

but I am doing it up front, and I could have a little help from Senator Dierks and a few others, and maybe some of you would realize that there are those of us who have less modest needs and less modest expenses but, nonetheless, it is an expense. Senator Chambers said one time it is more important what is on the inside than on the outside, but unless you can convince someone, convince someone of the dramatic improvement you can make with the improvement of your appearance by the addition of a hairpiece, you may never ever get to convince anyone that you have anything on the inside. I just wonder how long the charade will go on. I just wonder. I expect right now Senator Smith is writing up a bunch of amendments for her bill. I suspect Senator Langford has figured out a way to get what she wants. Now there are ways to do it. There are ways to do it, ladies and gentlemen. This is one of them. Now I do not expect, and I am not going to give you the luxury, I am not going to give you the luxury, ladies and gentlemen, of pulling old Schmit through the knothole again. You are going to have to do that yourself. Some of you have come to me and said, my gosh, isn't this terrible? I have been here. I enjoy it. I am like Senator Chambers. I know how to make it work. I don't mind. I can't do as well as Senator Chambers. No, I can't, Senator. You have got me beat hands down, but the point is this, if you want to be foolish, we have got, you know, Senator Barrett can call us back in tomorrow morning at twelve o'one, and that will be an exciting experience. We can be here 24 hours a day and we can go on, and on, and on, and I think it is going to happen. It just may happen. It isn't the first time this has happened. It is not going to be the last time. I have to suggest, for instance, you had better take a good look at the roster. You had better take a good look at the schedule. You had better ask yourself, where is old so-and-so's bill at? Well, my goodness sakes, maybe it is not going to get up. I don't know where Senator Wesely's 218 is at. If we continue this process, Senator Wesely, it is going to be right down the line with my favorite ethanol bill and a whole bunch of others, but that is all right. We may not even get Senator Abboud's favorite bill, 775, over to Final Reading. We can talk like this for a long, long, long time. Ladies and gentlemen, you have got a provision in the rules that says you can suspend the rules. You can suspend the rules. Well, you said you can't take up two bills at once. I gave you the examples out of the Journal where we took up not only one or two, we took up many. There was an example there where Senator Chambers moved 32 at one clip. I have to commend him. He is better than most, 32, no objections, so ordered, and away we went on our merry way. All of a sudden,
