

aid formula. I should explain to you, first of all, you had two handouts, one is AM3941. We have substituted for that AM4066. And the only thing that we've stricken from the one that you have is the words "Auditor of Public Accounts" in Section 7, on page 18, I believe. Line 13 strikes Auditor of Public Accounts. That particular amendment, we found out this morning, would have a fiscal note with it and the other...otherwise the amendment has no fiscal impact. So, in order to make this less controversial, we just struck that portion of the amendment that would call for a fiscal note for the Auditor of Public Accounts. So the sheet that was handed out to you calls for it. It's dated April 2, '92 on the top and the Department of Education technical amendments lists the sections as well as the amendments or what the amendments do in LB 1125. And we are trying...we are attempting to amend that on...it's a technical clean-up bill for the Department of Education. I will go through that if you wish. I have told you what the difference is in what you have been handed there. The only thing we have done is on Section 7, on the second page, we have amended out the Auditor of Public Accounts on line 13. And if you go with me again through that, on Section 1, you will find that on page 1 of your amendment, front page of this handout we have. Section 2 is on pages 3, 4 and 5 of your amendment. Section 3 is on page 5 of your amendment. Section 4 is on page 6. Section 5 is on page 7 and 8. The first part of Section 5 is on 7 and 8. The second part is on page 10. Section 6 is on pages 13. Section 7 is on pages 17, 18 and 19. And then there is a little correction there because when the bill was...when the amendment was redrafted the section numbers were changed so on your third page of this handout Section 8 becomes Section 15 and that's on page 19. Section 6 becomes...or Section 9 becomes Section 16, and that's at the top of page 20. Section 10 becomes Section 17 and that's the middle of page 20. Section 18 is on page...that's Section 11 becomes Section 18; that's on page 21, 22 and 24. Section 12 becomes Section 19; that's on page 24. Section 13 becomes Section 20; that's on page 25. Section 14 becomes 21; that on page 33. Section 15 becomes Section 22 and the first part of that section is on page 34, the second part is on page 35, and the third part is at the top of page 36. Then Section 16 becomes Section 23 and that's in the middle of page 36, and then all of page 77. And, lastly, Section 17 becomes Section 24 and that's on pages 38 and 40. With that, I think I will just stop and if you have questions about these particular sections, I will be glad to talk about them with you. Thank you.
