

fine with me. I'm interested in the Remedial Action Plan Monitoring Fund right now that will cover a closed licensed landfill that has been closed that has hazardous materials in it now. My question is, will that fund go to this particular closed landfill?

SENATOR AVERY: I would...I'm just guessing, I think...as the language says, yes, the agency has the authority to do that.

SENATOR ROBAK: Thank you. The agency does have the authority to do that then. Thank you.

SENATOR MOORE: Thank you, Senator Robak. Seeing no other lights on, I'll recognize Senator Beutler to close on the committee amendments. He waives. Okay, the motion before the house is the adoption of the Natural Resources Committee amendments to LB 1349. All those in favor vote aye, opposed nay. The Clerk will record.

CLERK: 25 ayes, 0 nays, Mr. President, on the adoption of committee amendments.

SENATOR MOORE: The committee amendments are adopted. Before I proceed I'd like to introduce some guests in the south balcony of Senator Janssen. We have 50 fifth graders from Fremont, Nebraska from Milliken Park School accompanied by their teachers. Would you please stand and be recognized by your Nebraska Legislature. Now I'll recognize Senator Avery to open on LB 1349.

SENATOR AVERY: Thank you, Mr. President. There is not a lot to...we pretty well discussed most of this. To clarify, the department and they are looking at a couple technical changes in to amend on Select File that will make sure that this is voluntary and maybe basically establish some of the rules and procedures that will further define the areas that this is supposed to work under, so with that I'd ask that you advance this. Thank you.

SENATOR MOORE: I have no lights on. The motion to advance the bill. Senator Avery, do you wish to say anything more? Okay. The motion before the body is the advancement of LB 1349 to E & R Initial. All those in favor vote aye, opposed nay. The Clerk will record.
