upon the response that is received from the country prior to January 20th of this month. We do not have a lot of time, we will have to schedule the resolution for public hearing as soon as possible and hopefully we will get some influence from the people throughout the state and this can be channelled back to environmental protection agency and will have some bearing upon their action in this matter.

SPEAKER: Senator Schmit does the chair understand that the suspension of the rules would automatically refer the resolution for hearing in this instance and it would be referred to the executive board?

SENATOR SCHMIT: Thank you Mr. President.

SPEAKER: Senator Duis, for what purpose do you rise?

SENATOR DUIS: A question of the Chair if I might please, the other day a letter was read to the legislature from the Attorney General, regarding opinions and such, is what they would hear, we would be able to, what information and services we would be able to derive from the Attorney General, and I asked at the time for a copy of that and they said that it would be put in the journal and I'm wondering when it will be put in the journal so we might be, I've looked through it this morning, and I didn't find it.

CLERK: Mr. President there is a further Resolution. Legislative Resolution #7. (read)

SPEAKER: The Resolution will be referred to the Executive Board.

CLERK: Mr. President there is an announcement, there will be a committee on Committee Hearings today 1:45 to select a third lay member of the Conflict of Interest Committees and the meeting will be in 2102, that is the Legislative Council Hearing Room.

SPEAKER: Are there other resolutions on the desk?

SPEAKER: The Chair recognizes Senator Kremer.
