

question, of all of the bills that have been set for dates certain, I would imagine that we are going to be discussing I imagine the budget for the rest of the week. I'm very concerned that we take in order those those bills that have been set for a date certain prior to setting any others for days certain. In other words I would go along with this motion Senator Waldron. I'm saying that those bills that were set but not debated for a day certain up to this point, this week, I want those ahead of yours.

PRESIDENT: Senator Waldron.

SENATOR WALDRON: That is fine Senator Luedtke I have had some of those there too and I have been waiting too.

PRESIDENT: Senator Duis, do you want to be heard on the motion? Senator Duis do you want to be heard on the motion? He is talking about one motion here. It is the Chair's understanding that he wants to unbracket 651 and set it for a hearing on next Tuesday. That is the issue before the body. Senator Nore.

SENATOR NORE: Is this a public hearing?

PRESIDENT: NO, set for debate here.

SENATOR NORE: Mr. President, I think that we could do this right now in about five minutes or less.

PRESIDENT: That is not part of the motion. Senator Clark for what purpose do you rise?

SENATOR CLARK: I would just like to have a point of information from the Clerk or the Chair. When do we have to cut off debate on General File? What day?

CLERK: The date on General File is not as important as the fact that they must be reported correctly engrossed at least the third day from the end of the session.

SENATOR CLARK: Can you do anything the last five days?

CLERK: Very little because there is a limit as to how much you can crank through the system on those two days.

SENATOR CLARK: We have six bills up there that have got to be heard. There is no question. They have to be heard sometime. They should have started yesterday noon. Here we are wasting a whole day again with nothing happening. When are we going to get some order that we can take the bills as they are supposed to be. Take the appropriation bills and get them started across. I don't understand what all of the delay is about. We aren't doing a thing.

PRESIDENT: I don't believe that the Chair can answer that.

SENATOR CLARK: I don't think that we are doing a thing. I think that it is a shame, it is a crime that we are sitting here doing nothing all of this time, talking about all of this junk.

PRESIDENT: Senator Keyes, motion before us is to unbracket 651 and set it for next Tuesday.
