

where you create another agency and say where this agency hasn't been solving it so we will create a bigger agency.

SENATOR SYAS: OK, Now I remember that you were one that had something to say when I made this statement. My question to you is simply this. Since this probably this whole thing here is only involved with, say on the instance, and I could give you other instances but this would probably involve a \$3.00 gyp, totally. I suppose that this person could have gone down to a lawyer, hired a lawyer for a \$150-\$200 gone to district court and probably could have collected damages but it would have probably cost him \$500 by the time he got through. You see that is a falacy that I'm asking you as a lawyer of telling these people when this happens that you can always go to court, but it isn't practical to go to court. In my books, the amount involved is not great enough to let the lawyers to suck the blood out of you, you get more, you have paid more in fees that you collect. That is my a question.

SENATOR DE CAMP: OK, and I'm glad that you asked that question, because I have an answer for your Senator Syas. How long have you been here?

SENATOR SYAS: Well to some, too long.

SENATOR DE CAMP: Have you voted or did you vote for LB1032? The Court reform bill? Do you recall?

SENATOR SYAS: I don't think that I did.

SENATOR DE CAMP: Do you recall what was in that bill. Something about small claims court the whole purpose was to eliminate the need for attorneys and small claims.

SENATOR SYAS: That is right, I just figured that you would let that one out of the box.

SENATOR DE CAMP: It is something that does exist.

SENATOR SYAS: Just a minute, the instance I'm talking about there was no small claim court at that particular time.

SENATOR DE CAMP: That is why I'm saying that we have corrected a lot of the problems in the past and we now have the laws to solve the problems that you are complaining about.

SENATOR SYAS: Well now wait a minute, what if it isn't a small claim but it is in that area where you can hire an attorney but by the time you get through the trouble and the price, it isn't worth it.

PRESIDENT: Senator Duis has a point of order.

SENATOR DUIS: Mr. President, I (belt repeats) to remind the body that we have to pass 16 bills a day in order to get all of the bills taken care of this session.

PRESIDENT: Senator Schmit did you wish to speak.

SENATOR SCHMIT: Mr. President, members of the legislature, if I am allowed to do this, Senator DeCamp has asked for some specific examples and I can give him 1, 2, 3, 4, 5 if he wants them. I have purchased machinery that was faulty, and the dealer
