

TRANSCRIPT PREPARED BY THE CLERK OF THE LEGISLATURE
Transcriber's Office
FLOOR DEBATE

March 13, 2001 LB 114

There's even something lurking in ambush called the right of citizens to carry concealed weapons. The more time we spend on these bad bills, the more you help me. So if Senator Quandahl is wise, he won't move for cloture because he might not get it. And if he doesn't get it, his bill is off the agenda. If he gets it, then I promise you, I will deliver on what I've stated. I will do everything I can to keep this kind of atrocious unfairness from being put into the statutes. This is not just a bill with which I disagree because I don't like it. This is a bill which goes against one of the fundamental principles of law in this country, and that's that a person is innocent till presumed guilty. And a person does not have to do anything to establish innocence. That person can sit mute and the state must, on its own, affirmatively prove every element of an offense beyond a reasonable doubt. Senator Cudaback is not a lawyer, Senator Aguilar is not a lawyer, Senator Quandahl is not a lawyer...oh, he's a lawyer but not a very good one. Now I'm going to tell you all...don't grimace, he's a grown man, he can answer me. If you all watch television, you all know that if a person is caught in the act of...

SPEAKER KRISTENSEN: One minute.

SENATOR CHAMBERS: ...committing a burglary, there cannot be presented to the jury an argument saying you must presume this person is guilty because he was caught in the act. No. The state must put on evidence to prove that allegation. If a person is the only one in a car and that car is in an accident and that person was behind the wheel, there cannot be a presumption presented for the purpose of procuring a conviction that this person was responsible. Evidence must be put on. What Senator Quandahl and others don't distinguish between is probable cause to make an arrest and presumption of guilt. Probable cause is a factual set of circumstances which entitles a reasonable person trained in the law to draw a conclusion that it's likely that this person committed an offense which was committed and, therefore, the person is arrested. But that's as far as it goes.

SPEAKER KRISTENSEN: Time. You may continue.
