

March 5, 1976

CLERK: Read title to LB 1005.

SENATOR WARNER: Mr. President, I move that LB 1005 be advanced to E & R initial. What this bill is it re-enacts Section 6, 7 and 8 of LB 1004 of the last session which was a bill authorizing the municipalities to cooperate in the ownership, generation and transmission of facilities. The City of Lincoln was to make use of this and their bond council had some concern over the title of LB 1004 in conforming with this new material. So this portion of the bill is just a word-for-word re-enactment of that bill, LB 1004.

In addition, there is one new section in the bill which would authorize ... or clarify I should say that a municipality could contract ... or participate rather in the ownership, generation and transmission facilities if that generation plant was located outside of the state.

That's the purpose. If there are any other questions I'll be glad to answer them.

(President Whelan presiding)

PRESIDENT: Question is the advancement of the bill. Record your vote. Record.

CLERK: 25 ayes, 0 nays on the motion to advance.

PRESIDENT: The bill is advanced. LB 898.

CLERK: Read title to LB 898.

PRESIDENT: Senator Marsh.

SENATOR MARSH: Mr. President, members of the Legislature. LB 898 is permissive legislation allowing the City of Lincoln to purchase land from the Department of Public Institutions for future development. This is in conjunction with LB 21 which was passed in the 1975 Legislature. It will allow some additional land for the street which will help with the drainage and street circulation.

The land has been appraised at \$1,632.80. LB 898 stipulates that the land shall not be sold for less than this amount.

I move for the advancement of LB 898.

PRESIDENT: Any discussion? Record your vote. Please vote. Record.

CLERK: 25 ayes, 0 nays on the motion to advance, Mr. President.

PRESIDENT: The bill is advanced. LB 961.
