**Summary of purpose and/or changes:**

LB 1310 as introduced for the Governor contains authorization for and specific transfers from funds consistent with his recommendation to adjust funds available to the General Fund in reaction to declining revenue estimates in the current budget biennium.

**Explanation of Amendments, if Any:**

LB 1310 is offered with AM3035 which then becomes the bill. The amendment changes provisions of law for various funds by authorizing transfers, making specific transfers and changing authorized uses of selected funds to enable specific recommendations of the Appropriations Committee. Transfers are itemized in the publication, "Appropriations Committee Budget Recommendations--March 2002."
