

I really can't believe that there are six or seven district judges who would be willing to sign a letter saying that in their opinion that they think the bill would meet constitutional tests. I sort of am tired, I made my case before and I have the feeling that those of you who are going to vote with Senator Schmit, are doing so under a faulty image of or impression that you are helping little kids, and you are harming those evil guys that don't pay child support. Well I would join with you in a bill to hurt anybody that doesn't pay child support. But, even he is entitled to protection and more than that we as a legislature are responsible for acting with a high degree of diligence and conscientiousness. I don't think that this bill is a conscientious attempt to do anything. You are going to walk out of here thinking that you did something where in reality all you are doing is creating more litigation. I have got a list where there were 17 people voted to kill this measure and the a...a..the last time and I think that there are 8 or 10 more who are willing to vote for it if they were convinced that the bill was unconstitutional and that they wanted more opinion. I would suggest that the AttorneyGeneral's office now agrees with the argument that I have been making and I hope that the bill can be killed.
