

February 7, 1992 LB 473

Electrical Workers in Omaha. What it would do is just have to have six...complete six contact hours of continuing education for a renewal on such date and 12 contact hours by January 1 of each even numbered years thereafter as a condition of the license renewal. And what Senator Morrissey, I think what this would do would...what his concerns was, I think the board would make the rules and set up the guidelines for what's going on. I ask for the advancement of the bill.

PRESIDENT MOUL: Thank you, Senator Peterson. Senator Morrissey.

SENATOR MORRISSEY: Thank you, Madam President and members. I guess I'd ask Senator Peterson some questions.

PRESIDENT MOUL: Senator Peterson.

SENATOR PETERSON: Um-hum.

SENATOR MORRISSEY: If...and, Senator, maybe you can't answer some of these, but in reading through the bill I'm wondering, if I'm an electrician I have to be licensed anyway. Correct? To do certain work.

SENATOR PETERSON: Yes, I think so.

SENATOR MORRISSEY: And how do I get...I have to take a test to get that license. Correct?

SENATOR PETERSON: I'm guessing with most instances, yes. I know there is probably some out there that have studied a little bit and not licensed out there, but working probably, but yes, you'd have to take a test.

SENATOR MORRISSEY: Do you know how often that test has to be taken?

SENATOR PETERSON: No, I don't. I can find out.

SENATOR MORRISSEY: Senator Will, could you answer some questions?

SENATOR WILL: Certainly.

SENATOR MORRISSEY: So to do certain procedures as an
