the question. If somebody wants to challenge that, fine, but we'll go from there. But anyway we're going to divide the question now. Apparently take up Senator Whitney's objection to the amendment which is found on page 799 as a separate issue. Senator Lewis, now, do you want to speak to that set of circumstances?

CLERK: Mr. President, that's just paragraph 4 on page 799?

PRESIDENT: Wait a minute, I don't know that. I assume that from.....

CLERK: It was my understanding that it was paragraph 4 on page 799.

PRESIDENT: Paragraph 4 on page 799.

SENATOR FRANK LEWIS: No, that's not the particular section I want to ask Senator Warner a question about.

PRESIDENT: Stand by, will you. Just a minute until we can see what we can do here. All right, now, Senator Warner.... Whitney.

SENATOR WHITNEY: Mr. President, I have an amendment on the desk which would not therefore require (inaudible) question.

PRESIDENT: Senator Whitney. We're going to try to separate out because we want to vote, Senator Warner has moved on the rest of the material there. We will not be voting on that material to which you have objected and which is a part but I want to make sure that the Body understands that portion that we are reserving, I don't know how to explain that.... Senator Warner. Senator Warner. Senator Warner. Can you explain to the Body the portion of your three amendments that is not going to be considered at this time because the Chair has ruled the division of the question.

SENATOR WARNER: The only question that Senator Whitney wants separate is the number four on the bottom of page 799 and this is the section that determines the amount of insured needs which in turn determines the amount of equalization.

PRESIDENT: All right, now, we're discussing all of the other Warner amendments except that. Senator Waldron, do you want to discuss the Warner amendments other than that portion which has been divided out by Senator Whitney. Just as sure as the world, I'm going to get trapped here this morning. Go ahead, Senator Waldron.

SENATOR WALDRON: Mr. President, I'm rising in support of the Warner proposals and I would like to also, and I'm not going to speak again, I would just like to say something in line with what Senator Carpenter says. I have listened to the distinguished call by my distinguished colleague from Chappell for the last six years on this same issue and I know he has fought diligently. But the thing is, the time comes when we have to take the compromise. We must quit discussing every little detail of this bill because we understand it and no, we're not going to really influence anyone within this Body by going into a long discussion. Let's start voting on these amendments and get on to the important work of this Body. And that's all I want to say. Now is the time to compromise. Now,...

PRESIDENT: Any further discussion on the Warner amendments here with the exclusion with the one we've ruled out? Senator Nore, do you want to be heard on the Warner amendments? That's right, we're leaving that out. Okay, the question is, do you want to adopt the Warner amendments with the exclusion of that
