CLERK: (LB) 92A, by Senator Beutler. (Read title.)

SPEAKER KRISTENSEN: Senator Beutler, you're recognized to open on your A bill.

SENATOR BEUTLER: Senator Kristensen, members of the Legislature, you may recall that on General File on this particular bill, on the main bill, we transferred some money that was going into the General Fund into the Water Well Decommissioning Fund, and the money that was transferred was part of the fees that were charged relating to wells. And so this A bill represents no new money but is merely technically required by the Fiscal Office in order to transfer the money to be sure that the money goes into the Water Well Decommissioning Fund, to be sure these new Cash Funds go into it. So it's not new money. It's not General Fund money. It just represents the mechanism necessary to transfer the licensing fee from the General Fund to the Water Well Decommissioning Fund. Thank you.
