

February 1, 1994 LB 988

SPEAKER WITHEM: One minute.

SENATOR CHAMBERS: Senator Lindsay, did you want to add something to that?

SPEAKER WITHEM: Senator Lindsay.

SENATOR LINDSAY: Senator Chambers, and I will turn my light on so we can finish, what it does is we are bound also by the federal JJDP, the Juvenile Justice and Delinquency Prevention Act. What that does is it requires that juvenile inmates be out of sight and sound of adult inmates, and because of that division, right now we do have kids in the adult facilities, but they have to be kept separate. They can...rather than having additional costs of keeping them separate within an adult facility, they can be used in a secure facility that we are dealing with here, so that, basically, what we are doing is getting them more out of the adult system than they are right now.

SENATOR CHAMBERS: Right, but putting the words "on or before their nineteenth birthday," this juvenile adjudicated as an adult could be...

SPEAKER WITHEM: Time. I would like to recommend more guests of the Legislature. In the north balcony, both of these groups are in the north balcony, first, guests of Senator Warner, 75 fourth grade students from Hamlow Elementary School in Waverly, with their teacher. And also Senator David Bernard-Stevens has guests from the North Platte Chamber of Commerce who are in town today for their legislative day. Let's welcome them to the Legislature. Senator Bernard-Stevens, followed by Senators Lindsay and Chambers.

SENATOR BERNARD-STEVENS: Thank you, Mr. Speaker, members of the body. Senator Chambers, I punched my light on so we could continue the dialogue. So I will go ahead and say if you have any further questions, let us continue the dialogue at this point.

SENATOR CHAMBERS: Thank you, Senator Bernard-Stevens. Here is what I am really trying to get at. First of all, how young a juvenile can be adjudicated as an adult? Could the juvenile be, and I will ask Senator Bernard-Stevens this question, could the juvenile be ten years old?
