the following statement. (Signed) George Syas, Chairman

STATEMENT—Introduce Bill

This bill has been prepared to provide that a revolving fund would be established to be used by the county superintendents to pay for the cost of special education for physically and mentally handicapped children, the cost to be borne by participating schools who have contracted for such service with the county superintendent.

This bill is the result of a situation known to exist in Thayer County, which may also exist in other counties. The eight Thayer County schools presently have employed a speech therapist and find that under present statutes the only method by which they can pay the instructor is by each school's paying its proportionate share of the salary. In other words, each school writes a check, eight in number, for each month's salary. With the enactment of this bill, the county superintendent will pay the salary and will be reimbursed by the local school districts of the county participating in the program. In turn, the State Department of Education must reimburse each school district.

The bill is permissive legislation and will simplify the above outlined procedure of payments.

The Committee voted that the bill be introduced, 4 ayes, 1 not voting and 2 absent and not voting.

(Signed) George Syas, Chairman

May 13, 1959

Senator Frank Nelson
Nebraska Legislature
State Capitol
Lincoln, Nebraska

Dear Senator:

You inquired as to the opinion of this office with respect to the constitutionality of L. B. 157 as it has been amended to date. Orig-

inally L. B. 157 merely added Antelope and Boone counties to the Nebraska brand area. It has subsequently been amended rather extensively. A provision of the bill as it is now amended leaves original Section 54-134, R. S. Supp., 1957, as it was before, and adds several new provisions. One of the new provisions would provide for a procedure whereby additional counties could be brought into the brand area upon a petition of a percentage of owners of cattle in a county joining the brand area. The amendment provides for an election upon notice in a legal newspaper. It is provided that the notice shall state, "that the election has been called for the purpose of affording the electors an opportunity to approve or reject the proposition of including the county in the brand area as defined in Section 54-134." It is later provided that, "approval of the inclusion of the county in the brand area as defined in Section 54-134 shall be by sixty per cent of the qualified electors * * *."

This office is of the opinion that amended L. B. 157 is unconstitutional as a delegation of legislative authority in violation of Article II, Section 1, and Article III, Section 1, of the Nebraska Constitution. Section 54-134 is a section which enumerates a number of counties and other areas, less than a county, within counties, and states that such areas shall constitute the Nebraska brand inspection area. The attempt of the amendments to this bill is to empower individuals to enlarge upon the field theretofore prescribed by the Legislature by the adoption of Section 54-134. The Legislature recognizes that the enumeration of the brand area is a legislative field. Yet the very language of the amendment is that the approval at the election provided shall include the county in the brand area "as defined in Section 54-134".

Amendments to L. B. 157 also provided that, "if an owner or operator of cattle owns or controls a ranch or farm within the brand inspection area and also owns or controls a ranch or farm in an area within ten miles of the brand inspection area, * * *", he may be given permission to move his cattle freely to and from the ranch or farm without inspection. We deem this provision a matter within the legislative realm and not one which appears patently unconstitutional.

In the short time we have had to study this proposal, it appears to us that the general file amendment of April 28, which adds the procedure for including additional counties to the area, is one which would not be constitutional.

Very truly yours,

CLARENCE S. BECK
Attorney General

GENERAL FILE**LEGISLATIVE BILL 678.** Read and considered.

Mr. Carpenter offered the following amendments:

1. Amend the bill by striking sections 1 and 2 and inserting in lieu thereof 16 new sections to read as follows:

"Section 1. There is hereby created, pursuant to the provisions of Article V, section 1, of the Constitution of Nebraska, a court to be known as the Court of Claims.

Sec. 2. The Court of Claims shall have jurisdiction to hear and adjudicate all claims against the State of Nebraska seeking the recovery of money only arising out of either contract or tort on and after January 1, 1951. Consent is hereby given to sue the State of Nebraska in the court established by this act subject to the limitations prescribed.

Sec. 3. The Court of Claims shall be composed of one judge who shall be appointed by the Governor.

Sec. 4. The term of office of the judge of the Court of Claims shall be four years. He shall be required to possess the qualifications and shall be paid the same salary as a judge of the district court.

Sec. 5. The office of the Court of Claims shall be maintained at the State Capitol.

Sec. 6. All actions in the Court of Claims shall be instituted by the filing of a petition and two copies thereof in the office of the clerk of the district court of either (1) the county where the plaintiff resides, if an individual, or where the plaintiff maintains its principal place of business, if a partnership, corporation, or association, or (2) the county where the cause of action, or some part thereof, arose.

Sec. 7. Upon filing of the petition, the clerk of the district court shall docket the case in a separate docket maintained by him for that purpose, and shall issue a summons for the State of Nebraska which, together with one copy of the petition, shall be sent to the Attorney General by registered mail. The other copy of the petition shall be sent by registered mail to the office of the Court of Claims. For his complete services in the case, the

clerk of the district court shall be paid a fee of five dollars, which shall be paid to him by the party filing the petition at the time of the institution of the action and shall be taxed as costs in the action.

Sec. 8. The Attorney General shall, within twenty days after receipt of copy of the petition, file an answer and two copies thereof in the office of the clerk of the district court where the action was instituted. The petition and answer shall be the only pleadings permitted. One copy of the answer shall be sent by the clerk of the district court to the plaintiff and one copy to the office of the Court of Claims by registered mail.

Sec. 9. As soon as possible after answer has been filed, the judge of the Court of Claims shall set the cause for hearing in the county where the petition was filed, and shall notify the plaintiff and the Attorney General of the date set for trial by registered mail. The district court rooms of that county, or other space, shall be made available to the Court of Claims for the purpose of conducting the trial. The case shall be tried as a suit in equity without the intervention of a jury. In the taking of evidence, the rules of evidence prevailing in the trial of civil cases shall be observed by the Court of Claims. The Court of Claims shall render either a judgment for the recovery of money or a judgment of dismissal of the action, and shall tax the costs of suit against the unsuccessful party. The judgment rendered shall be subject to review by the Supreme Court in the form and manner provided by law for appeals from the district court to the Supreme Court. No bond on appeal shall be required of the State of Nebraska.

Sec. 10. In case a judgment is rendered against the State of Nebraska, and becomes final either by failure to appeal or affirmation in whole or in part by the Supreme Court of Nebraska, the clerk of the district court shall transmit a duly certified copy of the judgment to the Auditor of Public Accounts, who shall thereupon prepare a proper voucher and send it to the clerk of the district court for execution by judgment creditor. Upon return of the voucher properly executed, the Auditor of Public Accounts shall draw his warrant upon the State Treasurer on the Judgment Fund created by section 11 of this act for the amount of the judgment with interest computed at six per cent per annum upon the judgment from the date of entry thereof to the date of issuance of the warrant.

Sec. 11. There is hereby created a fund in the state treasury to be known as the "Judgment Fund," on which all warrants shall be drawn by the Auditor of Public Accounts for the payment of

judgments rendered against the State of Nebraska. The Legislature shall, in the biennial appropriation bill, appropriate to the office of the Court of Claims such amount as shall be reasonably anticipated will cover all judgments rendered against the State of Nebraska during the biennium.

Sec. 12. The Court of Claims shall be empowered to promulgate rules of procedure, not inconsistent with the provisions of this act, to carry out and effectuate the provisions thereof.

Sec. 13. The judge of the Court of Claims shall appoint a reporter, who shall possess the same qualifications and be paid the same salary as a reporter of the district court. It shall be the duty of the reporter to take in shorthand and transcribe in duplicate all testimony given at hearings and trials before the court, and to certify to same with an appropriate certificate. One copy of the testimony so taken shall become a part of the permanent records of the Court of Claims, and one copy shall be made available for transmission to the Supreme Court in case an appeal thereto shall be taken by either party.

Sec. 14. The Court of Claims shall employ such employees as the court finds necessary for the speedy dispatch of its work. They shall be paid such compensation as the judge of the court may prescribe.

Sec. 15. The provisions of this act shall be construed with and supplemental to sections 77-2406 to 77-2410, Reissue Revised Statutes of Nebraska, 1943, and a claim against the State of Nebraska founded on or growing out of contract, either express or implied, may be prosecuted either under the sections above set forth or under this act, at the election of the claimant.

Sec. 16. That sections 81-857, 81-858, 81-859, 81-860, and 81-861, Reissue Revised Statutes of Nebraska, 1943, are repealed."

MOTION—Introduce Bill

Mr. President: I move that the Committee on Public Works be permitted to introduce a bill relating to highways so as to require brakes on commercial trailers and semitrailers as prescribed. (Signed) Arnold Ruhnke, Chairman

STATEMENT—Introduce Bill

The Public Works Committee recommends the introduction of the attached bill.

I have received an opinion from the Attorney General's office stating that they believe LB 381, as passed, would make it mandatory that all trailers be equipped with brakes on each wheel that could be operated from the driver's position of the towing vehicle. This, of course, would include all light, two-wheeled trailers and I do not believe that this was the intention of the Legislature.

This bill provides that only commercial trailers and semitrailers need be so equipped.

A copy of the letter from the Attorney General's office is attached. (Signed) Arnold Ruhnke, Chairman

Permission to introduce the bill granted with 30 ayes, 0 nays, and 13 not voting.

Point of Personal Privilege—Visitors

One Hundred years ago, 1859, Antone Santo and family came to Nebraska from Delphos Allen County Ohio to Old Arago in Richardson County. Through all the years regardless of Indian raids, Jayhawkers pillaging during agonizing Civil War days in 1860, severe winters, intense heat and drought with no farm relief or Governmental aid of any sort in by-gone days, they remained steadfast and loyal Nebraskans to this very day in 1959.

Of the nine children of Joseph and Anna Santo family, only two survive, Fred Bryan Santo and George.

Fred and wife, Grace, are visiting George and the Unicameral Legislature from Rawlins, Wyoming, where Fred is a Union Pacific Engineer of many years' service.

MESSAGE FROM THE GOVERNOR

May 18, 1959

Mr. President, Mr. Speaker and
Members of the Legislature
State Capitol
Lincoln, Nebraska

Gentlemen and Mrs. Orme:

I am respectfully returning to you, without my signature, LB 516
and LB 639.

The people of the State of Nebraska have consistently rejected any attempt to increase the salary of the most important body in our entire governmental system, to wit: The Unicameral Legislature. I cannot help but view this as a demonstration of their sentiment with reference to salaries of other constitutional officers. Until such time as the people of Nebraska authorize salary increases for the legislative body, this office cannot look favorably upon salary increases for others.

At this writing I understand that you are considering legislation which will include a salary increase for the Governor. In the event such legislation reaches my desk, I intend to view that legislation in the same light as I have viewed the proposals herewith returned to you.

Our state employees are in one of the very lowest salary brackets for the work which they do and yet we have been unable to establish a civil service system which would tend to better the terms of employment and give to them a much needed sense of security. While I realize that our present salary structure is inadequate, I do not feel that it should be revised on a piecemeal basis and until such time as the salaries of all state employees can be adjusted to a proper level, as well as the salaries of the legislature, we should exercise considerable restraint in our expenditure of public funds in this area.

Respectfully submitted,

STATE OF NEBRASKA

(Signed) Ralph G. Brooks

Mr. President, Mr. Speaker and
Members of the Legislature:

Gentlemen and Mrs. Orme:

I have examined the provisions of L.B. 23 and have concluded that I cannot extend my approval to the same. Accordingly, I am herewith returning it to you without my signature.

The reasons for my disapproval are three fold:

(1) It would entail and authorize the licensing of an untold number of additional liquor outlets to the potential detriment of the general public;

(2) It would authorize the sale of liquor other than beer on Sunday; and

(3) In the issuance of additional licenses anticipated under this act, there is no opportunity for the governing body of the municipality in which applicant is located to state the position of such governing body with reference to such application.

Respectfully submitted,

MESSAGE FROM THE GOVERNOR

May 28, 1959

Mr. President, Mr. Speaker and
Members of the Legislature

State Capitol
Lincoln, Nebraska

Gentlemen and Mrs. Orme:

This letter is to request permission of your honorable body to introduce legislation whereby the salaries of state officers and employees will be paid on a semi-monthly basis.

For several weeks, a study has been underway at the principal instance of our able State Treasurer, Richard R. Larsen, to evaluate salary-paying procedures of the State of Nebraska. As a result of that study, it is believed that the convenience of the employees and the best interests of the State can be served economically by paying state employees on a semi-monthly basis.

While it is realized that it is late in the legislative session, and I dislike to trouble you with additional legislation, nevertheless, it is believed that, in the interest of our employees, this matter merits your prompt and effective consideration and attention.

I am informed that adoption of this legislation will require amendments to LB 72 and LB 74 in order to achieve the maximum degree of consistency, but I am confident that these amendments can be inserted during your consideration of these two legislative proposals.

I recommend the instant legislation to you and urge you to adopt it with all possible dispatch.

Respectfully submitted,

STATE OF NEBRASKA
(Signed) Ralph G. Brooks
GOVERNOR

MOTION—Introduce Bill

Mr. President: I move that the Committee on Judiciary be permitted to introduce a bill, the purpose for which is contained in the attached statement. (Signed) Ray C. Simmons, Chairman

STATEMENT—Introduce Bill

This proposed bill is a uniform act adopted by several states and relates to the disposition of unclaimed property and is intended to cover all of the field of escheat which is now limited to estates of heirless decedents.

It brings under State jurisdiction such items as excess funds of dissolved corporations; unclaimed bank deposits; abandoned safe deposit boxes; unclaimed insurance benefits; undeliverable public utility deposit refunds and excess rate refunds; abandoned cashiers checks and travelers checks; ownerless shares of stocks with dividends; escrow funds; abandoned trust accounts and all other property to which the rightful owner has not made claim.

Procedure is set forth requiring holders of property in their possession that is unclaimed for a certain length of time to make report thereof and to pay the same into the state treasury by which the holder is relieved of all liability. The state holds the funds, provision is made for notice and other safeguards of due process, and payment may be made to the rightful owner after proof.

The state may use the unclaimed funds pending the claim of the rightful owner.

The bill follows the report of the National Conference of Uniform Law Commissioners and has been adopted by New York, Michigan, Massachusetts, Pennsylvania, Arizona, Utah, Oregon and Washington.

MESSAGE FROM THE GOVERNOR

June 2, 1959

Mr. President, Mr. Speaker and
Members of the Legislature
State Capitol
Lincoln, Nebraska

Gentlemen and Mrs. Orme:

This special message is to advise you that I have, on this date, signed LB 2, LB 404, and LB 437.

Particularly with reference to LB 2 have I experienced a great deal of difficulty in reaching this decision for two reasons: (1) The dis-

regard of this legislative body for the salutary civil service legislation I proposed in order to bring security and stability of employment to our state employees; and (2) The fact that LB 2 includes a provision to increase the salary of Governor from \$11,000 to \$14,000 per annum.

With reference to both factors, however, I have concluded that they should not influence my judgment to the detriment and disadvantage of another separate branch of our governmental system. An analysis of the latest available information indicates that, with reference to the salaries paid to district judges, eight states pay less than does Nebraska, four states pay the same as does Nebraska, and thirty-eight other jurisdictions (including Hawaii and Puerto Rico) pay more than Nebraska pays its district judges. Projecting LB 2 with the pay raise therein included would place Nebraska in a position where but thirteen jurisdictions rank lower than does our state, with its able judiciary, and with Nebraska ranking thirty-third in population, this would leave us thirty-eighth in the salary scale. As the salary schedules in the more populous states indicate, population is a definite factor in determining the salaries of the judiciary.

Similarly, with reference to the proposal to increase the salaries of our supreme court judges, five states pay their supreme court members less and five states pay the same amount as does Nebraska. An analysis of all available information indicates that the Nebraska judicial salary scale is definitely below the national average and that, even with the present contemplated salary increase, Nebraska still will be below that of the average salary paid in other states with similar population factors.

While I have expressed opposition to salary increases until such time as the Legislature receives adequate compensation for its services and until such time as salary increases can be considered for all state employees, I have concluded that the judicial branch of our government, fortunately staffed at the moment by distinguished and dedicated men of learning, should receive the benefit contemplated by this legislation. Other considerations influencing my decision in this respect are the fact that no salary increase can become effective until 1965 if this legislation fails of enactment and the additional fact that our judicial retirement act will prevent the reelection of a great many of the members of our judiciary. The salary, even at the proposed level, is hardly sufficient to induce qualified men to assume this responsible position and those who do assume the position will be called upon to make a financial sacrifice in any event. The proposed salaries are distinctly below that originally contemplated by the Legislature and below that to which I had earlier expressed opposition, and I commend the Legislative

Committee for their deliberate effort in reaching these conclusions concerning salaries.

I shall respectfully seek your permission, however, to introduce legislation amending LB 2 to restore the salary of the Governor to the original level of \$11,000 because of my feeling on the subject as far as the pay standards of the other servants of Nebraska are concerned.

With reference to LB 437 increasing the salaries of municipal judges and the clerks of municipal courts, I have signed the same because I deem these matters of local consideration and there has been no opposition by the legislators in the affected cities.

If it will be of assistance to you in your deliberations, I expect to sign LB 4 when it reaches this office for substantially the same reasons as those outlined in my earlier comments concerning the judiciary and for the additional reason that salaries at the county level are in distinct need of an upward adjustment.

The salary increases of the deputies considered by LB 404 are nominal and I have accordingly approved the same.

I suggest to you, in view of my earlier veto of LB 536, that you might wish to reconsider your failure to override it on May 26 and provide to the Secretary of the Railway Commission the salary therein contemplated.

The salaries of the Workman's Compensation Court provided by LB 516 which I vetoed and which you failed to override on May 19 provided for increases in excess of that extended to other members of the judiciary, and I make no further recommendation concerning this item of legislation other than to suggest your reconsideration of your failure to override in view of the fact that the court salaries do not come from property taxes.

Respectfully submitted,

STATE OF NEBRASKA

The Clerk read the following opinion:

May 5, 1959

Senator Stanley L. Portsche
Nebraska Legislature
State Capitol
Lincoln, Nebraska

Dear Senator:

You have asked us regarding the effect of L. B. 611, assuming its passage by the Legislature and a favorable vote by the people at the general election in 1960. Our references will be to the bill as amended by the standing committee.

If adopted, the amendment would permit the Legislature to amend existing statutes in such a way as to authorize "any lottery or gift enterprise * * * (unless) the consideration for a chance to participate involves the payment of money or the purchase of property, services, chance or admission ticket, or requires an expenditure of substantial effort or time". In other words, the Legislature would be able to authorize promotions by merchants such as were held illegal by our Supreme Court in the case of *State, ex rel. Line v. Grant*. In that case, a merchant proposed to give away a toy automobile to the person whose name was drawn. In order to become eligible for the drawing it was necessary to go into his place of business and register. Since the object of the promotion obviously was to get people into his place of business in the hope that they would become customers, it was held that the promoter derived a benefit from it, and the Court necessarily held that this constituted sufficient consideration to make the scheme a lottery. If this amendment is adopted and the statutes changed, that type of promotion would be authorized, because I think we could all agree that the requirement of going in to register would not involve "an expenditure of substantial effort or time."

At the present time, almost without exception, all types of business promotions are illegal if the winner is determined by means of a drawing. This amendment would permit them to be legalized if you did not have to pay anything to enter and did not have to buy anything.

An example of what would still have to be illegal even if this amendment is adopted, is a promotion which our office was called on to stop just this past week. The merchants in this particular town who were members of the Chamber of Commerce advertised that anyone who came into any of their stores during a particular week and bought something would be given an entry blank. After the purchaser's name was put on the blank, it was to be put in a sealed box, with the winners to be drawn on May 9. Since these merchants required a purchase before you were eligible to enter, the proposed amendment still would not legalize this particular type of promotion.

The amendment would not make it possible to legalize bank night at theaters, because of the necessity of buying an admission

ticket. Nor would the Legislature be able to legalize door prizes where an admission charge is made, such as in the case of dances where they give away a car or a turkey, or any other prize.

Very truly yours,

CLARENCE S. BECK
Attorney General

MESSAGE FROM THE GOVERNOR

June 4, 1959

Mr. President, Mr. Speaker and
Members of the Legislature

Gentlemen and Mrs. Orme:

This letter is to request your permission to introduce legislation returning the salary of the Governor of the State of Nebraska to \$11,000.00 from the figure of \$14,000.00 provided by LB 2 of this current legislative session and which I signed in order that our judiciary might have the benefit of the increased salaries for them therein contained and in my approval message of which I indicated that I would introduce this legislation to restore the salary of the Office of Governor to the level theretofore existing, to-wit, \$11,000.00.

I have stated repeatedly my position with reference to salary increases and I do not wish the salary of Governor to be increased until such time as a systematic and orderly wage scale can be adopted for all employees of the State of Nebraska.

I respectfully commend this legislation to your attention and urge its enactment with all possible dispatch.

Respectfully submitted,

STATE OF NEBRASKA
(Signed) Ralph G. Brooks
GOVERNOR

MESSAGE FROM THE GOVERNOR

June 4, 1959

Mr. President, Mr. Speaker and
Members of the Legislature
State Capitol
Lincoln, Nebr.

Gentlemen and Mrs. Orme:

I respectfully request your permission to introduce legislation to increase the salary to be paid the judges of the Nebraska Workmen's Compensation Court to conform to the provisions of LB 516 which earlier failed of enactment after the same had been passed by your honorable body.

I also respectfully request that permission be granted me to introduce legislation to increase the salary to be paid to the secretary of the State Railway Commission to conform to the provisions of LB 536 which earlier failed of enactment after the same had been passed by your honorable body.

Both these bills have, in their exact form, received full consideration by your honorable body at every stage of the legislative process and it is not anticipated that any of your time should be required in debate or committee hearing for that reason.

My approval of previous salary increase bills which you forwarded to my office, in my opinion, makes it incumbent upon both legislative and executive branches to see that these two items of legislation receive prompt enactment with the emergency clause.

Respectfully submitted,

STATE OF NEBRASKA
(Signed) Ralph G. Brooks
GOVERNOR

March 11, 1959

Senator Terry Carpenter
Nebraska Legislature
State Capitol
Lincoln, Nebraska

Dear Senator Carpenter:

You have requested us to examine L. B. 652 with regard to whether or not it contains classifications repugnant to the Constitution.

Article III, Section 18 prohibits the Legislature from enacting special laws "regulating the interest on money."

L. B. 652 relates to retail installment sales and the regulation of time price sales. The first question then is whether this bill regulates the interest on money. We believe that it does.

Courts, including our own, have universally held that a valid time sale does not violate usury statutes. This holding is based

upon a recognized common law right that a seller can sell his property for whatever he can get. Usury itself is entirely one of statutory regulation and in the absence of statute any rate can be charged. 91 C. J. S. 5 (5), p. 569. Inasmuch as the theory of the time sale is one arising out of the common law and places no restriction upon the consideration passing between buyer and seller, we feel that the only distinction between an open time sale and a restricted lending or forbearance transaction is one of statutory regulation. Thus when the time sale transaction is regulated it loses its common law identity, no longer has the freedom-of-price feature of a time sale, and becomes a matter of statutory regulation dealing with interest on money.

The next feature then is whether or not a valid statutory distinction can be made between financing of automobiles as a class and all other personal property. We feel that such a classification may not be valid.

We are aware that the automobile industry is unique in itself. Certainly no one can deny the impact on our national economy which this industry carries. From a small beginning around the turn of the century, the automobile industry has grown and expanded until now automobiles on the road today number in the millions. Growing proportionately is the allied field of automotive financing.

The automobile has been the subject of special legislation in the fields of safety and taxation. It differs from the ordinary chattel in that it is mobile. Its very mobility appears to have a bearing on the risk involved. It can be moved easily into another jurisdiction. It can easily be destroyed or expensively wrecked.

However, special legislation exempting automobiles from rates based upon the sale of goods, wares and merchandise was considered by this office to be in conflict with the Constitution. Report of Attorney General, 1957-1958, p. 123, dated April 8, 1957.

Furthermore, other specialized chattel industries have arisen. The mobile home industry and the television industry are two prime examples. If industrial expansion formed the only basis for legislation, we can see an immense and complicated potential growth of "interest" legislation. And within an automobile dealer's walls are found many items of personal property which, under the proposed act, would be financed at rates different from automobiles, including mirrors, radios, heaters, tires, and many others.

It is difficult, therefore, to discover a valid and constitutional basis to distinguish automobiles from any other class of personal property for financing purposes.

All of these features, we feel, support the position that the Legislature may not validly regulate automobile financing without destroying the constitutional prohibition against special legislation.

Our Court, in *Livingston Loan & Building v. Drummond*, 49 Neb. 200, 68 N. W. 375, has stated:

“* * * It has been very often decided by this court that if a law is general and uniform throughout the state, operating alike upon all persons and localities of a class, or who are brought within relations and circumstances provided for, it is not objectionable as wanting uniformity of operation, or as being in the nature of special legislation. * * * To this general statement it is perhaps necessary to add a qualification. The legislature may not arbitrarily and without any possible reason create a class to be affected by legislation where the result would be an infringement upon the constitutional prohibition. * * * But subject to that qualification a law is not special when it applies to all citizens and persons who may be brought under the circumstances affected thereby; * * *.”

The final question, concerns the features of the bill classifying maximum charges based upon the age of the automobile. These charges are in four separate classes, running all the way from 8% add-on for a new car to 16% for a car over four years old.

The validity of these classifications depends upon whether or not such classifications are arbitrary ones. If arbitrary, then such classification would offend the constitutional prohibition.

It is the opinion of this office that the courts of this state would hold such classification to be arbitrary and thus repugnant to the Constitution of the State of Nebraska.

We have searched diligently for any judicial authority which would help guide this decision and have found none.

At least eighteen states have recently passed legislation in this field. Of these, Alaska, Florida, Iowa, Minnesota, Oregon, South Dakota, and Maine have passed legislation dealing specifically with installment sales of automobiles. Kansas has passed a law similar to L. B. 652.

Of these latter states, Oregon and Minnesota have a similar constitutional prohibition against special legislation regulating the interest on money. To date no cases challenging or affecting the validity of these laws have been reported in those jurisdictions.

The only Nebraska case directly bearing on the constitutional prohibition is *Althaus v. State*, 94 Neb. 780. This case had to do with a rate of interest on loans secured by chattel mortgages on

certain classifications of personal property. This case held that there was no substantial difference of situation or circumstance that would naturally suggest the justice or expediency of diverse legislation with respect to the objects classified.

Arguments in favor of this present diverse classification focus into one hypothesis; namely that the older the car, the greater the risk, therefore the higher the rate. This assumes that the risk on a \$500.00 loan on a new car is substantially less than the same loan on a 1954 model automobile. Yet the industry itself controls the risk by reducing the amount loaned on the older car. But, the industry states, it costs as much to process a \$200.00 loan as a \$1,000.00 loan. On the other hand, the dealer himself as a "retail seller" under the act can include such business expenses in the price of the car. This in turn is answered by the argument that the cash customer then must share part of the expense of a time sale customer.

But, aside from such economic arguments, if age and risk are so closely tied together, why is the risk any greater in a class 2 new car than a class 1 new car? A purchaser of a new 1959 model car would pay 8%. A purchaser of a new 1958 model, even though never moved from the floor or driven would pay 11%. We find it difficult to establish a reasonable distinction in this case based upon age.

The purchaser of a used 1959 automobile also pays 11% add-on as compared to 8%. This represents nearly a 50% increase in rates on an automobile that could conceivably have but one day's use, been re-possessed and re-sold. It would appear that this distinction is arbitrary. Once again, our purchaser, having limited budget, purchases a 1957 model because it is cheaper than a 1958 model. He pays the same rate as a purchaser of a 1958 model although his automobile is a year older. He is thus, in effect, penalized in the "interest" he pays not because he himself is a poorer financial risk but because his budget forces him to buy an older car.

The economic arguments run pro and con but, in the last analysis, it is the purchaser who is to be protected by this legislation. When he enters a new and used car establishment he is immediately affronted with four different "interest" rates. He not only has to keep in mind what year model he wants, but he has to weigh between new, used, and age. The high rate of interest falls squarely and completely upon the purchaser of the older model automobile. He is penalized by his economic position.

The argument is then advanced that this "penalty" is present in the small loan laws and the higher rates of interest on loans

of lesser amount. The answer we believe is that rates varying upon the amount of money loaned have been recognized and upheld for many years and if those rates are too high then it is the function of the Legislature to adjust them.

Even within age groups there are differences. The first 1957 car off the assembly line is almost a year older than the last one off, yet their "age" for the purpose of fixing a rate is the same.

Weighing as we must the many facets of this complicated problem, we reach the conclusion that there appears to be no convincing evidence that L. B. 652, insofar as it pertains to financing rates on automobiles, is based upon distinctions other than arbitrary. For this reason we conclude that our courts would hold L. B. 652, in this particular field, repugnant to our State Constitution.

Very truly yours,

CLARENCE S. BECK
Attorney General

MESSAGE FROM THE GOVERNOR

June 9, 1959

Mr. President, Mr. Speaker
and Members of the Legislature

Gentlemen and Mrs. Orme:

At the time of enactment of LB 387, objection was raised to the provision of Section 3 thereof requiring the performance of an autopsy within four hours.

It has been pointed out to this office that the four hour limitation creates a virtual pathological impossibility.

In view of this circumstance, I respectfully request your permission to introduce legislation to correct this objectionable feature.

Respectfully submitted,

STATE OF NEBRASKA

MESSAGE FROM THE GOVERNOR

June 10, 1959

Mr. President, Mr. Speaker
and Members of the Legislature

Gentlemen and Mrs. Orme:

LB 710, when originally introduced, contemplated that the award for damages to a condemnee should include the reasonable cost of any necessary removal of personal property from the real estate which was the subject of the taking.

A subsequent examination of the applicable law indicates that this additional protection and compensation for Nebraska property owners is not available under the provisions of LB 710.

In order to provide this additional measure of damages, which is recognizably just and fair, as well as to give effect to the demonstrated legislative intent surrounding LB 710, I respectfully request your permission to introduce this new legislation and I commend it to your immediate attention and prompt enactment with the emergency clause.

Respectfully submitted,

STATE OF NEBRASKA

(Signed) Ralph G. Brooks
GOVERNOR

MESSAGE FROM THE GOVERNOR

June 11, 1959

Mr. President, Mr. Speaker and
Members of the Legislature
State Capitol
Lincoln, Nebraska

Gentlemen and Mrs. Orme:

I respectfully request your permission to introduce legislation authorizing the use of funds made available through an agency of the federal government to reimburse counties of our State for prescribed expenditures.

Most states of the United States have enabling legislation permitting them to distribute federal funds received among the counties within such states for the giving or strengthening of services to children and other related items.

Nebraska lacks this enabling legislation with the result that it is required to return, at this moment, \$40,000 or thereabouts to the federal government for distribution among states with such enabling legislation when there is an imperative, pressing, and urgent need for such funds within our own borders.

Were this a means to retain federal funds solely for the purpose of retention, I would not burden you with this legislative problem. I well recognize the tremendous load you have shouldered and are shouldering during this legislative session, and I commend you for it. However, the needs of our children, for additional and strengthened services for their well-being, requires our overriding consideration.

I respectfully urge the enactment of this legislation with all possible haste and with the emergency clause.

Respectfully submitted,

STATE OF NEBRASKA

LEGISLATIVE BILL 733. Placed on General File.

MESSAGE FROM THE GOVERNOR

June 16, 1959

Mr. President, Mr. Speaker and
Members of the Legislature
State Capitol
Lincoln, Nebraska

Gentlemen and Mrs. Orme:

It has just been brought to the attention of this office that an apparent inadequacy exists in our statutes whereby the City of Lincoln cannot control access to our highway system.

In view of the imminent construction of the Interstate Highway in this area, this matter is one which demands the attention of this session or I would not ask your permission to introduce it at this late date.

Further, in the event that controlled accesses are not obtainable, the Bureau of Public Roads will not approve federal matching funds for such projects.

This legislation will enable the City of Lincoln to contribute sound engineering practices to an integrating traffic safety program, provide more economical and efficient avenues of transportation, protect the investment of government in its highway system and extend the useful traffic life of the roadways when constructed.

I respectfully commend this legislation to your prompt attention with the request for immediate enactment.

Respectfully submitted,

STATE OF NEBRASKA
(Signed) Ralph G. Brooks
GOVERNOR

MESSAGE FROM THE GOVERNOR

June 17, 1959

Mr. President, Mr. Speaker and
Members of the Legislature

Gentlemen and Mrs. Orme:

LB 454 is herewith returned to you without my signature approving the same.

The court reporters have already received one salary increase and I indicated at the time I permitted that legislation to become law without my signature that the instant legislation could not receive my approval in the event it should reach this desk. While there may be salutary provisions therein contained in the eyes of the Judiciary Committee, nevertheless it is believed that our existing

ONE HUNDRED-THIRTEENTH DAY—JUNE 18, 1959 2105

statutes can accommodate the conditions and circumstances designed to be corrected.

However, the court reporters having already received one increase in remuneration this session, no additional increase at this time can receive the approval of this office.

Respectfully submitted,

STATE OF NEBRASKA

LEGISLATIVE BILL 74. Considered.

Mr. Thompson read the following:

REPORT ON RESOLUTIONS

June 19, 1959

To the Members of the Nebraska Legislature

Gentlemen and Mrs. Orme:

According to Section 3 of Rule 15 of the Nebraska Legislature, resolutions proposing that studies be made by the Legislative Council

are to be referred to the Executive Board of the Legislative Council before final action is taken on them. The Board is then to submit a report to the Legislature recommending that the proposed studies be made or rejected.

The Executive Board is herewith making its report on Legislative Resolutions 33 and 35. This report is being made in advance of the report on the other proposed resolutions for the following reason: LR 33 calls for a study of higher education in Nebraska and it is agreed that this would entail a special appropriation of from \$30,000 to \$50,000. Also, the introducer of LR 35, which proposes a study of the Department of Roads and the State Highway Commission, has requested a special appropriation of \$15,000 for this purpose. If the Legislature decides to authorize these studies and the additional appropriations, such action should be taken while amendments are being made to the Budget Bill on General File. None of the other proposed studies will acquire the expenditure of any funds in addition to those already included in the regular appropriation for the Legislative Council.

The Executive Board voted today to report on these two resolutions with the recommendation that the studies be made. This recommendation is made for the sole purpose of getting the resolutions before the Legislature so that it can decide whether the studies should be made and the additional funds appropriated.

Sincerely yours,

(Signed) Don Thompson
Executive Board
Nebraska Legislative Council
Senator Don Thompson, Chairman

UNANIMOUS CONSENT—Read and Print Statement

Mr. Carpenter requested unanimous consent that the statement relative to LB 724 be read and printed in the Journal. No objections. So ordered.

The Clerk read the following statement:

June 2, 1959

L. B. 724 COMMITTEE STATEMENT

Since the adoption of the present Nebraska Constitution in 1920, nearly 40 years ago, there have been changes in the economy

of this State, and the nation as a whole, probably not contemplated at the time our Constitution was adopted. One of those changes is the way in which certain commodities, particularly food products, are now produced and transported to market, especially in the case of frozen foods, such as fruits, berries, vegetables and meat products. The change has also taken place in the case of certain non-frozen or non-refrigerated food products, for instance, sugar. The area where the product is raised cannot absorb or use the entire crop or any great part of it. The product must be transported to distant markets. Since all of the crop cannot be thrown on the market at the same time it is necessary that somewhere along the line storage facilities be provided pending distribution to the ultimate consumer or user. In the case of frozen foods the storage facilities must be refrigerated warehouses, i.e., cold storage warehouses. Nebraska, and other midwestern states, being in the geographical center of the country, are particularly well located for the establishment of these intermediate or "in transit" warehouses and, since 1920, many such warehouses have been established in Nebraska. But equally good storage facilities, both cold storage and dry storage, have been established in adjoining and neighboring states and these warehouses are in direct competition with Nebraska warehouses for this storage in transit business. They are able to make heavy inroads on the business that would normally come to the Nebraska warehouses because in these adjoining states goods stored in transit pending delivery to some point outside the State are not exposed to taxation, and shippers and consignees who stop their goods enroute for storage pending delivery to final destination prefer to give their business to warehouses located in these states where the exposure to taxation does not exist.

The purpose of this Bill is to provide for the submission to the people of a constitutional amendment which will enable the Legislature, if it so desires, to place Nebraska warehouses on a parity with their competitors in adjoining states. Our present Constitution, adopted in 1920, provides that certain classes of property shall be exempt from taxation but of course no thought was given at the time of the adoption of this Constitution to exemption from taxation of these coast to coast and region to region shipments which, because of the economics of marketing, must be temporarily stopped in transit for storage pending delivery to final destination beyond the state. That class or character of merchandise had not materialized. Frozen foods had hardly been thought of. Consequently nothing is to be found in our present Constitution with reference to the exemption of such property from taxation while stored enroute in Nebraska warehouses.

The proposed Constitutional amendment which is the subject matter of this Bill would modernize our Constitution in the light of economic conditions and practices that have come into existence since the date of its adoption, and enable our Legislature, if it so desires, to place the Nebraska warehouse industry in a position of economic parity with its competitors in adjoining states by providing for the bonding and licensing of warehouses or storage areas for goods, wares and merchandise in transit in the State which are intended for and which are shipped to final destinations outside this State upon leaving such warehouses or storage areas, "and allowing the Legislature to exempt such goods, wares and merchandise from ad valorem taxation while in such warehouses or storage areas."

Our Constitution through timely amendments, should be kept abreast of the times. Constitutional limitations or omissions which have a tendency to limit the Legislature in the enactment of legislation conforming to existing business and economic conditions are a fit subject for reconsideration by the people. Unquestionably the Nebraska warehouse industry is being seriously harmed by the diversion of this storage in transit business to warehouses in other states, with no offsetting tax revenue since the merchandise thus diverted never comes into Nebraska. The overall purpose of this Bill is to free the next session of the Legislature from any supposed Constitutional limitations on its right to enact legislation exempting from taxation in Nebraska goods, wares and merchandise which are intended for and which are in fact shipped to final destination outside this state while the same are in storage in Nebraska warehouses which have been established for the purpose of handling such storage in transit business.

LEGISLATIVE BILL 724. By Committee on Revenue, Norman A. Otto, 34th District, Chairman

A bill for an act for submission to the electors of an amendment to Article VIII of the Constitution of Nebraska; to authorize the Legislature to establish bonded and licensed warehouses or storage areas for goods, wares, and merchandise in transit in the state which are intended for and which are shipped to final destinations outside this state, and to exempt such goods, wares and merchandise from ad valorem taxation while in such warehouses or storage areas; to provide for the submission of the proposed amendment to the electors at the general election in November, 1960; to provide for the manner of submission and form of ballot; and to provide the effective date thereof.

Be it enacted by the people of the State of Nebraska,

Section 1. That at the general election in November, 1960, there shall be submitted to the electors of the State of Nebraska for approval an amendment to Article VIII of the Constitution of Nebraska, to be known as section 2A, which is hereby proposed by the Legislature:

Sec. 2A. The Legislature may establish bonded and licensed warehouses or storage areas for goods, wares and merchandise in transit in the state which are intended for and which are shipped to final destinations outside this state upon leaving such warehouses or storage areas, and may exempt such goods, wares and merchandise from ad valorem taxation while in such storage areas.

Sec. 2. The proposed amendment shall be submitted to the electors in the manner prescribed in Article XVI, section 1, of the Constitution of Nebraska. The proposition for the submission of the proposed amendment shall be placed upon the ballot in the following form:

“Constitutional amendment to authorize the Legislature to establish bonded and licensed warehouses or storage areas for goods, wares, and merchandise in transit in the state which are intended for and which are shipped to final destination outside this state, and to exempt such goods, wares, and merchandise from ad valorem taxation while in such warehouses or storage areas.

- For
- Against”.

Sec. 3. That the proposed amendment, if adopted, shall be in force and take effect immediately upon the completion of the canvass of the votes, at which time it shall be the duty of the Governor to proclaim it as a part of the Constitution of Nebraska.

The Clerk read the following opinion:

June 1, 1959

Senator John G. Donner
Nebraska State Legislature
State House
Lincoln, Nebraska

Dear Senator Donner:

You have requested that we express an opinion with respect to the constitutionality of Section 54-134, R. S. Supp., 1957, with particular regard to the portion thereof which describes the location of three livestock sales barns as a part of the Nebraska Brand Area.

On January 29 of this year, Mr. Wenstrand of this office wrote a letter to you regarding the constitutionality of the above section. At that time this office said:

"We must assume, of course, that the areas set forth in this statute are the areas which are directly connected with the mischief sought to be remedied by the act; namely, cattle rustling. By this, we mean that it can be established that these areas represent the large cattle and ranching districts which, by virtue of their location, geography and cattle industry, are distinguishable from the other areas and locations in the state.

"If the foregoing propositions are true it is our opinion that our courts would have a basis for upholding the constitutionality of the statute in question."

We think the addition of the facts now brought forward, i.e., that a part of the area described in 54-134 is in fact no more or less than the ground upon which are located three livestock sales rings, rather than falling within the purview of the basic assumption of our former letter is directly contrary thereto. This seems abun-

dantly clear from the fact that these three sales rings on the perimeter of the county extremities of the brand area are not the only ones so situated. Other sales rings are situated in a similar manner with relation to the existing brand area, but are not included within the legislative brand area description.

As stated in the first letter, this office feels that as a matter of legal interpretation the benefit of any doubt as to the inclusion or exclusion of territory in the brand area must be assumed to reflect the policing needs of the state in a special situation. However, that assumption is rebuttable. The designation of a county, for instance, is a legislative utilization of a politically defined unit, and would seem to be a proper unit in the make-up of the area attempted to be regulated provided that it can be shown that the conditions in such county are such as the Legislature intends to reach. Accordingly, we must assume that in designating the counties which are enumerated in 54-134, the Legislature correctly and accurately determined the existence of the prerequisite conditions in the counties named. We would also suppose that in determining the area of the state's need other or smaller natural or political boundaries or units might be utilized in outlining the area. For instance, the east half of a county or all of a county above a certain river might more accurately determine the area for which the need exists. We must emphasize again that all of the foregoing is based on the assumption that as a matter of fact there is a true basis for outlining an area within the state where the police power needs to be exercised. On this we express no opinion; we merely concede the benefit of any doubt.

We are of the opinion, however, that the inclusion of the description of the three livestock sales rings is invalid on the face of the statute as special legislation proscribed by Art. III, Sec. 18, of the Nebraska Constitution. Conceding all benefit of doubt, we believe that the selection of but three of a number of livestock sales rings similarly situated for inclusion in the brand area cannot be reasonably justified for classification purposes. The function of the sales rings included is not dissimilar to those excluded. No basis exists for exclusive treatment. The many cases collected following the above constitutional section in the revised statutes are firm in opposing arbitrary classification. Furthermore, we deem it apparent that the purpose of including livestock sales rings in the brand area at all is different than the purpose for which the other areas were included, and that it is at least questionable whether such inclusion is justifiable under the exercise of the police power for the purposes it has been exercised in this field.

Very truly yours,
CLARENCE S. BECK
Attorney General

MESSAGE FROM THE GOVERNOR

June 23, 1959

Mr. President, Mr. Speaker
and Members of the Legislature

Gentlemen and Mrs. Orme:

Some time ago, your Honorable Body requested a report from this office on the circumstances surrounding the resignation of the warden of the Penitentiary.

Under the Statutes and the Constitution of this State, the administration of the state institutions is a matter for the executive branch of our government. The action of this office in connection with the resignation of the warden is one in which I have no hesitancy in making a report as a matter of courtesy and as Chief Executive but one in which I do not feel that there is any particular obligation to furnish information to the legislative branch.

Upon my assumption of the duties of the Office of Governor, I immediately began receiving reports of situations at the State Penitentiary which were not in the best interests of the people of Nebraska.

After I had satisfied myself that such reports were meritorious and were supportable in fact, I presented them to the warden who,

in view of these facts, agreed to resign. He subsequently changed his mind and reviewed the matter with the Board of Control. The evidence which I had was then presented to the Board of Control. The Board of Control acknowledged the accuracy of the information and that the same had been the subject of previous discussion with the warden. Four days later, the warden resigned. Thereafter, I suggested to the Board of Control that their search for the new warden should be conducted without regard for political affiliation but with sole regard for background, experience and qualifications in the fields of criminology and penology. The Board of Control has apparently pursued this recommendation and we now have a new warden at the Penitentiary who is not a political appointee but one whose recommendations indicate that a professionally trained person will be in charge of this important institution.

Respectfully submitted,

STATE OF NEBRASKA

(Signed) Ralph G. Brooks
GOVERNOR

SELECT COMMITTEE REPORTS

Committee on Contest

June 22, 1959

The Honorable Dwight W. Burney, Lieutenant Governor,
and Members of the 69th Session of the Nebraska Legislature

Gentlemen and Mrs. Orme:

Upon February 3, 1959 the President of this body appointed five members whose names are affixed to this report as the original Committee to carry out the duties of handling the contested election for the office of Governor of our State. By approving the Rules of Procedure, as outlined in the Legislative Journal under date of February 9, 1959, the Legislature instructed that when the duties of the Recount Committee were completed a report to you should be drafted, and in accordance with those instructions this report is submitted for your consideration.

It was necessary to hold numerous meetings by the Committee, exploring and discussing the procedure which the Committee would follow, and to submit rules to this body which would be fair and equitable to all peoples, and subsequently to be approved by the Legislature prior to the beginning of counting ballots.

There were several reports presented and officially approved and recorded by this body from time to time. Consequently, it is necessary to make, as a part of this report, those Legislative Journals and other documents which are as follows:

One copy of the Legislative Journal dated February 3, 1959 containing a summary of evidence pertaining to the contest on governor recount collected by the Committee on Committees and presented to this body. This copy of the Journal contains

a motion presented and duly passed, and so recorded on Page 367, that this Legislature direct that a recount be held for the office of governor during the 1958 general election. In this same edition of the Journal, and recorded upon Page 369, a motion was presented and duly passed directing the President to appoint a Committee of five senators who shall conduct the recount of the ballots and file a report of their findings with the Legislature.

On Page 370 of the Legislative Journal of February 3, 1959 the President appointed five members from this body to serve on the Recount Committee as follows:

A. A. Fenske, Chairman
Harold B. Stryker
Oliver Olinger
Richard D. Marvel
J. O. Peck

One copy of Legislative Journal dated February 9, 1959 containing a letter of instruction from the office of the Attorney General pertaining to the payment of expenses incurred by the Committee handling the recount procedure.

One copy of Legislative Journal dated February 18, 1959 in which a copy of the Rules of Procedure are printed and adopted by this Legislature.

One copy of Legislative Journal issued under date of February 21, 1959 wherein a change is recorded in the Rules of Procedure, by amendment, to enlarge the Committee from five members to fifteen members. This amendment was approved, and the President of this body appointed ten additional members to the original Committee, as follows: Senators Thompson, Nelson, Skarda, Diers, Gerdes, Erlewine, Vosoba, Romans, Swanson, and Lautenschlager. This action is recorded on Page 575 of the Journal.

One copy of Legislative Journal issued under date of February 27 in which there is printed the telegram presented to the Honorable Dwight Burney by Joseph S. Wishart in which he respectfully requests that the recount of ballots for the office of governor be discontinued and terminated immediately. Also, there is recorded a motion, which prevailed, that the contest be terminated and the recounting of ballots be discontinued by the Legislature.

The original copies of minutes covering various meetings of the Committee handling the recount procedure.

Also incorporated and to be considered as a part of this report there is attached a complete list of names, addresses, hours worked, and amount due recount employees.

Tabulation of 84,567 ballots counted by the Committee from precincts in Douglas and Lancaster Counties.

Copy of comments pertaining to ballots in question and disposition made by the Recount Committee.

The foregoing documents, as presented to this Legislative body, outline the progress and procedure followed by your Recount Committee. It need not be said that the task assigned to the Committee was a difficult one to handle, and from the outset it was the desire of the Committee to draft Rules of Procedure for your approval which would be fair to all parties concerned. We do feel indebted to those who worked with the Committee during the inception of setting up procedures that might be followed. Were it not possible to obtain the help of experienced people who have knowledge pertaining to this sort of problem, the assignment given to your Committee would have been still more difficult; and, to those people who lent their assistance we are grateful.

There were 84,567 ballots counted, and at the time the recount was discontinued, while numerous mistakes were discovered, there was apparent evidence that the outcome of the recount would be changed to a minor degree, should all of the ballots be counted that were cast during the gubernatorial race in the year 1958 at the general election.

Where there was a discrepancy or question on a ballot, a committee of three senators determined the validity of the ballot, and a record of this determination was recorded for each precinct. A copy of this determination is enclosed with this report, and we request it be placed on file for any future reference.

Please be advised that all ballots have been returned to the counties from which they came. The expense of returning these ballots has been paid in full. You are further advised that the records have been checked and a determination made with respect to the payment of any expense incurred by your Committee, and so far as we know, there is no reason why the funds placed on deposit by those demanding the recount should not be refunded.

This completes the report of your Committee, and it is presented to you for your approval, and so recorded in the Legislative Journal, in accordance with your instruction by Resolution duly presented and passed by this body upon February 3, 1959 and printed in the Legislative Journal. In closing the Committee

desires to express its appreciation for your patience and consideration in dealing with this problem.

Respectfully submitted,

MESSAGE FROM THE GOVERNOR

Mr. President, Mr. Speaker
and Members of the Legislature

Gentlemen and Mrs. Orme:

I am respectfully returning LB 1 to you without my signature of approval.

This bill would necessitate an expenditure of \$1.58 by the State of Nebraska to refund \$1.00 for a partly used sticker issued by the Game, Forestation and Parks Commission.

The obvious administrative difficulties, as well as this mathematically irreconcilable fact, are in and of themselves sufficient to justify a veto of this legislation. The fact that the bill does not carry an emergency clause, however, would result in the imposition

of this tax in three different fashions: (1) One group would pay the complete tax; (2) Another group would pay no tax; and (3) Still another group would have a portion of their tax payment refunded to them.

In addition, the Department would find itself forced to sell the stamps at \$1.00 until the law becomes effective and thereafter refund the tax at a cost of \$1.58 to the Department, and to the State of Nebraska.

The Department has authority to exempt areas within its jurisdiction insofar as the display of this sticker is concerned. I am advised that the Commission contemplates the issuance of this exemption, in view of the legislative attitude on this matter, which exemption will be made effective prior to the time that the 1960 stickers are placed on sale.

In the light of all these considerations, I am, therefore, respectfully vetoing LB 1.

Respectfully submitted,

MESSAGE FROM THE GOVERNOR

June 24, 1959

Mr. President, Mr. Speaker
and Members of the Legislature

Gentlemen and Mrs. Orme:

I am respectfully returning LB 687 to you, without my signature of approval.

This bill originally was introduced for the purpose of eliminating the Department of Athletics and combining it with the Department of Health. To this proposal, this office interposed no objection. It did recommend, however, that the power of appointment of the State Athletic Commissioner continue to repose in the Governor, who is elected by the people, rather than in the hands of an appointive official.

The State of Nebraska is tremendously interested in the athletic program under the supervision of the State Athletic Commissioner and I believe that, if this interest is to be respected, the Athletic Commissioner should be appointed by one who is elected by the people, rather than by an official who is appointed by a board.

ONE HUNDRED-SEVENTEENTH DAY—JUNE 24, 1959 2219

In addition, my attention has been invited to the fact that, in the event this bill becomes law, three changes will be required in LB 74. LB 74 is presently drafted to continue a separate Department of Athletics. If this bill becomes law, the budget bill must be amended to accommodate these changes.

This separate Department of Athletics has been in existence but a brief period. It would appear well to give it an additional biennium in order to explore fully the merits in mind in the recent session at which this separate department was created.

For these reasons, I am respectfully vetoing LB 687.

Respectfully submitted,

STATE OF NEBRASKA

REPORT ON RESOLUTIONS

June 25, 1959

Report of the Executive Board of the Nebraska Legislative Council on proposed Studies for the 1959-1961 interim period:

According to Section 3 of Rule 15 of the Rules of the Nebraska Legislature, resolutions proposing that studies be made by the Legislative Council are to be referred to the Executive Board of the Legislative Council, which Board is to make recommendations that the proposed studies be made or rejected.

In making its recommendations the Board has kept in mind that only 15 months will intervene between the end of the present session and the time when the studies will have to be completed and made ready for presentation to the entire Legislative Council. The Board has also considered the significance of the proposed studies to the state as a whole and whether or not studies on the same or closely related subjects have been made in the past. Finally, the Board has paid particular attention to resolutions proposing studies of current and outstanding problems and controversies.

A total of 30 resolutions have been introduced during the present session. It is obvious that all of these proposed studies cannot be made in the limited time available. If the Board has recommended against a particular study being made it is not because it feels there is no merit in the proposal, but only that perhaps others would accomplish more at the present time. Where possible, the Board has recommended the combination of two or more resolutions into one study. This will allow more of the studies to be made and will reduce the number of committees

necessary and thus the burden on the individual members during the coming interim period.

Following are the recommendations of the Executive Board with regard to the resolutions which have been introduced directing that Legislative Council studies be made:

Studies Recommended

1. **Legislative Resolution 1.** This resolution proposes a study of the state election laws and system. Because of the difficulties and controversies growing out of the last general election the Board feels that this will be a timely and important study.

2. **Legislative Resolution 3.** This will be a study of traffic safety and traffic laws, the adequacy of our rules of the road, the Uniform Motor Vehicle Code, and the enforcement of such laws and rules. Two other resolutions have been introduced on this same subject, LR 4 and LR 46. The Board is recommending the adoption of LR 3 with the understanding that it will cover all of the proposals mentioned in these other two resolutions. The language of LR 3 is broad enough to accomplish this purpose. As will be mentioned below, therefore, the Board is recommending that LR 4 and LR 46 not be adopted.

3. **Legislative Resolution 7.** This proposes a comprehensive study of state government reorganization in Nebraska. It will include a study of the functions and duties of all executive and administrative departments, boards, commissions, etc., their internal organization and operation, and all other matters designed to produce efficiency and economy in the state administration.

4. **Legislative Resolution 9.** This proposes a study of the Board of Control system of institutional management in Nebraska, of the functions, needs, management, and government of the various state charitable, mental, reformatory, and penal institutions. LR 10 proposes a similar study and it is recommended that it be merged with LR 9. Below, therefore, the Board recommends rejection of LR 10 because it is not needed.

5. **Legislative Resolution 18.** This study will cover the laws governing the brand inspection area in the state. The committee will examine into what areas of the state should be in a brand inspection area and what changes are needed in the laws to enforce properly the provisions relating to branded livestock. This is a recurring problem and the Board feels that some attention should be given it at this time.

6. **Legislative Resolution 29.** This proposes a study of the possibility of creating districts for school supervisory purposes and do so by combining counties into a district suitable to provide higher qualified persons for this type of work. This will entail an examination into the present county superintendent system in the state. The Board is recommending that LR 36, which proposes a study of free high school tuition, not be passed and that this subject be covered by the committee set up by LR 29.

7. **Legislative Resolution 33.** The Board earlier reported on this resolution for a study of higher education and it was adopted by the Legislature. No further action is needed with regard to this resolution.

8. **Legislative Resolution 39** (as amended). Proposes a study of the utilization of agricultural surpluses and the extent to which the activities of both state and federal agencies in this field are being coordinated.

9. **Legislative Resolution 40.** Calls for a detailed study of the organization and functioning of the State Railway Commission.

10. **Legislative Resolution 44.** Would provide for a study of labor practices in the state and the need for a State Labor Relations Act.

11. **Legislative Resolution 45.** This resolution would set up a committee to study the manner of taxing property in the state and the problem of exempting property from taxation. Another resolution, LR 41, proposes a study of the present method of taxing livestock in Nebraska and of proposed other methods of taxing this type of property. The Board recommends that this be joined with LR 45 and the same committee make both studies. Therefore, it will recommend that LR 41 not be approved.

12. **Legislative Resolution 49.** Proposes a study of the existing methods of diagnosis, commitment, and treatment of the mentally retarded, and the ways of fully utilizing the most modern scientific contributions available in this field.

13. **Legislative Resolution 48.** To provide a study of trends, progress and potentials in the general field of outdoor recreation in Nebraska, and the related problem of tourist attraction. Another resolution, LR 56, proposes a study of all aspects of the new Fort Robinson area. The Board is recommending that this be covered by the committee set up under LR 48. In addition, LR 14, proposing a study of advertising devices along highways in Nebraska, is being joined with LR 48. Thus, the Board will recommend that LR 56 and LR 14 be disapproved.

14. **Legislative Resolution 53.** This study would cover all aspects and phases of the penal and correctional system in the state, and the closely-related problem of parole. It would include a look at the desirability of creating a separate controlling authority for this specialized type of institution.

15. **Legislative Resolution 57.** This resolution would provide for a study of the laws of the state pertaining to nursing, convalescent, and outpatient homes for the aged and needy. Included would be the adequacy and safety of the facilities available for these aged persons at the various private institutions.

Studies Not Recommended

1. **Legislative Resolution 4.** This calls for a study almost identical with that included in LR 3 which is being recommended by the Board. There is thus no need for this resolution. This concerns the rules of the road, traffic safety, and enforcement.

2. **Legislative Resolution 46.** This resolution also calls for a study of the same problems included within LR 3 being recommended by the Board. All matters mentioned in LR 46 will be covered in the study to be made under LR 3. There is thus no need for the adoption of this resolution.

3. **Legislative Resolution 10.** Proposes the same type of study included in LR 9 which the Board is recommending be adopted. This is the Board of Control study. There is thus no need for the adoption of LR 10.

4. **Legislative Resolution 36.** The proposed study of free high school tuition called for by this resolution will be undertaken by the committee which the Board is recommending be set up under LR 29, which resolution would study the problem of creating districts for the supervision of the schools. There is thus no need for the adoption of this resolution.

5. **Legislative Resolution 41.** As explained above, the study of the method of taxing livestock in Nebraska called for by this resolution will be made by the committee set up under LR 45. LR 45 calls for a study of the manner of taxing property, and the Board is recommending its approval. There is thus no need for the adoption of this resolution, LR 41.

6. **Legislative Resolution 56.** The study of Fort Robinson proposed by this resolution can be made by the committee set up under LR 48. LR 48 calls for a study of outdoor recreation (including

parcs development) and the tourist industry. There is thus no need for the adoption of LR 56.

7. **Legislative Resolution 14.** This resolution also is not needed because the study it calls for, advertising devices along state highways, can easily be made by the committee set up under LR 43.

Thus, while the Board is recommending against the adoption of the above 7 resolutions, it is only because the studies they call for can easily be made by committees set up by the resolutions which the Board is approving. There is no need for these duplicating resolutions and committees.

8. **Legislative Resolution 35.** No action is needed on this because the Legislature has already acted in defeating its proposed study of the Department of Roads.

9. **Legislative Resolution 55.** This is a resolution that calls for almost the identical study originally requested in LR 35. Since the Legislature has already voted down LR 35 proposing this study, the Board feels that it is only logical to recommend against the adoption of LR 55.

10. **Legislative Resolution 51.** This would set up a study of the licensing of insurance agents in Nebraska. There appears no great demand for this study, and the industry itself says such a study is not needed. The problem is being handled adequately.

11. **Legislative Resolution 25.** This resolution calls for a study of the organization, functions, and methods of operation of the Legislature. A committee of the Legislative Council made such a study four years ago. In addition, the present rules committee of the Legislature has been working hard on this problem and the Board feels that nothing constructive could result from a similar study during the coming interim period.

12. **Legislative Resolution 50.** This would create a committee to study the advisability of creating an investment board of qualified persons with training and experience in investments to handle the investment of state funds. A committee during the last interim period considered this subject and recommended to this Legislature the establishment of such a board. The bill was defeated and the Board sees no reason to go over the same ground during the coming interim period.

13. **Legislative Resolution 38.** This would create a committee to study the salaries, duties, and retirement systems of state officers and employees. A committee of the Legislative Council made a study of state salaries just recently, and the existing retirement

studies were the object of a study just this past interim period. In addition, the proposed study of state government organization being recommended by the Board (LR 7) will naturally hit upon the matters mentioned in Resolution 38 to a certain degree.

14. **Legislative Resolution 54.** This is the proposed study of lobbyists and lobbying. The Board feels that this study would accomplish no good purpose and couldn't determine most of the questions mentioned in the resolution even as the result of a study.

15. **Legislative Resolution 47.** This resolution proposes a study of the need for and establishment of a juvenile court system for the entire state, the jurisdiction of the same, probably costs, and related matters. The Board feels that before any further study is made it be seen how the new law relating to Lancaster and Douglas counties works out during the next two years.

As was mentioned earlier in this report there is merit in all of the proposed studies, but it would be impossible to make them all in the short space of 15 months. A choice has to be made. The Board feels that the recommendations made in this report will result in an adequate interim study program covering major problem areas.

Mr. President and
Members of the Legislature

In view of the fact that the Governor exercised his right of veto over LB 687 and because time will not permit amendments which would be acceptable in order to override the veto, it is my considered opinion that this Legislature should, by letter, ask Governor Brooks to follow the law as it is written and substantiated by the Attorney General.

This means that he must insist that the Director of Athletics live in Lincoln. The present Director does not do so.

Sincerely yours,

June 26, 1959

Mr. President, Mr. Speaker and
Members of the Legislature
State Capitol
Lincoln, Nebraska

Gentlemen and Mrs. Orme:

The closing days of this legislative session have been accompanied by discussion concerning the position of Director of the Department of Veterans Affairs.

I have considered replacing the present Director, who is now beyond retirement age, with another veteran. These considerations have arisen for several reasons, some of which include:

1. He has permitted a state employee in his office to serve as head of a statewide organization requiring a vast amount of time, travel and expense; it has not seemed consistent with good office practice or governmental procedure to approve this situation and I do not propose that it should be continued.
2. I know that had I not been elected to this office the present director would have been replaced by his personally hand-picked successor without sufficient regard being given to the will and wish of every veterans' organization and that of individual veterans.
3. While it has been said that this office is a non-political office, it, nevertheless, has not been conducted as such and the present director has permitted himself to become associated closely with the political aspirations and objectives of partisan organizations and candidates.

* Original bills show June 26, 1959.

The Department of Veterans Affairs, however, deals exclusively with former members of our Armed Forces, their families and their widows. In all my appointments, I have been first concerned with the acceptability of the proposed appointee in the particular areas of interests which he would be asked to serve. I had received earlier acceptability of an appointee other than the incumbent. The organizations representing these veterans have formally recommended to me that the present Director be retained. This formal recommendation had never been made to me until the morning of June 26. The views of these organizations are valuable to me. Of even greater value, however, is the realization that the rank and file veteran, whose contribution to Nebraska is too often overlooked and whose views will not be disregarded by this office, is content with the present administration of this Department. I am pleased to have the benefit of their thinking and I have no hesitancy in responding to their suggestions.

I have counselled with representatives of veterans' organizations and individual veterans throughout the State of Nebraska. I have conferred with members of your Honorable Body, among them Senator Marvel whose wide experience in veterans' affairs has earned him the respect of Nebraska veterans.

I am confident that responsible members of veterans' organizations and the Veterans Advisory Council will correct those matters which I have heretofore mentioned. If that correction does not result, I will feel free to take additional action in this office.

In view of the lateness of the session, I respectfully recommend that you suspend your rules and confirm my reappointment of Louis R. Eby to the position of Director of Veterans Affairs.

Respectfully submitted,

STATE OF NEBRASKA

MESSAGE FROM THE GOVERNOR

June 27, 1959

Mr. President, Mr. Speaker
and Members of the Legislature

Gentlemen and Mrs. Orme:

We come now to the close of the 120th day, the final day of the Sixty-ninth Legislative Session.

When the record is finally written, informed observers of state government will record this session as one of the most historical in the proud progress of Nebraska.

There have been many divergent expressions of opinion in the painstaking procedure of providing constructive legislation for our

people. Some of these differences were attributable to diverse philosophies; these were settled in democratic fashion and that is always in the public good. Some of the differences were attributable, not to legitimate variations of philosophy, but on the sole ground of partisan politics. At times, during this session, this partisan characteristic submerged the best interests of the people of Nebraska.

Nebraskans will long experience the effects of this Legislative Session. Fortunately, the legislative advancements in the areas of taxation, education, highway safety and park and recreational development, exceed the legislative failures in the areas of civil service, a state labor relations law and billboard control.

Above the accomplishments and the shortcomings of this Legislative Session, however, stands boldly and clearly one irrefutable fact . . . Nebraska is proud that individuals of your stature in your community and in your varying walks of life will dedicate yourselves, your time, your talents, your comfort and your personal treasure to the fulfillment of a legislative objective which will contribute to the advancement of the Nebraska we all know and love so well.

Respectfully submitted,

STATE OF NEBRASKA
(Signed) Ralph G. Brooks
GOVERNOR
