item to each of you that wants them. So, there is no conflict in terms of anybody providing you specifically with any service. That is research information provided to us for the record and not to individual members. If there is any serious concern about that, we will certainly take that under advisement. I thought that it was an excellent idea. They are providing this information to our library like every other group does to provide information to the legislature. We appreciate them doing that. But that information as far as the official position of the Executive Board is, is not something that is being directly provided to the members. They give them to us, we distribute them to your offices if you so desire and request. I'm sure that any of you do not wish that, if you will notify my office we will cease and dissect that immediately. Does that resolve the problem? Anyway that is what we have done. If there is concern about it...I want to express my appreciation to the Lincoln Star organization for providing this information for us.
