LB45 establishes the Revitalize Rural Nebraska Grant Program and Revitalize Rural Nebraska Fund within the Nebraska Department of Environment and Energy (NDEE). LB45 directs NDEE to award grants to cities of the first and second classes and villages with discretion of the Director of NDEE to promulgate rules and regulations surrounding awarding of grants.

LB45 directs the State Treasurer to annually transfer \$10,000,000 from the General Fund to the Revitalize Rural Nebraska Fund for fiscal years 23-24 – 27-28. There is no intent to appropriate, however language from section one, subsection 3 indicates that the full fund amount is meant to be expended each year. As such, our office assumes intent to appropriate \$10,000,000 for the first year of the program with the full cash balance being re-appropriated with each following year.

General fund revenue loss of \$10M per annum for the next five fiscal years for a total of \$50M. LB45 provides for remittance of funds back to the state should cities and villages be unable to engage in demolition of commercial properties, however the number and timing of awards and remittances is unknown, as such we cannot provide a full cash fund revenue and expenditure estimate.

No basis to disagree with the Department's estimates for administrative costs.

Explanation of Estimate:

LB45 Sect 4 states an annual transfer of \$10,000,000 from general funds to the Revitalize Rural Nebraska Cash Fund will occur starting in FY23-24 through FY 2027-28. This program allows demolition of dilapidated commercial property. Since there is no limit on how much a grant can be, NDEE estimates there may be anywhere from 1 to 200 grants awarded per year. Based on current grant programs, it is estimated to take up to an additional 5 FTE to run this new program. This fiscal note identifies the administrative cost of the FTE. NDEE understands a portion of the \$10,000,000 can be used for the administrative costs to run this program.

Estimated minimal demolition cost is \$50,000. An Environmental Specialist II can manage 35 -40 grants from beginning to end.

\$10,000,000/\$50,000 = 200 possible grants/sites 200/40 = 5 FTE

None of the future demolition sites have been identified.

FY 2023-2024 12 months of 5 FTE (\$458,921)

FY 2024-2025 12 months of 5 FTE (\$458,668)

If the Revitalize Rural Nebraska Program continues past FY 2024-2025, NDEE will need to be able to utilize cash funds from the grant program for ongoing administrative costs.
