

the right to say what I want to say? I don't owe it to anybody because some have made agreements and worked hard on a bill to not say what is on my mind about the bill. That's not the rule, and on germaneness even. Look at 662, two entirely different propositions put in that bill and passed. That's what this Legislature does, then they are going to hypocritically vote and talk about something like germaneness. That's why I use the word hypocritical so much. It has been used so much it really has no meaning anymore. It's just another way of saying how the Legislature functions. The determination of what is done here is based on who has got the power and we all know that. On a bill such as this, Senator Vard Johnson, you don't have to worry about it not going. Ak-Sar-Ben has done the work. Ak-Sar-Ben has done the work. Ak-Sar-Ben has hooked the senators up to the sleigh and they sit on it like a corpulent overblown Santa Claus whistling and shouting and calling them by name and telling them, if you want something for Atokad, if you want something for Columbus, if you want something for Fonner, by god, you'll pull this sleigh, and you'll pull it at the pace that I tell you. And everybody on this floor knows what I am saying is true and it can be denied here, but those people on the street know what I'm talking about if you all want to play like you don't. They know the power of Ak-Sar-Ben. What Ak-Sar-Ben wants Ak-Sar-Ben gets from this Legislature.

SPEAKER NICHOL: Fifteen seconds.

SENATOR CHAMBERS: They're going to get the tax deduction, reduction, and then when we come up with something talking about the poor, strapped farmers, people are going to say, well that won't work. You're just enticing some to stay when they're going to go out of business anyway, but you're going to vote to give Ak-Sar-Ben something and Ak-Sar-Ben is prosperous. I'm serious about my amendment and I'm asking that it be adopted. It substitutes the word "sucker" for the word "exotic" and if they were being honest, they wouldn't have to take a word like "exotic" which is foreign to gambling. They could say what it is.

SPEAKER NICHOL: The question is the adoption of the Chambers amendment. All those in favor vote aye, opposed nay. Have you all voted that care to? Excuse me, Senator Chambers, you're not at your microphone, I didn't hear you, or were you talking to me? Okay, all right. Have you all
