FLOOR DEBATE

think this is an isolated incident.

SENATOR CUDABACK: One minute.

SENATOR SCHIMEK: I think it is happening across the state. Senator Thompson, I'm going to continue to support this on General File. I would prefer that the Legislature set the formula rather than an outside group, but I'm going to continue supporting it. But if LB 305 is viewed as a...a policy that we can't afford and can't do and that this is the alternative, then I may have second thoughts on Select File and I just...I just want people to think about everything in the total context. SENATOR CUDABACK: Thank you, Senator Schimek. Senator Wehrbein, on the committee amendments.

So I wanted to understand there's some other things in there besides this. There's some transfer from the life insurance history dollars to...within the State Employees' Insurance Fund; to the Workmen's Compensation Claims Revolving Fund to aid in the payment of Workmen's Compensation claims. There was some money in there just...for the Department of Ag to set the registration fees, as I told you.. There's \$200,000 from the Weights and Measures Administrative Fund to the Livestock Waste Management Cash Fund. That was a way to cover some expenses. There are two cash funds, one cash fund to another cash fund. I just wanted to call those to your attention so that you...there is one by the Secretary of State,
