

January 10, 1980

LR 181

RECESS

SPEAKER MARVEL PRESIDING

SPEAKER MARVEL: Will the Legislature please come to order. Please record your presence. Have you all recorded your presence? The Clerk will record the presence.

CLERK: Quorum present, Mr. President.

SPEAKER MARVEL: We turn first of all to Resolution 181. The Clerk will read the Resolution and then we will recognize Senator Powers.

CLERK: Read LR 181. That may be found on page 121 of the Journal.

SPEAKER MARVEL: First of all the Chair recognizes Senator Powers.

SENATOR POWERS: Mr. Chairman, fellow honorable members of the Legislature, I move the adoption of this resolution. Senator Brennan was a neighbor, a fellow parishioner and at times an antagonist in labor relations. I found him at all times to be indeed everything that this resolution describes and I move the adoption.

SPEAKER MARVEL: Chair recognizes Senator Murphy.

SENATOR MURPHY: I have asked, and I would ask unanimous consent of the body to add my name to that resolution. I think probably Bill and I had more controversy between our various positions on about every issue that came down the pike and I will miss him.

SPEAKER MARVEL: I think what we will do is the Clerk will circulate the petition among you and those of you who want your names on the resolution can so indicate at that time. Chair recognizes Senator Frank Lewis, then Senator Dworak and then Senator Landis. Senator Lewis.

SENATOR LEWIS: Mr. President, I want it on record that I certainly want my name added to the resolution. William Brennan was probably one of my best personal friends in the Legislature an excellent hard working man and this body is going to miss him and I personally miss him and I want his family to understand that he had many, many good personal friends here and was a real attribute and a real fighter for those things that he brought in the halls of this legislative body.
