

smell it, have no odor that indicates something is wrong with it. But on the other hand, if I had a container and I put a picture of the skull and crossbones on it, there would be no need to tell the person smell this, look at this; the label is sufficient warning for them not to want to take a chance. Since the skull and crossbones is an almost universal symbol for poison, the person who is thirsty is not going to drink that liquid. If he, however, went by the label and the appearance, I could get a poison that is odorless and colorless and it would appear to be pure, drinkable, healthful fluid, and I could take this container that has a skull and crossbones and put some purple Kool-Aid in it and say, you must drink one...

SPEAKER WITHEM: Time. You have heard the closing. The question then is the adoption of the Chambers amendment. All in favor vote aye, opposed vote nay. Have you all voted? Have you all voted? Senator Chambers.

SENATOR CHAMBERS: I would ask for a call of the house and a roll call vote.

SPEAKER WITHEM: A call of the house has been requested and a roll call vote. All in favor of the house going under call indicate by voting aye, all opposed vote nay. Record.

CLERK: 18 ayes, 0 nays to go under call.

SPEAKER WITHEM: The house is under call. All unauthorized
