Any Fiscal Notes received from state agencies and political subdivisions are attached following the Legislative Fiscal Analyst Estimate.

This bill adopts the Audiology and Speech-Language Pathology Interstate Compact. Ten states are required to adopt the compact for it to go into effect. It is not anticipated that this will occur within the next biennium. After the compact is in effect, there will be additional costs for training and travel. The department is allowed to charge fees to cover these costs when they are incurred.

Explanation of Estimate:

LB 14 adopts the Audiology and Speech Language Pathology Interstate Compact for Licensing. The formation of the compact will be complete upon adoption of ten state governments. At that time, the compact may vote to require annual dues from member states. Currently, the compact is not enacted and no rules or bylaws have been established to determine what would be required of member states. There will be additional costs incurred by the State for training and travel to meet compact membership requirements. However, the Department of Health and Human Services does not expect to incur any cost by the end of State Fiscal Year 2023.

LB 14 would allow the Department to charge fees for compact privileges to offset the cost associated with membership.
