### ATTORNEY GENERAL'S OPINION

Opinion No. 238  
February 29, 1980

Dear Senator Dworak:

This is in reply to your letter in which you ask for our opinion as to whether LB 891 would operate retroactively so as to impair obligations of contract making it constitutionally suspect in its application.

The Supreme Court of Nebraska has consistently held for a number of years that a legislative act will operate only prospectively and not retroactively unless the legislative intent and purpose that it should operate retroactively is clearly disclosed. Wheelock v. Heath, 201 Neb. 835 (1978); Housand v. Sigler, 186 Neb. 414 (1971); McIntosh v. Johnson, 51 Neb. 33 (1897).

Another well established rule of statutory construction is that the court, in construing a statute, must give it an interpretation which meets constitutional requirements if it can reasonably be done. Scott v. State ex rel. Board of Nursing, 196 Neb. 681 (1976); Stahmer v. State, 192 Neb. 63 (1974).

We find no wording in LB 891 which would indicate a clear intention of the Legislature that it operate retrospectively so as to impair the obligations of existing contracts nor do we think the court would so construe it in light of the foregoing principles.

Respectfully submitted,  
PAUL L. DOUGLAS  
Attorney General

Legislative Chamber, Lincoln, Nebraska  
Tuesday, March 4, 1980

Pursuant to adjournment, the Legislature met at 9:01 a.m., President Luedtke presiding.

**PRAYER**

The prayer was offered by the Chaplain.

We pray, everlasting God, for members of this Legislature who over and over again find themselves involved in controversy. Conflict emerges in these walls, not only because powerful groups and vocal groups place pressures upon them, but because of divisions of loyalty among the Senators themselves. For Thy mercies sake, deliver those who serve in the Legislature of Nebraska from the illusion that harmony can always reign within these walls or even in their relationship with each other. But also grant that they will experience the inner calm which comes, not to those who flee from conflict, but to those who affirm what deep within they know is their duty. Amen.

The roll was called and all members were present except Messrs. Merz, Newell, Powers, and Stoney who were excused; and Mesdames Labeledz, Pirsch, Messrs. Cullan, Johnson, Kelly, Koch, Lewis, Schmit, Simon, and Venditte who were excused until they arrive.

### ATTORNEY GENERAL'S OPINION

Opinion No. 239  
February 28, 1980

Dear Senator DeCamp:

Since LB 382 in regard to Laetrile is pending before the Legislature, you have asked whether Laetrile can now be shipped into Nebraska and indiscriminately used by cancer patients without any interference by us. The answer is yes because it is a federal law, 21 U.S.C. §355, which proscribes the introduction of a new drug into interstate commerce if it is not generally recognized by experts as being both safe and effective, does not come within a 1938 or 1962 grandfather exception, and is not being used for experimental purposes as provided. However, federal law must be enforced by the federal government, not by Nebraska law enforcement officers. See, ATS Mobile Telephone, Inc. v. General Communications Co., Inc., 204 Neb. 141, \_\_\_ N.W.2d \_\_\_ (1979), where the court held that a state

agency had no jurisdiction over a matter preempted by the federal government. It said:

“. . . When Congress has unmistakably entered a field and has enacted regulations to govern a field, state laws regulating that aspect of commerce must fall. This result is required whether congress specifically directs such a result in the legislation or such a result is required by reason of the purpose of the act. . . .

“Congressional enactments that do not exclude all state legislation in the same field nevertheless override state laws with which they conflict. United States Constitution, Art. VI. The criterion for determining whether state and federal laws are so inconsistent that the state law must give way is firmly established by case law. . . .” Supra at 146.

The enforcement officers in this instance are the federal Food and Drug Administration (FDA).

You have also asked whether our opinion No. 228 (February 21, 1980) says the opposite of our opinion No. 222 (February 13, 1980). No, it does not. In No. 222 we discussed how the federal Food, Drug and Cosmetic Act proscribes the distribution interstate of Laetrile because it is not generally recognized by experts as being a safe and effective drug. We concluded that the FDA has authority to forbid the transportation of Laetrile in interstate commerce if Laetrile does not meet the standards of the federal Food, Drug and Cosmetic Act and that materials needed to manufacture Laetrile may not legally be imported into Nebraska. In No. 228 we pointed out how the FDA was enjoined from enforcing the proscriptions of the federal law, pending a final determination of whether Laetrile was excepted from the operation of that law by a 1962 grandfather clause or whether the FDA was violating a right of privacy by keeping patients from taking a safe drug. (The district court which enjoined the FDA did not set aside its finding that Laetrile was not recognized by experts as being safe and effective.)

The unusual survival of the district court injunction against the FDA, through reversal by the Supreme Court of the injunction of the circuit court continuing it, arose from a combination of two facts: (1) the refusal of the district court to stay its order pending appeal, and (2) the failure of the circuit court to rule on whether Laetrile came within the 1962 grandfather clause and whether the FDA was violating a right of privacy by keeping patients from taking a safe drug. (Implicitly it had rejected those grounds by not basing its decision on them but on a judicially created exception limiting the power of the FDA over Laetrile which was by inference a “new drug.”) The second fact was set out in our opinion No. 222. When we were alerted to the

existence of the first fact, we immediately verified it with the clerk of the district court and advised the Legislature of its effect.

The circuit court has now ruled, consistent with the opinion of the Supreme Court, that Laetrile does not come within the 1962 grandfather clause. It has also held that Congress has power to limit the drugs patients are free to choose to take. It has reversed the judgment of the district court and remanded the case. As soon as the mandates are issued in those cases, the FDA should be free again to enforce the proscriptions discussed in our opinion No. 222 unless a stay is issued pending rehearing or pending application for a writ of certiorari to the Supreme Court.

Sincerely yours,  
PAUL L. DOUGLAS  
Attorney General

### ATTORNEY GENERAL'S OPINION

Opinion No. 240  
February 26, 1980

Dear Senator DeCamp:

In your letter of February 20, 1980, you inform us of your observation that the Business List Chain Letter Scheme is identical in

almost every respect to the concept of Social Security. In that regard you first inquire about the status of the litigation brought by this Office against this Chain Letter and second ask what steps would be necessary for the State to take to withdraw from participation in the Social Security program.

With respect to this litigation an action has been filed in the Lancaster County District Court seeking a permanent injunction. Some but not all of the defendants have been identified and served. The discovery process is expected to begin after March 15, 1980, with the actual litigation beginning after the completion of discovery.

As to your question concerning the State's withdrawal from the Social Security program, your attention is directed to 42 U.S.C. §418(g)(1) wherein it is provided:

“Upon giving at least two years' advance notice in writing to the Secretary, a State may terminate, effective at the end of a calendar quarter specified in the notice, its agreement with the Secretary either -

“(A) in its entirety, but only if the agreement has been in effect from its effective date for not less than five years prior to the receipt of such notice; or

“(B) with respect to any coverage group designated by the State, but only if the agreement has been in effect with respect to such coverage group for not less than five years prior to the receipt of such notice.

“ . . .

“(3) If any agreement entered into under this section is terminated in its entirety, the Secretary and the State may not again enter into an agreement pursuant to this section. If any such agreement is terminated with respect to any coverage group, the Secretary and the State may not thereafter modify such agreement so as to again make the agreement applicable with respect to such coverage group.”

We would be of the opinion that it would be necessary for the Legislature to pass legislation directing that notice be given to the Secretary of the Treasury indicating the State's desire to terminate its Social Security coverage. We would be further of the opinion that if the Legislature were to take such a step its effect would be to eliminate Social Security coverage of all employees of State Government and of its many political subdivisions. You will note from the Federal Law set out above that any such termination requires two years advance notice. You will also note that once termination is accomplished such a decision is irrevocable and Social Security coverage could not at a future date be reinstated.

Finally, if the decision to terminate Nebraska's coverage in its entirety is reached by the Legislature, the sections of Nebraska law pertaining to Social Security, section 68-601, R.R.S. 1943 through section 68-632, R.R.S. 1943, should also be repealed.

Sincerely,  
PAUL L. DOUGLAS  
Attorney General

Everlasting God, we ask Thy blessing upon those who assist the members of the Legislature of Nebraska. We remember the Lt. We remember the lobbyists who not only want to convince us of their position, but who assist us in providing information. We remember consultants who provide the expertise that sheds light upon the complicated issues confronting the Legislature. We remember the printers, members of the building and grounds staff. And we remember all others who labor so that the Senators of Nebraska can fulfill their awesome responsibilities. Give to these many people, merciful God, the assurance that what they do is appreciated by the Senators of this State. And give to all - Senators and those who assist them - the assurance that what they do counts in Thy sight. Amen.

14 8-822. Charges under section 8-820 shall be

16 outstanding principal balance for the number of days  
17 actually elapsed without adding any additional charges,  
18 except that at the time the loan is made charges may be  
19 computed as a percentage per month of unpaid principal  
20 balances for the number of days elapsed on the assumption  
21 that the unpaid principal balance will be reduced, as  
22 provided in the loan contract, and such charges may be  
23 included in the scheduled installments; Provided, that if  
24 the loan is prepaid in full by cash, a new loan or

8 consistently used to obtain a greater yield than would  
9 otherwise be permitted. Any default and deferment  
10 charges which are due and unpaid may be deducted from any  
11 rebate. No rebate shall be required for any partial  
12 prepayment. No rebate of less than one dollar need be  
13 made. Acceleration of the maturity of the contract shall  
14 not in itself require a rebate. If judgment is obtained  
15 before the final installment date the contract balance  
16 shall be reduced by the rebate which would be required  
17 for prepayment in full as of the date judgment is  
18 obtained. ~~repaid in whole or in part prior to the due~~  
19 ~~date unearned charges shall be refunded or credited to~~  
20 ~~the borrower in full, but such refund need not be made~~  
21 ~~until final payment of the loan contract. Such refund~~  
22 ~~shall be at least as great a proportion of the total~~  
23 ~~charges as the sum of the remaining monthly balances of~~  
24 ~~the principal and interest combined scheduled to follow~~  
25 ~~the date of prepayment bears to the sum of all the~~  
26 ~~monthly balances of principal and interest combined~~  
27 ~~originally scheduled by the contract. For the purpose of~~  
1 ~~computing the refund, any prepayment in full made on or~~  
2 ~~before the fifteenth day following an installment date~~  
3 ~~shall be deemed to have been made on the installment date~~  
4 ~~immediately preceding the date of prepayment in full, and~~  
5 ~~any prepayment in full made after such fifteenth day~~  
6 ~~shall be deemed to have been made on the installment date~~  
7 ~~immediately following the date of prepayment in full. No~~  
8 ~~refund shall be required for any partial prepayment. No~~  
9 ~~refund of less than one dollar need be made. The charges~~  
10 ~~retained by the bank may be increased to the extent that~~  
11 ~~delinquency charges are computed on earned charges in~~  
12 ~~accordance with the next succeeding sentence.~~  
13 ~~Delinquency charges on any scheduled installment or~~  
14 ~~portion thereof, if contracted for, may be taken not in~~  
15 ~~excess of five per cent on each installment or five~~  
16 ~~dollars, whichever is less, or in lieu thereof interest~~  
17 ~~after maturity on each such installment not exceeding the~~  
18 ~~highest permissible interest rate.~~

Thursday, March 6, 1980

Pursuant to adjournment, the Legislature met at 8:30 a.m., Speaker Marvel presiding.

**PRAAYER**

The prayer was offered by the Chaplain.

O God, Who dost watch over every one of Thy children throughout the world, Thou dost understand how hard it is for these, thy servants, to keep in mind the thousands of their fellow citizens for whom they must legislate. Thou knowest the clamor of voices in their ears, the constant tugging at their sleeves, forever trying to influence them; the small voices of little men without monies or reputation; the blatant voices of aggressive pressure groups; the big voices of selfish men and those working for personal gain; even the whispering inner voices of personal ambition; those insinuating voices holding out the lure of unmerited reward. Amid all the din of voices, give these Thy servants the willingness to take time to listen to Thy voice, knowing that if they follow the still small voice within, all Thy people will be served fairly, and all groups will get what they deserve. Amen.

Dear Senator DeCamp:

Section 3 of LB 276 of the Eighty-sixth Nebraska Legislature, Second Session (1980), would amend Neb.Rev.Stat. §45-101.03 (Supp. 1979) to read as follows:

“Except as provided in section 45-101.04, any rate of interest which may be agreed upon, not exceeding ~~twelve and one half~~ sixteen per cent per annum on the unpaid principal balance, shall be valid upon any loan or forbearance of money, goods, or things in action and may be taken yearly, for any shorter period, or in advance, if so expressly agreed.”

You note that an amendment to LB 276 appears on page 909 of the Legislative Journal and ask if it is constitutional. The same is hereinafter discussed.

The amendment on page 909 of the Legislative Journal, if adopted, would amend Neb.Rev.Stat. §45-101.03 (Supp. 1979) to read as follows:

“Except as provided in section 45-101.04, a maximum lawful interest rate for loans shall be set quarterly by the Director of Banking and Finance based on a quarterly average of the rediscount rate compiled by the Federal Reserve System plus an additional three per cent per annum rounded off to the nearest quarter of one per cent per annum.”

Any review of the above amendment must take into account at least two legal concepts. First, the Legislature may enact a statute in which it adopts by reference an existing law or regulation of another jurisdiction, including the United States. Hamilton v. Foster, 155 Neb. 89, 50 N.W.2d 542 (1951); Lincoln Dairy Co. v. Finigan, 170 Neb. 777, 104 N.W.2d 227 (1960); Pelzer v. City of Bellevue, 198 Neb. 19, 251 N.W.2d 662 (1977); Shepoka v. Knopik, 201 Neb. 780, 272 N.W.2d 364 (1978). Second, the Legislature, except as expressly authorized by the Constitution of Nebraska, may not lawfully enact a statute in which it adopts (1) administrative rules of a federal agency to be promulgated in the future or (2) an act of Congress of the United States to be passed in the future. Smithberger v. Banning, 129 Neb. 651, 262 N.W. 491 (1935). Unlike the Consumer Price Index (which is computed by the United States Department of Labor), the rediscount rate compiled by the Federal Reserve System is not based on existing independent factual standards but it is based on monetary policy established from time to time by the Board of Governors of that

federal agency. Consequently, the above quoted amendment from page 909 of the Legislative Journal constitutes an unlawful delegation of legislative power and therefore, in our opinion, is unconstitutional.

Very truly yours,  
PAUL L. DOUGLAS  
Attorney General

Members of the Legislature  
Eighty-sixth Nebraska Legislature  
Second Session  
State Capitol  
Lincoln, Nebraska 68509

Dear Members of the Legislature:

The Interagency Water Coordinating Committee has reviewed the Preliminary Report of the Instream Flow Policy Issue Study and reached consensus on the following comments.

The Committee recognizes that maintenance of streamflow is a problem of great public interest to Nebraskans. The Committee also recognizes that the alternatives presented in the report are probably the best that can be derived at this time. However, it is the consensus that the interim alternatives presented may well not be effective. Therefore, the Committee recommends that the Legislature adopt "no action" alternative on an interim basis.

It is the belief of the Committee that action by the Legislature should await the more complete information which will be presented in the Final Report of the Instream Flow Policy Issue Study. The Legislature may possibly wish to postpone action subject to the completion of one or more other water policy issue studies.

I would like to add that the report does contain a great deal of useful information for those interested in the state's instream flow problems. It should be emphasized that the Committee's "no action" position is taken only in regard to the interim alternatives presented in the report. The information and alternatives presented upon completion of the study may well provide a basis for addressing the long term streamflow problems of the state.

(Signed) Sincerely,  
 CHARLES THONE  
 Chairman, Interagency Water  
 Coordinating Committee

**SELECT COMMITTEE REPORT****Rules**

The Rules Committee met Wednesday, March 5, 1980, and in lieu of the proposed rule change submitted by Senator Beutler found on pages 498 through 503 of the Journal, the attached was acted favorably on and sent to the floor for consideration.

VOTE: For: Fowler, Beutler, Kahle, Murphy. Against: None. Excused: Newell. Absent: None.

(Signed) Steve Fowler, Chairperson

In "Revamp of Rule Three," add a new section 19 to read as follows, and strike the original investigating committee section as shown: ("Revamp" section 3(f))

~~Sec. 22 Investigating Committees. The Committee on Committees may appoint other select committees when authorized by the Legislature. No investigating committee of the Legislature shall be created except by resolution which shall set forth, with supporting statements, the reasons for and the purposes of the investigation, and no committee thus established shall function except during the interim between legislative sessions.~~

**Sec. 19. SUBPOENA PROCEDURE.**

(a) It is within the inherent power of any legislative committee to gather information pursuant to its regular functions, and to conduct investigations of matters within its subject-matter jurisdiction.

(b) A committee's power of subpoena should not be exercised unless the committee has determined that no other method of securing the desired information would be successful or practicable, and that the matter is of primary importance to the welfare of the State of Nebraska.

(c) A committee of the Legislature conducting an investigation and gathering information, whether pursuant to Legislative direction or pursuant to its regular functions of oversight and bill preparation,

shall observe the following procedures in addition to regular committee procedures whenever subpoenas are issued:

1. Issuance of Subpoenas

(i) A committee may by majority vote of all of its members, taken at a meeting properly called, issue a subpoena requiring a person to appear before the committee and be examined in reference to any matter within the scope of the inquiry or investigation being conducted by the committee, but only when the committee has received prior approval by a majority vote of the executive board to issue subpoenas in connection with the specific inquiry or investigation in question.

(ii) The committee may in the same manner issue a subpoena or subpoena duces tecum requiring any person to appear before the committee and bring with him or her any books, papers, or other documents pertinent thereto.

(iii) While the Legislature is in session, a committee deciding to issue subpoenas must promptly report each issuance to the Legislature. A record shall be made in the Journal reflecting the date the subpoena was issued, to whom it was issued, for what purpose it was issued, and the date on which testimony or production of documents is to take place. Under extraordinary circumstances the identity of the person subpoenaed may be withheld from publication if necessary to protect the safety of an individual or the confidentiality of the matters to be heard.

(iv) A person subpoenaed to attend a hearing of a committee shall receive the same fees and allowances as a person subpoenaed to give testimony in an action pending in a court of record.

2. Notice to Witnesses.

(i) Service of a subpoena requiring the attendance of a person at a hearing of a committee shall be made in the manner provided by law for the service of subpoenas in civil actions at least seven days prior to the date of the hearing unless a shorter period of time is authorized by majority vote of all of the members of the committee in a particular instance when, in their opinion, the giving of seven days notice is not practicable; but if a shorter period of time is authorized, the person subpoenaed shall be given reasonable notice of the hearing, consistent with the particular circumstances involved.

(ii) Any person who is served with a subpoena to attend a hearing of a committee shall also be served with a copy of the act defining the purpose of the committee, a copy of the rules under which the committee functions, a general statement informing him or her of the subject matter of the committee's investigation or inquiry and a notice that he or she may be accompanied at the hearing by counsel of his or her own choosing.

### 3. Conduct of the Hearing.

(i) No committee which has issued a subpoena directing a witness to appear at a hearing shall question the witness unless a quorum is present throughout the questioning.

(ii) The hearing shall be public unless the committee, by majority vote of all of its members, determines that a hearing should not be open to the public in a particular instance, due to extraordinary circumstances consistent with Legislative Rule 3, section 14(c) regarding closed meetings.

(iii) The chairperson of the committee shall preside at all hearings and shall conduct the examination of witnesses himself or herself or supervise the examination by other members of the committee. The committee may by majority vote of all its members authorize the questioning of a witness by the committee's counsel or by special counsel.

### 4. Right to Counsel and Submission of Questions.

(i) Every witness at the hearing may be accompanied by counsel of his or her own choosing, who may advise the witness of his or her rights, subject to reasonable limitations which the committee may prescribe to prevent obstruction of or interference with the orderly conduct of the hearing.

(ii) Any witness at the hearing, or a witness' counsel, may submit to the committee proposed questions to be asked of the witness or any other witness relevant to the matters upon which there has been any questioning or submission of evidence, and the committee shall ask such of the questions as it deems appropriate and relevant to the subject matter of the hearing.

### 5. Testimony.

(i) The committee shall cause a verbatim record to be made of all proceedings in which testimony or other evidence is demanded or offered, which record shall include rulings of the chair, questions of the committee and its counsel, the testimony or responses of witnesses, sworn written statements submitted to the committee and read into the record, and such other matters as the committee or its chair may direct.

(ii) All testimony given or offered at the hearing shall be under oath or affirmation if the witness has been subpoenaed, and in other cases if a majority of the committee members present at the hearing so decide.

(iii) The presiding members at the hearing may direct a witness to answer any relevant question or furnish any relevant book, paper or other document, the production of which has been required by subpoena duces tecum. Unless the direction is overruled by a majority vote of the committee members present, disobedience shall constitute a contempt.

(iv) A witness at the hearing or his or her counsel, with the consent of a majority of the committee's members present at the hearing, may file with the committee for incorporation into the record of the hearing sworn written statements relevant to the purpose, subject matter and scope of the committee's investigation or inquiry.

(v) Testimony and other evidence given or offered at a hearing closed to the public shall not be made public unless authorized by majority vote of all of the members of the committee, which authorization shall also specify the form and manner in which the testimony or other evidence may be released.

(vi) A witness at a closed hearing, upon request and at his or her own expense, shall be furnished a transcript of his or her testimony at the hearing.

#### 6. Interested Persons.

(i) Any person whose name is mentioned or who is otherwise identified during the hearing and who, in the opinion of the committee, may be adversely affected thereby, may, upon his or her request or upon the request of any member of the committee, appear personally before the committee and testify in his or her own behalf, or, with the committee's consent, may file a sworn written statement of facts or other documentary evidence for incorporation into the record thereof.

(ii) Upon the consent of a majority of its members a committee may invite any other person to appear at a hearing or submit a sworn written statement of facts or other documentary evidence for incorporation into the record thereof. No invitation to appear, and no request to appear, appearance, or submission of evidence shall limit in any way the committee's power of subpoena.

(iii) Any person who appears before a committee pursuant to this section shall have all the rights, privileges and responsibilities of a witness provided to all other witnesses.

#### 7. Contempt.

A person shall be in contempt if he or she:

1. Fails or refuses to appear in compliance with a subpoena or, having appeared, fails or refuses to testify under oath or affirmation.

2. Fails or refuses to answer any relevant question or fails or refuses to furnish any relevant book, paper or other document subpoenaed by or on behalf of a committee, or

3. Commits any other act or offense against a committee which, if committed against the Legislature would constitute a contempt.

The Chairperson of a committee may apply to the Legislature or, during the interim, to the District Court of any county to compel obedience by proceedings for contempt.

#### 8. Penalties.

(i) A person guilty of contempt under the provision of these rules shall be subject to punishment pursuant to R.R.S. 50-105 and 50-106 during the session, or to R.R.S. 50-407 when the Legislature is not in session.

(ii) If a committee fails in any material respect to comply with requirements of these rules, any person subject to a subpoena or a subpoena duces tecum who is injured by such failure shall be relieved of any requirement to attend the hearing for which the subpoena was issued or, if present, to testify or produce evidence therein; and such failure shall be a complete defense in any proceeding against such person for contempt or other punishment.

(iii) Any member or employee of the Legislature other than the witness concerned or his or her counsel who knowingly violates subsections of these rules concerning the publication of testimony taken at a closed hearing shall be in contempt of the Legislature or, if a member of the Legislature, shall be subject to sanction or suspension according to the statutes governing the Legislature. The speaker on his or her own motion or on the application of any person claiming to have been injured or prejudiced by an unauthorized disclosure may institute proceedings for the determination of the issue and for the imposition of penalties provided herein. Nothing in this subsection shall limit any power which the Legislature may have to discipline a member or employee or to impose a penalty in the absence of action by a prosecuting officer or court.

(c) Limitation of Rules.

Nothing contained in this section shall be construed to limit or prohibit the acquisition of evidence or information by any committee by any lawful means not provided for herein.

**BILL ON FIRST READING**

The following bill was read for the first time by title:

**LEGISLATIVE BILL 863A.** By Beutler, 28th District.  
This bill introduced on behalf of: LB 863.

A BILL FOR AN ACT to appropriate funds to aid in carrying out the provisions of Legislative Bill 863, Eighty-sixth Legislature, Second Session, 1980.

## ATTORNEY GENERAL'S OPINION

Opinion No. 242  
March 5, 1980

Dear Senator Decamp:

You have asked for our opinion on the constitutionality of a bill which would authorize an election to place a limitation upon the state budget funded by sales, use, and income taxes. The document you have provided to us appears to be in bill form, although it does not bear a request number nor is it identified by an LB number. You indicate in your question that you want our opinion on this document for purposes of use in the debate on LB 613.

The document you have provided generally provides that an election may be held to place a limit upon the state budget funded by sales, use, and income taxes when seven percent of the registered voters sign a petition and they are distributed such that at least five percent of the electors of each of two-fifths of the counties are included. The percentages are to be based on the votes cast for Governor at the last general election and the vote is to be held at the first general election not less than four months after the petitions have been filed with the Secretary of State.

Section 2 requires that the petition set forth the total dollar amount that shall be funded by sales, use, and income taxes, the fiscal year such budget becomes applicable, and limitations, if any, on subsequent budgets.

Section 3 provides that the budget limitation shall be adopted by a majority of the votes cast on that question and not less than thirty-five percent of the total vote cast in the election is in favor of the imposition of a lid.

We note several technical flaws in the bill. In section 1 it provides that seven percent of the registered voters sign the petition distributed to that it includes at least five percent of the electors of each of two-fifths of the counties. The different terms should be harmonized. No definition is given of the budget funded by sales, use, and income taxes nor is it entirely clear how that sum is to be determined. The state budget is funded from sources other than those enumerated in the act and thus a calculation must of necessity be made to determine what portion of the state budget such a limitation would have reference to.

The method of adopting the petition set forth in section 1 of your document simply restates the provisions of Article III, Section 2, of the Constitution which reserves the power of initiative to the people of the state. There can be no question that the power of initiative

includes the ability to adopt measures relating to budget limitations. The power of the initiative has generally been codified by the Legislature in past sessions and the procedures to be followed in initiating measures are well known.

The Supreme Court has, on several occasions, considered the power of initiative and has stated, "The constitutional provisions with respect to the right of initiative and referendum reserved to the people should be construed to make effective the powers reserved." Klosterman v. Marsh, 180 Neb. 506, 143 N.W.2d 744 (1966). In particular, with respect to initiating measures with respect to taxation, the Supreme Court in State ex rel. Morris v. Marsh, 183 Neb. 521, 162 N.W.2d 262 (1968), had before it the question of an initiative petition which sought to amend the Constitution to prohibit the state from levying an income tax. Previously a constitutional amendment had been adopted to prohibit the state from levying a property tax. The court, although not reaching that specific question in the case, stated:

"The power to tax is essential to the continued existence of a state. A constitutional amendment which would destroy or completely emasculate that power might well be itself unconstitutional. That issue is not presently here."

There were two vigorous dissents in that case, both of which argued that the initiative was improper, at least in part, because it sought to foreclose the ability of the state to finance its function by limiting the area of taxation available to the state.

While it does not appear to us that the particular proposal that you requested review on reaches that level, it is conceivable that an action under this proposal could in fact reach that level. For instance, if a petition called for a total dollar amount expended on a budget funded by sales, use, and income taxes of zero, the ability of the state to function would be, for all practical purposes, terminated. To that extent it is conceivable that the act could result in an unconstitutional attempt to limit the state's taxing authority. However, to reach such a conclusion would require speculation as to what may happen sometime in the future.

Generally, we may say that the provision which you propose is a mere repetition of the existing provisions of Article III, Section 2, of the Constitution which relates to initiative and generally appears to be within the constitutional authority of the Legislature to adopt.

In reaching this conclusion we are not ignoring certain other aspects of the proposal which relate to the ability to bind future Legislatures by action of a vote of the people on an initiative type proposition. We believe the cases are relatively clear that the initiative and referendum power exercised by the Legislature and the people are concurrent in nature. That which one does may be undone by the other or vice versa.

To that extent the binding nature of any action taken is problematical at best.

Sincerely,  
PAUL L. DOUGLAS  
Attorney General

**THIRTY-NINTH DAY - MARCH 10, 1980****LEGISLATIVE JOURNAL****EIGHTY-SIXTH LEGISLATURE  
SECOND SESSION****THIRTY-NINTH DAY**

Legislative Chamber, Lincoln, Nebraska  
Monday, March 10, 1980

Pursuant to adjournment, the Legislature met at 9:00 a.m., Speaker Marvel presiding.

**PRAYER**

The prayer was offered by the Chaplain.

Gathered here this morning are a very special group of men and women who make laws - who make decisions that affect the lives of millions of people. They are people who have pledged to be responsive to the needs of the people - who have committed themselves to represent the best interests of their constituents. Like all of us, God, they need Your guidance. They need You to look over their shoulder - and sometimes they need You to remind them that you are looking over their shoulder. These are good people God, and don't let them forget it!

We live in a big state - in a state that has a tradition of greatness. And just as our aspirations are great - so are our problems. We have all the problems of a great state: Crime, drugs, problems with our youth, misunderstanding of our minorities, and a host of other problems that these people have long wrestled with. We have big problems, God, and we need big help from You.

There are many people in our state - and faced with all these problems there are times when we are tempted to treat them like things - like mere numbers. But this is the great lesson that You have taught us, God - that we cannot solve human problems - unless we treat people like human beings. Dear God, very often we are tempted to forget this most important principle. God help us! Amen.

**ATTORNEY GENERAL'S OPINION**

Opinion No. 243  
March 7, 1980

Dear Senator Venditte:

You have asked for our opinion on the constitutionality of LB 991. LB 991 is a bill intended to prohibit the sale and use of drug paraphernalia. We do not intend to engage in a section by section analysis of your bill. We believe that for purposes of this opinion it is sufficient to say that there are serious questions of constitutionality surrounding the bill. As you are aware, in order to meet constitutional muster criminal statutes must be specific. They must identify that which is prohibited with such specificity as will allow an individual of ordinary intelligence to conform their conduct to the requirements of the statutes without being required to guess at the meaning of such statutes. See, *Linn v. Linn*, 205 Neb. 218, \_\_\_ N.W.2d \_\_\_ (1980). Conversely statutes must not be drafted in such a manner as to be overly broad. The definitions contained in section 1 of this act are extremely broad. For instance, the first paragraph provides that:

“. . . [D]rug paraphernalia shall mean all equipment, products, and materials of any kind which are used, intended for use, or designed for use, in planting, propagating, cultivating, growing, harvesting, manufacturing, compounding, converting, producing, processing, preparing, testing, analyzing, packaging, repackaging, storing, containing, concealing, injecting, ingesting, inhaling, or otherwise introducing into the human body a controlled substance in violation of this act or the Uniform Controlled Substances Act. . . .”

Thereafter a number of specific things are listed.

The general definition would include such things as hose, rakes, and spades for caring for a marijuana patch, clay pots, or other nursery materials for growing marijuana, fertilizers, or in short, any sort of gardening supplies. Some kinds of presses would be contained within the definition; a number of chemicals could be contained with the definitions; wrapping paper, saran wrap, and baggies could be contained within these definitions.

Such things are in themselves innocuous and legally sold in a variety of institutions. We can hypothesize a situation in which the owner of a grocery store or nursery center was or should be aware that a particular customer grew, processed, sold or possessed marijuana, a controlled substance. Arguably, under section 4 such items sold by grocers or nursery owners would be in violation since they were intentionally delivering to another clay pots or saran wrap.

Subsection (5) of section 1 includes scales and balances used, intended for use, or designed for use in weighing or measuring controlled substances. Such scales are of a type used by pharmacists and scientists in the course of lawful endeavors. Must a scale merchant ascertain whether or not a particular individual seeking to purchase

that item is one that he reasonably ought to believe intended to use it for illicit purposes connected with controlled substances?

Subsection (10) prohibits containers or objects used, intended for use, or designed for use in storing or concealing controlled substances. This could include such things as refrigerators, bread boxes, ornamental chests, safes, and other similar objects, again requiring ordinary merchants to determine whether or not they fall within the terms of the act.

The examples given above are intended to indicate that there is a substantial constitutional question about the vagueness and overbreadth of the statute.

Some cases have narrowed the focus of such statutory schemes. See, Manson v. State, 168 Tex. Crim. 514, 316 S.W. 2d 414; Cole v. State, 168 P.2d 593 (Okla.). In Rosenberk v. United States, 297 A.2d 763, a prosecution was initiated under a statute which proscribed the possession of criminal instruments. The court found that bong pipes and such devices were not covered under the particular statute.

In United States v. Falcone, 311 U.S. 105 (1940), the United States Supreme Court was considering a conspiracy case. The defendants had been charged with conspiring to operate illicit stills. While not involving a constitutional claim, the Court said that one selling innocent goods to someone he knows intends to use them illegally does not bring the seller within the reach of the conspiracy statute. In LB 991 it appears that such an act could result in criminal sanctions.

In declaring unconstitutional section 28-4,127(1) (g), R.R.S. 1943, which made it a crime to be in a place where controlled substances were being used, the Nebraska Supreme Court said:

“In State ex rel. English v. Ruback[135 Neb. 335, 281 N.W. 607], the court quoted from Fairmont Creamery Co. v. Minnesota, 274 U.S. 1, 10, indicating the invalidity of overbroad criminal statutes, stating: ‘It is not permissible to enact a law which, in effect, spreads an all-inclusive net for the feet of everybody upon the chance that, while the innocent will surely be entangled in its meshes, some wrongdoers also may be caught.’ . . .” State v. Adkins, 196 Neb. 76, 81, 241 N.W.2d 655 (1976).

LB 991 arguably suffers from the same defect to which our court was alluding.

The statute then, in our opinion, would be difficult to defend against constitutional attack based upon the extreme reach of the definitional sections. Ordinary merchants would be required to determine whether or not there was reasonable grounds to believe that a purchaser of their product intended to use the product in violating the Controlled Substances Act.

Sincerely,  
 PAUL L. DOUGLAS

8-410. BORROWING; CERTIFICATES OF INDEBTEDNESS; ISSUANCE; INTEREST RATE; CONDITIONS; PAYMENT BEFORE MATURITY; REDISCOUNTS; COLLATERAL; LIMIT ON INDEBTEDNESS; TRANSFER OF ASSETS, WHEN VOID. Corporations organized under the provisions of sections 8-401 to 8-417 may borrow from the general public and issue therefor certificates of indebtedness. The department shall regulate the form, terms, and content of certificates of indebtedness. Such certificates of indebtedness shall be of two classes: Paid-up certificates and installment certificates. Paid-up certificates shall be issued in fixed denominations and shall be repayable at fixed future dates. Installment certificates shall be issued in passbook or other form and under such terms as the corporation may determine and shall evidence the original amount advanced by the holder thereof and be subject to the right of the holder to add further sums at such times as the holder may desire, and the balance therein may be withdrawn by the holder thereof, in whole or in part, at any time upon request, subject to the right of the corporation to require at least thirty days' notice of any

such withdrawal. Different rates of interest may be paid on certificates of indebtedness with different amounts or with different maturities. No industrial loan and investment company shall, directly or indirectly, pay any rate of interest on certificates of indebtedness at a greater rate than the director shall by regulation provide. By regulation the department may provide for interest rates in excess of six per cent per annum. ~~Paid up certificates of indebtedness shall not be paid before maturity thereof except that in an emergency when it is necessary to prevent hardship to the certificate holder, the corporation, in its discretion, may pay such certificate or a portion thereof before maturity. Before such payment is made the certificate holder shall sign a written statement to be kept in the files of the corporation that an emergency exists and that he is in need of money represented by the certificate of indebtedness before the maturity date, stating the definite amount needed. The certificate of indebtedness may then be paid before maturity to the extent required to meet such need, but the certificate holder shall forfeit an amount equal to three months interest on the amount withdrawn. If the amount withdrawn has remained on deposit for three months or less, all interest shall be forfeited. When a portion of a certificate of indebtedness is paid before maturity, the certificate shall be canceled and a new certificate shall be issued for the unpaid portion of the indebtedness, with the same terms, rate, date, and maturity as the original certificate of indebtedness.~~ Certificates of indebtedness shall be in such form as the department by general rule shall prescribe, not inconsistent with the provisions of sections 8-401 to 8-417, and no other or different form shall be used. If upon presentation of a certificate of indebtedness for payment on or after the maturity date the issuer without just cause fails to make payment thereof, the department may take possession of its business and affairs and may liquidate same. Corporations organized under the provisions of sections 8-401 to 8-417, may also borrow money from and rediscount paper with banks and other corporate lenders and pledge collateral as security thereto; PROVIDED that the combined indebtedness of any industrial loan and investment company arising from the issuance of all certificates of indebtedness and the money borrowed from banks and other corporate lenders shall at no time exceed the limit prescribed by section 8-413. Notwithstanding section 8-413, any industrial loan and investment company may borrow on its bills payable secured by direct or indirect obligations of the United States government or secured by obligations guaranteed by agencies of the United States government without limitation, but no such company shall, without the written consent of the Director of Banking and Finance, transfer, as collateral to its obligation, assets with a face value of more than one

and one half times the amount of such obligation. Any transfer of assets of an industrial loan and investment company in violation of the provisions of this section shall be void as against creditors of such industrial loan and investment company.

Pursuant to adjournment, the Legislature met at 9:03 a.m., President Luedtke presiding.

**PRAYER**

The prayer was offered by the Chaplain.

Lord God of all good life: We remember in prayer today the districts of Nebraska which we represent in this house. We are thankful for all the good things that are found back home: The community spirit, the churches, schools, courts of justice, the homes, hospitals, offices and factories.

And we would remember also the special needs of our districts for employment, for recreation, for housing, welfare, safe streets, good highways.

Give us the vision and wisdom to surround our districts and our state with the safeguards of sound laws which will preserve the good life for those who now enjoy it, and make it available to all.

We are bold to offer such a prayer, for we are those who believe that with God all things are possible. Amen.

Mr. Lewis offered the following amendment:

Req. #2177

2 1. Insert a new section as follows:

3 "Sec. 3. That section 79-801, Reissue Revised

4 Statutes of Nebraska, 1943, be amended to read as  
5 follows:

6 79-801. The territory embraced within the

7 corporate limits of each incorporated city or village in

8 the State of Nebraska, together with such additional

9 territory and additions to such city or village as may be  
10 added thereto, as declared by ordinances to be boundaries  
11 of such city or village, having a population of more than  
12 one thousand and not more than fifty thousand  
13 inhabitants, including such adjacent territory as now is  
14 or hereafter may be attached for school purposes, shall  
15 constitute a school district of the third class and be  
16 known by the name of The School District of (name of city  
17 or village), in the county of (name of county), in the  
18 State of Nebraska. As such in that name, the district  
19 shall be a body corporate and possess all the usual  
20 powers of a corporation for public purposes, and in that  
21 name and style may sue and be sued, purchase, hold, and  
22 sell such personal and real estate, and control such  
23 obligations as are authorized by law. The title to all  
24 school buildings or other property, real or personal,  
25 owned by any school district within the corporate limits  
1 of any city or village, shall, upon the organization of  
2 the district, vest immediately in the new district; and  
3 the board of education of the new district shall have  
4 exclusive control of the same for all purposes herein  
5 contemplated; Provided, that where the territory annexed  
6 by a change of boundaries of such city has been part of a  
7 Class ~~III~~, IV, V, or VI school district for more than one  
8 year prior thereto, having been annexed by petition, the  
9 question as to which district the annexed territory shall  
10 be part of shall be negotiated by the school boards of  
11 the school districts involved. If the majority of the  
12 members of each school board cannot reach agreement on  
13 such question within ninety days after the effective date  
14 of the city annexation ordinance, the question of which  
15 school district the annexed territory shall be a part of  
16 shall be placed on the ballot for the next primary or  
17 general election. The registered voters of all Class I  
18 districts which form the annexed territory shall then  
19 vote on the question at such election. When a city or  
20 village subject to this section annexes territory in  
21 which registered voters reside and which has been part of  
22 a Class III school district for more than one year prior  
23 thereto the issue of whether the area annexed shall  
24 remain a part of its current school district or whether  
25 it shall become part of the school district of the  
26 annexing city or village shall be submitted to the  
27 registered voters of the area annexed. The issue may be  
1 submitted at a primary, general, or special election.  
2 The election shall be conducted in the same manner, as  
3 nearly as possible, as other elections in such school  
4 district are conducted. Notice of the election to be  
5 held pursuant to this section shall be published at least  
6 once each week for three weeks prior to the election.

7 The governing board of the school district of the  
 8 annexing city or village shall call for the election and  
 9 shall pay the costs of such election. A simple majority  
 10 of votes cast shall resolve the issue.

11 If, within the boundaries of the annexed  
 12 territory, there exists a Class VI school, the school  
 13 building, facilities, and land owned by the district  
 14 shall remain a part of the Class VI district  
 15 notwithstanding any action taken by the school boards and  
 16 notwithstanding the result of such election.

17 If the Class VI district wishes to dispose of  
 18 such school building, facilities, or land to any  
 19 individual or political subdivision, including a Class I  
 20 school district, the question of such disposition shall  
 21 be placed on the ballot for the next primary or general  
 22 election. All registered voters of such Class VI  
 23 district shall then vote on the question at such  
 24 election. A simple majority of the votes cast shall

**ATTORNEY GENERAL'S OPINION**

Opinion No. 245  
March 7, 1980

Re: Boot Hill Cemetery

Dear Senator Haberman:

We are responding to your letter of February 20, 1980, requesting our opinion as to whether section 81-815.22, R.S.Supp., 1978, denies the Game and Parks Commission the authority to acquire and designate Boot Hill Cemetery in Ogallala as a state park. You stated you are considering the introduction of legislation to make it a state park.

The following is a description of Boot Hill Cemetery contained in Historic Preservation in Nebraska, published by the Nebraska State Historical Society of Lincoln, Nebraska, in 1971:

"Boot Hill Cemetery, Tenth and West Streets, Ogallala; Boot Hill was the final resting place for many early westerners who helped make Ogallala a booming cow town in the 1870s and 1880s; has been restored."

We understand that Boot Hill is a "knoll of a hill" with no fences or buildings, a few markers but more graves left unmarked. A horse and rider monument was built and enclosed with a fence. It is within the City of Ogallala and maintained by the city in a natural state for authenticity.

It is the intent and purpose of the State Park System Act "to provide for the development and administration of a balanced state park system to provide nonurban park areas for the inspiration, recreation and enjoyment primarily of resident populations." Section

81-815.21, R.R.S. 1943. Section 81-815.22, R.S.Supp., 1978, provides for five different designations of areas within the state park system and the definition of each type of area. One of the designations is a "state historical park" which is defined as follows:

"(4) State historical parks shall mean only sites which, in the opinion of competent, recognized authorities, are of notable historical significance to the State of Nebraska, of a size adequate to develop the full interpretative potential of the site, and which may be equipped with limited day-use facilities when such facilities do not detract from nor interfere with the primary purposes and values thereof." 81-815.22, R.S.Supp., 1978.

Generally, the purpose of the state park system is to provide for "nonurban park areas." The factors to be consider in determining whether an area is "urban" or "nonurban" are the location, the nature and extent of its appeal to residents other than that urban area, and the nature and characteristics of the site itself.

Upon our understanding of this site, we know of no statutory prohibition against the Nebraska Game and Parks Commission's acquisition and operation of Boot Hill Cemetery as a state historical park as that term is defined in section 81-815.22, R.S.Supp., 1978. However, we do not know, and pass no judgment upon, whether the site meets all of the criteria for a state historical park as defined in subsection (4) of that statute. We do know that it is of such a notable historical significance to the State of Nebraska that it has been listed in the 1971 edition of historic preservation sites published by the Nebraska State Historical Society. It appears to qualify as a pioneer cemetery pursuant to section 12-808, R.R.S. 1943. We do not know if the Commission deems the size adequate to develop the full interpretative potential of the site nor whether it may be equipped with day-use facilities, etc. We do not know its potential for an inspiration, recreation, and enjoyment, and how it would contribute to a balanced state park system. These are factors which the Nebraska Game and Parks Commission would have to weigh in their consideration of the wisdom of acquiring and developing this site.

We point out in closing that if abandoned, it may qualify for county preservation pursuant to section 12-805, et seq., R.R.S. 1943. Further, this site may also be of interest to the State of Nebraska as an historical site pursuant to section 82-101, R.R.S. 1943, or an historical landmark pursuant to section 82-119, R.R.S. 1943, both administered by the Nebraska State Historical Society.

Very truly yours,

**ATTORNEY GENERAL'S OPINION**

Opinion No. 248  
March 10, 1980

Dear Senator Maresh:

You have requested our opinion on LB 739, introduced by Senator Kremer, for the purpose of postponing the dissolution of water conservation districts until January 1, 1987. In your letter you state that in 1971 LB 544 amended section 46-614.01 to prohibit the formation of any ground water conservation districts after January 1, 1972 - existing water conservation districts were, however, allowed to remain in existence. LB 411 enacted in 1978 with an operative date of January 1, 1982, repealed sections 46-614 to 46-634 and will therefore, when operative, presumably dissolve all existing water conservation districts. LB 739, referred to above and in question herein, would postpone such dissolution until January 1, 1987.

With that backdrop in mind, you ask:

"Is LB 739 not special legislation, contrary to Neb. Constitution article III §18, in that it continues the privilege of counties with existing ground water conservation districts to maintain such districts while not allowing formation of new districts. If LB 544 and LB 411 were intended to phase out the districts, then why extend the life of such districts. If the districts are beneficial, then is it not special legislation to not allow formation of new districts while at the same time continuing the privilege of counties with existing districts."

Article III, section 18, of our State Constitution applies to the legislative branch of government and as such is a limitation of its power. That section enumerates several categories regarding which "local" or "special" laws may not be passed. The concluding sentence of Article III, section 18, further provides:

". . . In all other cases where a general law can be made applicable, no special law shall be enacted. . . ."

As we understand it, it is your contention that LB 739 is local or special legislation because the proposed operation is to continue to restrict the formation of new water conservation districts while perpetuating the existence of those already created. Further, you appear to contend that the act does not have uniform operation because it allows some citizens to have water conservation districts while at the same time withholding that option from citizens of other counties.

Your questions are interwoven and will therefore be discussed in the same connection. We begin our discussion by observing that in a sense it is true that according to its terms LB 739 does not operate on citizens alike - it does have limited operation. However, it must be further observed, that it is a limitation founded on adherent conditions and not upon a specific locality, geographical territory, number or class. That being true, we are of the opinion that there is no force to the contention that LB 739 must be condemned as a "special" law.

The words of our Constitution set forth above were employed to describe a type of legislation which our forefathers sought to prohibit. The pernicious evil the framers sought to eliminate were acts which were both local and special - local as to the territory to be affected and special as to the powers authorized to be exercised. i.e., special privileges which were bestowed on individuals or select groups due to special circumstances. Cox v. State, 134 Neb. 751, 279 N.W. 482 (1938) provides an illustrative example. In that case, the Fifty-Second Session of the Nebraska Legislature passed LB 20 which, in substance, waived the sovereignty of the state, the statute of limitations, created liability on the part of the state for negligence of its agents and servants causing injury to the plaintiff, provided for the bringing of suit in district court for Lincoln County, designated the attorney general to represent the state, and provided for payment out of the general fund of the state of any judgment finally rendered against the state. Upon review, our Supreme Court stated that: "To uphold this legislation would require individuals, similarly situated, to knock at the door of the legislature and ask that an exception be made in their particular cases, while others, less fortunate, may not be able to obtain the relief sought. . . . The act provides a special exemption in favor of this plaintiff--the right to recover damages-which it would deny to all other persons similarly situated." LB 20 at issue in Cox v. State, supra, was held to be void and in contravention of Article III, section 18, as a "special" law.

While the underlying facts of Cox, supra, are somewhat extreme, they do serve to illustrate the type of legislation contemplated by the inclusion and terms of Article III, section 18. A more elegant description is found in "Cooley on Constitutional Limitations" at page 29, wherein it is said: "The purpose of this guarantee was to protect a Union founded on republican principles against aristocratic and monarchial invasions."

From the foregoing comes readily the conclusion that LB 739 does not run afoul of Article III, section 18. That conclusion is strengthened by recognition of the fact that LB 739 does not specify that its operation is to occur or affect a specific place or locality.

Therefore, it could not, in the very nature of things be, "special" legislation. See, Hunzinger v. State, 39 Neb. 653, 58 N.W. 194 (1894); State v. Berka, 20 Neb. 375, 30 N.W. 267 (1886); State v. Missouri Pacific Railroad Co., 81 Neb. 15, 115 N.W. 614 (1908).

In researching your question, we considered legislation concerning municipalities, which in turn involved many of the same principles. That research, in turn, buttressed our conclusion. More specifically, we note that the practice of municipal classifications - each class being granted powers in differing respects from those enjoyed by others - dates back to the organization of our state. Our high court has uniformly recognized that practice as being within legislative authority. See, Campbell v. City of Lincoln, 182 Neb. 459, 155 N.W.2d 444 (1968); Metropolitan Utilities District v. The City of Omaha, 171 Neb. 609, 107 N.W.2d 397 (1961). Along those same lines, we note that our high court in Burger v. City of Beatrice, 181 Neb. 213, 147 N.W.2d 784 (1967), admonished: "Municipal corporations are legislative creations and as such, subject to dissolution by legislative action." Similarly, in State ex rel. Anderson v. Leahy, 189 Neb. 92, 199 N.W.2d 713 (1972), our Supreme Court reiterated the notion that municipal corporations are purely entities of legislative creation. As such, the Legislature may, at its pleasure, repeal a charter or destroy a municipal corporation, with or without the consent of its citizens. The foregoing principles apply with equal force, we believe, to the water conservation districts now in question.

Going back to an observation made earlier in this opinion, i.e., that LB 739, does, in effect, classify we believe there is one remaining reason that the resultant classification does not render it constitutionally infirm. That reason arises from the recognition of the fundamental authority which rests in the Legislature to classify. In that connection, our Supreme Court has said at other times, in other contexts, that it is "within the power of the Legislature to enact such special legislation covering the matters involved . . . where, in its judgment, the subject or matters sought to be remedied could not be properly remedied by a general law, and where the Legislature has a reasonable basis for the enactment of the special law." State v. Wallace, 117 Neb. 588, 221 N.W. 712, 713 (1928). See, too, Cox v. State, *supra*; Hall v. State, 129 Neb. 669, 262 N.W. 835 (1935).

In this instance, LB 544 passed in 1971 prohibited the formation of new ground water conservation districts. Hence, it was that act, which placed a moratorium on the formation of such districts. LB 411 passed in 1978, with an operative date of January 1, 1982, will presumably extinguish the existence of ground water conservation districts organized pursuant to sections 46-614 to 46-634. LB 739, introduced by Senator Kremer seeks, apparently, to perpetuate the

survival of existing ground water conservation districts until 1987. We note that section 46-629, which enumerates the general powers of the board of directors of conservation districts, includes, inter alia, in subsection 4, the authority to contract with private individuals, associations, corporations, state agencies and/or subdivisions. In light of the imminent demise of ground water conservation districts an in recognition of their authority to contract, promulgate and administer policies relating to ground water, adopt and administer and enforce rules and regulations, etc., the Legislature could determine, via the passage of LB 739, that time remaining between now and January 1, 1982, is not sufficient for existing ground water conservation districts to complete any contractual obligation, programs, policies, etc. now underway.

While on one hand, placing existing ground water conservation districts on notice that their futures are marked, but nevertheless extending the time in which to conduct their business accordingly, it seems inherently reasonable for the Legislature to simultaneously prohibit the formation of new ground water conservation districts to prevent further entanglement of contractual and other obligations by such districts when their demise would be imminent. A legislative classification which rests on the above or similar considerations falls comfortably within the confines of constitutionality. Hence, we are of the opinion, that LB 739 is not violative of Article III, section 18, of our State Constitution.

Secondly, your letter poses the following question:

“Also, I would ask whether the continuing prohibition against new districts does not deny citizens in counties without districts the power of petition reserved to the people by Article III, Section 2, of the Nebraska Constitution.”

Article III, section 2, of the Nebraska constitution provides in pertinent part that:

“The first power reserved by the people is the initiative whereby laws may be enacted and constitutional amendments adopted by the people independently of the Legislature. This power may be invoked by petition wherein the proposed measure shall be set forth at length. If the petitioner be for the enactment of a law, it shall be signed by seven per cent of the electors of the state and if the petition be for the amendment of the Constitution, the petition therefor shall be signed by ten per cent of such electors. In all cases the electors signing such petition shall be so distributed as to include five per cent of the electors of each of two-fifths of the counties of the state and when thus signed the petition shall be filed with the Secretary of State, who shall submit the measure thus proposed to the

electors of the state at the first general election held not less than four months after such petition shall have been filed. . . .”

As can be seen, the power of initiative reserved by and to the people in Article III, section 2, of our State Constitution, applies to “laws” and “constitutional amendments” which can be “adopted by the people independently of the Legislature.” Article III, section 2, specifies that seven per cent of the electors of the state must sign petitions for an enactment of a law and ten per cent must sign for an amendment to the Constitution. The formation of ground water conservation districts by petition pursuant to sections 46-614, et seq., involves very different procedures. Furthermore, a reading of Article III, section 2, renders it quite apparent, that the formation of such districts is simply not the type of activity to which the provisions and terms of Article III, section 2 are applicable. Accordingly, LB 739 does not run afoul of it. Cf: Schroeder v. Zehrun, 108 Neb. 573, 188 N.W. 237 (1922).

It is of course, the courts, who must be the final arbiters of whether or not the Constitution has been contravened. Until such time as our high court has an opportunity to address and decide the questions you pose, we are limited to reaching a conclusion on the basis of the principles of law which we believe to be controlling and applicable. In that connection, it is our opinion, and we are thereby advising you, that LB 739 while perhaps somewhat vulnerable, does not transgress constitutional limits.

Sincerely yours,  
PAUL L. DOUGLAS  
Attorney General

Wednesday, March 12, 1980

Pursuant to adjournment, the Legislature met at 9:00 a.m., Speaker Marvel presiding.

**PRAYER**

The prayer was offered by the Chaplain.

O Lord our God: We pray once more - but sometimes we wonder what's left to pray for, because we've said it all so many times before, and we don't want to wear thin our welcome. And sometimes we are unwilling to accept the answer to our prayer, because it is not what we have been expecting.

Yet we continue in this legislature to feel the burden of being the few who act for the many on matters of importance, and we do need to have our spirits uplifted and held close to the heart of the Eternal, if only for a brief moment each day.

We have been aware of Your presence, O God, even though we may not always have acted as if You were here.

Continue with us - we ask it once more: Help us today, and stay with us to the end, O Lord, our God. Amen.

**LEGISLATIVE BILL 608.** Placed on General File as amended.  
 Standing Committee amendments to LB 608:

Req. #2215

2 1. Strike the original sections and insert new

3 sections as follows:

4 "Section 1. This act shall be known and may be  
5 cited as the Homestead Property Tax Relief Act.

6 Sec. 2. The purpose of this act is to provide  
7 assistance, through a system of tax credits and refunds,  
8 to certain low income persons who own or rent their  
9 homestead.

10 Sec. 3. For the purpose of this act, unless the  
11 context otherwise requires, the definitions found in  
12 sections 4 to 14 of this act shall be used.

13 Sec. 4. Claimant shall mean a person who (1)  
14 has attained the age of sixty-five years on or before the  
15 last day of the calendar year for which the claim is  
16 filed, or (2) is disabled as defined in section 5 of this  
17 act, has filed a claim under this act, and was domiciled  
18 in this state for the entire calendar year for which the  
19 claim is filed. When two or more individuals of a  
20 household are able to meet the qualifications for a  
21 claimant, they shall determine among themselves who the  
22 claimant shall be.

23 Sec. 5. Disabled shall mean totally disabled.  
24 A totally disabled individual is an individual with some  
25 physical, functional, or mental impairment, either singly  
1 or in combination, verifiable by medical findings, which  
2 can be expected to last for a continuous period of not  
3 less than twelve months, and which substantially  
4 precludes the individual from engaging in useful  
5 occupations within his or her competence, such as holding  
6 a job or homemaking. To qualify as disabled, a claimant  
7 shall submit a sworn statement from a qualified physician  
8 or a certification from the Veterans Administration  
9 affirming that the claimant is totally disabled.

10 Sec. 6. Gross rent shall mean rent actually  
11 paid in cash or its equivalent solely for the right of  
12 occupancy of a homestead during the calendar year. When  
13 a claimant occupies two or more homesteads in the year  
14 and does not own his or her homestead as of the levy  
15 date, gross rent shall mean the total rent paid for each  
16 homestead that has been rented by the claimant during the  
17 year for which relief is claimed. If the Tax  
18 Commissioner determines that the landlord and tenant have  
19 not dealt in a bona fide business manner and that the  
20 gross rent is excessive, then he or she shall determine,  
21 for purposes of calculating the amount of relief under  
22 this act, a reasonable amount of rent. Appeals of the  
23 Tax Commissioner's determination shall be made as  
24 provided in section 27 of this act.

25 Sec. 7. Homeowner shall mean a person who (1)  
26 owns or is purchasing a homestead under a mortgage or  
27 land contract, (2) owns or is purchasing a dwelling

1 situated on the leased lands of another, (3) is a  
2 tenant-stockholder of a cooperative housing corporation,  
3 (4) is the beneficiary of a trust of which the trustee is  
4 the record title owner and the beneficiary-occupant has  
5 (a) a specific right to occupy the premises as stated in  
6 the trust instrument, (b) the right to amend or revoke  
7 the trust to obtain such power of occupancy or of title,  
8 or (c) the power to withdraw the homestead premises from  
9 the trust and place the record title in such occupant's  
10 name, or (5) is a resident of a multipurpose or  
11 multifamily dwelling, the record title owner of which is  
12 a not-for-profit corporation, and the resident has by  
13 purchase for fair market value secured a life tenancy in  
14 a private, taxable portion of the dwelling.

15 Sec. 8. Homestead shall mean the dwelling,  
16 whether owned or rented, and so much of the land  
17 surrounding it, not exceeding one acre, as is reasonably  
18 necessary for use of the dwelling as a home, and may  
19 consist of a part of a multifamily dwelling or  
20 multipurpose building and a part of the land upon which  
21 it is built. Homestead shall also mean a mobile home.

22 Sec. 9. Household shall mean the claimant, his  
23 or her spouse, and all other persons except minors who  
24 live in the same dwelling sharing the furnishings,  
25 facilities, accommodations, and expenses. Household does  
26 not include bona fide lessees, tenants, or roomers and  
27 boarders on contract.

1 Sec. 10. Household income shall mean all income  
2 received by all persons of a household in a calendar year  
3 while members of such household.

4 Sec. 11. Income shall mean the sum of the  
5 federal adjusted gross income as defined by the Internal  
6 Revenue Code of the United States and spendable income.

7 Sec. 12. Property taxes accrued shall mean  
8 property taxes, exclusive of special assessments,  
9 delinquent interest, and charges for service, levied on  
10 the first forty thousand dollars valuation of a  
11 claimant's homestead in this state in 1980 or any  
12 calendar year thereafter. If a claimant owns his or her  
13 homestead on the levy date, property taxes accrued shall  
14 mean taxes levied on such levy date even if the claimant  
15 does not own his or her homestead for the entire year.  
16 When a household owns and occupies two or more different  
17 homesteads in the state in the same calendar year,  
18 property taxes accrued shall relate only to that property  
19 occupied by a household as a homestead on the levy date.  
20 If a homestead is an integral part of a large unit such  
21 as a farm or a multipurpose or multifamily dwelling,  
22 property taxes accrued shall be a percentage of the total  
23 property taxes accrued in proportion to the value of the

24 homestead as compared to the total value of the property.  
 25 For purposes of this section, unit refers to the parcel  
 26 of property covered by a single tax statement of which  
 27 the homestead is a part.

1 Sec. 13. Rent constituting property taxes  
 2 accrued shall mean fifteen per cent of the gross rent but  
 3 shall not exceed two hundred forty dollars in any single  
 4 calendar year.

5 Sec. 14. Spendable income shall mean income  
 6 from the following sources that is not included in the  
 7 federal adjusted gross income as defined in the Internal  
 8 Revenue Code of the United States: (1) Capital gains;  
 9 (2) strike benefits; (3) support money; (4) cash public  
 10 assistance and relief; (5) the gross amount of any  
 11 pension or annuity; (6) all payments received under the  
 12 federal Social Security Act, Railroad Retirement Act, or  
 13 state unemployment insurance laws; (7) interest received  
 14 from the federal or state government or any of their  
 15 instrumentalities; (8) workmen's compensation; (9) the  
 16 gross amount of loss of time insurance; and (10) gifts  
 17 greater than three hundred dollars from nongovernmental  
 18 sources. Spendable income shall not include life  
 19 insurance benefits, gifts of three hundred dollars or  
 20 less from nongovernmental sources, inheritances, or other  
 21 sources not specified in this section.

22 Sec. 15. All homesteads in this state shall be  
 23 assessed for taxation the same as other property except  
 24 that assistance shall be provided to claimants on a  
 25 percentage of the property tax accrued on the homestead  
 26 as provided in section 16 of this act.

1 Sec. 16. The amount of assistance shall be  
 2 based on the claimant's household income for the period  
 3 set forth in section 77-2759, Reissue Revised Statutes of  
 4 Nebraska, 1943. The percentage of assistance for which  
 5 each claimant shall be eligible shall be the percentage  
 6 appearing in Column B in the table in this section on the  
 7 line on which, in Column A of such table, there appears  
 8 the household income the claimant received in the taxable  
 9 year.

23 Sec. 17. The right to file a claim under this  
24 act shall be personal to the claimant. Such right may be  
25 exercised on behalf of a claimant by his or her spouse,  
26 legal guardian, or attorney-in-fact.

1 Sec. 18. Subject to the limitations provided in  
2 this act, a claimant may claim in any year as a credit  
3 against state income taxes otherwise due on his or her  
4 income, property taxes accrued or rent constituting  
5 property taxes accrued, in the preceding calendar year.  
6 If the allowable amount of such claim exceeds the income  
7 taxes otherwise due on the claimant's income, or if there  
8 are no income taxes due on the claimant's income, the  
9 amount of the claim not used as an offset against income  
10 taxes, after certification by the Tax Commissioner, shall  
11 be paid to the claimant.

12 Sec. 19. No claim with respect to property  
13 taxes accrued or with respect to rent constituting  
14 property taxes accrued shall be paid or allowed, unless  
15 the claim is actually filed with the Department of  
16 Revenue on or before April 15 in the next succeeding  
17 calendar year.

19 year shall be entitled to relief under this act.

20 Sec. 21. The Tax Commissioner shall make  
21 available suitable forms with instructions for claimants,  
22 including a form which shall be included with or be a  
23 part of the individual income tax form. The claim shall  
24 be in such form as the Tax Commissioner may prescribe.

25 Sec. 22. Every renter claimant under this act  
26 shall supply to the Department of Revenue, in support of  
27 his or her claim, proof of rent paid and the name and  
1 address of the owner or managing agent of the property  
2 rented.

3 Sec. 23. Upon request of the Tax Commissioner,  
4 the county treasurer shall supply to the Department of  
5 Revenue, in support of every homeowner claimant, a  
6 statement of property tax accrued and a statement of any  
7 delinquent property taxes.

8 Sec. 24. If, on the review of any claim filed  
9 under this act, the Tax Commissioner determines the  
10 amount to have been incorrectly determined, he or she  
11 shall redetermine the claim and notify the claimant of  
12 the redetermination and the reason for it. The  
13 redetermination shall be final unless appealed within  
14 twenty days of receipt of notice of such redetermination  
15 by the claimant.

16 Sec. 25. If it is determined that a claim is  
17 excessive and was filed with fraudulent intent, the claim

18 shall be disallowed in full and, if the claim has been  
 19 paid or a credit has been allowed against income taxes  
 20 otherwise payable, the credit shall be cancelled and the  
 21 amount paid may be recovered by assessment. The  
 22 assessment shall bear interest from the date of payment  
 23 of the claim, until refunded or paid, at the same rate as  
 24 is provided for delinquent income taxes by section  
 25 77-2788, Reissue Revised Statutes of Nebraska, 1943.

26 Sec. 26. A person who files a claim which is  
 27 excessive and which was done with fraudulent intent or  
 1 any person who assisted in the preparation of filing of  
 2 such excessive claim or supplied information upon which  
 3 such excessive claim was prepared, with fraudulent  
 4 intent, shall be guilty of a Class IV misdemeanor.

5 Sec. 27. Any person aggrieved by the denial in  
 6 whole or in part of relief claimed under this act, except  
 7 when the denial is based upon late filing of a claim, may  
 8 appeal the denial to the Department of Revenue by filing  
 9 a notice of appeal within twenty days after receipt of  
 10 notice of such denial. The appeal shall be made pursuant  
 11 to Chapter 84, article 9, Reissue Revised Statutes of  
 12 Nebraska, 1943.

13 Sec. 28. No claim for relief under this act  
 14 shall be allowed a person who is a recipient of public  
 15 rental assistance for taxes or rent during the period for  
 16 which the claim is filed.

17 Sec. 29. A claim shall be disallowed if the  
 18 Department of Revenue finds that the claimant received  
 19 title to his or her homestead primarily for the purpose  
 20 of receiving benefits under this act.

21 Sec. 30. A person may amend a claim for relief  
 22 under this act by filing an amended claim. The amended

8 locomotion without the aid of braces, crutches, canes,  
9 wheelchairs, or artificial limbs, and (4) individuals  
10 with progressive neuromuscular or neurological disease  
11 such as to preclude locomotion without the aid of braces,

13 Application for such exemption shall include the sworn

26 Sec. 6. That section 77-3513, Revised Statutes  
 27 Supplement, 1979, be amended to read as follows:

 9 an application for homestead exemption and the exemption  
 10 has been granted for that year, no reapplication need be  
 11 filed for succeeding years, in which case the county  
 12 assessor and Tax Commissioner shall determine whether the  
 13 claimant shall qualify for the homestead exemption in  
 14 such succeeding years as otherwise provided in sections

 3 application is approved, the county assessor shall mark  
 4 the same approved and show thereon the amount of  
 5 exemption allowed and make the proper deduction upon the  
 6 assessment rolls. In case he or she finds that the  
 7 exemption should not be allowed by reason of not being in  
 8 conformity to law, the county assessor shall mark the  
 9 application rejected and state thereon the reason for  
 10 such rejection. In any case when the county assessor  
 11 disallows or reduces an application for exemption, he or

 2 shall determine from the records of the Department of  
 3 Revenue whether or not the applicant meets the required  
 4 income standards. The Tax Commissioner shall, on or  
 5 before August ~~4~~ 15, certify his or her determinations to  
 6 the county assessor. If the county assessor's and Tax  
 7 Commissioner's determination is that the application  
 8 should be accepted, then the county assessor shall  
 9 process the application in the same manner as an approved  
 10 application under section 77-3516. If the Tax  
 11 Commissioner's determination is that the application does

### ATTORNEY GENERAL'S OPINIONS

Opinion No. 246  
March 10, 1980

Dear Senator Stoney:

You have requested the opinion of this office regarding LB 894 which provides for the assessment of a "cost" in the amount of \$25.00 against each defendant found guilty of a felony in district court. Said assessment would be deposited in the Crime Victim's Compensation Fund. Specifically, you have posed the following inquires:

"1. In the case of an indigent defendant proceeding in Forma Pauperis, will LB 894 require that the county pay the \$25.00 fee into the Crime Victim's Reparation Fund?"

"2. If those proceeding in Forma Pauperis are not required to personally pay such costs, could LB 894 be successfully challenged on equal protection grounds as not requiring all those convicted of a felony to pay such costs?"

The county is generally liable for the costs of criminal prosecutions, as it is the duty of the county to pay the expenses of the local administration of justice within the county. Kovarik v. County of Banner, 192 Neb. 816, 224 N.W.2d 761 (1965). Sections 25-2301, et seq., R.R.S. 1943, provide that the county shall pay certain fees and costs in proceedings taken in forma pauperis. Sections 29-2704 to 2706, R.R.S. 1943, generally provide that the county shall pay the bill of costs in criminal proceedings in district court, however if convicted, said costs shall be collected from the defendant to the extent possible. The county's payment of the costs of criminal prosecutions in the case of indigency does not appear to be subject to attack on equal protection grounds.

The above stated legal principles are premised upon the assumption that the particular assessment at issue constitutes a "cost". In our opinion, there may be some question regarding whether the assessment described in LB 894 can be catagorized as a "cost". Correspondingly, if the assessment is something other than a cost, such as a fine or penalty, the legal conclusions described above may be inapplicable.

The term "costs", in the context of legal proceedings, has been defined generally as specific allowances authorized by statute to reimburse the successful party for expenses incurred in prosecuting or defending an action. 20 C.J.S., Cost, § 1, p. 257. Several cases from other jurisdictions have held that the costs imposed in a criminal case must bear some reasonable relation to the expenses actually incurred in the prosecution. People v. Barber, 14 Mich. App. 395, 165 N.W.2d 608 (1968); Ex Parte Carson, 143 Tex. Crim. 498, 159 S.W.2d 126 (1942); Ex Parte Miller, 97 Okla. Crim. 351, 263 P.2d 522 (1953); Ex Parte Coffelt, 93 Okla. Crim. 343, 228 P.2d 199 (1951); 65 A.L.R.2d 877, § 9; 20 Am.Jur.2d, Cost, § 100, p. 79-80. The legislative label of an assessment as a "cost" cannot preclude or bind a judicial determination. People v. Barber, *supra*; Decamp v. City of Lincoln, 202 Neb. 727, 277 N.W.2d 83 (1979).

In People v. Barber, *supra*, the court considered the constitutionality of a state statute which mandated an assessment of an additional "cost" in the amount of ten percent of every fine imposed for the violation of a criminal offense. The monies collected pursuant to said provision were deposited in a law enforcement officers training fund. The court concluded that, despite the statutory label, said assessment was not a "cost" since it did not reasonably relate to the expenses incurred in prosecution. Rather the court found that said assessment was a fine and therefore the statute allocating monies collected to the law enforcement training fund violated the constitution of that state which required the application of all fines collected to the support of public libraries.

In Ex Parte Carson, *supra*, the court held that an assessment, statutorily described as a "cost", charged to a criminal defendant upon conviction which was deposited in a fund for the purpose of establishing and maintaining county law libraries could not logically be considered a proper item of "cost" as it was not necessary or incidental to the trial of a criminal case. Similarly, in Ex Parte Miller, *supra*, the court held that an assessment charged to every person convicted of a felony or misdemeanor which was deposited in the police pension fund could not be considered a "cost". Also, in Ex Parte Coffelt, *supra*, it was held that an assessment charged to persons convicted of a felony or misdemeanor and deposited in a fund to defray salaries and expenses of the pardon and parole office was not a proper item of cost as the same did not bear a true relation to the expenses of prosecution.

In our opinion, it could be argued that the assessment described in LB 894 is of a similar nature to those involved in the above cited cases. In other words, it could be argued that said assessment does not bear a direct relation to actual costs incurred in a criminal prosecution and

therefore is not a cost, but rather said charge is in the nature of an additional fine or penalty imposed upon conviction of a felony. If an assessment is punitive in character, rather than remedial or compensatory, such that it can be said to be a pecuniary punishment inflicted for a violation of law, said assessment may fall within the provisions of Article VII, Section 5 of the Nebraska Constitution, which requires that fines and penalties shall be appropriated exclusively to the use and support of the common schools.

To our knowledge, the Nebraska Supreme Court has not considered the above described issue in a similar context. Until our court has the opportunity to consider such a question, we can only speculate as to the constitutionality of depositing the assessment at issue in the Crime Victim's Compensation Fund. However the judicial decisions from other jurisdictions, as discussed above, appear to indicate that there is some question regarding the validity of the provisions of LB 894.

Yours truly,

Opinion No. 247  
March 10, 1980

Dear Senator Chambers:

In your letter of February 25, 1980, you called to our attention Legislative Bill 746 which would refer to the voters of cities of the metropolitan class at the 1980 general election the question of whether the members of their city councils would be elected and/or recalled by district or at large.

This legislation would further provide that if less than a majority of those voting favor election and recall by district, such action would be thereafter conducted under local law.

As you further point out in your letter, Nebraska state law currently provides for election and recall of city council members and cities of the metropolitan class by district. (LB329, 1979, section 14-210, et seq., R.S.Supp., 1979). The effect of Legislative Bill 746 would then be to refer this existing legislation back to the electors of cities of the metropolitan class for their approval or rejection.

You ask whether this may constitutionally be done. We think not. We have on several previous occasions considered the constitutionality of similar proposals. In Opinion No. 21, dated February 13, 1979, in which we referred to our Opinion No. 46, dated April 26, 1965, we stated:

“ . . . In the first place, section 1 of Article III of our constitution provides that ‘the legislative authority of the state shall be vested in the legislature.’ It then provides that, ‘the people . . . reserve power at their own option to approve or reject at the polls any act, item, section, or part of any act passed by the Legislature.’ The option is not given to the Legislature to refer laws to the people. . . .”

Our constitution does provide for the holding of a referendum on existing state law however such a referendum may be initiated only by the people. While we recognize that in certain circumstances the voters of the state or a particular subdivision might, by the Legislature, be given an opportunity to determine by popular vote whether certain legislation or certain options as to legislation might apply to them, we find a proposal such as LB 746, which would involve the amendment or repeal of existing legislation by popular vote of a municipality at best constitutionally suspect.

In light of our opinion as to the constitutional propriety of referring existing law to the voters of a municipality in this manner, we believe your further questions concerning the effects of various outcomes of such a popular vote to be premature. If however, we can be of any further assistance to you on this matter, please let us know.

Sincerely,  
 PAUL L. DOUGLAS

O God, make the door of this house wide enough to receive all who need human love and fellowship, narrow enough to shut out all envy, pride and strife.

O God, make the door of this house to be the gateway to some small part at least of your eternal kingdom. Amen.

### ATTORNEY GENERAL'S OPINION

Opinion No. 249  
March 11, 1980

Dear Senator Wesely:

By your letter dated February 27, 1980, you have requested the opinion of this office regarding the constitutionality of LB 990. Specifically, your concern is whether the rule-making authority contained in this bill is an unconstitutional delegation of authority on the part of the Legislature.

LB 990 provides for the adoption of the Nebraska Lighting and Thermal Efficiency Act. Section 5 of this act requires the State Energy Office to adopt standards imposing requirements for lighting and thermal design. The bill requires each standard to be:

“. . . reasonably consistent with a standard published by one or more of the following: The International Conference of Building Officials, the National Bureau of Standards, the United States Department of Energy, the Council of American Building Officials, the American Society of Heating, Refrigeration, and Air-Conditioning Engineers, Incorporated, or the National Conference of States on Building Code and Standards, Incorporated.”

Section 5 further requires these standards be taken in context and be internally consistent, as well as:

“. . . consistent with all national energy conservation goals established by the President of the United States by executive order and all National Energy Conservation goals established by act of Congress.”

The stated purpose of these standards is to prevent the unnecessary wasting of energy, without unreasonably increasing construction costs. The standards and any amendments thereto are to be adopted pursuant to Chapter 84, Article 9.

Section 20 of this act makes failure to comply with these standards a Class IV misdemeanor.

The Legislature clearly has the power to authorize an administrative or executive department to make rules and regulations to carry out an expressed legislative purpose, or to provide for the complete operation and enforcement of a law within designated limitations. However, the limitations of the power granted and the standards by which the granted powers are to be administered must be clearly and definitely stated in the authorizing act. See, Gillette Dairy Inc. v. Nebraska Dairy Products Board, 192 Neb. 89, 100, 219 N.W.2d 214 (1974), and Lincoln Dairy Co. v. Finigan, 170 Neb. 777, 780-81, 104 N.W.2d 227 (1960). In LB 990, the Legislature has not clearly defined the limits within which the Nebraska Energy Office (NEO) must act. There are seven different organizations from whose standards the NEO may select its standards. Internal consistency, as well as consistency with national energy conservation goals is required; but nowhere are these goals defined. There is a broadly stated purpose, but no indication of what standards the NEO must select in relation to that purpose. Despite these attempts to limit and define the delegation of authority in LB 990, it remains vague and overbroad.

In Lincoln Dairy Co. v. Finigan, *supra*, a very similar delegation of authority was struck as unconstitutional. In that case, the Legislature purported to grant authority to the Director of the Nebraska Department of Agriculture and Inspection to make regulations which complied generally with the described milk ordinance and code, and further provided that a violation of such regulations constituted a criminal offense with a fixed penalty. The court stated that the effect of that broad delegation of authority was to permit the director to create criminal offenses, inasmuch as the director was empowered to arbitrarily promulgate any regulations he chose if they complied generally with the milk ordinance and code. This, the court emphasized, violated all fundamental concepts relating to the delegation of legislative authority. The power to define crimes and criminal offenses clearly rests in the Legislature and may not be delegated to an administrative agency.

The court, in Lincoln Dairy, *supra*, stressed that:

“The public has a right to know what acts constitute crimes in this state and the punishments provided therefor. They may properly assume that crimes and punishment are purely a legislative function and that the definition of all crimes and the punishment therefor will be found in the duly enacted statutes of this state. . . .”

The court noted that it was not holding:

“ . . . that the Legislature may not adopt a law or regulation of another jurisdiction by reference. It may even adopt such except insofar as it is not in conflict with existing laws of this state. But

it may not adopt by reference only to the extent that an administrative agency or officer shall see fit to adopt it. To so do is to delegate to the administrative agency or officer the determination of matters which are legislative and, consequently, for the determination of the Legislature." Id. at 784.

Under the provisions of LB 990, the Nebraska Energy Office, an administrative agency, is empowered to promulgate any standards it desires as long as they are taken in context and "reasonably consistent" with the standards of any of seven different organizations. This is impermissible. As the court made clear in Lincoln Dairy, the Legislature may adopt laws or regulations by reference. But, the Legislature may not adopt laws by reference only to the extent an administrative agency sees fit to adopt them. It is therefore, our opinion that the rule (or standard) making authority contained within LB 990 is an unconstitutional and impermissible delegation of authority by the Legislature. (To the same effect is an opinion of this office dated September 17, 1979.)

Sincerely,  
PAUL L. DOUGLAS  
Attorney General

## ATTORNEY GENERAL'S OPINIONS

Opinion No. 251March 10, 1980

Dear Senator George:

In your letter of February 21, 1980, you asked a number of questions relating to certain proposed legislation, LB 756, which appears to allow various commodity boards the option of utilizing check-off funds for membership dues in an association of grain boards. You have noted that this association of grain boards may use such funds for the promotion and development of the grain industry through seminars and conferences, and may also use such resources in the preparation and support of or opposition to proposed legislation.

You have called our attention to certain existing provisions of Nebraska law, such as Neb.Rev.Stat. §2-3311 (Reissue 1977) and Neb.Rev.Stat. §2-3622(10) (Cum.Supp. 1978), which generally prohibit the use of any soybean or corn check-off funds for the promotion or opposition of any candidate for public office or for the purpose of influencing legislation.

In regard to this observation, you have asked whether the passage of LB 756 would, in effect, “. . . void the above two sections as they pertain to the enactment of legislation, thus allowing the use of these [check-off] funds for the influence of legislation.”

You have also asked us to consider whether such commodity boards are allowed to sponsor seminars where legislators or governmental employees are invited to participate. You have asked us to address this question “. . . under the premises that, (a) LB 756 does not pass, and (b) LB 756 is enacted.”

Finally, you have inquired as to whether the wheat board, which we assume to be the same as authorized under Neb.Rev.Stat. §§2-2301, et seq. (Reissue 1977), is currently allowed to use any check-off funds to influence legislation. We will consider these questions in the order you have presented them.

I.

The primary question raised in your letter is whether passage of LB 756 would void the current prohibitions which bar the Soybean and Corn Boards from spending check-off funds to influence legislation or elections for public office. Neb.Rev.Stat. §2-3311(10) (Reissue 1977), prohibits the Soybean Development, Utilization, and Marketing Board from spending any funds “. . . directly or indirectly to promote or oppose any candidate for public office or to influence legislation.” Neb.Rev.Stat. §2-3622(10), (Cum.Supp. 1978), imposes an identical restriction on the Corn Development, Utilization, and Marketing Board.

Under the terms of LB 756, the Soybean and Corn Boards, along with the Wheat Board, would be authorized to expend check-off funds for membership dues in an association of grain boards. See, section 1(1), LB 756. Such an association would then be allowed to use the funds collected as dues to further the mutual goals of all the member boards, “. . . including the preparation and support of or opposition to legislation.” See, section 1(2), LB 756.

The remainder of the bill is devoted to amending the statutory authorizations for the Wheat, Soybean, and Corn Boards, respectively, to allow the State Treasurer to disburse check-off funds for association dues.

On its face, the LB 756 amendment to the respective boards' enumerated duties, responsibilities, and powers would seem to be in clear conflict with the existing prohibitions, as noted above, against expenditures to influence elections or legislation. Since LB 756 does not directly repeal those existing prohibitions, the changes accomplished by the bill, if passed, would have to be read and construed in conjunction with and in the context of current law.

By the language used, it may be assumed that LB 756 is intended by its proponents to effect some change in existing statutory authorizations and prohibitions relative to the boards' expenditure of check-off funds. Our concern is the extent of the change which would be accomplished by the proposed amendment. Since the bill does not explicitly repeal the existing prohibitions of Neb.Rev.Stat. §2-3311(10) (Reissue 1977), and Neb.Rev.Stat. §2-3622(10) (Cum.Supp. 1978), we begin with the assumption that the legislative intent is to read LB 756 in the context of those restrictions.

As the Nebraska Supreme Court has said in considering a question similar to the one presented here:

“ . . . A particular intention expressed in an amendment of a statute in conflict to some extent with a general intention expressed in the statute will be given effect only to the extent of the conflict, leaving the statute as it was before its amendment to operate outside the scope of the amendment. . . .” Ledwith v. Bankers Life Ins. Co., 156 Neb. 107, 119, 54 N.W.2d 409, 418 (1952).

Under this rule of statutory construction, the general prohibitions on political or legislative spending by the Soybean and Corn Boards would be altered and controlled by the special amendment contained in LB 756 only to the extent of authority specifically granted by the amendment. In this instance, that leads us to the conclusion that passage of LB 756 would abrogate existing spending restrictions only to the extent of creating one specific exception to the prohibitions on indirectly influencing legislation.

Passage of LB 756 would mean that the grain boards could pay dues to an association which is authorized to be active in the legislative arena. Thus, the Soybean and Wheat Boards would be able, in effect, to indirectly influence legislation. However, this is the extent of the amendment. As one authority on the subject has stated: "The unchanged sections and the amendments are to be interpreted so that they do not conflict. All the provisions of both are to be given effect and reconciled if possible." Sutherland on Statutory Construction, §22.35, p. 196. See also, State ex rel. Crook v. Coupe, 91 Neb. 463, 136 N.W. 41 (1912). Applying this rule to LB 756 results in the conclusion that the Soybean and Corn Boards would still be prohibited from directly influencing legislation and from indirectly influencing legislation in any manner other than through the specifically excepted association of grain boards. And, of course, since LB 756 does not purport to change this restriction, the Soybean and Corn Boards would continue to be prohibited from spending funds to promote or oppose any candidate for public office.

## II.

Your second question concerns whether the Wheat, Corn, and Soybean Boards are currently permitted to sponsor seminars at which legislators, and state or federal employees are invited to participate. The answer to this question would appear to be yes—with or without the passage of LB 756. Under Neb.Rev.Stat. §2-2309(2) and (5) (Reissue 1977), the Wheat Board is authorized to adopt a program of education, and to conduct any other program of education, and to conduct any other program for the promotion of Nebraska-grown wheat. Seminars such as those you referenced would seem to fall within these broad educational and programatic powers. In addition, section 2-2309(3) authorizes the Wheat Board to cooperate with other entities in both the private and public sectors. This provision would seem to clearly allow participation by legislators, or state and federal employees in any such seminars.

The statutory authorizations of the Soybean and Corn Boards are not so broad as those of the Wheat Board. However, the identical provisions of both seem to already encompass the seminars you envision. Section 2-3311(4) allows the Soybean Board to gather and evaluate the information necessary to operate its commodity program. Section 2-3622(4) (Cum.Supp. 1978), grants the same authority to the Corn Board. Both boards also are authorized to establish a mechanism for input from growers on at least an annual basis. Since it is possible that the seminars you suggest could accomplish either or both of the boards' enumerated responsibilities referred to above, current law would appear to permit them.

We would offer one caveat, however. The seminars you propose would not be allowed if their sole or primary purpose would be to promote, directly or indirectly, activities or objectives prohibited by each boards' respective statutory authorization.

III.

Your final question is whether the Wheat Board currently is allowed to expend check-off funds to influence legislation. For purposes of this opinion, we will assume this question also relates to the proposed legislation, LB 756, or other new legislation you may be contemplating.

The answer to your question appears to be yes. Unlike the Soybean and Corn Boards, the Wheat Board is not specifically prohibited from such activities. As was noted by the Nebraska Supreme Court in Ledwith, supra, "The intent of the Legislature is expressed by omission as well as by inclusion." Id., at 120, 54 N.W.2d at 418. The omission of any restriction on Wheat Board expenditures to influence legislation is an indication that the Legislature intended to allow such expenditures, or at least did not specifically exclude the possibility of such expenditures. Consequently, we cannot say that the Wheat Board is precluded by statute from expending monies to influence legislation.

Sincerely yours,  
PAUL L. DOUGLAS

Opinion No. 252  
March 11, 1980

Dear Senator Maresh:

This is in response to your letter of March 6, 1980, which concerns a proposed amendment to LB 909, regarding the termination of perpetual care trusts and perpetual special care trusts which are established under sections 12-509 and 12-510, R.R.S. 1943. More specifically you requested an opinion as to whether the word "perpetual" modifies the word "care" or the words "trust, trust fund or fund," as these terms are used respectively in sections 12-505 through 12-512.08, R.R.S. 1943, thus possibly making such trusts irrevocable.

The overall intent of sections 12-505 through 12-512.08, R.R.S. 1943, is clearly to provide funds for the continual care, maintenance and upkeep of cemeteries and individual graves, vaults, etc. Section 12-509, R.R.S. 1943, states that the income earned from the investment of the perpetual care trust funds "shall be used solely for the general care, maintenance and embellishment of the cemetery, and shall be applied in such manner as the association may from time to time determine to be for the best interests of the cemetery." More specifically section 12-512.01, R.R.S. 1943, provides that the income from the perpetual care trust fund is "to be used for the perpetual care of the cemetery by the association." Likewise, section 12-510, R.R.S. 1943, regarding the perpetual special care trusts provides that "[t]he income earned thereon shall be used solely for the purposes of perpetual special care as set forth in the respective trust agreements made between the association and said donors." The wording of these statutes clearly indicates that the purpose of the various funds, trusts, or trust funds is to provide for the perpetual care of the respective cemetery and individual graves, vaults, burial lots, etc.

The implication of this concept of perpetual care, however, is that the funds, trusts, or trust funds established for the purpose of such perpetual care are also perpetual in nature. In fact, section 12-509, R.R.S. 1943, states that "[t]he principal of the perpetual care fund shall be forever held inviolate as a perpetual trust by said association, and shall be maintained separate and distinct from any other funds." Likewise, section 12-512, R.R.S. 1943, regarding these perpetual special care trusts, provides a specific exception for these trusts as regards the rule against perpetuities. This, in fact, means that the perpetual special care trusts are also perpetual trusts.

The mere fact that a trust is considered a perpetual trust does not necessarily mean that it is irrevocable, in the sense that the trustee may not be removed and substituted by another trustee. The intent and requirement of sections 12-505 through 12-512.08, R.R.S. 1943, is that the perpetual care funds as well as the perpetual special care funds shall be held permanently in trust for the specific purpose of continued care of the cemetery and the individual grave sites. There is no specific provision in the statute that prohibits a change of trustee, rather the sole requirement is simply that the funds remain in trust for the stated purposes. In dealing with a perpetual trust, the implication is obvious that there may indeed be successor trustees required, particularly when individuals are allowed, as in section 12-512.03, R.R.S. 1943, to act as trustees. The irrevocability of any trust fund agreement entered into between a cemetery association and a corporate fiduciary is not then determined by the requirements established by statute, but rather would be determined by the wording

of the agreement between the parties and the ability of the association to alter or modify this arrangement by removing an existing trustee and appointing a successor trustee under the rules of law governing charitable trusts.

Thus it appears that the primary intent and wording of the statute is that the word "perpetual" as used in the terms perpetual care fund, perpetual care trust fund, and perpetual special care trusts applies to the continual care to be provided for the maintenance and upkeep of the cemeteries and the individual grave sites. Nevertheless, there is also specific wording and the underlying implication that the word "perpetual" as used in the terms perpetual care trust fund and perpetual special care trusts also refers to the continuing nature of the respective trust or trust fund. While these trusts or trust funds may be regarded as perpetual trusts, as provided by statute, this does not imply that any trust agreement entered into between a cemetery association and a corporate fiduciary is irrevocable in the sense that the association could not remove an existing corporate trustee and appoint a substitute trustee.

Very truly yours,  
PAUL L. DOUGLAS  
Attorney General

Clerk of the Legislature

Opinion No. 253  
March 14, 1980

Dear Senator Haberman:

You have requested our opinion on four questions which relate generally to LB 605 as amended. We have previously issued two opinions on LB 605. They are Opinion No. 204 to Senator Venditte, dated January 30, 1980, which opinion dealt with LB 605 in its original form, and Opinion No. 205, dated January 30, 1980, to you, which dealt with proposed amendments to LB 605. Those proposed amendments were subsequently adopted. Subsequently LB 605 was amended on the floor on March 5, 1980, in three particulars, and on March 7, 1980, in one particular. As it now stands, LB 605, Section 1 provides that:

"When three or more persons are participating in a course of disturbing the peace, a peace officer may order the participants

in the immediate vicinity to disperse. Any person who refuses or knowingly fails to obey such order shall be guilty of a Class II misdemeanor."

Section 2 establishes an affirmative defense which is substantially in the form that it existed in the committee amendments to LB 605. Section 3 is an emergency clause.

In your first question you ask whether striking the definition of disorderly conduct contained in the committee amendments and substituting in its place the term "disturbing the peace" as set out above, changes our previous opinion with respect to the constitutionality of this legislation. In our Opinion No. 205 we stated:

" . . . Under the amendment as drafted an act is required.

Most of the overbreadth attacks have related to protected free speech as opposed to acts. Therefore, we believe it could be successfully defended."

Disturbing the peace is defined at section 28-1322(1), R.S.Supp., 1978. That subsection provides:

"Any person who shall intentionally disturb the peace and quiet of any person, family, or neighborhood commits the offense of disturbing the peace."

This section is substantially similar to section 28-818 as it existed prior to the adoption of the Nebraska Criminal Code. The Nebraska Supreme Court in State v. Coomes, 170 Neb. 298, 102 N.W.2d 454 (1960), stated in essence that a breach of the peace, a common law crime, is the same as the statutory crime of disturbing the peace. In that same case the Supreme Court stated that in order to charge the crime the information must specify what the defendant did that willfully disturbed the peace and quiet of some person, family or neighborhood; where the act took place; and what person, family or neighborhood was disturbed. A constitutional question as to the validity of the statute was raised in that case but not reached.

As we indicated in our previous opinions, a constitutional attack on statutes of this type is generally based upon a First Amendment claim. Such claims would relate to the exercise of religion, the freedom of speech or press, or the right to peaceably assemble and petition government. The United States Supreme Court has construed statutes of similar import in a large number of cases. In Lewis v. New Orleans, 415 U.S. 130, the Supreme Court limited a breach of the peace complaint to one involving fighting words rather than just words. Other cases have similarly construed statutes of the character here under question to be limited to certain specific circumstances. Thus, the statutory definition provided in the Criminal Code, coupled with the construction placed upon that statute by court interpretations, would provide a sufficient set of standards to guide

the discretion of peace officers. To that extent our opinion previously rendered would stand with respect to the new language adopted on the floor of the Legislature.

In your second question you ask whether the language now in the bill could be defended from a constitutional attack based on overbreadth since the language now utilized encompasses speech as well as acts. In Opinion No. 205 we indicated that the necessity of an act would be sufficient to defend it from an overbreadth attack. In the present version which is clothed with the interpretations of case law there are sufficient standards and guidance that a prosecution under this section would probably be defensible depending, of course, upon the exact factual situation. The statute is broad enough that conceivably a complaint could be filed which would charge some violation which would run afoul of constitutional protections involving either free speech, peaceable assembly, or practice of religion. While we cannot say such specific attacks would be unsuccessful, we are of the opinion that the statute on its face would withstand a constitutional attack on that basis. This is particularly true, we believe, in light of the specificity required by the Supreme Court in State v. Coomes. We also believe that should the statute come before our Supreme Court, our court would adopt those limiting constructions heretofore approved by the United States Supreme Court in cases such as Cox v. Louisiana, 279 U.S. 536.

In your third question you ask:

“In your opinion, do the latest adopted amendments sufficiently describe the conduct to be prohibited so as to effectively guide law enforcement in carrying out the provisions of the act as clearly as the original provisions of Req. 2115.”

We must decline to express our opinion on the relative merits of the two proposed enactments. A policy decision is required to be made either to adopt the language proposed in Request No. 2115 or the language as it now exists after floor action by the Legislature. This is a policy decision. It is our duty to advise you as to the constitutionality of the language of statutes which have been proposed. In this instance both sets of proposals are, in our opinion, constitutional. Which one should be adopted is a decision that must be made by the Legislature.

In your fourth question you ask whether the latest amendments increase or decrease the likelihood of civil liability being imposed for acts of peace officers attempting to enforce the provisions. To answer this question would require speculation on our part. A limited immunity is granted to peace officers in the execution of their office. This immunity is known as good faith defense. If they act in a good faith belief that their action is lawful, they would be immune from liability. To that extent a specific factual situation would be necessary

before one could make a determination of the relative probability of liability give the different provisions. Obviously, the broader the authority granted to a peace officer, the broader the area in which he may act in good faith. However, the test is how the officer acted in the specific circumstances under consideration. Since speculation would be required to answer your question, we must decline to give you our opinion on the relative merits of the proposed bills.

WHEREAS, the Legislature has also been concerned with the impact of credit policies upon the consumer; and

WHEREAS, the continued consideration of these matters, sometimes in a piecemeal fashion does not positively contribute to stability in the market place.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Banking, Commerce and Insurance Committee conduct an interim study to consider the above and specifically if the adoption of the Uniform Commercial Credit Code (UCCC) would create a better climate for both the borrower and the credit extender as well as any other matters related thereto.

Referred to the Executive Board.

## ATTORNEY GENERAL'S OPINION

Opinion No. 254  
March 13, 1980

Dear Senator Johnson:

You have requested the opinion of this office regarding LB 892 which, as you explained, adjusts appeal procedures for small claims court disputes. Further, you indicated that said bill was amended to preclude removal of small claims to the regular docket absent a request by the defendant for a jury trial. Specifically, you have posed the following inquiries:

“1. Do the Constitutions of Nebraska or the United States guarantee trial by jury in state civil cases?”

“2. If such Constitutional guarantees are present, can they be met by permitting a jury trial at the appeal level of a small claims dispute, rather than through the removal process?”

Pursuant to your request, we will hereinafter consider only the above inquiries in the order raised.

The Seventh Amendment to the United States Constitution which preserves the right to jury trial in civil cases at common law where the amount in controversy exceeds \$20, by its terms, relates only to trials in the courts of the United States. Edwards v. Elliot, 21 Wall. 532, 22 L.Ed. 487 (1874). Nor is the same made applicable to the states through the due process or privilege and immunity clauses of the Fourteenth Amendment. Walker v. Sauvinet, 92 U.S. 90, 23 L.Ed. 678 (1876); Melancon v. McKeithen, 345 F.Supp. 1025 (E.D.La. 1972), *aff'd* 409 U.S. 943, 1098, 93 S.Ct. 289, 290, 908, 34 L.Ed.2d 214, 679 (1973); Curtis v. Loether, 415 U.S. 189, 192 Fn. 6, 94 S.Ct. 1005, 1007, 39 L.Ed.2d 260, 265 (1974); Anno., 18 L.Ed.2d 1388, 1410 (1967). So far as the Seventh Amendment is concerned, the states are left to regulate trials in their own courts in their own way. Walker v. Sauvinet, *supra*.

Article I, Section 6 of the Constitution of the State of Nebraska, provides as follows:

“The right of trial by jury shall remain inviolate but the Legislature may authorize trial by a jury of a less number than twelve in courts inferior to the District Court, and may by general law authorize a verdict in civil cases in any court by not less than five-sixths of the jury.” (Emphasis added).

The Nebraska Supreme Court has interpreted the above quoted constitutional provision on several occasions.

In Kuhl v. Pierce County, 44 Neb. 584, 590 (1895), the court explained that:

“ . . . Section 6 of the bill of rights provides that the right of trial by jury shall remain inviolate. This is a constitutional guaranty that the right of trial by jury shall remain as it did prior to the adoption of the constitution of 1875. Without going into a history of this provision it is sufficient to say that at the time of the adoption of the present constitution the right of trial by jury was guaranteed by the constitution of the state to its citizens substantially as the right existed at common law. . . . The spirit of the constitution and laws of this state seems to be this, that if an issue of fact arise in an action equitable in its nature such issue of fact is triable to the court; but if the issue of fact arise in a purely legal action then the issue of fact is triable to a jury. . . .”

The court therein held that an action upon a contract for the payment of money is legal in nature, therefore the constitutional right to trial by jury attached. See, In re Guardianship of Warner, 137 Neb. 25, 288 N.W.39 (1939), wherein, upon applying the same principle, the court held that there was no constitutional right to a jury in proceedings to determine competency, since at common law there was no right of trial by jury in sanity hearings. See also, Omaha Fire Insurance Co. v. Thompson, 50 Neb. 580 (1897), wherein the court held that in actions for the recover of money or of specific real or personal property the constitutional right to trial by jury attached, since said actions were tried before a jury at common law and under Article I, section 6 of the Nebraska Constitution the same could not be curtailed.

The interpretation given Article I, Section 6 of the Nebraska Constitution by our Supreme Court is consistent with the interpretations given similiar constitutional provisions in other jurisdictions. 47 Am.Jur.2d, Jury, §30, p. 649. Thus, as a general rule, the right to a jury trial in civil actions and proceedings extends only to such actions and proceedings characterized as "at law" rather than "in equity." 47 Am.Jur.2d, Jury, §§29-38, p. 649-657. Whether a particular action is one "at law" or "in equity" for the purpose of determining whether the constitutional guarantee of the right to trial by jury attaches is in some instances unclear. However, actions for monetary damages, such as those within the jurisdiction of the small claims court pursuant to section 24-522, R.S.Supp. 1979, are actions at law, thus subject to the guarantees of Article I, Section 6, of the Nebraska Constitution.

Regarding your second inquiry, it is generally held that the constitutional guarantee of a trial by jury in civil cases does not mean that a party is always entitled to a jury trial in the first instance. Said constitutional right is secured if there is a right of appeal, without unreasonable restrictions, to a court in which a jury trial may be held. 50 C.J.S., Juries, §132, p. 860; 47 Am.Jur.2d, Jury, §56, p.676.

The leading case setting forth the above stated general rule is Capital Traction Co. v. Hof, 43 L.Ed. 873, 19 S.Ct. 580 (1898). Therein the court held that legislation which increased the civil jurisdiction of justices of the peace in the District of Columbia to \$300 and allowed an appeal to a court of record, in which a trial by jury could be had for the first time, upon payment of security, did not abridge the constitutional right of trial by jury. In so holding, the court reasoned:

The Legislature, in distributing the judicial power . . . with a view to prevent unnecessary delay and unreasonable expense, must have a considerable discretion, whenever in its opinion, because of general increase in litigation, or other change of

circumstances, the interest and convenience of the public require it, to enlarge within reasonable bounds the pecuniary amounts of the classes of claims entrusted in the first instance to the decision of justices of the peace provided always the right of trial by jury is not taken away in any case in which it is secured by the Constitution.

“Having regard to the principles and to the precedents applicable to this subject, we should not be warranted in declaring that the act of Congress of 1895 so unreasonably obstructs the right of trial by jury, that it must for this reason be held to be unconstitutional and void.” *Id.* at 46.

See also, Loughrey v. Weitzel, 94 Idaho 833, 498 P.2d 1306, 1309 (1972); City of Bellingham v. Hite, 225 P.2d 895 (Wa. 1950); Rice v. Lucas, 560 S.W.2d 850 (Mo. 1978).

In Opinion of the Justices, 113 N.H. 205, 304 A.2d 881 (1973), the court held that a jury trial need not be had in the first instance if a right of appeal is allowed, without unreasonable restrictions, to a court where the constitutional right to trial by jury could be enjoyed. However, the court further held that requiring the prepayment of security in the amount of \$750 to \$1125 to obtain a jury trial on appeal of a case involving \$3,000 or less constituted an unreasonable condition, and, therefore the statutory scheme at issue unreasonably infringed upon the constitutional right to a trial by jury.

Our research reveals no case in this jurisdiction wherein our court had the opportunity to consider the specific inquiry you have posed. Therefore, we cannot respond to said inquiry with absolute certainty. However, in our opinion, the reasoning of the above cited cases is persuasive. Based on the great weight of authority, it appears to us that the constitutional guarantee to trial by jury in civil cases is secured upon allowing a jury trial on appeal, so long as the right of appeal is not unreasonably restricted.

**MESSAGE FROM THE GOVERNOR**

March 17, 1980

Mr. President, Mr. Speaker and  
 Members of the Legislature  
 State Capitol Building  
 Lincoln, Nebraska 68509

Dear Mr. President and Senators:

I hereby return LB 772 without my signature and with my objections.

Although the Final Reading copy of LB 772 before the Legislature at the time of LB 772's passage does not indicate it as an amendment, LB 772, Section 1, changes the reimbursement rate for special education programs for handicapped children less than five years of age from 90% reimbursement to 100% reimbursement. LB 772, as sent to my desk, also contains this change from 90% reimbursement to 100% reimbursement.

In my opinion, we can maintain a more cost effective special education program by requiring the local school districts, which select special education programs for their students, to pay at least 10% of the excess cost of special education programs. To eliminate this requirement is to effectively remove an important fiscal monitoring device.

In addition to providing for 100% reimbursement of the costs of special education programs for handicapped children less than five years of age, LB 772 also has other objectionable features. Since the Legislature established a comprehensive program of state support for special education services in 1973 (LB 403) several significant statutory changes have been implemented. It is no exaggeration to say that not one year has passed without some change in funding formulas, the scope of services, or the identification of eligible persons. The definition of "excess costs", which is central to the determination of the state's financial responsibility, has changed at least three times! (LB 403 - 1973; LB 443 - 1977; LB 871 - 1978).

This tendency to constantly tinker with the mechanics of this aid program has resulted in a confusing array of financial and programmatic requirements. Many of you have no doubt heard complaints from school officials about the paperwork that is required from them to receive these funds. While we are often justified in blaming such excesses on the "bureaucrats", in this case, much of the blame is due to frequent changes in statute.

LB 772 adds to this unhappy situation and should not be enacted. Also, this measure is an inappropriate mechanism to channel special education students to specified service agencies. Let me elaborate on these points. First, LB 772 changes the special education reimbursement formula in a manner that provides a financial incentive to those school districts that contract with the Barkley Memorial Center, the Ruth Staples Laboratory, the Meyer Children's Rehabilitation Institute and the Nebraska Psychiatric Institute. In these select instances the state will reimburse its share of the costs in the current year rather than in the following year. This treatment is not afforded to many other providers, such as mental retardation programs or educational service units. In fact, LB 772 clearly changes the entire cash flow procedure, but not for all the vendors in the public and private spheres.

One of the compelling reasons given for LB 772's introduction was a decline in the numbers of children who were receiving service at MCRI (Meyer Children's Rehabilitation Institute), thereby reducing the ability of special education professionals to train needed personnel in this field. However, I submit that this reduction in placements is proof that our special education laws were working just as they were intended. As more schools assumed their responsibilities for providing in-house special education programs, it was evident that fewer children would be placed in the highly specialized programs offered by other institutions.

There is no doubt that the current reimbursement procedures are confusing and, at times, not fair in their distribution of financial

burdens. However, the answer to this dilemma is to work together to improve the situation for all parties--the state, the schools, and independent service providers. LB 772 only compounds the existing problem and will make the administration of special education finance more inequitable.

I urge you to sustain my veto of LB 772.

(Signed) Respectfully,  
 CHARLES THONE  
 Governor

SECOND SESSION**

**FORTY-FIFTH DAY**

Legislative Chamber, Lincoln, Nebraska  
Wednesday, March 19, 1980

Pursuant to adjournment, the Legislature met at 9:02 a.m., President Luedtke presiding.

**PRAYER**

The prayer was offered by the Chaplain.

If we have been guilty at times of looking backward in anger, or forward to revenge, forgive us, O Lord our God.

And if there have been moments when we have looked at one another in disgust or distrust, and have been selfish in motivation, and careless in action, forgive us.

If, in the midst of the many things that happen in this legislature, we tend to grow skeptical about Your presence here, no longer remembering that our work is really Your work, forgive us.

In our finer moments, we know better. Help us to overcome those interludes of weakness when we know better than we do. Amen.

**ROLL CALL**

The roll was called and all members were present except Messrs. Hefner and Simon who were excused; and Mr. Koch who was excused until he arrives.

**RESOLUTIONS**

**LEGISLATIVE RESOLUTION 234.**

Introduced by Constitutional Revision and Recreation Committee: Reutzel, 15th District, Chairman; Hefner, 19th District; Stoney, 4th District; Carsten, 2nd District; Pirsch, 10th District; Koch, 12th District; George, 16th District.

**PURPOSE:**

This study has as its purpose the evaluation of potential constitutional amendments relating to municipal home rule in Nebraska. At the present time, Article XI, section 2 of the Nebraska Constitution authorizes any city having a population of more than five thousand inhabitants to frame a charter for its own government consistent with and subject to the constitution and laws of this state. This constitutional provision has remained unchanged since its adoption in 1912, and today the only Nebraska municipalities operating under home rule charters are Lincoln and Omaha. As construed by the Nebraska Supreme Court, home rule charters are subject to strict construction as being grants rather than limitations of power. The Court has also held that home rule charters are effective only as to matters of strictly local municipal concern, and that they must yield to state law in all other matters. Because the Constitution does not delineate permissible home rule powers there is uncertainty concerning the lawmaking authority of home rule cities. This uncertainty, and the tendency of courts to give preference to state law over home rule charters, have effectively eliminated any real distinction between home rule charters and general law charters in Nebraska. To correct this situation, a proposed constitutional amendment was presented to the Legislature this session which would revitalize home rule in the state. Because of the far-reaching consequences of the proposed amendment, it was determined by the Legislature's Committee on Constitutional Revision and Recreation that an in-depth study should be undertaken. It is recommended that the study include at least the following elements: an examination of Nebraska Supreme Court decisions concerning existing powers of home rule cities; a study of state statutes pertaining to cities of every class; a survey of recent legislative bills directed at local municipal concerns; a comparison a constitutional provisions in effect in other states; and a review, through public hearings or otherwise, of any changes in home rule powers desired by Nebraska municipalities and other interested parties.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:**

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the Committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

### **LEGISLATIVE RESOLUTION 235.**

Introduced by Constitutional Revision and Recreation Committee: Reutzel, 15th District, Chairman; Hefner, 19th District; Stoney, 4th District; George, 16th District; Koch, 12th District; Pirsch, 10th District; Carsten, 2nd District.

#### **PURPOSE:**

The purpose of this study is to assess the need for a constitutional amendment which would provide the Legislature a measure of control over funds appropriated by it to the University of Nebraska. Article VII, section 10 of the Nebraska Constitution provides that the general government of the University shall, under the direction of the Legislature, be vested in the Board of Regents. As recently interpreted by the Nebraska Supreme Court, this provision does not permit the Legislature to direct any act or function relating to the general government of the University; the Board of Regents thereby has been granted full discretionary authority in the allocation of General Fund appropriations and other revenue sources among campuses and programs. Thus, although the Legislature owes an obligation to the citizens of Nebraska and it is held accountable by the state's taxpayers to ensure that expenditures for higher education are made wisely, the complete constitutional autonomy possessed by the Board of Regents does not permit the Legislature to exercise its responsibilities in this area. The study will therefore address the issue of whether the Legislature should, by means of a constitutional amendment, be given the authority to supervise University spending, as by earmarking funds.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:**

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the Committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 236.**

Introduced by Constitutional Revision and Recreation Committee: Reutzel, 15th District, Chairman; Hefner, 19th District; Stoney, 4th District; George, 16th District; Pirsch, 10th District; Carsten, 2nd District; Koch, 12th District.

**PURPOSE:**

This study involves an examination of existing provisions of and possible revisions to Article III, sections 1 through 4 of the Nebraska Constitution, pertaining to the powers of initiative and referendum. The Constitution currently provides that measures may be placed on the general election ballot for the enactment of laws and the adoption of constitutional amendments by initiative petition, and for the repeal of laws by referendum petition. In view of the growing interest and debate concerning the use of the initiative and referendum, and the fact that the existing constitutional procedures were established 60 years ago, a thorough examination of the processes should be undertaken by the Legislature to determine whether any changes are in order to meet present-day needs. In addition to a consideration of the options of eliminating, modifying, or retaining in present form the constitutional provisions reserving the powers of direct initiative and popular referendum, the study shall include an examination of the desirability of establishing in Nebraska an indirect initiative (by which measures would be placed on the ballot only if the Legislature fails to act within a certain time), a legislatively submitted referendum (which would allow the Legislature to put questions to the voters), and/or a constitutionally required referendum (which would require certain issues to be put to the voters).

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:**

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the Committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 237.**

Introduced by Constitutional Revision and Recreation Committee: Reutzel, 15th District, Chairman; Hefner, 19th District; Stoney, 4th District; George, 16th District; Pirsch, 10th District; Carsten, 2nd District; Koch, 12th District.

**PURPOSE:**

The purpose of this study is to determine whether the Nebraska Supreme Court, by means of a constitutional amendment, should be authorized to issue opinions upon questions of law when requested by the Legislature or the Governor. Because the Supreme Court has declared it is not empowered to render advisory opinions, there is at the present time often no means by which the constitutionality of prospective legislation may be assessed with any certainty; there have also been instances in which executive departments, whether to permit the filing of contrived lawsuits or otherwise, have refused to implement legislative enactments believed to be of questionable constitutionality. Granting to the Supreme Court the authority to issue advisory opinions in certain instances, as is the practice in several other states, may offer a workable solution to these problems and allow serious conflicts between the legislative and executive branches to be avoided. The objective of the study will be to evaluate the experience of other states in this area and to determine whether a constitutional procedure for the issuance of advisory opinions should be established in Nebraska.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:**

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the Committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 238.**

Introduced by Administrative Rules and Regulations Review Committee: Kelly, 35th District, Chairman; DeCamp, 40th District; Haberman, 44th District; Koch, 12th District; Fowler, 27th District; Kennedy, 21st District; Johnson, 8th District.

**PURPOSE:**

Rules and Regulations adopted by the state administrative agencies are required by statute to be filed with the Revisor of Regulations. Each of these agencies has adopted numbering systems for these rules and regulations which are unique to the particular agency. The entire system of the rules and regulations for all of the agencies is poorly organized and lacks such items as an index, a table of contents, and cross reference tables. The average user, when confronted with trying

to find a particular rule or regulation, often times finds the rule only after considerable time and difficulty, or fails to find the rule at all.

The purpose of this interim study is to review the current set of rules and regulations and organize the system in a manner which is easily accessible. Systems of codification of rules and regulations utilized in other states, as well as in the Code of Federal Regulations, should be reviewed for possible use in Nebraska.

The state's existing system of number and indexing the rules and regulations should be reviewed as well as the effects of adopting a uniform or different numbering system. In conducting the study the committee should work closely with the Revisor of Regulations and with each state agency and its particular rules and regulations in order to adopt an efficient and reliable numbering and indexing system.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:**

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the Committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

### **LEGISLATIVE RESOLUTION 239.**

Introduced by Administrative Rules and Regulations Review Committee: Kelly, 35th District, Chairman; Johnson, 8th District; Koch, 12th District; DeCamp, 40th District; Haberman, 44th District; Fowler, 27th District; Kennedy, 21st District.

#### **PURPOSE:**

Sections 84-901 et. seq. of the Nebraska Revised Statutes commonly referred to as the Administrative Procedures Act, governs the process of the adoption of rules and regulations by the administrative agencies. Also included in this Act are the procedures whereby those respective agencies enforce these rules and regulations.

Since it's adoption in 1945, the act has been revised many times. Each time there was a revision, some problems were solved, and others were created. The result of all of these changes is an act which causes problems for the agencies and for the persons against whom rules are enforced. For instance, any party to a proceeding which is appealable to a court, may invoke the rules of evidence within three days of the administrative hearing. This may place one of the parties in a difficult position, having prepared the case for a hearing without

the formal rules of evidence. This was one of the many problems identified by a survey of the attorneys in the state administrative agencies last summer.

Since the Act is a tool utilized by both the agencies and those persons practicing before these agencies, it should be in a form which solved problems, rather than creating them.

The Committee should appoint a task force to aid in its review of the act. It is recommended that the Administrative Law Section of the Nebraska Bar Association be notified of the study so that its members may aid in the review process.

The goal is to adopt an act governing the enforcement of rules and regulations which is fair and equitable to all parties involved.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:**

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the Committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

#### **LEGISLATIVE RESOLUTION 240.**

Introduced by Chambers, 11th District.

#### **PURPOSE:**

Attorney General opinions frequently impact the legislative process to a greater degree than other policy arguments. Many such opinions have a residual effect on legal issues which their requestors do not anticipate or desire. In addition, the practice of requesting A.G. opinions on even minor matters, increases the risk of sacrificing legislative prerogatives to another branch of government.

The purpose of this resolution is to study the utilization of A.G. opinions and the effects such opinions have on the legal system and legislative process.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:**

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the Committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

## ATTORNEY GENERAL'S OPINION

Opinion No. 255

March 18, 1980

Dear Mrs. Labeledz:

In your letter of March 17, 1980, you called to our attention the proposed Labeledz-DeCamp amendment to LB 741 and asked if it is germane to the legislation which it would amend.

Legislative Bill 741 would repeal certain statutory provisions declared by its drafters to be obsolete. Subjects included are the manufacture of synthetic rubber, hitching horses, posses, hucksters, county workhouses, the licensing of ferries, the Nebraska Constitutional Revision Commission, toll mills, the Antitrust Act of 1897, street cars, personal property of stage companies, and poll taxes.

The Labeledz-DeCamp amendment would add to this list of statutes to be repealed, the current statutory provisions calling for the election of city council members in cities of the metropolitan class by district. We believe this amendment is sufficiently germane. The question of the repeal of certain election laws is, in our opinion, as germane to the entirety of the bill as are any one of the existing subjects to one another. Whether or not these election laws are "obsolete" as the drafters of LB 741 suggests its subjects are, is a judgment we presume would be made by those voting on whether or not to adopt this amendment.

We have researched this matter and are aware of no decisions which provide guidance for determining when an amendment is or is not germane. As a general principle of law, however, all legislative enactments are presumed constitutional and that presumption continues until through the process of judicial review an enactment is shown to clearly contravene some constitutional provision. Prendergast v. Nelson, 199 Neb. 97, 256 N.W.2d 657.

Therefore, we are of the opinion that the Labeledz-DeCamp amendment is sufficiently germane to the subject matter of LB 741. If we can be of further assistance to you on this matter, please let us know.

Sincerely,  
PAUL L. DOUGLAS

## RESOLUTIONS

### LEGISLATIVE RESOLUTION 241.

Introduced by Urban Affairs Committee: George, 16th District, Chairman; Koch, 12th District; Lamb, 43rd District; Schmit, 23rd District; Merz, 1st District.

#### PURPOSE:

The legislation establishing housing authorities in the State of Nebraska was passed in 1969. Since that time no changes have been made in the laws. Revisions in the Nebraska housing authority statutes need to be made to comply with the many changes made on the federal level during the past eleven years. The Nebraska Housing Authority Association has raised questions concerning the possibility of joint housing authorities and other changes which would make the present statutes more workable going into the 1980's.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the Committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 242.**

Introduced by Goodrich, 20th District.

**PURPOSE:**

Cities of all classes are confronting increasing capital requirements for their streets and sewer systems. The past boom in street construction has matured into a boom in maintenance requirements. The federal government's water quality standards now require cities to have secondary treatment facilities in addition to the present primary treatment facilities. These standards also require separate storm and sanitary sewers instead of the present combined sewer systems. The combined financial demands of simultaneous street repair and sewer modification will severely strain the cities' ability to adequately respond. There should be an exploration of the problems and issues raised by these significant financial demands. Included in such a study shall be the cities' ability to respond, state assistance from present agencies and departments, as well as any necessary alterations of present law to facilitate the cities' ability to respond locally as opposed to state financial assistance.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the Committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 243.**

Introduced by Stoney, 4th District; Nichol, 48th District.

**PURPOSE:**

To examine the desirability and possible ramifications of legislation granting a statutory right to grandparents to seek visitation of their grandchildren, similar to LB 749 introduced by Senators Nichol and Stoney during the 1980 Legislative Session.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:**

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the Committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 244.**

Introduced by Stoney, 4th District.

**PURPOSE:**

To examine the arson laws in the State of Nebraska and to determine the desirability of implementing the Model Arson Penal Law and those provisions of LB 979 introduced by Senator Stoney in the 1980 Legislative Session.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:**

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the Committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 245.**

Introduced by Public Works Committee: Kremer, 34th District, Chairman; Wesely, 26th District; Kennedy, 21st District; Clark, 47th District; Beutler, 28th District; Vickers, 38th District; Goodrich, 20th District.

**PURPOSE:**

This study would review the statutes governing the suspension of drivers' licenses, including the reasons for which licenses can be suspended, the methods used to suspend them, the means by which suspended licenses are recovered, and who is responsible for obtaining possession of a suspended license. Attention would be focused on how a court knows the number of points a person has lost on his or her license, how a court obtains possession of a suspended license, whether the larger cities such as Omaha, Lincoln, and Grand Island have sufficient personnel to comply with orders to obtain possession of suspended licenses, and whether improvements are needed in the current system, in particular whether additional state personnel should be employed to recover suspended licenses.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:**

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the Committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 246.**

Introduced by Public Works Committee: Kremer, 34th District, Chairman; Wesely, 26th District; Kennedy, 21st District; Clark, 47th District; Vickers, 38th District; Beutler, 28th District; Goodrich, 20th District.

**PURPOSE:**

The State of Nebraska experiences a multi-million-dollar expense in conjunction with motor vehicle license plates, and the state is interested in selecting the most effective production methods, materials for plates and reflectorization, and bidding procedures. In making this selection, consideration shall be given to the basic function and purpose of license plates, value of plates to law enforcement, average total cost per year of each type of plate, and reliance on studies conducted independently of any manufacturer's influences.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:**

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the Committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

#### **PURPOSE:**

This study would review the existing motor vehicle industry license classifications and requirements in order to determine whether any changes are needed in the current system, in particular whether a new category should be created for persons who buy and sell used cars at wholesale.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:**

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the Committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

## RESOLUTIONS

### LEGISLATIVE RESOLUTION 248.

Introduced by Newell, 13th District.

#### PURPOSE:

The purpose and intent of this resolution is to study the dealers' commission contained in 66-407, Reissue Revised Statutes of Nebraska, 1943, the shrinkage allowance contained in 66-414, Reissue Revised Statutes of Nebraska, 1943, and the Highway Allocation Fund distribution formulas contained in 39-2402, Reissue Revised Statutes of Nebraska, 1943. The appropriate level of the dealers' commission and shrinkage allowance and the structure of the distribution formulas shall be the primary focus of the study.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the Committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

#### **LEGISLATIVE RESOLUTION 249.**

Introduced by Judiciary Committee: Nichol, 48th District, Chairman; Wagner, 41st District; Chambers, 11th District; Reutzell, 15th District; Pirsch, 10th District; Stoney, 4th District; Chronister, 18th District.

#### **PURPOSE:**

Advances in machine technology are increasingly reflected in legislative enactments. These new laws frequently establish the evidentiary status to be afforded such instruments and devices in the courts. In criminal cases, the evidentiary status afforded mechanical or electronic devices, most often directly affects the ultimate outcome of the case. The purpose of this study resolution, is to review all criminal statutes in the above regards and formulate uniform guidelines for the evidentiary status of mechanical and/or electronic devices.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:**

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the Committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

#### **LEGISLATIVE RESOLUTION 250.**

Introduced by Reutzell, 15th District; Sieck, 24th District.

#### **PURPOSE:**

The purpose of this study is to evaluate the operation of the merit system for selection and retention of judges which was adopted in the state by constitutional amendment in 1962. As provided in Article V, section 21 of the Nebraska Constitution, vacancies in the Supreme

Court, district courts, and other courts specified by the Legislature are filled by gubernatorial appointment from a list submitted by a nominating commission, and the judges of such courts run unopposed for retention every six years. The Legislature has acted to include all courts within the merit system and today there are fifty-five judicial nominating commissions, each composed of four attorneys selected by the Nebraska State Bar Association, four lay members appointed by the Governor, and one Supreme Court Judge who serves as non-voting chairman. It is questionable whether this centralized system of appointing judges, rather than electing judges by district, provides for the selection of the most qualified persons to sit on the bench; political motivations may outweigh considerations of competency. The fact that judges are not required to stand for re-election may also prevent their replacement by more capable jurists, and may tend to perpetuate unqualified judges in office. The study should address these issues and, in particular, examine whether a system should be established for the selection of judges which combines the concept of nominating commissions with nonpartisan, district elections.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the Committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

### ATTORNEY GENERAL'S OPINION

Opinion No. 256  
March 14, 1980

Dear Senator Carsten:

You have requested from this office an opinion as to whether an amendment to LB 834 would authorize the Public Service Commission to require commercial license plates on the vehicles of grain buyers and sellers, and whether the Commission already has such authority irrespective of the language of the amendment.

The registration of all motor vehicles and the issuance of the license plates pursuant thereto are governed in Nebraska by section 60-301, R.R.S. 1943, et seq. Those statutes vest in the Department of Motor

Vehicles the authority and responsibility for administering and enforcing the registration and licensing system in this state.

We note that section 88-518, R.R.S. 1943, in reference to Public Service Commission licensed grain buyers and sellers, currently provides:

“ . . . Each vehicle used by a licensee hereunder shall be equipped with a license plate or other identification in a manner and form prescribed by the commission. . . .”

Relative to your first question, we have concluded that the Legislature did not intend that the license plates referred to in section 88-518 were for registration purposes, but rather, were for Public Service Commission identification purposes quite separate and apart from the licensing and registration requirements of section 60-301, et seq. We are informed that this is the construction that has always been given section 88-518 by the Commission which has routinely issued its own identification tags or plates to appropriately licensed grain buyers and sellers for many years. We find no other statutory provision which might authorize the Commission to require certain prescribed commercial license plates for vehicle registration, that authority reserved exclusively, it appears, for the Department of Motor Vehicles. Thus, we conclude that the Commission presently has no such authority.

Turning to your second question, we note that by virtue of section 60-301, R.R.S. 1943, et seq., and in particular section 60-331, anyone using a vehicle to conduct the business of buying and selling grain would be required to carry commercial plates on that vehicle. Construed with this in mind, we feel the amendment to LB 834 which you inquire about acknowledges that pre-existing requirement, and essentially sets out a condition to the licensing of a grain buyer and seller from the Commission's standpoint. In that respect, we believe the proposed amendment to LB 834 would authorize the Commission to require that vehicles used by grain buyers and sellers carry commercial license plates.

Very truly yours,

In this, the day that the Lord hath made, help us to appreciate its beauty and to use aright its opportunities.

Teach us how to listen to the prompting of Thy Spirit, and thus save us from floundering in indecision that wastes time, subtracts from our peace, divides our efficiency, and multiplies our troubles. **RESOLUTIONS**

**LEGISLATIVE RESOLUTION 251.**

Introduced by Banking, Commerce and Insurance Committee: DeCamp, 40th District, Chairman; Powers, 9th District; Landis, 46th District; Lewis, 45th District; Fitzgerald, 14th District; Haberman, 44th District; Schmit, 23rd District; Merz, 1st District.

**PURPOSE:**

The insurance industry has been the subject of a number of Congressional and federal regulatory agencies studies and reports. Traditionally, the regulation of the insurance industry has been conducted by the various states and not the federal government. The U.S. Congress defers such regulation to the states by virtue of the McCarran-Ferguson Act of 1945.

Recent federal reports and studies have indicated that in certain areas state laws and regulations sometimes are ineffective, are outdated, are in need of reform, are partly inadequate, are not addressing consumer issues, or are not regularly or effectively enforced. New impetus has been felt at the federal level to involve the federal government in insurance industry regulation and restrict the role of the states in this area.

It is a necessary and proper duty of the Legislature to determine the adequacy of this state's insurance laws and regulations. In particular, the Legislature should examine company marketing practices, agent practices, claims adjusting, return of premium dollars and other investments, complaint procedures, and enforcement of statutes and regulations, involving life, health and accident, automobile liability, fire, home, credit and other insurable risks available in the State of Nebraska. In determining and investigating any of the above-mentioned issues or any other issues involving insurance the legislative committee should deem necessary for study, particular attention should be given to industry and consumer cost-benefits, consumer protection and education, and the state's role in regulating insurers doing business in Nebraska.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:**

1. That the Banking, Commerce and Insurance Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the Committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 252.**

Introduced by Banking, Commerce and Insurance Committee: DeCamp, 40th District, Chairman; Powers, 9th District; Lewis, 45th District; Landis, 46th District; Fitzgerald, 14th District; Haberman, 44th District; Schmit, 23rd District; Merz, 1st District.

**PURPOSE:**

The Legislature should continually review Nebraska's commerce and industry and the inward and outward flow of goods, resources and services through Nebraska's economy. If the Legislature is committed to minimal but effective regulation of a free market system, it should be cognizant of economic policy decisions made at the state and federal levels of government and determine: (1) whether current Nebraska laws and regulations adopted pursuant to such laws are inadequate or mis-directed and need revision and amendment; (2) whether current Nebraska laws are too restrictive and, thus, impede the natural operation of the free market system; (3) whether current Nebraska laws are adequate, but enforcement or enactment of the policies behind such laws are inadequate; and (4) whether regulations adopted pursuant to commerce and finance laws are adequate or inadequate. Remedial legislation should result, if indeed, statutory inadequacies are found.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:**

1. That the Banking, Commerce and Insurance Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the Committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 253.**

Introduced by Banking, Commerce and Insurance Committee: DeCamp, 40th District, Chairman; Powers, 9th District; Landis, 46th District; Lewis, 45th District; Fitzgerald, 14th District; Haberman, 44th District; Schmit, 23rd District; Merz, 1st District.

**PURPOSE:**

The current macro-economic conditions experienced in the United States have recently prompted Presidential reaction accompanied by other executive and quasi-executive regulatory actions. In particular, the U.S. Congress and the Federal Reserve Board will soon address future U.S. monetary and economic policies.

In the State of Nebraska, national inflation has greatly affected the state's financial markets, including, but not limited to: certificates of deposit, certificates of indebtedness, mortgage notes, other notes payable, bonds, trusts, money market funds and securities. National

inflationary conditions result in the further eroding of Nebraska's money, finance and banking industries.

The Legislature should study the following subjects in light of the above-stated economic background: the flow of major money sources in and out of this state; the effect of such major money flow on this state's agricultural, financial, and business economic sectors; the alleged increases in net incomes of certain financial institutions; the ownership structure between and among various financial institutions in this state; interest rates; short term certificates of deposit and indebtedness; trusts; money market funds; the oversight, regulation, and effectiveness of enforcement of sales of securities and commercial paper by the Department of Banking; the extension of credit; creditor-debtor relationships; and any other issue or issues determined by Committee members to be in need of addressing.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Banking, Commerce and Insurance Committee of the Legislature shall conduct an interim study to carry out the purposes of this resolution.

2. That the Committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

## ATTORNEY GENERAL'S OPINIONS

Opinion No. 257

March 14, 1980

Dear Senator George:

This letter is in response to your recent inquiry concerning Legislative Bill 836, which is now pending before the Legislature.

Your inquiry questions whether L.B. 836 is constitutional, particularly with respect to the creation of a lien on property for unpaid electrical bills where the property is being rented.

Our research did not find any Nebraska Supreme Court decisions on this particular point, however, the general authority is that this type of legislation is constitutional.

In 64 Am Jur 2d, Public Utilities, §61, at page 593, we find:

“To create a lien on property for unpaid public service bills, such as water bills, the authority of the legislature is necessary. A mere regulation of a water company is not sufficient to create such a lien; nor, in the absence of statutory authority, can a municipal corporation, by ordinance, make delinquent water rentals a lien upon property as against a subsequent owner or occupant who did not contract the charges to make default in their payment. A lien authorized by statute may be imposed upon property for the collection of unpaid water charges incurred by the present or former occupant thereof, at least where an implied consent by the owner to the introduction of the utility to the property can be found. The statutory imposition upon property of a lien for charges for a utility supplied to a user other than the owner has been held not to deprive the owner of due process of law, nor to impair the obligation of contract.”

In 19 ALR3d 1227, at page 1241, the author of the annotation on this particular subject states:

“The validity of statutes or ordinances providing for liens which secure the payment of charges for utilities introduced to a property, irrespective of who is the user, have been sustained against broad constitutional objections.

Thus, the imposition upon property of a governmental lien for water supplied to a user other than the owner has been held not to deprive the owner of due process of law within the meaning of the Fourteenth Amendment.”

For these reasons, we feel that L.B. 836 is constitutional.

Very truly yours,  
PAUL L. DOUGLAS

Opinion No. 258  
March 18, 1980

Dear Senator Pirsch:

You have asked whether the Board of Examiners of Psychologists would still be subject to review in 1981 and termination in 1982 under sections 81-192 to 81-1,105, R.S.Supp., 1978, if LB 958 were enacted. We have concluded that it would.

Section 81-197(3), R.S.Supp., 1978, provides that the State Board of Examiners of Psychologists, created by section 71-3803, shall terminate on July 1, 1982. Section 81-1,101, R.S.Supp., 1978, provides that the Performance Review and Audit Committee shall cause a performance review to be conducted for each board scheduled for termination under sections 81-192 to 81-1,105. Such review is to be completed by October 1 in the year prior to the termination date established. Section 81-1,100, R.S.Supp., 1978, provides that any board scheduled for termination under sections 81-192 to 81-1,105 may be continued by reenacting the original enabling legislation or may be reestablished by enacting new legislation. Any newly created or continued or reestablished regulatory board shall have a life not to exceed six years and shall be subject to the provisions of sections 81-192 to 81-1,105.

LB 958 is new legislation which would reestablish the Board of Examiners of Psychologists under the Bureau of Examining Boards of the Department of Health. LB 958 would not repeal section 81-197(3) or section 81-1,101. Under LB 958 the Board of Examiners of Psychologists would still be created by section 71-3803.

We have concluded that if LB 958 were enacted the Board of Examiners of Psychologists would be subject to review under section 81-1,101 and subject to termination under section 81-197(3) at the same time as it would have been if LB 958 had not been enacted. This is consistent with the purpose of sections 81-192 to 81-1,105 to establish a continuing appraisal process and with section 81-1,100 which gives any reestablished regulatory board a life not to exceed six years.

Sincerely yours,  
PAUL L. DOUGLAS

Sec. 29. The commission shall act by a vote of the majority of its members and no action of the commission shall be valid unless concurred in by the majority of its members.

Sec. 30. (1) A Justice or Judge of the Supreme Court or judge of any court of this state may be reprimanded, disciplined, censured, suspended without pay for a definite period of time, not to exceed six months, or removed from office for (a) willful misconduct in office, (b) willful disregard of or failure to perform his or her duties, (c) habitual intemperance, (d) conviction of a crime involving moral turpitude, (e) disbarment as a member of the legal profession licensed to practice law in the State of Nebraska, or (f) conduct prejudicial to the administration of justice that brings the judicial office into disrepute, or he or she may be retired for physical or mental disability seriously interfering with the performance of his or her duties if such disability is determined to be permanent or reasonably likely to become permanent. Any citizen of the State of Nebraska may request the Commission on Judicial Qualifications to consider the qualifications of any Justice or Judge of the Supreme Court or other judge, and in such event the commission shall make such investigation as the commission deems necessary and shall, upon a finding of probable cause, privately reprimand such Justice or Judge of the Supreme Court or other judge or order a formal open hearing to be held before it concerning the reprimand, discipline, censure, suspension, removal, or retirement of such Justice or Judge of the Supreme Court or other judge. In the alternative or in addition, the commission may request the Supreme Court to appoint one or more special masters who shall be judges of courts of record to hold a formal open hearing to take evidence in any such matter, and to report to the commission. If, after formal open hearing, or after considering the record and report of the masters, the commission finds that the charges are established by clear and convincing evidence, it shall recommend to the Supreme Court that the Justice or Judge of the Supreme Court or other judge involved shall be reprimanded, disciplined, censured, suspended without pay for a definite period of time not to exceed six months, removed, or retired as the case may be.

(2) The Supreme Court shall review the record of the proceedings and in its discretion may permit the introduction of additional evidence. The Supreme Court shall make such determination as it finds just and proper, and may order the reprimand, discipline, censure, suspension, removal, or retirement of such Justice or Judge of the Supreme Court or other judge, or may wholly reject the recommendation. Upon an order for retirement, the Justice or Judge of the Supreme Court or other judge shall thereby be retired with the same rights and privileges as if he or she had retired pursuant to statute. Upon an order for removal, the Justice or Judge of the Supreme Court or other judge shall be removed from office, his or her salary shall cease from the date of such order, and he or she shall be

ineligible for judicial office. Upon an order for suspension, the Justice or Judge of the Supreme Court or other judge shall draw no salary and shall perform no judicial functions during the period of suspension. Suspension shall not create a vacancy in the office of Justice or Judge of the Supreme Court or other judge.

(3) Upon order of the Supreme Court, a Justice or Judge of the Supreme Court or other judge shall be disqualified from acting as a Justice or Judge of the Supreme Court or other judge, without loss of salary, while there is pending (a) an indictment or information charging him or her in the United States with a crime punishable as a felony under Nebraska or federal law or (b) a recommendation to the Supreme Court by the Commission on Judicial Qualifications for his or her removal or retirement.

(4) In addition to the procedure set forth in subsections (1) and (2) of this section, on recommendation of the Commission on Judicial Qualifications or on its own motion, the Supreme Court (a) shall remove a Justice or Judge of the Supreme Court or other judge from office when in any court in the United States such justice or judge pleads guilty or no contest to a crime punishable as a felony under Nebraska or federal law, and (b) may suspend a Justice or Judge of the Supreme Court or other judge from office without salary when in any court in the United States such justice or judge is found guilty of a crime punishable as a felony under Nebraska or federal law or of any other crime that involves moral turpitude. If his or her conviction is reversed, suspension shall terminate and he or she shall be paid his or her salary for the period of suspension. If he or she is suspended and his or her conviction becomes final the Supreme Court shall remove him or her from office.

(5) All papers filed with and proceedings before the commission or masters appointed by the Supreme Court pursuant to this section prior to any formal open hearing shall be confidential. The filing of papers with and the testimony given before the commission or masters or the Supreme Court shall be deemed a privileged communication. The Supreme Court shall by rule provide for procedure under this section before the commission, the masters, and the Supreme Court.

(6) No Justice or Judge of the Supreme Court or other judge shall participate, as a member of the commission, or as a master, or as a member of the Supreme Court, in any proceedings involving his or her own reprimand, discipline, censure, suspension, removal, or retirement."

Sec. 2. The proposed amendment shall be submitted to the electors in the manner prescribed by Article XVI, section 1, of the Constitution of Nebraska. The proposition for the submission of the proposed amendment shall be placed upon the ballot in the following form:

“Constitutional amendment to change membership of the Commission on Judicial Qualifications and to provide additional disciplinary measures and an additional ground for discipline applicable to a Justice or Judge of the Supreme Court or other judge.

**RESOLUTIONS**

**LEGISLATIVE RESOLUTION 258.**

Introduced by Judiciary Committee: Nichol, 48th District, Chairman; Wagner, 41st District; Chambers, 11th District; Venditte, 7th District; Chronister, 18th District; Pirsch, 10th District; Reutzel, 15th District; Stoney, 4th District.

**PURPOSE:**

Public works projects involving large construction frequently results in a substantial transient work force being temporarily located in or near rural communities. Such sporadic population growths impact small communities most heavily in those areas related to providing for public services and public safety. The purpose of this study proposal is to explore the law enforcement needs of such localities and review alternatives to the traditional methods of providing funding and manpower to meet such needs.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the Committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 259.**

Introduced by Fowler, 27th District.

**PURPOSE:**

The purpose of this resolution is to study the efforts of state and local governments in eliminating architectural barriers to the handicapped and disabled citizenry of Nebraska in public buildings, streets and other public facilities. The United States Congress enacted the Architectural Barriers Act of 1968 which required that any building constructed or leased in whole or in part with federal funds must be made accessible to and usable by the physically handicapped. LB 602, which was passed by the 1974 Legislature, broadened standards and specifications for construction or remodeling of public buildings in the state to accommodate the handicapped. Another law striving to build a barrier-free environment in Nebraska was passed in 1978. LB 233 provided that all polling places shall be accessible by 1984. The focus of this study shall be to determine the adequacy of inspections and certification of compliance with accessibility standards in construction and remodeling projects in Nebraska. The study shall also evaluate the adequacy of funding for renovation of public buildings at the state and local level.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:**

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the Committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 260.**

Introduced by Banking, Commerce and Insurance Committee: DeCamp, 40th District, Chairman; Haberman, 44th District.

**PURPOSE:**

This study would review the existing taxation, assessment and allocation statutes relating to the funding of State Community and Vocational Technical Colleges and determine whether and what appropriate legislation may be drafted for consideration by the Nebraska Legislature. The study may also examine the operational and administrative activities of State Community and Vocational Technical Colleges.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:**

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the Committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

**FORTY-SEVENTH DAY**

Legislative Chamber, Lincoln, Nebraska  
Friday, March 21, 1980

Pursuant to adjournment, the Legislature met at 9:00 a.m., Mr. Clark presiding.

**PRAYER**

The prayer was offered by the Chaplain.

Meet with us as we meet once more, O Lord our God, for we do need help. Even our small mistakes become obvious, and our proudest accomplishment but temporary...

Our little bills seem so trivial beside the great, breaking events of these times, and so uncertain in response to voices which urge: "do something about this," "do nothing about that"...

And those which complain: "Too little;" "Too much;" "Too soon;" "Too late".

We do need help. Lobby within our hearts and minds, O God, for everything that is right, lest we give in to anything that is easy. Amen.

**ROLL CALL**

The roll was called and all members were present except Messrs. Keyes and Maresh who were excused; and Mrs. Labeledz, Messrs. Chambers, Cullan, Fowler, Schmit, Venditte, and Wesely who were excused until they arrive.

**ATTORNEY GENERAL'S OPINIONS**

Opinion No. 259  
March 18, 1980

Dear Senator DeCamp:

You have recently requested the opinion of this office regarding the constitutionality of the rule-making authority granted to the State Energy Office in LB 954 (Sections 73 through 88).

By the referenced provisions of the aforementioned act, the Nebraska Energy Office (referred to in the bill as the office) provides the administrative support necessary to implement LB 954. Specifically, the NEO is to provide technical assistance to counties, cities, and villages (Section 83), serve as an appeal board (Section 84), administer and implement these sections by adopting and promulgating rules and regulations, (Section 84), and grant equivalency variances from the established energy standard when proper (Section 87). Unlike LB 990, the NEO does not adopt the standards which it is to implement. In LB 954, this is left to the Energy Efficiency Standards Board.

The Energy Efficiency Standards Board is composed of members who are appointed by the Governor with approval of the Legislature. Its primary and practically only responsibility is to adopt energy standards under Chapter 84, article 9 based on one or both of the following:

- (1) The thermal performance of the building as a whole; or,
- (2) the thermal performance of the components of the building.

Subsections (2) and (3) of the bill further define each option, still leaving the decision of which is to be adopted to the Board. Violation of the standards adopted by the board is made a criminal act by Section 81. This we believe is an impermissible delegation of legislative authority to the executive.

As we discussed in reference to LB 990, opinion dated March 11, 1980:

“The public has a right to know what acts constitute crimes in this state and the punishments provided therefor. They may properly assume that crimes and punishment are purely a legislative function and that the definition of all crimes and the punishment therefor will be found in the duly enacted statutes of this state. . . .” Lincoln Dairy Co. v. Finigan, 170 Neb. 777, 104 N.W.2d 227 (1960).

The analysis in our former opinion (Opinion No. 249, dated March 11, 1980) is equally applicable here. It is inconsequential that the Energy Efficiency Standards Board is adopting the standard as opposed to an administrative agency. The adoption of laws or standards relating to criminal conduct is properly the function of the legislature and it cannot be delegated to an executive board, administrative agency or any combination of the two.

Very truly yours,  
PAUL L. DOUGLAS  
Attorney General

Opinion No. 260  
March 20, 1980

Dear Senator DeCamp:

You have requested an opinion from this office on the constitutionality of a proposed amendment to LB 308, a bill authorizing an increase in the interest charges allowable on revolving credit transactions pursuant to section 45-207, R.R.S. 1943. Specifically, you ask whether the amendment would unconstitutionally impair one's right to enter into a revolving credit agreement where the interest to be charged is stated to be the maximum rate allowed by state law.

You do not specify whether there is any particular implication of the amendment that raises the constitutional problem you inquire of. However, you have framed your inquiry somewhat by asking us to review the amendment to LB 308 in the context of a revolving credit agreement which states that "maximum allowable interest rates would be charged as allowed by state law". The rate of interest to be charged is but one term or provision of such a revolving credit contract. Ostensibly, the parties are free to negotiate the interest rate, and we see no reason why they could not agree on a variable interest rate reflecting variations in the maximum allowed by the state, so long as at no time does the rate in effect exceed that which is allowed by state law at that particular time. You do not ask whether the language you have used to describe such an intention is legally sufficient to do so — that is valid contractually. We make no attempt here to determine the answer to that question.

With that possible source of confusion clarified, we note that the Nebraska Supreme Court recognized in Elder v. Doerr, 175 Neb. 43, 122 N.W.2d 528 (1963), that the Legislature's authority to fix interest rates is a classic example of the state's police power in the public interest. To that end, so long as such legislation guarantees equal protection of the laws in its application and is not "special" legislation:

" . . . It is established that the constitutional guarantees of personal liberty and freedom of contract are not unconstitutionally impaired by legislation which restricts the amount of interest which may be exacted in connection with loans of money." 45 Am.Jur.2d, Interest and Usury §6.

Mindful that we do not address the question of whether the language you use in your hypothetical is legally sufficient to bind the parties to variable interest charges, and construed in the light of the above-cited principles, we find nothing inherent in your letter, nor on the face of the amendment to LB 308, which would unconstitutionally impair one's right to enter into such a revolving credit contract. It seems to us that the amendment's intent is to clarify that for outstanding credit balances reflected after the enactment of LB 308, the portion reflecting indebtedness incurred prior to that date will be charged the old interest rates, and the portion reflecting subsequent indebtedness will be charged the new interest rates. We find no basis upon which to conclude that a statute which simply sets maximum allowable interest rates thereby impairs one's right to enter into a revolving credit agreement pursuant to which those rates will be charged.

Yours truly,

**ATTORNEY GENERAL'S OPINION**

Opinion No. 261  
March 18, 1980

Dear Senator DeCamp:

You have requested the opinion of this office regarding the constitutionality of certain aspects of LB 831. Specifically, you inquire whether the failure to define such terms as resource and

shortage creates an ambiguity of constitutional proportion. Also, you are concerned about the failure of the bill to specify a time limitation on resource crises.

1. LB 831 amends the Nebraska Disaster and Civil Defense Act to add "resource crises" to the provisions of the act. Section 4, subsection (4) of the bill defines resource crisis to mean the shortage of a resource that seriously threatens the health, welfare, or safety of the people of the State of Nebraska. However, as you point out, nowhere are the terms resource or shortage defined. The question then becomes, "Does this omission render LB 831 unconstitutionally vague and indefinite?"

It is a fundamental requirement of due process that a statute must be reasonably clear and definite to be valid. Neeman v. Nebraska Natural Resources Commission, 191 Neb. 672, 217 N.W.2d 166 (1974).

The due process command imposed by Amendment XIV to the Constitution of the United States, and Article I, Section 3, Constitution of Nebraska, translates into two basic requirements. First, the statute's language must be sufficiently specific that persons of ordinary intelligence must not have to guess at its meaning. Secondly, the statute must contain ascertainable standards by which it may be applied. State v. A.H., 198 Neb. 444, 253 N.W.2d 283 (1977).

Most decisions involving the constitutional void for vagueness doctrine concern statutes or ordinances imposing criminal sanctions. However, as the court stated in State v. A.H., supra, at p. 449, this doctrine applies equally to civil statutes.

In applying the aforementioned test to LB 831, we must determine if the words "shortage" and "resource" are terms of common understanding such that persons of ordinary intelligence would not have to guess at their meaning. Bridgeford v. U-Haul Company, 195 Neb. 308, 238 N.W.2d 443 (1976).

"Resource" is defined in Webster's New World Dictionary as "something that lies ready for use or that can be drawn upon for aid or to take care of a need." A "shortage" is defined as "a deficiency in the quantity or amount needed or expected or the extent of this; deficit." There is no indication in LB 831 that the Legislature intended another, more restrictive or technical meaning.

Considering the context in which the term "resource crisis" is used in LB 831, it would appear the Legislature was concerned with emergency functions in times of imminent natural disaster, such as tornadoes, floods, or hostile military action. At what point in time a deficiency of a needed thing reaches this level of imminent danger, we do not know, nor do we think that a person of normal intelligence would know. Likewise, it is not clear what "things" would constitute

a resource. It appears that persons of ordinary intelligence could differ concerning the meaning of these words. Further, without more precise definitions, we fail to find an ascertainable standard for the application of the act. When or what will result in a resource crisis which triggers the broad powers of this act is left entirely to conjecture. This indefiniteness is impermissible.

2. With regard to your second question concerning the failure of the bill drafters to place a time limitation on resource crises, we do not at this time find a due process problem in the referenced language. LB 831 provides that a resource crisis or other state of disaster shall expire at the end of 30 days unless renewed by the Governor. This bill also provides that the Legislature may by resolution require the Governor to terminate a resource crisis. Thus, the Legislature is providing a time limitation on the resource crises.

In Rein v. Johnson, 149 Neb. 67, 30 N.W.2d 248 (1947), the court reviewed the requirements of the due process clause.

“The primary purpose of that constitutional guaranty is security of the individual from the arbitrary exercise of the powers of government unrestrained by the established principles of private rights and distributive justice. 12 Am. Jur., Constitutional Law, §575, p. 271.

“As related to legislation, it is generally held that due process is satisfied if the Legislature had the power to act on the subject matter, if that power was not exercised in an arbitrary, capricious, or unreasonably discriminatory manner, and if the act, being definite, had a reasonable relationship to a proper legislative purpose. In other words, if an act of the Legislature is authorized and promulgated by the inherent and reserved constitutional powers of the state, and is enforced with due regard to and observance of the rules established by our system of jurisprudence for the security of life, liberty, and property, it is not in conflict with due process of law. 16 C.J.S., Constitutional Law, §569, p. 1156.” Id. at 82.

As part of the broad police powers of the state, we believe the Legislature has the authority to provide for emergency procedures for resource crises, as long as those provisions do not contravene the Constitution. We cannot, however, determine if the act had a reasonable relationship to the proper legislative purpose. As discussed in part 1 of this opinion, the act is indefinite and therefore, we cannot determine if a reasonable relationship exists.

In conclusion, this bill is, in our opinion, unconstitutionally void for vagueness. Unless and until the terms of the act are more specifically defined, it will fail to pass the minimum requirements of due process.

Very truly yours,

 Attorney General

#### EXPLANATION OF VOTE

Had I been present I would have voted "No" on LB 782.

(Signed) Patrick Venditte

#### RESOLUTIONS

##### LEGISLATIVE RESOLUTION 276.

Introduced by Fowler, 27th District; Chambers, 11th District; Landis, 46th District; Dworak, 22nd District; Johnson, 8th District; DeCamp, 40th District; Reutzell, 15th District.

##### PURPOSE:

Efforts have been made by the LR 154 special committee in the past year to monitor and evaluate the effectiveness of law enforcement agencies in Nebraska. Continuation of this effort by the current members of that committee is suggested, focusing on the issues of investigative procedures of local law enforcement agencies, private agency investigative techniques and procedures and the responsiveness of public law enforcement agencies and private investigative agencies to complaints regarding these procedures.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the Committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

### **LEGISLATIVE RESOLUTION 277.**

Introduced by DeCamp, 40th District; Kelly, 35th District; Johnson, 8th District; Fowler, 27th District.

#### **PURPOSE:**

The Business and Labor Committee investigation into the still-pending \$1.25 million claim Joseph James Soukup made against the State of Nebraska revealed that modern state-of-the-art psychiatric practices may leave the state liable to similar action.

This Legislature should acknowledge that a full and reassessing critique of Nebraska's psychiatric institutions by this body could pinpoint and prevent potential liability of state psychiatric and administrative policies. The Legislature should note that, left unattended, such policies could leave society little choice but to deal with the situation judicially rather than legislatively, causing the possibility of greater financial burden on the citizens of Nebraska.

It is well within legislative duty to focus on the propriety of using human beings, who happen to be wards of the state's psychiatric institutions, to research the effects of a variety of marketed chemicals and the prudence of a chemical-based philosophy for therapy and cure.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:**

1. That a committee of the Legislature research: (a) grants from pharmaceutical companies to state psychiatric institutions; (b) the long-lasting side effects of traditionally prescribed drugs on wards of the state; (c) a cost comparison between drug therapy and alternate effective therapy; (d) drug research programs as they apply to committed and non-committed people in state psychiatric institutions; (e) the financial transactions between pharmaceutical companies and institutional psychiatrists; (f) the training procedures for non-professional state-employed personnel; (g) the opportunities for legal assistance accessible to residents of state psychiatric institutions; (h) the availability of alternatives to institutional care; (i) the institutional breeding of institutionally-dependent people.

2. That the committee shall upon conclusion of its study make a report of its findings together with its recommendation to the Legislative Council or Legislators.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 278.**

Introduced by Administrative Rules and Regulations Review Committee: Kelly, 35th District, Chairman; DeCamp, 40th District; Fowler, 27th District; Haberman, 44th District; Johnson, 8th District; Kennedy, 21st District; Koch, 12th District.

**PURPOSE:**

LB 212 (1978) stipulates that the Jail Standards Board shall develop, and implement minimum standards for the construction, maintenance, and operations of criminal detention facilities on or before July 1, 1979.

In accordance with this and the other provisions of LB 212 (1978) the Jail Standards Board developed jail standards and forwarded them through the review process. Prior to July 1, 1979, the jail standards and administrative rules of the Jail Standards Board were approved by the Attorney General and forwarded to the Governor for his approval as required by Section 84-908 of the Revised Statutes. On or about March 14, 1980, said standards and rules were returned unsigned to the Jail Standards Board by the Governor with his request that the Board prepare an estimate of the cost to local government of implementing these standards. Therefore, the Jail Standards Board has not met the requirements of LB 212 (1978).

It is the intent and purpose of this proposed study to review and analyze the process, as detailed in Chapter 84, Article 9 of the Revised Statutes of Nebraska, by which administrative rules are reviewed, approved, or rejected by the Attorney General and the Governor in order to determine whether such a process impedes compliance with statutorily mandated deadlines and to determine what, if any, remedial action may be necessary when such statutorily mandated deadlines are not met.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:**

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the Committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 279.**

Introduced by Landis, 46th District.

**PURPOSE:**

The application of Nebraska's habitual criminal statute, section 29-2221, Reissue Revised Statutes of Nebraska, 1943, can result in imprisonment of up to sixty years for those offenders who have previously been convicted of a crime. Such a statute should be studied to determine its application and effectiveness, if any. An interim study conducted on the habitual criminal statute should research and collect data on the statute's application, frequency of use, the type of circumstances surrounding its application, and any possible discriminatory or selective uses and abuses. The study should propose alternate approaches, including recommended legislation, to more effectively handle persistent offenders.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:**

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the Committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

The study conducted shall determine whether or not such amounts should be reported to the Nebraska Legislature or the Nebraska Accountability and Disclosure Commission.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:**

Introduced by Wesely, 26th District.

#### **PURPOSE:**

To study the programs, provided in the various counties of the state, serving juveniles who come in contact with law enforcement agencies and the criminal justice system, including: (1) the cost of such programs and the funding for the programs; (2) a comparison of the operation of county-financed juvenile courts with the operation of the juvenile justice system in those counties where county judges hear juvenile cases; (3) the consideration of community alternatives to the incarceration of juveniles at the State Youth Development Centers at Kearney and Geneva; and (4) a comparison of the costs for care at the State Youth Development Centers with the costs of community care alternatives for juveniles.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:**

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the Committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

### **LEGISLATIVE RESOLUTION 299.**

Introduced by Wesely, 26th District.

**PURPOSE:**

To study programs and services for the handicapped, the disabled, and the elderly which are designed to maintain and assist such person in the natural home or the family setting, including: (1) the need to increase or improve in-home services to the disabled, the handicapped, and the elderly; (2) the need to provide additional financial support for such programs; and (3) a comparison of the costs of providing for the disabled, the handicapped, and the elderly in the home with the costs of providing for such persons in community residential facilities, private nursing homes, and state institutions.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:**

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the Committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 300.**

Introduced by Education Committee: Koch, 12th District, Chairman.

**PURPOSE:**

If statistics are correct, there will be an expanded need of employers for those who are educated in technical skills. Currently, in the State of Nebraska, secondary vocational education is not uniformly available to high school students. Recent public opinion shows the public wants more vocational education. Schools in the state are finding it difficult, due to various "lid" limitations, to maintain fiscal support for vocational education; without local fiscal support, federal vocational education funds can be limited.

There is, therefore, a need to study Secondary, Post-Secondary Vocational Education in order to determine methods by which all secondary and adult students in the state will be assured the opportunity to participate in vocational programs. Benefits could also be obtained in the consideration of strategies to provide for funding vocational education at the secondary level.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:**

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the Committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

### **LEGISLATIVE RESOLUTION 301.**

Introduced by Education Committee: Koch, 12th District, Chairman.

#### **PURPOSE:**

Because there have been concerns regarding driver education programs in relation to reimbursement to private schools and agencies, the cost of administering the program at both the local and state level, incorporating motorcycle safety education in the current program, increasing the amount of reimbursement to schools, the steady decrease in the driver education fund, and the qualifications to teach driver education programs, there is a need to review and study the matter of driver education as it relates to schools.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:**

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the Committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

### **LEGISLATIVE RESOLUTION 302.**

Introduced by Education Committee: Koch, 12th District, Chairman.

#### **PURPOSE:**

Before they actually graduate from high school, some high school students in the State of Nebraska reach a competency in their education where they are educationally ready to enter an institution of higher education. In studying this issue, the concept of allowing students to test out of high school should be considered, in addition to studying a testing mechanism, the educational costs involved, and the effect of the loss of these students in the particular schools. In addition, the question of early and initial entry into elementary schools is an essential concept that relates to this matter.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the Committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

### LEGISLATIVE RESOLUTION 303.

Introduced by Education Committee: Koch, 12th District, Chairperson.

#### PURPOSE:

The transfer of land from one school district to another, freeholder transfers, and the annexation of a school district by a city or village are all issues which require study before effective legislation can be introduced to solve any problems found in these areas.

Taxes and valuations in school districts in Nebraska are not equal. Nebraska has over 1,000 individual school districts, and some of the taxes and valuations vary greatly. This becomes a strong factor in school district reorganization, transfer, and annexation.

In relation to the study of the transfer of land, the following areas need to be studied and considered: the amount of taxes and to which district they are paid; transfers between counties; transfers to or from city or village schools; the role of each school board involved; the roles of the County Superintendent and the petition request; the distances from the schools involved; the available transportation; the voting and other rights of parents involved in transfers; and all rights of the youth involved.

In relation to the study of freeholder transfers, the following areas need to be studied and considered: the effects and ramifications on all class schools, i.e. I, II, III, IV, V, VI; and transfers from accredited to nonaccredited schools.

In relation to the study of annexation, the following areas need to be studied and considered: the differences and similarities of school districts formed by the petition or election method; how and why schools are reorganized; how long a territory has been part of a school district in relation to its annexation; tax levies involved; per pupil costs involved; assessed valuations involved; the class of each school district involved, the law relating to each class; how the Supreme Court case School District of Bellevue V. Strawn 176 N.W. 2d 40, relates to all

aspects of annexation; and the original intent of all current statutes relating to annexation.

In addition, the underlying question and effects of County non-resident tuition free high school students also requires study and consideration in respect to many of the above areas.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:**

1. That a committee of the Legislature shall be designed to conduct an interim study to carry out the purposes of this resolution.

2. That the Committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 304.**

Introduced by Education Committee: Koch, 12th District, Chairman.

**PURPOSE:**

The area of impact due to federal military installations, government owned installations, and major construction projects for state agencies, places an added burden upon the services and finances of school districts of the state.

The three Indian Schools in Nebraska, (Santee, Macy, and Winnebago), have traditionally received the major share of their revenue for financing education from the federal government. Within the past year, the federal government has terminated one major source of federal aid, (Johnson/O'Malley funds), and is now discussing the possibility of reducing federal import aid (P.L. 81-874) payments in future years.

Because of growing demand for electricity within the state, it has been necessary to construct additional power producing plants. The Nebraska Public Power District is currently building a new plant in the Sutherland area and is now planning the construction of a new plant in the Sargent area.

The military installations of Offut Air Force Base have a direct impact on several school districts in that area. A potential reduction in federal aid would have a negative impact upon these school districts.

Based upon these factors it would appear that the state must make a complete and accurate appraisal of the impact to these schools due to these factors.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:**

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the Committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 305.**

Introduced by DeCamp, 40th District; Fowler, 27th District; Wesely, 26th District.

**PURPOSE:**

The people of the State of Nebraska, the Nation and the World are in the midst of an era of decreasing energy supplies, growing reliance on sources of supply that are unreliable, and rapidly and uncontrollable price increases. This situation has, is, and will contribute to economic, social and environmental disruptions. Should the current crisis continue the potential deterioration of Nebraskans' health, safety, and welfare will be insured.

The Legislature and the Government of the State of Nebraska must know the current and future energy needs of the State. Furthermore, Nebraska must know the current and future energy resources and delivery technologies capability of meeting these needs. Finally, Nebraska must know the effectiveness or current and proposed local, State, and federal policies, programs, and regulatory rules intended to insure reliable supplies at fair prices to meet the State's energy needs.

It is essential that the State of Nebraska improve its ability to assess the State's energy needs, the resources and technologies capable of meeting them, and the current effectiveness of local, State, and federal policies, programs, and regulatory rules to insure these needs are met.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:**

1. That a special committee of the Legislature shall be designated to continue the research began by the LR 98 Committee, 86th Legislature, Second Session, and to conduct an interim study to carry out the purposes of this resolution.

2. That the Committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 306.**

Introduced by Cullan, 49th District; Goodrich, 20th District; Simon, 31st District; Clark, 47th District; Kennedy, 21st District; Wesely, 26th District.

**PURPOSE:**

This study has as its purpose a study of the programs, organization, coordination, structure, funding, and services of the Department of Public Welfare. The Department of Public Welfare has a vital role in the provision of social services in the State of Nebraska and the responsibility for numerous programs and services. The Department operates on a budget of more than \$240,000,000. The study would also identify the level of social services and identify gaps in coordination and delivery of services.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:**

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the Committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 307.**

Introduced by Public Works Committee: Kremer, 34th District, Chairman; Kennedy, 21st District; Vickers, 38th District; Beutler, 28th District; Wesely, 26th District.

**PURPOSE:**

Historically oversight of the public power industry has been a function of the Nebraska Legislature and particularly the Public Works Committee. It has, is, and will continue to be the intent of the Nebraska Legislature for public power districts to provide power as efficiently and at the lowest possible rates possible. Ultimately the primary obligation of Nebraska's public power districts is to insure the energy needs of Nebraskans are adequately met.

The public power industry has now grown to one-half billion dollars a year. During the past decade the industry has experienced fragmentation which has resulted in yet undetermined effects on the

people of Nebraska. It is becoming increasingly clear that the public power industry in Nebraska needs a mechanism for unified direction for achieving industrywide coordination and for introducing public purpose into formulating future policies.

The purpose of this study is to investigate and evaluate the organizational structures of Nebraska's public power industries and related problems as an aid to the enactment of future legislation.

Specifically, the purpose of this study shall address the following topics:

1. Indebtedness and financing agreements of each power entity and the terms of such indebtedness.
2. Existing multiparty contracts and their terms and conditions.
3. Information regarding the budget of the power entities.
4. Management and staff structure of the power entities, including areas of responsibilities.
5. Current transmission interconnections and future transmission and power supply plans.
6. Composition of all elected public power boards, election districts, and service area boundaries.
7. Data on costs of service to the different classes of customers as well as the rates charged such customers.
8. The appropriate role and scope of authority for the Power Review Board.
9. Ascertain the effectiveness of systemwide power supply planning and coordination.
10. Conduct an analysis of the industry's methods of estimating power supply needs and make recommendations.
11. Any other relevant information that the study committee may request.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the Committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 308.**

Introduced by Public Works Committee: Kremer, 34th District, Chairman; Kennedy, 21st District; Vickers, 38th District; Beutler, 28th District; Wesely, 26th District.

WHEREAS, oversight of the public power industry has historically been a function of the Nebraska Legislature, and

WHEREAS, it is the intent of the Nebraska Legislature for the public power industry to provide power to the ultimate ratepayer as efficiently and at the lowest rate economically feasible, and

WHEREAS, the public power industry in Nebraska derives in excess of one-half billion dollars a year for its services, and

WHEREAS, it is desirable that the Legislature undertake a detailed study and evaluation of the structure of the public power entities and problems related thereto as an aid to the enactment of possible future legislation.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Public Works Committee of the Nebraska Legislature shall study whether a need exists to restructure public power in the State of Nebraska.

2. That the committee shall request information from the following entities and such entities shall satisfy the request to the extent that is practical:

A. Nebraska Rural Electric Association.

B. Loup River Public Power District, Norris Public Power District, and all rural public power districts which are not members of the Nebraska Rural Electric Association.

C. Central Nebraska Public Power and Irrigation District.

D. League of Nebraska Municipalities and the Nebraska Municipal Power Pool.

E. Tri-State Generation and Transmission Association.

F. Nebraska Public Power District.

G. Omaha Public Power District.

3. That the Committee conduct such hearings and use such staff as are deemed necessary to thoroughly conduct such study, and that the Committee is hereby given the authority to obtain information in the manner and form deemed necessary by the Committee.

4. That the information from the entities shall be provided by two representatives designated by each entity or group of entities listed in No. 2 above.

5. That the representatives shall be designated by each entity or group of entities and such designation shall be reported to the Legislature's Public Works Committee by August 15, 1980. If a representative is to be selected by a group of entities, selection shall be made by a majority vote of the entities in the group.

6. The representatives shall first meet, at the request of the chairperson of the Legislature's Public Works Committee, on or

before September 30, 1980, and as frequently thereafter as the Chairperson calls the representatives together.

7. The representatives shall provide information to the Committee which will aid the Committee in determining whether a need exists to restructure Nebraska's public power industry.

8. That information regarding the following areas shall be provided by the representatives of the power entities to the Committee upon request:

A. Indebtedness and financing agreements of each power entity and the terms of such indebtedness.

B. Existing multiparty contracts and their terms and conditions.

C. Information regarding the budget of the power entities, reported in a uniform manner as directed by the Public Works Committee.

D. Management and staff structure of the power entities, including areas of responsibilities.

E. Current and future loads and resources, reported in a uniform manner as prescribed by the Public Works Committee.

F. Current transmission interconnections and future transmission and power supply plans.

G. Composition of all elected public power boards, election districts, and service area boundaries.

H. Any other relevant information that the Committee may request.

9. That the information provided by the representatives shall be in the form and within any time limits required by the Legislature's Public Works Committee.

Referred to the Executive Board.

### **LEGISLATIVE RESOLUTION 309.**

Introduced by Public Works Committee: Kremer, 34th District, Chairman; Kennedy, 21st District; Vickers, 38th District; Clark, 47th District; Beutler, 28th District; Wesely, 26th District.

#### **PURPOSE:**

A. An examination into the condition of Nebraska's primary and secondary road system, including bridges, should be conducted so as to ascertain the extent of disrepair, the causes of structural damage and fatigue, the current methods of taxation and user fees, as well as the relationship of such fees to any damages caused by the user. New

revenue-producing mechanisms should be developed to supplement the present methods so as to assure an adequate source of funds for maintenance of Nebraska's monumental investment in its roads and bridges.

B. Increased vehicle weights reduce the serviceable life of Nebraska's roadways. Successful enforcement of weight limits has been extremely difficult and a study should be conducted to determine better methods of enforcing Nebraska's weight limit laws. Also, there is considerable disagreement over the extent of damage to roadways by the different classes of vehicles and whether each class of vehicles is taxed so as to recover the road maintenance costs necessitated by that class. A study of the damage/taxation issue should be conducted.

C. Combinations of two or three trailers behind one power unit may offer Nebraska true savings in the shipment of goods. Reduced fuel consumption and increased efficiency in the trucking industry, resulting in potential increases in rural truck shipments, should be studied and weighed against roadway safety for all users, road maintenance, and any required structural modifications of the roadway (associated with no more than four exit sites). Such study shall be limited to analysis of information obtained from the federal government, other states, and private groups. No new tests shall be conducted.

**NOW, THEREFORE, BE IT RESOLVED BY THE EIGHTY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:**

1. That a Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes listed in paragraphs A and B of this resolution.

2. That the Committee shall, upon the conclusion of its study, make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

3. That the Nebraska Energy Office shall be designated to conduct a study to carry out the purposes listed in paragraph C of this resolution.

4. That the Nebraska Energy Office shall file in the office of the Clerk of the Legislature a written report on its findings and the pertinent data that has been made available to it on or before December 1, 1980. Such report shall include a summary of the data utilized and the findings of fact based thereon but shall contain no recommendations for action, legislative or otherwise.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 310.**

Introduced by Public Works Committee: Kremer, 34th District, Chairman; Kennedy, 21st District; Vickers, 38th District; Clark, 47th District; Wesely, 26th District.

**PURPOSE:**

To study the advisability of Nebraska becoming a party to the Nonresident Violator Compact which is an agreement among states to assure the clearance of traffic court cases initiated against nonresidents. Procedures to accomplish this result in: offering the same privileges of later court appearance to nonresidents that presently are offered to state residents, issuance of traffic citations to nonresidents under most conditions in place of physical arrest and mandatory immediate court appearance, increased time for other duties by traffic police that formerly was devoted to arrest and arraignment of alleged traffic law offenders, and other advantages to motorists and state and local highway safety functions.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:**

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the Committee report its findings, together with its recommendations, to the Legislature or the Legislative Council upon completion of the study.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 311.**

Introduced by Chambers, 11th District.

**PURPOSE:**

To study all aspects of the used car industry in Nebraska.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:**

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the Committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 312.**

Introduced by Johnson, 8th District.

**PURPOSE:**

To study real estate and mortgage lending practices in older neighborhoods of urban centers.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Executive Board appoint a special committee to carry out the purpose of this resolution; and
2. That the special committee report its findings, together with its recommendations to the Legislature or the Legislative Council upon conclusion of the study.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 313.**

Introduced by Keyes, 3rd District.

**PURPOSE:**

The purpose of this resolution is to carefully study the financing of education in Nebraska. This study is both timely and essential since it is likely that the state's share of Federal revenue sharing funds will be drastically reduced, if not totally eliminated. Since schools receive a large portion of these funds, it is important that we study the impact of such a reduction and begin taking the necessary steps to replace that which the state will lose.

This study shall also include the use of Federal funds for handicapped and special education programs and all forms of financing that the state receives for the purpose of educating its youth.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Revenue Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the Committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**UNANIMOUS CONSENT - Print in Journal**

Mr. Chambers asked unanimous consent to print the following amendment to LR 233 in the Journal. No objections. So ordered.

## RESOLUTIONS

### LEGISLATIVE RESOLUTION 314.

Introduced by Wesely, 26th District.

**PURPOSE:**

To study the need for a statewide uniform building code. According to a recent survey, over 300 model codes have been adopted by various subdivisions in Nebraska. At least 53 communities have amended the model codes they adopted, increasing the disparity among local building codes. Because of this diversity, building contractors are faced with a wide variety of codes. Additionally, the degree of enforcement of building codes vary widely from community to community. These disparities make it difficult to provide quality assurance to individuals wishing to build a new home, especially when the local building code is marginally enforced. Many local codes presently in effect are outdated versions of model codes which may limit the use of newer, more cost and energy efficient building materials and designs.

This study should: (1) examine the effectiveness of uniform state building codes adopted in other state; (2) develop a uniform state building code proposal most appropriate for Nebraska; and (3) review coordination among the various state and local agencies which license and regulate the building industry in Nebraska.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:**

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the Committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 315.**

Introduced by Wesely, 26th District.

**PURPOSE:**

To study the adequacy of current health education in the schools of Nebraska. Presently, schools in Nebraska are required to provide "a comprehensive health education program". Health education programs would be examined to determine if this requirement is being fulfilled. The study would also review health education needs and whether those needs are being met.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the Committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

### **LEGISLATIVE RESOLUTION 316.**

Introduced by Landis, 46th District.

#### **PURPOSE:**

The purpose of this study resolution is to examine the use of preferences for products made in America and Nebraska in making state and local government purchases. The study should analyze the economic impact of a preferential bid law on state and local expenditures and the effect it would have on personal income, tax liabilities, additional tax revenues, stimulation of the economy, and job opportunities.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the Committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

### **LEGISLATIVE RESOLUTION 317.**

Introduced by Wesely, 26th District; Landis, 46th District; Hoagland, 6th District; Johnson, 8th District; Beutler, 28th District.

#### **PURPOSE:**

To study the following issues:

### **LEGISLATIVE RESOLUTION 318.**

Introduced by Wesely, 26th District.

#### **PURPOSE:**

It is in the best interests of the State of Nebraska to develop means by which the Legislature can, through cooperation with various state and local agencies, and private and public college and university faculty, anticipate trends and future problems which this state will need to address. The intent is to, through the formation of a special legislative committee and a task force of appropriate community representatives, develop a picture of Nebraska's future. Experts in certain fields would be asked to prepare an analysis of what lies ahead in that issue area for Nebraska over the next ten and twenty years. These analyses would then be brought together to develop an overall picture of Nebraska's future. This effort should be coordinated with

any initiative on the part of the Governor to revitalize the Goals for Nebraska Project.

The Legislature should participate in a revitalized Goals for Nebraska Project in order to ascertain people's perceptions of Nebraska, what needs our state has, and what direction should be taken in order to meet those needs. The end result of this study and related projects and proposals should be to help the Legislature set state priorities for the next ten and twenty years. The intent is to help members of the Legislature identify the most important present and future issues of the State so that they are properly, comprehensively, and successfully addressed.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:**

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the Committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

### **LEGISLATIVE RESOLUTION 319.**

Introduced by Wesely, 26th District.

#### **PURPOSE:**

Because of our country's economic crisis, some Nebraskans have lost and others will lose their jobs and livelihood. The State of Nebraska has a responsibility to keep as many Nebraskans as possible employed. One potential proposal to help accomplish that goal may be to enact "Buy American" legislation.

The purpose of this study is to review current state and federal legislation providing for purchase preferences for domestically-produced products. Consideration should be given to possible "Buy American" legislation for Nebraska, and the impact of such legislation if it would be enacted. The study should examine the advantages and disadvantages of providing for a preference for United States workers, builders, producers, and businesses, when procuring materials and equipment for public projects in Nebraska.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:**

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the Committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 320.**

Introduced by Wesely, 26th District.

**PURPOSE:**

To study the funding and pattern of use of the State Regional Centers and the Beatrice State Developmental Center, including: (1) the current funding system whereby the county of residence provides a greater share of the patient cost to a regional center for the first thirty days of care and its effect on the procedures utilized to grant admission to, and to determine the date of discharge from, the institutions; and (2) a re-examination of the respective roles of state and local governments pertaining to the financing of these institutions in view of the changing role of the county in financing community alternatives to institutional services.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the Committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 321.**

Introduced by Haberman, 44th District.

**PURPOSE:**

Currently at least four state departments are inspecting private and public food sources, in schools, day care centers, camps, restaurants, jails, and other facilities. The Department of Health, the State Department of Education, and the Department of Public Welfare each have responsibility for various aspects of the preparation and sale of food in the schools. An interim study should be conducted to determine the effectiveness of having separate agencies involved in various phases of inspecting food facilities and the possibility of

assigning one state agency such duty. The study should include investigation to determine if one agency can inspect for sanitation, nutritional value, supply and inventory, and food service personnel.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:**

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the Committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

### **LEGISLATIVE RESOLUTION 322.**

Introduced by Burrows, 30th District.

#### **PURPOSE:**

It is generally recognized that acupuncture treatment does provide relief from pain for ailments from which traditional therapies and drugs are not effective. Currently the use of acupuncture by other than licensed physicians is prohibited in the State of Nebraska. The purpose of this study would be to examine what should be the appropriate regulation of acupuncture in Nebraska. The study would also examine what professional training is appropriate in order for persons to provide acupuncture services. The purpose of this study is to protect the best health interests of the citizens of the State of Nebraska.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:**

1. That the Public Health and Welfare Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the Committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

### **LEGISLATIVE RESOLUTION 323.**

Introduced by Hoagland, 6th District.

WHEREAS, it has been stated or implied in recent legislation that one of the functions of optometrists consists in diagnosing eye conditions; and

WHEREAS, competent medical testimony has questioned the safety of attempts by nonphysicians to perform this crucially important medical function; and

WHEREAS, citizens of Nebraska still suffer loss of vision from diseases some of which are treatable, especially if diagnosed early; and

WHEREAS, persons registered as blind represent a population that has not been selectively analyzed, which may cause medically incompetent care to be concealed.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That an interim study be conducted by the Public Health and Welfare Committee of the Legislature to review and accumulate information about diagnosis and treatment of blind persons in this state.

2. That the study include interviews with a number of Nebraska citizens who have recently qualified for public assistance through the state program for assistance to the aged, blind, or disabled, and with such persons' permission, reviews of their medical and optometric records.

3. The study should collect the opinions of the blind persons interviewed to determine their belief as to when they began to go blind and the cause of their blindness, and make a correlation of these opinions with the diagnosis given the patients in order to determine, in light of the present medical knowledge, whether accurate diagnoses were made.

4. The committee shall report its findings, along with its recommendations, at the conclusion of its study to the Legislature or Legislative Council.

Referred to the Executive Board.

Legislative Chamber, Lincoln, Nebraska  
Monday, March 24, 1980

Pursuant to adjournment, the Legislature met at 9:02 a.m., Speaker Marvel presiding.

**PRAYER**

The prayer was offered by the Chaplain.

O Lord, our God, in the midst of the perplexities which confuse us, doubts which torment us, and rivalries which divide us, give us a faith and a compassion which will unite us.

We are grateful for the differences represented in this legislature; differences which alone can focus new light on our issues. May we debate with fervor and disagree with understanding, but underneath our differences wilt Thou show us anew that a house that remains divided cannot stand, let alone lead our people to unity and peace and prosperity.

With all our differences, may we still be "one people under God, indivisible, with liberty and justice for all." Amen.

6 follows:  
7 48-652. (1) (a) A separate experience account  
8 shall be established for each employer who is liable for  
9 payment of contributions. Whenever and wherever in  
10 sections 48-601 to 48-669 the terms reserve account or

12 indicates otherwise, such terms shall be deemed  
13 interchangeable and synonymous and reference to either of  
14 such accounts shall refer to and also include the other;  
15 and (b) a separate reimbursement account shall be  
16 established for each employer who is liable for payments  
17 in lieu of contributions. All benefits paid with respect

25 two or more employers who are liable for payments in lieu  
1 of contributions may jointly apply to the commissioner

3 sharing the cost of benefits paid that are attributable  
4 to service in the employ of such employers. The  
5 commissioner shall prescribe such regulations as he or  
6 she deems necessary with respect to applications for  
7 establishment, maintenance, and termination of group  
8 accounts authorized by this subdivision.  
9 (2) All contributions paid by an employer shall  
10 be credited to the experience account of such employer.  
11 In addition to such credits, each employer's account  
12 shall be credited as of June 30 of each calendar year  
13 with interest at a rate determined by the commissioner  
14 based on the average annual interest rate paid by the  
15 Secretary of the Treasury of the United States of America  
16 upon the account of the Nebraska Unemployment Trust Fund  
17 for the preceding calendar year, multiplied by the  
18 balance in his or her experience account at the beginning  
19 of such calendar year; Provided, that should the total  
20 credits as of such date to all employers' experience

21 accounts be equal to or greater than ninety per cent of

2 (3) (a) Each experience account shall be charged  
3 only for benefits based upon wages paid by such employer;  
4 Provided, that no benefits shall be charged to the

9 good faith for sole purpose of accepting other  
10 employment, which he or she did accept and it has been  
11 determined by the commissioner that such leaving was with  
12 good cause or employment from which he or she has been  
13 discharged for misconduct connected with his or her work  
14 and concerning which separation the employer has filed  
15 timely notice of the facts on which such exemption is  
16 claimed in accordance with regulations prescribed by the  
17 commissioner and no benefits shall be charged to the  
18 experience account of any employer if such benefits were

22 each reimbursement account shall be charged only for  
23 benefits paid that were based upon wages paid by such  
24 employer in the base period that were wages for insured

26 48-627, subdivision (e) (1); and (c) benefits paid to an  
1 eligible individual shall be charged against the account  
2 of his or her most recent employers within his or her  
3 base period against whose accounts the maximum charges  
4 hereunder have not previously been made, in the inverse  
5 chronological order in which the employment of such  
6 individual occurred. The maximum amount so charged  
7 against the account of any employer, other than an  
8 employer for which services in employment as provided in  
9 subdivision (4) (a) of section 48-604 are performed,  
10 shall not exceed the total number of benefit units to  
11 which such individual was entitled as set out in section  
12 48-626 with respect to base period wages of such  
13 individual paid by such employer plus one half the amount  
14 of extended benefits paid to such eligible individual  
15 with respect to base period wages of such individual paid  
16 by such employer. The commissioner shall by general  
rules prescribe the manner in which benefits shall be

17 charged against the account of several employers for whom  
18 an individual performed employment during the same  
19 quarter. Any benefit check duly issued and delivered or  
20 mailed to a claimant and not presented for payment within  
21 one year from the date of its issue may be invalidated  
22 and the amount thereof credited to the Unemployment  
23 Compensation Fund; Provided, that a substitute check may  
24 be issued and charged to the fund on proper showing at  
25 any time within the year next following. Any charge made  
26 to an employer's account for any such invalidated check  
27 shall stand as originally made.

1 (4) An employer's experience account shall be  
2 deemed to be terminated one calendar year after such  
3 employer has ceased to be subject to sections 48-601 to  
4 48-669; Provided, if the commissioner finds that an  
5 employer's business is closed solely because of the  
6 entrance of one or more of the owners, officers,  
7 partners, or the majority stockholder into the armed  
8 forces of the United States, or of any of its allies,  
9 after July 1, 1950, such employer's account shall not be

11 years after the discharge or release from active duty in  
12 the armed forces of such person or persons, the  
13 employer's experience account shall be deemed to have  
14 been continuous throughout such period.

15 (5) All money in the Unemployment Compensation  
16 Fund shall be kept mingled and undivided. The payment of  
17 benefits to an individual shall in no case be denied or  
18 withheld because the experience account of any employer  
19 does not have a total of contributions paid in excess of  
20 benefits charged to such experience account."

**PURPOSE:**

The purpose of this resolution is to study the flood control and prevention programs in and around the Omaha metropolitan area.

Although studies have been conducted relating to urban growth, none have focused on the problems facing Omaha with flood control.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:**

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the Committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

### **LEGISLATIVE RESOLUTION 325.**

Introduced by Education Committee: Koch, 12th District, Chairman.

#### **PURPOSE:**

The criteria for tenure in Class IV and V schools is different from that in Class I, II, III, and VI schools. The question of determining fair criteria for tenure in all Classes, and in all state post-secondary educational institutions, needs study and consideration. Areas which need study in relation to secondary and elementary teachers include: the number of probationary years a teacher should have before he/she is granted tenure; the definition of just cause and other terms in relation to termination; the procedure of notification of termination including written notices, time deadlines for notification, hearings, etc.; a mandatory retirement age; indefinite and continuing contracts; professional growth requirements; the role of school boards; the differences between part time employees, elementary teachers, secondary teachers, specialized teachers, administrators, superintendents; and the effect of Schultz V. School District of Dorchester 222 N.W. 2d 578 and other relevant Supreme Court cases.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:**

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the Committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 326.**

Introduced by Education Committee: Koch, 12th District, Chairman.

**PURPOSE:**

Due to Nebraska's inequitable treatment of parents, of pupils, and of school districts relative to financial aid for and provision of school transportation, there is a direct need to study these problems and correct inequities. Concern must also be given to the total structure of state aid to education.

Such inequities can be found between those parents of multi-handicapped children who are reimbursed 100 percent for travel while those of the single-handicapped receive 12 cents a mile. Questionable situations arise when school districts are reimbursed 100 percent of special education pupil transportation costs but only fractionally or not at all for regular pupils. Several statutes pertaining to transportation are unclear as well as inconsistent with present treatment of pupils. Also, state aid for regular pupil transportation was denied to all but 147 school districts in 1977-78 due to its position in equalization section of the state aid formula.

Laws are also unclear concerning whether the government or parents are "ultimately responsible" for providing transportation for special education pupils except in the case of a pupil in the State's schools for the deaf or visually impaired. In comparison to national statistics, Nebraska school districts provide for about one-half the percent of pupil transportation at public expense nationally; in comparison to its six adjoining states, Nebraska has the most stringent distance requirements for state aid, transported the lowest percentage of pupils, and provided the lowest ratio of state aid for transportation.

When the State's role in funding aid for transportation to local districts is viewed separately from the total aid program for education, it is clearly inequitable. A study of inequities within the system of school transportation and a reevaluation of present laws, is the purpose of this resolution.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:**

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the Committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

WHEREAS, difficult budget decisions are necessary in these inflationary times, and when budgets are cut, worthwhile activities are often curtailed; and

 16 third Monday in April of each year thereafter the county  
 17 assessor shall forward the application to the Tax  
 18 Commissioner who shall determine from the records of the

For ties that continue to bind us together, even when the going is rough; for common purposes we continue to recognize as larger than we are, even when the business at hand taxes our patience and our constituents; for the privilege of sharing in the inspirations - as well as the frustrations - of events which make headlines . . . causing folks back home to smile, or to stop smiling—for the conviction we share that what helps our district helps our state; and what helps our state helps people; and what helps people is always right; for anything that may happen during today's session to deepen this conviction, and give it practical application; we now ask Your help, O Lord our God. Amen.

### **MESSAGE FROM THE GOVERNOR**

March 26, 1980

Mr. President, Mr. Speaker,  
and Members of the Legislature  
State Capitol Building  
Lincoln, Nebraska 68509

Dear Mr. President and Senators:

As you begin the 50th day of this short sixty-day legislative session, you have several important issues yet before you.

Certainly, one of the more critical matters yet to be resolved is that of making necessary revisions to the Homestead Exemption Act.

To this end, I have recommended amendments to LB 647 introduced by Senator Labeledz, with Senator Labeledz's agreement and support.

In brief, these amendments propose the following:

(1) concurrence with Senator Labeledz and others that the actual value of the homestead exempted should be raised from the first \$25,000 to the first \$40,000;

(2) maintaining federal adjusted gross income as the basis for determining income eligibility;

(3) increasing the base income eligibility level to the federal minimum filing level;

(4) extending the current cut-off of eligibility of 40 percent an additional step to 20 percent of the first \$40,000 of actual value;

(5) extending the benefits of the above to all homeowners under the age of 75;

(6) creation of a special exemption for those homeowners 75 years of age and older in recognition of their special needs;

(7) and, extending the filing date this year to June 15, 1980 to allow all eligible homeowners an opportunity to apply for these benefits this year.

Your Revenue Committee has reported two bills: LB 647 amended in Committee and LB 609. Neither of these bills as currently composed fully meet the criteria I believe are necessary for effective legislation in this area. Both bills in their current form impose burdensome and complicated filing requirements on applicant homeowners and additional administrative requirements on the Department of Revenue. Therefore, I strongly urge you to consider the amendments to LB 647 that will be offered by Senator Labeledz. Your help will be most appreciated.

(Signed) Respectfully,  
CHARLES THONE  
Governor

**ATTORNEY GENERAL'S OPINIONS**

Opinion No. 265  
March 26, 1980

Dear Senator Simon:

You have provided to us a copy of the set of proposed amendments to LB 991. You have asked whether these amendments would be sufficient to meet constitutional requirements in light of our previous opinion on LB 991, Opinion No. 243, March 7, 1980, to Senator Venditte.

Essentially the amendments that you have proposed strike substantial portions of LB 991 as they relate to the definitions of drug paraphernalia. Those sections which are stricken by the amendments primarily relate to the definitional provisions setting forth the scope of the drug paraphernalia act. In our previous opinion we referred to the breadth of the section 1 definitions and specifically to subsection 5 and subsection 10 which would be stricken by your amendments. However in our previous opinion we indicated that the examples given in the opinion were intended to indicate the substantial constitutional questions about vagueness and overbreadth which were raised. Additionally we stated in that opinion "we do not intend to engage in a section-by-section analysis of your bill." While several questionable areas would be stricken under the amendments as you proposed them, we still adhere to the views set forth in our previous opinion. Even if your amendments were adopted it would appear that LB 991 would be difficult to defend against constitutional attack. The essential deficiencies of LB 991 remain the same, and in fact under your amendments LB 991 would be very similar to Indiana Code, section 35-48-4-9, as amended by acts 1977 Public Law 340. That statute was under consideration by a three judge District Court for the District of Indiana. That court found the statute to be unconstitutionally vague. Essentially the same test was utilized by that court as was utilized in State v. Adkins, 196 Neb. 76, 81, 241 N.W.2d 655 (1976), which we cited in our opinion to Senator Venditte referred to above. The Indiana court in granting an injunction against the enforcement of the law stated:

"The definition of paraphernalia used in the possession of paraphernalia statute fails to meet the standard of sufficient clarity mandated by the guarantee of due process. It is unclear what is meant by an instrument 'designed' for drug use. The term 'designed' could signify only devices that have no use or function other than as a means to ingest a controlled substance. Alternatively, 'designed' could include any devices that have a legitimate function but could be used for ingestion of drugs. That is, the term 'designed' could sweep into the definition of paraphernalia any device that could be altered from its normal function to become a makeshift drug device, such as a paper clip, tie bar, hand mirror, spoon, or piece of aluminum foil. . . ."

. . . Indiana Chapter, N.O.R.M.L., et al. v. Sendak, et al.,

United States District Court for the Southern District of Indiana, No. 75-142-C, Unpublished Opinion.  
Other deficiencies were noted by that court. They are of similar import to those pointed out in our prior opinion.

Given these problems we must continue to adhere to our previously expressed views that LB 991 is of questionable constitutionality.

Sincerely,  
PAUL L. DOUGLAS  
Attorney General

Opinion No. 266  
March 26, 1980

Dear Senator DeCamp:

You have provided to us a copy of Request No. 2217. This request is a set of amendments to LB 991. We have been informed that this set of amendments was secured from similar amendments proposed in the Colorado Legislature at the present time. We have subsequently learned that these amendments have been substantially amended from the form in which they are set forth in Request No. 2217. The Colorado bill has not been signed at the present time. You ask whether or not these amendments would be constitutional.

Request No. 2217 provides that:

“Drug paraphernalia shall mean any machine, instrument, tool, equipment or device which is primarily adapted, designed, or commonly used for one or more of the following:”

Thereafter, four separate items are listed which relate to the introduction of controlled substances into the body, to enhance the effect upon the body, to conceal controlled substances, to test the strength, effectiveness, or purity of controlled substances.

Section 2 sets forth criteria to be utilized by a court in determining whether a particular item is drug paraphernalia. These are essentially the same descriptions as were contained in the original sections of LB 991, section 2, subsections (1) through (13).

Section 3 of the request makes it a crime to possess drug paraphernalia and intend to use the paraphernalia in violation of the laws of the state.

Section 4 makes it a crime to sell, deliver, possess with intent to sell or deliver, or manufacture with intent to sell or deliver equipment, products, and materials knowing that they will be used as drug paraphernalia.

Section 5 prohibits advertising intended to promote the sale of drug paraphernalia.

In some degree the provisions of Request No. 2217 are more tightly drawn than those of LB 991. However, we believe that the request suffers from the same overbreadth and vagueness problems which we pointed out in our opinion to Senator Venditte, Opinion No. 243, March 7, 1980, and our opinion to Senator Simon, of an even date with this opinion, a copy of which is enclosed.

Section 2 includes, for example, any container that might be used to hide drugs. This could include breadboxes, safes, or any other container susceptible of being utilized to secrete drugs. It also includes any number of chemicals which might be used to make scientific evaluations of particular drugs. Such items, in and of themselves, are innocuous and, in fact, may in certain circumstances be beneficial. Yet, under this act an individual would have to guess whether or not the particular item which he was using or selling was such that it could be defined as drug paraphernalia. Thus, it would be unlawful for the individual to own, to sell, or to otherwise possess such items.

Without going into further detail, we would adhere to the views expressed in the two opinions previously referred to in this opinion and conclude that Request No. 2217 suffers from the same problems as pointed out in those opinions and would be difficult to defend against constitutional attack.

Sincerely,  
PAUL L. DOUGLAS  
Attorney General  
Patrick T. O'Brien  
Assistant Attorney General

10 a result of state action and have not received any  
11 additional assistance from the state to aid them in

 16 a tax or cause a tax to be levied is newly created, such  
 17 political subdivision shall receive, commencing the first  
 18 year such levy generates tax receipts, a share of the

Thursday, March 27, 1980

Pursuant to adjournment, the Legislature met at 9:02 a.m., Speaker Marvel presiding.

**PRAYER**

We bow our heads, O Lord our God, for we would be stupid indeed to believe that our business is none of Your business. But we bow our heads also because we know that we need help. Tensions mount, and pressures build, and criticism sharpens, and each man and woman among us stands in need of special help this crowded day. And You only know what our special needs are, Heavenly Father, for You know us better than we know ourselves. So help us, we pray. Get our family and our House off to a good day, however long it may be, and give us all a good conscience at the day's end. Amen.

**ROLL CALL**

The roll was called and all members were present except Messrs. Kremer and Wagner who were excused; and Mrs. Labeledz, Messrs. Cullan, Lewis, Powers, and Venditte who were excused until they arrive.

### ATTORNEY GENERAL'S OPINION

Opinion No. 267  
March 27, 1980

Dear Senator Chambers:

You have called our attention to LB 905, and you ask our opinion as to the constitutional validity of one of the amendments to be effected by that bill. In our opinion the problem you raise is a real one, but can be resolved by proper construction of the statute.

LB 905 would amend section 77-907, R.R.S. 1943. This section now defines "premiums" as follows:

"(3) Premiums shall mean the consideration paid to insurance companies for insurance and shall include policy fees, assessments, dues, or other similar payments except that premiums on pension, profit-sharing and other employee benefit plans which are described in section 805(d)(1) of the Internal Revenue Code of 1954, as amended as of January 1, 1965 shall be exempt from taxation;"

The bill would strike the words "as of January 1, 1965." You suggest that this would be an unlawful delegation of legislative authority to Congress by incorporating into our statute all amendments to the Internal Revenue Code since January 1, 1965, and on into the indefinite future. If the bill were so interpreted it would undoubtedly be subject to the objection you raise.

In Smithberger v. Banning, 129 Neb. 651, 262 N.W. 492 (1935), the statute made reference to a federal act then pending before Congress, and provided for its having effect on the Nebraska legislation when passed. The court held this to be an unconstitutional delegation of legislative powers to Congress.

It is also clear, however, that the Legislature can adopt and incorporate by reference legislation previously passed by other legislative bodies, including Congress. See Anderson v. Tiemann, 182

Neb. 393, 155 N.W.2d 322 (1967). This, of course, is precisely what the Legislature did in the present version of section 77-907, when it made reference to section 805(d)(1) of the Internal Revenue Code of 1954, as amended as of January 1, 1965.

If we were to construe the elimination of the specified date to remove all restrictions and to incorporate future amendments into the statute, it would be clearly invalid. It is not, of course, covered by Article VIII, section 1B of the Nebraska Constitution, which permits state income tax laws to be based upon future laws of the United States. The tax we are here concerned with is a tax on premiums, not income, and so is not covered by that constitutional provision.

However, in Anderson v. Tiemann, *supra*, the court quoted with approval from State ex rel. Meyer v. County of Lancaster, 173 Neb. 195, 113 N.W.2d 63, to the effect that where a statute is susceptible of two constructions, one of which renders it constitutional and the other unconstitutional, it is the duty of the court to adopt the construction which, without doing violence to the fair meaning of the statute, will render it valid.

We believe that the bill, as now worded, can be interpreted to adopt the Internal Revenue Code, as amended, to the date of the passage and approval of LB 905. So construed, the amendment you inquire about presents no constitutional difficulties.

We recognize that the other construction is possible, but given the bias of the court toward constitutional, rather than unconstitutional interpretations of statutes, we believe the bill should be construed simply to incorporate Internal Revenue Code amendments adopted since January 1, 1965, to the date of passage and approval of the act. LB 905 does not contain the unequivocal language showing intention to incorporate future changes which was involved in Anderson v. Tiemann, nor does it refer to pending federal legislation, as in Smithberger v. Banning. It can be argued that had the Legislature intended the same result, it would have used language similar to that involved in Anderson v. Tiemann. Obviously, a few words added to the bill before passage would remove any doubts and eliminate the necessity for construction.

Very truly yours,

## **SPEAKER MARVEL PRESIDING**

### **ATTORNEY GENERAL'S OPINION**

Opinion No. 268  
March 27, 1980

Dear Senator Cope:

This is in reply to your letter dated March 26, 1980, concerning section 18-1214, R.R.S. 1943, and legislation which you have introduced.

Specifically, you ask our opinion whether or not section 18-1214, R.R.S. 1943, allows cities of the First Class to levy a wheel tax for the purpose of maintenance of streets.

Section 18-1214, R.R.S. 1943, provides in part:

“...Such taxes shall be credited by the county treasurer to the road fund of such city or village, such funds to be used by such city or village exclusively for constructing or resurfacing dustless-surface street improvements on arterial rather than residential routes, and for the amortization of bonded indebtedness when created for such improvements, but not for maintenance nor equipment purchases.”

In our opinion, the wording of the statute is so clear that it does not need interpretation. The statute clearly states that the funds are “to be used exclusively for ... constructing or resurfacing dustless-surface street improvements ... but not for maintenance, nor equipment purchases.” (Emphasis added).

The statute clearly states for what purposes the funds may be used and that they may not be used for maintenance.

In City of Grand Island v. County of Hall, 196 Neb. 282, 242 N.W.2d 868, (1976), at page 285, our court has stated:

“Where the words of a statute are plain, direct, and unambiguous, no interpretation is needed to ascertain their meaning and this court cannot read a meaning into a statute which is unrelated by legislative language, nor can it read plain, direct, and unambiguous language out of a statute...”

It is the opinion of this office that the provisions of section 18-1214, R.R.S. 1943, do not allow a city of any class nor a village to levy a wheel tax for the purpose of maintenance of streets.

Very truly yours,  
PAUL L. DOUGLAS

Monday, March 31, 1980

Pursuant to adjournment, the Legislature met at 9:02 a.m., President Luedtke presiding.

**PRAYER**

The prayer was offered by the Chaplain.

Dear God, As the days of Spring lengthen and the remaining days of our time together shorten, we pray both for the light of truth and a sense of urgency in everything done here. We thank You for the diversity and commitment present in our ranks, for the willingness to work and the desire to be faithful to our public trust; save us from any easy goal or cautious expectations, that we may stretch and reach and press to do what we attempt for the people of the State, not somehow, but triumphantly! So replenish us in this moment of meditation, that we may be a source of nourishment to others. So certify Your love to us that we may live above the need for praise or the fear of criticism. Help us to live in this place as those who have been called by You to serve in the face of the needs of the people. And may that vision be our strength until this Legislature is ended and our work is done. Amen.

**FIFTY-THIRD DAY - APRIL 1, 1980****LEGISLATIVE JOURNAL****EIGHTY-SIXTH LEGISLATURE  
SECOND SESSION****FIFTY-THIRD DAY**

Legislative Chamber, Lincoln, Nebraska  
Tuesday, April 1, 1980

Pursuant to adjournment, the Legislature met at 9:01 a.m., President Luedtke presiding.

**PRAYER**

The prayer was offered by the Chaplain.

Oh God, as we look at the calendar, we see there are only seven more days remaining in this session, and there is still so much to do, so many bills before us. And yet, in seven days you made the world, and had one day left over to rest, and then looked on what You had created and said, "It is good". So in these seven days that remain before us, help us to create form from chaos, turning light into darkness, to form a land in which people may stand and live together; and create the soil in which the good things of this earth may grow, and to provide the environment in which all Your creatures may live together, and the kind of society in which men and women may grow more into Your likeness, and then replenish and subdue and have dominion over the earth. Then when the end of our creating is done, may not only we, but Your people, enable You to look upon what we have created and say, "It is good". Amen.

**COMMUNICATION**

April 1, 1980

Mr. President, Mr. Speaker, and Members  
of the 86th Legislature  
State Capitol  
Lincoln, Nebraska 68509

Dear Mr. President and Senators:

Section 81-1835, Revised Statutes, 1978 Cumulative Supplement, requires the Director of Administrative Services to notify the Legislature "when the amount of money in the Victim's Compensation Fund is not sufficient to pay any awards or judgments under Sections 81-1801 to 81-1841." The same Section also requires the Director of Administrative Services to "request an emergency appropriation to satisfy such awards and judgments."

Recently, the Crime Victim's Reparations Board approved eight awards totaling \$4,222.98. The current balance in the Victim's Compensation Fund (Agency 61, Program 359) is \$1,235.50. This leaves a shortfall of \$2,987.48 to cover all eight claims.

Pursuant to Section 81-1835, I respectfully request the Legislature to make an emergency appropriation of \$2,987.48 to the Victim's Compensation Fund.

Sincerely,  
(Signed) Brent R. Stevenson, Director  
Administrative Services

**ATTORNEY GENERAL'S OPINION**

Opinion No. 270  
April 1, 1980

Dear Senator Haberman:

This is in reply to your inquiry concerning the percent of the matching funds the counties and other local bodies should pay toward the mental health region's share of funding for alcoholism services. You are considering legislating in this field.

Part of the problem arises because of the wording in section 71-5027, R.S.Supp., 1978, as amended by LB 260, 1979. The portion of said section 71-5027 as it appears in LB 260 relating to funding as it is applicable to your question is as follows:

“ . . . The state shall provide seventy-five per cent of the funds required to provide services in each region, exclusive of any funds from federal programs. Regional governing boards shall provide twenty-five per cent of the funds required to provide services in each region, exclusive of any funds from federal programs, of which local, county, and other tax-generated sources shall account for at least ~~ten~~ five per cent of the funds. The remaining fifteen per cent of the funds may be accounted for from private sources, third-party payments, and fees collected for services rendered within the region. . . .”

As you can see, when the statute was amended to strike the ten and insert five percent of the funds to be furnished by local, county, and other tax-generated sources, the words “at least” were left in so that the local sources are still required to furnish “at least five per cent” of the twenty-five percent required to be provided by the regional governing boards. Obviously, if the local boards are required to furnish ten percent, they are furnishing “at least five per cent”.

We cannot point to any specific provision in the statutes which gives the Department of Public Institutions the specific authority to require the local share to be ten percent. However, the regional governing boards are given the authority to do so under their budget-making duties and the Director of Alcoholism of the Department of Public Institutions has a number of related responsibilities such as requiring the regional boards to meet various levels of services and standards

which may have the net effect of acceding to the Department's wishes in order to receive the desired budgetary level from the state.

An example is contained in section 71-5021, R.S.Supp., 1978, which requires the Director of Alcoholism of the Department of Public Institutions to be responsible for the development of a comprehensive and integrated state-wide plan; establishment of minimum standards requiring budgets to be submitted by the regional boards, which budgets shall detail expected expenditures, services, and revenue; evaluating submitted budgets to determine the state's share of funding requirements and services to be rendered, etc.

By use of the words "at least" in the portion of the statute quoted above, there is no upper level on the amount of funding that can be required of the local bodies other than the twenty-five percent limitation to be provided by the regions. The last sentence in the quote above relating to the "remaining fifteen per cent" no longer makes any sense but at one time undoubtedly referred to the difference between the statutory ten percent to be provided by the locals and the total of twenty-five percent to be provided by the region.

If you have any further questions in regard to this matter, please contact us.

Very truly yours,  
PAUL L. DOUGLAS  
Attorney General

SECOND SESSION****FIFTY-FOURTH DAY**

Legislative Chamber, Lincoln, Nebraska  
Wednesday, April 2, 1980

Pursuant to adjournment, the Legislature met at 9:07 a.m., President Luedtke presiding.

**PRAYER**

The prayer was offered by the Chaplain.

Lord, we pray your blessing upon these dear Senators, these men and women in our state upon whom the weight of responsibility falls most heavily: Some too old to be fired of the visions of their youth, some too young to enjoy the slackened pace of those who are winding down, others concerned alike for aging parents and growing children, hard pressed financially, highly taxed, many resentful of graying hair, softening muscles, reduced agility and lost youthfulness, stung by the remorse of unfulfilled intentions, disillusioned by the emptiness of goals already reached, and disturbed that favorite bills might not be passed. Minister to each of them out of Your infinite power to bless. Protect them against the destruction that wastes at noon, and the fatigue that dogs the passing years. As the outer nature alters and time takes its toll, let the inner person be renewed each day after the working of Your ageless and eternal Spirit. Amen.

#### ATTORNEY GENERAL'S OPINIONS

Opinion No. 271  
March 28, 1980

Dear Senator Newell:

You have called our attention to the fact that pursuant to section 81-195, R.S.Supp., 1978, the State Racing Commission is scheduled to terminate on July 1, 1980. You also point out that LB 939 is the bill which would apparently continue the commission in existence, but that it has not yet advanced off General File, and probably will not be enacted. You inquire as to what effect the failure to enact LB 939 would have on horse racing in Nebraska. We do not believe it will have any immediate effect, because of the provisions of section 81-199, R.S.Supp., 1978, which provides:

“Upon termination, each agency, board, or commission shall continue in existence until July 1 of the next succeeding year for the purpose of concluding its affairs. During this period, such termination shall not reduce or otherwise limit the powers or authority of each respective agency. Upon the expiration of the one year after termination, each respective agency shall cease all activities.”

Under that section it would appear that the commission could continue to perform its duties and regulate racing until July 1, 1981. It would then be required to cease all activities. Before that date, of

course, the Legislature will again convene, and could, if it chose, reestablish the commission. The legislation would have to be adopted with the emergency clause in order to be effective before the July 1, 1981, deadline.

Sections 2-1201 to 2-1221, R.R.S. 1943, as amended, make provision for horse racing in this state, but only at tracks operated by organizations licensed annually by the Racing Commission. Section 2-1207 authorizes parimutuel wagering within the enclosure of a licensee. Presumably, even if racing were permitted without a license from the nonexistent racing commission, the authorization for parimutuel wagering would be gone, and it would be illegal gambling.

Opinion No. 272  
April 1, 1980

Dear Senator Cope:

This is in reply to your letter of March 28, 1980, concerning legislation which you have introduced and section 18-1214, R.R.S. 1943.

Specifically, you ask if section 18-1214, R.R.S. 1943, allows cities of the First Class to levy a wheel tax.

A "wheel tax" is the popular name given to ordinances by which cities and villages levy a tax such as is provided for in section 18-1214, R.R.S. 1943.

Clearly, section 18-1214, R.R.S. 1943, allows a city of the First Class and all other classes of cities and villages to levy what is popularly known as a "wheel tax". However, as stated in our letter of March 27, 1980, the tax is "to be used exclusively for...constructing or resurfacing dustless-surface street improvements...but not for maintenance, nor equipment purchases". (Emphasis added).

Opinion No. 273  
March 20, 1980

Re: LB 738, the Nebraska Dry Bean Resources Act

Dear Senator DeCamp:

In your letter of March 13, 1980, you requested our opinion with respect to certain proposed amendments to LB 738, a bill before the current session. Specifically, you asked our opinion as to whether or not the proposed amendments created any constitutional problems.

LB 738 is similar in form and design to certain other commodity and check-off programs enacted into law by the Legislature (e.g., the Nebraska Corn Resources Act, Neb.Rev.Stat. §§2-3601, et seq. (Cum.Supp. 1978)). The proposed bill is also quite similar to one enacted by the Legislature last year, known as LB 14, which bill, as you may know, was the subject of a declaratory judgment action before the District Court of Lancaster County, Nebraska. The controversial portion of LB 14, which ultimately resulted in a declaration of unconstitutionality, was section 34 of that bill which purported to authorize the Nebraska Department of Agriculture to conduct a special election to determine whether the other sections of the act should become operative. Because the district court's opinion in that litigation, State ex rel. Douglas v. Stewart (Docket 329, Page 22, November 7, 1979), is relevant, in our judgment, to the issues raised in your correspondence, we have enclosed a copy of the court's final decree and memorandum.

The amendments to LB 738, which you have asked us to address, do not affect the entire operation of the proposed act, which was the case in the litigation referenced above, but rather provide for a special election to determine the question of whether excise fees should be paid in accordance with section 22 of LB 738. The proposed amendments provide that, prior to December 31, 1980, the Nebraska Dry Bean Resources Commission ". . . shall conduct an election on the issue of implementing a fee pursuant to section 22 of this act." In defining how this election shall be implemented, the proposed amendment provides, in part, as follows:

"The commission shall mail a ballot to each person who would be personally liable for payment of fees pursuant to section 22 of this act if such fees are implemented for 1981. Persons receiving such ballots shall include, but not be limited

to, growers, first purchasers, landlords receiving a share of a dry bean crop, tenants personally engaged in growing dry beans, and spouses and other family members personally engaged in growing dry beans if such persons would be personally liable for the payment of fees pursuant to section 22 of this act. Each person . . . shall be allowed one vote and no individual shall, as a result of membership in any association, interest in any business entity, or for other reason be permitted to cast more than one ballot. Such ballot shall be returned to the commission within 14 days after being mailed by the commission."

The commission is then instructed to publish the results of the election, and implement a fee pursuant to section 22 if a majority so approves, but is precluded from implementing a fee if a majority of those voting disapprove. The assistance of the Nebraska Department of Agriculture may be requested to conduct this special election.

For the reasons we shall discuss below, we believe that the proposed amendments to LB 738 would be very difficult to defend on a number of constitutional grounds.

A. Delegation of Legislative Power. At section 22 of LB 738, the proposed legislation delegates to the Nebraska Dry Bean Resources Commission the authority to determine the amount of an excise fee to be charged in commercial transactions involving dry beans. This authority has been limited in a range set by the Legislature, not to exceed ten cents per hundredweight. The proposed amendments, however, essentially delegate to the voters involved in a special election the power to determine whether any such fee will be charged at all. The question now becomes whether this is an appropriate delegation of a power normally reserved to the Legislature, that of establishing the amounts or limits of taxation or excise fees.

As the Nebraska Supreme Court noted in the case of Lennox v. Housing Authority of Omaha, 137 Neb. 582, 290 N.W. 451 (1940):

" . . . The legislature cannot delegate its powers to make a law, but it can make a law to become operative on the happening of a certain contingency or on an ascertainment of a fact upon which the law intends to make its own action depend. . . ." *Id.* at 590.

While the vote purportedly authorized by the amendments under consideration would not affect all operative provisions of LB 738, the vote would delegate to a select group of voters the authority to determine the question of whether any excise tax would be charged. Such a question is normally reserved to the judgment of the Legislature. Campbell v. Area Vocational Technical School No. 2, 183 Neb. 318, 159 N.W.2d 817 (1968).

While our research has not disclosed any Nebraska Supreme Court decisions dealing with the type of special referendum involved here,

we do note that Article VIII, section 1 of the Nebraska Constitution confers the taxing power directly and exclusively on the Legislature. While the Constitution authorizes certain exceptions to the Legislature's exclusive authority in this area, such as assessments by school boards for education purposes, we have found no separate constitutional authority for the special election provisions of the proposed amendments to LB 738. Consequently, the amendments could be construed as an authorization to limited groups of voters to determine whether a tax can be imposed, which authorization could exceed these constitutional limitations.

B. Special Elections; Voting Limitations. It is clear that the proposed amendments envision a special election, as opposed to an election conducted under the general laws applicable thereto, such as set forth at Neb.Rev.Stat. §§32-101, et seq. (Reissue 1978). Consequently, such an election would not include the normal safeguards of notarized ballots when the vote is taken by mail, or other special safeguards to assure against fraud. Nonetheless, it may be arguable that the election falls within the definition of Neb.Rev.Stat. §32-106 (Reissue 1978), as an election to ". . . decide any public question and proposition lawfully submitted." As a result, the possibility exists of a challenge by any elector, or excluded elector, such as that facing the court in the case of Arends v. Whitten, 172 Neb. 297, 109 N.W.2d 363 (1961).

As noted on page 5 of the district court opinion enclosed herewith, the Nebraska Constitution, at Article III, section 18, provides, in part, as follows:

"The Legislature shall not pass local or special laws in any of the following cases, . . .

"The opening and conducting of any election, or designating the place of voting."

It would appear that the amendments at issue here could be found to constitute special legislation authorizing the Nebraska Dry Bean Resources Commission to conduct a special referendum or election, thereby violating the above referenced constitutional provision. Concerns over special interest elections have also been recognized by the United States Supreme Court in such cases as Kramer v. Union Free School District No. 15, 395 U.S. 621, 23 L.Ed.2d 583, 89 S.Ct. 1886 (1969). The Kramer decision struck down a New York law which limited eligibility to vote in school elections to property taxpayers or parents of children enrolled in the district's schools. In its opinion, the court denoted the standard by which courts are to review laws limiting the right to vote.

". . . Statutes granting the franchise to residents on a selective basis always pose the danger of denying some citizens any

effective voice in the governmental affairs which substantially affect their lives. Therefore, if a challenged statute grants the right to vote to some bona fide residents of requisite age and citizenship and denies the franchise to others, the Court must determine whether the exclusions are necessary to promote a compelling state interest. . . ." 395 U.S. at 626-627, 23 L.Ed.2d at 589, 89 S.Ct. at 889-890.

In our judgment, it would be difficult to find a compelling state interest to limit the voting franchise involved here. While it is understandable that the parties liable to pay the excise fees involved may have a significant interest in the outcome of the envisioned special election, it could also be argued, under the Kramer rationale, that all Nebraska resident voters have an interest in a proposition affecting the cost of production of an agricultural commodity and the general economic welfare of the state.

C. Due Process; Vagueness of Terms. The final constitutional problem we have with the amendments under consideration is the difficulty in interpreting the legislative standards to be applied in conducting the special election. Again, as the district court noted in its review of LB 14, the legislative language defining such standards must be definite and certain. A vague or uncertain statute, where persons of common intelligence must necessarily guess at the meaning or application, denies due process of law. Rein v. Johnson, 149 Neb. 67, 30 N.W.2d 548 (1947), cert.denied, 335 U.S. 814 (1947); Heywood v. Brainard, 181 Neb. 294, 147 N.W.2d 772 (1967).

The amendment provides that persons eligible to vote ". . . shall include, but not be limited to, growers, first purchasers, landlords receiving a share of dry bean crop, . . ." and other persons generally having an interest in dry bean farming. The first question which arises is what interpretation should be given to the phrase "but not be limited to?" Does this mean that the commission is free to allow ballots to other persons who may have an interest in the growing of dry beans?

The legislation also leaves open the question of whether the franchise to vote should be allowed to individuals who may have been liable in the past for the payment of fees pursuant to section 22 of the act, but may not have any liability in the future. How is the commission to determine whether or not a person may become a "first purchaser" of dry beans in 1981?

While the amendment appears to answer the question raised by the district court in its opinion regarding LB 14, "who gets to vote?", it appears to us that a number of other questions remain unanswered. For example, if a dry bean farm was jointly operated by a corporation and an individual, and the excise fee liability was divided between

these two parties, are both parties entitled to a ballot in the special election? It appears to us that both the lack of legislative guidelines, and the vagueness in the guidelines referenced above expose the proposed amendments to constitutional challenge on the grounds of due process and equal protection of the law. See e.g., Phoenix v. Kolodziejski, 399 U.S. 204, 26 L.Ed.2d 523, 90 S.Ct. 1990 (1970).

For the foregoing reasons, we would advise you that the proposed amendments to LB 738 present serious constitutional problems and would probably not survive a judicial review on the constitutional grounds we have discussed.

Sincerely yours,

Tuesday, April 8, 1980

Pursuant to adjournment, the Legislature met at 9:01 a.m., President Luedtke presiding.

**PRAYER**

The prayer was offered by the Chaplain.

Lord, we have so many cares upon our minds this morning. Our verve has been sapped by problems that keep coming at us for which we have no answers. We know fulfillment only as a "sometime thing", for most of our waking hours are anxiously strung together. We live with the sense that all that we once prized is being inextricably diminished. And our hearts are heavy. And yet, You are never nearer to your children than when their systems quake and their idols fall; make us thankful that our ways are known to You; that faith outlasts the night; that Your judgments are redemptive; and Your mercies sure. Help us to rest in the joy of what has been done, and to work in the happy confidence that the values we are striving to serve in this place may some day be the laws that shall rule our state. Amen.

### ATTORNEY GENERAL'S OPINIONS

Opinion No. 274  
March 21, 1980

Dear Senator Sieck:

You have requested the opinion of this office regarding the constitutionality of LB 642, including the amendments recommended by its proponents, dated February 5, 1980.

Section 1 of LB 642 would require the sentencing court to order a defendant to pay restitution to the injured person as a part of the sentence imposed upon conviction of an offense involving property or personal injury. Further, said section would authorize an evidentiary hearing to determine the amount of restitution if disputed.

Pursuant to the proposed amendments, section 2 of the bill, which enumerates certain methods of enforcement of the restitution order, would be stricken.

The remaining methods of enforcement are set forth in section 3 of LB 642 (section 2 as renumbered by the proposed amendments) which would amend section 29-2206, R.S.Supp. 1979. Said statute as amended, would provide in essence that when a court has the power to order an offender ". . . to pay a fine, cost, or restitution . . . or any combination thereof, . . ." the court may provide as part of the sentence that the offender be imprisoned in county jail until ". . . such fine, cost, or both are paid. . .," secured or the offender is otherwise discharged by law. It thus appears that pursuant to the proposed amendments, the restitution order, unlike a fine and/or costs, would not be enforceable by imprisonment under this section. However,

pursuant to the general contempt provisions of section 25-2121, R.R.S. 1943, a court has the power to punish by fine and/or imprisonment persons guilty of willfully resisting or disobeying an order of said court, which would appear to include an order of restitution imposed as part of a sentence.

Subparagraph 2 of section 3 (renumbered as section 2) of LB 642 would require a court to establish an installment plan for payment of the restitution order which is suitable to the offender upon a showing that the offender is unable to make such restitution in one lump sum payment. Pursuant to section 29-2206.01, R.R.S. 1943, failure to comply with the terms of an order establishing installment payments is punishable as contempt, unless leave of court regarding noncompliance is granted.

Section 4 of LB 642 (renumbered as section 3) provides that nothing in this act shall affect whatever rights an injured person may be able to assert under any other law including the provisions of the Nebraska Crime Victim's Reparations Act.

Our research has revealed no cases considering the constitutionality of a statute authorizing an order of restitution as part of an active sentence. An order of restitution may be considered as an additional sanction imposed upon conviction of a criminal offense. In this regard, an analysis of the constitutionality of such an order must focus on the broad power of the Legislature to define crimes and fix the punishment therefore. In a prior opinion of this office, we explained:

"In Nebraska all crimes and penalties therefor are strictly statutory creations. The constitution of this state confers plenary legislative power upon the Unicameral; and if an act is within the legitimate exercise of that power, it is valid unless some express restriction or limitation can be found in the constitution itself. *State ex rel. Quinn v. Marsh*, 141 Neb. 436, 3 N. W. 2d 892. By virtue of these principles, the Legislature may statutorily define crimes and legislate with respect to matters pertaining thereto, except as may be forbidden by the constitution. Where the Legislature exercises its discretion to define crimes and determine their punishment within constitutional limits, its action is not subject to review by the courts . . . *State v. Smith*, 114 Neb. 653, 209 N.W. 328 . . ."

Attorney General's Opinion 1973-74, p. 162.

Despite the broad authority of the Legislature to fix the punishment for the commission of criminal acts, we are nevertheless troubled by the argument that an order of restitution to an injured victim is essentially civil in nature. See, Klein, Revitalizing Restitution, 20 Crim. Law Quarterly 383 (1977-78). Since such a

restitution order supplants, at least in part, a civil suit brought by a victim, it has been suggested that constitutional guarantees relating to civil proceedings, such as the right to trial by jury and prohibition against imprisonment for debt, must be provided in establishing and enforcing such restitution.

Based on the dearth of judicial authority regarding the validity of an order of restitution as part of an active criminal sentence, as well as the broad power of the Legislature to establish the punishment for criminal offenses, we are not convinced that LB 642, including recommended amendments, is constitutionally infirm on its face. However, in so advising, we are aware that substantial questions exist relating to the civil nature of the concept of restitution.

Very truly yours,  
PAUL L. DOUGLAS

Opinion No. 275  
April 2, 1980

Dear Senator Simon:

You have provided to us a copy of Request Number 2308. This request contains a set of amendments to LB 991. You ask whether the enclosed amendments meet constitutional requirements particularly with respect to the definition of drug paraphernalia contained therein.

Generally the act ties the regulation and sale of drug paraphernalia into those sections of the statutes which regulate the sale of tobacco products. The act requires that a license to sell drug paraphernalia be first obtained prior to the time it may be sold. The request in section 2 makes it a misdemeanor to sell, give or furnish drug paraphernalia to any minor under 18 years of age, specifies the manner of securing the license, limits the areas in which a license may be granted in section 5 to at least 100 meters distant from any church, school, hospital, home for indigent persons or orphans, playgrounds, sport facilities, parks, day-care centers, or community recreational centers, establishes the license fee to be required and provides certain criminal penalties for violation of the act. The definitional section which relates to drug paraphernalia is section 1. It defines drug paraphernalia generally as "materials which are used or manufactured for use in injecting,

ingesting, inhaling, or otherwise introducing into the human body a controlled substance in violation of this act or the Uniform Controlled Substances Act". That paraphernalia is specifically limited to specified objects where ingesting, inhaling, or introducing into the body the substances of marijuana, cocaine, hashish and hashish oil. Thereafter we listed a number of items which are generally contained in the various amendments to as well as the original LB 991. It includes such things as water pipes or bongs, ice pipes, carburetion tubes, miniature cocaine spoons and other items. The section also excepts hypodermic syringes, needles and other objects used by a licensed medical person or an individual injecting a prescribed drug authorized by a physician from the effect of the act.

While we are not entirely sure how broad the initial definition of drug paraphernalia to be used for introducing into the body substances other than marijuana, cocaine, hashish or hashish oil, we cannot point to specific areas in which the definition would clearly be over broad. With respect to those objects used in connection with the enumerated items we believe the definition is drawn with sufficiently narrow parameters to pass constitutional muster.

We believe that Request Number 2308 would be constitutionally defensible.

Very truly yours,

Opinion No. 276  
April 2, 1980

Dear Senator Warner:

You have provided to us amendment to LB 1002. The amendment provides for the appropriation of "an amount equal to the General Fund balance as of June 30, 1980, projected by the State Board of Equalization and Assessment pursuant to section 77-2715.01, Revised Statutes Supplement, 1980, (sic) at the board meeting held within fifteen days after adjournment at (sic) the Eighty-Sixth Legislature, Second Session, . . ." Thereafter it provided certain deductions from that figure, specifically a 4% overlay and reappropriated and unencumbered amounts. Further the appropriation is limited to

\$32,000,000.00. You have asked whether the amendment would be a valid constitutional appropriation.

There are three problems essentially with the manner in which the amendment is written. We have already pointed out in the above quote one inaccuracy in the statutory citation. It should be the 1978 Supplement. Secondly we believe that the language "adjournment at the Eighty-Sixth Legislature" should be the "adjournment of." The primary difficulty that we envision with respect to this act is that there is at least arguably a delegation of authority to the State Board of Equalization to determine the amount of the appropriation.

Generally under section 77-2715.01, the State Board's duty at the meeting to be held pursuant to that statute is to determine the financial position of the state. A formula is established which the Board is to follow. Subsection 2 of section 77-2715.01, R.S.Supp., 1978 provides:

"The board shall meet within fifteen days after the adjournment of each regular session of the Legislature, . . . and shall determine whether the rates for sales tax and income tax must be changed. In making such determination the board shall recalculate the requirements pursuant to the formula set forth in subsection (1) of this section, taking into consideration the appropriations and express obligations for such special session, all miscellaneous claims, deficiency bills, and all emergency appropriations."

The formula established in subsection 1 does not provide for a precise mathematical determination of the General Fund balance as it will actually exist at the expiration of the current fiscal year. A number of factors go into the formula which require judgments and projections which may or may not be born out by later facts. To that extent there is an arguable delegation of authority to determine the level of appropriation to the Board of Equalization and Assessment. We believe however that that delegation is not so great as to be clearly indefensible from a constitutional attack.

There are a number of standards set forth in the section which guide the action of the State Board and we believe that such standards are at least arguably sufficient to overcome a delegation argument. In State ex rel. Meyer v. Duxbury, 183 Neb. 302, 160 N.W.2d 88 (1968), the Nebraska Supreme Court upheld a delegation of legislative power to the Nebraska Clean Waters Commission based upon the very narrow field of operations of the Commission. In this particular instance the State Board would be acting in a very narrow capacity and that is in determining the General Fund balance at the end of the fiscal year. We must caution however that this delegation does involve the appropriation function of the Legislature which is solely entrusted

to the Legislature and thus the scope of the delegation should be as severely circumscribed as possible. For instance it could simply come down to a mathematically formula to determine the amount appropriated based upon the actual amount in the General Fund balance not to exceed a set sum at the end of the fiscal year rather than an amount as determined by some other body.

A further problem which may be raised with respect to this amendment is whether or not it is a specific appropriation. Article III, Section 25 of the Constitution provides in part:

“ . . . No money shall be drawn from the treasury except in pursuance of a specific appropriation made by law, . . . ”

This appropriation is not specific to the extent that it cannot be determined from reading the statute exactly how much money is appropriated. However it is our view that it is sufficient to comply with the terms of the constitutional provision in that it leaves a simple mathematic calculation to determine the exact dollar amount of the appropriation. It is only where the appropriation is so indefinite that it cannot be readily determined exactly the amount of the appropriation that an appropriation fails by virtue of that constitutional provision. This problem of course is tied in with that we discussed above. To a certain extent the amount of the appropriation may depend upon the action taken by the State Board of Equalization and Assessment as the amendment is now written. On the other hand if the amendment were to provide that whatever money existed in a particular fund up to a specified amount was thereby appropriated and the sole question was to sit down and calculate that sum it would be a sufficient appropriation. Approaches such as this have been approved in early Nebraska cases. See State v. Moore, 50 Neb. 88, 69 N.W.2d 373 (1896). In that case the court said:

“ . . . It is true that at the time of the passage of this act the amount appropriated thereby was not in dollars ascertained. . . . The uncertainty in amount arose not in regard to demands of the claimant to the fund, but in regard to the amount of the fund itself. . . . ”

Thus where the limitation goes to the amount of the fund as it does here that is that money remaining up to a specified amount it is a sufficient appropriation in constitutional terms.

We hope that we have answered all of your questions in this letter. If you have others please feel free to contact us.

### UNANIMOUS CONSENT - Print in Journal

Mr. Newell asked unanimous consent to have the following letter printed in the Journal. No objections. So ordered.

March 25, 1980

The Honorable Dave Newell  
State Senator  
State Capitol  
Lincoln, NE 68509

Dear Senator Newell:

By letter of March 24, 1980, you ask for a commission determination of the Potential Conflict of Interest Statement you filed with us on January 15, 1980.

It is my opinion that the financial benefit, if any, that might accrue to your employer [Nebraska Association of Homes for the Aging] by reason of LB184 is too indirect and remote to constitute any conflict of interest.

Finding no such conflict, there is no objection to your participation in or voting upon LB184.

Let me apologize for no immediate decision by this commission following the filing of your statement in January. I was under the impression that you had decided on your own not to participate in LB184.

Respectfully,  
(Signed) Thomas F. Burke  
Executive Director

### MESSAGES FROM THE GOVERNOR

April 7, 1980

Mr. President, Mr. Speaker  
and Members of the Legislature  
State Capitol Building  
Lincoln, Nebraska

Dear Mr. President and Senators:

I am returning herewith LB 996 and LB 997 with my line-item reductions and with my signature.

Since I have not yet received the major appropriation bills, I will outline my objections to LB 996 and LB 997 within the context of your apparent overall budget plan.

In my January 10, 1980 State of the State Address and Fiscal Year 1980-81 Budget Message, I committed myself to the goal of keeping state spending at a 7 percent increase for the 1980-81 fiscal year. We already have seen interest rates soar to record levels. Moreover, our agricultural economy, already reeling from the embargo on Soviet grain trade and the resulting decline in grain prices, is now faced with a credit crunch of critical proportions.

Federal budget cuts of which I warned you in January will most certainly occur. One of the more significant of these reductions will be the elimination of the state's share of the Federal Revenue Sharing Trust Fund. The responsible course of Nebraska State Government in these times is firm fiscal restraint.

My January 10th Executive Budget Recommendations proposed a self-imposed spending target of seven percent calculated on this year's current appropriation base. I believed that target to be prudent in January, I believe it to be responsible now.

Your April 8, 1980, Financial Status Report displays total general fund spending proposals of \$745.6 million. It appears your total spending proposals will exceed the guidelines I set forth in my January budget address. Moreover, these proposals as they now stand and if passed by your body will force substantial increases in state sales and income tax rates.

LB 996 and LB 997 are the first two large appropriation bills you have sent to me. Both bills provide for a total wage increase for state employees in excess of eleven percent - 3 percent as authorized by LB 995 effective May 11, 1980, compounded by 8 percent effective July 1, 1980. The University of Nebraska and the State Colleges are similarly budgeted at a 10 percent increase in wages and salaries for fiscal year 1981. The total cost of these proposals over the current fiscal year base is approximately \$39 million from all funds and \$20 million from the general fund.

Our dedicated state employees are losing economic ground due to continued high inflation — as are all Nebraskans. However, using the most recent information available, the United States Department of Labor reports that wages and salaries of all private non-farm workers rose by 7.7 percent in calendar year 1979. Wages of Nebraska State Employees rose by an average of seven percent through a general increase granted last July. Additionally, an across-the-board 1.5 percent increase was granted in January, 1979. It should not be our purpose — nor is it in line with national policy — to match increased inflation with automatic cost-of-living wage adjustments. Our concern ought to be with prevailing wage rates and benefits in the various labor markets in which we compete.

Further, LB 995 proposes that only those agencies that can afford 3 percent wage increases between May 1, 1980 and June 30, 1980 may grant them. LB 995 also directs that the State of Nebraska Classification and Pay Plan be amended on May 1, 1980 by increasing all pay rates by 3 percent. It is therefore apparent that not all state employees will receive this proposed increase at the same time. In addition, there is the possibility that the salaries of many new state employees will fall below the minimum rates specified in the amended pay plan. This is inequitable, will result in administrative chaos, and I will veto this provision when it comes before me.

Consequently, I have, through my line-item veto authority, reduced the appropriations in LB 996 and LB 997 to an amount equal to an average eight percent salary increase effective July 1, 1980. I will similarly line-item veto reduce other appropriation bills coming before me to a level consistent with the eight percent July 1, 1980 wage increase.

I will not, however, line-item veto reduce the personal services limitations that accompany each appropriation. Even though you did not accept my recommendation of reappropriating FY 1980 ending balances, I still feel it necessary to provide budget flexibility to make necessary adjustments in salaries for those state employees whose wage levels are unreasonably out of line with market rates. By leaving personal services ceilings at the higher level, agency savings through

employee reduction, increased efficiency, and in non-salary areas of their budget could then be applied to such adjustments. In addition, recognition of valuable state employees could be provided through merit increases and promotions.

In addition to these line-item veto reductions of personal services budgets, I have made other reductions to agency operating budgets in LB 996 and LB 997 totaling \$373,299. These reductions include \$310,000 from your own operating budget to bring it more in line with your original request. Other operating budget reductions are: Department of Banking - \$22,176; Department of Insurance - \$7,183; District Courts - \$19,815; and Public Service Commission - \$14,125.

**FIFTY-SIXTH DAY**

Legislative Chamber, Lincoln, Nebraska  
Wednesday, April 9, 1980

Pursuant to adjournment, the Legislature met at 9:06 a.m., President Luedtke presiding.

**PRAYER**

The prayer was offered by the Chaplain.

Oh God, in Whose sight the fine print of our private history is as a billboard, whatever else we may lack in our praying help us at least to be as honest as we can. Deliver us from the need to build ourselves up by cutting others down. Free us from the pride that makes acknowledgment of wrong difficult. Give us the grace to back away from earlier positions with the coming of fresh light. Keep us at peace in the center of our being, however turbulent the causes we support. In these remaining days of this session give us the courage to admit when we are wrong; give us the strength to persevere when we are right; give us the wisdom to tell the difference; and give us the votes to carry the day for the bills which are good for the people and right in Your sight. Amen.

#### ATTORNEY GENERAL'S OPINION

Opinion No. 277  
April 4, 1980

Dear Senator Johnson:

You have asked this office for an opinion as to whether certain amendments to LB 361 authorizing loans and grants of state moneys derived from gasoline taxes to private, not-for-profit organizations for public transportation purposes are constitutional. More particularly, you are concerned as to whether the amendments improperly extend the credit of the state or provide an impermissible special grant to a not-for-profit organization.

Relative to your first inquiry, we assume from your letter that you refer to the amendments' affect on section 19-3908, R.R.S. 1943, which would be to include "public purpose organizations" with municipalities and counties as entities which are entitled to apply for state loans for the purpose of providing public transportation. You note that the amendments define a public purpose organization as "any incorporated private not-for-profit group or agency." You apparently inquire as to whether a section 19-3908 state loan or any other form of giving of the credit of the state to such an organization implicit in the amendments violates Article XIII, section 3 of the State Constitution which reads in pertinent part:

“The credit of the state shall never be given or loaned in aid of any individual, association, or corporation, . . .”

Early on the Nebraska Supreme Court interpreted that language of Article XIII, section 3 as intended to prevent the state from extending its credit to private enterprises. See Haberlan v. Love, 89 Neb. 149, 131 N.W. 196 (1912). However, the court has also stated that to determine whether a private enterprise is contemplated, we need look beyond an organization’s “private” or “public” label as a legal entity and examine its actual activities or purposes. In United Community Services v. Omaha National Bank, 162 Neb. 786, 77 N.W.2d 576 (1956), the court said at page 800:

“ . . . The legislature cannot appropriate the public moneys of the state to encourage private enterprises.”

“But, as stated in City of Glendale v. White, 67 Ariz. 231, 194 P.2d 435: ‘No hard and fast rule can be laid down, for in determining whether a proposed expenditure of public funds is valid as devoted to a “public use or purpose” each case must be decided with reference to the object sought to be accomplished and to the degree and manner in which that object affects the public welfare. . . .’

“ . . . It is the province of the legislature to determine matters of policy. In appropriating the public funds, if there is reason for doubt or argument as to whether the purpose for which the appropriation is made is a public or a private purpose, and reasonable men might differ in regard to it, it is generally held that the matter is for the legislature; \* \* \*.” . . .

“ . . .  
“In exercising the authority we think the following has application: “These authorities clearly settle that the vital point in all such appropriations is whether the purpose is public; and that, if it is, it does not matter whether the agency through which it is dispensed is public or not; that the appropriation is not made for the agency, but for the object which it serves; the test is in the end, not in the means” . . .”

Thus, whether such public service organizations are deemed “private” for purposes of legal incorporation in the State of Nebraska, or for purposes of taxation pursuant to the Federal Internal Revenue Code, is not the issue central to your inquiry. Rather the important determinant is what activities will any such state loan fund; that is, for what purposes will the state funds be used. Viewed in this light, we think that the purpose and legislative intent which are clearly set out in the amendments you inquire of demonstrate that any state loan to such a public purpose organization will be used for a public purpose and would not be an extension of the credit of the state to private enterprise.

We note that the amendments to LB 361 would also authorize grants of state moneys derived from gasoline taxes to such public service organizations. We take your second concern to be whether any such grant to a public service organization derived from gasoline taxes would amount to an impermissible special law, privilege, or franchise by virtue of Article III, section 18 of the State Constitution. That provision states in pertinent part:

“The Legislature shall not pass local or special laws in any of the following cases, that is to say:

“ . . .  
 “Granting to any corporation, association, or individual any special or exclusive privileges, immunity, or franchise whatever; . . .”

On the basis of our review, we take the position that the amendments to LB 361 constitute a general, and not a special or local, law. The Nebraska Supreme Court quite recently has stated:

“An act is general, and not special or local, if it operates alike on all persons or localities of a class, or who are brought within the relations or circumstances provided for, if the classification so adopted by the legislature has a basis in reason, and is not purely arbitrary.\* \* \* “If a law affects equally all persons who come within its operation it cannot be local or special within the meaning of the Constitution.“ . . .”

State ex rel Douglas v. Nebraska Mortgage Finance Fund, 204 Neb. 445, 454, \_\_\_ N.W.2d \_\_\_ (1979).

The amendments do not restrict state grants for public transportation purposes to only one, or any several specified “public service organizations”. Rather, all such organizations that might exist in the state would appear to be eligible for state grants for public transportation purposes when duly certified. The central question thus becomes whether the creation of private, not-for-profit corporations as a class is reasonable and is based on some relevant public policy, or upon real differences of situation and circumstances of the class relative to the subject of the legislation. United Community Services v. The Omaha National Bank at page 802.

It occurs to us that inherent in the nature of private, not-for-profit groups are several characteristics which uniquely suit them to undertake the kind of public service program contemplated by the amendments. We also are mindful that Legislature’s judgment relative to this question is given great weight and that when confronted with such questions the courts make a concerted effort to uphold the constitutionality of statutes. For these reasons, we cannot say that this classification is arbitrary and baseless, and thus, unconstitutional.

Very truly yours,  
PAUL L. DOUGLAS

April 9, 1980

Members of the Nebraska Legislature  
State Capitol Building  
Lincoln, Nebraska

Dear Senators:

As required by Rule 6, Section 14 of the Rules of the Nebraska Legislature, the Appropriations Committee, by majority vote, has decided to recommend to the Legislature that Legislative Bills 996 and 997 become law notwithstanding the line item vetoes therein.

All line item vetoes in these appropriation bills are primarily due to Governor Thone's recommendation for an average eight per cent salary increase effective July 1, 1980. The Appropriations Committee's recommendation and these appropriation bills, as passed by the Legislature, authorize a three per cent salary base adjustment on May 1, 1980 and an eight per cent increase on July 1, 1980. The salary base adjustment of three per cent is specifically based on the findings of the 1979 state salary survey conducted by the Nebraska Department of Personnel pursuant to Section 81-1335. The survey reports that, as of July 1, 1979, (1) minimum hiring rates were 5.5% below the labor market surveyed, (2) maximum hiring rates were 5.6% below the labor market surveyed, and (3) average state employee salaries were 10.3% below the labor market surveyed. As stated in the Department of Personnel salary survey report, "Nearly all rates show that the state has slipped further behind its comparative markets during the past year."

The three per cent salary base adjustment on May 1, 1980 is based on bringing the state employee's salary closer to the "various labor markets in which we compete." It is not a "cost of living" salary increase.

Attached is a summary of the findings of the salary survey, and copy of the complete survey is on file with the Clerk of the Legislature.

The other operating budget vetoes identified by the Governor for the Legislative Council, Department of Banking, Department of Insurance, District Courts, and Public Service Commission cannot be separately overridden from the line item vetoes for salaries. Therefore, the Appropriations Committee recommends overriding all line item vetoes in Legislative Bills 996 and 997.

Sincerely,  
(Signed) Jerome Warner, Chairman  
Appropriations Committee

Section 1 of the Appropriations Committee Handout  
of November 19, 1979 regarding 1980-81  
Salary Policy Considerations

Finding of Salary Survey (Conducted by the Department of  
Personnel)

(1) Hiring Rates

As of July 1, 1979, the average hiring rates of employees within the State Personnel Classified System (representing approximately one-third of all state employees) were 5.5% below the average hiring rates of the surrounding labor market.

One year ago (July 1, 1978), the state was 3% below the labor market.

According to the salary survey findings, the labor market hiring rates increased by an average of 8% from July 1, 1978 to July 1, 1979. In comparison, the state hiring rates increased by 5.5% during this same period.

(2) Average Actual Salary

As of July 1, 1979, the average actual salaries paid to employees within the State Personnel Classified System was 10.3% below the average actual salaries of the surrounding labor market.

One year ago (July 1, 1978), the state was 7.9% below the labor market.

From July 1, 1978 to July 1, 1979, the labor market average actual salaries increased by 10.9%. In comparison, the state average actual salaries increased by approximately 8.5% during the same period.

Req. #2368

2 1. Insert the following new sections:  
 3 "Sec. 2. That section 46-656, Reissue Revised  
 4 Statutes of Nebraska, 1943, be amended to read as  
 5 follows:  
 6 46-656. The Legislature finds, recognizes, and  
 7 declares that the management and conservation of ground  
 8 water and the beneficial use thereof are essential to the  
 9 economic prosperity and future well-being of the state  
 10 and that in geographic areas where ground water may  
 11 already be declining or ~~where shortages of ground water~~  
 12 ~~may occur~~ deteriorating in quality or in geographic areas  
 13 in which geologic or hydrologic conditions indicate that  
 14 unmanaged or uncontrolled development will result in  
 15 declines or deterioration of quality, the public interest  
 16 demands the implementation of management practices to  
 17 conserve and protect ground water supplies and to prevent  
 18 the inefficient or improper use thereof. To provide for  
 19 an orderly management system, particularly in areas where  
 20 changing present ground water conditions or potential  
 21 declining or deteriorating conditions require the  
 22 designation of control areas with special regulation of  
 23 future development and use, the Legislature recognizes

24 the need for this act.

1 Sec. 4. That section 46-658, Revised Statutes  
2 Supplement, 1979, be amended to read as follows:

3 46-658. (1) An area may be designated a control  
4 area by the director following a hearing initiated in  
5 accordance with subsection (3) of this section if it  
6 shall be determined, following evaluation of relevant  
7 hydrologic data, history of developments, and projection  
8 of effects of current and new development, that  
9 uncontrolled development and utilization of the ground  
10 water supply has caused or is likely to cause within the  
11 reasonably foreseeable future the existence of ~~either~~ any  
12 of the following conditions:

13 (a) An inadequate ground water supply to meet  
14 present or reasonably foreseeable needs for beneficial use  
15 of such water supply; or

16 (b) ~~Dewatering of an aquifer, resulting in a~~  
17 ~~deterioration of the quality of such ground water~~  
18 ~~sufficient to make~~ Pollution of ground water which makes  
19 such ground water unsuitable for the present purposes for  
20 which it is being utilized.

21 (2) When determining whether to designate a  
22 control area because of the existence of ~~either~~ any of  
23 the conditions listed in subsection (1) of this section,  
24 the director's considerations shall include, but not be  
25 limited to, a finding that conflicts between ground water  
26 users are occurring or may be reasonably anticipated, or  
27 that ground water users are experiencing, or will  
1 experience within the foreseeable future, substantial  
2 economic hardships as a direct result of current or  
3 anticipated ground water development or utilization.

4 (3) A hearing to designate a control area may be  
5 initiated by a district whenever it has information,  
6 sufficient in the opinion of the board of directors, to  
7 require that any portion of such district should be  
8 designated as a control area. The board of directors  
9 shall report such information to the director with a  
10 request that a hearing be held to determine if a control  
11 area should be established. The request shall be  
12 accompanied by a general description of the area proposed  
13 for inclusion in such control area.

14 (4) (a) Within thirty days after a hearing has  
15 been initiated pursuant to subsection (3) of this  
16 section, the director shall consult with the district and  
17 fix a time and place for a public hearing to consider the  
18 information supplied and to hear any other evidence. The  
19 hearing shall be held within one hundred twenty days  
20 after it has been initiated, shall be open to the public,  
21 and shall be located within, or in reasonable proximity  
22 to, the area proposed for designation as a control area.

23 If, from information submitted by the district or  
24 otherwise available to the director, the director has  
25 reason to believe that area other than that identified by  
26 the district should be considered for inclusion in any  
27 control area which would be established as a result of  
1 such request, he or she shall so notify the district or  
2 districts whose boundaries encompass such additional  
3 area. Notice of the hearing shall be published in such  
4 newspapers as are necessary to provide for general  
5 circulation within the geographic area at least once each  
6 week for three consecutive weeks, the last publication to  
7 be not less than seven days prior to the hearing. The  
8 notice shall provide a general description of all area  
9 which will be considered by the director for inclusion in  
10 the control area.

11 (b) After the hearing, which shall include  
12 testimony of representatives of the Conservation and  
13 Survey Division of the University of Nebraska and the  
14 Nebraska Natural Resources Commission, and the results of  
15 any studies or investigations conducted by the director  
16 as he or she deems necessary, the director shall  
17 determine whether a control area shall be designated. If  
18 the director determines that no control area shall be  
19 established, he or she shall issue an order declaring  
20 that no control area shall be designated.

21 (c) If the director determines that a control  
22 area shall be established within the area identified in  
23 the published notice required by subdivision (4) (a) of  
24 this section, he or she shall determine the boundaries of  
25 the control area after taking into account the  
26 considerations enumerated in subsection (1) of this  
27 section, the effect on political subdivisions and the  
1 socio-economic and administrative factors directly  
2 affecting the ability to implement and carry out local  
3 ground water management and control.

4 (d) If the director determines that contiguous  
5 area within the jurisdictional limits of one or more  
6 districts other than the district or districts which  
7 initiated the hearing is subject to the conditions  
8 identified in this section and therefore appropriate for  
9 inclusion in such control area, he shall so notify such  
10 other district or districts prior to issuance of the  
11 order designating the control area. Such additional area  
12 shall not be included in the control area unless any such  
13 other district consents in writing to such inclusion  
14 within sixty days of such notification by the director.

15 (e) When the boundaries of a control area have  
16 been determined, the director shall, following  
17 consultation with such state agencies as are named in  
18 subdivision (b) of this subsection and the district or

19 districts affected, issue an order designating the area  
 20 as a control area. Such an order shall include a  
 21 geographic and a stratographic definition of the control  
 22 area. Notice of the order shall be provided in the same  
 23 manner as that provided for the hearing.

24 (5) Modification in control area boundaries or  
 25 dissolution of a control area may be accomplished  
 26 utilizing the procedure established in this section for  
 27 the initial designation of such areas as control areas,  
 1 but hearings for designation, modification, or  
 2 dissolution of such control area may not be initiated  
 3 more often than once a year.

4 Sec. 7. That section 46-663, Revised Statutes  
 Supplement, 1979, be amended to read as follows:  
 6 46-663. Regardless of whether or not any portion  
 7 of a district has been designated as a control area  
 8 pursuant to the provisions of this act, in order to  
 9 administer and enforce this act, to reduce the likelihood  
 10 or severity of conditions developing which would require  
 11 designation of a ground water control area, and to  
 12 effectuate implement the policy of the state to conserve  
 13 ground water resources, a district may:

14 (1) Adopt, following public hearing, notice of  
 15 which shall have been given in the manner provided in  
 16 section 46-658, rules and regulations necessary to  
 17 discharge the administrative duties assigned in this act;

 19 installation on well systems of devices for measuring  
 20 ground water withdrawals;

 22 control area and while studies are scheduled or ongoing  
 23 to determine if such a request for designation should be  
 24 made, well-spacing requirements more restrictive than  
 25 those found in Chapter 46, article 6. Such well-spacing  
 26 requirements shall be periodically reviewed by the  
 27 district during the study for possible modification or  
 1 elimination;

2 (4) ~~(2)~~ Require such reports from ground water  
 3 users as may be necessary;

4 (5) ~~(3)~~ Conduct investigations, and cooperate or  
 5 contract with agencies of the United States, agencies or  
 6 political subdivisions of this state, public or private  
 7 corporations, or any association or individual on any  
 8 matter relevant to the administration of this act;

9 (6) ~~(4)~~ Report to and consult with the Department  
 10 of Environmental Control on all matters concerning the  
 11 entry of pollution or polluting materials into ground  
 12 water supplies; and

13 (7) ~~(5)~~ Issue cease and desist orders, following  
 14 ten days' notice to the person affected stating the

15 contemplated action and in general the grounds therefor  
 16 and following reasonable opportunity to be heard, to  
 17 restrain the construction of illegal wells or the  
 18 withdrawal or use of water from such wells, or to enforce  
 19 any of the provisions of this act or of orders or permits  
 20 issued pursuant hereto, and initiate suits to enforce the  
 21 provisions of orders issued pursuant to this act. ; and

22 ~~(6) Issue cease and desist orders, following ten~~  
 23 ~~days' notice to the person affected stating the~~

 4 substance, organic, inorganic, radiological, biological,  
 5 or thermal, in water which tends to lower the quality of  
 6 groundwater or other resource to a point that it

 8 impairs the usefulness of the resource".

9 3. On page 9, line 12 after "sections" insert

18 3. Strike original section 5 and insert the  
 19 following two new sections:

20 "Sec. 5. Before any rule or regulation is

21 adopted pursuant to section 46-663, Revised Statutes  
22 Supplement, 1979, a public hearing shall be held within  
23 the district in reasonable proximity to the area to be  
24 affected. Notice of the hearing shall be published in  
25 such newspapers as are necessary to provide for general  
1 circulation within the geographic area at least once each

5 be affected by the proposed rule or regulation. The text  
6 of the proposed rule or regulation shall be made  
7 available to the public at least thirty days prior to any  
8 such hearing.

9 Sec. 6. That section 46-666, Revised Statutes  
10 Supplement, 1979, be amended to read as follows:

11 46-666. (1) The district shall by order, after a  
12 hearing conducted pursuant to subsection (2) of section  
13 46-665, the record of which shall include the testimony  
14 of a representative of the Conservation and Survey  
15 Division of the University of Nebraska and the Nebraska  
16 Natural Resources Commission, adopt one or more of the  
17 following controls:

18 (a) It may determine the permissible total  
19 withdrawal of ground water in the designated control area  
20 for each day, month, or year, and allocate such  
21 withdrawal among the ground water users within the area;

22 (b) It may adopt and enforce a system of rotation  
23 for use of ground water in the control area; and

24 (c) It may adopt well-spacing requirements more  
25 restrictive than those found in Chapter 46, article 6;  
26 and

1 (d) It may adopt such other reasonable  
2 regulations as are necessary to carry out the intent of  
3 this act.

4 (2) In adopting, amending, or repealing any  
5 control authorized by subsection (1) of this section, the  
6 district's considerations shall include, but not be  
7 limited to, whether it reasonably appears that such  
8 action will mitigate or eliminate the condition which led  
9 to designation of the control area, will encourage a high  
10 degree of water use efficiency, or will improve the  
11 administration of the control area.

12 (2) (3) The adoption, amendment, or repeal of any  
13 authorized control shall be subject to the approval of  
14 the director. The director may hold a public hearing to  
15 consider testimony regarding such controls prior to the  
16 issuance of an order approving or disapproving the  
17 adoption, amendment, or repeal of such controls. The  
18 director shall consult with the district and fix a time,  
19 place, and date for such hearing. In approving the

20 adoption, amendment, or repeal of an authorized control,  
 21 the director's considerations shall include, but not be  
 22 limited to, those enumerated in subsection (2) of this  
 23 section.

24 ~~(3)~~ (4) If because of varying climatic,  
 25 hydrologic, or geologic or soil conditions existing  
 26 within the control area, the uniform application  
 27 throughout such area of one or more controls would fail  
 1 to carry out the intent of this act in a reasonably  
 2 effective and equitable manner, the controls adopted by  
 3 the district pursuant to subsection (1) of this section  
 4 may contain different provisions for different portions  
 5 of the control area. Any differences in such provisions  
 6 shall recognize and be directed toward such varying  
 7 conditions. The provisions of all controls shall be  
 8 uniform for all portions of the control area which have  
 9 substantially similar climatic, hydrologic, geologic, and  
 10 soil conditions.

11 (4) (5) If the district determines, following a  
 12 public hearing conducted pursuant to section 46-665, that  
 13 depletion of the ground water supply in the control area  
 14 or any portion thereof is so excessive that the public  
 15 interest cannot be protected solely through  
 16 implementation of reasonable controls adopted pursuant to  
 17 subsection (1) of this section, it may, with the approval  
 18 of the director, close the control area or portion  
 19 thereof to the issuance of any additional permits for a  
 20 period of one calendar year. Such areas may be further  
 21 closed thereafter by a similar procedure for additional  
 22 one-year periods. Any such area may be reopened at any

Thursday, April 10, 1980

Pursuant to adjournment, the Legislature met at 9:13 a.m., Speaker Marvel presiding.

**PRAYER**

The prayer was offered by the Chaplain.

Dear God, we pray this morning for ourselves, so varied in our aims that no one prayer can ever say it all. Some of us are in a hurry to promote the passage of a favored bill, wanting the big prize now, and yet we find ourselves because of others on a local train making every stop. Some of us are reeling from a recent defeat because of some vote or committee or action, and what was rock beneath our feet has turned to sand. Some of us are suffering from flagging self-esteem, where it seems that others who have made promises to us or supported us are now moving on in their own direction. Some of us are trying to rope a bucking conscience, for we find we can neither hate those whom we are expected to hate nor love those whom we are called upon to love. Oh God, for such as we is Your grace given, without measure and without price. May we be humble enough to receive Your grace, and glad enough to know that we can never go where You are not, nor sink beneath the level of Your loving purpose daily for our lives. Amen.

### MESSAGE FROM THE GOVERNOR

April 10, 1980

Mr. President, Mr. Speaker  
and Members of the Legislature  
State Capitol Building  
Lincoln, Nebraska

Dear Mr. President and Senators:

I am returning herewith LB 995 with my line item reduction and with my signature.

In sending LB 995 to me, you have outlined several areas that are in need of deficiency funding and for which I have no major objection. You have, however, included in this bill the salary provision to which I object. This bill provides for a 3 percent wage increase between May 1, 1980 and June 30, 1980 to be given by agencies that have sufficient funds to do so. LB 995 directs that the State of Nebraska Classification and Pay Plan be amended on May 1, 1980 by increasing all pay rates by 3 percent. It is clear that all state employees will not receive this increase at the same time. Further, the salaries of many employees will possibly fall below the minimum rates of the pay plan. Again I must say this is unfair.

A compromise figure of 8 percent for salary increases is recommended. This figure will result in a reduction of nearly \$12 million from the state's personal service base and save more than \$5 million from the state's general fund.

I ask that you sustain my vetoes so that we can provide the responsible government and fiscal restraint our constituents should expect from us.

Respectfully,  
(Signed) CHARLES THONE  
Governor

### RESOLUTION

#### LEGISLATIVE RESOLUTION 339.

Introduced by Wesely, 26th District.

WHEREAS, it is the responsibility of the Nebraska Legislature to determine which occupations will be subject to the restrictions and privileges of professional licensure in order to protect the health, safety, and economic well-being of the public; and

WHEREAS, the requirements and evaluation procedures for obtaining a professional license should specifically relate to the qualifications of an applicant to effectively practice his or her profession; and

WHEREAS, procedures for evaluating applicants and disciplinary proceedings of practitioners, including the procedure for handling complaints by the public, should be fair and expeditious to the applicant, the practitioner, and the general public; and

WHEREAS, the purpose of regulation is to protect the public and not the economic interest of the occupational group, thus and to carry out this purpose, the public should be involved in the regulatory process; and

WHEREAS, professional licensing procedures should include assurances of the continued competency of each practitioner to the public he or she serves.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Nebraska Legislature approve professional licensure for an occupational group not previously licensed only when potential harm to the general public is easily recognizable or can be demonstrated.

2. That the Legislature, when determining whether a need for regulation exists in an occupation and when determining whether to grant professional licensure is the most appropriate mode of regulation, address the following issues:

(a) To what extent has the public's health, safety, or economic well-being been harmed because the occupational group has not been regulated?

(b) Is there a high degree of independent judgment required of practicing members of the occupation and how much skill and experience are required in making these judgments?

(c) Has the occupational group established a code of ethics?

(d) Have alternatives to licensure been considered?

(e) Could the use of applicable laws and current standards or the strengthening of such laws and standards resolve the problems confronting the public or the occupational group?

(f) How will regulation of the profession assure that those licensed are competent to practice and what standards are proposed for granting licensure?

(g) Will applicants for a license be required to pass an examination?

(h) What assurance will the public have that those licensed in the profession will maintain their competence through such methods as continuing education?

(i) How will complaints of the public against those licensed in the profession be addressed?

(j) Will professional licensing restrict competition by the professional group?

(k) Will regulation increase the costs of goods and services to the consumer?

(l) Will regulation decrease the availability of professionals in the group?

(m) How will membership of the regulatory agency be composed?

(n) What will be the powers of the regulatory agency and how will their actions be subject to review?

(o) What groups are supporting the licensure of the occupation?

(p) Is the occupational group seeking to enhance its status by requiring licensure to practice?

(q) Is the public seeking greater accountability of the occupational group?

Laid over.

Messrs. Barrett and Maresh asked unanimous consent to be excused. No objections. So ordered.

**FIFTY-EIGHTH DAY**

Legislative Chamber, Lincoln, Nebraska  
Monday, April 14, 1980

Pursuant to adjournment, the Legislature met at 9:01 a.m., Speaker Marvel presiding.

**PRAYER**

The prayer was offered by the Chaplain.

O God, we trusted in You when we committed our lives to this public trust; may we trust in You now and always, for this good land that we may maintain and preserve and enrich its potential; for the trusting people who elect us and whose causes we strive to serve; for the ties of service and memory and tradition that link us to one another across our differences; for the signs and gestures of love of friends that work their magic in our hearts and keep us from becoming like the machines we operate; for the sheer excitement of being present at this point and place in history when what is vital in the old struggles to connect with what is needed in the new; we thank You. So keep us going that we may rightly use the precious days, the action filled days, the swiftly passing days that yet remain before us. Amen.

Laid over.

### **LEGISLATIVE RESOLUTION 342.**

Introduced by Simon, 31st District.

**PURPOSE:** This Resolution is proposed to create an interim study of drug abuse among Nebraska youth. The haste with which 1980's Legislative Bill 991 was processed, and the results of similar legislation in other states indicates that a full-scale study of drug abuse could result in more efficacious legislation.

The study would be conducted by the Legislature's Public Health and Welfare Committee using the resources of the Nebraska Commission on Drugs. The study will examine drug abuse laws of other states, and drug treatment and prevention programs which may be proposed by Nebraska organizations or agencies.

Before November of 1980 the Committee shall recommend appropriate legislation to address the drug abuse problem in Nebraska.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SIXTH LEGISLATURE OF NEBRASKA SECOND SESSION.**

1. That the Public Health and Welfare Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the Committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**ATTORNEY GENERAL'S OPINION**

Opinion No. 279

April 9, 1980

Dear Senator DeCamp:

You have brought LB 643 to our attention and asked for our opinion with regard to its constitutionality. More specifically, you question the constitutionality of the proviso in line 20 of page 17 which, as you describe it, results in a situation where "an applicant for a late permit is required to in essence confess to any offenses he might have committed."

The amended portion of LB 643 to which you refer is presumably subsections (3), (4) and (5) of section 46-659. For purposes of clarity, those subsections as set forth in the bill provide:

"(3) Any person who has failed, or fails within two years after a control area has been designated, to obtain a permit required by subsection (1) of this section, shall make application for a late permit on forms provided by the director.

"(4) The application for a late permit shall be accompanied by a twenty-five dollar fee payable to the director and a two hundred fifty dollar fee payable to the district and shall contain the same information required in subsection (2) of this section.

The information required by section 46-659(2) [referred to in (4)] includes the applicant or applicants' name(s) and post office address(es), the nature of the proposed use, location, size, type, estimated depth (if known), capacity, the acreage and location by legal

description of the land involved (if said water is to be used for irrigation) and "such other information as the director may require."

On its face, we are unable to discern any "incriminating aspects" to the information required by section 46-659. Perhaps your concern arises over the penalties prescribed by section 46-607. That section provides for the imposition of penalties in the following language:

"Any person violating any of the provisions of sections 46-601 to 46-606, or knowingly furnishing false information hereunder, shall be guilty of a Class IV misdemeanor. Each day shall constitute a separate offense in cases of continued violation."

At the outset, it must be noted that the penalties provided in section 46-607 pertain only to the violation of sections 46-601 to 46-606 or, to those who knowingly furnish false information. The penal consequences of the latter requirement would flow not from providing the information required by section 46-659, but rather, from the falsification of such information. In that respect, the dishonest proclivities of the applicant — not the requirements of section 46-659 — would produce an incriminating result. A situation somewhat similar to that you apparently contemplate and question, was presented to our Supreme Court in State v. Soester, 199 Neb. 477, 259 N.W.2d 921 (1977). In that case the defendant refused to list personal property owned by him and subject to taxation on his personal property tax return form. Upon his prosecution for failure to file a personal property tax return in violation of section 77-1232, R.R.S. 1943, he contended that the constitutional privilege against compulsory self-incrimination excused his refusal to list the personal property which he owned on his tax return. Our high court observed that, ". . . it is not clear to us on what basis the defendant claimed the privilege. There must be some reasonable showing by the taxpayer as to how the disclosure could possibly incriminate him." Soester, supra, at 479.

With regard to the required information about which you inquire, like our Supreme Court in Soester, ". . . it is not clear to us on what basis" the privilege could be claimed. While there may be such a case, even conjecture does not carry us to it at this time. Accordingly, we are of the opinion that section 46-659 falls comfortably within constitutional confines.

Sincerely yours,  
PAUL L. DOUGLAS  
Attorney General

**MESSAGE FROM THE GOVERNOR**

April 14, 1980

Mr. President, Mr. Speaker  
and Members of the Legislature  
State Capitol Building  
Lincoln, Nebraska

Dear Mr. President and Senators,

I am returning herewith LB 998, LB 999, and LB 1001 with my specific line-item reductions and with my signature.

LB 995, LB 996, and LB 997 have already been returned to you with my specific objections. I object to LB 998 and LB 999 because the 11 percent plus increase in salaries and wages you have proposed is not appropriate at a time when taxpayers are demanding economy and restraint in government spending. The 8 percent increase I am recommending will result in a reduction of approximately \$12 million from all funds — including more than \$5 million in general fund monies — from the State's personal services base. Further, these reductions and others I will make will bring the State fiscal year 1980/1981 general fund budget into line with the seven percent increase I recommended to you January 10, 1980.

I have reduced the appropriations in LB 998 by a total of over \$3.0 million from the general fund and \$1.0 million from cash funds. In addition to my reductions of \$2.2 million from your proposed salary plan, I have made other reductions of \$1.8 million to agency operating expenses. Major reductions to agency operating budgets include: Department of Health - \$51,997; Department of Motor Vehicles - \$428,400; Department of Public Institutions - \$295,160; ETV Commission - \$604,855; Department of Corrections - \$71,861; Library Commission - \$75,145; and State Historical Society - \$91,338.

I have line-item reduced total general fund appropriations in LB 999 by \$3.8 million.

The University of Nebraska - system-wide - has been reduced by \$3.0 million to a total general fund appropriation of \$126,740,918. In conjunction with the funding contained in LB 1001 and LB 1002, this represents a 9.96 percent increase or \$11.8 million over the current year's appropriation for operations, aid, and new capital construction.

These reductions are consistent with my original recommendations of January 10 and with my 8 percent salary and wage recommendations. You have rejected my proposal of a single, system-wide appropriation for the University of Nebraska. Nevertheless, I have attempted to provide the Board of Regents with maximum management flexibility by eliminating earmarked appropriations where possible. The two exceptions I have made are the specific appropriations for the William Brennan Institute of Labor Studies and the Veterinarian School study.

The Regents retain freedom to implement internal reallocations and other management decisions as they deem appropriate. Even though campus state general fund figures appear in the appropriations bills, the Regents may exercise their right to shift other revenue sources among the campuses and programs. However, it is assumed that net revenue generated from the use of the Omaha Downtown Center at UNO will be used to offset the \$304,174 in State General Funds provided in my recommendations for lease payments.

Your proposed appropriation to the State Colleges and the Board of Trustees has been reduced by \$718,559 to \$20.2 million. This results in an overall 9.6 percent increase over the current year's appropriation including the deficiency appropriation provided for in LB 995. Again, I have applied my 8 percent recommended salary plan. Further, I have line-item vetoed some proposed earmarks in the discretionary fund. This will allow the Board of Trustees additional needed management flexibility. It is my intent that the Board of Trustees and the Board of Regents continue the process of developing a cooperative Masters Degree Program at Kearney State College. Such planning, however, should and can be accomplished with existing staff and funds.

Your Appropriations Committee and I are in full agreement on the policy of deferring capital construction as a low priority item under a restrained budget. However, you have rejected my proposed lump-sum capital construction appropriation to the University of Nebraska which provided flexibility for use for operating costs at the Regent's discretion. In its place, you have substituted specific projects under the same general dollar limits. Nevertheless, I have specific objections to several of these projects in LB 1001 and have exercised my line-item veto authority accordingly.

My line-item veto reductions for the University of Nebraska allow the most critical projects to proceed, such as the renovation of the Agricultural Engineering Building at a modestly reduced cost. Planning for the Bessey Hall renovation project at UNL is approved at a reduced level to allow further evaluation of the scope of the project and the total cost. Further, I have allowed initial planning to proceed for a Laboratory Science Building at UNO. The purchase of the Hattie B. Munroe Pavilion is a project which is not a priority item. I recommend the University explore acquisition of this facility through non-state funding sources. Land acquisition at UNO is not a high priority at this time in my opinion, and I recommend deferral.

For the Department of Public Welfare, I concur with your proposal for the addition of one group home for status offenders. I have, however, objected to the remodeling expense for the proposed Lincoln board and room facility.

The actions I have taken will have the effect of providing sufficient funds for the agencies involved to carry out their missions during the next fiscal year. Through good management and marshaling of available resources, these units of government can continue to provide outstanding services to all Nebraskans and others who utilize them.

Respectfully,  
(Signed) CHARLES THONE  
Governor

### **RESOLUTION**

**LEGISLATIVE RESOLUTION 343.**

Introduced by DeCamp, 40th District.

WHEREAS, the Soviet Union has exploited United States peace initiatives to build-up its strategic and conventional warfare capabilities;

WHEREAS, this has given the Soviet Union the means to support increasingly bolder worldwide aggression;

WHEREAS, there is basis for concern that the Soviets may next use these forces in Pakistan, Iran, and Yugoslavia;

WHEREAS, the Soviet Union has demonstrated an unwillingness to live by international law; and

WHEREAS, the United States is the one world power that can stop Soviet expansionism.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the United States adopt a National Strategy of Peace Through Strength, the general principles of which would be:

A. To inspire, focus, and unite the national will and determination to achieve this goal of peace and freedom;

B. To achieve overall military and technological superiority over the Soviet Union;

C. To create a strategic defense and a civil defense which would protect United States citizens against nuclear war at least as well as the Soviets defend their citizens;

D. To accept no arms control agreement which in any way jeopardizes the security of the United States or its allies, or locks the United States into a position of military inferiority;

E. To reestablish effective security and intelligence capabilities;

F. To pursue positive nonmilitary means to roll back the growth of Communism;

G. To help our allies and other noncommunist countries defend themselves against Communist aggressions; and

H. To maintain a strong economy and protect our overseas sources of energy and other vital raw materials.

2. That the Legislature acknowledges it will take the combined efforts of hundreds of organizations to achieve the adoption of a National Strategy of Peace Through Strength.

3. That the Legislature will join the Coalition for Peace Through Strength to work with other organizations and entities for the adoption of a National Strategy of Peace Through Strength, except that this Legislature reserves to itself the right to make its own decisions as to how the principles shall be applied on individual issues.

4. That the Clerk of the Legislature transmit a copy of this resolution to each member of the Nebraska Congressional delegation.

6 and commissions. Such procedure shall consider the need  
7 to (1) continue the services and financial assistance  
8 provided by state agencies and programs, and (2) restrict  
9 the growth in state appropriations.

10       Sec. 2. The Legislature's Appropriations  
11 Committee, by majority vote of its members, shall  
12 annually prepare a report summarizing the recommended  
13 total General Fund appropriation for each year of the  
14 following biennium. Such report shall include

1 days after the Governor presents his or her budget.

2       Sec. 4. Whenever the Appropriations Committee  
3 of the Legislature recommends a total General Fund  
4 appropriation for any year of the biennium which is seven  
5 per cent more than the General Fund appropriation for the  
6 previous fiscal year, the report required in this Rule

12 General Fund appropriation for each year of the following  
13 biennium. Any resolution or amendment to the resolution

23 section 5 of this Rule shall be allocated for the funding

6 in an "A" bill shall be for not less than two fiscal  
7 years.

8       Sec. 7. In order to provide a standard for  
9 reviewing competing appropriation requests within the  
10 same appropriation policy area and to provide a system  
11 for prioritizing appropriations, the priority for  
12 appropriations shall be: (1) Priority 1 - state  
13 appropriations to continue the services and financial  
14 assistance currently provided by state agencies, boards,  
15 and commissions; (2) Priority 2 - state appropriations  
16 for an increase to current appropriations due to (a) an  
17 increase in population or individuals served, (b) the  
18 cost of adding a new service, or (c) an increase in the  
19 quality of services currently provided; (3) Priority 3 -

1 state to assume financial responsibility for services or  
2 programs currently being provided by political  
3 subdivisions. Such appropriation priorities shall be  
4 used by the Appropriations Committee of the Legislature  
5 during the development of appropriation bills which

**RESOLUTION**

**LEGISLATIVE RESOLUTION 344.**

Introduced by Kremer, 34th District.

WHEREAS, the Nebraska Legislature in its Seventy-Third Session in 1963 passed Legislative Resolution 47 expressing concern over the aggressive policies of the State of Iowa in asserting ownership of lands lying east of the stabilized channel of the Missouri River, many of which lands were owned by residents of the State of Nebraska; and

WHEREAS, certain of these aggressive actions by the State of Iowa were in conflict with the solemn agreement between the State of Nebraska and the State of Iowa, the Iowa-Nebraska Boundary Compact effective July 12, 1943; and individual owners of Nebraska land ceded to Iowa's jurisdiction by said Compact were not in position to match the financial and legal resources of the State of Iowa in defending their ownership; and

WHEREAS, the Attorney General of the State of Nebraska was directed to examine such actions initiated or contemplated by the State of Iowa in its own courts, and where said Compact had been violated, to intervene on behalf of the State of Nebraska or to initiate any and all necessary original actions in the Supreme Court of the United States; and

WHEREAS, upon finding Compact violations by the State of Iowa, the Attorney General of the State of Nebraska did file an original action in 1964 in the Supreme Court of the United States asking the Court to enforce and construe the 1943 Compact, said action being entitled "State of Nebraska v State of Iowa, No. 17 Original"; and

WHEREAS, the Special Master in said action specifically found that the State of Iowa had violated the 1943 Compact, and the Court found that the State of Iowa did not own two areas of ceded Nebraska land involved in said action to prove Iowa's violations of said Compact; and

WHEREAS, an injunction sought by the State of Nebraska against the State of Iowa to prevent further Compact violations was denied by the United States Supreme Court, unless it could be shown that the State of Iowa will not abide by the determination of issues as stated in the Supreme Court's opinion of April 24, 1972, as reported in 406 U.S. 117; and

WHEREAS, the State of Iowa is not abiding by the Court's determination as stated in its opinion, and is continuing to violate the 1943 Compact by continuing its aggressive policies of claiming lands ceded by the State of Nebraska by said Compact, by instituting quiet title actions in certain instances against owners of said ceded land; and the State of Iowa is conducting little or no investigation or inquiry to determine whether titles to said ceded land were "good in Nebraska" on the Compact date of July 12, 1943;

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the State of Nebraska is deeply concerned on behalf of its citizens with the aggressive policies pursued by officers of the State of Iowa in the acquisition by that State of certain lands along the Missouri River.

2. That within the limits of appropriations specifically made for that purpose, the Attorney General of the State of Nebraska be directed to employ special counsel or assistant Attorneys General to examine into all such actions initiated or contemplated by the State of Iowa, and where such action appears to be justified to protect the legitimate interests of Nebraska citizens or the titles to Nebraska lands, or to assure compliance by Iowa officials with the 1943 Boundary Compact with the State of Iowa, that he intervene on behalf of the State of Nebraska in any such actions or proceedings initiated by officials of the State of Iowa, or that he initiate any and all necessary original actions in the Supreme Court of the United States to accomplish the objectives outlined herein.

Laid over.

WHEREAS, the Governor of the State of Nebraska, in his Legislative Bill 996 and 997 line-item veto message, noted the impact of soaring interest rates and the embargo on Soviet grain trade on Nebraska's agricultural economy; and

WHEREAS, the State Tax Commissioner on April 3, 1980, notified the Chairman of the Appropriations Committee that "The revenue estimates for fiscal year 1980-81 and any revised estimates for fiscal year 1979-80 will not be prepared until the State Board of Equalization and Assessment meets after the Legislature adjourns."; and

WHEREAS, the members of the Nebraska Legislature have a need for the most current information on revenue estimates for fiscal years 1979-80 and 1980-81 prior to final consideration on April 18, 1980 of the 1979-80 and 1980-81 state appropriations; and

WHEREAS, the Nebraska Department of Revenue estimates for revenue currently are used by the Legislature in computing total funds available for appropriation based on existing sales and income tax rates.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

That the Nebraska Tax Commissioner provide, to the Clerk of the Nebraska Legislature on or before 5:00 p.m. Thursday, April 17, 1980, revised fiscal year 1979-80 and 1980-81 General Fund receipt figures comprised of the sales and use, individual income, corporate income, and miscellaneous tax categories. If the estimates already provided to the Legislature are unchanged, then so state. Such estimates shall be based on (1) the most current economic data available and (2) the most recent estimate of 1979 tax refunds. Such revised estimates are expected to be consistent with the revised estimates to be provided to the State Board of Equalization and Assessment at their meeting to be held within fifteen days after the adjournment of the Legislature.

Pursuant to adjournment, the Legislature met at 8:31 a.m., President Luedtke presiding.

**PRAYER**

The prayer was offered by the Chaplain.

Dear Lord, an honest prayer some of us might make this morning is simply, "Thank God it's over." These many weeks have been such a drain on so many of us, taking us away from responsibilities and loved ones elsewhere, and demanding so much of us.

Lord, we are also grateful for these past months and for all the good that has been accomplished. May our decisions be for the benefit of the people of this State. Continue during the interim to give vision, courage, and integrity to each of the Senators. Bless them, their families and loved ones, till we meet again. Be with our Governor and Lieutenant Governor, the various officers and servants of this Legislature.

May the people of this State, who often hear only the unusual things which occur in this room, appreciate the ability and dedication of this Legislature. Implant again upon our minds the truth that greatness is found in serving, and success in helpfulness. May this Legislature continue to love You, their God, and serve all the people. Amen.

### MESSAGES FROM THE GOVERNOR

April 16, 1980

Mr. President, Mr. Speaker  
and Members of the Legislature  
State Capitol Building  
Lincoln, Nebraska 68509

Dear Mr. President and Senators:

I hereby return LB 627 without my signature and with my objections.

LB 627 represents bad government at its worst. While I am confident that it was not the intent of the Legislature, the effect of LB 627 is that virtually no Local Option Tax Control Act lids can be adopted for the upcoming fiscal year.

For instance, on May 13, 1980, the voters in the Allen, Nebraska, and Falls City, Nebraska School Districts will be voting on local option lids. If LB 627 becomes law and the voters approve these lids on May 13, the lids will not go into effect because Section 7 of LB 627 provides that any limitation placed on a budget pursuant to the Local Option Tax Control Act prior to the effective date of LB 627 (which will be mid-July) will not apply to any budget for next fiscal year.

This is intolerable. This is an insult to the people of these districts, and to the people of this State. I am opposed to this as strongly as it is possible to be opposed.

Equally as important, LB 627 removes the local option lids from the Omaha and Nebraska City School Districts after only one year and without a vote of the people. The Legislature earlier this year rejected an amendment offered by Senator Lamb at my request which would have limited these lids to two years and which would have allowed the local school boards to call an election this spring to raise the lids immediately if that were the will of a majority of the citizens voting in such an election.

I will not be a party to thwarting the expressed will of the local people as proposed by LB 627 in its present form. As I have stated previously, when the people speak, public officials should hear no other voice.

### COMMUNICATION

#### DEPARTMENT OF REVENUE

April 17, 1980

Mr. Patrick J. O'Donnell  
Clerk of the Legislature  
Room 2018, State Capitol  
Lincoln, NE 68509

Dear Mr. O'Donnell:

Pursuant to Legislative Resolution 345 adopted by the Legislature on April 15, 1980, the following information is provided for your use.

The estimated General Fund receipt figures for fiscal year 1979-80 have been revised since the November 15, 1979, meeting of the State Board of Equalization and Assessment. The individual income tax rate was lowered to 17 percent at that meeting. Our estimates were later revised to a total of \$704.9 million for the fiscal year.

The refund estimates for fiscal year 1979-80 are the same as reported in our April 3, 1980, letter to Senator Warner. However, we now feel that the individual income tax refund figures may be approximately \$12 million high. Using this information, our estimate of refunds including individual income, food sales tax credit and excluding the December 1979 withholding suspension will be approximately \$55 million. The November 1979 State Board of Equalization projected that the June 30, 1980 ending General Fund balance would be \$38.8 million. There has been appropriated and the Governor has approved approximately \$10 million in deficiency appropriations since that date. This reduces the projected June 30, 1980 ending balance to \$28.8 million. The addition of \$12 million (above) restores the ending General Fund balance to its earlier projected level if projected revenue collections are sustained for the balance of the fiscal year.

The estimates for fiscal year 1980-81 have been projected at \$759.7 million. The net general fund receipts were projected to range from \$619.9 million to \$632.1 million, depending on the outcome to the individual income tax refunds for tax year 1979. These figures have

been revised to reflect the \$28 food sales tax credit effective for tax year 1980.

We cannot guarantee that the above estimates will be consistent with the estimates to be provided to the State Board of Equalization and Assessment at their meeting after the Legislature adjourns. One factor to be considered is a regular monthly report from Chase Econometrics, Inc., which will not be received until next week. In addition, the current year refund figures may be affected by the individual income tax returns which are currently being received. The preliminary tabulation of any actual refund figures cannot be done for at least two weeks. Approximately 20 percent of all income tax returns filed this year have come in during the last three days and cannot be processed for several days.

If you have any questions, please contact me.

Sincerely,  
 (Signed) Fred A. Herrington  
 State Tax Commissioner

### ATTORNEY GENERAL'S OPINIONS

Opinion No. 280  
 April 17, 1980

Dear Senator Marsh:

You have asked this office whether an amendment to LB 968 which excludes "those organizations, corporations, and societies authorized to conduct horse racing" from the operation of Nebraska's Uniform Disposition of Unclaimed Property Act, is constitutional. You apparently inquire as to whether LB 968 in an amended form grants to that class of entities an impermissible special privilege or immunity.

Article III, section 18, of the Nebraska Constitution states in pertinent part:

"The Legislature shall not pass local or special laws in any of the following cases, that is to say:

". . . .  
 "Granting to any corporation, association, or individual any special or exclusive privileges, immunity, or franchise whatever;  
 . . . ."

By statute, organizations conducting horse races in Nebraska must be either the State Board of Agriculture, a county society for the improvement of agriculture, or a corporation or association organized and carried on for civic purposes. It is our view that each of these entities is an "organization," or a "corporation," or a "society," as

contemplated by the amended LB 968. Thus, the central question is whether their classification and exclusion from the operation of the Unclaimed Property Act is tantamount to a special immunity violative of Article III, section 18, of the state Constitution.

That constitutional provision reflects the longstanding principle of American constitutional law that our Legislatures should enact laws of general application to the citizenry they serve, and that where a general law can be made applicable, no special law shall be enacted. At the same time, however, it is equally as well settled that Legislatures can make reasonable classifications in certain legislative provisions. In fact, we note that public corporations are already excluded from the operation of the Unclaimed Property Act.

The Nebraska Supreme Court stated in Stahmer v. State, 192 Neb. 63, 218 N.W.2d 893 (1974):

“ ‘The Legislature may make a reasonable classification of persons, corporations, and property for purposes of legislation concerning them, but the classification must rest upon real differences in situations and circumstances surrounding the members of the class, relative to the subject of the legislation, which render appropriate its enactment; and to be valid the law must operate uniformly and alike upon every member of the class so designated.’ Rehkopf v. Board of Equalization, 180 Neb. 90, 141 N.W. 2d 462.” (192 Neb. at 69.)

Thus, the Legislature may classify the subjects, persons, or objects as to which it legislates if such classification rests upon differences in situations or circumstances between things dealt with in one class and those dealt with in another, and if those differences have some relevance to the subject of the legislation.

Viewed in this light, the exclusion of those organizations conducting horse races in Nebraska from the operation of the Unclaimed Property Act pursuant to LB 968 as amended, is constitutionally suspect. The purpose of the Unclaimed Property Act was to create one centralized authority in the State of Nebraska to gather all lost or abandoned property in the state and undertake a more vigorous effort in locating the rightful owners of said property. As a class, organizations conducting horse racing in Nebraska do have some unique, quasi-public characteristics — that is, they must be created for the purpose of improving agriculture or for civic purposes. However, while these characteristics would distinguish such organizations as holders of lost or abandoned property from the majority of other businesses, corporations, associations and individuals who also hold lost or abandoned property, and to whom the Unclaimed Property Act is clearly applicable, we are not convinced that the distinction has any genuine relevance to the purpose of the Unclaimed Property Act.

We would note that:

“The power of classification rests with the Legislature and it will not be interfered with by the courts if real and substantial differences exist which afford a rational basis for classification.’ . . .” State ex rel Douglas v. Gradwohl, 194 Neb. 745, 749, 235 N.W.2d 854 (1975).

Obviously, a classification intended by the Legislature carries with it what is akin to an initial presumption of validity, not lightly overcome. Thus, on the basis of information contained in your letter of inquiry and our reading of LB 968 as amended, we can say only that the bill is constitutionally suspect.

Yours very truly,  
PAUL L. DOUGLAS  
Attorney General

Opinion No. 281  
April 17, 1980

Dear Senator DeCamp:

You write, calling our attention to Article XVI, Section 1, of the Constitution of Nebraska. You then state that you propose to introduce tomorrow, a motion to suspend the rules regarding the introduction, consideration and passage of resolutions to amend the State Constitution. You address three questions to this office concerning this procedure.

We are enclosing a copy of Opinion No. 210, dated August 8, 1966, Report of the Attorney General, page 339, which we believe is a complete answer to the three questions posed in your letter. You will note that the conclusion of that opinion is as follows:

“In summary, it is our conclusion that it would be constitutionally possible for the Legislature to meet, propose a constitutional amendment, and adjourn all in the same day.”

Since your question is primarily concerned with adopting and referring a proposed constitutional amendment in one day, we believe that this is a complete answer to your questions.

Yours very truly,  
PAUL L. DOUGLAS  
Attorney General

Re: LB 1004

Dear Senator DeCamp:

In your letter of April 14, you request an opinion in regards to LB 1004, as amended by Senator Dworak's motion on April 14, 1980 (hereinafter referred to as Dworak Amendment unless otherwise stated). The time limitations imposed by the impending adjournment of the Unicameral makes it very difficult to adequately research and respond to your request, but we will attempt to address your general request to identify any constitutional problems raised by the Dworak Amendment.

LB 1004 provides in Section 1, that:

"It is the intent of the Legislature that in expending the appropriations provided by the Eighty-sixth Legislature, Second Session, 1980, for the period July 1, 1980, to June 30, 1981, specific objectives shall be accomplished. The expectations and desired accomplishments are reflected by agency and by program in sections 2 to 22 of this act."

The Dworak Amendment provides:

"It is the intent of the Legislature that no funds appropriated to the Department of Personnel for purposes of purchasing a contract of group health insurance or health maintenance agreement pursuant to section 44-1623, Revised Statutes Supplement, 1978, shall be used to provide coverage for abortion, as defined in section 28-326, Revised Statutes Supplement, 1979, in the basic or major medical coverage, except that the insurer may offer individual employees special coverage for abortion and the costs of such coverage shall be borne solely by the employee. This limitation shall not apply to coverage for an abortion which is verified in writing by the attending physician as necessary to prevent the death of the woman or to coverage for medical complications arising from an abortion."

Section 44-1623, R.R.S. 1943, provides:

“Out of appropriations made for that purpose, the Director of Personnel shall (1) first enter into a contract providing, entirely at state expense, five thousand dollars of basic life insurance protection, and (2) apply the balance to the purchase of a contract of group health insurance to be financed by the state to the extent that appropriations made for that purpose are available and, if necessary, by contributions from each employee. Each such contract shall provide insurance coverage for each employee specified in section 44-1620. Participation in the program of group health insurance shall be optional with the employee.”

LB 1004, Section 20, would now clearly appear to amend by implication section 44-1623, R.R.S. 1943. See, Ferry v. Ferry, 201 Neb. 595, 271 N.W.2d 450, which holds that where a legislative act is complete in itself, but is repugnant to or in conflict with an earlier statute, it repeals or modifies by implication the latter act, but only to the extent of repugnancy or conflict. If the Dworak Amendment is enacted into law, the Director of Personnel will be barred after July 1, 1980, from expending any funds for a contract of group insurance entered into by him pursuant to the provisions of section 44-1623, R.R.S. 1943, if said plan of group health insurance includes “abortion coverage”.

Absent its own initiative, there is most certainly no legal requirement that the State of Nebraska provide health care insurance for its employees. However, having elected to do so, 44-1621 to 44-1632, R.R.S. 1943, may it except out abortion coverage? Such action we believe might be challenged on two constitutional grounds: (1) denial of equal protection; and (2) denial of substantive due process via infringement of one's right of privacy (Roe v. Wade, 410 U.S. 113, 85 L.Ed.2d 147, 93 S.Ct. 705).

1. We believe that a challenge based upon a violation of the equal protection clause of the Fourteenth Amendment of the United States Constitution, would be without merit in light of the Supreme Court's holding in Maier v. Roe, 432 U.S. 464 at 480, where it stated:

“ . . . other medical procedures . . . do not involve the termination of a potential human life. . . .”

Nebraska Chief U.S. District Court Judge, Warren K. Urbom, in reviewing previous abortion legislation enacted by the Unicameral, addressed an equal protection challenge with these words:

“The applicable standard of review regarding classifications made between abortion and nonabortion surgery is whether the classifications in question are rationally related to a legitimate state interest.” Orr v. Thone, et al., U.S. District Court,

Nebraska, Case No. CV78-L-289, Slip Opinion issued November 9, 1979, at page 17. (Emphasis added.)

In that same opinion Judge Urbom then recognized the legitimacy of a state interest in the unborn child.

“Although the state’s interest in the potential life of the fetus is not compelling prior to viability, it is legitimate.” *Id.* Slip Opinion at page 17.

Furthermore, Judge Urbom accepted as valid the proposition that abortion control statutes enacted by the Unicameral (Section 28-325, et seq., R.S.Supp., 1979) were not the result of a particular religious viewpoint. He stated:

“The evidence before the court does not establish that religious considerations—theistic or nontheistic—were a significant motivating force in the passage of the legislation.” *Id.* Slip Opinion at page 11.

In light of previous abortion legislation and the clear intent expressed by the Legislature, section 28-325, R.S.Supp., 1978, we assume that the Dworak Amendment is based in part on an interest in unborn human life and we do not perceive that fact as raising a constitutional defect in light of Judge Urbom’s opinion in Orr v. Thone, supra.

Nor do we believe the Dworak Amendment, which excludes abortion coverage and therefore attaches only to coverage applicable to pregnant women, to amount to invidious discrimination under the equal protection clause of the Fourteenth Amendment in light of the Supreme Court’s decision in Geduldig v. Aiello, 417 U.S. 484, wherein the Court held that a California disability insurance program that excluded pregnancy coverage did not amount to invidious discrimination. See also, General Electric Co. v. Gilbert, 429 U.S. 125.

## 2. Denial of Substantive Due Process

Again turning to Judge Urbom’s decision in Orr v. Thone, we cite the following language as a starting point in examining the test of substantive due process:

“. . . The right of a woman to choose without unduly burdensome interference whether to terminate her pregnancy is fundamental;

“. . . The permissible degree of interference in that decision by the state depends upon the severity of the technique used by the state and the nature of the state’s interest, which interest grows with the duration of the pregnancy;

“. . . A state may not impose any direct obstacles—such as criminal penalties—to further its interest in the potential life of a fetus before viability; and

“. . . A state has no compelling interest in the potential life of the fetus prior to the fetus' viability." Orr v. Thone, supra, Slip Opinion at page 17.

The question which most likely will be presented in any constitutional challenge is: "Does the Dworak Amendment impose any 'direct obstacle' to the woman's right to choose to terminate her pregnancy?" The only consistent means of answering this question is to identify, examine and compare those statutes and regulations which the U.S. Supreme Court has found to be or not to be "direct obstacles" to the abortion decision-making process.

In Planned Parenthood of Missouri v. Danforth, 428 U.S. 52, the Supreme Court held that the State of Missouri, by requiring parental consent for minors seeking abortions, had placed a direct obstacle in the minors' path to obtaining an abortion. They reaffirmed this holding in Bellotti v. Baird, 47 U.S.L.W. 4969 (1979), while enjoining a Massachusetts statute that required parental notification for minors seeking abortions. Also, in Planned Parenthood of Missouri v. Danforth, supra, and Planned Parenthood Association v. Fitzpatrick, 401 F.Supp. 554 (U.S.D.C.E.D. Pa. 1975), affirmed sub nom Franklin v. Fitzpatrick, 428 U.S. 901 (1976), the Supreme Court gave approval (without opinion in Fitzpatrick), to the requirement of informed consent. In a trilogy of cases handed down on June 20, 1977, the court held that abortion funding restrictions enacted by the States of Connecticut, Maier v. Roe, supra, and Pennsylvania, Beal v. Doe, 432 U.S. 438, and the City of St. Louis, Poelker v. Doe, 432 U.S. 519, did not present "direct obstacles" to the abortion decision-making process. In Maier the court held:

"The Connecticut regulation before us is different in kind from the laws invalidated in our previous abortion decisions. The Connecticut regulation places no obstacles—absolute or otherwise—in the pregnant woman's path to an abortion. An indigent woman who desires an abortion suffers no disadvantage as a consequence of Connecticut's decision to fund childbirth; she continues as before to be dependent on private sources for the service she desires. The State may have made childbirth a more attractive alternative, thereby influencing the woman's decision, but it has imposed no restriction on access to abortions that was not already there. The indigency that may make it difficult—and in some cases, perhaps, impossible—for some women to have abortions is neither created nor in any way affected by the Connecticut regulation. We conclude that the Connecticut regulation does not impinge upon the fundamental right recognized in Roe." Maier v. Roe, supra, 432 U.S. at 474.

The court did, however, continually qualify its holding to denial of public funds for "nontherapeutic abortions;" a term yet to be defined by the court, but which is at issue now in a case before the court. McRae v. HEW, Supreme Court Docket 79-1268. We note though that the Dworak Amendment is substantially similar to the action of the City of St. Louis challenged in Poelker v. Doe, where St. Louis City Hospital facilities could not be used for abortion services unless "there was a threat of grave physiological injury or death to the mother." Poelker v. Doe, 432 U.S. at 520. Suffice it to say that we will know more when the Supreme Court issues its decision in McRae v. HEW, *supra*, wherein Congress' prohibition against use of federal funds for abortions is at issue.

Re-examining the guidelines set forth by Judge Urbom and the cases of the U.S. Supreme Court examined above, we find some difficulty in saying with any great degree of certainty that the Dworak Amendment will or will not be found to create a direct obstacle to the abortion decision-making process. The courts are still struggling with this newly developing area of law and this fact requires great hesitancy in trying to diagnose the constitutionality of any state abortion regulation. We note though that on the positive side of constitutionality for the Dworak Amendment we most certainly would look to the holdings in Maher v. Roe, *supra*, Beal v. Doe, *supra*, and Poelker v. Doe, *supra*. Also of importance to our examination of this issue is the existence of a federal statute which is nearly identical to the Dworak Amendment and which is applicable to the state's. That statute provides, in part:

" . . . This subsection [Pregnancy Discrimination Act, Public Law 95-555, Ninety-fifth Congress, 1978] shall not require an employer to pay for health insurance benefits for abortion, except where the life of the mother would be endangered if the fetus were carried to term, or except where medical complications have arisen from an abortion: **Provided**, that nothing herein shall preclude an employer from providing abortion benefits or otherwise affect bargaining agreements in regard to abortion." 42 U.S. C. 2000e

The State of Nebraska is an "employer" for purposes of Title VII of the Civil Rights Act and thus, would not violate federal statutory law in limiting abortion coverage in its basic health insurance program. In forming our opinion to your question, it is of no small importance that the federal statute cited above has not been judicially challenged or enjoined to our knowledge and this fact is stated after careful inquiry and research by our office.

It is thus our opinion that while the questioned amendment by Senator Dworak might be challenged on several constitutional grounds, it would most probably be found to be constitutional.

Opinion No. 283  
April 17, 1980

Dear Senator DeCamp:

You have called our attention to LB 283, which provides that in any city of the metropolitan class having a pension or retirement system for policemen and firemen the benefits, as a minimum, shall provide that any such policeman or fireman with 25 years of service may retire at age 50, and that the minimum pension for such a retiree shall be 50 percent of total compensation at the time of retirement.

The bill also provides that the additional contributions necessary to provide current funding for the increased benefits provided by the bill shall be borne by the employees.

Omaha, the only city of the metropolitan class, operates under a home rule charter. While we have not seen that charter, and, because your need for an immediate response has prevented our getting a copy of it, you inform us that the charter provides that retirement plans shall be contributed to in approximately equal proportions by the city and the employee. Your question is whether this conflict invalidates LB 283, presumably as being in conflict with Article XI, Sections 4 and 5, which provide that home rule charters may be amended or repealed only by electoral vote.

We believe there is no constitutional problem in the area you inquire about. In Axberg v. City of Lincoln, 141 Neb. 55, 2 N.W.2d 613 (1942), the court held that home rule cities were independent of state legislation only in matters of strictly local municipal concern, and that where the statute dealt with a matter of state concern, the statute took precedence over the charter. The court then said:

“We conclude that pensions for superannuated and disabled firemen are matters of state-wide concern and that a statute providing for their payment applies to cities governed by home rule charters the same as other cities in the designated class. . . .”

In Simpson v. City of Grand Island, 166 Neb. 393, 89 N.W.2d 117 (1958), the court held that a civil service act dealing with employees in

paid fire and police departments dealt with a matter of state-wide concern, and was therefore superior to provisions of a home rule charter in conflict therewith.

We therefore conclude that LB 283 is not invalid in the respect you inquire about. We have limited our response to the question you have asked, and have not explored any other constitutional questions.

Very truly yours,

Opinion 284  
April 18, 1980

Dear Senator Schmit:

You have asked our opinion as to the constitutional validity of LB 283. Your question, specifically, is whether the bill is so vague and uncertain as to be invalid. We conclude that the bill is certainly subject to that charge, and that a court might well hold it unenforceable for that reason.

The bill provides that in any city of the metropolitan class, the pension or retirement system for policemen and firemen shall provide, as a minimum, that a policeman or fireman with 25 years of service may retire at age 50. Section 3 provides that the minimum pension for a person so retiring shall be 50 percent of total compensation at the time of retirement.

Section 4 provides that contributions necessary to provide funding for increased benefits provided by sections 2 and 3 shall be borne by the employees in the pension system, and section 6 provides that contributions to fund the increased benefits, both prior service and future service, shall be established by periodic actuarial valuations and borne by the employees.

The first question that arises is, what is meant by "total compensation at the time of retirement?" Is it to be compensation paid for the last month of employment, the last year, or what? You inform us that the present Omaha system determines total compensation by the highest twelve month period during the last five years of employment. Section 3 does not, however, appear to continue that basis, since it speaks of compensation "at the time of retirement." We are uncertain as to what periods should be used.

Further, the act does not specify what shall be included as compensation. While we are not familiar with Omaha employment practices, most public employees have specified vacation and sick leave allowances, and provision is made for payment of unused vacation and sick leave at the time of retirement. The last month may also include overtime, and, if it is to his advantage, an employee might be able to put in considerable overtime just before retirement. If total compensation includes overtime and payment for accumulated vacation and sick leave, and if the period involved is the last month, it might amount to several times the employee's regular salary, so that 50 percent of it would be far in excess of what the employee received while he was working. The court might well hold that the failure to answer these questions was fatal to the bill.

The provisions about contributions by the employees also need clarification. We assume that the increased benefits to be paid create a deficit in the retirement fund for persons who have served prior to the effective date of the act, and who will hereafter retire without sufficient contributions having been made to fund the benefits to be paid to them. Over what period of time is that deficit to be made up by contributions by the employees? Section 6 says that the contribution shall be established by "periodic actuarial valuations," but does really answer our questions. Is the deficit to be paid the first month, the first year, the first ten years, or the first twenty years after the effective date of the act? The bill does not say.

In Safeway Stores, Inc. v. Nebraska Liquor Control Commission, 179 Neb. 817, 140 N.W.2d 668 (1968), the court quoted from State v. Nelson, 168 Neb. 394, 95 N.W.2d 678, to the effect that a legislative act which either forbids or requires the doing of an act in terms so vague that men of common intelligence must necessarily guess at its meaning and differ as to its application violates the first essential of due process of law. While the void-for-vagueness doctrine is most commonly invoked in criminal statutes, it has also been applied as to civil statutes.

We believe there is serious doubt that the bill can be successfully defended against a void-for-vagueness attack.

Very truly yours,

**ATTORNEY GENERAL'S OPINION**

Opinion No. 285  
April 17, 1980

Dear Senator Wesely:

You have asked us to review LB 991 in light of the committee amendments. As you point out in your letter, 991 comes up for final reading on Friday, April 18, the last day of this legislative session. Due to the severe time constraints involving your question, we will not engage in a section by section analysis of this bill.

As you are aware, we have previously issued Opinion No. 243, March 10, 1980, to Senator Venditte in which we stated that the bill would be difficult to defend against a constitutional attack. In that opinion we pointed out several specific areas that were of concern to us.

We have reviewed the committee amendments in light of our previously expressed opinion and note that they narrow the scope of 991 to some degree. However, we must adhere to the views expressed in our previous opinion with respect to LB 991 as it now stands in its current form with the committee amendments.

Sincerely yours,  
PAUL L. DOUGLAS  
Attorney General

Assistant Attorney General

### MESSAGES FROM THE GOVERNOR

April 18, 1980

Mr. President, Mr. Speaker,  
and Members of the Legislature  
State Capitol Building  
Lincoln, Nebraska

Dear Mr. President and Senators:

I am returning herewith LB 1002 with my line item veto reductions and with my signature.

LB 1002 contains over one half of the total proposed General Fund operating and state aid budget for fiscal year 1980-1981. My total General Fund line item veto reductions to LB 1002 are \$42,260,929. Included in this total is \$40 million of your proposed \$60 million for additional state aid to education.

My other line item veto reductions are: Department of Public Institutions - \$431,958; Department of Public Welfare - \$1,251,315; Department of Roads - \$217,525; Library Commission - \$13,980; Natural Resources Commission - \$300,000; and the Arts Council - \$46,151.

The Legislature has appropriated \$533,062 in LB 998 for the support of citizens moved from the Beatrice State Developmental Center into community-based programs during the 1978-79 fiscal year. This method is a reversal from previous practices of incorporating such monies into the current operating budgets and may create additional administrative problems. Nevertheless, I did not veto that amount. However, monies were included in the Executive Budget Recommendations to fund the same 78-79 movement as was provided by you in LB 998. Accordingly, I have now partially removed those amounts from the appropriation in LB 1002.

In addition, I object to the Legislature earmarking specific amounts for three regions to be used to upgrade salaries. The regions are entities of local government, and are under the control of local boards. These local boards should be allowed to determine their own policy regarding salary and wage increases. Therefore, I have stricken the extraordinary amounts so earmarked where they exceeded my original recommendations.

Community-Based Mental Retardation regions must provide services to individuals currently in the communities. While local governments must bear a part of the fiscal responsibility for providing these services, increased state support is indicated. Therefore, I support the amounts provided by the Legislature to ameliorate this problem. With these adjustments, the regions will receive a 12.6 percent increase in general fund support representing an additional \$1,182,459 when compared to the current year.

CBMR regions will receive an additional \$803,062 - a 53.5 percent increase over the current year - in earmarked funds for institutional movement. Combined with the increased amounts in LB 998, this will result in a total increase of \$1,985,521 or 18.3 percent in state support over the current year's level. It is expected that this increase will result in additional movement of BSDC residents into community programs as well as allow service provision to individuals residing in communities but currently not being served.

My reductions for the Department of Public Welfare total \$1,251,315 from the general fund. They include \$283,000 to reduce the state's share of the proposed salary increase for local welfare employees to a level consistent with my state recommendation of 8 percent; \$86,423 to bring the appropriation for social services in line with my original recommendation; and \$680,360 in expanded rent allowances for categorical recipients.

I have reduced Assistance to Local Transit Authorities in the Department of Roads by \$217,525 to my original recommendation of \$1,753,750 in light of the provisions of LB 722.

I have reduced the appropriation to the Water Conservation Fund and the Resources Development Fund by \$150,000 each. My original recommendation called for a dedicated fund source from the cigarette tax with full discretion to allocate funds between these two activities involving the conservation and development of our natural resources. The reduced appropriation of \$2.8 million will provide a 12 percent increase above the current fiscal year appropriation. Although this is less than the amount approved by your body, it represents a significant increase and will provide for accelerated activity in this important area.

Now, to a very special and priority matter with me - quality education and property tax relief. Because of their transcending importance, I am approving an increase in state aid to education from the current level of \$55,000,000 to \$75,000,000 so that skyrocketing property taxes can be reduced. This 20 million dollar increase can be funded under current tax rates, will allow for equitable funding of LB 486, and will alleviate the worst effects of recent property tax revaluations and tuition reimbursement on the distribution of school aid.

Mr. President, Mr. Speaker,  
and Members of the Legislature  
State Capitol Building  
Lincoln, Nebraska

Dear Mr. President and Senators:

I am returning LB 789A with my signature and with my line-item reduction. As passed by your body, LB 789 increases the maximum payment levels in our Aid to Dependent Children program by 17 percent. This action would increase general fund appropriations by over four million dollars next fiscal year. In addition, it would require additional expenditures of over five million dollars from other funds.

While LB 789 establishes a "not to exceed" maximum level of payment, the Department of Public Welfare has the authority to set their need standards at levels below the statutory maximum. Therefore, I am directing John Knight, Director of the Department of Public Welfare, to establish a need standard that can be accommodated within a reduced appropriation for LB 789A and within his department's total budget for aid programs. It is estimated that these guidelines will allow an increase in the maximum payment for one dependent child and a caretaker from \$250 monthly to \$270 monthly. The estimated maximum payment for each additional eligible person would be increased from \$60 monthly to \$65 monthly. These improved payment levels represent an increase of 8 percent from the current statutory maximums.

(Signed) Respectfully,  
CHARLES THONE  
Governor

Mr. President, Mr. Speaker and  
Members of the Legislature  
State Capitol Building  
Lincoln, Nebraska 68509

Dear Mr. President and Senators:

I hereby return LB 765 and LB 765A without my signature and with my objections.

LB 765 changes the reimbursement rate for special education programs for handicapped children less than five years of age from 90% reimbursement to 100% reimbursement.

What was said in my veto of LB 772 earlier this year, remains true today. In my opinion, we can maintain a more cost effective special education program by requiring the local school districts, which select special education programs for their students, to pay at least 10% of the excess cost of special education programs. To eliminate this requirement is to effectively remove an important fiscal monitoring device.

This principle is as true for federal funds as it is for state funds. In either event, these funds come from the taxpayer.

I urge you to sustain my veto of LB 765.

(Signed) Respectfully,  
CHARLES THONE  
Governor

Mr. President, Mr. Speaker,  
and Members of the Legislature  
State Capitol Building  
Lincoln, Nebraska

Dear Mr. President and Senators:

I am returning LB 773A without my signature and with my objections. LB 773 reconstitutes the Nebraska Coordinating Council for the Handicapped and places this body in the Department of Education for management purposes. The stated goals of this legislation are not objectionable to me and I am signing the measure into law.

However, the appropriation proposed in LB 773A to "staff and meet the expenses of the council" is unnecessary. The departments included in the bill, Health, Welfare, Education and Institutions, have the resources to undertake the coordination required by LB 773, and an added layer of bureaucracy is not required for this effort. Therefore, I am returning LB 773A without my signature.

Mr. President, Mr. Speaker  
and Members of the Legislature  
State Capitol Building  
Lincoln, Nebraska

Dear Mr. President and Senators,

I am returning herewith LB 853A with my line-item reduction and with my signature.

While I concur with the proper disposal of hazardous wastes as proposed in LB 853, it is difficult to know with any precision the type or quantity of materials in existence. I am therefore reducing the appropriation for this activity by \$100,000.

Section 14 provides that the Department of Environmental Control shall remove, upon request by a private citizen, hazardous wastes of appreciable and significant quantities. Until such time as the magnitude of the problem is determined with a greater degree of certainty, the level of appropriation appears excessive. Should the magnitude of the problem, or the cost for proper disposal, be greater than anticipated, federal funds may be available to conduct this type of program.

I urge that you sustain my veto.

CHARLES THONE

Dear Mr. President and Senators:

I hereby return LB 280 without my signature and with my objections.

LB 280 provides that any office identified as being the office of a Certified Public Accountant must be served by at least one full-time CPA. This prevents a CPA from having offices in two or three towns and being in each a day or two per week. This has the potential for denying some rural communities of local CPA services. No persuasive arguments have been advanced to justify such a result.

LB 280 also allows the Nebraska State Board of Public Accountancy to "prescribe staffing requirements" for all CPA offices. Presumably this would allow the Board to dictate the number of secretaries and assistants a CPA must have. Again, no abuses to the present system have been cited which would justify such government sanctioned interference in the conduct of private business.

Dear Mr. President and Senators:

I hereby return LB 283 without my signature and with my objections.

LB 283 addresses issues of police and firefighter retirement for the City of Omaha which are primarily matters of local concern. These issues have been addressed in the Omaha Home Rule Charter and have been recently considered by the City Council.

In addition, the Attorney General, in a letter to Senator Loran Schmit, dated April 18, 1980, has cited Constitutional problems with the bill. The Attorney General stated, "We believe there is serious doubt that the bill can be successfully defended against a void-for-vagueness attack."

I therefore veto LB 283.

Dear Mr. President and Senators:

Consistent with my position of last year, I am neither signing nor vetoing LB 1004. LB 1004 expresses legislative intent as regards to various state agencies and appropriations and does not have the force of law. My veto would not change your intent.

Please note that some items of intent may have been altered when your body sustained my vetoes and must, therefore, be given consideration with that in mind.

Dear Mr. President and Senators:

I hereby return LB 690 and LB 690A without my signature and with my objections.

LB 690 provides that each member of the Legislature shall be allowed necessary expenses incurred while performing in the official capacity as a member of the Legislature.

The Attorney General has advised me that he is of the opinion that LB 690 violates Article III, Section 7, of the Constitution of the State of Nebraska.

I therefore veto LB 690 and 690A.

and Members of the Legislature  
State Capitol Building  
Lincoln, Nebraska

Dear Mr. President and Senators:

I am returning herewith LB 790A with my line-item reduction and  
with my signature.

LB 790 mandates continuing legal education for county attorneys  
and deputy county attorneys. It creates an Advisory Council which  
would set the number of hours of training needed. It also requires the  
Crime Commission to establish curricula, set tuition, and monitor  
compliance.

This program should be self-supporting through the collection of  
tuition and fees as provided for in LB 790. In my opinion, to minimize  
the costs of a new program and to avoid duplication, training  
conducted by universities or professional groups should be accepted

under the training requirements of LB 790. Therefore, I am applying my line-item veto to the general fund appropriation in LB 790A.

(Signed) Respectfully,  
CHARLES THONE  
Governor
