able to be built in our area. Thank you.

PRESIDENT MAURSTAD: Thank you, Senator Kremer. Senator Dierks, on the motion to return.

SENATOR DIERKS: Thank you, Mr. President, and members of the Legislature. I just want to indicate my support of this amendment and the motion to return. Thank you.

PRESIDENT MAURSTAD: Thank you, Senator Dierks. Senator Cunningham.

SENATOR CUNNINGHAM: Mr. President and members, I, too, wanted to rise and show my support for this amendment and hope that the rest of you will vote with us. Thank you.

PRESIDENT MAURSTAD: Thank you, Senator Cunningham. Senator Hartnett, on the motion to return.

SENATOR HARTNETT: Mr. President, members, could I ask Senator Wehrbein a question, please.

PRESIDENT MAURSTAD: Senator Wehrbein, would you yield?

SENATOR HARTNETT: In the Revenue Committee when we were considering this bill, we were really talking about two plants, is that what we're really still assuming with this amendment?

SENATOR WEHRBEIN: At this point, those are the two that are on the horizon. There may be others being discussed but the only two that we know about are those...are two.

SENATOR HARTNETT: Is there...do you envision, Senator Wehrbein, funding for more than these two plants?

SENATOR WEHRBEIN: I don't think in this particular bill there would be more funding...funding for more plants than the two, Senator Hartnett, at this point.

SENATOR HARTNETT: All right, thank you very much.
