LB 114, 400, 152, 173,
190, 203, 340, 230

Speaker of the Legislature on the basis that in my five years in succession in the Legislature, this is really the first time that we're going to have a running total that's meaningful of what we're spending. I think this is great and I do hope it's continued day by day. Thank you very much.

PRESIDENT: Senator Savage.

SENATOR SAVAGE: May I ask Senator Warner a question, will he respond please? These two figures, the \$487 million plus the \$11 million plus add up to \$499 million, which is \$8 million over what the estimated revenue income will be. Is that correct?

SENATOR WARNER: Yes.

SENATOR SAVAGE: Thank you.

SENATOR WARNER: I should respond an additional, Senator Savage, that it would be improper, I imagine, to presume that the appropriations level recommended by the Governor would... there is nothing binding in the Legislature that we would need to appropriate that much. PRESIDENT: Senator Maresh.

SENATOR MARESH: Mr. President, members of the Legislature. This is a formality that we go through each session where the Business and Labor Committee reviews these two bills and holds hearings on them to...one is to allow claims and the other one is to disallow claims. These are the ones that the Claims Board has heard and then we act on these. I move that this bill be introduced. The one to allow the claims.
