

The amendment that was suggested by Mr. Preston was to permit the use of reflectors rather than flags for safety purposes and that the clearance lights should be placed so as to not be confused with the tail lights. Presently, they can be all on the same level. This provides that they be on a different level or same level. I think that explains the bill as I understand it and I would move that it be advanced to E & R Initial.

SENATOR MARVEL: The motion is to adopt the amendments to 393. Senator Mills, your light is on, do you wish to make a comment in regard to this motion?

SENATOR MILLS: Yes, I think Senator Lewis has, I know he has correctly explained the amendment and it is brought about as he has explained. There's one other part to the amendment though that should be addressed for our own sake and that is the amendment on line 25, page 2. It defines the rear tail light so they aren't confused with the rear light on the trailer. I again, repeat, we should adopt the committee amendments.

SENATOR MARVEL: Is there a second to that motion? Do you have any other comments?

SENATOR R. LEWIS: No, sir.

SENATOR MARVEL: The motion is to advance 393 to E & R for Review as amended. All those in favor vote aye, opposed vote no.
