

March 20, 1973

a majority here is going to want a death penalty, let us truly pass a death penalty and not a hoax which portrays a death penalty in a sense of the word. Let me clarify one final thing, Senator Fellman brought up the point that these might be some other amendments, the one dealing with self-execution or as some have said, suicide. These amendments are not involved at this time. The only amendment before you is the mandatory death penalty instead of the death penalty

(End of Belt #4)
