to be used for this bill. And here's the way I see it, and you tell me if I'm wrong. In the first year, there would be appropriated \$242,000 in General Funds, in the second year it would be \$79,500 from the General Funds, which would be \$321,500 for the biennium. Then, as I see it, there are, the first year, from cash funds, \$673,500 for '05-06, and then the second year \$165,000 in cash funds. And then also there would be \$30,000, if you go down to that last paragraph there, I think it's the last paragraph, \$30,000 in cash funds to contract
