LB 344

on your desk, a copy of this Senator Nichol so that you can see it and show you that the actuary, this is an accurate figure as much as they can tell us. It could be, as they have expressed to us, much lower and it could be almost none. They figure that some of the judges will not elect to go into the program so it actually could be much much less than what we have explained to you. I've been trying to show you what the maximum would be if every one of them opt to the plan. I'll be happy, as I said earlier, to put that on your desk. I ask you to move the bill forward to E & R.

SENATOR SAVAGE: I see no more lights. The question is the advancement of LB 344. All those in favor vote aye, opposed vote nay.

SENATOR MARVEL PRESIDING

SENATOR MARVEL: Have you all voted? Voting aye, Mr. Clerk.
