PRESIDENT:A Senator Kremer are you going to handle the amendments. The committee amendments.

SENATOR KREMER: Mr. President, I yield to Senator Goodrich. He's familiar with the committee amendments. And I think he is better able to explain them than I am. So I yield to SENator Goodrich.

CLERK: Mr. President, there are a series of amendments to the committee amendments, also.

PRESIDENT: Senator Goodrich, what is your pleasure?

SENATOR GOODRICH: Mr. Chairman, I move the adoption of the Mr. Chairman and members of the Legislature, I move the adoption of the committee amendments. There was 4 committee amendments which have been consolidated and I move the adoption of those. The committee amendments are technical in nature with one exception. And that is the, what we call the wheeling amendment. The amendment that Senator Lewis, Dick Lewis put on. Requested be put on, and I have no objection to that. So if we adopt the committee amendments, we are not only adopting the technical amendments, but the wheeling amendment, and I move the adoption of those.

SENATOR CARPENTER: For example, what do they do.

SENATOR GOODRICH: Well, if you would let me answer. The committee amendments. One of them for example, was as a result of consumers coming in and asking to be included in the bill. There was several of the cooperatives that wanted to be sure that they were included in the bill and we on the technical, what I call the technical amendments, we are just adding their amendments to include them, reference to their type of operation. Other than that it is the wheeling amendment.

SENATOR CAPRENTER: What is the wheeling amendment.
