

February 26, 1976

the Insurance Department, an emergency back up bill in the event that all no fault insurance support should drop. If no fault, there is a difference, and I'm not sure what it is. But, if there are those who prefer to see this committee statement in their book, then most certainly I would accede to that request. I have no objections.

PRESIDENT: There is a request that the bill laid over until when Senator Murphy?

SENATOR MURPHY: The statements should be in the book by tomorrow morning. They were turned in.

PRESIDENT: Alright, we will lay it over until tomorrow? Is there...oh, there is an objection. Senator Duis.

SENATOR DUIS: Well, Mr. President, I'm not sure about the objection until I get just a little more explanation as to what is going on.

PRESIDENT: Senator Lewis feels that there is not enough information to discuss the bill so we are going to lay it over until tomorrow.

SENATOR DUIS: I would like to ask Senator Murphy a question before I...or Senator Kennedy before I have the right too...

PRESIDENT: There is an objection. Senator Murphy.

SENATOR MURPHY: I would be glad to reply to the question.

SENATOR DUIS: My question, and I can withdraw my objection is the fact that...don't we have a number of bills in this relationship that are coming out of banking committee, out of health committee? Can't we sort of get all of these things together in one place at one time or is this completely a different subject.

SENATOR MURPHY: If I may Senator Duis, this is a totally divorced from the other malpractice bill considerations. This is an emergency bill that was requested by the Department of Insurance this summer when I asked the Director if he had a game plan, or if he had statutory authority to take over in the state in the event that all other malpractice insurers withdrew. This would be a bill that would be a self destruct bill, emergency only, so that there would be care provided under the director in an interim period to give some protection to our health care people. It does not go into all of the involvements of tort restrictions or mutuals or that. As far as the request goes it is not really a component of the other bills, Senator no.

SENATOR DUIS: Wouldn't it be possible, it isn't that big of a rush that we might hold it over until Monday of next week so that we would have a little chance to take a peek at it?

SENATOR MURPHY: I am in no...today at least, am in no hurry to do it. We do not have the crisis but certainly
