#### **53-1,104 Violations by licensee; suspension, cancellation, or revocation of license; cash penalty in lieu of suspending sales; election authorized.**

(1) Any licensee which sells or permits the sale of any alcoholic liquor not authorized under the terms of such license on the licensed premises or in connection with such licensee's business or otherwise shall be subject to suspension, cancellation, or revocation of such license by the commission.

(2) When an order suspending a license to sell alcoholic liquor becomes final, the licensee may elect to pay a cash penalty to the commission in lieu of suspending sales of alcoholic liquor for the designated period if such election is not prohibited by order of the commission. Except as otherwise provided in subsection (3) of this section, for the first such suspension for any licensee, the penalty shall be fifty dollars per day, and for a second or any subsequent suspension, the penalty shall be one hundred dollars per day.

(3)(a) For a second suspension for violation of section 53-180 or 53-180.02 occurring within four years after the date of the first suspension, the commission, in its discretion, may order that the licensee be required to suspend sales of alcoholic liquor for a period of time not to exceed forty-eight hours and that the licensee may not elect to pay a cash penalty. The commission may use the required suspension of sales of alcoholic liquor penalty either alone or in conjunction with suspension periods for which the licensee may elect to pay a cash penalty. For purposes of this subsection, second suspension for violation of section 53-180 shall include suspension for a violation of section 53-180.02 following suspension for a violation of section 53-180 and second suspension for violation of section 53-180.02 shall include suspension for a violation of section 53-180 following suspension for a violation of section 53-180.02;

(b) For a third or subsequent suspension for violation of section 53-180 or 53-180.02 occurring within four years after the date of the first suspension, the commission, in its discretion, may order that the licensee be required to suspend sales of alcoholic liquor for a period of time not to exceed fifteen days and that the licensee may not elect to pay a cash penalty. The commission may use the required suspension of sales of alcoholic liquor penalty either alone or in conjunction with suspension periods for which the licensee may elect to pay a cash penalty. For purposes of this subsection, third or subsequent suspension for violation of section 53-180 shall include suspension for a violation of section 53-180.02 following suspension for a violation of section 53-180 and third or subsequent suspension for violation of section 53-180.02 shall include suspension for a violation of section 53-180 following suspension for a violation of section 53-180.02; and

(c) For a first suspension based upon a finding that a licensee or an employee or agent of the licensee has been convicted of possession of a gambling device on a licensee's premises in violation of sections 28-1107 to 28-1111, the commission, in its discretion, may order that the licensee be required to suspend sales of alcoholic liquor for thirty days and that the licensee may not elect to pay a cash penalty. For a second or subsequent suspension for such a violation of sections 28-1107 to 28-1111 occurring within four years after the date of the first suspension, the commission shall order that the license be canceled.

(4) For any licensee which has no violation for a period of four years consecutively, any suspension shall be treated as a new first suspension.

(5) The election provided for in subsection (2) of this section shall be filed with the commission in writing one week before the suspension is ordered to commence and shall be accompanied by payment in full of the sum required by this section. If such election has not been received by the commission by the close of business one week before the day such suspension is ordered to commence, it shall be conclusively presumed that the licensee has elected to close for the period of the suspension and any election received later shall be

absolutely void and the payment made shall be returned to the licensee. The election shall be made on a form prescribed by the commission. The commission shall remit all funds collected under this section to the State Treasurer for distribution in accordance with Article VII, section 5, of the Constitution of Nebraska.

Any agreement which is in existence on April 18, 1989, shall be renewed in a manner consistent with sections 53-201 to 53-223, and the provisions of such sections may be incorporated by reference in the agreement. Nothing in such sections shall prevent a supplier from making a one-time appointment, for a period not to exceed ninety days, of a wholesaler to temporarily service a sales territory not designated to another wholesaler until such time as a wholesaler is appointed by the supplier. The wholesaler who is designated to service the sales territory during the period of temporary service shall not be in violation of such sections and, with respect to the temporary sales territory, shall not have any of the rights provided under sections 53-218 and 53-220. The temporary service period may be extended beyond ninety days by the Nebraska Liquor Control Commission if justifiable circumstances exist as determined by the commission;

(2) Fix, maintain, establish, or unduly influence the price at which a wholesaler shall be required to sell any beer;

(3) Enter into an additional agreement with any other wholesaler for or to sell to any other wholesaler the same brand or brands of beer in the same sales territory or any portion thereof or to sell directly to any retailer in this state;

(4) Coerce or attempt to coerce any wholesaler to accept delivery of any beer or other commodity which has not been ordered by the wholesaler, except that a supplier may impose reasonable inventory requirements upon a wholesaler if the requirements are made in good faith and are generally applied to other similarly situated Nebraska wholesalers having an agreement with the supplier;

(5) Coerce or attempt to coerce any wholesaler to accept delivery of any beer or other commodity ordered by a wholesaler if the order was canceled by the wholesaler in accordance with acceptable procedures;

(6) Coerce or attempt to coerce any wholesaler to do any illegal act or to violate any law, rule, or regulation by threatening to amend, modify, cancel, terminate, or refuse to renew any agreement existing between the supplier and wholesaler;

(7) Require a wholesaler to assent to any condition, stipulation, or provision limiting the wholesaler's right to sell the brand or brands of beer or other products of any other supplier unless the acquisition of the brand or brands or products of another supplier would materially impair or adversely affect the wholesaler's quality of service, sales, or ability to compete effectively in representing the brand or brands of the supplier presently being sold by the wholesaler. The supplier shall have the burden of proving that such acquisition of such other brand or brands or products would have such effect;

(8) Require a wholesaler to purchase one or more brands of beer or other products in order for the wholesaler to purchase another brand or brands of beer for any reason. A wholesaler that has agreed to distribute a brand or brands before April 18, 1989, shall continue to distribute the brand or brands in conformance with sections 53-201 to 53-223;

(13) Require a wholesaler by any means directly to participate in or contribute to any local or national advertising fund controlled, directly or indirectly, by a supplier;

(14) Willfully discriminate, directly or indirectly, in price, programs, or terms of sale offered to franchisees if the effect of such discrimination may be to substantially lessen competition or to give to one holder of a franchise any economic, business, or competitive advantage not offered to all holders of the same or similar franchise. This subdivision shall not govern dock prices;

(15) Take any action against a wholesaler who files a complaint regarding an alleged violation by the supplier of a federal, state, or local law, rule, or regulation in retaliation for such complaint;

(16) Restrict or inhibit, directly or indirectly, the right of free association among wholesalers for any lawful purpose;

(17) Require or prohibit, without just cause, any change in the manager or successor manager of any wholesaler who has been approved by the supplier as of or subsequent to April 18, 1989. If a wholesaler changes an approved manager or successor manager, a supplier shall not require or prohibit the change unless the person selected by the wholesaler fails to meet the reasonable qualifications for managers of Nebraska wholesalers of the supplier, which reasonable qualifications previously have been consistently applied to similarly situated Nebraska wholesalers by the supplier. The supplier shall have the burden of proving that such person fails to meet such reasonable qualifications and that the qualifications have been consistently applied to similarly situated Nebraska wholesalers;

(19) Upon written notice of intent to transfer the wholesaler's business other than to a designated member, withhold consent to or approval of, or unreasonably delay for a period of sixty days or more after receipt of all material information reasonably requested of the wholesaler a response to a request by the wholesaler for, any transfer of a wholesaler's business if the proposed transferee meets the reasonable qualifications required by the supplier for similarly situated Nebraska wholesalers. The supplier shall have the burden of proving that the proposed transferee fails to meet such reasonable qualifications and that the qualifications have been consistently applied to similarly situated Nebraska wholesalers.

(2) Sell or deliver beer to a retail licensee located outside the sales territory designated to the wholesaler by the supplier of a particular brand or brands of beer, except that during a period of temporary service interruption impacting a particular sales territory, a wholesaler who normally services the impacted sales territory shall file with the Nebraska Liquor Control Commission and give to the affected supplier written notice designating the specific wholesaler or wholesalers, not disapproved by the supplier, who will service the sales territory during the period of temporary service interruption and the approximate length of time of the service interruption. Each wholesaler designated to temporarily service a sales territory shall be a wholesaler who has a current agreement with a supplier for the brand or brands affected. When the temporary service interruption is over, the wholesaler who normally services the sales territory shall notify the commission, the supplier, and the wholesaler or wholesalers servicing the sales territory on a temporary basis of this fact in writing, and any wholesaler servicing the sales territory on a temporary basis shall cease servicing the sales territory upon receipt of the notice. (1) Notwithstanding any agreement and except as otherwise provided for in sections 53-201 to 53-223, a supplier shall not amend or modify an agreement, cause a wholesaler to resign from an agreement, or cancel, terminate, fail to renew, or refuse to continue under an agreement unless the supplier has:

(a) Satisfied the applicable notice requirements of subsection (3) of this section;

(b) Acted in good faith; and

(c) Good cause for the amendment, modification, forced resignation, cancellation, termination, nonrenewal, or discontinuance.

(2) For each amendment, modification, cancellation, termination, nonrenewal, or discontinuance, the supplier shall have the burden of proving that it has acted in good faith, that the notice requirements under this section have been

complied with, and that there was good cause for the amendment, modification, cancellation, termination, nonrenewal, or discontinuance.

(3) Notwithstanding any agreement and except as to new products and as otherwise provided in this section and in addition to the time limits set forth in subdivision (4)(e) of this section, the supplier shall furnish written notice of the amendment, modification, cancellation, termination, nonrenewal, or discontinuance of an agreement to the wholesaler not less than thirty days before the effective date of the amendment, modification, cancellation, termination, nonrenewal, or discontinuance. The notice shall be sent by certified mail and shall contain:

(a) A statement of intention to amend, modify, cancel, terminate, not renew, or discontinue the agreement;

(b) A statement of the reason for the amendment, modification, cancellation, termination, nonrenewal, or discontinuance; and

(4) Notwithstanding any agreement, good cause shall exist for the purposes of a cancellation, termination, nonrenewal, or discontinuance under subdivision (1)(c) of this section when:

(a) There is a failure by the wholesaler to comply with a provision of the agreement which is both reasonable and of material significance to the business relationship between the wholesaler and the supplier;

(b) The supplier first acquired knowledge of the failure described in subdivision (a) of this subsection not more than twenty-four months before the date notification was given pursuant to subsection (3) of this section;

(c) The wholesaler was given notice by the supplier of failure to comply with the agreement within twenty-four months of such failure;

(d) The wholesaler was afforded a reasonable opportunity to assert good faith efforts to comply with the agreement within the time limits provided for in subdivision (e) of this subsection; and

(5) Notwithstanding subsections (1) and (3) of this section, a supplier may cancel, terminate, fail to renew, or discontinue an agreement immediately upon written notice given in the manner and containing the information required by subsection (3) of this section if:

(a) The wholesaler becomes insolvent, files or has filed against it a petition under any bankruptcy or receivership law, makes an assignment for the benefit of creditors, or is dissolved or liquidated and such action materially affects the wholesaler's ability to remain in business;

(b) The wholesaler's state or federal license is revoked or suspended by the appropriate regulatory agency and the wholesaler cannot service the wholesaler's sales territory for more than sixty-one days;

(c) The wholesaler or a partner, a member, or an individual who owns ten percent or more of the partnership, the limited liability company, or the stock of a corporate wholesaler has been convicted of a felony under the United States Code or the laws of any state which reasonably may adversely affect the

An existing stockholder, partner, or member or a designated member shall have, subject to the provisions of sections 53-201 to 53-223, the right to purchase the partnership interest, the limited liability company member interest, or the stock of the offending partner or stockholder, and if the sale is completed prior to conviction, the provisions of this subdivision shall not apply; or

(6) Notwithstanding subsections (1), (3), and (4) of this section, upon not less than fifteen days' written notice given in the manner and containing the information required by subsection (3) of this section, a supplier may cancel, terminate, fail to renew, or discontinue an agreement if:

(a) There was intentional fraudulent conduct relating to a material matter on the part of the wholesaler in dealings with the supplier or its producers. The supplier shall have the burden of proving intentional fraudulent conduct relating to a material matter on the part of the wholesaler;

(b) The wholesaler failed to confine its sales of a brand or brands to retailers in its designated sales territory. This subdivision shall not apply if there is a dispute between two or more wholesalers as to the boundaries of the assigned territory and the boundaries cannot be determined by a reading of the description contained in the agreements between the supplier and the wholesalers;

(c) A wholesaler who has failed to pay for beer ordered and delivered in accordance with established terms with the supplier fails to make full payment within two business days after receipt of written notice of the delinquency and demand for immediate payment from the supplier;

(d) A wholesaler intentionally has made a transfer of the wholesaler's business, other than a transfer to a designated member or pursuant to a loan agreement or debt instrument, without prior written notice to the supplier and has failed, within thirty days from the receipt of written notice from the supplier of its intent to terminate on the ground of such transfer, to reverse the transfer of the wholesaler's business;

(e) A wholesaler intentionally has made a transfer of his or her business, other than a transfer to a designated member, although the wholesaler has prior to the transfer received from the supplier a timely notice of disapproval of the transfer in accordance with sections 53-201 to 53-223; or

(f) The wholesaler intentionally ceases or ceases for a period of more than thirty-one days to carry on business with respect to any of the supplier's brand or brands previously serviced by a wholesaler in its sales territory designated by the supplier unless such cessation is due to a force beyond the control of the wholesaler or to a labor dispute and the wholesaler has made good faith efforts to overcome such events. This subdivision shall affect only that brand or brands with respect to which the wholesaler ceased to carry on business.

(7) Notwithstanding subsections (1), (3), (5), and (6) of this section, a supplier may cancel, terminate, not renew, or discontinue an agreement upon not less than thirty days' written notice if the supplier discontinues production or discontinues distribution in this state of all the brands sold by the supplier to the wholesaler. Nothing in this section shall prohibit a supplier from (a) upon not less than thirty days' written notice, discontinuing the distribution of any particular brand or package of beer or (b) conducting test marketing of a new brand of beer or of a brand of beer which is not currently being sold in this

state if the supplier has notified the Nebraska Liquor Control Commission in writing of its plans to test market. The notice to the commission shall describe the market area in which the test will be conducted, the name or names of the wholesaler or wholesalers who will be selling the beer, the name or names of the brand of beer being tested, and the period of time, not to exceed eighteen months, during which the testing will take place.

Each wholesaler shall, to the extent permitted by the Nebraska Liquor Control Act and the rules and regulations adopted and promulgated pursuant to such act:

(a) Rotate the beer it sold to a retailer no less frequently than may be specified from time to time by the brand owner so that beer produced first will be sold first;

(b) Clean and maintain tap equipment and provide related services as may be specified from time to time by the brand owner;

(c) Remove and replace with the same kind of beer any beer it sold to a retailer which has not been resold to a consumer within the time limits specified by the brand owner; and

#### **54-198 Recorded livestock brand; requirements; in-herd identification; prohibited act.**

(1) Any person having livestock may record a brand, which he or she has the exclusive right to use in this state, and it is unlawful to use any brand for branding any livestock unless the person using such brand has recorded that brand with the Nebraska Brand Committee. A brand is a mark consisting of symbols, characters, numerals, or a combination of such intended as a visual means of identification when applied to the hide of an animal or another method of livestock identification approved by rule and regulation of the brand committee, including an electronic device used for livestock identification. Only a hot iron or freeze brand or other method approved by the brand committee shall be used to brand a live animal.

(2) A hot iron brand or freeze brand may be used for in-herd identification purposes such as for year or production records. With respect to hot iron brands used for in-herd identification, the numerals 0, 1, 2, 3, 4, 5, 6, 7, 8, and 9 in singular or triangular position are reserved on both the right and left shoulder of all cattle, except that such shoulder location for a single-number hot iron brand may be used for year branding for in-herd identification purposes, and an alphabetical letter may be substituted for one of the numerals used in a triangular configuration for in-herd identification purposes. Hot iron brands used for in-herd identification shall be used in conjunction with the

recorded hot iron brand and shall be on the same side of the animal as the recorded hot iron brand. Freeze branding for in-herd identification may be applied in any location and any configuration with any combination of numerals or alphabetical letters.

(3) It shall be unlawful to knowingly maintain a herd containing one or more animals which the possessor has branded, or caused to be branded, in violation of this section or any other provision of the Livestock Brand Act.

**54-199 Livestock brand; application; fee; requirements; issuance.**

(1) To record a brand, a person shall forward to the Nebraska Brand Committee a facsimile or description of the brand desired to be recorded, a written application, and a recording fee established by the brand committee. Such recording fee may vary according to the number of locations and methods of brand requested but shall not be more than one hundred dollars per application.

(2) For recording of visual brands, upon receipt of a facsimile of the brand, an application, and the required fee, the brand committee shall determine compliance with the following requirements:

(a) The brand shall be an identification mark that is applied to the hide of a live animal by hot iron branding or by either hot iron branding or freeze branding. The brand shall be on either side of the animal in any one of three locations, the shoulder, ribs, or hip;

(b) The brand is not recorded under the name of any other person and does not conflict with or closely resemble a prior recorded brand;

(c) The brand application specifies the left or right side of the animal and the location on that side of the animal where the brand is to be placed;

(d) The brand is not recorded as a trade name nor as the name of any profit or nonprofit corporation, unless such trade name or corporation is of record, in current good standing, with the Secretary of State; and

(e) The brand is, in the judgment of the brand committee, legible, adequate, and of such a nature that the brand when applied can be properly read and identified by employees of the brand committee.

(3) All visual brands shall be recorded as a hot iron brand only unless a co-recording as a freeze brand or other approved method of branding is requested by the applicant. The brand committee shall approve co-recording a brand as a freeze brand unless the brand would not be distinguishable from in-herd identification applied by freeze branding.

(4) The brand committee may, by rule and regulation, provide for the recording and use of brands by electronic device or other nonvisual method of livestock identification. Any such method of livestock identification shall be approved as a brand only if it functions as a means of identifying ownership of livestock so branded that is equal to, or superior to, visual methods of livestock branding. Before approving any nonvisual method of branding, the brand committee shall consider the degree to which such method may be susceptible to error, failure, or fraudulent alteration. Any rule or regulation shall be adopted only after public hearing conducted in compliance with the Administrative Procedure Act.

(5) If the facsimile, the description, or the application does not comply with the requirements of this section, the brand committee shall not record such brand as requested but shall return the recording fee to the forwarding person. The power of examination and rejection is vested in the brand committee, and if the brand committee determines that the application for a visual brand falls within the category set out in subdivision (2)(e) of this section, it shall decide whether or not a recorded brand shall be issued. The brand committee shall make such examination as promptly as possible. If the brand is recorded, the ownership vests from the date of filing of the application.

Brand on livestock is presumptive evidence of ownership.

**54-1,100 Recorded brand; transfer; lien or security interest; notice; effect; fee; effect.**

A recorded brand is the property of the person causing such record to be made and is subject to sale, assignment, transfer, devise, and descent as personal property. Any instrument of writing evidencing the sale, assignment, or transfer of a recorded brand shall be effective upon its recording with the Nebraska Brand Committee. No such instrument shall be accepted for recording if the brand committee has been duly notified of the existence of a lien or security interest against livestock owned or thereafter acquired by the owner of such brand by the holder of such lien or security interest. Written notification from the holder of such lien or security interest that the lien or security interest has been satisfied or consent from the holder of such lien or security interest shall be required in order for the brand committee to accept for recording an instrument selling, assigning, or transferring such recorded brand. The fee for recording such an instrument shall be established by the brand committee and shall not be more than forty dollars. Such instrument shall give notice to all third persons of the matter recorded in the instrument and shall be acknowledged by a notary public or any other officer qualified under law to administer oaths.

**54-1,101 Recorded brand; owner; copies of record.**

The owner of a recorded brand is entitled to one certified copy of the record of such brand from the Nebraska Brand Committee without charge. Additional certified copies of the record may be obtained by anyone upon the payment of one dollar for each copy.

Copies of any other document of the brand committee may be requested, and a fee of one dollar shall be collected for each page copied. Only personnel authorized by the brand committee shall make copies and collect such fees. The party requesting the copies is responsible for payment of the fee and shall reimburse the brand committee for the research time necessary to furnish the requested documents at a rate of not less than twelve nor more than twenty

dollars per hour of research time. The rate shall be reviewed and set annually by the brand committee.

**Source:** Laws 1999, LB 778, § 32.

**54-1,102 Recorded brand; use; expiration date; renewal fee; expired brand; reinstated.**

(1) A recorded brand may be applied by its owner until its expiration date.

(2) On and after January 1, 1994, the expiration date of a recorded brand is the last day of the calendar quarter of the renewal year as designated by the Nebraska Brand Committee in the records of the brand committee.

(3) The brand committee shall notify every owner of a recorded brand of its expiration date at least sixty days prior to the expiration date, and the owner of the recorded brand shall pay a renewal fee established by the brand committee which shall not be more than fifty dollars and furnish such other information as may be required by the brand committee. The renewal fee is due and payable on or before the expiration date and renews a recorded brand for a period of four years regardless of the number of locations on one side of an animal on which the brand is recorded. If any owner fails, refuses, or neglects to pay the renewal fee by the expiration date, the brand shall expire and be forfeited.

(4) The brand committee has the authority to hold an expired brand for one year following the date of expiration. An expired brand may be reinstated by the same owner during such one-year period upon return of a brand application form and payment of the recording fee for such brand established by the brand committee under section 54-199 plus a penalty of five dollars for each month or part of a month which has passed since the date of expiration. A properly reinstated brand may be transferred to another person during such one-year period upon completion of a transfer form, with a notarized bill of sale signed by the prior owner attached to such transfer form.

**54-1,103 Reserved brands; use.**

(1) Cattle brands consisting of alphabetical letters A through Z, and numbers 1, 2, 3, 4, 5, 6, 7, 8, and 9 on the left or right jaw are reserved for assignment by the brand recorder, as designated by the Nebraska Brand Committee. The brand recorder shall not assign such brands to any person in the State of Nebraska unless authorized by the brand committee, and it shall be unlawful for any person to use such brands except as provided in subsection (2) of this section.

(2) Every person when spaying heifers, upon request of the owner thereof, shall brand such heifers with the alphabetical letter O on the left jaw and furnish the owner with a certificate that all heifers so branded have been properly spayed by a licensed veterinarian. Permission may be granted by the brand committee to state and federal animal disease control agencies to require the use of the letters F, V, B, S, and T and an open-end spade on either the right or left jaw of cattle in a manner consistent with animal disease control laws.

**Source:** Laws 1999, LB 778, § 34.

**54-1,104 Brand assigned to committee.**

There is a recorded brand consisting of the alphabetical letter N on the entire right and left sides which is assigned to the Nebraska Brand Committee to be used only by authorized personnel of the brand committee to permanently identify livestock which are suspected of having been stolen and may be used as evidence in any court proceeding. It shall in no way signify that the brand committee (1) is the owner of livestock so branded or (2) claims ownership in any livestock carrying such brand. It shall only be construed and intended that livestock so branded are evidence or portions of evidence seized relative to an alleged theft of livestock.

**Source:** Laws 1999, LB 778, § 35.

**54-1,105 Brands; distinction requirements.**

(1) Cattle branded with a Nebraska-recorded visual brand shall be branded so that the recorded brand of the owner shows distinctly. Sheep may be marked distinctly with such mark or device as may be sufficient to distinguish the same readily should they become intermixed with other flocks of sheep.

(2) If the owners of recorded brands which conflict with or closely resemble each other maintain their herds in close proximity to each other, the brand committee has the authority to decide, after hearing as to which at least ten days' written notice has been given, any dispute arising therefrom and to direct such change or changes in the position or positions where such recorded brand or brands are to be placed as will remove any confusion that might result from such conflict or close resemblance.

**54-1,106 Grazing livestock; requirements.**

A person who brings livestock into any county of this state for grazing purposes which are already branded shall provide the Nebraska Brand Committee with a statement of the brands of such livestock. Failure to comply with this section renders the violating person liable for all damages resulting from such failure.

**Source:** Laws 1999, LB 778, § 37.

**54-1,107 Recorded brand; evidentiary effect.**

A recorded brand is prima facie evidence of ownership of livestock and is admissible into evidence in any court in this state if the brand meets the requirements of and is recorded as provided in section 54-199. Other documentary evidence such as bills of sale or certificates of brand clearance transferring title from an owner to another party may also be introduced as evidence of livestock ownership in any court in this state. The recording of instruments of writing evidencing the sale, assignment, or transfer of a recorded brand gives notice to all third persons of the matter recorded, and certified copies are admissible in evidence without further foundation. In all suits at law or in equity, in any criminal proceedings, or when determining the ownership of estrays wherein the title to livestock is an issue, the certified copy of the record of a recorded brand or instrument of writing evidencing sale, assignment, or transfer of a recorded brand is prima facie evidence of the ownership of such livestock by the person possessing such livestock.

**Source:** Laws 1999, LB 778, § 38.

“Prima facie evidence of ownership” means that in the absence of other evidence, proof of ownership of the brand is sufficient to constitute a prima facie case which will withstand a motion for a directed verdict on that issue. *Broken Bow Prod. #### **54-1,108 Brand inspections; when; fees; reinspection; when.**

(1) All brand inspections provided for in the Livestock Brand Act or section 54-415 shall be from sunrise to sundown or during such other hours and under such conditions as the Nebraska Brand Committee determines.

(2) A fee, established by the Nebraska Brand Committee, of not more than seventy-five cents per head shall be charged for all cattle inspected in accordance with the Livestock Brand Act or section 54-415 or inspected within the brand inspection area by court order or at the request of any bank, credit agency, or lending institution with a legal or financial interest in such cattle. Such fee may vary to encourage inspection to be performed at times and locations that reduce the cost of performing the inspection but shall otherwise be uniform. The inspection fee for court-ordered inspections shall be paid from the proceeds of the sale of such cattle if ordered by the court or by either party as the court directs. For other inspections, the person requesting the inspection of such cattle is responsible for the inspection fee. If stray cattle are identified as a result of the inspection, such cattle shall be processed in the manner provided by section 54-415.

(3) Any person who has reason to believe that cattle were shipped erroneously due to an inspection error during a brand inspection may request a reinspection. The person making such request shall be responsible for the expenses incurred as a result of the reinspection unless the results of the reinspection substantiate the claim of inspection error, in which case the brand committee shall be responsible for the reinspection expenses.

**Source:** Laws 1999, LB 778, § 40.

**54-1,110 Brand inspection area; brand inspection requirements.**

(1) Except as provided in subsections (2) and (3) of this section, no person shall move, in any manner, cattle from a point within the brand inspection area to a point outside the brand inspection area unless such cattle first have a brand inspection by the Nebraska Brand Committee and a certificate of inspection is issued. A copy of such certificate shall accompany the cattle and shall be retained by all persons moving such cattle as a permanent record.

(2) Cattle in a registered feedlot registered under sections 54-1,120 to 54-1,122 or a registered dairy registered under sections 54-1,122.01 and 54-1,122.02 are not subject to the brand inspection of subsection (1) of this section. Possession by the shipper or trucker of a shipping certificate from the registered feedlot or registered dairy constitutes compliance if the cattle being shipped are as represented on such shipping certificate.

(3) If the line designating the brand inspection area divides a farm or ranch or lies between noncontiguous parcels of land which are owned or operated by the same cattle owner or owners, a permit may be issued, at the discretion of the Nebraska Brand Committee, to the owner or owners of cattle on such farm, ranch, or parcels of land to move the cattle in and out of the brand inspection area without inspection. If the line designating the brand inspection area lies between a farm or ranch and nearby veterinary medical facilities, a permit may be issued, at the discretion of the brand committee, to the owner or owners of cattle on such farm or ranch to move the cattle in and out of the brand inspection area without inspection to obtain care from the veterinary medical facilities. The brand committee shall issue initial permits only after receiving an application which includes an application fee established by the brand committee which shall not be more than fifteen dollars. The brand committee shall mail all current permitholders an annual renewal notice, for January 1 renewal, which requires a renewal fee established by the brand committee which shall not be more than fifteen dollars. If the permit conditions still exist, the cattle owner or owners may renew the permit.

(4) No person shall sell any cattle knowing that the cattle are to be moved, in any manner, in violation of this section. (5) In cases of prosecution for violation of this section, venue may be established in the county of origin or any other county through which the cattle may pass in leaving the brand inspection area.

Brand Inspection Act is not special legislation and is constitutional. *Satterfield v. State*, 172 Neb. 275, 109 N.W.2d 415 (1961).

**54-1,111 Brand inspection area; sale or trade of cattle; requirements.**

(1) Except as provided in subsection (2) of this section, no person shall sell or trade any cattle located within the brand inspection area, nor shall any person buy or purchase any such cattle unless the cattle have been inspected for brands and ownership and a certificate of inspection or brand clearance has been issued by the Nebraska Brand Committee. Any person selling such cattle shall present to the brand inspector a properly executed bill of sale, brand clearance, or other satisfactory evidence of ownership which shall be filed with the original certificate of inspection in the records of the brand committee. Any time a brand inspection is required by law, a brand investigator or brand inspector may transfer evidence of ownership of such cattle from a seller to a buyer by issuing a certificate of inspection.

(2) A brand inspection is not required:

(a) For cattle of a registered feedlot registered under sections 54-1,120 to 54-1,122 shipped for direct slaughter or sale on any terminal market;

(b) For cattle of a registered dairy registered under sections 54-1,122.01 and 54-1,122.02 shipped for direct slaughter or sale on any terminal market;

(c) For cattle that are transferred to a family corporation when all the shares of capital stock of the corporation are owned by the husband, wife, children, or grandchildren of the transferor and there is no consideration for the transfer other than the issuance of stock of the corporation to such family members;

(d) When the change of ownership of cattle is a change in form only and the surviving interests are in the exact proportion as the original interests of ownership. When there is a change of ownership described in subdivision (2)(c) or (d) of this section, an affidavit, on a form prescribed by the Nebraska Brand Committee, signed by the transferor and stating the nature of the transfer and the number of cattle involved and the brands presently on the cattle, shall be filed with the brand committee;

(e) For cattle sold or purchased for educational or exhibition purposes or other recognized youth activities if a properly executed bill of sale is exchanged and presented upon demand. Educational or exhibition purpose means cattle sold or purchased for the purpose of being fed, bred, managed, or tended in a program designed to demonstrate or instruct in the use of various feed rations, the selection of individuals of certain physical conformation or breeds, the measurement and recording of rate of gain in weight or fat content of meat or milk produced, or the preparation of cattle for the purpose of exhibition or for judging as to quality and conformation;

(f) For calves under the age of thirty days sold or purchased at private treaty if a bill of sale is exchanged and presented upon demand; and

(g) For purebred cattle raised by the seller and individually registered with an organized breed association if a properly executed bill of sale is exchanged and presented upon demand.

**Source:** Laws 1999, LB 778, § 42; Laws 2000, LB 213, § 7.

**54-1,112 Brand inspection area; slaughter and hide records.**

(1) Any person located within the brand inspection area who slaughters or has cattle slaughtered for sale or distribution shall keep, in a book for that purpose, a true and faithful record of all cattle purchased and slaughtered.

Such record shall also contain a description of the marks, brands, age, weight, and color of all cattle slaughtered. Such record shall contain the date when the cattle were slaughtered and a notation which sets forth by whom the cattle were raised or from whom purchased.

(2) All persons who purchase hides shall keep a record of all hides of cattle purchased by them, which record shall state the name or names of the person or persons from whom purchased, their place of residence, the date of purchase, and all marks and brands on the hide, and the record shall at all times be open for inspection by any peace officer.

**Source:** Laws 1999, LB 778, § 43.

**54-1,113 Sale or trade of carcass; requirements.**

(1)(a) Inside of the brand inspection area, no person shall sell or trade or offer for sale or trade the carcass of a beef or veal, or any portion thereof, including the hide of such carcass, unless a certificate of inspection is secured from a brand inspector. Such person shall exhibit the certificate of inspection upon the demand of any person.

(b) Outside of the brand inspection area, no person shall sell or offer for sale, except as a butcher bonded under section 54-1,114, the carcass of a beef or veal, or any portion thereof, without first exhibiting the intact hide of the same and exposing the brand upon the hide, if any, to the purchaser. A person selling or offering for sale any such carcass of beef or veal shall preserve the hide of the same for a period of fifteen days unless a certificate of inspection is secured from a brand inspector, and such person shall exhibit the certificate of inspection upon the demand of any person.

(2) No person shall kill for his, her, or its own use and consumption any cattle for beef or veal without preserving the hide of such animal intact with a complete unskinned tail attached thereto for a period of not less than fifteen days unless a certificate of inspection is secured from a brand inspector, and such hide shall be presented for inspection upon demand of any person.

**Source:** Laws 1999, LB 778, § 44.

**54-1,114 Slaughter of cattle; brand inspection requirements.**

(1) Except as provided in subsections (2) and (3) of this section, no butcher, packer, or vendor engaged in the slaughter of cattle within the brand inspection area shall kill or otherwise dispose of any cattle until a brand inspection is performed by the Nebraska Brand Committee on the premises where such slaughter is to take place and until a certificate of inspection from the brand committee is filed and is made a part of such operator's permanent records. All such certificates of inspection shall, upon demand, be displayed to any peace officer or to the brand committee at any time.

(2) If cattle requiring inspection under this section are to be slaughtered and are purchased by such butcher, packer, or vendor at a regularly brand-inspected sales barn and are destined for direct slaughter upon reaching their destination, the brand inspector at such sales barn shall be advised that such cattle are destined for direct slaughter. The brand inspector shall then issue a certificate of inspection for the cattle, such certificate to indicate that the cattle are to go to direct slaughter and that the cattle are not to be retained by such butcher, packer, or vendor for longer than ninety-six hours prior to slaughter.

Cattle inspected at the point of origin by a brand inspector shall not require an additional brand inspection upon reaching a destination within the state if the certificate of inspection designates that the cattle are to go directly for slaughter and not to be retained by such butcher, packer, or vendor longer than ninety-six hours prior to slaughter.

(3) If cattle required to be inspected under this section are offered for slaughter and satisfactory evidence of ownership has not been provided, the butcher, packer, or vendor may, with the approval of the brand inspector, slaughter the cattle and hold the meat until such time as satisfactory evidence of ownership is provided to the brand committee. The brand inspector shall provide the butcher, packer, or vendor with an official notice advising the operator not to release the meat until authorized by the brand committee. The brand committee may provide for a cash bond to be posted with the director of the brand committee so that the meat may be released prior to the establishment of satisfactory evidence of ownership. The amount of the bond shall be set at the approximate value of the cattle. When satisfactory evidence of ownership has been provided by the person offering the cattle for slaughter, the director shall authorize the release of the meat or the return of the bond.

**54-1,115 Livestock transportation permit; requirements.**

(1)(a) Any person, other than the owner or the owner's employee, using a motor vehicle or trailer to transport livestock or carcasses over any land within the brand inspection area not owned or rented by such person or who is so transporting such livestock upon a highway, public street, or thoroughfare within the brand inspection area shall have in his or her possession a livestock transportation permit, certificate of inspection, or shipping certificate from a registered feedlot or registered dairy, authorizing such movement as to each head of livestock transported by such vehicle.

(b) Any such person outside the brand inspection area transporting livestock shall have in his or her possession a livestock transportation permit or other proof of ownership acceptable to the peace officer, the number of livestock, and the destination of the livestock, which permit shall be delivered to the public market or anyone to whom the livestock are being delivered.

(2) A livestock transportation permit shall be in writing and shall state the name of the owner of the livestock, the owner's post office address, the place from which the livestock are being moved, including the name of the ranch, if any, the destination, the name and address of the carrier, the license number and make of motor vehicle to which consigned, together with the number of livestock and a description thereof including kind, sex, breed, color, and marks, if any, and in the case of livestock shipments originating within the brand inspection area, the brands, if there are any. The permit shall be signed by the owner of the livestock or the owner's authorized agent. Livestock transportation permits shall be made in quadruplicate: One to be delivered to the motor carrier or motor carrier's agent, one to be retained by the owner of the livestock to be shipped, one to be delivered to the agent of the yard company receiving such livestock, and one to be delivered to the consignee at destination upon delivery of the consignment. Such permits shall be on forms approved by the Nebraska Brand Committee.

(3) Any peace officer, based upon probable cause to question the ownership of the livestock being transported, may stop a motor vehicle or motor vehicle and trailer and request exhibition of any permit or certificate required by this section.

**54-1,116 Satisfactory evidence of ownership.**

All livestock sold or otherwise disposed of shall be accompanied by a properly executed bill of sale in writing or, for cattle, a certificate of inspection. All owners of or persons possessing livestock have a duty to exhibit, upon request of any person, the bill of sale or other satisfactory evidence of ownership of the livestock.

**Source:** Laws 1999, LB 778, § 47.

**54-1,117 Brand inspection area; intermingling of livestock; effect.**

No consignment of livestock within, entering into, or passing through the brand inspection area, after having been inspected by a brand inspector, shall be permitted to intermingle with any other livestock located within the brand inspection area. If, at any time after brand inspection has been performed or a certificate of inspection has been issued on any shipment of livestock, the livestock become intermingled with other livestock located within the brand inspection area, the original brand inspection is void and before further movement of the livestock out of the brand inspection area may be made, reinspection for identification of brands is required. A brand inspector may require reinspection if he or she has reason to believe a consignment of livestock has become intermingled.

**Source:** Laws 1999, LB 778, § 48.

**54-1,118 Livestock; questions of ownership; procedure.**

If any livestock inspected under the Livestock Brand Act or section 54-415 is unbranded or bears a brand or brands in addition to, or other than, the recorded brand or brands of the shipper or seller, then the shipper or seller may be required to establish his or her ownership of such livestock by exhibiting to the Nebraska Brand Committee a bill of sale to such livestock or by other satisfactory evidence of ownership. If ownership of the livestock is not established, the livestock may be sold, and the selling agent who sells such livestock shall hold the proceeds of the sale. If any shipper or seller who has offered such livestock for sale refuses to accept the bids offered, ownership must be established, or a cash bond posted with the selling agent in an amount equal to the approximate value of the livestock and payable to the brand committee, before such livestock may be removed from the premises. When ownership has been established the cash bond shall be returned to the person who or which posted it.

The shipper or seller of the livestock is required to establish ownership of such livestock within sixty days after its sale. If such shipper or seller establishes ownership of such livestock, the Nebraska Brand Committee shall order the selling agent of such livestock to pay the proceeds of sale to the shipper or

seller. If such shipper or seller fails to establish ownership within the sixty days, such livestock shall be considered an estray and the Nebraska Brand Committee shall order the selling agent to pay the proceeds of sale over to the brand committee. All funds that the brand committee receives from the sale of any estray shall be placed in a separate custodial fund known as the estray fund. The brand committee shall determine the ownership of estrays that originate within the brand inspection area. Such funds shall be disposed of in the manner provided in section 54-415.

**54-1,119 Open market; designation; brand inspection requirements.**

(1) Any livestock market, whether within or outside of the state, or any meat packing plant which maintains brand inspection under the supervision of the Nebraska Brand Committee and under such rules and regulations as are specified by the United States Department of Agriculture, may be designated by the brand committee as an open market.

(2) When cattle originating from within the brand inspection area are consigned for sale to any commission company at any open market designated as such by the Nebraska Brand Committee where brand inspection is maintained, no brand inspection is required at the point of origin but is required at the point of destination unless the point of origin is a registered feedlot or registered dairy. If cattle are consigned to a commission company at an open market, the carrier transporting the cattle shall not allow the owner, shipper, or party in charge to change the billing to any point other than the commission company at the open market designated on the original billing, unless the carrier secures from the brand committee a certificate of inspection on the cattle so consigned. Any cattle originating in a registered feedlot or registered dairy consigned to a commission company at any terminal market destined for direct slaughter may be shipped in accordance with rules and regulations governing registered feedlots or registered dairies.

(3) Until the cattle are inspected for brands on the premises by the Nebraska Brand Committee, no person shall sell or cause to be sold or offer for sale (a) any cattle at a livestock auction market located within the brand inspection area or at a farm or ranch sale located within the brand inspection area or (b) any cattle originating within the brand inspection area consigned to an open market.

**54-1,120 Registered feedlot; application; requirements; fee; inspections; records.**

(1) Any person who operates a cattle feeding operation located within the brand inspection area may make application to the Nebraska Brand Committee for registration as a registered feedlot. The application form shall be prescribed by the brand committee and shall be made available by the director of the brand committee for this purpose upon written request. If the applicant is an individual, the application shall include the applicant's social security number. After the brand committee has received a properly completed application, an

agent of the brand committee shall within thirty days make an investigation to determine if the following requirements are satisfied:

- (a) The operator's feedlot must be permanently fenced; and
- (b) The operator must commonly practice feeding cattle to finish for slaughter.

If the application is satisfactory, and upon payment of a registration fee by the applicant, the brand committee shall issue a registration number and registration certificate valid for one year unless rescinded for cause. If the registration is rescinded for cause, any registration fee shall be forfeited by the applicant. The fees for registered feedlots shall be not less than one hundred dollars nor more than six hundred fifty dollars for each such registered feedlot having one thousand head or less capacity and an equal amount for each additional one thousand head capacity, or part thereof, of such registered feedlot. The brand committee shall set the fee per one thousand head capacity so as to correspond with the inspection fee provided under section 54-1,108. The registration fee shall be paid on an annual basis.

(2) The brand committee may adopt and promulgate rules and regulations for the operation of registered feedlots to assure that brand laws are complied with, that registered feedlot shipping certificates are available, and that proper records are maintained. Violation of sections 54-1,120 to 54-1,122 subjects the operator to revocation or suspension of the feedlot registration issued. Sections 54-1,120 to 54-1,122 shall not be construed as prohibiting the operation of nonregistered feedlots.

(3) Registered feedlots are subject to inspection at any reasonable time at the discretion of the brand committee and its authorized agents, and the operator shall show cattle purchase records or certificates of inspection to cover all cattle in his or her feedlot. Cattle having originated from such registered feedlots may from time to time, at the discretion of the committee, be subject to a spot-check inspection and audit at destination to enable the brand committee to assure satisfactory compliance with the brand laws by the registered feedlot operator.

(4) The operator of a registered feedlot shall keep cattle inventory records. A form for such purpose shall be prescribed by the brand committee. The brand committee and its employees may from time to time make spot checks and audits of the registered feedlots and the records of cattle on feed in such feedlots.

(5) The brand committee may rescind the registration of any registered feedlot operator who fails to cooperate or violates the laws or rules and regulations of the brand committee covering registered feedlots.

#### **54-1,121 Registered feedlot; cattle shipment; requirements.**

Cattle sold or shipped from a registered feedlot, for purposes other than direct slaughter or sale on any terminal market, are subject to the brand inspection under sections 54-1,110 to 54-1,119, and the seller or shipper shall bear the cost of such inspection at the regular fee.

Any other cattle shipped from a registered feedlot are not subject to brand inspection at origin or destination, but the shipper must have a shipping certificate from the registered feedlot. The shipping certificate form shall be

prescribed by the Nebraska Brand Committee and shall show the registered feedlot operator's name and registration number, date shipped, destination, agency receiving the cattle, number of head in the shipment, and sex of the cattle. The shipping certificate shall be completed in triplicate by the registered feedlot operator at the time of shipment. One copy thereof shall be delivered to the brand inspector at the market along with shipment, if applicable, one copy shall be sent to the brand committee by the tenth day of the following month, and one copy shall be retained by the registered feedlot operator. If a shipping certificate does not accompany a shipment of cattle from a registered feedlot to any destination where brand inspection is maintained by the brand committee, all such cattle shall be subject to a brand inspection and inspection fees shall be charged for the service.

**54-1,122 Registered feedlot; cattle received; requirements.**

Any cattle originating in a state that has a brand inspection agency and which are accompanied by a certificate of inspection or brand clearance issued by such agency may be moved directly from the point of origin into a registered feedlot. Any cattle not accompanied by such a certificate of inspection or brand clearance or by satisfactory evidence of ownership from states or portions of states not having brand inspection shall be inspected for brands by the Nebraska Brand Committee within a reasonable time after arrival at a registered feedlot, and the inspection fee provided under section 54-1,108 shall be collected by the brand inspector at the time the inspection is performed.

If the applicant is an individual, the application shall include the applicant's social security number. After the brand committee has received a properly completed application, an agent of the brand committee shall within thirty days make an investigation to determine if the following requirements are satisfied:

- (a) The operator's dairy must be permanently fenced; and
- (b) The operator must identify each animal individually as directed by the Nebraska Brand Committee.

If the application is satisfactory, and upon payment of a registration fee by the applicant, the brand committee shall issue a registration number and registration certificate valid for one year unless rescinded for cause. If the registration is rescinded for cause, any registration fee shall be forfeited by the applicant. The fee for a registered dairy shall be not less than one hundred dollars nor more than six hundred fifty dollars for each such registered dairy having one thousand head or less capacity and an equal amount for each additional one thousand head capacity, or part thereof, of such registered dairy. The brand committee shall set the fee per one thousand head capacity so as to

correspond with the inspection fee provided under section 54-1,108. The registration fee shall be paid on an annual basis.

(2) The brand committee may adopt and promulgate rules and regulations for the operation of registered dairies to assure that brand laws are complied with, that registered dairy shipping certificates are available, and that proper records are maintained. This section shall not be construed as prohibiting the operation of nonregistered dairies.

(3) A registered dairy is subject to inspection at any reasonable time at the discretion of the brand committee and its authorized agents, and the operator shall show cattle purchase records or certificates of inspection to cover all cattle in his or her dairy. Cattle having originated from any such registered dairy may from time to time, at the discretion of the committee, be subject to a spot-check inspection and audit at the destination to enable the brand committee to assure satisfactory compliance with the brand laws by the registered dairy operator.

(4) The operator of a registered dairy shall keep cattle inventory records. A form for such purpose shall be prescribed by the brand committee. The brand committee and its employees may from time to time make spot checks and audits of registered dairies and the records of cattle in such registered dairies.

(5) The brand committee may rescind or suspend the registration of any registered dairy operator who fails to cooperate or violates the laws or rules and regulations of the brand committee covering registered dairies.

(3) Any cattle originating in a state that has a brand inspection agency and which are accompanied by a certificate of inspection or brand clearance issued by such agency may be moved directly from the point of origin into a registered dairy. Any cattle not accompanied by such a certificate of inspection or brand clearance or by satisfactory evidence of ownership from states or portions of

states not having brand inspection shall be inspected for brands by the Nebraska Brand Committee within a reasonable time after arrival at a registered dairy, and the inspection fee provided under section 54-1,108 shall be collected by the brand inspector at the time the inspection is performed.

(1) When any person, firm, corporation, partnership, or limited liability company not provided for in subsection (2) of this section procures, contracts with, or hires any other person, firm, corporation, partnership, or limited liability company to feed and take care of any kind of livestock, the person, firm, corporation, partnership, or limited liability company so procured, contracted with, or hired shall have a first, paramount, and prior lien upon such livestock for the feed and care furnished for the contract price agreed upon or, in case no price has been agreed upon, for the reasonable value of such feed and care, as long as the holders of any prior liens shall have agreed in writing to the contract for the feed and care of the livestock involved. A lien created under this subsection shall be treated in all respects as an agricultural lien as provided in article 9, Uniform Commercial Code, and may be enforced in the manner and form provided for the enforcement of secured transactions as provided in article 9, Uniform Commercial Code. A lien created under this subsection shall be perfected as provided in article 9, Uniform Commercial Code. Any financing statement filed to perfect such lien shall be filed prior to

removal of such livestock from the premises of the person, firm, corporation, partnership, or limited liability company entitled to a lien and shall contain or have attached thereto (a) the name and address and the social security number or federal tax identification number of the person, firm, corporation, partnership, or limited liability company claiming the lien, (b) the name and address and the social security number or federal tax identification number, if known, of the person, firm, corporation, partnership, or limited liability company for whom the feeding and care were furnished, (c) a description of the livestock fed and furnished care, and (d) the amount justly due for the feeding and care. The failure to include the social security number or federal tax identification number shall not render any filing unperfected. At the time the lien is filed, the lienholder shall send a copy to the person, firm, corporation, partnership, or limited liability company for whom the feeding and care were furnished. The fee for filing, amending, or releasing such lien shall be the same as set forth in section 9-525, Uniform Commercial Code.

(2) When any person, firm, corporation, partnership, or limited liability company whose residence or principal place of business is located outside the State of Nebraska procures, contracts with, or hires any other person, firm, corporation, partnership, or limited liability company within the State of Nebraska to feed and take care of any kind of livestock, the person, firm, corporation, partnership, or limited liability company so procured, contracted with, or hired shall have a first, paramount, and prior lien upon such livestock for the feed and care furnished for the contract price agreed upon or, in case no price has been agreed upon, for the reasonable value of such feed and care. A lien created under this subsection shall be treated in all respects as an agricultural lien as provided in article 9, Uniform Commercial Code, and may be enforced in the manner and form provided for the enforcement of secured transactions as provided in article 9, Uniform Commercial Code. A lien created under this subsection shall be perfected as provided in article 9, Uniform Commercial Code. The failure to include the social security number or federal tax identification number shall not render any filing unperfected. At the time the lien is filed, the lienholder shall send a copy to the person, firm, corporation, partnership, or limited liability company for whom the feeding and care were furnished. The fee for filing, amending, or releasing such lien shall be the same as set forth in section 9-525, Uniform Commercial Code.

2. Priority of lien
3. Miscellaneous

#### 1. Nature of lien

This section provides the agister with a lien upon the stock for the agister's keeping, and the owner cannot lawfully obtain possession of the stock until the owner has paid or tendered to the agister the amount due for the feed and care. *Graff v. Burnett*, 226 Neb. 710, 414 N.W.2d 271 (1987).

Priority, as used in this section and UCC section 9-310, means first in time. *Washington County Bank v. Red Socks Stables*, 221 Neb. 300, 376 N.W.2d 782 (1985).

Subsection (1) of this section gives Nebraska agisters a first lien for services rendered to a Nebraska livestock owner if the holders of any prior liens on that livestock agree in writing to the contract for the care and feeding of that livestock. *Washington County Bank v. Red Socks Stables*, 221 Neb. 300, 376 N.W.2d 782 (1985).

Subsection (2) of this section gives Nebraska agisters a lien prior to any other liens without a written agreement to the contract for care and feeding of the livestock, if the party contracting for the agister's services is a nonresident of Nebraska. *Washington County Bank v. Red Socks Stables*, 221 Neb. 300, 376 N.W.2d 782 (1985).

This section creates a statutory agister's lien within the meaning of UCC section 9-310. *Washington County Bank v. Red Socks Stables*, 221 Neb. 300, 376 N.W.2d 782 (1985).

Caretaker has lien for care of livestock. *Stickell v. Hagerty*, 158 Neb. 34, 62 N.W.2d 107 (1954).

One who receives animals under an agreement to share in increase has an agister's lien. *Schrandt v. Young*, 62 Neb. 254, 86 N.W. 1085 (1901).

Lien arises only by contract. *Hale v. Wigton*, 20 Neb. 83, 29 N.W. 177 (1886).

#### 54-201.01 Legislative intent.

The Legislature hereby recognizes and declares that the livestock industry is an integral component in the economy of this state and that the continued viability of such industry is essential to the prosperity and well-being of all citizens of this state. The Legislature further recognizes that the livestock industry of this state provides food for the state, the nation, and the world, and that the benefits of a financially sound industry are far reaching. It is hereby declared to be the purpose of sections 54-201 and 54-201.01 to afford protection to those persons involved in the care and feeding of livestock in this state by providing some security of compensation for services rendered.

#### 2. Priority of lien

Agister's lien under feeding contract is superior to subsequent chattel mortgage. *Hoerler v. Prey*, 125 Neb. 822, 252 N.W. 327 (1934).

Lien is superior to mortgage executed after it has attached and while property is in possession of agister. *Becker v. Brown*, 65 Neb. 264, 91 N.W. 178 (1902).

Under this section, a prior recorded chattel mortgage is superior to claim of agister for keeping animals. *State Bank of Nebraska v. Lowe*, 22 Neb. 68, 33 N.W. 482 (1887).

Lien of liveryman failing to maintain possession of horses is inferior to mortgage executed after possession is relinquished. *Marseilles Mfg. Co. v. Morgan*, 12 Neb. 66, 10 N.W. 462 (1881).

#### 3. Miscellaneous

Once it is determined a person is protected by the statutory lien granted an agister, the statute will be liberally construed so its object will be effectuated. *Mousel v. Daringer*, 190 Neb. 77, 206 N.W.2d 579 (1973).

It is not necessary for agister to follow statute in foreclosure if consent of bailor is had, and under circumstances not tending to injure third parties. *Dale v. Council Bluffs Savings Bank*, 65 Neb. 692, 91 N.W. 526 (1902); reversed on rehearing, 65 Neb. 694, 94 N.W. 983 (1903).

The taking by the owner of livestock from the possession of agister without his consent does not divest his lien, and subsequent purchaser is charged with notice of the lien. *Weber Bros. v. Whetstone*, 53 Neb. 371, 73 N.W. 695 (1898).

One who cares for livestock under contract with owner has agister's lien, and owner cannot obtain possession by legal process until he has paid or tendered the full amount due. *Kroll v. Ernst*, 34 Neb. 482, 51 N.W. 1032 (1892).

Person furnishing feed and care to livestock can hold stock against owner who contracted for care until amount due is paid, but cannot hold where contract was not made with owner. *Gates v. Parrott*, 31 Neb. 581, 48 N.W. 387 (1891).

**54-207 Transferred to section 52-1506.**

**54-208 Lien for feed, feed ingredients, and related costs; perfection; financing statement; filing; enforcement; fee.**

When any person, firm, partnership, limited liability company, or corporation contracts or agrees with another person, firm, partnership, limited liability company, or corporation to deliver any feed or feed ingredients for any kind of livestock, the person, firm, partnership, limited liability company, or corporation so contracted or agreed with shall have a lien upon such livestock for the feed or feed ingredients and related costs incurred in the delivery of such feed or feed ingredients for the agreed-upon contract price or, in case no price has been agreed upon, for the reasonable value of such feed or feed ingredients and related delivery costs, which shall be a first, paramount, and prior lien if the holders of any prior liens have agreed in writing to the contract for the feed or feed ingredients and related delivery costs. The lien may only be enforced against the person, firm, partnership, limited liability company, or corporation who has contracted or agreed for such feed or feed ingredients and related costs incurred in the delivery of such feed or feed ingredients.

A lien created under this section shall be perfected as provided in article 9, Uniform Commercial Code. Any financing statement filed to perfect such lien shall contain or have attached thereto:

- (1) The name and address and the social security number or federal tax identification number of the person, firm, partnership, limited liability company, or corporation claiming the lien;
- (2) The name and address and the social security number or federal tax identification number, if known, of the person, firm, partnership, limited liability company, or corporation for whom such feed or feed ingredients were delivered;
- (3) The amount due for such feed or feed ingredients and related delivery costs covered by the lien;
- (4) The place where such livestock are located;
- (5) A reasonable description of such livestock including the number and type of such livestock; and
- (6) The last date on which such feed or feed ingredients were delivered.

The failure to include the social security number or federal tax identification number shall not render any filing unperfected. At the time the lien is filed, the lienholder shall send a copy to the person, firm, partnership, limited liability company, or corporation for whom the feed or feed ingredients were delivered.

Such lien shall attach and have priority as of the date of the filing if filed in the manner provided in this section. Such lien shall be treated in all respects as an agricultural lien as provided in article 9, Uniform Commercial Code, and may be enforced in the manner and form provided for the enforcement of secured transactions as provided in article 9, Uniform Commercial Code.

The fee for filing, amending, or releasing such lien shall be the same as set forth in section 9-525, Uniform Commercial Code.

Nothing in this section shall be construed to amend or repeal section 54-201 relating to agisters' liens.

**54-209 Lien satisfied; termination statement; procedure.**

(1) When a lien created under section 54-201 or 54-208 is satisfied, the lienholder shall file in the office where the lien is filed a termination statement to the effect that he or she no longer claims an interest under the lien, which shall be identified by file number. A termination statement signed by a person other than the lienholder of record shall be accompanied by a separate written statement of assignment signed by the lienholder of record complying with subsection (b) of section 9-514, Uniform Commercial Code, including payment of the required fee, or reflect that the person signing the termination statement is a successor of the lienholder of record. If the affected lienholder fails to file such a termination statement within thirty days after such lienholder no longer claims an interest, he or she shall be liable to the person, firm, partnership, limited liability company, or corporation for whom the feeding and care were furnished or the feed or feed ingredients were delivered for any losses caused to such person, firm, partnership, limited liability company, or corporation by such failure and for reasonable attorney's fees and court costs.

(2) On presentation to the filing officer of such a termination statement, he or she shall note it in the index. If the filing officer has received the termination statement in duplicate, he or she shall return one copy of the termination statement to the lienholder stamped to show the time of receipt.

(3) There is no fee for the filing of a termination statement.

(4) This section does not apply to a lien created under section 54-201 or 54-208 filed as an agricultural lien under article 9, Uniform Commercial Code, on or after July 1, 2001.

The owner of any stallion, jack, bull, buck, or boar shall restrain the same, and any person may take possession of any such animal running at large in the county in which such person resides, or in which he or she occupies or uses real estate. He or she shall give notice thereof to the sheriff or any constable in the county in which such animal is taken, who shall give notice to the owner of such animal, if known to him or her, by delivering a written notice to the owner, or leaving the same at his or her usual place of abode, giving a description of the animal so taken. If such owner does not appear within ten days after such notice to claim his or her property and pay costs and damages if any, then the sheriff or constable shall sell the animal so taken, at public auction to the highest bidder for cash, having given twenty days' notice of the time and place of sale, with a description of the property, by posting such notice in three public places in the township or precinct in which such animal was found at large. Out of the proceeds of such sale he or she shall pay all costs and any damages done by such animal, to be ascertained and determined by him or her, and the sheriff or constable shall pay the remainder, if any, into the county treasury for the use of the county. If legal proof is made to the county board by the owner of such animal of a right thereto at any time within one year of the sale, the county board shall order the proper amount to be paid to the owner by its warrant drawn for that purpose. If the owner, or any person for him or her, on or before the day of sale shall pay the costs thus far made and all damages, to be determined by the sheriff or constable if the parties cannot agree, and make satisfactory proof of ownership, the sheriff or constable shall release the animal to him or her. This remedy shall not be construed as a

bar to any suit for damages sustained and not covered by the proceeds of the sale as hereinbefore provided.

**54-415 Estrays; distraint; sale; procedure; disposition of proceeds; violations; penalty.**

Any person taking up an estray shall report the same within seven days thereafter to the Nebraska Brand Committee, if within the brand inspection area, or to the county sheriff of the county where the estray was taken up, if not within the brand inspection area. If the animal is determined to be an estray by

a representative of the Nebraska Brand Committee or the county sheriff, as the case may be, such animal shall, as promptly as may be practicable, be sold through the most convenient livestock auction market. The proceeds of such sale, after deducting the selling expenses, shall be paid over to the Nebraska Brand Committee to be placed in the estray fund identified in section 54-1,118, if such estray was taken up within the brand inspection area, and otherwise to the treasurer of the county in which such estray was taken up. During the time such proceeds are impounded, any person taking up such estray may file claim with the Nebraska Brand Committee or the county treasurer, as the case may be, for the expense of feeding and keeping such estray while in his or her possession. When such claim is filed it shall be the duty of the Nebraska Brand Committee or the county board, as the case may be, to decide on the validity of the claim so filed and allow the claim for such amount as may be deemed equitable. When the estray originates within the brand inspection area such proceeds shall be impounded for one year, unless ownership is determined sooner by the Nebraska Brand Committee, and if ownership is not determined within such one-year period, the proceeds shall be paid into the permanent school fund, less the actual expenses incurred in the investigation and processing of the estray fund. Any amount deducted as actual expenses incurred shall be deposited in the Nebraska Brand Inspection and Theft Prevention Fund. When the estray is located outside the brand inspection area and ownership cannot be determined by the county board, the county board shall then order payment of the balance of the sale proceeds less expenses, to the permanent school fund. If the brand committee or the county board determines ownership of an estray sold in accordance with this section by means of evidence of ownership other than the owner's recorded Nebraska brand, an amount not to exceed the actual investigative costs or expenses may be deducted from the proceeds of the sale. Any person who violates this section is guilty of a Class II misdemeanor. The definitions found in sections 54-172 to 54-190 apply to this section.

## (a) DOGS

**54-601 Dogs; personal property; owner liable for damages; exceptions.**

(1) Dogs are hereby declared to be personal property for all intents and purposes, and, except as provided in subsection (2) of this section, the owner or owners of any dog or dogs shall be liable for any and all damages that may accrue (a) to any person, other than a trespasser, by reason of having been bitten by any such dog or dogs and (b) to any person, firm, or corporation by reason of such dog or dogs killing, wounding, injuring, worrying, or chasing any person or persons or any sheep or other domestic animals belonging to such person, firm, or corporation. Such damage may be recovered in any court having jurisdiction of the amount claimed.

(2)(a) A governmental agency or its employees using a dog in military or police work shall not be liable under subsection (1) of this section to a party to, participant in, or person reasonably suspected to be a party to or participant in the act that prompted the use of the dog in the military or police work if the officers of the governmental agency were complying with a written policy on the necessary and appropriate use of a dog for military or police work adopted by the governmental agency and if the damage occurred while the dog was responding to a harassing or provoking act or the damage was the result of a reasonable use of force while the dog or dogs were assisting an employee of the agency in any of the following:

(b) For purposes of this subsection, harassing or provoking act means knowingly and intentionally attempting to interfere with, interfering with, teasing or harassing such dog in order to distract, or agitating or harming such dog.

**1. Liability of owner****2. Miscellaneous****1. Liability of owner**

While this section exempts a dog owner from strict liability for injuries to a trespasser caused by the owner's dog, it does not cut off the common-law tort remedy available to a trespasser for a dog bite. *Guzman v. Barth*, 250 Neb. 763, 552 N.W.2d 299 (1996).

The strict liability of an owner of a dog for all damages that may accrue to any person, other than a trespasser, by reason of having been bitten by such dog, does not extend to the owners of leased property upon which the dog is harbored. *McCullough v. Bozarth*, 232 Neb. 714, 442 N.W.2d 201 (1989).

Dog owners are statutorily liable for any and all damages inflicted by their dog to any person, other than a trespasser, without proof of scienter or knowledge of the dangerous propensities of the dogs for biting and by reason of such dog or dogs killing, wounding, worrying, or chasing domestic animals. *Paulsen v. Courtney*, 202 Neb. 791, 277 N.W.2d 233 (1979).

In an action based upon statutory liability for injury by a dog, the injured person will be barred from recovering if he intentionally provoked the dog, and thereby caused it to attack him. *Paulsen v. Courtney*, 202 Neb. 791, 277 N.W.2d 233 (1979).

The merely playful acts of dogs do not give rise to a cause of action or damages hereunder. *Donner v. Plymate*, 193 Neb. 647, 228 N.W.2d 612 (1975).

Evidence was insufficient to show that injury to sheep was caused by defendant's dogs. *Norman v. Sprague*, 167 Neb. 528, 93 N.W.2d 637 (1958).

Owner of dogs not liable when evidence fails to show injuries to horses directly attributable to dogs. *Cook v. Pickrel*, 20 Neb. 433, 30 N.W. 421 (1886).

This civil dog bite statute creates a cause of action based upon strict liability on the part of the dog owner. *State v. Ruisi*, 9 Neb. App. 435, 616 N.W.2d 19 (2000).

2. Miscellaneous

When the words killing, wounding, worrying, or chasing as used in this section are read together, they exclude playful and mischievous acts of dogs. *Holden v. Schwer*, 242 Neb. 389, 495 N.W.2d 269 (1993).

Question whether seven-year-old child was a trespasser under statute was question for jury, which should have been instructed on definition of trespasser, including element of intent. *Kenney v. Barna*, 215 Neb. 863, 341 N.W.2d 901 (1983).

This section removes the common law restriction of proving scienter or knowledge of the dangerous propensities of dogs, but only as it applies to the actions of dogs specified in the statute. *Paulsen v. Courtney*, 202 Neb. 791, 277 N.W.2d 233 (1979).

Purpose of statute is to protect domestic animals, ordinarily the prey of dogs. No right exists to kill dog for past conduct. *Brown v. Graham*, 80 Neb. 281, 114 N.W. 153 (1907).

Owner can recover value of dog killed, if not running at large. *Nehr v. State*, 35 Neb. 638, 53 N.W. 589 (1892).

**54-602 Dogs owned by different persons; joint liability.**

If two or more dogs owned by different persons shall kill, wound, chase or worry any sheep or other domestic animal, such persons shall be jointly and severally liable for all damage done by such dogs.

**Source:** Laws 1877, § 2, p. 156; R.S.1913, § 173; C.S.1922, § 170; C.S. 1929, § 54-602; R.S.1943, § 54-602.

**54-603 Dogs; license tax; amount; service animal; license; county, city, or village; collect fee; disposition.**

(1) Any county, city, or village shall have authority by ordinance or resolution to impose a license tax, in an amount which shall be determined by the appropriate governing body, on the owner or harbinger of any dog or dogs, to be paid under such regulations as shall be provided by such ordinance or resolutions.

(2) Every service animal shall be licensed as required by local ordinances or resolutions, but no license tax shall be charged. Upon the retirement or discontinuance of the animal as a service animal, the owner of the animal shall be liable for the payment of a license tax as prescribed by local ordinances or resolutions.

(3) Any county, city, or village that imposes a license tax on the owner or harbinger of any cat or cats or any dog or dogs under this section shall, in addition to the license tax imposed by the licensing jurisdiction, collect from the licensee a fee of one dollar. The person designated by the licensing jurisdiction to collect and administer the license tax shall act as agent for the State of Nebraska in the collection of the fee. From each one-dollar fee collected, such person shall retain three cents and remit the balance to the State Treasurer for credit to the Commercial Dog and Cat Operator Inspection Program Cash Fund. If the person collecting the fee is the licensing jurisdiction, the three cents shall be credited to the licensing jurisdiction's general fund. If the person collecting the fee is a private contractor, the three cents shall be credited to an account of the private contractor. The remittance to the State Treasurer shall be made at least annually at the conclusion of the licensing jurisdiction's fiscal year, except that any licensing jurisdiction or private contractor that collects fifty dollars or less of such fees during the fiscal year may remit the fees when the cumulative amount of fees collected reaches fifty dollars.

In counties having a population of eighty thousand or more inhabitants and cities of the first class contained in such counties, whenever complaints are made to the poundmaster or the person or corporation performing the duties of poundmaster that a dog is at large, it shall be the duty of such poundmaster, person, or corporation to investigate such complaint. If upon such investigation it appears that the complaint is founded upon facts, it shall be the duty of such poundmaster, person, or corporation to take such dog into custody and he, she, or it may file or cause to be filed a complaint in the county court against such person, firm, partnership, limited liability company, or corporation owning, keeping, or harboring such dog charging a violation of section 54-601 or 54-608.

**54-611 Dogs in counties having a population of 80,000 inhabitants or more; convictions; disposition of offending dog; costs.**

In counties having a population of eighty thousand or more inhabitants and cities of the first class contained in such counties, if upon final hearing the defendant is adjudged guilty of any violation of section 54-601 or 54-608, the court may, in addition to the penalty provided in section 54-613, order such disposition of the offending dog as may seem reasonable and proper. Disposition includes sterilization, seizure, permanent assignment of the dog to a court-approved animal shelter or animal rescue as such terms are defined in section 28-1018, or destruction of the dog in an expeditious and humane manner. Reasonable costs for such disposition are the responsibility of the defendant.

Because restitution is imposed as punishment and is part of the criminal sentence, a dispositional order pursuant to this section is akin to a sentencing order, and an appellate court reviews the order for an abuse of discretion. *State v. Dittoe*, 269 Neb. 317, 693 N.W.2d 261 (2005).

The provision in this section that allows the court to order disposition of an offending dog is similar to section 29-2280, which allows a court to order restitution to the victim of a crime. *State v. Dittoe*, 269 Neb. 317, 693 N.W.2d 261 (2005).

Such license shall not be transferable to another person or location.

(3)(a) Except as otherwise provided in this subsection, the annual license fee shall be determined according to the following fee schedule based upon the daily average number of dogs or cats housed by the licensee over the previous annual licensure period:

(4) A license to operate as a commercial breeder, a license to operate as a dealer, a license to operate as a boarding kennel, or a license to operate as a pet shop shall be renewed by filing with the department on or before April 1 of each year a renewal application and the annual license fee. A license to operate as an animal control facility, animal rescue, or animal shelter shall be renewed by filing with the department on or before October 1 of each year a renewal application and the annual license fee. Failure to renew a license prior to the expiration of the license shall result in a late renewal fee equal to twenty percent of the annual license fee due and payable each month, not to exceed one hundred percent of such fee, in addition to the license fee. The purpose of the late renewal fee is to pay for the administrative costs associated with the collection of fees under this section. The assessment of the late renewal fee shall not prohibit the director from taking any other action as provided in the act.

(5) A licensee under this section shall make its premises available for inspection pursuant to section 54-628 during normal business hours.

#### **54-701.02 Animal disease control; legislative findings; department; duties.**

The Legislature finds and declares that animal disease control is essential to the livestock industry and the health of the economy of this state. In carrying out its powers and duties, the department shall evaluate activities resulting from the following subdivisions to determine their relevance to protecting the health of livestock and review its available resources. When department funds and personnel are available and such activities are determined by the department to be relevant, feasible, and consistent with the purpose of Chapter 54, article 7, the department:

If an agreement between the State Veterinarian and the respective livestock health committee cannot be reached, the final decision shall be made by the director;

(4) Shall encourage involvement from livestock producers by forming livestock health committees to provide ways for producers to assist the department in developing policy regarding livestock disease issues. Membership of such committees shall be selected by the respective livestock groups. Additional appointments may be made by the director. The purpose of the committees is to advise and recommend, to the department, when a disease or diseases should be monitored by surveillance and what diseases should be considered for proposed legislation for a disease control eradication program;

(5) Shall provide voluntary livestock certification programs as provided in sections 54-797 to 54-7,103;

(6) Shall assist public health agencies, diagnostic laboratories, and researchers in conducting epidemiological studies of diseases known to be, or suspected of being, transmitted from livestock to humans;

A commercial feed shall be deemed to be adulterated if:

In adopting and promulgating such rules and regulations, the director shall adopt and promulgate the current federal Good Manufacturing Practice Regulations for medicated feed premixes and for medicated feeds established under authority of the Federal Food, Drug, and Cosmetic Act unless he or she determines that they are not appropriate to the conditions which exist in this state;

(5) It contains primary noxious weed seeds as defined in section 81-2,147.01;

(6) It contains prohibited noxious weed seeds as defined in section 81-2,147.01 in amounts exceeding the limits which the director shall establish by rule or regulation; or

(7) It has been manufactured, ground, mixed, bagged, or held under unsanitary conditions whereby it may have become contaminated with filth or been rendered injurious to animal health. An animal feed may be deemed to be contaminated with filth if not protected by all reasonable means and as far as necessary from dust, dirt, insect, or bird, rodent, or other animal excretion, and other foreign or injurious contamination.

#### **54-855 Prohibited acts.**

The following acts are prohibited:

(2) The adulteration or misbranding of any commercial feed;

(3) The distribution of agricultural commodities, such as whole seed, hay, straw, stover, silage, cobs, husks, and hulls, which are adulterated within the meaning of subdivision (1) of section 54-854;

(4) The removal or disposal of any commercial feed in violation of an order under section 54-860;

(5) The failure or refusal to comply with section 54-850;

**Source:** Laws 1986, LB 322, § 9; Laws 1992, LB 366, § 17.

#### **54-856 Inspection fees; statement and records required.**

(1) There shall be paid to the director an inspection fee of ten cents per ton on all commercial feed distributed in the State of Nebraska during the six-month period following January 1, 1987. After the first six months of operation, the fee may be raised or lowered by the director after a public hearing is held outlining the reason for any proposed change in the rate. The maximum rate fixed by the director shall not exceed fifteen cents per ton. The inspection fee

shall be paid on commercial feed distributed by the person whose name appears on the label as the manufacturer, guarantor, or distributor, except that a person other than the manufacturer, guarantor, or distributor may assume liability for the inspection fee, subject to the following:

(a) No fee shall be paid on a commercial feed if the payment has been made by a previous distributor;

(b) No fee shall be paid on customer-formula feed if the inspection fee is paid on the commercial feed which is used as ingredients therein;

(c) No fee shall be paid on commercial feed used as ingredients for the manufacture of other commercial feed. If the fee has already been paid, credit shall be given for such payment;

(d) In the case of a commercial feed which is distributed in the state only in packages of ten pounds or less, an annual fee fixed by the director, not to exceed twenty-five dollars, shall be paid in lieu of the inspection fee. The annual fee shall be paid not later than the last day of January each year; and

(e) The minimum inspection fee shall be five dollars for any six-month reporting period.

(2) If the director determines that it is necessary to adjust the rate of the inspection fee being paid to the department, all persons holding a valid license issued pursuant to section 54-850 shall be so notified and shall be given an opportunity to offer comment at a public hearing which shall be required prior to any inspection fee rate change.

(3) Each person who is liable for the payment of such fee shall:

(a) File, not later than January 31 and July 31 of each year, a semiannual statement setting forth the number of tons of commercial feed distributed in this state during the preceding six-month period, which statement shall cover the periods from July 1 to December 31 and January 1 to June 30, and upon filing such statement, pay the inspection fee at the rate specified by this section. Any person who holds a valid license issued pursuant to section 54-850 and whose name appears on the label as the manufacturer, guarantor, or distributor shall file such statement regardless of whether any inspection fee is due. Inspection fees which are due and owing and have not been remitted to the director within fifteen days following the date due shall have a penalty of twenty-five percent of the fees due added to the amount due when payment is made, and an additional penalty of twenty-five percent of the fees due shall be added if such fees are not paid within thirty days of the due date. The assessment of this penalty fee shall not prevent the director from taking other actions as provided in the Commercial Feed Act; and

(b) Keep such records as may be necessary or required by the director to indicate accurately the tonnage of commercial feed distributed in this state. The director shall have the right to examine such records to verify statements of tonnage. Failure to make an accurate statement, to pay the inspection fee, or to comply as provided in this section shall constitute sufficient cause for the cancellation of all licenses on file.

**54-857 Commercial Feed Administration Cash Fund; created; use; investment.**

Such fund shall be used by the department to aid in defraying the expenses of administering the act, except that transfers may be made from the fund to the General Fund at the direction of the Legislature. Any money in the Commercial Feed Administration Cash Fund available for investment shall be invested by the state investment officer pursuant to the Nebraska Capital Expansion Act and the Nebraska State Funds Investment Act.

(1) The director shall adopt and promulgate such rules and regulations for commercial feed and pet food as are specifically authorized in the Commercial Feed Act and such other reasonable rules and regulations as may be necessary for the efficient enforcement of the act. In the interest of uniformity, the director shall adopt and promulgate as rules and regulations, unless he or she determines that they are inconsistent with the act or are not appropriate to conditions which exist in this state, the following:

(a) The Official Definitions of Feed Ingredients and Official Feed Terms adopted by the Association of American Feed Control Officials and published in the official publication of that organization; and

(b) Any regulation relating to commercial feed adopted and promulgated pursuant to the authority of the Federal Food, Drug, and Cosmetic Act.

(2) The Administrative Procedure Act shall apply to the Commercial Feed Act, except that it shall be the duty of the department to provide adequate notice to all persons holding a valid license issued pursuant to section 54-850 of any proposed rule or regulation, amendment to a rule or regulation, or intent to repeal an existing rule or regulation.

**54-859 Enforcement of act; inspections; testing; methods of analysis; results; distribution.**

(1) To enforce the Commercial Feed Act or the rules and regulations adopted pursuant to the act, the director may:

(a) For purposes of inspection, enter any location, vehicle, or both in which commercial feed is manufactured, processed, packed, transported, or held for distribution during normal business hours, except that in the event such locations and vehicles are not open to the public, the director shall present his or her credentials and obtain consent before making entry thereto unless a search warrant has previously been obtained. Credentials shall not be required for each entry made during the period covered by the inspection. The person in charge of the location or vehicle shall be notified of the completion of the

inspection. If the owner of such location or vehicle or his or her agent refuses to admit the director to inspect pursuant to this section, the director may obtain a search warrant from a court of competent jurisdiction directing such owner or agent to submit the location, vehicle, or both as described in such search warrant to inspection;

(b) Inspect any location or vehicle described in this subsection, all pertinent equipment, finished and unfinished materials, containers and labeling, all records, books, papers, and documents relating to the distribution of commercial feed, production and control procedures to determine compliance with the federal Good Manufacturing Practice Regulations, and other information necessary for the enforcement of the act;

(c) Obtain samples of commercial feed. The owner, operator, or agent in charge shall be given a receipt describing the samples obtained; and

(d) Make analyses of and test samples obtained pursuant to subdivision (c) of this subsection to determine whether such commercial feed is in compliance with the act.

For purposes of this subsection, location shall include a factory, warehouse, or establishment.

(2) Sampling and analysis shall be conducted in accordance with methods published by the AOAC International or in accordance with other generally recognized methods.

(3) The results of all analyses of official samples shall be forwarded by the director to the person named on the label. When the inspection and analysis of an official sample indicates a commercial feed has been adulterated or misbranded and upon request within ninety days of the analysis, the director shall furnish to the person named on the label a portion of the sample concerned. Following expiration of the ninety-day period, the director may dispose of such sample.

(4) The director, in determining for administrative purposes whether a commercial feed is deficient in any component, shall be guided by the official sample obtained and analyzed pursuant to this section.

#### **54-860 Violations; order of director or court; seizure of feed.**

(1) When the director has reasonable cause to believe any lot of commercial feed is being distributed in violation of the Commercial Feed Act or any rule or regulation adopted and promulgated pursuant thereto, he or she may issue and enforce a written or printed withdrawal-from-distribution order warning the distributor not to dispose of the lot of commercial feed in any manner until written permission is given by the director or a court of competent jurisdiction. The director shall release the lot of commercial feed so withdrawn when the provisions, rules, and regulations of the act have been complied with. If compliance is not obtained within thirty days, the director may begin, or upon request of the distributor or the person named on the label shall begin, proceedings for condemnation.

(2) Any lot of commercial feed not in compliance with the Commercial Feed Act and the rules and regulations adopted and promulgated pursuant thereto shall be subject to seizure on complaint of the director to a court of competent

jurisdiction in the area in which such commercial feed is located. If the court finds the commercial feed to be in violation of the act or such rules and regulations and orders the condemnation of the commercial feed, such feed shall be disposed of in any manner consistent with the quality of the commercial feed and the laws of the state. In no instance shall the disposition of the commercial feed be ordered by the court without first giving the claimant an opportunity to apply to the court for release of such commercial feed or for permission to process or relabel the commercial feed to bring it into compliance with the act.

(2) Nothing in the Commercial Feed Act shall be construed as requiring the director to (a) report for prosecution, (b) institute seizure proceedings, or (c) issue a withdrawal-from-distribution order, as a result of minor violations of the act or when he or she believes the public interest will best be served by suitable notice of warning in writing.

(3) It shall be the duty of the county attorney of the county in which any violation occurs or is about to occur, when notified by the department of such violation or threatened violation, to pursue appropriate proceedings pursuant to subsection (1) or (4) of this section without delay. Before the director reports a violation, an opportunity shall be given the manufacturer or distributor to present his or her view to the director.

(4) In order to insure compliance with the Commercial Feed Act, the department may apply for a restraining order, a temporary or permanent injunction, or a mandatory injunction against any person violating or threatening to violate the act or the rules and regulations adopted and promulgated pursuant to such act. The district court of the county where the violation is occurring or is about to occur shall have jurisdiction to grant such relief upon good cause shown. Relief may be granted notwithstanding the existence of any other remedy at law and shall be granted without bond.

(5) Any person adversely affected by an act, order, or ruling made by the department pursuant to the Commercial Feed Act may appeal the act, order, or ruling, and the appeal shall be in accordance with the Administrative Procedure Act.

(6) Any person who uses to his or her own advantage or reveals to other than the director, representatives of the department, the Attorney General, other legal representatives of the state, or the courts when relevant in any judicial proceeding any information acquired under the authority of the Commercial Feed Act concerning any method, record, formulation, or process which as a trade secret is entitled to protection shall be guilty of a Class IV misdemeanor. The director shall not be prohibited from exchanging information of a regulato-

ry nature with duly appointed officials of the federal government or other states who are similarly prohibited by law from revealing this information.

The director shall have the power to administer oaths, certify to all official acts, and subpoena and bring before the board any person in this state as a witness, to compel the producing of books and papers, and to take the testimony of any person on deposition in the same manner as is prescribed by law in the procedure before the courts of this state in civil cases. Processes issued by the director shall extend to all parts of the state and may be served by any person authorized to serve processes. Each witness who shall appear by the order of the director at any hearing before the board shall receive for such attendance the same fees allowed by law to witnesses in civil cases appearing in the district court and mileage at the same rate provided in section 81-1176, which amount shall be paid by the party at whose request such witness is subpoenaed. When any witness has not been required to attend at the request of any party, but has been subpoenaed by the director, his or her fees and mileage shall be paid by the director in the same manner as other expenses of the board are paid.

All powers of the director as provided in this section shall likewise be applicable to hearings held on applications for the issuance of a market license.

Formal finding by the board after due hearing that any market license holder: (1) Has ceased to conduct a livestock auction market business; (2) has been guilty of fraud or misrepresentation as to the titles, charges, number, brands, weights, proceeds of sale, or ownership of livestock; (3) has violated any of the provisions of the Livestock Auction Market Act; or (4) has violated any of the rules or regulations adopted and published by the board, shall be sufficient cause for the suspension or revocation of the market license of the offending livestock auction market operator.

All cattle, calves, swine, sheep, and goats, upon entering a livestock auction market, shall be inspected for health before being offered for sale. Such inspection shall be made by a designated veterinarian. The fees for such inspection shall be established by rules and regulations of the State Veterinarian and shall be collected by the operator of the livestock auction market. Such fees shall be used to pay the fees of necessary inspections and for no other purpose and shall be remitted as may be provided by regulation. may terminate it at any time for what he or she deems to be just cause and shall further provide that the state pay such veterinarian a fee as established by section 54-1180, which amount shall be paid monthly from the Livestock Auction Market Fund. Such agreement shall make the designated veterinarian an agent for the Department of Agriculture to perform the duties assigned by sections 54-1180 and 54-1182, and the rules and regulations prescribed by the State Veterinarian, but shall not be deemed to make the designated veterinarian an officer or employee of the state. Such agreement shall provide that the State Veterinarian may terminate it at any time for what he or she deems to be just cause. Such contract shall make the veterinarian an agent for the Department of Agriculture to perform the duties assigned by sections 54-1701 to 54-1711 and the rules and regulations prescribed by the State Veterinarian, but shall not be deemed to make the veterinarian an officer or employee of the state. Such facility shall not be used unless it has been approved by the State Veterinarian.

Livestock moving into a concentration point shall not be removed from the premises until such livestock has been inspected and released by the approved veterinarian. (3) Any person who violates any provisions of sections 54-1901 to 54-1915 or regulations duly promulgated thereunder, for which no other criminal penalty is provided by sections 54-1901 to 54-1915, shall be deemed guilty of a Class II

**54-1914 Director of Agriculture; violations; investigations; powers; subpoenas.**

The director shall have the following additional powers:

(1) Whenever he or she has reason to believe that any licensee may be in possession of information relevant to an investigation by him or her of suspected violations of the provisions of the Nebraska Meat and Poultry Inspection Law or regulations promulgated thereunder, the director may require such person to file with him or her in such form as he or she may prescribe special reports or answers in writing to specific questions, furnishing such information. Such reports and answers shall be made under oath and shall be filed with the director within such reasonable period as the director may prescribe, unless additional time is granted in any case upon prompt application for same.

(2) To have access to all establishments, including any premises where a mobile or remote processing unit is located or utilized, for the purposes of examination or inspection or both at all times and the right to copy any documentary evidence of any person being investigated or proceeded against, and may require by subpoena the attendance and testimony of witnesses and the production of all documentary evidence of any person or the taking of a deposition relating to any matter under his or her investigation. The director may sign subpoenas and may administer oaths and affirmations, examine witnesses, and receive evidence in accordance with the provisions of section 54-1905. No person shall be excused from attending and testifying or from producing books, papers, schedules of charges, contracts, agreements, or other documentary evidence before the director or in obedience to the subpoena of the director, whether such subpoena be signed or issued by the director or his or her delegate, or in any cause or proceeding, criminal or otherwise, based upon or growing out of any alleged violation of the Nebraska Meat and Poultry Inspection Law, or of any amendments thereto, on the ground or for the reason that the testimony or evidence, documentary or otherwise, required of him or her may tend to incriminate him or her or subject him or her to a penalty or forfeiture; but no individual shall be prosecuted or subjected to a penalty or forfeiture for or on account of any transaction, matter, or thing concerning which he or she is compelled, after having claimed his or her privilege against self-incrimination, to testify or produce evidence, documentary or otherwise,

except that any individual so testifying shall not be exempt from prosecution and punishment for perjury committed in so testifying.

Sections 54-2416 to 54-2438 shall be known and may be cited as the Livestock Waste Management Act.

**Source:** Laws 1998, LB 1209, § 1; Laws 1999, LB 822, § 7; Laws 2003, LB 619, § 15; R.S.Supp.,2003, § 54-2401; Laws 2004, LB 916, § 5; Laws 2006, LB 975, § 1.

**54-2417 Terms, defined.**

For purposes of the Livestock Waste Management Act:

(1) Animal feeding operation means a location where beef cattle, dairy cattle, horses, swine, sheep, poultry, or other livestock have been, are, or will be stabled or confined and fed or maintained for a total of forty-five days or more in any twelve-month period and crops, vegetation, forage growth, or post-harvest residues are not sustained in the normal growing season over any

portion of the location. Two or more animal feeding operations under common ownership are deemed to be a single animal feeding operation if they are adjacent to each other or if they utilize a common area or system for the disposal of livestock waste. Animal feeding operation does not include aquaculture as defined in section 2-3804.01;

(2) Best management practices means schedules of activities, prohibitions, maintenance procedures, and other management practices found to be the most effective methods based on the best available technology achievable for specific sites to prevent or reduce the discharge of pollutants to waters of the state and control odor where appropriate. Best management practices also includes operating procedures and practices to control site runoff, spillage, leaks, sludge or waste disposal, or drainage from raw material storage;

(3) Construct means the initiation of physical onsite activities;

(4) Construction and operating permit means the state permit to construct and operate a livestock waste control facility, including conditions imposed on the livestock waste control facility and the associated animal feeding operation;

(5) Construction approval means an approval issued prior to December 1, 2006, by the department allowing construction of a livestock waste control facility;

(6) Council means the Environmental Quality Council;

(7) Department means the Department of Environmental Quality;

(8) Discharge means the spilling, leaking, pumping, pouring, emitting, emptying, or dumping of pollutants into any waters of the state or in a place which will likely reach waters of the state;

(9) Existing livestock waste control facility means a livestock waste control facility in existence prior to April 15, 1998, that does not hold a permit and which has requested an inspection prior to January 1, 2000;

(10) Livestock waste control facility means any structure or combination of structures utilized to control livestock waste at an animal feeding operation until it can be used, recycled, or disposed of in an environmentally acceptable manner. Such structures include, but are not limited to, diversion terraces, holding ponds, debris basins, liquid manure storage pits, lagoons, and other such devices utilized to control livestock waste;

(11) Major modification means an expansion or increase to the lot area or feeding area; change in the location of the animal feeding operation; change in the methods of waste treatment, waste storage, or land application of waste; increase in the number of animals; change in animal species; or change in the size or location of the livestock waste control facility;

(12) National Pollutant Discharge Elimination System permit means either a general permit or an individual permit issued by the department pursuant to subsection (11) of section 81-1505. A general permit authorizes categories of disposal practices or livestock waste control facilities and covers a geographic area corresponding to existing geographic or political boundaries, though it may exclude specified areas from coverage. General permits are limited to the same or similar types of animal feeding operations or livestock waste control facilities which require the same or similar monitoring and, in the opinion of the Director of Environmental Quality, are more appropriately controlled under a general permit than under an individual permit;

(13) New animal feeding operation means an animal feeding operation constructed after July 16, 2004;

(14) New livestock waste control facility means any livestock waste control facility for which a construction permit, an operating permit, a National Pollutant Discharge Elimination System permit, a construction approval, or a construction and operating permit, or an application therefor, is submitted on or after April 15, 1998;

(15) Operating permit means a permit issued prior to December 1, 2006, by the department after the completion of the livestock waste control facility in accordance with the construction approval and the submittal of a completed certification form to the department;

(16) Person has the same meaning as in section 81-1502; and

(17) Waters of the state has the same meaning as in section 81-1502.

#### **54-2418 Department; duties.**

The department shall (1) administer the animal feeding operation permitting program in accordance with the National Pollutant Discharge Elimination System of the federal Clean Water Act, 33 U.S.C. 1251 et seq., through the Environmental Protection Act, the Livestock Waste Management Act, and the rules and regulations adopted and promulgated pursuant to such acts and (2) administer the state program for construction and operating permits and major modification approval for animal feeding operations and livestock waste control facilities provided under the Environmental Protection Act, the Livestock Waste Management Act, and the rules and regulations adopted and promulgated pursuant to such acts.

**Environmental Protection Act**, see section 81-1532.

#### **54-2419 Permits; approval; conditions; restrictions.**

(1) No new animal feeding operation shall be issued a National Pollutant Discharge Elimination System permit or a construction and operating permit in any part of a watershed that feeds directly or indirectly into a cold water class A stream, delineated pursuant to section 54-2421.

(2) An existing animal feeding operation may not expand if its livestock waste control facility is located within one mile of a designated cold water class A stream segment delineated pursuant to section 54-2421 and the same cold water class A stream watershed as the animal feeding operation, except that an existing animal feeding operation used for research sponsored by the University of Nebraska at a facility owned by the University of Nebraska may expand if the department determines based on scientific information provided in the application or other available scientific information that the proposed expansion does not pose a potential threat to the stream.

(3) Existing animal feeding operations may receive a new or modified National Pollutant Discharge Elimination System permit, a new or modified

construction and operating permit, a modified operating permit, or a modified construction approval if:

(a) The existing animal feeding operation does not currently have a National Pollutant Discharge Elimination System permit or a construction and operating permit and upon inspection by the department a determination is made that one is necessary;

(b) The existing animal feeding operation modifies its operation but does not expand its approved livestock waste control facility;

(c) The existing animal feeding operation's livestock waste control facility is located more than two miles from a designated cold water class A stream segment delineated pursuant to section 54-2421 and in the same cold water class A stream watershed as the animal feeding operation; or

(d) The existing animal feeding operation or livestock waste control facility is located less than two miles but more than one mile from a cold water class A stream delineated pursuant to section 54-2421, and the department determines based on scientific information provided in the application or other available scientific information that the proposed expansion does not pose a potential threat to the stream.

(4) The department may deny or restrict an application for a transfer or major modification of an existing National Pollutant Discharge Elimination System permit or a construction and operating permit based upon the potential degradation of a cold water class A stream.

**54-2421 Cold water class A streams; designation.**

A map delineating segments and watershed boundaries for cold water class A streams, as designated prior to May 25, 1999, and prepared by the Department of Environmental Quality and the Department of Natural Resources, shall be maintained by the Department of Environmental Quality and used by the department for determinations made concerning cold water class A streams and stream watersheds under the Livestock Waste Management Act unless changed by the council. Beginning on May 25, 1999, the council may designate and may redesignate previously designated waters of this state as cold water class A streams for purposes of the act based on the determination by the council that the waters provide or could provide habitat of sufficient water volume or flow, water quality, substrate composition, and water temperature capable of maintaining year-round populations of cold water biota, including reproduction of a salmonoid (trout) population. The council shall not designate or redesignate a stream as a cold water class A stream unless the stream has supported the reproduction of a salmonoid (trout) population within the previous five years. The department shall revise and maintain the cold water class A

stream and stream watershed map to incorporate all designations and redesignations of the council.

If an inspection is requested prior to January 1, 1999, an inspection fee for such inspection shall not be assessed. For inspections requested on or after July 16, 2004, there shall be an inspection fee established by the council with a minimum fee of one hundred dollars and a maximum fee of five hundred dollars. Such fee may be set according to animal capacity.

(2) The department shall, in conjunction with natural resources districts and the Cooperative Extension Service of the University of Nebraska, publicize information to make owners and operators of affected animal feeding operations aware of the need to request an inspection.

(3) Any person required to request an inspection under this section who operates an animal feeding operation after January 1, 2000, without first

submitting the request for inspection required under this section shall be assessed, except for good cause shown, a late fee of not less than fifty dollars nor more than five hundred dollars for each offense. Each month a violation continues shall constitute a separate offense. Exceptions to this provision are:

(a) An animal feeding operation exempted by the department from National Pollutant Discharge Elimination System permit requirements prior to July 16, 2004; or

(b) A livestock operation that became an animal feeding operation by enactment of the Livestock Waste Management Act as such act existed on July 16, 2004, but was not required to request an inspection prior to that date.

(4) A person meeting the provisions of subdivision (3)(b) of this section shall request an inspection prior to January 1, 2009, and pay fees required pursuant to subsection (1) of this section.

(5) Any person required to request an inspection under subsection (4) of this section who operates an animal feeding operation after December 31, 2008, shall be assessed, except for good cause shown, a late fee of not less than fifty dollars nor more than five hundred dollars for each offense. **54-2425 National Pollutant Discharge Elimination System permit; department; duties.**

(1) After an initial inspection has been conducted pursuant to section 54-2423 for each new application for a construction and operating permit or major modification submitted to the department, the department shall, within ten days, make a determination as to whether a National Pollutant Discharge Elimination System permit is required for the proposed animal feeding operation. If an application has been submitted prior to an initial inspection being conducted pursuant to section 54-2423, such application shall be returned to the applicant without the department conducting any review of the application.

(2) If it is determined that a National Pollutant Discharge Elimination System permit is required, the department shall contact the applicant to determine whether the applicant requests the department to delay review of the construction and operating permit or major modification application until an individual National Pollutant Discharge Elimination System permit application is submitted.

(3) If the applicant requests the department to delay review of the construction and operating permit or major modification application, upon receipt of the individual National Pollutant Discharge Elimination System permit application and the construction and operating permit or major modification application, the applications shall be reviewed simultaneously utilizing the processes and timelines for review of an individual National Pollutant Discharge Elimination System permit application.

(4) If (a) the department determines a National Pollutant Discharge Elimination System permit is not required or (b) if the applicant requests the department to proceed with review of the construction and operating permit or major modification application independent of a National Pollutant Discharge Elimination System permit application, the department shall, for both subdivisions (4)(a) and (4)(b) of this section:

(i) Within five days send a copy of the application to the natural resources district or districts and the county board or boards of the counties in which the livestock waste control facility is located or proposed to be located. The natural resources district or districts and the county board or boards shall have thirty days to comment to the department regarding any conditions that may exist at the proposed site which the department should consider regarding the content of the application for a construction and operating permit or major modification;

(ii) Within sixty days, (A) issue a proposed decision on the application for a construction and operating permit or major modification and (B) issue a notice providing an opportunity for any interested person to submit written comments on such proposed decision within thirty days after the first day of publication of such notice. The notice shall be published in a daily or weekly newspaper or other publication with general circulation in the area of the existing or proposed animal feeding operation, and a copy of the notice shall be provided to the applicant; and

(iii) Within one hundred ten days approve or deny the application and transmit its findings and conclusions to the applicant.

**Source:** Laws 2004, LB 916, § 14; Laws 2006, LB 975, § 8.

#### **54-2426 Applications; contents.**

Each application for a National Pollutant Discharge Elimination System permit or construction and operating permit shall include, in addition to other requirements, (1) a certification that the information contained in the application is accurate to the best of the applicant's knowledge and belief and that the applicant has the authority under the laws of the State of Nebraska to sign the application and (2) a completed nutrient management plan and supporting documentation unless such information has been previously submitted and is unchanged. The nutrient management plan shall be considered a part of the application. For National Pollutant Discharge Elimination System permits, the plan shall, at a minimum, meet and conform to the requirements of the National Pollutant Discharge Elimination System in the federal Clean Water Act, 33 U.S.C. 1251 et seq. A copy of the nutrient management plan and supporting documentation shall continuously be kept on file at the department. The operator shall at least annually update changes made to the nutrient management plan as required pursuant to rules and regulations adopted and promulgated by the council. For a construction and operating permit, the plan

shall contain, at a minimum, the information which the department required to be included in all nutrient management plans on January 1, 2004.

**54-2427 Public participation; when.**

Once the department has made a determination to approve or deny an application for a National Pollutant Discharge Elimination System permit, the department shall provide opportunities for public participation, including, but not limited to, public comment, opportunity for public hearing, and agency response to comments, which are at least as stringent as the requirements of the National Pollutant Discharge Elimination System in the federal Clean Water Act, 33 U.S.C. 1251 et seq.

**54-2428 National Pollutant Discharge Elimination System permit; construction and operating permit; application and modification; fees; Livestock Waste Management Cash Fund; created; use; investment; report.**

(1) Any person required to obtain a National Pollutant Discharge Elimination System permit for an animal feeding operation or a construction and operating permit for a livestock waste control facility shall file an application with the department accompanied by the appropriate fees in the manner established by the department. The application fee shall be established by the council with a maximum fee of two hundred dollars. For major modifications to an application or a permit, the fee shall equal the amount of the application fee.

(2) On or before March 1, 2006, and each year thereafter, each person who has a National Pollutant Discharge Elimination System permit or who has a large concentrated animal feeding operation, as defined in 40 C.F.R. 122 and 123, as such regulations existed on January 1, 2004, and a state operating permit, a construction and operating permit, or a construction approval issued pursuant to the Environmental Protection Act or the Livestock Waste Management Act shall pay a per head annual fee based on the permitted capacity identified in the permit for that facility. The department shall invoice each permittee by February 1, 2006, and February 1 of each year thereafter.

(3) The initial annual fee shall be: Beef cattle, ten cents per head; veal calves, ten cents per head; dairy cows, fifteen cents per head; swine larger than fifty-five pounds, four dollars per one hundred head or fraction thereof; swine less than fifty pounds, one dollar per one hundred head or fraction thereof; horses, twenty cents per head; sheep or lambs, one dollar per one hundred head or fraction thereof; turkeys, two dollars per one thousand head or fraction thereof; chickens or ducks with liquid manure facility, three dollars per one thousand head or fraction thereof; and chickens or ducks with other than liquid manure facility, one dollar per one thousand head or fraction thereof. This fee structure may be reviewed in fiscal year 2007-08.

(4) Beginning in fiscal year 2007-08, the department shall annually review and adjust the fee structure in this section and section 54-2423 to ensure that fees are adequate to meet twenty percent of the program costs from the previous fiscal year. All fees collected under this section and sections 54-2423, 54-2435, and 54-2436 shall be remitted to the State Treasurer for credit to the Livestock Waste Management Cash Fund which is created for the purposes described in the Livestock Waste Management Act. Transfers may be made

from the fund to the General Fund at the direction of the Legislature. Any money in the Livestock Waste Management Cash Fund available for investment shall be invested by the state investment officer pursuant to the Nebraska Capital Expansion Act and the Nebraska State Funds Investment Act.

(5) On or before January 1 of each year, the department shall submit a report to the Legislature in sufficient detail to document all direct and indirect costs incurred in the previous fiscal year in carrying out the Livestock Waste Management Act, including the number of inspections conducted, the number of animal feeding operations with livestock waste control facilities, the number of animal feeding operations inspected, the size of the livestock waste control facilities, the results of water quality monitoring programs, and other elements relating to carrying out the act. The Appropriations Committee of the Legislature shall review the report in its analysis of executive programs in order to verify that the revenue generated from fees was used solely to offset appropriate and reasonable costs associated with carrying out the act.

(1) An applicant for a National Pollutant Discharge Elimination System permit or a construction and operating permit under the Environmental Protection Act or the Livestock Waste Management Act shall, before issuance by the Department of Environmental Quality, obtain any necessary approvals from the Department of Natural Resources under the Safety of Dams and Reservoirs Act and certify such approvals to the Department of Environmental Quality. The Department of Environmental Quality, with the concurrence of the Department of Natural Resources, may require the applicant to obtain approval from the Department of Natural Resources for any dam, holding pond, or lagoon structure which would not otherwise require approval under the Safety of Dams and Reservoirs Act but which in the event of a failure could result in a significant discharge into waters of the state and have a significant impact on the environment. The Department of Environmental Quality may provide for the payment of such costs of the Department of Natural Resources with revenue generated under section 54-2428.

(2) An applicant required to obtain a National Pollutant Discharge Elimination System permit is subject to the requirements of the Engineers and Architects Regulation Act.

(3) An applicant who has a large concentrated animal feeding operation, as defined in 40 C.F.R. 122 and 123, as such regulations existed on January 1, 2004, and who is required to obtain a construction and operating permit is subject to the requirements of the Engineers and Architects Regulation Act.

(4) An applicant who has a small or medium animal feeding operation, as defined in 40 C.F.R. 122 and 123, as such regulations existed on January 1, 2004, and who is required to obtain a construction and operating permit, but not required to obtain a National Pollutant Discharge Elimination System permit, is exempt from the Engineers and Architects Regulation Act.

(5) The department may require an engineering evaluation or assessment performed by a licensed professional engineer for a livestock waste control facility if after an inspection: (a) The department determines that the facility has (i) visible signs of structural breakage below the permanent pool, (ii) signs of discharge or proven discharge due to structural weakness, (iii) improper maintenance, or (iv) inadequate capacity; or (b) the department has reason to believe that an animal feeding operation with a livestock waste control facility has violated or threatens to violate the Environmental Protection Act, the Livestock Waste Management Act, or any rules or regulations adopted and promulgated under such acts. Animal feeding operations not required to have a permit under the Environmental Protection Act, the Livestock Waste Management Act, or the rules and regulations adopted and promulgated pursuant to such acts are exempt from the Engineers and Architects Regulation Act.

**54-2430 Surface water runoff; diversion requirements; increase in acreage limitation; conditions.**

(1) Except as provided in this section, no new livestock waste control facility shall be constructed and no physical onsite activities specific to a new livestock waste control facility, except the use of a borrow site for construction of other components of the animal feeding operation, shall be initiated unless surface water runoff from the upstream area, except incidental runoff, is adequately diverted around the structure and is not permitted to enter the reservoir area. For purposes of this section, incidental runoff means the runoff that drains from the slope of the embankments, the top of the dam, the reservoir area, the feedlots, the associated roadways, and up to twenty-five acres of additional area that cannot be diverted. Incidental runoff capacity from a twenty-five-year frequency, twenty-four-hour storm shall be provided for in the waste reservoir in addition to the capacity required for the waste effluent or stored materials.

(2) The Department of Natural Resources shall permit a requested increase in the twenty-five-acre limitation for a new livestock waste control facility for an animal feeding operation for which an inspection was requested prior to January 1, 2000, unless the department determines that the detriment to existing water users that would result from permitting the acreage increase would outweigh the detriment to the operator of the animal feeding operation if the increase were not permitted.

(3) For other new livestock waste control facilities, the Department of Natural Resources may permit an increase in the twenty-five-acre limitation if

it determines that (a) the applicant has no reasonable way to limit the amount of the additional runoff acreage to twenty-five acres or less at the proposed location of the livestock waste control facility, (b) the applicant has no reasonable alternative for relocating the livestock waste control facility so that the additional runoff acreage would not exceed twenty-five acres, and (c) either (i) an increase in the permitted runoff acreage would not reduce water supplies to the detriment of existing water users or (ii)(A) the requested facility is for a proposed expansion of an animal feeding operation in existence and in compliance with the Livestock Waste Management Act as of January 1, 2003, (B) the amount of the runoff acreage permitted in excess of the twenty-five-acre limitation is not more than fifteen percent of total permitted feedlot area, and (C) any detriment to existing water users that would result from permitting the acreage increase would be outweighed by the detriment to the operator of the animal feeding operation if the increase were not permitted.

(1) For purposes of this section:

(a) Applicant means the person who has applied for a National Pollutant Discharge Elimination System permit, a construction and operating permit, or a major modification of a National Pollutant Discharge Elimination System permit or construction and operating permit, but does not include any other person who is a relative, partner, member, shareholder, resident, parent company, subsidiary, or other affiliate of the applicant;

(b) Discharge violation means a discharge, found by the department after investigation, notice, and hearing, to have been caused intentionally or negligently by the applicant or permitholder; and

(c) Permitholder means the person who has received a National Pollutant Discharge Elimination System permit, a construction and operating permit, or a major modification of a National Pollutant Discharge Elimination System permit or construction and operating permit, but does not include any other person who is a relative, partner, member, shareholder, resident, parent company, subsidiary, or other affiliate of the permitholder.

(2) Notwithstanding the rules and regulations adopted and promulgated under subdivision (1)(e) of section 54-2435, the department may reject an application for a new National Pollutant Discharge Elimination System permit, an application for a new construction and operating permit, or an application for a major modification of a National Pollutant Discharge Elimination System permit or a construction and operating permit, and the department may revoke or suspend a National Pollutant Discharge Elimination System permit or construction and operating permit, upon a finding pursuant to subsection (3) of this section that the applicant or permitholder is unsuited to perform the obligations of a permitholder.

(3) The applicant or permitholder shall be determined unsuited to perform the obligations of a permitholder if the department finds, upon an investigation and hearing, that within the past five years the applicant or permitholder:

(a) Has committed three separate and distinct discharge violations at the same animal feeding operation in Nebraska owned or operated by the applicant or permitholder; or

(b) Has a criminal conviction for a violation of section 81-1506 or a felony criminal conviction for violation of the environmental law in any jurisdiction.

**Source:** Laws 1999, LB 835, § 1; Laws 2006, LB 856, § 25.

**54-2602 Terms, defined.**

For purposes of the Competitive Livestock Markets Act:

- (1) Animal unit means one head of cattle, three calves under four hundred fifty pounds, or five swine;
- (2) Department means the Department of Agriculture;
- (3) Director means the Director of Agriculture or his or her designee;
- (4) Livestock means live cattle or swine;
- (5) Packer means a person, or agent of such person, engaged in the business of slaughtering livestock in Nebraska in excess of one hundred fifty thousand animal units per year; and
- (6) Person includes individuals, firms, associations, limited liability companies, and corporations and officers or limited liability company members thereof.

**Source:** Laws 1999, LB 835, § 2.

**54-2603 Legislative findings.**

(1) The Legislature finds that family farmers and ranchers have been experiencing, with greater frequency, severely depressed livestock market prices. These market conditions are disproportionately affecting independent producers, which make up the majority of farms and ranches, and are threatening the economic stability of Nebraska's rural communities. The Legislature further finds that packer concentration, vertical integration, and contractual arrangements are undermining the system of price discovery. In the absence of any meaningful federal response to the conditions described, the purpose of the Competitive Livestock Markets Act is to increase livestock market price transparency, ensuring that producers can compete in a free and open market. This is accomplished by establishing minimum price and contract reporting requirements, eliminating volume premiums and volume-based incentives, scrutinizing livestock production contracts and marketing agreements, and statutorily rein-

forcing the constitutional prohibition against the ownership, keeping, or feeding of livestock by packers for the production of livestock or livestock products.

(2) The Legislature further finds that the mandatory reporting of price and other terms in negotiated or contract procurement of livestock that has been in place under the federal Livestock Mandatory Reporting Act of 1999 is an important reform of livestock markets that contributes to greater market transparency, enhances the ability of livestock sellers to more competently and confidently market livestock, and lessens the existence of conditions under which market price manipulation and unfair preference or advantage in packer procurement practices can occur. It is a purpose of the Competitive Livestock Markets Act to provide for the continuation of mandatory price reporting for the benefit of Nebraska producers and protection of the integrity of livestock markets in Nebraska in the event of termination of the federal Livestock Mandatory Reporting Act of 1999 and its preemption of similar state price reporting laws as well as to provide for an orderly implementation of the state price reporting system authorized by the Competitive Livestock Markets Act, should Congress fail to reauthorize the federal Livestock Mandatory Reporting Act of 1999.

**Source:** Laws 1999, LB 835, § 3; Laws 2006, LB 856, § 26.

**54-2604 Packers; acts prohibited.**

After May 27, 1999, it is unlawful for a packer to directly or indirectly be engaged in the ownership, keeping, or feeding of livestock for the production of livestock or livestock products, other than temporary ownership, keeping, and feeding, not to exceed five days, necessary and incidental to the process of slaughter.

**Source:** Laws 1999, LB 835, § 4.

**54-2605 Violations by packer; enforcement; penalty.**

Whenever the Attorney General has reason to believe that a packer is violating section 54-2604, he or she shall commence an action in district court to enjoin the livestock operation. The court, upon determination that such packer is in violation of section 54-2604, shall order such livestock to be removed and sold and shall assess the packer a fine of not less than one thousand dollars for each day of violation.

**Source:** Laws 1999, LB 835, § 5.

**54-2606 Packer violation; proceeds of livestock sale; fines; distribution.**

The proceeds from any livestock ordered to be sold pursuant to section 54-2605 shall not be distributed until all fines and costs associated with such action have been paid. All money collected as a fine shall be remitted to the State Treasurer for credit to the permanent school fund. All fines levied under this section remaining unpaid shall constitute a debt to the State of Nebraska which may be collected by lien foreclosure or sued for and recovered in any proper form of action, in the name of the State of Nebraska, in the district court of the county in which the violation occurred.

**Source:** Laws 1999, LB 835, § 6.

**54-2607 Sales of swine; packers; prohibited acts.**

Except as provided in sections 54-2608 and 54-2609, it is unlawful for a packer purchasing or entering into a contract to purchase swine to pay or enter into a contract to pay different prices to the sellers of the swine. This section shall not be construed to mean that a price or payment method must remain fixed throughout any marketing period.

**Source:** Laws 1999, LB 835, § 7.

**54-2608 Sales of swine; authorized; when.**

Section 54-2607 does not apply to any direct, spot, or cash purchase of swine if the following requirements are met:

(1) The difference in price is based on: (a) A payment method specifying prices paid for criteria relating to carcass merit; or (b) actual and quantifiable costs related to transporting and acquiring the swine by the packer; and

(2) After making the payment to a seller, the packer reports the payment information required under section 54-2613, including the payment method specifying prices paid for criteria relating to carcass merit and transportation and acquisition costs.

**Source:** Laws 1999, LB 835, § 8.

**54-2609 Sales of swine; contracts allowed; conditions.**

Section 54-2607 does not apply to any contract to purchase swine at a certain date or time if the following requirements are met:

(1) The difference in price is based on: (a) A payment method specifying prices paid for criteria relating to carcass merit; or (b) actual and quantifiable costs related to transporting and acquiring the swine by the packer;

(2) The packer reports the payment information required under section 54-2613, including the payment method specifying prices paid for criteria relating to carcass merit and transportation and acquisition costs;

(3) The packer reports the information required under section 54-2613, including the price to be paid for swine to be delivered on specified delivery dates or times; and

(4) An offer to enter into a contract for the delivery of swine, according to the same terms and conditions, is made to other sellers.

**Source:** Laws 1999, LB 835, § 9.

**54-2610 Sales of swine; contract voidable by seller.**

Any contract made by a packer in violation of section 54-2607 is voidable by the seller.

**Source:** Laws 1999, LB 835, § 10.

**54-2611 Sales of swine; recovery of damages.**

A seller may bring an action against any packer violating section 54-2607 to recover damages sustained by reason of such violation.

**Source:** Laws 1999, LB 835, § 11.

**54-2612 Sales of swine; violation; penalty.**

Any packer acting in violation of section 54-2607 is guilty of a Class IV misdemeanor and shall be fined five hundred dollars per violation.

**Source:** Laws 1999, LB 835, § 12.

**ARTICLE 28****LIVESTOCK PRODUCTION**

## Section

54-2801. Legislative findings.

54-2802. Director of Agriculture; duties; designation of livestock friendly county; process; county board; powers.

**54-2801 Legislative findings.**

The Legislature finds that livestock production has traditionally served a significant role in the economic vitality of rural areas of the state and in the state's overall economy and that the growth and vitality of the state's livestock sector are critical to the continued prosperity of the state and its citizens. The Legislature further finds that trends in livestock production suggest a need to identify and address factors that affect the viability and expansion of livestock production. Those factors include the impact of livestock production on the state's economy and its communities, all applicable regulatory agencies, and the latest technology available to enhance the livestock industry. It is the intent of the Legislature to seek reasonable means to nurture and support the livestock sector of this state.

**Source:** Laws 2003, LB 754, § 1.

**54-2802 Director of Agriculture; duties; designation of livestock friendly county; process; county board; powers.**

(1) The Director of Agriculture shall establish a process, including criteria and standards, to recognize and assist efforts of counties to maintain or expand their livestock sector. A county that meets the criteria may apply to the director to be designated a livestock friendly county. A county may remove itself from the process at any time. Such criteria and standards may include, but are not limited to, the following factors: Consideration of the diversity of activities

currently underway or being initiated by counties; a formal expression of interest by a county board, by a duly enacted resolution following a public hearing, in developing the livestock production and processing sectors of such county's economy; an assurance that such county intends to work with all other governmental jurisdictions within its boundaries in implementing livestock development within the county; flexible and individual treatment allowing each county to design its own development program according to its own timetable; and a commitment to compliance with the Livestock Waste Management Act.

(2) The designation of any county or counties as a livestock friendly county shall not be an indication nor shall it suggest that any county that does not seek or obtain such a designation is not friendly to livestock production.

(3) In order to assist any county with information and technology, the Department of Agriculture shall establish a resource data base to provide, upon written request of the county zoning authority or county board, information sources that may be useful to the county in evaluating and crafting livestock facility conditional use permits that meet the objectives of the county and the livestock producer applicant.

(4) The Department of Agriculture shall adopt and promulgate rules and regulations to carry out this section.

(5) Nothing in this section shall prohibit or prevent any county board from adopting a resolution that designates the county a livestock friendly county.

(ii) If imposed by a general officer in command, arrest in quarters for not more than fourteen consecutive days; forfeiture of not more than one-half of one month's pay per month for two months; restriction to certain specified limits, with or without suspension from duty, for not more than fourteen consecutive days; or detention of not more than one-half of one month's pay per month for three months; and

(b) Upon other personnel of his command:

(i) Correctional custody for not more than seven consecutive days;

(ii) Forfeiture of not more than seven days' pay;

(iii) Reduction to the next inferior pay grade, if the grade from which demoted is within the promotion authority of the officer imposing the reduction or any officer subordinate to the one who imposes the reduction;

(iv) Extra duties, including fatigue or other duties, for not more than ten consecutive days;

(v) Restriction to certain specified limits, with or without suspension from duty, for not more than ten consecutive days;

(vi) Detention of not more than fourteen days' pay; or

(vii) If imposed by an officer of the grade of major or above, correctional custody for not more than fourteen consecutive days; forfeiture of not more than one-half of one month's pay per month for two months; reduction to the lowest or any intermediate pay grade, if the grade from which demoted is within the promotion authority of the officer imposing the reduction or any officer subordinate to the one who imposes the reduction, but an enlisted member in a pay grade above E-4 may not be reduced more than two pay grades; extra duties, including fatigue or other duties, for not more than fourteen consecutive days; restrictions to certain specified limits, with or without suspension from duty, for not more than fourteen consecutive days; or detention of not more than one-half of one month's pay per month for three months.

Detention of pay shall be for a stated period, but if the offender's term of service expires earlier, the detention shall terminate upon that expiration. No two or more of the punishments of arrest in quarters, correctional custody, extra duties, and restriction may be combined to run consecutively in the maximum amount imposable for each. Whenever any of those punishments are combined to run consecutively, there must be an apportionment. In addition, forfeiture of pay may not be combined with detention of pay without an apportionment. For the purposes of this subsection, correctional custody is the physical restraint of a person during duty or nonduty hours and may include extra duties, fatigue duties, or hard labor. If practicable, correctional custody will not be served in immediate association with persons awaiting trial or held in confinement pursuant to trial by court-martial.

(3) An officer in charge may impose upon enlisted members assigned to the unit of which he is in charge such of the punishments authorized under subsection (2)(b) of this section as the Governor may specifically prescribe by regulation.

(4) The officer who imposes the punishment authorized in subsection (2) of this section, or his successor in command, may, at any time, suspend probationally any part or amount of the unexecuted punishment imposed and may suspend probationally a reduction in grade or a forfeiture imposed under subsection (2) of this section, whether or not executed. In addition, he may, at any time, remit or mitigate any part or amount of the unexecuted punishment imposed and may set aside in whole or in part the punishment, whether executed or unexecuted, and restore all rights, privileges, and property affected. He may also mitigate reduction in grade to forfeiture or detention of pay. When mitigating:

(a) Arrest in quarters to restriction;

(b) Confinement on bread and water or diminished rations to correctional custody;

(c) Correctional custody or confinement on bread and water or diminished rations to extra duties or restriction, or both; or

(d) Extra duties to restriction, the mitigated punishment shall not be for a greater period than the punishment mitigated. When mitigating forfeiture of pay to detention of pay, the amount of the detention shall not be greater than the amount of the forfeiture. When mitigating reduction in grade to forfeiture or detention of pay, the amount of the forfeiture or detention shall not be

greater than the amount that could have been imposed initially under this section by the officer who imposed the punishment mitigated.

(5) A person punished under this section who considers his punishment unjust or disproportionate to the offense may, through the proper channel, appeal to the next superior authority. The appeal shall be promptly forwarded and decided, but the person punished may in the meantime be required to undergo the punishment adjudged. The superior authority may exercise the same powers with respect to the punishment imposed as may be exercised under subsection (4) of this section by the officer who imposed the punishment. Before acting on an appeal from a punishment of:

- (a) Arrest in quarters for more than seven days;
- (b) Correctional custody for more than seven days;
- (c) Forfeiture of more than seven days' pay;
- (d) Reduction of one or more pay grades from the fourth or a higher pay grade;
- (e) Extra duties for more than ten days;
- (f) Restriction for more than ten days; or
- (g) Detention of more than fourteen days' pay, the authority who is to act on the appeal shall refer the case to a judge advocate for consideration and advice, and may so refer the case upon appeal from any punishment imposed under subsection (2) of this section.

(6) The imposition and enforcement of disciplinary punishment under this section for any act or omission is not a bar to trial by court-martial for a serious crime or offense growing out of the same act or omission, and not properly punishable under this section; but the fact that a disciplinary punishment has been enforced may be shown by the accused upon trial, and when so shown shall be considered in determining the measure of punishment to be adjudged in the event of a finding of guilty.

(7) The Governor may, by regulation, prescribe the form of records to be kept of proceedings under this section and may also prescribe that certain categories of those proceedings shall be in writing.

(8) Any punishment authorized by this section which is measured in terms of days shall, when served in a status other than annual field training, be construed to mean consecutive active service days.

(3)(a) Any enlisted member, who is not a member of the same unit as the accused, is eligible to serve on a court-martial for the trial of any enlisted member of an armed force who may lawfully be brought before such court for trial, but he shall serve as a member of a court only if, before the conclusion of a session called by the military judge prior to trial or, in the absence of such a session, before the court is assembled for the trial of the accused, the accused personally has requested in writing that enlisted members serve on it. After such request, the accused may not be tried by a court-martial the membership of which does not include enlisted members in a number comprising at least one-third of the total membership of the court, unless eligible enlisted members cannot be obtained on account of physical conditions or military exigencies. If such members cannot be obtained, the court may be assembled and the trial held without them, but the assembling authority shall make a detailed written statement, to be appended to the record, stating why they could not be obtained.

(3) If the military judge of a court-martial composed of a military judge only is unable to proceed with the trial because of physical disability, as a result of a challenge, or for other good cause, the trial shall proceed, subject to any applicable conditions of section 55-426, after the detail of a new military judge as if no evidence had previously been introduced, unless a verbatim record of the evidence previously introduced or a stipulation thereof is read in court in the presence of the new military judge, the accused, and counsel for both sides.

(1) Whenever a sentence of a court-martial as lawfully adjudged and approved includes a forfeiture of pay or allowances in addition to confinement not suspended or deferred, the forfeiture may apply to pay or allowances becoming due on or after the date the sentence is approved by the convening authority. No forfeiture may extend to any pay or allowances accrued before that date.

(2) Any period of confinement included in a sentence of a court-martial begins to run from the date the sentence is adjudged by the court-martial, but periods during which the sentence to confinement is suspended or deferred shall be excluded in computing the service of the term of confinement.

(3) All other sentences of courts-martial are effective on the date ordered executed.

(4) On application by an accused who is under sentence to confinement that has not been ordered executed, the convening authority or, if the accused is no longer under his jurisdiction, the officer exercising court-martial jurisdiction over the command to which the accused is currently assigned, may in his sole discretion defer service of the sentence to confinement. The deferment shall terminate when the sentence is ordered executed. The deferment may be rescinded at any time by the officer who granted it or, if the accused is no longer under his jurisdiction, by the officer exercising court-martial jurisdiction over the command to which the accused is currently assigned.

(c) Hard labor without confinement, reduces that member to pay grade E-1, effective on the date of that approval.

(2) Where there is an apparent error or omission in the record or where the record shows improper or inconsistent action by a court-martial with respect to a finding or sentence which can be rectified without material prejudice to the substantial rights of the accused, the convening authority may return the record to the court for appropriate action. In no case, however, may the record be returned:

(a) For reconsideration of a finding of not guilty of any specification, or a ruling which amounts to a finding of not guilty;

In such a case he shall state the reasons for disapproval. If he disapproves the findings and sentence and does not order a rehearing, he shall dismiss the charges.

(2) Each rehearing shall take place before a court-martial composed of members not members of the court-martial which first heard the case. Upon a rehearing the accused may not be tried for any offense of which he was found not guilty by the first court-martial, and no sentence in excess of or more severe than the original sentence may be imposed, unless the sentence is based upon a finding of guilty of an offense not considered upon the merits in the original proceedings, or unless the sentence prescribed for the offense is mandatory.

The referral of the record in summary courts-martial shall be according to the manual for courts-martial adopted pursuant to section 55-426.

(2) In a case referred to it, the Court of Military Review may act only with respect to the findings and sentence as approved by the convening authority. It may affirm only such findings of guilty, and the sentence or such part or amount of the sentence, as it finds correct in law and fact and determines, on the basis of the entire record, should be approved. In considering the record, it may weigh the evidence, judge the credibility of witnesses, and determine controverted questions of fact, recognizing that the trial court saw and heard the witnesses.

(3) If the Court of Military Review sets aside the findings and sentence, it may, except when the setting aside is based on lack of sufficient evidence in the record to support the findings, order a rehearing. If it sets aside the findings and sentence and does not order a rehearing, it shall order that the charges be dismissed.

(4) The State Judge Advocate shall, unless there is to be further action by the Governor, instruct the convening authority to take action in accordance with the decision of the Court of Military Review. If the Court of Military Review has ordered a rehearing but the convening authority finds a rehearing impracticable, he or she may dismiss the charges.

(5) The State Judge Advocate shall prescribe uniform rules of procedure for the Court of Military Review.

Upon petition of the accused and for good cause shown, the appellate court may grant a review of the record. The appellate court shall act upon such petition within ninety days from receipt thereof.

(2) Upon filing the petition in the appellate court, the accused shall on the same date file a notice of his or her intention to appeal with the Court of Military Review, and the Court of Military Review shall within fifteen days forward the complete transcript of the case to the appellate court.

(3) In any case reviewed by it, the appellate court may act only with respect to the findings and sentence as approved by the convening authority and as affirmed or set aside as incorrect in law by the Court of Military Review. In a case reviewed upon the petition of the accused, that action need be taken only with respect to issues specified in the grant of review. The appellate court shall take action only with respect to matters of law.

(4) If the appellate court sets aside the findings and sentence, it may, except when the setting aside is based on lack of sufficient evidence in the record to support the findings, order a rehearing. If it sets aside the findings and sentence and does not order a rehearing, it shall order that the charges be dismissed.

(5) After it has acted on a case, the appellate court may direct the State Judge Advocate to return the record to the Court of Military Review for further review in accordance with the decision of the appellate court. Otherwise, unless there is to be further action by the Governor, the State Judge Advocate shall instruct the convening authority to take action in accordance with that decision. If the appellate court has ordered a rehearing but the convening authority finds a rehearing impracticable, the State Judge Advocate may dismiss the charges.

When an oil, gas or mineral lease is given on land situated within the State of Nebraska, the recording thereof in the office of the register of deeds of the county in which the land is located shall impart notice to the public of the validity and continuance of such lease for the definite term therein expressed, but no longer; *Provided*, that if such lease contains the statement of any contingency upon the happening of which the term of any such lease may be extended, such as and as much longer as oil and gas or either is produced in paying quantities, the owner of such lease may at any time before the expiration of the definite term of the lease file with the register of deeds an affidavit setting forth the description of the lease, that the affiant is the owner thereof and the facts showing that the required contingency has happened. To carry out the provisions of sections 57-210 to 57-212.01, the court may, upon the hearing of the petition, appoint a trustee to represent the interests of such unknown owners, or unknown heirs, devisees, or legatees and to carry out the orders of the court with respect thereto.

Such a claim of interest shall describe the land and the nature of the interest claimed, shall properly identify the deed or other instrument under which the interest is claimed, shall give the name and address of the person or persons claiming the interest, and shall state that such person or persons claim the interest and do not intend to abandon the same. The interest of any such owner shall be extended for a period of twenty-three years from the date of any such acts; *Provided*, that the provisions of this section shall not apply to mineral interests of which the State of Nebraska or any of its political subdivisions is the record owner.

**57-234 Fractional interests in oil, gas, or hydrocarbon units or fields; taxation; violations; penalty.**

(1) When oil, gas, or other hydrocarbon wells or fields belonging to multiple owners are operated as a unit, the owner of each fractional interest in such unit shall be liable for the same proportion of the tax levied against the real property of the unit that his or her fractional interest therein bears to the total of interests in such unit and shall be liable for the tax levied against his or her taxable value in the tangible personal property of such unit.

(2) The unit operator shall collect from the owners of the fractional interests and remit to the county treasurer of the county in which the unit is located all taxes levied against the real or tangible personal property of the unit. The unit operator may deduct and withhold from royalty payments, or any other payments made to any fractional interest owner, either in kind or in money, the estimated amount of the tax to be paid by such fractional interest owner. Any difference between the estimated tax so withheld and the actual tax payable by any owner of a fractional interest may be accounted for by adjustments in royalty or other payments made to such owner subsequent to the time the actual tax is determined.

(3) At the request of any unit operator who does not disburse payments to fractional interest owners, the first purchaser shall collect the tax from the fractional interest owners and transfer such proceeds to the unit operator who shall remit to the treasurer the taxes levied against the unit. Such first purchaser shall collect from the fractional interest owners under the same procedure outlined for the unit operator in this section.

(4) Failure of the unit operator to collect and remit the tax as provided in this section shall not preclude the county treasurer from utilizing lawful collection and enforcement remedies and procedures to collect the tax owed by the fractional interest owner, but a nonoperating owner shall not be subject to penalty or interest upon the tax owed unless he or she fails to remit such tax within twenty days after notification to him or her by the county treasurer of the default of the operator.

(5) For the purposes of this section, unit shall mean any single oil, gas, or other hydrocarbon well or field which has multiple ownership, or any combina-

tion of oil, gas, or other hydrocarbon wells, fields, and properties consolidated into a single operation, whether by a formal agreement or otherwise, and owner shall mean the holder of any interest or interests in any such property or unit including royalty interests.

(6) The county assessor shall assist the county treasurer in the preparation of a tax statement to the unit operator to aid in the collection of all property taxes assessed against the unit.

(2) Surface estate shall mean any real property, real estate, or lands including all city and village lots and all other lands except mineral interests.

**57-236 Mineral interests; severed; placed on tax list; application; contents.**

Any owner of the surface estate from which a mineral interest has been severed or the owner of the mineral interest which has been severed may file an application with the county assessor of the county where such surface estate is located to place such severed mineral interest on the tax list of the county. The applicant shall, at his or her own cost, provide to the county assessor proof of ownership of the severed mineral interest and a record of the creation of the severed mineral interest, as shown by the records of the county clerk or register of deeds. Proof of ownership, the name and last-known address of the owner or owners, the ownership interest, including any fractional interest, legal description, and the record of creation of the severed mineral interest shall be provided in the form of an opinion by an attorney or a certificate prepared by a licensed abstractor.

**57-402 Easement; authority of executor, administrator, guardian, trustee, or conservator to execute; petition; notice; hearing; order.**

(1) Before entering into any such contracts for such easements, an application shall be duly filed in the county court of the county in which the estate, guardianship, or conservatorship proceedings are pending, or trust is being administered, or in the county court of the county where the real estate is located, duly sworn and signed by the executor, administrator, trustee, conservator, or guardian, as the case may be. The application shall set forth in detail the nature and character of the contract and conveyance of the easement upon and across the lands of the estates, the purposes for which the same are to be used and maintained, the terms and conditions thereof, the consideration therefor, and the reasons why the same is for the best interests of the estate. The court or any judge thereof in chambers shall set the application for hearing and direct to what persons and in what manner notice of such hearing shall be given.

(2) At the time and place set for the hearing, as is provided for by subsection (1) of this section, the court shall conduct a hearing upon the application and if, after due consideration thereof, the court finds that the granting of the easement for the erection and maintaining of the pipeline upon or across the land, will not result in a material injury to the property of the deceased person, beneficiary of the trust, minor, incompetent, or person unfit by reason of infirmities of age or physical disability, and further finds that the consideration therefor is adequate and proper, the court may approve the application and authorize and direct the executor, administrator, trustee, conservator, or guardian to enter into such contract and to execute such grants or conveyances to carry the same into effect, and authorize and direct the executor, administrator, trustee, conservator, or guardian to deliver the same to the persons, individuals, firms, or corporations with whom the same were authorized to be made.

**57-504 Container; filled by owner; purchase of cylinder; effect.**

No person, except the owner thereof or persons authorized in writing by the owner so to do, shall fill or refill with liquefied petroleum gas, or any other gas or compound, a container or buy, sell, offer for sale, give, take, loan, deliver, or permit to be delivered, or otherwise use, dispose of, or traffic in a container if such container bears upon the surface thereof in plainly legible characters the name, initials, mark, or other device of the owner; nor shall any person, other than the owner of a container or a person authorized in writing by the owner, deface, erase, obliterate, cover up, or otherwise remove or conceal any such name, mark, initial, or device thereon. The person using any container may purchase the same at his or her option from the owner at a fair and reasonable market value, and after such purchase may purchase liquefied petroleum gas upon the open market.

**57-505 Container; filling by other than owner; unlawful.**

The use of a container by any person other than the person whose name, mark, initial, or device is or has been upon such container, without written consent or purchase of such marked and distinguished container, for the sale of liquefied petroleum gas or filling or refilling with liquefied petroleum gas, or the possession of such container by any person other than the person having his or her name, mark, initial, or other device thereon, without the consent of such owner, is presumptive evidence of the unlawful use, filling or refilling, or trafficking in of such container.

**Source:** Laws 1951, c. 188, § 5, p. 697; Laws 2001, LB 137, § 5.

**57-506 Container; unlawful use; search warrant; violation; penalty.**

Whenever any person makes an oath in writing before any judge of the county court that the party making the affidavit has reason to believe and does believe that a container which is marked with the name, initials, mark, or other device of the owner is in the possession of or being used by or being filled or refilled by a person whose name, initials, mark, or other device does not appear on the container and who is in the possession of, filling or refilling, or using the container without the consent of the owner, the judge may, when satisfied that there is reasonable cause, issue a search warrant and cause the premises designated to be searched for the purpose of discovering and obtaining the container. The judge may also cause the person who possesses the container to be brought before the judge and inquire into the circumstances of such possession. If the judge finds that such person is guilty of a violation of sections 57-501 to 57-507, the judge shall sentence as provided in section 57-507 and shall also award the possession of the container, including the contents, taken upon such search warrant, to the owner thereof.

**57-508 Sale of gas; units of measurement.**

It shall be unlawful to sell at retail or wholesale or offer for sale at retail or wholesale any liquefied petroleum gas except specified in pounds; liquid measure, specified in gallons; or vapor, specified in cubic feet or such other units as may be approved by the Department of Agriculture.

**Source:** Laws 1957, c. 240, § 1, p. 801.

**57-509 Sale by weight; marking required.**

When liquefied petroleum gas is sold at retail or wholesale or offered for sale at retail or wholesale by weight, in packages or containers, the tare weight of the container, and the net weight of the contents shall be plainly and conspicuously marked on the outside of the container or on a label firmly attached thereto. Tare weight shall not be construed to include the valve protecting cap, which shall be removed when weighing. It shall be a violation of sections 57-508 to 57-516 to sell or offer or expose for sale liquefied petroleum gas in packages or containers which do not bear a statement as to tare and net weight as required by this section, or which packages or containers bear a false statement as to weights.

It shall be unlawful to use a weighing or measuring device for determining quantities of liquefied petroleum gas which has been condemned by the department. The department shall conspicuously mark all condemned devices, which mark shall not be removed or defaced except upon authorization of the said department or authorized representatives. It shall be unlawful to use a vapor meter dial which is not equipped with a cubic foot indicator for testing the accuracy of the meter.

An invoice shall be submitted to the purchaser showing the quantity of liquefied petroleum gas sold, expressed in pounds, or gallons, or cubic feet, or other unit approved by the Department of Agriculture. When vapor meters reading in approved units other than cubic feet are used, the invoice shall clearly indicate to the purchaser a factor to convert to gallons.

**Source:** Laws 1957, c. 240, § 4, p. 802.

**57-512 Sale of gas; rules and regulations; tolerances.**

The Department of Agriculture is authorized to promulgate and adopt such rules and regulations and establish tolerances within a maximum of two percent, plus or minus, which may be necessary for the enforcement of sections 57-508 to 57-516.

**Source:** Laws 1957, c. 240, § 5, p. 802.

**57-513 Refilling of package or container; credit for unused liquid.**

When liquefied petroleum gas is sold by the package or container, either by a refilling of a container or an exchange of containers, the vendor shall give the purchaser full credit for the unused liquid remaining in a container being exchanged or refilled.

**Source:** Laws 1957, c. 240, § 6, p. 802.

**57-514 Vehicle tank; equipment.**

Each vehicle tank, used in the retail or wholesale sale of liquefied petroleum gas, shall be equipped with a meter for measurement of liquefied petroleum gas in terms of gallons, and shall not be equipped with a bypass around the meter; *Provided*, that the prohibition of a bypass is not intended to prohibit the use of an equalization line.

**Source:** Laws 1957, c. 240, § 7, p. 802.

**57-515 Sale; correction for temperature; sale tickets; contents.**

Liquefied petroleum gas sold or delivered to a consumer and measured by the gallon as liquid shall be corrected for temperature in accordance with the volume correction factor table for liquefied petroleum gases, being schedule A of this section. All retail or wholesale sale tickets shall show the metered gallons and the temperature at the time of delivery and the corrected gallonage. This section shall not apply to unit sales or deliveries made direct to mobile fuel tanks, consisting of less than one hundred gallons. To convert from measured volume at another temperature to net volume at 60 degrees Fahrenheit: measure the volume and temperature. Determine the gravity at 60 degrees Fahrenheit. Refer to the column corresponding to this gravity and read the volume conversion factor opposite the observed temperature. Multiply the observed volume by this factor to obtain the volume at 60 degrees Fahrenheit.

57-516 Unlawful sale; violation; penalties.

Any person who violates any of the provisions of sections 57-508 to 57-516 shall be guilty of a Class IV misdemeanor.

**57-517 Liquefied petroleum gas vapor service system; container warning label; affixed by provider; limitation on liability.**

(1) The Legislature finds it is necessary that a leak check be performed following an interruption of service of a liquefied petroleum gas vapor service system to ensure safe and proper operation. Further, the Legislature finds that a leak check must be performed by a qualified service technician.

(2) It is the intent of the Legislature to create a mechanism that will educate users of liquefied petroleum gas of the requirements for a leak check when an interruption of service occurs.

(3) For purposes of this section:

(a) Interruption of service means the gas supply to a liquefied petroleum gas vapor service system is turned off;

(b) Leak check means an operation performed on a complete liquefied petroleum gas piping system and the connection equipment to verify that the liquefied petroleum gas vapor service system does not leak;

(c) Liquefied petroleum gas provider means any person or entity engaged in the business of supplying, handling, transporting, or selling at retail liquefied petroleum gas in this state; and

(d) Liquefied petroleum gas vapor service system means an installation with a maximum operating pressure of one hundred twenty-five pounds per square inch or less and includes, but is not limited to, the container assembly, pressure regulator or regulators, piping system, gas utilization equipment and components thereof, and venting system in residential, commercial, or institutional installations. Liquefied petroleum gas vapor service system does not include:

(i) Portable liquefied petroleum gas appliances and equipment of all types that are not connected to a fixed-fuel piping system;

(ii) Farm appliances and equipment in liquid service, including, but not limited to, brooders, dehydrators, dryers, and irrigation equipment;

(iii) Liquefied petroleum gas equipment for vaporization, gas mixing, and gas manufacturing;

(iv) Liquefied petroleum gas piping for buildings under construction or renovations that is not to become part of the permanent building piping system, such as temporary fixed piping for building heat; or

(v) Fuel gas system engines, including, but not limited to, tractors, mowers, trucks, and recreational vehicles.

(4) The liquefied petroleum gas provider shall affix a container warning label on each tank supplying liquefied petroleum gas to a liquefied petroleum gas vapor service system. The container warning label shall be affixed near the tank shutoff.

(5) The container warning label required by subsection (4) of this section shall include this warning:

**WARNING: Do Not Open Container Shutoff Valve! If this valve is turned off for any reason, the National Fuel Gas Code (NFPA 54) requires a leak check of**

the system serviced by the container at the time the valve is turned back on. The leak check must be conducted by a qualified service technician. Do Not Attempt To Open The Valve Yourself! Failure to follow this warning may result in the ignition of leaking gas, causing serious and potentially fatal injury, fire, or explosion.

The container warning label shall include the statutory reference to this section.

(6) If the container warning label is affixed near the tank shutoff as required by subsection (4) of this section and the liquefied petroleum gas vapor service system is turned on prior to a leak check by a qualified service technician approved by the liquefied petroleum gas provider, the liquefied petroleum gas provider shall not be liable for any damage, injury, or death if the proximate cause of the damage, injury, or death was the negligence of a person or persons other than the liquefied petroleum gas provider.

As used in sections 57-601 to 57-607, unless the context otherwise requires:

- (1) Eminent domain statutes shall mean sections 76-701 to 76-724;
- (2) Underground reservoir shall mean any subsurface sand, stratum, or formation suitable for the injection and storage of natural gas or liquefied petroleum gas or both therein or which is capable of being made suitable for the storage of natural gas or liquefied petroleum gas, or both, by the construction of underground caverns by means of mining operations and the withdrawal of natural gas or liquefied gas therefrom;
- (3) Underground storage shall mean the right to inject and store natural gas or liquefied petroleum gas or both within and to withdraw natural gas or liquefied petroleum gas from an underground reservoir;
- (4) Natural gas shall mean gas which has been produced from the earth in its original state or such gas after the same has been processed or treated;

(11) Reasonable notice shall mean notice served in the same manner as is provided in the code of civil procedure for the service of process in civil actions in the district courts of this state; and

(12) Interested parties shall mean the owners of any oil or gas leasehold, mineral, or royalty interest in the underground stratum or formation sought to be acquired and the owners of the surface rights to the underground stratum or formation.

#### **57-602 Public policy.**

Underground storage of natural gas or liquefied petroleum gas or both is found and declared to be in the public interest if it promotes the conservation of natural gas and permits the accumulation of natural gas reserves or liquefied petroleum gas reserves or both in an underground reservoir in order to make natural gas more readily available to the domestic, commercial, and industrial consumers of this state.

**Source:** Laws 1953, c. 191, § 2, p. 614; Laws 1963, c. 325, § 2, p. 985.

#### **57-603 Eminent domain; rights of condemner.**

Whenever any condemner shall require the right to underground storage in any of the lands within this state, such condemner may file an action to condemn and acquire such underground storage in and under the lands sought to be condemned, including the amount of commercially recoverable native gas, if any, remaining in the reservoir, together with such other rights or interests as may be necessary and proper to the full enjoyment thereof; *Provided*, that any right of underground storage obtainable hereunder shall be without prejudice to the rights of the owners of the surface of such land or other interests therein as to all other uses thereof.

**Source:** Laws 1953, c. 191, § 3(1), p. 614; Laws 1963, c. 325, § 3, p. 985.

#### **57-604 Acquisition of property; petition of condemner; requirements.**

The condemner shall set forth in the petition filed in the action to condemn and acquire the right to underground storage, referred to in section 57-603, whether any public owner has any interest which would be affected by underground storage in any of the lands in which such right to underground storage

is required. Any such public owner having any such interest shall be served with notice of such petition in like manner as any condemnee, and such public owner shall, by instrument made by its proper officer or officers, grant such interest, but not more than the right to underground storage, to the condemner upon the payment to it by the condemner of compensation in such amount as shall have been fixed by the award in respect thereto, made in like manner as if such public owner were a condemnee.

**Source:** Laws 1953, c. 191, § 3(2), p. 614.

**57-605 Acquisition of property; conditions precedent; hearing; order; appeal.**

Any condemner desiring to exercise the right of eminent domain as to any property for use for underground storage of natural gas or liquefied petroleum gas or both shall, as a condition precedent to the filing of its petition, obtain from the Nebraska Oil and Gas Conservation Commission a certificate setting out findings of the commission (1) that the underground stratum or formation sought to be acquired is not capable of producing oil in paying quantities by any generally accepted method, (2) that the field, if then capable of producing commercially recoverable native gas, must have been producing natural gas for at least ten years, (3) that the condemner has acquired by purchase or other voluntary means at least sixty percent of the ownership which has the right to grant the use of the underground stratum or formation sought to be acquired, computed in relation to the surface area overlying that part of the stratum or formation expected to be penetrated by displaced or injected gas, and that the volume of native gas originally in place in the underground stratum or formation sought to be acquired is forty percent depleted, (4) that the underground stratum or formation sought to be acquired is suitable for the underground storage of natural gas or liquefied petroleum gas or both, (5) the amount of commercially recoverable native gas, if any, remaining therein, and (6) in the event any recoverable native gas is found to remain therein, that its use for such purposes is in the public interest because the stratum or formation has a greater value or utility as an underground reservoir for the storage of natural gas or liquefied petroleum gas or both than for the production of the remaining volumes of native gas. Such finding shall not of itself be a basis for compensation to be paid to the condemnee. If at the time of the condemner's filing with the commission native gas from the underground reservoir is being used for the secondary recovery of oil, then gas in necessary and required amounts shall be furnished to the operator or operators of the secondary recovery operations at equivalent costs, for so long as oil is produced in paying quantities in the secondary recovery operations, but the amount of gas to be furnished hereunder shall not exceed the quantity of recoverable native gas found to exist in the reservoir at the time of its acquisition hereunder if such operator was or operators were at such time entitled to the whole thereof, but if it was or they were at such time entitled to less than the whole thereof, then not to exceed the quantity thereof to which such operator was or operators were then entitled. The commission shall issue no such certificate until after public hearing is had on application and upon reasonable notice to interested parties. The applicant shall be assessed and pay all the costs of the proceedings incurred with the commission. Any person having an interest in the property affected by a finding of the commission or the condemner may appeal the issuance or denial of certificate or from any finding as to the amount of commercially recoverable

native gas, and the appeal shall be in accordance with the Administrative Procedure Act.

**57-606 Acquisition of property; without prejudice to drilling rights; protection of underground reservoir against pollution or escape of gas; payment by public utility owning right to storage; limitation on rights of condemnee.**

Any right of underground storage obtained hereunder, except in an underground storage reservoir which is a mined cavern constructed by mining operations, shall be without prejudice to the rights of any condemnee to explore for, drill for, produce, process, treat, or market any oil, gas, or other minerals which might be contained in such lands above or below the underground reservoir. Any additional cost and expense required to be incurred in order to protect the underground reservoir against pollution or escape of gas or liquefied petroleum gas therefrom by reason of boring or drilling above, into, or through such underground reservoir as provided for herein shall be paid by the public utility then owning the right to underground storage therein; *Provided*, no condemnee shall have the right to bore or drill into or through, or otherwise interfere with, an underground storage reservoir which is a mined cavern constructed by mining operations.

**Source:** Laws 1953, c. 191, § 3(4), p. 615; Laws 1963, c. 325, § 5, p. 987.

**57-607 Acquisition of property; eminent domain; procedure; payment of severance tax.**

Except as otherwise provided in sections 57-603 to 57-606, all proceedings in connection with the condemnation and acquisition of such underground storage and such other rights or interests as may be necessary and proper to the full enjoyment of such right shall be in accordance and compliance with sections 76-704 to 76-724, including full rights of appeal as to the amount of damages. The condemner shall pay the severance tax due on all commercially recoverable native gas being acquired for underground storage purposes whether such acquisition is made voluntarily or under the provisions of sections 57-601 to 57-609. The tax shall be based on the current value of the gas and shall be paid to the State Treasurer on the volume of commercially recoverable native gas remaining in place at the time of acquisition as found by the Nebraska Oil and Gas Conservation Commission pursuant to section 57-605. The State Treasurer shall place the tax received in the Severance Tax Fund.

**57-608 Reduction of gas to possession; property of condemner; exception.**

All natural gas or liquefied petroleum gas which has previously been reduced to possession, and which is subsequently injected into an underground storage reservoir, shall at all times be deemed the property of the condemner, his heirs, successors or assigns; and in no event shall such natural gas or liquefied petroleum gas be subject to the right of the owner of the surface of said lands or

of any mineral interest therein, under which said gas storage reservoir lies, or of any person other than the condemner, his heirs, successors and assigns, to produce, take, reduce to possession, waste, or otherwise interfere with or exercise any control thereover; *Provided*, that the condemner, his heirs, successors and assigns, shall have no right to natural gas or liquefied petroleum gas in any stratum, or portion thereof, which has not been condemned under the provisions of sections 57-601 to 57-609, or otherwise purchased.

**Source:** Laws 1963, c. 325, § 7, p. 988.

**57-609 Abandonment by condemner of underground reservoir; reversion of property to landowner.**

When the condemner shall have permanently abandoned the entire underground storage reservoir for storing natural gas or liquefied petroleum gas, title to that sand, formation, or stratum which had been appropriated under the terms of sections 57-601 to 57-609 shall revert to the then owners of the land, mineral and royalty interests in proportion to their several ownerships.

**57-701 Terms, defined.**

As used in Chapter 57, article 7, unless the context otherwise requires:

(1) Base production level shall mean a property's production for the preceding twelve months divided by the number of producing well production days. Enhanced recovery injection wells may be counted as producing wells to determine the base production level for a property;

(2) Oil shall mean any petroleum product or other oil taken from the earth;

(3) Severed shall mean the taking from the land by any means whatsoever of the natural resources enumerated in Chapter 57, article 7;

(4) Person shall mean any person, firm, concern, receiver, trustee, executor, administrator, agent, institution, association, partnership, limited liability company, company, corporation, or person acting under a declaration of trust or as an operator under a lease agreement or unitization agreement;

(5) Property shall mean the right to produce crude oil or natural gas which arises from a lease, fee, or mineral interest. A property owner may treat as a separate property each separate and distinct producing reservoir subject to the same right to produce crude oil or natural gas if such reservoir is recognized by the Nebraska Oil and Gas Conservation Commission as a producing formation that is separate and distinct from and not in communication with any other producing formation;

(6) Producer shall mean the owner of a well or wells capable of producing oil or gas or both or any person who owns and operates a lease or a unit of producing leases in which other persons own interests, with respect to such well or wells;

(7) Stripper oil shall mean oil produced from a property where the base production level is ten or fewer barrels per day; and

(8) Nonstripper oil shall mean oil produced from a property where the base production level is more than ten barrels per day.

**57-702 Tax; levy; persons liable; due and payable; lien.**

(1) Commencing on January 1, 1956, and for each subsequent year, taxes are hereby levied on oil and natural gas severed from the soil of this state, except such oil or gas as is used only in severing operations or for repressuring or recycling purposes. Such taxes shall: (a) Be paid by (i) the first purchaser, if such oil or natural gas is sold in the state, or (ii) the person severing such oil or gas if such oil or natural gas is sold outside the state; and (b) become due and payable monthly, as provided by Chapter 57, article 7.

(2) The state shall have a prior and preferred lien, which shall arise when the tax levied in subsection (1) of this section is delinquent as provided in section 57-704, for the amount of the taxes, penalties, and interest imposed pursuant to Chapter 57, article 7, on:

(a) The oil or gas to which the tax applies that is possessed by the producer, first purchaser, or subsequent purchaser;

(b) The leasehold interest, oil or gas rights, the value of oil or gas rights, and other interests, including oil or gas produced and oil or gas runs owned by a person liable for the tax;

(c) Equipment, tools, tanks, and other implements used on the leasehold from which the oil or gas is produced; and

(d) Any other property not exempt from forced sale owned by the person liable for the tax.

As soon as possible after such lien arises, the Tax Commissioner shall cause such lien to be filed in the office of the appropriate filing officer.

**57-703 Tax; levy on resources severed; rate.**

The taxes levied by section 57-702 shall be levied upon the value of the resources severed, and shall be paid at the rate of three percent of the value of nonstripper oil and natural gas, except that oil produced from properties producing stripper oil shall be subject to a two percent severance tax. The value of oil and natural gas shall be computed immediately after such severance at the place where the same were severed.

**57-704 Taxes; payment; time; statement; filing; form; contents.**

All taxes levied, as provided by sections 57-701 to 57-714, shall be due and payable in monthly installments on or before the last day of the month next succeeding the month in which the resources were severed. If the final filing date falls on a Saturday, Sunday, or legal holiday, the next secular or business day shall be the final filing date. Such reports shall be considered filed on time if mailed in an envelope properly addressed to the Tax Commissioner and postmarked before midnight of the final filing date. The person required to make payments pursuant to section 57-702 shall, on or before the last day of the month next succeeding the month in which the resources were severed, make out and file with the Tax Commissioner a report or return for the preceding month in such form as may be prescribed by the Tax Commissioner showing: The business conducted by the person engaged in the severing during the preceding month; the kind and gross quantity and value of the resources so severed; the location of the place or places where the same were severed; and such other information as the Tax Commissioner may require.

**57-705 Tax; remittance; Severance Tax Fund; Severance Tax Administration Fund; created; use.**

(1) All severance taxes levied by Chapter 57, article 7, shall be paid to the Tax Commissioner. He or she shall remit all such money received to the State Treasurer. All such money received by the State Treasurer shall be credited to a fund to be known as the Severance Tax Fund. An amount equal to one percent of the gross severance tax receipts, excluding those receipts from tax derived from oil and natural gas severed from school lands, credited to the fund shall be credited by the State Treasurer, upon the first day of each month, and shall inure to the Severance Tax Administration Fund to be used for the expenses of administering Chapter 57, article 7. Transfers may be made from the Severance Tax Administration Fund to the General Fund at the direction of the Legislature. The balance of the Severance Tax Fund received from school lands shall be credited by the State Treasurer, upon the first day of each month, and shall inure to the permanent school fund.

(2) Of the balance of the Severance Tax Fund received from other than school lands (a) the Legislature may transfer an amount to be determined by the Legislature through the appropriations process up to three hundred thousand dollars for each year to the State Energy Office Cash Fund, (b) the Legislature may transfer an amount to be determined by the Legislature through the appropriations process up to thirty thousand dollars for each year to the Public

Service Commission for administration of the Municipal Rate Negotiations Revolving Loan Fund, and (c) the remainder shall be credited and inure to the permanent school fund.

(3) The State Treasurer shall transfer two hundred fifty thousand dollars from the Severance Tax Administration Fund to the Department of Revenue Enforcement Fund on July 1, 2009, or as soon thereafter as administratively possible. The State Treasurer shall transfer two hundred fifty thousand dollars from the Severance Tax Administration Fund to the Department of Revenue Enforcement Fund on July 1, 2010, or as soon thereafter as administratively possible.

It shall be conditioned substantially that the principal and surety will pay to the obligees named or their assigns the amounts of the liens so claimed by them with all costs in the event same shall be proven to be liens on such property.

At any time within the period of time provided in section 57-814, any person claiming such lien may sue upon such bond but no action shall be brought upon such bond after the expiration of such period. Where such action is brought by any person other than an original contractor, the original contractor through whom such person claims a lien shall be made a party defendant and shall at his own expense defend against the claim and if the contractor fails to make such defense, the owner may make the same at the expense of such original contractor. Until all claims, costs, and expenses are finally adjudicated and defeated or satisfied, the owner shall be entitled to retain from the original contractor the amount thereof.

### **57-901 Oil and gas conservation; purpose.**

It is hereby declared to be in the public interest to foster, to encourage and to promote the development, production and utilization of natural resources of oil and gas in the state in such a manner as will prevent waste; to authorize and to provide for the operation and development of oil and gas properties in such a manner that the greatest ultimate recovery of oil and gas be had; and that the correlative rights of all owners be fully protected; and to encourage and to authorize cycling, recycling, pressure maintenance and secondary recovery operations in order that the greatest possible economic recovery of oil and gas be obtained within the state to the end that the landowners, the royalty owners, the producers and the general public realize and enjoy the greatest possible good from these vital irreplaceable natural resources.

It is the intent and purpose of sections 57-901 to 57-921 to permit each and every oil and gas pool in Nebraska to be produced up to its maximum efficient rate of production, subject to the prohibition of waste as herein defined and subject further to the enforcement and protection of the correlative rights of the owners of a common source of oil or gas so that each common owner may obtain his just and equitable share of production therefrom.

This and succeeding sections contemplate determination of correlative rights of adjoining owners in a pool of oil or gas shall be determined on a fair, reasonable, and equitable basis. *Farmers Irr. Dist. v. Schumacher*, 187 Neb. 825, 194 N.W.2d 788 (1972).

### **57-902 Waste of oil and gas; prohibited.**

Waste of oil and gas, or either of them, as defined in section 57-903, is prohibited in the State of Nebraska.

**Source:** Laws 1959, c. 262, § 2, p. 901.

### **57-903 Oil and gas; terms, defined.**

As used in sections 57-901 to 57-921, unless the context otherwise requires:

(1)(a) Waste, as applied to oil, shall include underground waste, inefficient, excessive, or improper use, or dissipation of reservoir energy, including gas

energy and water drive, surface waste, open pit storage, and waste incident to the production of oil in excess of the producer's aboveground storage facilities and lease and contractual requirements, but excluding storage, other than open pit storage, reasonably necessary for building up or maintaining crude stocks and products thereof for consumption, use, and sale; (b) waste, as applied to gas shall include (i) the escape, blowing, or releasing, directly or indirectly, into the open air of gas from wells productive of gas only, or gas from wells producing oil or both oil and gas and (ii) the production of gas in quantities or in such manner as will unreasonably reduce reservoir pressure or unreasonably diminish the quantity of oil or gas that might ultimately be produced, but excluding gas that is reasonably necessary in the drilling, completing, testing, and producing of wells and gas unavoidably produced with oil if it is not economically feasible for the producer to save or use such gas; and (c) waste shall also mean the abuse of the correlative rights of any owner in a pool due to nonuniform, disproportionate, unratable, or excessive withdrawals of oil or gas therefrom causing reasonably avoidable drainage between tracts of land or resulting in one or more owners in such pool producing more than his or her just and equitable share of the oil or gas from such pool;

(2) Commission shall mean the Nebraska Oil and Gas Conservation Commission;

(3) Person shall mean any natural person, corporation, association, partnership, limited liability company, receiver, trustee, executor, administrator, guardian, fiduciary, or other representative of any kind and any department, agency, or instrumentality of the state or of any governmental subdivision thereof;

(4) Oil shall mean crude petroleum oil and other hydrocarbons regardless of gravity which are produced at the wellhead in liquid form and the liquid hydrocarbons known as distillate or condensate recovered or extracted from gas other than gas produced in association with oil and commonly known as casing-head gas;

(5) Gas shall mean all natural gas and all other fluid hydrocarbons not defined as oil;

(6) Pool shall mean an underground reservoir containing a common accumulation of oil or gas or both, each zone of the structure which is completely separated from any other zone in the same structure is a pool as that term is used in sections 57-901 to 57-921;

(7) Field shall mean the general area underlaid by one or more pools;

(8) Owner shall mean the person who has the right to drill into and produce from a pool and to appropriate the oil or gas he or she produces therefrom either for himself or herself or for himself or herself and others;

(9) Producer shall mean the owner of a well or wells capable of producing oil or gas or both or any person who owns and operates a lease, or a unit of producing leases in which other persons own interests, with respect to such well or wells;

(10) Correlative rights shall mean the opportunity afforded to the owner of each property in a pool to produce, so far as it is reasonably practicable to do so without waste, his or her just and equitable share of the oil or gas, or both, in the pool; and

(11) The word and shall include the word or, and the word or shall include the word and.

One form of waste is abuse of correlative rights of any owner in a pool of oil or gas whereby another owner avoidably drains

more than a just and equitable share from the pool. *Farmers Irr. Dist. v. Schumacher*, 187 Neb. 825, 194 N.W.2d 788 (1972).

**57-904 Nebraska Oil and Gas Conservation Commission; members; qualifications; appointment; term; quorum; vacancy; compensation.**

There is hereby established the Nebraska Oil and Gas Conservation Commission. The commission shall consist of three members to be appointed by the Governor. The director of the state geological survey shall serve the commission in the capacity as its technical advisor, but with no power to vote. Any two commissioners shall constitute a quorum for all purposes. At least one member of the commission shall have had experience in the production of oil or gas and shall have resided in the State of Nebraska for at least one year. Each of the other members of the commission shall have resided in the State of Nebraska for at least three years. Initially, two of said members shall be appointed for a term of two years each; and one shall be appointed for a term of four years. At the expiration of the initial terms all members thereafter appointed shall serve for a term of four years. The Governor may at any time remove any appointed member of the commission for cause, and by appointment, with the approval of the Legislature, shall fill any vacancy on the commission. The members of the commission shall receive as compensation for their services the sum of fifty dollars per day for each day actually devoted to the business of the commission; *Provided*, that they shall not receive a sum in any one year in excess of two thousand dollars each. In addition, each member of the commission shall be reimbursed for his or her actual and necessary traveling and other expenses incurred in connection with the carrying out of his or her duties as provided in sections 81-1174 to 81-1177 for state employees.

**57-905 Commission; powers and duties.**

(1) The commission shall have jurisdiction and authority over all persons and property, public and private, necessary to enforce effectively the provisions of sections 57-901 to 57-921.

(2) The commission shall have authority, and it is its duty, to make such investigations as it deems proper to determine whether waste exists or is imminent or whether other facts exist which justify action by the commission.

(3) The commission shall have authority to require: (a) Identification of ownership of oil or gas wells, producing leases, tanks, plants, structures, and facilities for the production of oil and gas; (b) the making and filing of directional surveys, and reports on well location, drilling, and production within six months after the completion or abandonment of the well; (c) the drilling, casing, operating, and plugging of wells in such manner as to prevent the escape of oil or gas out of one stratum into another, the intrusion of water

into oil or gas strata, the pollution of fresh water supplies by oil, gas, or salt water, and to prevent blowouts, cave-ins, seepages, and fires; (d) the furnishing of a reasonable bond with good and sufficient surety, conditioned for the performance of the duty to comply with all the provisions of the laws of the State of Nebraska and the rules, regulations, and orders of the commission; (e) that the production from wells be separated into gaseous and liquid hydrocarbons, and that each be accurately measured; (f) the operation of wells with efficient gas-oil and water-oil ratios, and to fix these ratios; (g) metering or other measuring of oil, gas, or product in pipelines or gathering systems; (h) that every person who produces or purchases oil or gas in this state shall keep and maintain or cause to be kept and maintained for a five-year period complete and accurate records of the quantities thereof, which records shall be available for examination by the commission or its agents at all reasonable times, and that every such person file with the commission such reports as it may reasonably prescribe with respect to such oil or gas or the products thereof; and (i) that upon written request of any person, geologic information, well logs, drilling samples, and other proprietary information filed with the commission in compliance with sections 57-901 to 57-921, or any rule, regulation, or order of the commission, may be held confidential for a period of not more than twelve months.

(4) The commission shall have authority in order to prevent waste, to regulate: (a) The drilling, producing and plugging of wells, or test holes, and all other operations for the production of oil or gas; (b) the shooting and chemical treatment of wells; (c) the spacing of wells; (d) operations to increase ultimate recovery such as, but without limitation, the cycling of gas, the maintenance of pressure, and the introduction of gas, water, or other substances into producing formations; and (e) disposal of oilfield wastes, including salt water.

(5) The commission shall not have authority to limit the production of oil or gas, or both, from any pool or field except to prevent waste therein.

(6) The commission shall have authority to classify wells as oil or gas wells for purposes material to the interpretation or enforcement of the provisions of sections 57-901 to 57-921.

(7) The commission shall have authority to promulgate and to enforce rules, regulations, and orders to effectuate the purposes and the intent of sections 57-901 to 57-921.

(8) The commission, with the approval of the Governor, shall have authority to establish and maintain its principal office and its books, papers, and records at such place in the state as it shall determine. The commission shall not have authority to purchase its principal office quarters.

(9) The commission shall have authority to require that all wells drilled for oil and gas shall be adequately logged with mechanical-electrical logging devices, and to require the filing of logs.

(10) The commission shall have the authority to regulate the drilling and plugging of seismic and stratigraphic tests in oil and gas exploration holes.

(11) The commission shall have the authority to act as the state jurisdictional agency pursuant to the Natural Gas Policy Act, Public Law 95-621, 92 Stat. 3350.

(12) The commission shall have the authority to have one or more examiners, who are employees of the commission, conduct any of its hearings, investiga-

tions, and examinations authorized by sections 57-901 to 57-921. Such examiner may exercise the commission's powers including, but not limited to, the taking of evidence and testimony under oath, resolving questions of fact and questions of law, and the entering of an order. Such order shall be entered in the commission's order journal. Any person having an interest in property affected by an order issued by an examiner and who is dissatisfied with such order may appeal to the commission by filing a petition on appeal to the commission within fifteen days of the entering of the examiner's order. Such person shall provide notice to all interested persons by personal service or registered or certified United States mail with return receipt, requiring such parties to answer within fifteen days from the date of service. Upon appeal, the commission shall hear the case de novo on the record and shall not be bound by any conclusions of the examiner. The commission shall hold a hearing on the appeal within forty-five days of the filing of an appeal to the commission and issue its order within fifteen days after the hearing. The commission shall review all orders issued by an examiner that are not appealed and issue an order concerning the examiner's order within sixty days after the examiner's order. The commission shall adopt, amend, or reject the examiner's order. Any order of an examiner which is not appealed to the commission and which the commission adopts shall not be appealable to the district court unless the commission adopts an order before the end of the time for appeal to the commission.

Oil and Gas Conservation Commission has authority hereunder to prevent waste and to regulate the drilling, producing and spacing of wells. *Farmers Irr. Dist. v. Schumacher*, 187 Neb. 825, 194 N.W.2d 788 (1972).

#### **57-906 Oil and gas; drilling permit; abandonment permit; fee.**

(1) It shall be unlawful to commence operations for the drilling of a well for oil or gas without first giving to the commission notice of intention to drill, and without first obtaining a permit from the commission, under such rules and regulations as may be reasonably prescribed by the commission, and by paying to the commission a fee of two hundred dollars for each such permit.

(2) It shall be unlawful to commence operations for the abandonment of a well with production casing in the hole without first giving to the commission notice of intention to abandon and without first obtaining the approval of the commission for such abandonment and paying to the commission a fee of one hundred dollars.

This section requires a permit from the Oil and Gas Conservation Commission before a well may be drilled. *Farmers Irr. Dist. v. Schumacher*, 187 Neb. 825, 194 N.W.2d 788 (1972).

#### **57-907 Commission; limitation on production; duties.**

(1) The commission shall limit the production of oil and gas from each pool to that amount which can be produced without waste in such pool.

(2) Whenever the commission limits the total amount of oil and gas which may be produced in any pool in this state to an amount less than that amount

which the pool could produce if no restriction was imposed, the commission shall allocate or distribute the allowable production among the several wells or producing properties in the pool on a reasonable basis, preventing or minimizing reasonably avoidable drainage from each developed area not equalized by counterdrainage, so that each property will have the opportunity to produce or to receive its just and equitable share, subject to the reasonable necessities for the prevention of waste.

(3) The commission shall give due regard to the fact that gas produced from oil pools is to be regulated in a manner as will protect the reasonable use of its energy for oil production.

(4) Each person now or hereafter purchasing or taking for transportation oil or gas from any owner or producer shall purchase or take ratably without discrimination in favor of any owner or producer in the same common source of supply offering to sell his oil or gas produced therefrom to such person or offering it to him for transportation.

This section authorizes the Oil and Gas Conservation Commission to limit production to prevent waste and to allocate or distribute allowable production equitably. *Farmers Irr. Dist. v. Schumacher*, 187 Neb. 825, 194 N.W.2d 788 (1972).

**57-908 Commission; spacing units; establish.**

(1) When required to prevent waste, to avoid the drilling of unnecessary wells, or to protect correlative rights, the commission shall establish spacing units for a pool, except in those pools which, prior to September 28, 1959, have been developed to such an extent that it would be impracticable or unreasonable to establish spacing units at the existing state of development. Spacing units when established shall be of substantially uniform size and shape for the entire pool, except that when found to be necessary for any of the purposes above mentioned, the commission is authorized to divide any pool into zones and establish spacing units for each zone, which units may differ in size and shape from those established in any other zone.

(2) The size and the shape of spacing units are to be such as will result in the efficient and economical development of the pool as a whole, and that size shall be the area that can be efficiently and economically drained by one well.

(3) An order establishing spacing units for a pool shall specify the size and shape of each unit and the location of the permitted well thereon in accordance with a reasonably uniform spacing plan. Upon application of the person entitled to drill and after hearing, if the commission finds that a well drilled at the prescribed location would not produce in paying quantities, or that surface conditions would substantially add to the burden or hazard of drilling such well, the commission is authorized to enter an order permitting the well to be drilled at a location other than that prescribed by such spacing order; *Provided*, the commission shall include in the order suitable provisions to prevent the production from the spacing unit of more than its just and equitable share of the oil and gas in the pool.

(4) An order establishing units for a pool shall cover all lands determined or believed to be underlaid by such pool, and may be changed or modified by the commission from time to time, when found necessary for the prevention of waste, or to avoid the drilling of unnecessary wells, or to protect correlative rights.

**57-909 Spacing unit; pooling of interests; order of commission; provisions for drilling and operation; costs; determination; recording.**

(1) When two or more separately owned tracts are embraced within a spacing unit, or when there are separately owned interests in all or part of the spacing unit, then the owners and royalty owners thereof may pool their interests for the development and operation of the spacing unit. In the absence of voluntary pooling, the commission, upon the application of any interested person, or upon its own motion, shall be empowered to enter an order pooling all interests in the spacing unit for the development and operation thereof. Each such pooling order shall be made only after notice and hearing, and shall be upon terms and conditions that are just and reasonable, and that afford to the owner of each tract or interest in the spacing unit the opportunity to recover or receive, without unnecessary expense, his just and equitable share. Operations incident to the drilling of a well upon any portion of a spacing unit covered by a pooling order shall be deemed, for all purposes, the conduct of such operations upon each separately owned tract in the drilling unit by the several owners thereof. That portion of the production allocated to each tract included in a spacing unit covered by a pooling order shall, when produced, be deemed for all purposes to have been produced from such tract by a well drilled thereon.

(2) Each such pooling order shall make provision for the drilling and operation of the authorized well on the spacing unit, and for the payment of the reasonable actual cost thereof, including a reasonable charge for supervision. As to each owner who refuses to agree upon the terms for drilling and operating the well, the order shall provide for reimbursement for his share of the costs out of, and only out of, production from the unit representing his interest, excluding royalty or other interest not obligated to pay any part of the cost thereof. In the event of any dispute as to such cost, the commission shall determine the proper cost. The order shall determine the interest of each owner in the unit, and may provide in substance that, as to each owner who agrees with the person or persons drilling and operating the well for the payment by the owner of his share of the costs, such owner, unless he has agreed otherwise, shall be entitled to receive, subject to royalty or similar obligations, the share of the production of the well applicable to the tract of the consenting owner; and as to each owner who does not agree, he shall be entitled to receive from the person or persons drilling and operating said well on the unit his share of the production applicable to his interest, after the person or persons drilling and operating said well have recovered two hundred percent of that portion of the costs and expenses of staking, well site preparation, drilling, reworking, deepening or plugging back, testing, completing, and other intangible expenses approved by the commission chargeable to each owner who does not agree, and one hundred percent of all equipment including wellhead connections, casing, tubing, packers, and other downhole equipment and surface equipment, including but not limited to stock tanks, separators, treaters, pumping equipment, and piping, plus one hundred percent of the nonconsenting owner's share of the cost of operation and a reasonable rate of interest on the unpaid balance. For the purpose of this section, the owner or owners of oil and gas rights in and under an unleased tract of land shall be regarded as a lessee to the

extent of a seven-eighths interest in and to such rights and a lessor to the extent of the remaining one-eighth interest therein.

(3) A certified copy of the order may be filed for record with the county clerk or register of deeds of the county, as the case may be, where the property involved is located, which recording shall constitute constructive notice thereof. The county clerk, or register of deeds, as the case may be, shall record the same in the real property records of the county and shall index the same against the property affected.

**57-910 Unit or cooperative development; plans and agreements; authorization; not violations of law; approval by commission; effect.**

Plans and agreements for the unit or cooperative development and operation of a field or pool, or a part of either, including those in connection with the conduct of repressuring or pressure maintenance operations, cycling or recycling operations, including the extraction and separation of liquid hydrocarbons from natural gas in connection therewith, water floods or any other method of operation, are authorized and may be performed, and shall not be held or construed to violate any of the statutes of this state relating to trusts, monopolies, or contracts and combinations in restraint of trade, if the plans and agreements are in the public interest, protective of correlative rights, and reasonably necessary to increase ultimate recovery or to prevent waste of oil or gas. If any such plan or agreement has been approved by the commission and an order authorizing unit operations has been entered by it pursuant to notice and hearing as provided in sections 57-910 to 57-910.12, it shall bind not only the persons who have executed such plan or agreement, but also all persons owning interests in oil and gas within the unit area.

**57-910.01 Unit or cooperative development; application for order for unit operation; contents.**

Any owner may file an application with the commission requesting an order for the unit operation of a pool, pools, or parts thereof and for the pooling of the interests in the oil and gas in the proposed unit area for the purpose of conducting such unit operation. The application shall contain:

(1) A description of the land and pool, pools, or parts thereof to be so operated, termed the unit area;

(2) The names of all persons owning or having an interest in the oil and gas in the proposed unit area or the production therefrom, including mortgagees and the owners of other liens or encumbrances, as disclosed by the public records in the county in which the unit area is situated and their addresses, if known. If the name or address of any person is unknown, the application shall so indicate;

(3) A statement of the type of the operations contemplated in order to effectuate the purposes of sections 57-910 to 57-910.12;

(4) A proposed plan of unitization applicable to the proposed unit area which the petitioner considers fair, reasonable, and equitable; and

(5) A proposed operating plan covering the manner in which the unit will be supervised and managed and costs allocated and paid, unless all owners within the unit area have already executed an operating agreement covering such supervision, management, and allocation and payment of costs.

**Source:** Laws 1965, c. 343, § 2, p. 976.

**57-910.02 Unit or cooperative development; hearing; notice.**

Upon filing of an application for an order providing for the unit operation of a pool, pools, or part thereof, and for the pooling of the interests in the oil and gas in the proposed unit area, the commission shall promptly set the matter for hearing and in addition to the notice otherwise required by section 57-911 or the commission rules shall cause notice of the hearing to be given by certified mail at least fifteen days prior to the date of hearing to all persons whose names are required to be set forth in such application.

**Source:** Laws 1965, c. 343, § 3, p. 976; Laws 1967, c. 354, § 1, p. 939.

**57-910.03 Unit or cooperative development; findings required; entry of order; written consents required; revocation of order.**

If after considering the application and hearing the evidence offered in connection therewith the commission finds that:

- (1) The material averments of the application are true;
- (2) Such unit operation is feasible, will prevent waste, and can reasonably be expected to increase substantially the ultimate recovery of oil or gas, or both;
- (3) The value of the estimated additional recovery of oil or gas will exceed the estimated additional costs incident to conducting unit operations;
- (4) The oil and gas allocated to each separately owned tract within the unit area under the proposed plan of unitization represents, so far as can be practicably determined, each such tract's just and equitable share of the oil and gas, or both, in the unit area; and
- (5) In case there are owners who have not executed an operating agreement or agreed to the proposed operating plan, that such proposed operating plan:
  - (a) Makes a fair and equitable adjustment among the owners within the unit area for their respective investments in wells, tanks, pumps, machinery, materials, and equipment which are contributed to the unit operation;
  - (b) Provides for a fair and equitable determination of the cost of unit operations, including capital investment, and establishes a fair and equitable method for allocating such costs to the separately owned tracts and for payment of such costs by the owners of such tracts, either directly or out of such owner's respective shares of unit production;
  - (c) Establishes, if necessary, a fair and equitable method for carrying or otherwise financing any owner who elects to be carried, or otherwise financed, allowing a reasonable interest charge for such service payable out of such owner's share of the unit production; and
  - (d) Provides that each owner shall have a vote in the supervision and conduct of unit operations corresponding to the percentage of the costs of unit operations chargeable against the interest of such owner; then the commission shall enter an order setting forth such findings and approving the proposed plan of unitization and proposed operating plan, if any. No order shall be entered by

the commission authorizing the commencement of unit operations unless and until there has been written consent to the proposed plan of unitization by those persons who own at least seventy-five percent of the unit production or proceeds thereof and to the proposed operating plan, if any, by those persons who will be required to pay at least sixty-five percent of the costs of the unit operation. If such consent has not been obtained at the time the order of approval is made, the commission shall, upon application, hold such supplemental hearings and make such findings as may be required to determine if there has been such consent so that a supplemental order authorizing the commencement of unit operations can be entered. Notice of any such supplemental hearing shall be given, by mail to each person who has previously entered his or her appearance, at least ten days prior to such supplemental hearing. If the required percentages of consent have not been obtained within a period of six months from the date on which the order of approval is made, such order shall be ineffective and shall be revoked by the commission unless, for good cause shown, the commission extends that time.

In any such suit, the court shall have jurisdiction and authority to issue, without bond or other undertaking, such prohibitory and mandatory injunctions as the facts may warrant.

(2) If the commission shall fail to bring suit to enjoin a violation or threatened violation of any provision of sections 57-901 to 57-921, or any rule, regulation, or order of the commission, within ten days after receipt of written request to do so by any person who is or will be adversely affected by such violation, the person making such request may bring suit in his own behalf to restrain such violation or threatened violation in any court in which the commission might have brought suit. No civil penalty shall be imposed until written notice is sent pursuant to subsection (2) of this section and a period of ten days has elapsed in which the person may come into compliance if possible. If any violation is a continuing one, each day a violation continues after such ten-day period shall constitute a separate violation for the purpose of computing the applicable civil penalty. The commission may compromise, mitigate, or remit such penalties.

(2) Whenever the commission intends to impose a civil penalty under this section, the commission shall notify the person in writing (a) setting forth the date, facts, and nature of each violation with which the person is charged, (b) specifically identifying the particular provision or provisions of the section, rule, regulation, order, or permit involved in the violation, and (c) specifying the amount of each penalty which the commission intends to impose. **57-919 Oil and Gas Conservation Fund; investment; charges; exemptions; payment; report of producer; filing; interest; lien; penalties.**

(1) All money collected by the Tax Commissioner or the commission or as civil penalties under sections 57-901 to 57-921 shall be remitted to the State Treasurer for credit to a special fund to be known as the Oil and Gas Conservation Fund. Expenses incident to the administration of such sections shall be paid out of the fund. Transfers may be made from the fund to the General Fund at the direction of the Legislature. Any money in the Oil and Gas Conservation Fund available for investment shall be invested by the state investment officer pursuant to the Nebraska Capital Expansion Act and the Nebraska State Funds Investment Act.

(2) There is hereby levied and assessed on the value at the well of all oil and gas produced, saved, and sold or transported from the premises in Nebraska where produced a charge not to exceed fifteen mills on the dollar. The commission shall by order fix the amount of such charge in the first instance and may, from time to time, reduce or increase the amount thereof as in its judgment the expenses chargeable against the Oil and Gas Conservation Fund may require, except that the amounts fixed by the commission shall not exceed the limit prescribed in this section. It shall be the duty of the Tax Commissioner to make collection of such assessments. The persons owning an interest, a working interest, a royalty interest, payments out of production, or any other interest in the oil and gas, or in the proceeds thereof, subject to the charge provided for in this section shall be liable to the producer for such charge in proportion to their ownership at the time of production. If the final filing date falls on a Saturday, Sunday, or legal holiday, the next secular or business day shall be the final filing date. Such reports or returns shall be considered filed on time if postmarked before midnight of the final filing date. Any such charge not paid within the time herein specified shall bear interest at the rate specified in

section 45-104.02, as such rate may from time to time be adjusted, from the date of delinquency until paid, and such charge together with the interest shall be a lien as provided in section 57-702. The Tax Commissioner shall charge and collect a penalty for the delinquency in the amount of one percent of the charge for each month or part of the month that the charge has remained delinquent, but in no event shall the penalty be more than twenty-five percent of the charge. The Tax Commissioner may waive all or part of the penalty provided in this section but shall not waive the interest. The person remitting the charge as provided in this section is hereby authorized, empowered, and required to deduct from any amounts due the persons owning an interest in the oil and gas or in the proceeds thereof at the time of production the proportionate amount of such charge before making payment to such persons. This subsection shall apply to all lands in the State of Nebraska, anything in section 57-920 to the contrary notwithstanding, except that there shall be exempted from the charge levied and assessed in this section the following: (a) The interest of the United States of America and the interest of the State of Nebraska and the political subdivisions thereof in any oil or gas or in the proceeds thereof; (b) the interest of any Indian or Indian tribe in any oil or gas or in the proceeds thereof produced from land subject to the supervision of the United States; and (c) oil and gas used in producing operations or for repressuring or recycling purposes. #### **58-201 Act, how cited.**

Sections 58-201 to 58-272 shall be known and may be cited as the Nebraska Investment Finance Authority Act.

**Source:** Laws 1983, LB 626, § 1; Laws 1986, LB 1230, § 29; Laws 1989, LB 311, § 1; Laws 1989, LB 706, § 1; Laws 1991, LB 253, § 1; Laws 1992, LB 1001, § 2; Laws 1996, LB 1322, § 1; Laws 2002, LB 1211, § 3; Laws 2006, LB 693, § 1.

#### **58-202 Cost and availability of financing; legislative findings and declarations.**

(1) The Legislature hereby finds and declares that:

(a) The high cost of agricultural loans and the general unavailability of such loans at favorable rates and terms for farmers, particularly beginning farmers, and other agricultural enterprises have resulted in decreased crop, livestock, and business productivity and prevented farmers and other agricultural enterprises from acquiring modern agricultural equipment and processes. These problems have made it difficult for farmers and other agricultural enterprises to maintain or increase their present number of employees and have decreased the supply of agricultural commodities available to fulfill the needs of the citizens of this state; and

(b) There exists in this state an inadequate supply of and a pressing need for farm credit and agricultural loan financing at interest rates and terms which are consistent with the needs of farmers, particularly beginning farmers, and other agricultural enterprises.

(2) The Legislature hereby finds and declares that:

(a) From time to time the high rates of interest charged by mortgage lenders seriously restrict existing housing transfers and new housing starts and the resultant reduction in residential construction starts causes a condition of substantial unemployment and underemployment in the construction industry;

(b) Such conditions generally result in and contribute to the creation of slums and blighted areas in the urban and rural areas of this state and a deterioration of the quality of living conditions within this state and necessitate excessive and disproportionate expenditures of public funds for crime prevention and punishment, public health and safety, fire and accident prevention, and other public services and facilities; and

(c) There exists in the urban and rural areas of this state an inadequate supply of and a pressing need for sanitary, safe, and uncrowded housing at prices at which low-income and moderate-income persons, particularly first-time homebuyers, can afford to purchase, construct, or rent and as a result such persons are forced to occupy unsanitary, unsafe, and overcrowded housing.

(3) The Legislature hereby finds and declares that:

(a) Adequate and reliable energy supplies are a basic necessity of life and sufficient energy supplies are essential to supplying adequate food and shelter;

(b) The cost and availability of energy supplies has been and will continue to be a matter of state and national concern;

(c) The increasing cost and decreasing availability of energy supplies for purposes of residential heating will limit the ability of many of Nebraska's citizens to provide the basic necessities of life and will result in a deterioration in living conditions and a threat to the health and welfare of the citizens of this state;

(d) Energy conservation through building modifications including, but not limited to, insulation, weatherization, and the installation of alternative energy devices has been shown to be a prudent means of reducing energy consumption costs and the need for additional costly facilities to produce and supply energy;

(e) Because of the high cost of available capital, the purchase of energy conservation devices is not possible for many Nebraskans. The prohibitively high interest rates for private capital create a situation in which the necessary capital cannot be obtained solely from private enterprise sources and there is a need for the stimulation of investment of private capital, thereby encouraging the purchase of energy conservation devices and energy conserving building modifications;

(f) The increased cost per capita of supplying adequate life-sustaining energy needs has reduced the amount of funds, both public and private, available for providing other necessities of life, including food, health care, and safe, sanitary housing; and

(g) The continuing purchase of energy supplies results in the transfer of ever-increasing amounts of capital to out-of-state energy suppliers.

(4) The Legislature hereby finds and declares that:

(a) There exist within this state unemployment and underemployment especially in areas of basic economic activity, caused by economic decline and need for diversification of the economic base, needlessly increasing public expenditures for unemployment compensation and welfare, decreasing the tax base, reducing tax revenue, and resulting in economic and social liabilities to the entire state;

(b) Such unemployment and underemployment cause areas of the state to deteriorate and become substandard and blighted and such conditions result in making such areas economic or social liabilities harmful to the economic and social well-being of the entire state and the communities in which they exist, needlessly increasing public expenditures, imposing onerous state and municipal burdens, decreasing the tax base, reducing tax revenue, substantially impairing or arresting the sound growth of the state and the municipalities, depreciating general state and community-wide values, and contributing to the spread of disease and crime which necessitate excessive and disproportionate expenditures of public funds for the preservation of the public health and safety, for crime prevention, correction, prosecution, and punishment, for the treatment of juvenile delinquency, for the maintenance of adequate police, fire, and accident protection, and for other public services and facilities;

(c) There exist within this state conditions resulting from the concentration of population of various counties, cities, and villages which require the construction, maintenance, and operation of adequate hospital and nursing facilities for the care of the public health. Since these conditions cannot be remedied by the ordinary operations of private enterprises and since provision of adequate hospital, nursing, and medical care is a public use, it is in the public interest that adequate hospital and medical facilities and care be provided in order to care for and protect the public health and welfare;

(d) Creation of basic economic jobs in the private sector and the promotion of health and welfare by the means provided under the Nebraska Investment Finance Authority Act and the resulting reduction of needless public expenditures, expansion of the tax base, provision of hospitals and health care and related facilities, and increase of tax revenue are needed within this state; and

(e) Stimulation of economic development throughout the state and the provision of health care at affordable prices are matters of state policy, public interest, and statewide concern and within the powers and authority inherent in and reserved to the state in order that the state and its municipalities shall not continue to be endangered by areas which consume an excessive proportion of their revenue, in order that the economic base of the state may be broadened and stabilized thereby providing jobs and necessary tax base, and in order that adequate health care services be provided to all residents of this state.

(5) The Legislature hereby finds and declares that:

(a) There is a need within this state for financing to assist municipalities, as defined in section 81-15,149, in providing wastewater treatment facilities and safe drinking water facilities. The federal funding provided for wastewater treatment facilities is extremely limited while the need to provide and improve wastewater treatment facilities and safe drinking water facilities is great;

(b) The construction, development, rehabilitation, and improvement of modern and efficient sewer systems and wastewater treatment facilities are essential to protecting and improving the state's water quality, the provision of adequate

wastewater treatment facilities and safe drinking water facilities is essential to economic growth and development, and new sources of financing for such projects are needed;

(c) The federal government has acted to end the system of federal construction grants for clean water projects and has instead provided for capitalization grants to capitalize state revolving funds for wastewater treatment projects and will soon expand that to include safe drinking water facilities, and the state has created or is expected to create appropriate funds or accounts for such purpose. The state is required or expected to be required to provide matching funds for deposit into such funds or accounts, and there is a need for financing in excess of the amount which can be provided by the federal money and the state match; and

(d) Additional assistance can be provided to municipalities as defined in section 81-15,149 to alleviate the problems of water pollution or the provision of safe drinking water by providing for the issuance of revenue bonds, the proceeds of which shall be deposited into the Wastewater Treatment Facilities Construction Loan Fund or the comparable state fund to finance safe drinking water facilities. Nothing in this section shall prohibit the provision of loans, including loans made pursuant to the Conservation Corporation Act, to a municipality as defined in section 81-15,149 for the construction, development, rehabilitation, operation, maintenance, and improvement of wastewater treatment facilities or safe drinking water facilities.

(6) The Legislature hereby finds and declares that:

(a) There is a need within this state for financing to assist public school boards and school districts and private for-profit or not-for-profit schools in connection with removal of materials determined to be hazardous to the health and well-being of the residents of the state and the reduction or elimination of accessibility barriers and that the federal funding provided for such projects is extremely limited and the need and requirement to remove such materials and to reduce or eliminate accessibility barriers from school buildings is great;

(b) The financing of the removal of such environmental hazards and the reduction or elimination of accessibility barriers is essential to protecting and improving the facilities in the state which provide educational benefits and services;

(c) The federal government has directed schools to remove such hazardous materials and to reduce or eliminate accessibility barriers; and

(d) The problems enumerated in this subsection cannot be remedied through the operation of private enterprise or individual communities or both but may be alleviated through the assistance of the authority to encourage the investment of private capital and assist in the financing of the removal of environmental hazards and the reduction or elimination of accessibility barriers in educational facilities in this state in order to provide for a clean, safe, and accessible environment to protect the health and welfare of the citizens and residents of this state.

(7) The Legislature hereby finds and declares that:

(a) The rapidly rising volume of waste deposited by society threatens the capacity of existing and future landfills. The nature of waste disposal means that unknown quantities of potentially toxic and hazardous materials are being buried and pose a constant threat to the ground water supply. In addition, the

nature of the waste and the disposal methods utilized allow the waste to remain basically inert for decades, if not centuries, without decomposition;

(b) Wastes filling Nebraska's landfills may at best represent a potential resource, but without proper management wastes are hazards to the environment and to the public health and welfare;

(c) The growing concern with ground water protection and the desire to avoid financial risks inherent in ground water contamination have caused many smaller landfills to close in favor of using higher-volume facilities. Larger operations allow for better ground water protection at a relatively lower and more manageable cost;

(d) The reduction of solid waste at the source and the recycling of reusable waste materials will reduce the flow of waste to landfills and increase the supply of reusable materials for the use of the public;

(e) There is a need within this state for financing to assist counties, cities, villages, entities created under the Interlocal Cooperation Act and the Joint Public Agency Act, and private persons with the construction and operation of new solid waste disposal areas or facilities and with the closure, monitoring, and remediation of existing solid waste disposal areas and facilities;

(f) Financing the construction and operation of new solid waste disposal areas and facilities and financing the closure, monitoring, and remediation of existing and former solid waste disposal areas and facilities in the state is essential to protect the environment and the public health and welfare;

(g) The federal government has directed that effective October 1, 1993, all solid waste disposal areas and facilities shall be upgraded to meet stringent siting, design, construction, operation, closure, monitoring, and remediation requirements; and

(h) The problems enumerated in this subsection cannot be remedied through the operation of private enterprise or individual communities or both but may be alleviated through the assistance of the authority to encourage the investment of private capital and to assist in the financing of solid waste disposal areas and facilities and in the removal of environmental hazards in solid waste disposal areas and facilities in this state in order to provide for a clean environment to protect the health and welfare of the citizens and residents of this state.

(8) The Legislature hereby finds and declares that:

(a) During emergencies the resources of political subdivisions must be effectively directed and coordinated to public safety agencies to save lives, to protect property, and to meet the needs of citizens;

(b) There exists a need for public safety communication systems for use by Nebraska's public safety agencies as defined in the Nebraska Public Safety Communication System Act;

(c) Investment in the public safety communication infrastructure is required to ensure the effectiveness of such public safety agencies. Since the maintenance of public safety is a paramount concern but the cost of purchasing and operating multiple communication infrastructures is prohibitive, it is imperative that political subdivisions cooperate in their efforts to obtain real and personal property to establish, operate, maintain, and manage public safety communication systems; and

(d) There is a need within this state for financing to assist political subdivisions and any entities created under the Interlocal Cooperation Act and the Joint Public Agency Act with the acquisition, construction, and operation of real and personal property of public safety communication systems.

(9) The Legislature hereby finds and declares that, as of May 27, 2005, and in connection with the financing of agricultural projects, there is a need to increase both the limit on individual net worth and the limit on the aggregate loan amount that may be provided by the authority. Such adjustments are necessary to address the inadequate supply of and pressing need for farm credit and agricultural loan financing at interest rates and terms that are consistent with the needs of farmers, particularly beginning farmers, and other agricultural enterprises.

(10) The Legislature hereby finds and declares that:

(a) The amount of funding and other resources available to remedy the problems identified in this section has been, and continues to be, insufficient. Accordingly, the authority must be provided with additional powers to adequately address the problems identified in this section with funding derived from public and private sources and state and federal sources;

(b) Carrying out the purposes of the Nebraska Investment Finance Authority Act may necessitate innovative agreements with public agencies and private entities and it is the policy of this state to encourage such public-private and intergovernmental cooperation; and

(c) Better, more broad-based sources of financing must be made available to the authority and by the authority to the private sector of the economy to enable the authority to address the problems identified in this section.

#### 58-203 Authority; purpose for creation.

(1) The problems enumerated in section 58-202 cannot alone be remedied through the operation of private enterprise or individual communities or both but may be alleviated through the creation of a quasi-governmental body to:

(a) Encourage the investment of private capital and stimulate the construction of sanitary, safe, and uncrowded housing for low-income and moderate-income persons, particularly first-time homebuyers, through the use of public financing as provided by the Nebraska Investment Finance Authority Act at reasonable interest rates and by coordinating and cooperating with private industry and local communities which are essential to alleviating the conditions described in section 58-202 and are in the public interest;

(b) Encourage the investment of private capital to provide financing for farmers, particularly beginning farmers, and other agricultural enterprises of usual and customary size for such farming operations within the community at

interest rates lower than those available in conventional farm credit markets which is essential to alleviating the conditions described in section 58-202 and is in the public interest;

(c) Encourage the investment of private capital and stimulate the creation of basic economic activity, the creation of jobs, the provision of adequate health care, and the expansion of the tax base throughout the state through the use of public financing and by coordinating with private industry and local communities which are essential to alleviating the conditions described in section 58-202 and are in the public interest;

(d) Encourage the investment of private capital and assist in the construction, development, rehabilitation, and improvement of wastewater treatment facilities and safe drinking water facilities in this state to provide for clean water to protect the health and welfare of the citizens and residents of this state and promote economic well-being which are essential to alleviating the conditions described in section 58-202 and are in the public interest;

(e) Encourage the investment of private capital and assist schools through the use of public financing in the abatement of environmental hazards and the reduction and elimination of accessibility barriers in their school buildings or on their school grounds in order to protect the health and welfare of the citizens and residents of this state and promote economic well-being which are essential to alleviating the conditions described in section 58-202 and are in the public interest;

(f) Encourage the investment of private capital and assist in financing the construction and operation of new solid waste disposal areas and facilities and the closure, monitoring, and remediation of former and existing solid waste disposal areas and facilities;

(g) Encourage the investment of private capital and stimulate the construction and operation of any public safety communication project through the use of public financing as provided by the act at reasonable interest rates which is essential to addressing the needs described in section 58-202 and is in the public interest; and

(h) Encourage cooperation with public agencies and the use of entrepreneurial methods and approaches to better access federal, state, and local government resources and to stimulate more private sector initiatives and joint public-private initiatives to carry out the purposes of the Nebraska Investment Finance Authority Act.

(2) Alleviating the conditions and problems enumerated in section 58-202 through encouragement of private investment by a quasi-governmental body is a public purpose and use for which public money provided by the sale of bonds may be borrowed, expended, advanced, loaned, or granted. Such activities shall not be conducted for profit. Such activities are proper governmental functions and can best be accomplished by the creation of a quasi-governmental body vested with the powers and duties specified in the Nebraska Investment Finance Authority Act. The necessity for the provisions of the act to protect the health, safety, morals, and general welfare of all the people of this state is hereby declared to be a matter of legislative determination. The quasi-governmental body created by the act shall make financing available for new or existing housing to serve those people, particularly first-time homebuyers, whom private industry is unable to serve at current interest rates, shall make financing available for farmers, particularly beginning farmers, shall make

financing available for the construction, development, rehabilitation, and improvement of wastewater treatment facilities or safe drinking water facilities and for the construction, operation, closure, monitoring, and remediation of solid waste disposal areas and facilities in this state, shall make financing available to schools for the abatement of environmental hazards and the reduction and elimination of accessibility barriers, and shall make financing available for public safety communication projects in this state.

The Legislature finds that the Nebraska Mortgage Finance Fund, the Nebraska Development Finance Fund, and the Agricultural Development Corporation have effectuated their respective public purposes.

**Source:** Laws 1983, LB 626, § 4; Laws 1991, LB 253, § 4.

**58-205 Consolidation of various finance and development entities; legislative findings.**

The Legislature further finds that the use of a single staff by the Nebraska Mortgage Finance Fund, the Nebraska Development Finance Fund, and the Agricultural Development Corporation has proven to be very efficient and that it would promote an even more efficient operation of the activities of such entities if they were consolidated into a single entity with a single governing body.

**Source:** Laws 1983, LB 626, § 5; Laws 1991, LB 253, § 5.

**58-206 Assistance and expertise; provided by single finance and development entity; legislative findings.**

(1) In many instances local communities, citizens of the state, and private enterprise lack the knowledge and technical expertise necessary to take advantage of the public purpose financings offered by the Nebraska Mortgage Finance Fund, the Nebraska Development Finance Fund, the Agricultural Development Corporation, and local industrial development revenue bond options, resulting in less than full realization of the public purpose benefits of such financings to the state and its citizens;

(2) It is in the interest of the state and its citizens, as well as local communities, to provide assistance and expertise to enable local communities, citizens, and private enterprise to more fully realize the benefits available to the general public; and

(3) Such assistance and expertise can be provided by a single quasi-governmental entity with a professional staff.

(b) A description of the characteristics of such area that cause it to be a blighted and substandard area under the act;

(c) A statement that such city or joint entity intends that such area be designated by the board as a designated blighted and substandard area in order to allow for potential redevelopment projects under the act;

(d) The application to the state must have a description of the specific project for which a designation has been requested. No other project can be initiated, if such designation is approved, without again making application to the board; and

(e) Such other information as the board determines is necessary to decide whether the area is a blighted and substandard area under the act.

(3) The city or joint entity filing such area application shall at the same time of filing such application also provide notice of such filing and a copy of such area application to any governing body of the other public bodies whose area of operation is covered in whole or in part by the proposed designated blighted and substandard area and to any school district which has territory within twenty miles of the border of the proposed designated blighted and substandard area.

(4) Upon receipt of an area application, the board shall schedule a public hearing to be held within fifteen days after such receipt to receive public input. The board shall publish notice of the public hearing for five business days in advance of the hearing in some legal newspaper of general circulation near the proposed designated area. The notice shall list the name of the city or joint entity that filed the application and the legal or other sufficient description of the area and shall state that the area is proposed to be designated as a blighted and substandard area under the Nebraska Redevelopment Act.

(5) The board shall determine by majority vote no sooner than fifteen days but no later than sixty days after the date of filing of the area application whether to approve or disapprove the area application's request for designation of such area. (6) The address of the board shall be the address of the Department of Revenue.

(7) The board may approve the area application if the proposed designated blighted and substandard area fits within the definition of such an area under the act and if such area application is in the public interest. (9) If the board approves such area application, then, for purposes of Article VIII, section 12, of the Constitution of Nebraska, as applied in the act, the designated blighted and substandard area is considered as determined by law to be a designated blighted and substandard area and the property within such area is considered to be determined by law to be substandard and blighted property.

(10) The area application and all supporting information shall be considered public information.

**58-505 Redevelopment project; application; hearing; approval.**

(1) A company may file a project application with the city or joint entity that filed the area application for the designated blighted and substandard area to undertake and complete a redevelopment project in such designated area and to obtain tax increment financing under the Nebraska Redevelopment Act for such project. Such application may be filed either before or after approval by the board of the area application for designation of such area. The company shall, at the time of filing the project application with the city or joint entity, also file a copy of such project application with the governing body of each of the public bodies whose area of operation or the area within three miles thereof includes in whole or in part the project area. Not later than five calendar days before approving or disapproving the project application, the city or joint entity shall, by United States mail, postage prepaid, mail to the owners of real property described in the project application as being within the project area a written notice stating that the property owned by the person or persons is proposed to be included in the project area of a project under the Nebraska Redevelopment Act, that a project application has been filed with the city or joint entity, the date, time, and location of the public hearing, and where additional information may be obtained. The notice shall be sent to the owner or owners of the real property as their names appear and at the address indicated in the records of the county assessor for property tax purposes on the business day immediately prior to the date of the mailing. The city or joint entity may, but shall not be required to, send the notice by certified or

registered United States mail. Substantial compliance with this notice requirement shall be deemed sufficient for all purposes of the act.

(2) Such city or joint entity shall no sooner than twenty days after the filing of such project application, and no later than sixty days after the filing of such project application, either approve or disapprove such project application. Such project application shall not be approved if (a) the governing body of a county whose area of operation includes in whole or part the project area, (b) the governing body of a city whose area of operation and the area within three miles thereof includes in whole or part the project area, or (c) any electric utility serving the project area shall, within fifteen days after receipt of the project application, file with such city or joint entity a written objection to approval of the project application signed by the head of such governing body. The city, county, or electric utility may withdraw the objection within thirty days after it is filed.

(3) The project application shall contain:

(a) The exact name of the company and any related companies which will be included in the redevelopment project;

(b) A statement describing in detail the nature of the company's business, including the products sold and respective markets;

(c) A legal description of the project area;

(d) A detailed narrative that describes the proposed redevelopment project, including an allocation of the proposed expenditures for site acquisition, site preparation, and buildings and improvement construction, equipment, and other personal property purchases and leases;

(e) A request that the proposed redevelopment project be considered for approval by such city or joint entity;

(f) A copy of the company's internal authorization for the redevelopment project; and

(g) The number of base-year employees and the expected number of new employees, including the expected timing of the hiring of the new employees, the anticipated timing and anticipated amounts of new investment in buildings, equipment, and other real property and personal property and the average salaries expected by category for the new employees to be employed at the redevelopment project.

(4) The city or joint entity shall determine whether to approve the company's project application based on its determination as to whether the redevelopment project will sufficiently help enable the state and local communities to accomplish the legislative purposes of the act. The city or joint entity shall be governed by and shall take into consideration all of the following factors in making such determination:

(a) The timing, number, wage levels, employee benefit package, and types of new jobs to be created by the redevelopment project;

(b) The type of industry in which the company and the project would be engaged;

(c) The timing, amount of, and types of investment in qualified property to be made at the project;

(d) Whether the city or joint entity believes the redevelopment project would occur in this state regardless of whether the application was approved; and

(e) Whether the benefits allowed by the act for the redevelopment project, when compared to the local tax revenue and fees generated by the redevelopment project investment and employment, both on a direct and indirect multiplier basis, provide an adequate net benefit to the public bodies affected by such redevelopment project.

(5) A project shall be considered eligible under the act and may be approved by the city or joint entity only if the application defines a redevelopment project (a) which is consistent with the legislative purposes contained in section 58-502 in one or more qualified business activities within the project area and (b) that will result at the project area in the investment in qualified property of at least fifty million dollars and the hiring of a number of new employees of at least five hundred, and when such new investment and employment will occur within five years, meaning by the end of the fourth year after the end of the year the application was filed, and such new investment and employment will be maintained for the entire redevelopment period. These thresholds shall constitute the required levels of employment and investment for purposes of the act.

(6) If the redevelopment project application is approved by the city or joint entity, the city or joint entity shall as the contracting public body enter into a written project agreement with the company. The project agreement shall be executed on behalf of the contracting public body by the person normally or specifically authorized to execute agreements on behalf of such entity. In the project agreement, the company shall agree to complete the redevelopment project and the contracting public body shall designate the approved plans of the company as a redevelopment project and, in consideration of the company's agreement, agree to allow the provisions relating to indebtedness by a city or cities and the payment of such indebtedness through tax increment financing as provided for in the act. The contracting public body shall not incur indebtedness under the agreement except for the purposes of land acquisition, site preparation, extension of public services, and improvements to the site, including buildings for other than residential use. The project agreement shall contain other terms as the city or joint entity and the company determine are appropriate or necessary to protect the affected public bodies and to carry out the legislative purposes of the act and may contain terms for a recapture or other remedy if the company fails to attain the required levels of employment and investment within the time period contained in the act or fails to maintain such levels for the redevelopment period. The project application shall be considered as part of the project agreement.

(7) If the city or joint entity approves such project application, then the project area is, for purposes of Article VIII, section 12, of the Constitution of Nebraska, as applied in the act, considered as determined by law to be substandard and blighted property in a redevelopment project.

**58-507 Property taxes; how divided.**

The project agreement shall contain a provision that all property taxes levied on the assessed valuation of the real property or personal property, or both, in the project area of the redevelopment project by or for the benefit of all taxing bodies shall be divided, for a period not to exceed fifteen years after the effective date of such project agreement, as follows:

(1) That portion of the property tax which is produced by the levy at the rate fixed each year by or for each such taxing body upon the redevelopment project valuation shall be paid into the funds of each such taxing body in the same proportion as are all other taxes collected by or for such taxing body; and

(2) That portion of the property tax on real property, personal property, or both, as provided in the project agreement in the redevelopment project in excess of such amount, if any, shall be allocated to and, when collected, paid into a special fund established by the contracting public body to pay the principal of, the interest on, and any premiums due in connection with the bonds, loans, notes, advances of money, or other indebtedness incurred by, whether funded, refunded, assumed, or otherwise, such contracting public body for financing or refinancing, in whole or in part, such redevelopment project. When such bonds, loans, notes, advances of money, or other indebtedness, including interest and premiums due, have been paid, the contracting public body shall so notify the county assessor and county treasurer and all property taxes upon taxable real property and personal property in such redevelopment project shall thereafter be paid into the funds of and applied as all other taxes of the respective taxing bodies.

**58-508 Redevelopment project valuation; county assessor; duties.**

Commencing on the effective date of the project agreement, the county assessor, or county clerk if he or she is ex officio county assessor, of the county or counties in which the redevelopment project is located, shall transmit to the contracting public body and to the county treasurer, upon request, the redevelopment project valuation and shall annually certify to such contracting public body and the county treasurer the current valuation for assessment of taxable real property and personal property in the redevelopment project. The county assessor shall undertake, upon request of such contracting public body, an investigation, examination, and inspection of the taxable real property and taxable personal property in the redevelopment project and shall reaffirm or revalue the current value for assessment for such property in accordance with the findings of such investigation, examination, and inspection.

**58-509 Property taxes; how treated.**

In each year after the determination of a redevelopment project valuation as outlined in section 58-508, the county assessor and the county board of equalization of each affected county shall include no more than the redevelopment project valuation of the taxable real property and taxable personal property in the redevelopment project in the assessed valuation upon which is computed the rates of all taxes levied by any taxing body on such project. In each year for which the current assessed valuation on taxable real property and taxable personal property in the redevelopment project exceeds the redevelopment project valuation, the county treasurer shall remit to the contracting

public body, instead of to any taxing body, that proportion of all property taxes on real property and personal property paid that year on the redevelopment project which such excess valuation bears to the current assessed valuation.

**58-510 Pledge of taxes authorized.**

**58-512 Powers supplemental; act, how construed.**

The powers conferred by the Nebraska Redevelopment Act shall be in addition and supplemental to the powers conferred by any other law and shall be independent of and in addition to any other provision of the laws of the state with reference to the matters covered thereby and shall be considered as a complete and independent act and not as amendatory of or limited by any other provisions of the laws of the state. The act and all grants of power, authority, rights, or discretion made to a city and to a contracting public body shall be liberally construed, and all incidental powers necessary to carry into effect the provisions of the act are expressly granted to and conferred upon a city or a contracting public body.

(a) Purchase, lease, obtain options upon, or acquire by gift, grant, bequest, devise, eminent domain, or otherwise any real property or personal property, or any interest therein, together with any improvements thereon, necessary or incidental to a redevelopment project, except that the power of eminent domain may be exercised only against nonpublic entities and individuals;

(e) Make any of the covenants, restrictions, or conditions of such contract covenants running with the land and to provide appropriate remedies for any breach of any such covenants or conditions, including the right in such contracting public body to terminate such contracts and any interest in the property created;

(f) Borrow money, issue bonds, and provide security for loans or bonds;

(h) Insure or provide for the insurance of any real property or personal property or the operations of such contracting public body against any risks or hazards, including the power to pay premiums on any such insurance;

(i) Enter into any contracts necessary to effectuate the purposes of the act; and

(j) Provide grants, loans, or other means of financing to public or private persons in order to accomplish the rehabilitation, acquisition, or redevelopment in accordance with the project agreement. (6) To make such expenditures as may be necessary to carry out the purposes of the act, and to make expenditures from funds obtained from the federal government without regard to any other laws pertaining to the making and approval of appropriations and expenditures;

(7) To annex all or any portion of the project area, whether such area is contiguous or not contiguous to the area of operation of the contracting public body if both the company and contracting public body agree to such annexation, except that (a) the annexing contracting public body shall comply with all other provisions of law relating to annexation generally applicable to a municipality of the class of the contracting public body, (b) the contracting public body shall not, in consequence of the annexation under this subdivision of any noncontiguous land, exercise the authority granted to it by statute to extend its jurisdiction beyond its corporate boundaries for purposes of planning, zoning, or subdivision development without the agreement of any city, village, or county currently exercising such jurisdiction over the area surrounding the annexed portion of the project area, and (c) the provisions of section 70-1008 shall apply to the annexation of any contiguous land by the contracting public body, but the annexation of any noncontiguous land undertaken pursuant to the act by a contracting public body shall not result in any change to the service area of any electric utility without the express agreement of the electric utility serving the annexed noncontiguous area at the time of annexation, except that at such time following the annexation of the noncontiguous area as the contracting public body lawfully annexes sufficient intervening territory so as to directly connect the noncontiguous area to the main body of the contracting public body, such noncontiguous area shall, solely for the purposes of section 70-1008, be treated as if it had been annexed by the contracting public body on the date upon which the connecting intervening territory had been formally annexed; and

#### **58-514 Issuance of bonds.**

The contracting public body may issue bonds from time to time for any of its corporate purposes as specified in a project agreement or with respect to the acquisition, rehabilitation, or redevelopment of property in a designated blighted and substandard area or as otherwise permitted by the Nebraska Redevelopment Act. The contracting public body may also issue refunding bonds for the purpose of paying, retiring, or otherwise refinancing, or in exchange for any or all of the principal or interest upon bonds previously issued by it. The contracting public body may issue such types of bonds as it determines, including,

without limiting the generality of the foregoing, bonds on which the principal and interest are payable:

(1) Exclusively from the income, proceeds, and revenue of the redevelopment project financed with proceeds of such bonds;

(2) Exclusively from the income, proceeds, and revenue of any of its redevelopment projects whether or not they are financed in whole or in part with the proceeds of such bonds;

(3) Exclusively from its revenue and income, including such tax revenue or receipts as may be authorized, including those which may be pledged under section 58-510, and from such grants and loans as may be received; or

(4) From all or part of the income, proceeds, and revenue enumerated in subdivisions (1), (2), and (3) of this section.

**58-515 Bonds; liability; how paid; notes.**

The contracting public body, the members of the governing body of the contracting public body, and any person executing the bonds shall not be liable personally on the bonds by reason of the issuance of the bonds. The bonds and other obligations of the contracting public body, and such bonds and obligations shall so state on their face, shall be special limited obligations of the contracting public body payable solely from a portion of ad valorem taxes levied by taxing bodies on property in the redevelopment project area and allocable to and collected by the contracting public body as authorized by the Nebraska Redevelopment Act and shall not be a debt of the contracting public body. The contracting public body shall not be liable on such bonds except to the extent authorized by sections 58-507 to 58-510. Such bonds or obligations shall not be payable out of any funds or properties other than those of the contracting public body acquired for the purposes of the act except to the extent authorized by sections 58-507 to 58-510. Except to the extent otherwise authorized, the bonds shall not constitute an indebtedness within the meaning of any constitutional or statutory debt limitation or restriction. Bonds of the contracting public party are declared to be issued for an essential public and governmental purpose and to be public instrumentalities and, together with interest thereon and income therefrom, shall be exempt from all taxes.

The contracting public body may issue bond anticipation notes and may issue renewal notes, such notes in any case to mature not later than thirty months from the date of incurring the indebtedness represented in an amount not exceeding in the aggregate at any time outstanding the amount of bonds then or before authorized. Payment of such notes shall be made from any money or revenue which the contracting public body may have available for such purpose or from the proceeds of the sale of bonds of the contracting public body, or

such notes may be exchanged for a like amount of such bonds. The contracting public body may pledge such money or revenue of the contracting public body subject to prior pledges, if any, for the payment of such notes, and may in addition secure the notes in the same manner as provided for bonds. All notes shall be issued and sold in the same manner as bonds, and any contracting public body may contract for the future sale of notes on terms and conditions stated in such contracts, and the contracting public body may pay such consideration as it deems proper for any commitments to purchase notes and bonds in the future. Such notes shall also be collaterally secured by pledges and deposits with a bank or trust company, in trust for the payment of such notes, of bonds in an aggregate amount at least equal to the amount of such notes and, in any event, in an amount deemed by the issuing party sufficient to provide for the payment of the notes in full at the maturity of the notes. The contracting public body may provide in the collateral agreement that the notes may be exchanged for bonds held as collateral security for the notes, or that the trustee may sell the bonds if the notes are not otherwise paid at maturity and apply the proceeds of such sale to the payment of the notes. Such notes shall bear interest at a rate or rates set by the contracting public body and shall be sold at such price as will cause the interest cost on the note to not exceed such rate or rates.

Any pledge of revenue, income, receipts, proceeds, or other money made by a contracting public body for the payment of bonds or notes shall be valid and binding from the time such pledge is made. The revenue, income, receipts, proceeds, and other money so pledged and thereafter received by the contracting public body shall immediately be subject to the lien of such pledge without the physical delivery or further act, and the lien of any such pledge shall be valid and binding as against all parties having claims of any kind in tort, contract, or otherwise against the contracting public body irrespective of whether such parties have actual notice. Neither the resolution nor any other instrument by which a pledge is created need be recorded.

body deems appropriate, or may be exchanged by the contracting public body for other bonds issued by it under the Nebraska Redevelopment Act. Bonds which are issued under this section may be sold by the contracting public body to the federal government at private sale at a discount, at par, or at a premium and, if less than all of the authorized principal amount of such bonds is sold by the contracting public body to the federal government, the balance or any portion of the balance may be sold by the contracting public body at private sale at a discount, at par, or at a premium.

**58-518 Bonds; signatures; negotiability.**

In case any of the members or officers of the contracting public body whose signatures appear on any bonds shall cease to be such members or officers before the delivery of such bonds, such signatures shall, nevertheless, be valid and sufficient for all purposes, as if such members or officers had remained in office until the delivery. **58-519 Bonds; presumption of validity.**

In any suit, action, or proceedings involving the validity or enforceability of any bond of a contracting public body or the security therefor brought after the lapse of thirty days after the bonds are issued, any such bond reciting in substance that it has been issued by the contracting public body to aid in financing a redevelopment project shall be conclusively deemed to have been issued for such purpose and such project shall be conclusively deemed to have been planned, located, and carried out in accordance with the purposes and provisions of the Nebraska Redevelopment Act.

For this purpose a petition may be filed in the district court in the county in which the area of operation, or part thereof, of the contracting public body is located against the state and its taxpayers and citizens. Such action shall constitute a bond validation proceeding.

(2) The petition shall set out the contracting public body's authority for incurring the indebtedness and pledging or applying such ad valorem taxes and for all the other essential proceedings had or taken in connection therewith, the amount of the indebtedness issued or to be issued, and the interest they are to bear.

(3) The court shall issue an order, directed against the state and its taxpayers and citizens, requiring the state through the Attorney General to appear at a designated time and place within the county where the petition is filed and show why the petition should not be granted and the proceedings and bonds or tax matters validated. A copy of the petition and order shall be served on the Attorney General at least twenty days before the time fixed for hearing. The Attorney General shall examine the petition, and if it appears or there is reason to believe that it is defective, insufficient, or untrue, or if in the opinion of the Attorney General the issuance of the indebtedness in question has not been duly authorized, defense shall be made by the Attorney General. The Attorney General shall have access, for the purposes of such action, to all records and proceedings of the contracting public body, and any officer, agent, or employee having charge, possession, or control of any of the books, papers, or records of the contracting public body shall exhibit them for examination on demand of the Attorney General and shall furnish, without cost, duly authenticated copies which pertain to the proceedings for the issuance of the indebtedness and the pledge or application of taxes or which may affect their legality.

(4) At the hearing the court shall determine all questions of law and fact and make such orders as will enable it to properly try and determine the action and render a final judgment with the least possible delay. The company and any bondholder may intervene in such proceeding.

(5) The Attorney General, a contracting public body, company, or any bondholder may appeal such order in the normal manner and time for appeals from the district court prescribed by law and applicable court rules.

(6) If the judgment validates such indebtedness, tax matters, and proceedings and no appeal is taken within the time prescribed, or if taken and the judgment is affirmed, such judgment is forever conclusive as to all matters adjudicated against the plaintiff and all persons affected by the action, including all taxpayers and citizens.

(7) If any judgment extends into more than one county it shall be recorded in each such county.

(8) The court costs shall be paid by the contracting public body filing the petition except as the court otherwise determines is equitable.

(9) No judge shall be disqualified in any validation action because he or she is a landowner or taxpayer of any county or city affected.

County, rendered on . . . . . 20....".

Sections 58-610 to 58-619 shall be known and be cited as the Nebraska Uniform Prudent Management of Institutional Funds Act.

**Source:** Laws 2007, LB136, § 1.

**58-611 Definitions.**

For purposes of the Nebraska Uniform Prudent Management of Institutional Funds Act:

(1) Charitable purpose means the relief of poverty, the advancement of education or religion, the promotion of health, the promotion of a governmental purpose, or any other purpose the achievement of which is beneficial to the community.

(2) Endowment fund means an institutional fund or part thereof that, under the terms of a gift instrument, is not wholly expendable by the institution on a current basis. The term does not include assets that an institution designates as an endowment fund for its own use.

(3) Gift instrument means a record or records, including an institutional solicitation, under which property is granted to, transferred to, or held by an institution as an institutional fund.

(4) Institution means:

(A) a person, other than an individual, organized and operated exclusively for charitable purposes;

(B) a government or governmental subdivision, agency, or instrumentality, to the extent that it holds funds exclusively for a charitable purpose; and

(C) a trust that had both charitable and noncharitable interests, after all noncharitable interests have terminated.

(5) Institutional fund means a fund held by an institution exclusively for charitable purposes. The term does not include:

(A) program-related assets;

(B) a fund held for an institution by a trustee that is not an institution; or

(C) a fund in which a beneficiary that is not an institution has an interest, other than an interest that could arise upon violation or failure of the purposes of the fund.

(6) Person means an individual, corporation, business trust, estate, trust, partnership, limited liability company, association, joint venture, public corporation, government or governmental subdivision, agency, or instrumentality, or any other legal or commercial entity.

(7) Program-related asset means an asset held by an institution primarily to accomplish a charitable purpose of the institution and not primarily for investment.

(8) Record means information that is inscribed on a tangible medium or that is stored in an electronic or other medium and is retrievable in perceivable form.

**Source:** Laws 2007, LB136, § 2.

**58-612 Standard of conduct in managing and investing institutional fund.**

(a) Subject to the intent of a donor expressed in a gift instrument, an institution, in managing and investing an institutional fund, shall consider the charitable purposes of the institution and the purposes of the institutional fund.

(b) In addition to complying with the duty of loyalty imposed by law other than the Nebraska Uniform Prudent Management of Institutional Funds Act, each person responsible for managing and investing an institutional fund shall manage and invest the fund in good faith and with the care an ordinarily prudent person in a like position would exercise under similar circumstances.

(c) In managing and investing an institutional fund, an institution:

(1) may incur only costs that are appropriate and reasonable in relation to the assets, the purposes of the institution, and the skills available to the institution; and

(2) shall make a reasonable effort to verify facts relevant to the management and investment of the fund.

(d) An institution may pool two or more institutional funds for purposes of management and investment.

(e) Except as otherwise provided by a gift instrument, the following rules apply:

(1) In managing and investing an institutional fund, the following factors, if relevant, must be considered:

(A) general economic conditions;

(B) the possible effect of inflation or deflation;

(C) the expected tax consequences, if any, of investment decisions or strategies;

(D) the role that each investment or course of action plays within the overall investment portfolio of the fund;

(E) the expected total return from income and the appreciation of investments;

(F) other resources of the institution;

(G) the needs of the institution and the fund to make distributions and to preserve capital; and

(H) an asset's special relationship or special value, if any, to the charitable purposes of the institution.

(2) Management and investment decisions about an individual asset must be made not in isolation but rather in the context of the institutional fund's portfolio of investments as a whole and as a part of an overall investment strategy having risk and return objectives reasonably suited to the fund and to the institution.

(3) Except as otherwise provided by law other than the Nebraska Uniform Prudent Management of Institutional Funds Act, an institution may invest in any kind of property or type of investment consistent with this section.

(4) An institution shall diversify the investments of an institutional fund unless the institution reasonably determines that, because of special circumstances, the purposes of the fund are better served without diversification.

(5) Within a reasonable time after receiving property, an institution shall make and carry out decisions concerning the retention or disposition of the property or to rebalance a portfolio, in order to bring the institutional fund into compliance with the purposes, terms, and distribution requirements of the institution as necessary to meet other circumstances of the institution and the requirements of the act.

(6) A person that has special skills or expertise, or is selected in reliance upon the person's representation that the person has special skills or expertise, has a duty to use those skills or that expertise in managing and investing institutional funds.

**Source:** Laws 2007, LB136, § 3.

**58-613 Appropriation for expenditure or accumulation of endowment fund; rules of construction.**

(a) Subject to the intent of a donor expressed in the gift instrument, an institution may appropriate for expenditure or accumulate so much of an endowment fund as the institution determines is prudent for the uses, benefits, purposes, and duration for which the endowment fund is established. Unless stated otherwise in the gift instrument, the assets in an endowment fund are

donor-restricted assets until appropriated for expenditure by the institution. In making a determination to appropriate or accumulate, the institution shall act in good faith, with the care that an ordinarily prudent person in a like position would exercise under similar circumstances, and shall consider, if relevant, the following factors:

- (1) the duration and preservation of the endowment fund;
- (2) the purposes of the institution and the endowment fund;
- (3) general economic conditions;
- (4) the possible effect of inflation or deflation;
- (5) the expected total return from income and the appreciation of investments;
- (6) other resources of the institution; and
- (7) the investment policy of the institution.

(b) To limit the authority to appropriate for expenditure or accumulate under subsection (a) of this section, a gift instrument must specifically state the limitation.

(c) Terms in a gift instrument designating a gift as an endowment, or a direction or authorization in the gift instrument to use only income, interest, dividends, or rents, issues, or profits, or to preserve the principal intact, or words of similar import:

- (1) create an endowment fund of permanent duration unless other language in the gift instrument limits the duration or purpose of the fund; and
- (2) do not otherwise limit the authority to appropriate for expenditure or accumulate under subsection (a) of this section.

**Source:** Laws 2007, LB136, § 4.

**58-614 Delegation of management and investment functions.**

(a) Subject to any specific limitation set forth in a gift instrument or in law other than the Nebraska Uniform Prudent Management of Institutional Funds Act, an institution may delegate to an external agent the management and investment of an institutional fund to the extent that an institution could prudently delegate under the circumstances. An institution shall act in good faith, with the care that an ordinarily prudent person in a like position would exercise under similar circumstances, in:

- (1) selecting an agent;
- (2) establishing the scope and terms of the delegation, consistent with the purposes of the institution and the institutional fund; and
- (3) periodically reviewing the agent's actions in order to monitor the agent's performance and compliance with the scope and terms of the delegation.

(b) In performing a delegated function, an agent owes a duty to the institution to exercise reasonable care to comply with the scope and terms of the delegation.

(c) An institution that complies with subsection (a) of this section is not liable for the decisions or actions of an agent to which the function was delegated.

(d) By accepting delegation of a management or investment function from an institution that is subject to the law of this state, an agent submits to the

jurisdiction of the courts of this state in all proceedings arising from or related to the delegation or the performance of the delegated function.

(e) An institution may delegate management and investment functions to its committees, officers, or employees as authorized by law of this state other than the Nebraska Uniform Prudent Management of Institutional Funds Act.

**Source:** Laws 2007, LB136, § 5.

**58-615 Release or modification of restrictions on management, investment, or purpose.**

(a) If the donor consents in a record, an institution may release or modify, in whole or in part, a restriction contained in a gift instrument on the management, investment, or purpose of an institutional fund. A release or modification may not allow a fund to be used for a purpose other than a charitable purpose of the institution.

(b) The court, upon application of an institution, may modify a restriction contained in a gift instrument regarding the management or investment of an institutional fund if the restriction has become impracticable or wasteful, if it impairs the management or investment of the fund, or if, because of circumstances not anticipated by the donor, a modification of a restriction will further the purposes of the fund. The institution shall notify the Attorney General of the application, and the Attorney General must be given an opportunity to be heard. To the extent practicable, any modification must be made in accordance with the donor's probable intention.

(c) If a particular charitable purpose or a restriction contained in a gift instrument on the use of an institutional fund becomes unlawful, impractical, impossible to achieve, or wasteful, the court, upon application of an institution, may modify the purpose of the fund or the restriction on the use of the fund in a manner consistent with the charitable purposes expressed in the gift instrument. The institution shall notify the Attorney General of the application, and the Attorney General must be given an opportunity to be heard.

(d) If an institution determines that a restriction contained in a gift instrument on the management, investment, or purpose of an institutional fund is unlawful, impracticable, impossible to achieve, or wasteful, the institution, sixty days after notification to the Attorney General, may release or modify the restriction, in whole or part, if:

- (1) the institutional fund subject to the restriction has a total value of less than twenty-five thousand dollars;
- (2) more than twenty years have elapsed since the fund was established; and
- (3) the institution uses the property in a manner consistent with the charitable purposes expressed in the gift instrument.

**58-616 Reviewing compliance.**

Compliance with the Nebraska Uniform Prudent Management of Institutional Funds Act is determined in light of the facts and circumstances existing at the time a decision is made or action is taken, and not by hindsight.

**Source:** Laws 2007, LB136, § 7.

**58-617 Application to existing institutional funds.**

The Nebraska Uniform Prudent Management of Institutional Funds Act applies to institutional funds existing on or established after September 1, 2007. As applied to institutional funds existing on September 1, 2007, the act governs only decisions made or actions taken on or after that date.

**Source:** Laws 2007, LB136, § 8.

**58-618 Relation to Electronic Signatures in Global and National Commerce Act.**

The Nebraska Uniform Prudent Management of Institutional Funds Act modifies, limits, and supersedes the Electronic Signatures in Global and National Commerce Act, 15 U.S.C. 7001 et seq., as the act existed on September 1, 2007, but does not modify, limit, or supersede section 101 of that act, 15 U.S.C. 7001(a), or authorize electronic delivery of any of the notices described in section 103 of that act, 15 U.S.C. 7003(b).

**Source:** Laws 2007, LB136, § 9.

**58-619 Uniformity of application and construction.**

In applying and construing this uniform act, consideration must be given to the need to promote uniformity of the law with respect to its subject matter among states that enact it.

Sections 58-701 to 58-711 shall be known and may be cited as the Nebraska Affordable Housing Act.

**Source:** Laws 1996, LB 1322, § 11; Laws 1997, LB 864, § 8.

**58-702 Legislative findings.**

The Legislature finds that current economic conditions, lack of available affordable housing, federal housing policies that have placed an increasing burden on the state, and declining resources at all levels of government adversely affect the ability of Nebraska's citizens to obtain safe, decent, and

affordable housing. Lack of affordable housing also affects the ability of communities to maintain and develop viable and stable economies.

Furthermore, the Legislature finds that impediments exist to the construction and rehabilitation of affordable housing. Local codes and state statutes have an important effect on housing's affordability by placing increased costs on developers. Financing affordable housing, especially in rural areas and smaller communities, is becoming increasingly difficult. An affordable housing trust fund would assist all Nebraska communities in financing affordable housing projects.

To enhance the economic development of the state and to provide for the general prosperity of all of Nebraska's citizens, it is in the public interest to assist in the provision of safe, decent, and affordable housing in all areas of the state. The establishment of the Nebraska Affordable Housing Act will assist in creating conditions favorable to meeting the affordable housing needs of the state.

**Source:** Laws 1996, LB 1322, § 12.

**58-703 Affordable Housing Trust Fund; created; use.**

The Affordable Housing Trust Fund is created. The fund shall receive money pursuant to sections 8-1120 and 76-903 and may include revenue from sources recommended by the housing advisory committee established in section 58-704, appropriations from the Legislature, grants, private contributions, repayment of loans, and all other sources, except that before appropriations from the General Fund may be used as a revenue source for the Affordable Housing Trust Fund or for administrative costs of the Department of Economic Development in administering the fund, such use must be specifically authorized by a separate legislative bill passed in a legislative session subsequent to the Ninety-fourth Legislature, Second Session, 1996. Any initial appropriation from the General Fund which is used as a revenue source for the Affordable Housing Trust Fund or for administrative costs shall be in an appropriations bill which does not contain appropriations for other programs. The department as part of its comprehensive housing affordability strategy shall administer the Affordable Housing Trust Fund.

Transfers may be made from the Affordable Housing Trust Fund to the General Fund and the Behavioral Health Services Fund at the direction of the Legislature. The State Treasurer shall make transfers from the Affordable Housing Trust Fund to the General Fund according to the following schedule: (1) \$1,500,000 on or after July 1, 2005, but no later than July 10, 2005; and (2) \$1,500,000 on or after July 1, 2006, but no later than July 10, 2006. The State Treasurer shall transfer \$2,000,000 from the Affordable Housing Trust Fund to the Behavioral Health Services Fund on or after July 1, 2005, but not later than July 10, 2005.

**58-704 Housing advisory committee; created; members; duties; meetings.**

(1) The Legislature finds that the development of operational rules and regulations and an appropriate source of funding is critical to the success of the Affordable Housing Trust Fund. A housing advisory committee is created to address issues related to the operation of the fund and to recommend a plan to

coordinate low-income housing efforts throughout the state. On or before December 15, 1996, the committee shall recommend to the Legislature and the Governor the most viable revenue source or sources for the funding of the fund. The committee shall also recommend for public review proposals for rules and regulations to carry out the fund, including time limitations for the use of financial assistance and limitations on the administrative costs of proposed projects. For administrative purposes, the committee shall be located in the Department of Economic Development.

(2) The committee shall consist of fifteen members who represent a wide range of interests associated with the development and sales of housing. The Governor shall appoint the members and a chairperson and vice-chairperson from the members. The committee may be a committee or council previously created by statute or executive order of the Governor. The Governor shall attempt to have the nonprofit and for-profit communities equally represented on the advisory committee.

(3) The committee shall meet at the call of the chairperson or a majority of the members. The chairperson shall call such meetings as he or she determines necessary to fulfill the duties of the committee. A quorum shall be one-half of the members.

1. Contracts in violation of section
2. Contracts not in violation of section
3. Miscellaneous

#### 1. Contracts in violation of section

A tying arrangement is an agreement by a party to sell one product, but only on the condition that the buyer also purchase a different, or tied, product, or agree that it will not purchase that product from another supplier. A tying arrangement violates Nebraska's unlawful restraint of trade act if the seller has appreciable economic power in the tying product market and if the arrangement affects a substantial volume of commerce in the tied market. A plaintiff alleging an unlawful tying arrangement must produce evidence of the following elements: (1) the existence of two distinct products or services; (2) sufficient economic power on the part of the defendant in the tying market to appreciably restrain competition in the tied product market, combined with the exercise of such power to coerce the purchaser to buy both items; and (3) the amount of commerce affected is not insubstantial. *Heath Consultants v. Precision Instruments*, 247 Neb. 267, 527 N.W.2d 596 (1995).

Claim that contract for construction of educational television system was in violation of this section raised but not decided. *Hamilton County Tel. Co. v. Northwestern Bell Tel. Co.*, 180 Neb. 1, 140 N.W.2d 834 (1966).

Monopolization in producing, selling, and distributing electricity is prohibited. *State ex rel. Spillman v. Interstate Power Co.*, 118 Neb. 756, 226 N.W. 427 (1929).

A combination or conspiracy between two or more persons against any person, firm, or corporation to prevent competition, which is carried into effect, is in violation of this section. *Marsh-Burke Co. v. Yost*, 98 Neb. 523, 153 N.W. 573 (1915).

A combination to prevent competition in insurance comes within prohibition of this section. *State v. American Surety Co.*, 91 Neb. 22, 135 N.W. 365, Ann. Cas. 1913B 973 (1912).

Agreement by lumber dealers to protect one another by asking higher price for same bill of lumber, or to divide territory and fix prices therein, is illegal and they can be enjoined. *State v. Adams Lumber Co.*, 81 Neb. 392, 116 N.W. 302 (1908).

Provisions of Junkin Act were applicable to combination of grain dealers even though there was another special act covering them. *State v. Omaha Elevator Co.*, 75 Neb. 637, 106 N.W. 979 (1906).

Under prior act, organization of lumber dealers to prevent competition was unlawful. *Cleland v. Anderson*, 66 Neb. 252, 92

N.W. 306 (1902), rev'd on other grounds, 75 Neb. 273, 105 N.W. 1092 (1905).

#### 2. Contracts not in violation of section

Contract with agent to sell seed corn upon a commission basis did not violate this section. *Bohy v. Pfister Hybrid Co.*, 179 Neb. 337, 138 N.W.2d 23 (1965).

Contract not to resell automobile without first offering it to vendor did not violate this section. *Stanford Motor Co. v. Westman*, 151 Neb. 850, 39 N.W.2d 841 (1949).

Refusal of dairy company to purchase milk from farmers that was hauled by plaintiff did not constitute violation of this section. *Ploog v. Roberts Dairy Co.*, 122 Neb. 540, 240 N.W. 764 (1932).

Refusal to furnish first-run films to theatre, where entire output of first-run films was already under contract, did not show conspiracy to stifle competition. *Goldberg v. Tri-States Theatre Corporation*, 126 F.2d 26 (8th Cir. 1942).

#### 3. Miscellaneous

A justifiable termination of a contractual relationship does not operate to create a liability, either under a contract theory or under the state antitrust statutes against one who terminates a contract. *Mike Pratt & Sons, Inc. v. Metalcraft, Inc.*, 222 Neb. 333, 383 N.W.2d 758 (1986).

Amendment in 1937 to this section, excepting contracts under Fair Trade Act, declared unconstitutional. *General Electric Co. v. J. L. Brandeis & Sons*, 159 Neb. 736, 68 N.W.2d 620 (1955); *McGraw Electric Co. v. Lewis & Smith Drug Co., Inc.*, 159 Neb. 703, 68 N.W.2d 608 (1955).

Where evidence fails to show an unlawful intent to conspire against and injure business of another by stifling competition action must fail for want of proof. *Hompes v. Goodrich Company*, 137 Neb. 84, 288 N.W. 367 (1939).

Indictment must allege that acts complained of were in restraint of trade within this state. *Howell v. State*, 83 Neb. 448, 120 N.W. 139 (1909).

Where agency agreement between insurance company and agency should have little or no effect on interests of policyholders, federal exemption from Sherman Act was not applicable. *Allied Financial Services, Inc. v. Foremost Ins. Co.*, 418 F.Supp. 157 (D. Neb. 1976).

### 59-802 Monopolizing trade or commerce; unlawful; penalty.

Every person who shall monopolize, or attempt to monopolize, or combine or conspire with any other person or persons, to monopolize any part of the trade or commerce, within this state, shall be deemed guilty of a Class IV felony.

Monopolization consists of two elements: (1) the possession of monopoly power in the relevant market and (2) the willful acquisition or maintenance of that power as distinguished from growth or development as a consequence of a superior product, business acumen, or historic accident. *Heath Consultants v. Precision Instruments*, 247 Neb. 267, 527 N.W.2d 596 (1995).

Contract not to resell automobile was not monopolistic in character. *Stanford Motor Co. v. Westman*, 151 Neb. 850, 39 N.W.2d 841 (1949).

One attempting to monopolize electricity business in state by underselling competitors at less than fair market value violates public policy. *State ex rel. Spillman v. Interstate Power Co.*, 118 Neb. 756, 226 N.W. 427 (1929).

### 59-803 Violation; property under contract forfeited.

Because the remedial provisions of the Junkin Act and Clayton Act are so similar, section 59-829 requires Nebraska courts to follow the federal courts' construction of the Clayton Act. *Kanne v. Visa U.S.A.*, 272 Neb. 489, 723 N.W.2d 293 (2006).

The 2002 amendment to this section did not reject the application of standing requirements to damages under this section. It simply removed the automatic bar against indirect purchaser actions announced in *Illinois Brick Co. v. Illinois*, 431 U.S. 720, 97 S. Ct. 2061, 52 L. Ed. 2d 707 (1977). It did not eliminate separate and distinct standing requirements. *Kanne v. Visa U.S.A.*, 272 Neb. 489, 723 N.W.2d 293 (2006).

Where jury by special verdict found that defendant had conspired with plaintiff's former employee to injure plaintiff's business, restrain trade, create a monopoly, and acquire plaintiff's business by unfair business practices, this section permits plaintiff to recover a reasonable attorney fee. *Diesel Service, Inc. v. Accessory Sales, Inc.*, 210 Neb. 797, 317 N.W.2d 719 (1982).

This section provides for damages to party injured in its business or property by reason of unlawful conspiracy or combination. *O. G. Pierce Co. v. Century Indemnity Co.*, 136 Neb. 78, 285 N.W. 91 (1939).

Triple damages could not be recovered in subsequent suit when waived in original action. *Marsh-Burke Co. v. Yost*, 102 Neb. 814, 170 N.W. 172 (1918).

When plaintiff prayed for compensatory damages only and remitted part of verdict to avoid new trial, right to claim triple damages was waived thereby. *Marsh-Burke Co. v. Yost*, 98 Neb. 523, 153 N.W. 573 (1915).

Where agency agreement between insurance company and agency should have little or no effect on interests of policyholders, federal exemption from Sherman Act was not applicable. *Allied Financial Services, Inc. v. Foremost Ins. Co.*, 418 F.Supp. 157 (D. Neb. 1976).

#### **59-821.01 Illegal overcharge or undercharge case.**

(1) A defendant may prove, as a partial or complete defense to a claim for damages under sections 59-801 to 59-831 and this section, that the illegal overcharge or undercharge has been passed on to others who are themselves entitled to recover so as to avoid duplication of recovery of such damages; and

(2) The court may transfer and consolidate such claims, apportion damages, and delay disbursement of damages to avoid multiplicity of suits and duplication of recovery of damages and to obtain substantial fairness.

**59-1608.05 State Settlement Trust Fund; created; use; investment.**

The State Settlement Trust Fund is created. The fund shall be maintained by the Department of Justice and administered by the Attorney General. Except as otherwise provided by law, the fund shall consist of all recoveries received pursuant to the Consumer Protection Act, including any money, funds, securities, or other things of value in the nature of civil damages or other payment, except criminal penalties, whether such recovery shall be by way of verdict, judgment, compromise, or settlement in or out of court, or other final disposition of any case or controversy, or any other payments received on behalf of the state by the Department of Justice and administered by the Attorney General, but to include only those funds held in a trust capacity where specific benefits accrue to specific individuals, organizations, or governments. All money in the State Settlement Trust Fund shall be subject to legislative review, but shall not be subject to legislative appropriation. The fund shall be expended consistent with any legal restrictions placed on the funds. The fund shall be paid from the same budget program used to record revenue and expenditures of the State Settlement Cash Fund, except that the fund shall only be expended from a separate and distinct budget subprogram and shall not be commingled with any other revenue or expenditure. To provide necessary financial accountability and management oversight, revenue from individual settlement agreements or other separate sources credited to the fund may be tracked and accounted for within the state accounting system through the use of separate and distinct funds, subfunds, or any other available accounting mechanism specifically approved by the Accounting Administrator for use by the Department of Justice. Any money in the fund available for investment shall be invested by the state investment officer pursuant to the Nebraska Capital Expansion Act and the Nebraska State Funds Investment Act.

Any person who is injured in his or her business or property by a violation of sections 59-1602 to 59-1606, whether such injured person dealt directly or indirectly with the defendant, or any person so injured because he or she refuses to accede to a proposal for an arrangement which, if consummated, would be in violation of sections 59-1603 to 59-1606, may bring a civil action in

the district court to enjoin further violations, to recover the actual damages sustained by him or her, or both, together with the costs of the suit, including a reasonable attorney's fee, and the court may in its discretion, increase the award of damages to an amount which bears a reasonable relation to the actual damages which have been sustained and which damages are not susceptible of measurement by ordinary pecuniary standards; except that such increased award for violation of section 59-1602 shall not exceed one thousand dollars. (1) A defendant may prove, as a partial or complete defense to a claim for damages under sections 59-1602 to 59-1606, that the illegal overcharge or undercharge has been passed on to others who are themselves entitled to recover so as to avoid duplication of recovery of such damages; and

(2) The court may transfer and consolidate such claims, apportion damages, and delay disbursement of damages to avoid multiplicity of suits and duplication of recovery of damages and to obtain substantial fairness.

**59-1611 Demand to produce documentary materials for inspection; contents; service; unauthorized disclosure; return; modification; vacation; use; penalty.**

(1) Whenever the Attorney General believes that any person may be in possession, custody, or control of any original or copy of any book, record,

report, memorandum, paper, communication, tabulation, map, chart, photograph, mechanical transcription, or other tangible document or recording, wherever situated, which he or she believes to be relevant to the subject matter of an investigation of a possible violation of sections 59-1602 to 59-1606, the Attorney General may, prior to the institution of a civil proceeding thereon, execute in writing and cause to be served upon such a person a civil investigative demand requiring such person to produce such documentary material and permit inspection and copying thereof. This section shall not be applicable to criminal prosecutions.

(2) Each such demand shall:

(b) Describe the class or classes of documentary material to be produced thereunder with reasonable specificity so as fairly to indicate the material demanded;

(c) Prescribe a return date within which the documentary material shall be produced; and

(d) Identify the members of the Attorney General's staff to whom such documentary material shall be made available for inspection and copying.

(3) No such demand shall:

(a) Contain any requirement which would be unreasonable or improper if contained in a subpoena duces tecum issued by a court of this state; or

(b) Require the disclosure of any documentary material which would be privileged, or which for any other reason would not be required by a subpoena duces tecum issued by a court of this state.

(6) No documentary material produced pursuant to a demand, or copies thereof, shall, unless otherwise ordered by a district court for good cause shown, be produced for inspection or copying by, nor shall the contents thereof be disclosed to, other than an authorized employee of the Attorney General, without the consent of the person who produced such material, except that under such reasonable terms and conditions as the Attorney General shall prescribe, the copies of such documentary material shall be available for inspection and copying by the person who produced such material or any duly

authorized representative of such person. The Attorney General or any assistant attorney general may use such copies of documentary material as he or she determines necessary in the enforcement of the Consumer Protection Act, including presentation before any court, except that any such material which contains trade secrets shall not be presented except with the approval of the court in which action is pending after adequate notice to the person furnishing such material.

(7) At any time before the return date specified in the demand, or within twenty days after the demand has been served, whichever period is shorter, a petition to extend the return date for or to modify or set aside a demand issued pursuant to subsection (1) of this section, stating good cause, may be filed in the district court for Lancaster County, or in such other county where the parties reside. A petition by the person on whom the demand is served, stating good cause, to require the Attorney General or any person to perform any duty imposed by the provisions of this section, and all other petitions in connection with a demand, may be filed in the district court for Lancaster County or in the county where the parties reside.

(8) Whenever any person fails to comply with any civil investigative demand for documentary material duly served upon him or her under this section, or whenever satisfactory copying or reproduction of any such material cannot be done and such person refuses to surrender such material, the Attorney General may file, in the district court of the county in which such person resides, is found, or transacts business, and serve upon such person a petition for an order of such court for the enforcement of this section, except that if such person transacts business in more than one county such petition shall be filed in the county in which such person maintains his or her principal place of business or in such other county as may be agreed upon by the parties to such petition. Whenever any petition is filed in the district court of any county under this section, such court shall have jurisdiction to hear and determine the matter so presented and to enter such order as may be required to carry into effect the provisions of this section. Disobedience of any order entered under this section by any court shall be punished as a contempt thereof.

to 59-1606 shall be prima facie evidence against such defendant in any action brought by any party against such defendant under section 59-1609 as to all matters as to which such judgment or decree would be an estoppel as between the parties thereto; *Provided*, that this section shall not apply to consent judgments or decrees when the court makes no finding of illegality.

Any person who violates section 59-1602 shall pay a civil penalty of not more than two thousand dollars for each violation, except that such penalty shall not apply to any radio or television broadcasting station which broadcasts, or to any publisher, printer, or distributor of any newspaper, magazine, billboard, or other advertising medium who publishes, prints, or distributes advertising in good faith without knowledge of its false, deceptive, or misleading character and no such good faith publication, printing, or distribution shall be considered a violation of section 59-1602.

For the purpose of this section, the district court which issues any injunction shall retain jurisdiction, and the cause shall be continued, and in such cases the Attorney General acting in the name of the state may petition for the recovery of civil penalties.

**59-1701 Legislative intent and findings; seller-assisted marketing plans.**

(1) The Legislature finds and declares that the widespread sale of seller-assisted marketing plans, often connected with the sale of vending machines, vending racks, or work-at-home paraphernalia, has created numerous problems in Nebraska for purchasers which are inimical to good business practice. Often purchasers of seller-assisted marketing plans are individuals inexperienced in business matters who use their life savings to purchase the seller-assisted marketing plan in the hope that they will earn enough money in addition to retirement income or salary to become or remain self-sufficient. Many purchasers are the elderly who are seeking a way to supplement their fixed incomes. The initial payment is usually in the form of a purchase of overpriced equipment or products. Nebraska purchasers have suffered substantial losses when they have failed to receive full and complete information regarding the seller-assisted marketing plan, the amount of money they can reasonably expect to earn, and the previous experience of the seller-assisted marketing plan seller. Seller-assisted marketing plan sellers have a significant impact upon the economy and well-being of this state and its local communities. The provisions of the Seller-Assisted Marketing Plan Act relating to seller-assisted marketing plans are necessary for the public welfare.

(2) It is the intent of the act to provide each prospective seller-assisted marketing plan purchaser with the information necessary to make an intelligent decision regarding seller-assisted marketing plans being offered, to safeguard the public against deceit and financial hardship, to insure, foster, and encourage competition and fair dealing in the sale of seller-assisted marketing plans by requiring adequate disclosure, to prohibit representations that tend to mislead, and to prohibit or restrict unfair contract terms. The act shall be construed liberally in order to achieve such purposes.

(2) The seller has represented directly or indirectly or orally or in writing that:

(a) The seller or a person recommended or specified by the seller will provide the purchaser with or assist the purchaser in finding locations for the use or operation of vending machines, vending routes, display racks, display cases, or other similar devices on premises neither owned nor leased by the seller or the purchaser;

(b) The seller or a person recommended or specified by the seller will provide the purchaser with or will assist the purchaser in finding outlets or accounts for the purchaser's products or services;

### **60-146 Application; identification inspection required; exceptions; form; procedure; additional inspection authorized.**

(3) The statement that an identification inspection has been conducted shall be furnished by the county sheriff of any county or by any other holder of a certificate of training issued pursuant to section 60-183, shall be in a format as determined by the department, and shall expire ninety days after the date of the inspection. (4) The identification inspection shall include examination and notation of the then current odometer reading, if any, and a comparison of the vehicle identification number with the number listed on the ownership records, except that if a lien is registered against a vehicle and recorded on the vehicle's ownership records, the county clerk or designated county official shall provide a copy of the ownership records for use in making such comparison. If such numbers are not identical, if there is reason to believe further inspection is necessary, or if the inspection is for a Nebraska assigned number, the person performing the inspection shall make a further inspection of the vehicle which may include, but shall not be limited to, examination of other identifying numbers placed on the vehicle by the manufacturer and an inquiry into the numbering system used by the state issuing such ownership records to determine ownership of a vehicle. The identification inspection shall also include a statement that the vehicle identification number has been checked for entry in the National Crime Information Center and the Nebraska Crime Information Service. In the case of an assembled vehicle, the identification inspection shall include, but not be limited to, an examination of the records showing the date of receipt and source of each major component part. No identification inspection shall be conducted unless all major component parts are properly attached to the vehicle in the correct location.

Beginning on the implementation date, upon receipt of an application for a certificate of title for a vehicle, any lien filed electronically shall become part of the electronic certificate of title record created by the county clerk, designated county official, or department maintained on the electronic title and lien system. Beginning on the implementation date, if an application for a certificate of title indicates that there is a lien or encumbrance on a vehicle or if a lien or notice of lien has been filed electronically, the department shall retain an electronic certificate of title record and shall note and cancel such liens electronically on the system. The department shall provide access to the electronic certificate of title records for motor vehicle dealers and lienholders who participate in the system by a method determined by the director.

(2) Except as provided in section 60-165, the provisions of article 9, Uniform Commercial Code, shall never be construed to apply to or to permit or require the deposit, filing, or other record whatsoever of a security agreement, conveyance intended to operate as a mortgage, trust receipt, conditional sales contract, or similar instrument or any copy of the same covering a vehicle. Any mortgage, conveyance intended to operate as a security agreement as provided by article 9, Uniform Commercial Code, trust receipt, conditional sales contract, or other similar instrument covering a vehicle, if such instrument is accompanied by delivery of such manufacturer's or importer's certificate and followed by actual and continued possession of the same by the holder of such instrument or, in the case of a certificate of title, if a notation of the same has been made electronically as prescribed in subsection (1) of this section or by the county clerk, designated county official, or department on the face of the certificate of title or on the electronic certificate of title record, shall be valid as

Exposure for sale of any vehicle by the owner thereof with the knowledge or with the knowledge and consent of the holder of any lien, security agreement, or encumbrance on such vehicle shall not render the same void or ineffective as against the creditors of such owner or holder of subsequent liens, security agreements, or encumbrances upon such vehicle.

(4) The holder of a security agreement, trust receipt, conditional sales contract, or similar instrument, upon presentation of such instrument to the department, or to any county clerk or designated county official, together with the certificate of title and the fee prescribed for notation of lien, may have a notation of such lien made on the face of such certificate of title. The owner of a vehicle may present a valid out-of-state certificate of title issued to such owner for such vehicle with a notation of lien on such certificate of title and the prescribed fee to the county clerk, designated county official, or department and have the notation of lien made on the new certificate of title issued pursuant to section 60-144 without presenting a copy of the lien instrument. The county clerk or designated county official or the department shall enter the notation and the date thereof over the signature of the person making the notation and the seal of the office. If noted by a county clerk or designated county official, he or she shall on that day notify the department which shall note the lien on its records. The county clerk or designated county official or the department shall also indicate by appropriate notation and on such instrument itself the fact that such lien has been noted on the certificate of title.

(5) A transaction does not create a sale or a security interest in a vehicle, other than an all-terrain vehicle, a utility-type vehicle, or a minibike, merely because it provides that the rental price is permitted or required to be adjusted under the agreement either upward or downward by reference to the amount realized upon sale or other disposition of the vehicle.

(6) The county clerk or designated county official or the department, upon receipt of a lien instrument duly signed by the owner in the manner prescribed by law governing such lien instruments together with the fee prescribed for notation of lien, shall notify the first lienholder to deliver to the county clerk or

designated county official or the department, within fifteen days after the date of notice, the certificate of title to permit notation of such other lien and, after notation of such other lien, the county clerk or designated county official or the department shall deliver the certificate of title to the first lienholder. The holder of a certificate of title who refuses to deliver a certificate of title to the county clerk or designated county official or the department for the purpose of showing such other lien on such certificate of title within fifteen days after the date of notice shall be liable for damages to such other lienholder for the amount of damages such other lienholder suffered by reason of the holder of the certificate of title refusing to permit the showing of such lien on the certificate of title.

(7) Beginning on the implementation date of the electronic title and lien system, upon receipt of a subsequent lien instrument duly signed by the owner in the manner prescribed by law governing such lien instruments or a notice of lien filed electronically, together with an application for notation of the subsequent lien, the fee prescribed in section 60-154, and, if a printed certificate of title exists, the presentation of the certificate of title, the county clerk, designated county official, or department shall make notation of such other lien. If the certificate of title is not an electronic certificate of title record, the county clerk, designated county official, or department, upon receipt of a lien instrument duly signed by the owner in the manner prescribed by law governing such lien instruments together with the fee prescribed for notation of lien, shall notify the first lienholder to deliver to the county clerk, designated county official, or department, within fifteen days after the date of notice, the certificate of title to permit notation of such other lien. After such notation of lien, the lien shall become part of the electronic certificate of title record created by the county clerk, designated county official, or department which is maintained on the electronic title and lien system. The holder of a certificate of title who refuses to deliver a certificate of title to the county clerk, designated county official, or department for the purpose of noting such other lien on such certificate of title within fifteen days after the date when notified to do so shall be liable for damages to such other lienholder for the amount of damages such other lienholder suffered by reason of the holder of the certificate of title refusing to permit the noting of such lien on the certificate of title.

(8) When a lien is discharged, the holder shall, within fifteen days after payment is received, note a cancellation of the lien on the certificate of title over his, her, or its signature and deliver the certificate of title to the county clerk or designated county official or the department, which shall note the cancellation of the lien on the face of the certificate of title and on the records of such office. If delivered to a county clerk or designated county official, he or she shall on that day notify the department which shall note the cancellation on its records. The county clerk or designated county official or the department shall then return the certificate of title to the owner or as otherwise directed by the owner. The cancellation of lien shall be noted on the certificate of title without charge. For an electronic certificate of title record, the lienholder shall, within fifteen days after payment is received when such lien is discharged, notify the department electronically or provide written notice of such lien release, in a manner prescribed by the department, to the county clerk, designated county official, or department. The department shall note the cancellation of lien and, if no other liens exist, issue the certificate of title to the owner or as otherwise directed by the owner or lienholder. If the holder of the

title cannot locate a lienholder, a lien may be discharged ten years after the date of filing by presenting proof that thirty days have passed since the mailing of a written notice by certified mail, return receipt requested, to the last-known address of the lienholder.

If the applicant cannot produce such proof of ownership, he or she may apply directly to the department and submit such evidence as he or she may have, and the department may, if it finds the evidence sufficient, authorize the county clerk or designated county official to issue a duplicate certificate of title. A duplicate certificate of title so issued shall show only those unreleased liens of record. (6) An owner of an affixed mobile home or manufactured home for which the certificate of title has previously been canceled pursuant to subsection (2) of this section shall not detach the mobile home or manufactured home from the real estate before a certificate of title for the mobile home or manufactured home is issued by the county clerk, designated county official, or department. (1) When an insurance company authorized to do business in Nebraska acquires a vehicle which has been properly titled and registered in a state other than Nebraska through payment of a total loss settlement on account of theft and the vehicle has not become unusable for transportation through damage and has not sustained any malfunction beyond reasonable maintenance and repair, the company shall obtain the certificate of title from the owner and may

make application for a nontransferable certificate of title by surrendering the certificate of title to the county clerk or designated county official. A nontransferable certificate of title shall be issued in the same manner and for the same fee or fees as provided for a certificate of title in sections 60-154 to 60-160 and shall be on a form prescribed by the department.

(2) A vehicle which has a nontransferable certificate of title shall not be sold or otherwise transferred or disposed of without first obtaining a certificate of title under the Motor Vehicle Certificate of Title Act.

(3) When a nontransferable certificate of title is surrendered for a certificate of title, the application shall be accompanied by a statement from the insurance company stating that to the best of its knowledge the vehicle has not become unusable for transportation through damage and has not sustained any malfunction beyond reasonable maintenance and repair. The statement shall not constitute or imply a warranty of condition to any subsequent purchaser or operator of the vehicle.

**60-173 Salvage branded certificate of title; insurance company; total loss settlement; when issued.**

When an insurance company acquires a salvage vehicle through payment of a total loss settlement on account of damage, the company shall obtain the certificate of title from the owner, surrender such certificate of title to the county clerk or designated county official, and make application for a salvage branded certificate of title which shall be assigned when the company transfers ownership. An insurer shall take title to a salvage vehicle for which a total loss settlement is made unless the owner of the salvage vehicle elects to retain the salvage vehicle. If the owner elects to retain the salvage vehicle, the insurance company shall notify the department of such fact in a format prescribed by the department. The department shall immediately enter the salvage brand onto the computerized record of the vehicle. The insurance company shall also notify the owner of the owner's responsibility to comply with this section. The owner shall, within thirty days after the settlement of the loss, forward the properly endorsed acceptable certificate of title to the county clerk or designated county official in the county designated in section 60-144. **Source:** Laws 2005, LB 276, § 77.

**60-178 Stolen vehicle; duties of law enforcement and department.**

Every sheriff, chief of police, or member of the patrol having knowledge of a stolen vehicle shall immediately furnish the department with full information in connection therewith. The department, whenever it receives a report of the theft or conversion of such a vehicle, whether owned in this or any other state, together with the make and manufacturer's serial number or motor number, if applicable, shall make a distinctive record thereof and file the same in the numerical order of the manufacturer's serial number with the index records of such vehicle of such make. The department shall prepare a report listing such vehicles stolen and recovered as disclosed by the reports submitted to it, and the report shall be distributed as it may deem advisable. In the event of the receipt from any county clerk or designated county official of a copy of a certificate of title to such vehicle, the department shall immediately notify the rightful owner thereof and the county clerk or designated county official who issued such certificate of title, and if upon investigation it appears that such certificate of title was improperly issued, the department shall immediately cancel the same. In the event of the recovery of such stolen or converted

vehicle, the owner shall immediately notify the department, which shall cause the record of the theft or conversion to be removed from its file.

**60-179 Prohibited acts; penalty.**

A person commits a Class IV felony if he or she (1) forges any certificate of title or manufacturer's or importer's certificate to a vehicle, any assignment of either certificate, or any cancellation of any lien on a vehicle, (2) holds or uses such certificate, assignment, or cancellation knowing the same to have been forged, (3) procures or attempts to procure a certificate of title to a vehicle or passes or attempts to pass a certificate of title or any assignment thereof to a vehicle, knowing or having reason to believe that such vehicle has been stolen, (4) sells or offers for sale in this state a vehicle on which the motor number or manufacturer's serial number has been destroyed, removed, covered, altered, or defaced with knowledge of the destruction, removal, covering, alteration, or defacement of such motor number or manufacturer's serial number, (5) knowingly uses a false or fictitious name, knowingly gives a false or fictitious address, knowingly makes any false statement in any application or affidavit required under the Motor Vehicle Certificate of Title Act or in a bill of sale or sworn statement of ownership, or (6) otherwise knowingly commits a fraud in any application for a certificate of title.

Muirhead*, 201 Neb. 495, 268 N.W.2d 440 (1978).

**60-180 Violations; penalty.**

(1) A person who operates in this state a vehicle for which a certificate of title is required without having such certificate in accordance with the Motor Vehicle Certificate of Title Act or upon which the certificate of title has been canceled is guilty of a Class III misdemeanor.

(2) A person who is a dealer or acting on behalf of a dealer and who acquires, purchases, holds, or displays for sale a new vehicle without having obtained a manufacturer's or importer's certificate or a certificate of title therefor as provided for in the Motor Vehicle Certificate of Title Act is guilty of a Class III misdemeanor.

(3) A person who fails to surrender any certificate of title or any certificate of registration or license plates or tags upon cancellation of the same by the department and notice thereof as prescribed in the Motor Vehicle Certificate of Title Act is guilty of a Class III misdemeanor.

**60-181 Vehicle identification inspections; training expenses; how paid.**

The Nebraska State Patrol Cash Fund shall be used to defray the expenses of training personnel in title document examination, vehicle identification, and fraud and theft investigation and to defray the patrol's expenses arising pursuant to sections 60-181 to 60-189, including those incurred for printing and distribution of forms, personal services, hearings, and similar administrative functions. Personnel may include, but shall not be limited to, county clerks, designated county officials, investigative personnel of the Nebraska Motor Vehicle Industry Licensing Board, and peace officers as defined in section 60-646. The training program shall be administered by the patrol. The patrol may utilize the Nebraska Law Enforcement Training Center to accomplish the training requirements of sections 60-181 to 60-189. The superintendent may make expenditures from the fund necessary to implement such training.

**60-182 Vehicle identification inspections; sheriff; designate inspectors.**

The sheriff shall designate a sufficient number of persons to become certified to assure completion of inspections with reasonable promptness.

**Source:** Laws 2005, LB 276, § 82.

**60-183 Vehicle identification inspections; inspectors; certificate required; issuance.**

No person shall conduct an inspection unless he or she is the holder of a current certificate of training issued by the patrol. The certificate of training shall be issued upon completion of a course of instruction, approved by the patrol, in the identification of stolen and altered vehicles. The superintendent may require an individual to take such additional training as he or she deems necessary in order to maintain a current certificate of training.

**Source:** Laws 2005, LB 276, § 83.

**60-184 Vehicle identification inspections; application for training; contents.**

The sheriff may designate an employee of his or her office, any individual who is a peace officer as defined in section 60-646, or, by agreement, a county clerk or designated county official to assist in accomplishing inspections. Upon designation, the person shall request approval for training from the superintendent. Any person requesting approval for training shall submit a written

application to the patrol. Such application shall include the following information: (1) The name and address of the applicant; (2) the name and address of the agency employing the applicant and the name of the agency head; and (3) such biographical information as the superintendent may require to facilitate the designation authorized by this section.

**Source:** Laws 2005, LB 276, § 84.

**60-185 Vehicle identification inspections; application for training; investigation; denial; grounds.**

(1) Upon receipt of an application for training pursuant to section 60-184, the patrol may inquire into the qualifications of the applicant and may also inquire into the background of the applicant.

(2) The patrol shall not approve any applicant who has (a) knowingly purchased, sold, or done business in stolen vehicles or parts therefor, (b) been found guilty of any felony which has not been pardoned, been found guilty of any misdemeanor concerning fraud or conversion, or suffered any judgment in any civil action involving fraud, misrepresentation, or conversion, or (c) made a false material statement in his or her application.

**Source:** Laws 2005, LB 276, § 85.

**60-186 Vehicle identification inspections; revocation of certificate of training; procedure; appeal.**

The patrol may, after notice and a hearing, revoke a certificate of training. The patrol shall only be required to hold a hearing if the hearing is requested in writing within fifteen days after notice of the proposed revocation is delivered by the patrol. The patrol may revoke a certificate of training for any reason for which an applicant may be denied approval for training pursuant to section 60-185. The patrol may revoke a certificate of training if the holder fails to keep a certificate current by taking any additional training the patrol may require. The patrol may revoke a certificate of training if the patrol finds that the holder is incompetent. A rebuttable presumption of incompetence shall arise from a finding by the patrol or a court of competent jurisdiction that the holder of a certificate of training has issued a statement of inspection for a stolen vehicle. Any person who feels himself or herself aggrieved by the patrol's decision to revoke a certificate may appeal such decision, and the appeal shall be in accordance with the Administrative Procedure Act.

**60-187 Vehicle identification inspections; attendance at training; restriction.**

No individual, other than a peace officer, shall attend training for inspections funded under the Nebraska State Patrol Cash Fund unless such individual has been designated by a sheriff and approved by the patrol.

**Source:** Laws 2005, LB 276, § 87.

**60-188 Vehicle identification inspections; restriction on authority to inspect.**

A holder of a certificate of training who is an employee of a licensee as determined by the department shall not inspect any vehicle which is not owned

by his or her sponsoring licensee. A holder of a certificate of training who is a licensee shall not inspect any vehicle which he or she does not own.

**60-189 Vehicle identification inspections; superintendent; duty.**

The superintendent shall, from time to time, provide each county clerk or designated county official and each sheriff with a list of persons holding then current certificates of training.

**Source:** Laws 2005, LB 276, § 89.

**60-190 Odometers; unlawful acts; exceptions.**

It shall be unlawful for any person to:

(1) Knowingly tamper with, adjust, alter, change, disconnect, or fail to connect an odometer of a motor vehicle, or cause any of the foregoing to occur, to reflect a mileage different than has actually been driven by such motor vehicle except as provided in section 60-191;

(2) With intent to defraud, operate a motor vehicle on any street or highway knowing that the odometer is disconnected or nonfunctional; or

(3) Advertise for sale, sell, use, or install on any part of a motor vehicle or on any odometer in a motor vehicle any device which causes the odometer to register any mileage other than that actually driven.

Sections 60-190 to 60-196 shall not apply to gross-rated motor vehicles of more than sixteen thousand pounds.

**Source:** Laws 2005, LB 276, § 90.

Because no rational basis exists between the State's objective of preventing odometer fraud and the requirement that motorcycle dealers register vehicles under conditions which do not obligate dealers of other motor vehicles to do so, this section

and section 60-133 offend the Equal Protection Clause of U.S. Const. amend. XIV. State v. Garber, 249 Neb. 648, 545 N.W.2d 75 (1996).

**60-191 Odometers; repaired or replaced; notice.**

If any odometer is repaired or replaced, the reading of the repaired or replaced odometer shall be set at the reading of the odometer repaired or replaced immediately prior to repair or replacement and the adjustment shall not be deemed a violation of section 60-190, except that when the repaired or replaced odometer is incapable of registering the same mileage as before such repair or replacement, the repaired or replaced odometer shall be adjusted to read zero and a notice in writing on a form prescribed by the department shall be attached to the left door frame of the motor vehicle, or in the case of a motorcycle, to the frame of the motorcycle, by the owner or his or her agent specifying the mileage prior to repair or replacement of the odometer and the date on which it was repaired or replaced and any removal or alteration of such notice so affixed shall be deemed a violation of section 60-190.

**Source:** Laws 2005, LB 276, § 91.

Because no rational basis exists between the State's objective of preventing odometer fraud and the requirement that motorcycle dealers register vehicles under conditions which do not obligate dealers of other motor vehicles to do so, section 60-132

and this section offend the Equal Protection Clause of U.S. Const. amend. XIV. State v. Garber, 249 Neb. 648, 545 N.W.2d 75 (1996).

**60-192 Odometers; transferor; statement; contents.**

The transferor of any motor vehicle of an age of less than ten years, which was equipped with an odometer by the manufacturer, shall provide to the

transferee a statement, signed by the transferor, setting forth: (1) The mileage on the odometer at the time of transfer; and (2)(a) a statement that, to the transferor's best knowledge, such mileage is that actually driven by the motor vehicle, (b) a statement that the transferor has knowledge that the mileage shown on the odometer is in excess of the designated mechanical odometer limit, or (c) a statement that the odometer reading does not reflect the actual mileage and should not be relied upon because the transferor has knowledge that the odometer reading differs from the actual mileage and that the difference is greater than that caused by odometer calibration error. If a discrepancy exists between the odometer reading and the actual mileage, a warning notice to alert the transferee shall be included with the statement. The transferor shall retain a true copy of such statement for a period of five years from the date of the transaction.

**Source:** Laws 2005, LB 276, § 92.

**60-193 Odometers; application for certificate of title; statement required.**

The statement required by section 60-192 shall be on a form prescribed by the department or shall appear on the certificate of title. Such statement shall be submitted with the application for certificate of title unless the statement appears on the certificate of title being submitted with the application. The statement required by section 60-192 shall appear on the new certificate of title issued in the name of the transferee. No certificate of title shall be issued for a motor vehicle unless the application is accompanied by such statement or unless the information required by such statement appears on the certificate of title being submitted with the application.

**Source:** Laws 2005, LB 276, § 93; Laws 2006, LB 663, § 20.

**60-194 Odometers; motor vehicle dealer; duties; violation; effect.**

No licensed motor vehicle dealer shall have in his or her possession as inventory for sale any used motor vehicle of an age of less than twenty-five years for which the dealer does not have in his or her possession the transferor's statement required by section 60-192 unless a certificate of title has been issued for such motor vehicle in the name of the dealer. Violation of sections 60-190 to 60-196 shall be grounds for suspension or revocation of a motor vehicle dealer's license under the Motor Vehicle Industry Regulation Act.

**60-195 Odometers; motor vehicle dealer; not guilty of violation; conditions.**

A licensed motor vehicle dealer reassigning a certificate of title shall not be guilty of a violation of sections 60-190 to 60-196 if such dealer has in his or her possession the transferor's statement and if he or she has no knowledge that the statement is false and that the odometer does not reflect the mileage actually driven by the motor vehicle.

**Source:** Laws 2005, LB 276, § 95.

**60-196 Odometers; retention of statement; violation; penalty.**

Any transferor who does not retain a true copy of the odometer statement for a period of five years from the date of the transaction as required by section 60-192 shall be guilty of a Class V misdemeanor. Any person who violates any other provision of sections 60-190 to 60-196 shall be guilty of a Class IV felony.

**60-197 Certificates, statements, notations, rules, regulations, and orders under prior law; effect.**

(1) The repeal of Chapter 60, article 1, as it existed on September 4, 2005, and the enactment of the Motor Vehicle Certificate of Title Act is not intended to affect the validity of manufacturer’s or importer’s certificates, certificates of title of any kind, odometer statements, or security interests or liens in existence on such date. All such certificates, statements, and notations are valid under the Motor Vehicle Certificate of Title Act as if issued or made under such act.

(2) The repeal of Chapter 60, article 1, as it existed on September 4, 2005, and the enactment of the Motor Vehicle Certificate of Title Act is not intended to affect the validity of certificates of training for inspections in existence on such date. All such certificates are valid under the Motor Vehicle Certificate of Title Act as if issued under such act.

(3) The rules, regulations, and orders of the Director of Motor Vehicles and the Department of Motor Vehicles issued under Chapter 60, article 1, shall remain in effect as if issued under the Motor Vehicle Certificate of Title Act unless changed or eliminated by the director or the department to the extent such power is statutorily granted to the director and department.

A dealer may use such motor vehicle or trailer to pick up parts to be used for the motor vehicle or trailer inventory of the dealer.

**60-375 Operation of vehicle without registration; finance company; repossession plates; fee.**

(1) A finance company which is licensed to do business in this state may, in lieu of registering each motor vehicle or trailer repossessed, upon the payment of a fee of ten dollars, make an application to the department for a repossession registration certificate and one repossession license plate. Additional pairs of repossession certificates and repossession license plates may be procured for a fee of ten dollars each. **60-376 Operation of vehicle without registration; In Transit sticker; records required; proof of ownership.**

Subject to all the provisions of law relating to motor vehicles and trailers not inconsistent with this section, any motor vehicle dealer or trailer dealer who is regularly engaged within this state in the business of buying and selling motor vehicles and trailers, who regularly maintains within this state an established place of business, and who desires to effect delivery of any motor vehicle or trailer bought or sold by him or her from the point where purchased or sold to points within or outside this state may, solely for the purpose of such delivery by himself or herself, his or her agent, or a bona fide purchaser, operate such motor vehicle or tow such trailer on the highways of this state without charge or registration of such motor vehicle or trailer. A sticker shall be displayed on the front and rear windows or the rear side windows of such motor vehicle, except a motorcycle, and displayed on the front and rear of each such trailer. On the sticker shall be plainly printed in black letters the words In Transit. One In Transit sticker shall be displayed on a motorcycle, which sticker may be one-half the size required for other motor vehicles. Such stickers shall include a registration number, which registration number shall be different for each sticker or pair of stickers issued, and the contents of such sticker and the numbering system shall be as prescribed by the department. Each dealer issuing such stickers shall keep a record of the registration number of each sticker or pair of stickers on the invoice of such sale. Such sticker shall allow such owner to operate the motor vehicle or tow such trailer for a period of thirty days in order to effect proper registration of the new or used motor vehicle or trailer. When any person, firm, or corporation has had a motor vehicle or trailer previously registered and license plates assigned to such person, firm, or corporation, such owner may operate the motor vehicle or tow such trailer for a period of thirty days in order to effect transfer of plates to the new or used motor vehicle or trailer. Upon demand of proper authorities, there shall be presented by the person in charge of such motor vehicle or trailer, for examination, a duly executed bill of sale therefor or other satisfactory evidence of the right of possession by such person of such motor vehicle or trailer.

A vehicle may be operated for 15 days without being registered pursuant to section 60-302, provided that it properly displays "In Transit" decals. *State v. Childs*, 242 Neb. 426, 495 N.W.2d 475 (1993).

This section provides for in-transit tags to be issued by a licensed dealer; it does not allow private sellers to issue in-transit tags. Thus, such handwritten tags are not entitled to the presumption of compliance that we have afforded dealer-issued tags. The law enforcement officer has reasonable suspicion to

stop a motor vehicle when he or she sees such vehicle being operated on the public streets without license plates and without dealer-issued in-transit tags. Upon demand, the driver of such vehicle must show documents proving compliance with motor vehicle registration laws. *State v. Kling*, 8 Neb. App. 631, 599 N.W.2d 240 (1999).

"Display" of in-transit decals as described in this section logically implies a display of the decal which is visible. *State v. Reiter*, 3 Neb. App. 153, 524 N.W.2d 575 (1994).

**60-377 Business of equipping, modifying, repairing, or detailing; registration and plates; fee.**

Such application shall be accompanied by a fee of thirty dollars. Additional pairs of certificates and license plates may be procured for a fee of thirty dollars each. Such license plates shall be designed by the department and shall bear a mark and be serially numbered so as to be distinguished from each other. Such license plates may be used solely for the purpose of equipping, modifying, repairing, detailing, and delivering such motor vehicles or trailers. Upon demand of proper authorities, the operator of such motor vehicle shall present a written statement from the owner authorizing operation of such motor vehicle or towing such trailer.

Additional pairs of transporter certificates and transporter license plates may be procured for a fee of ten dollars each. Transporter license plates shall be displayed (a) upon the motor vehicle or trailer being transported or (b) upon a properly registered truck or truck-tractor which is a work or service vehicle in the process of towing a trailer which is itself being delivered by the transporter, and such registered truck or truck-tractor shall also display a transporter plate upon the front thereof. The applicant for a transporter plate shall keep for six years a record of each motor vehicle or trailer transported by him or her under this section, and such record shall be available to the department for inspection. Each applicant shall file with the department proof of his or her status as a bona fide transporter.

(2) Transporter license plates may be the same size as license plates issued for motorcycles, shall bear thereon a mark to distinguish them as transporter plates, and shall be serially numbered so as to distinguish them from each other. Such license plates may only be displayed upon the front of a driven motor vehicle of a lawful combination or upon the front of a motor vehicle driven singly or upon the rear of a trailer being towed.

Any motor vehicle or trailer owned by a dealer licensed under the Motor Vehicle Industry Regulation Act and bearing other than dealer license plates shall be conclusively presumed not to be a part of the dealer's inventory and not for demonstration or sale and therefor not eligible for any exemption from taxes or fees applicable to motor vehicles or trailers with dealer license plates.

#### **60-396 Credit of fees; vehicle disabled or removed from service.**

The owner shall also receive a credit for the unused portion of the motor vehicle tax and

fee based upon the number of unexpired months remaining in the registration year. When the owner registers a replacement motor vehicle or trailer at the time of filing such affidavit, the credit may be immediately applied against the registration fee and the motor vehicle tax and fee for the replacement motor vehicle or trailer. When no such replacement motor vehicle or trailer is so registered, the county treasurer or designated county official shall forward the application and affidavit, if any, to the State Treasurer who shall determine the amount, if any, of the allowable credit for the registration fee and issue a credit certificate to the owner. For the motor vehicle tax and fee, the county treasurer or designated county official shall determine the amount, if any, of the allowable credit and issue a credit certificate to the owner. When such motor vehicle or trailer is removed from service within the same month in which it was registered, no credits shall be allowed for such month. The credits may be applied against taxes and fees for new or replacement motor vehicles or trailers incurred within one year after cancellation of registration of the motor vehicle or trailer for which the credits were allowed. **60-397 Refund or credit; salvage branded certificate of title.**

If a motor vehicle or trailer has a salvage branded certificate of title issued as a result of an insurance company acquiring the motor vehicle or trailer through a total loss settlement, the prior owner of the motor vehicle or trailer who is a party to the settlement may receive a refund or credit of unused fees and taxes by (1) filing an application with the county treasurer or designated county official within sixty days after the date of the settlement stating that title to the motor vehicle or trailer was transferred as a result of the settlement and (2) returning the registration certificate, the license plates, and, when appropriate, the validation decals or, in the case of the unavailability of the registration certificate, license plates, or validation decals, filing an affidavit with the county treasurer or designated county official regarding the transfer of title due to the settlement and the unavailability of the certificate, license plates, or validation decals. The owner may receive a refund or credit of the registration fees and motor vehicle taxes and fees for the unexpired months remaining in the registration year determined based on the date when the motor vehicle or trailer was damaged and became unavailable for service. When the owner registers a replacement motor vehicle or trailer at the time of filing such affidavit, the credit may be immediately applied against the registration fee and the motor vehicle tax and fee for the replacement motor vehicle or trailer. When no such replacement motor vehicle or trailer is so registered, the county treasurer or designated county official shall refund the unused registration fees. If the motor vehicle or trailer was damaged and became unavailable for service during the same month in which it was registered, no refund or credit shall be allowed for such month. When any such motor vehicle or trailer is reregistered within the same registration year in which its registration has been canceled, the taxes and fees shall be that portion of the registration fee and the motor vehicle tax and fee for the remainder of the registration year.

"Display" of license plates as described in this section logically implies a display of the license plate which is visible. *State v. Reiter*, 3 Neb. App. 153, 524 N.W.2d 575 (1994).

**60-3,100 License plates; issuance.**

Two license plates shall be issued for every motor vehicle, except that one plate shall be issued for dealers, motorcycles, mini-trucks, truck-tractors, trailers, buses, and apportionable vehicles. The license plates shall be of a color designated by the director. The color of the plates shall

be changed each time the license plates are changed. Each time the license plates are changed, the director shall secure competitive bids for materials pursuant to sections 81-145 to 81-162. Motorcycle, minitruck, and trailer license plate letters and numerals may be one-half the size of those required in this section.

(2) When two license plates are issued, one shall be prominently displayed at all times on the front and one on the rear of the registered motor vehicle or trailer. When only one plate is issued, it shall be prominently displayed on the rear of the registered motor vehicle or trailer. (3) In the absence of an agreement or arrangement with any jurisdiction, the director is authorized to examine the laws and requirements of such jurisdiction and to declare the extent and nature of exemptions, benefits, and privileges to be extended to trucks, truck-tractors, trailers, and buses registered in such jurisdiction or to the owners or operators of such trucks, truck-tractors, trailers, and buses.

When no written agreement or arrangement has been entered into with another jurisdiction or declaration issued pertaining thereto, any trucks, truck-tractors, trailers, and buses properly registered in such jurisdiction, and for which evidence of compliance is supplied, may be operated in this state and shall receive the same exemptions, benefits, and privileges granted by such other jurisdiction to trucks, truck-tractors, trailers, and buses registered in this state.
