**60-3,188 Motor vehicle tax; valuation of vehicles; department; duties.**

(2) For purposes of section 60-3,187, the department shall determine the value when new of automobiles and determine the gross vehicle weight ratings of motor vehicles over seven tons. The department shall make a determination for such makes and models of automobiles and motor vehicles already manufactured or being manufactured and shall, as new makes and models of such automobiles and motor vehicles become available to Nebraska residents, continue to make such determinations. The value when new is the manufacturer's suggested retail price for such new automobile or motor vehicle of that year using the manufacturer's body type and model with standard equipment and not including transportation or delivery cost.

(3) Any person or taxing official may, within ten days after a determination has been certified by the department, file objections in writing with the department stating why the determination is incorrect.

In an appeal, the department's determination of the manufacturer's suggested retail price shall be presumed to be correct and the party challenging the determination shall bear the burden of proving it incorrect.

**60-3,198 Fleet of vehicles in interjurisdiction commerce; registration; exception; application; fees; temporary authority; evidence of registration; proportional registration; removal from fleet; effect; unladen-weight registration; trip permit; fee.**

(1) Any owner engaged in operating a fleet of apportionable vehicles in this state in interjurisdiction commerce may, in lieu of registration of such apportionable vehicles under the general provisions of the Motor Vehicle Registration Act, register and license such fleet for operation in this state by filing a statement and the application required by section 60-3,203 with the Division of Motor Carrier Services of the department. The statement shall be in such form and contain such information as the division requires, declaring the total mileage operated by such vehicles in all jurisdictions and in this state during the preceding year and describing and identifying each such apportionable vehicle to be operated in this state during the ensuing license year. Upon receipt of such statement and application, the division shall determine the total fee payment, which shall be equal to the amount of fees due pursuant to section 60-3,203 and the amount obtained by applying the formula provided in section 60-3,204 to a fee of thirty-two dollars per ton based upon gross vehicle weight of the empty weights of a truck or truck-tractor and the empty weights of any trailer or combination thereof with which it is to be operated in combination at any one time plus the weight of the maximum load to be carried thereon at any one time, and shall notify the applicant of the amount of payment required to be made. Mileage operated in noncontracting reciprocity jurisdictions by apportionable vehicles based in Nebraska shall be applied to the portion of the formula for determining the Nebraska jurisdiction fleet distance.

Temporary authority which permits the operation of a fleet or an addition to a fleet in this state while the application is being processed may be issued upon application to the division if necessary to complete processing of the application.

Upon completion of such processing and receipt of the appropriate fees, the division shall issue to the applicant a sufficient number of distinctive registration certificates which provide a list of the jurisdictions in which the apportionable vehicle has been apportioned, the weight for which registered, and such other evidence of registration for display on the apportionable vehicle as the division determines appropriate for each of the apportionable vehicles of his or her fleet, identifying it as a part of an interjurisdiction fleet proportionately registered. All fees received as provided in this section shall be remitted to the State Treasurer for credit to the Motor Carrier Services Division Distributive Fund.

The apportionable vehicles so registered shall be exempt from all further registration and license fees under the Motor Vehicle Registration Act for movement or operation in the State of Nebraska except as provided in section 60-3,203. The proportional registration and licensing provision of this section shall apply to apportionable vehicles added to such fleets and operated in this state during the license year except with regard to permanent license plates issued under section 60-3,203.

The right of applicants to proportional registration under this section shall be subject to the terms and conditions of any reciprocity agreement, contract, or consent made by the division.

When a nonresident fleet owner has registered his or her apportionable vehicles, his or her apportionable vehicles shall be considered as fully registered for both interjurisdiction and intrajurisdiction commerce when the jurisdiction of base registration for such fleet accords the same consideration for fleets with a base registration in Nebraska. Each apportionable vehicle of a fleet registered by a resident of Nebraska shall be considered as fully registered for both interjurisdiction and intrajurisdiction commerce.

(2) Mileage proportions for interjurisdiction fleets not operated in this state during the preceding year shall be determined by the division upon the application of the applicant on forms to be supplied by the division which shall show the operations of the preceding year in other jurisdictions and estimated operations in Nebraska or, if no operations were conducted the previous year, a full statement of the proposed method of operation.

(3) Any owner complying with and being granted proportional registration shall preserve the records on which the application is made for a period of three years following the current registration year. Upon request of the division, the owner shall make such records available to the division at its office for audit as to accuracy of computation and payments or pay the costs of an audit at the home office of the owner by a duly appointed representative of the division if the office where the records are maintained is not within the State of Nebraska. The division may enter into agreements with agencies of other jurisdictions administering motor vehicle registration laws for joint audits of any such owner. All payments received to cover the costs of an audit shall be remitted by the division to the State Treasurer for credit to the Motor Carrier Division Cash Fund. No deficiency shall be assessed and no claim for credit

shall be allowed for any license registration year for which records on which the application was made are no longer required to be maintained.

(4) If the division claims that a greater amount of fee is due under this section than was paid, the division shall notify the owner of the additional amount claimed to be due. The owner may accept such claim and pay the amount due, or he or she may dispute the claim and submit to the division any information which he or she may have in support of his or her position. If the dispute cannot otherwise be resolved within the division, the owner may petition for an appeal of the matter. The director shall appoint a hearing officer who shall hear the dispute and issue a written decision. Any appeal shall be in accordance with the Administrative Procedure Act. Upon expiration of the time for perfecting an appeal if no appeal is taken or upon final judicial determination if an appeal is taken, the division shall deny the owner the right to further registration for a fleet license until the amount finally determined to be due, together with any costs assessed against the owner, has been paid.

(5) Every applicant who licenses any apportionable vehicles under this section and section 60-3,203 shall have his or her registration certificates issued only after all fees under such sections are paid and, if applicable, proof has been furnished of payment, in the form prescribed by the director as directed by the United States Secretary of the Treasury, of the federal heavy vehicle use tax imposed by 26 U.S.C. 4481 of the Internal Revenue Code as defined in section 49-801.01.

(6)(a) In the event of the transfer of ownership of any registered apportionable vehicle, (b) in the case of loss of possession because of fire, theft, or wrecking, junking, or dismantling of any registered apportionable vehicle, (c) when a salvage branded certificate of title is issued for any registered apportionable vehicle, (d) whenever a type or class of registered apportioned vehicle is subsequently declared by legislative act or court decision to be illegal or ineligible to be operated or towed on the public roads and no longer subject to registration fees and taxes, (e) upon trade-in or surrender of a registered apportionable vehicle under a lease, or (f) in case of a change in the situs of a registered apportionable vehicle to a location outside of this state, its registration shall expire, except that if the registered owner or lessee applies to the division after such transfer or loss of possession and accompanies the application with a fee of one dollar and fifty cents, he or she may have any remaining credit of vehicle fees and taxes from the previously registered apportionable vehicle applied toward payment of any vehicle fees and taxes due and owing on another registered apportionable vehicle. If such registered apportionable vehicle has a greater gross vehicle weight than that of the previously registered apportionable vehicle, the registered owner or lessee of the registered apportionable vehicle shall additionally pay only the registration fee for the increased gross vehicle weight for the remaining months of the registration year based on the factors determined by the division in the original fleet application.

(7) Whenever a Nebraska-based fleet owner files an application with the division to delete a registered apportionable vehicle from a fleet of registered apportionable vehicles (a) because of a transfer of ownership of the registered apportionable vehicle, (b) because of loss of possession due to fire, theft, or wrecking, junking, or dismantling of the registered apportionable vehicle, (c) because a salvage branded certificate of title is issued for the registered apportionable vehicle, (d) because a type or class of registered apportioned vehicle is subsequently declared by legislative act or court decision to be illegal

or ineligible to be operated or towed on the public roads and no longer subject to registration fees and taxes, (e) because of a trade-in or surrender of the registered apportionable vehicle under a lease, or (f) because of a change in the situs of the registered apportionable vehicle to a location outside of this state, the registered owner may, by returning the registration certificate or certificates and such other evidence of registration used by the division or, if such certificate or certificates or such other evidence of registration is unavailable, then by making an affidavit to the division of such transfer or loss, receive a refund of that portion of the unused registration fee based upon the number of unexpired months remaining in the registration year from the date of transfer or loss. No refund shall be allowed for any fees paid under section 60-3,203. When such apportionable vehicle is transferred or lost within the same month as acquired, no refund shall be allowed for such month. Such refund may be in the form of a credit against any registration fees that have been incurred or are, at the time of the refund, being incurred by the registered apportionable vehicle owner. The Nebraska-based fleet owner shall make a claim for a refund under this subsection within the registration period or shall be deemed to have forfeited his or her right to the refund.

(8) Whenever a Nebraska-based fleet owner files an application with the division to delete a registered apportionable vehicle from a fleet of registered apportionable vehicles because the apportionable vehicle is disabled and has been removed from service, the registered owner may, by returning the registration certificate or certificates and such other evidence of registration used by the division or, in the case of the unavailability of such certificate or certificates or such other evidence of registration, then by making an affidavit to the division of such disablement and removal from service, receive a credit for that portion of the unused registration fee deposited in the Highway Trust Fund based upon the number of unexpired months remaining in the registration year. No credit shall be allowed for any fees paid under section 60-3,203. When such apportionable vehicle is removed from service within the same month in which it was registered, no credit shall be allowed for such month. Such credit may be applied against registration fees for new or replacement vehicles incurred within one year after cancellation of registration of the apportionable vehicle for which the credit was allowed. When any such apportionable vehicle is reregistered within the same registration year in which its registration has been canceled, the fee shall be that portion of the registration fee provided to be deposited in the Highway Trust Fund for the remainder of the registration year. The Nebraska-based fleet owner shall make a claim for a credit under this subsection within the registration period or shall be deemed to have forfeited his or her right to the credit.

(9) In case of addition to the registered fleet during the registration year, the owner engaged in operating the fleet shall pay the proportionate registration fee from the date the vehicle was placed into service or, if the vehicle was previously registered outside of Nebraska, the date the prior registration expired or the date Nebraska became the base jurisdiction for the fleet, whichever is first, for the remaining balance of the registration year. The fee for any permanent license plate issued for such addition pursuant to section 60-3,203 shall be the full fee required by such section, regardless of the number of months remaining in the license year.

(10) In lieu of registration under subsections (1) through (9) of this section, the title holder of record may apply to the division for special registration, to be

known as an unladen-weight registration, for any commercial motor vehicle or combination of vehicles. Such registration shall be valid only for a period of thirty days and shall give no authority to operate the vehicle except when empty. The fee for such registration shall be twenty dollars for each vehicle, which fee shall be remitted to the State Treasurer for credit to the Highway Trust Fund. The issuance of such permits shall be governed by section 60-3,179.

(11) Any person may, in lieu of registration under subsections (1) through (9) of this section or for other jurisdictions as approved by the director, purchase a trip permit for any nonresident truck, truck-tractor, bus, or truck or truck-tractor combination. Such permit shall be valid for a period of seventy-two hours. The fee for such permit shall be twenty-five dollars for each truck, truck-tractor, bus, or truck or truck-tractor combination. Such permit shall be available at weighing stations operated by the carrier enforcement division and at various vendor stations as determined appropriate by the carrier enforcement division. The carrier enforcement division shall act as an agent for the Division of Motor Carrier Services in collecting such fees and shall remit all such fees collected to the State Treasurer for credit to the Highway Cash Fund. Trip permits shall be obtained at the first available location whether that is a weighing station or a vendor station. The vendor stations shall be entitled to collect and retain an additional fee of ten percent of the fee collected pursuant to this subsection as reimbursement for the clerical work of issuing the permits.

It is not necessary that abstract of state offense involved the use of a motor vehicle. *Lutjemeyer v. Dennis*, 186 Neb. 46, 180 N.W.2d 679 (1970).

Revocation of license under point system is a ministerial act. *Bradford v. Ress*, 167 Neb. 338, 93 N.W.2d 17 (1958).

Duty to revoke license under point system law upon receipt of proof of convictions is ministerial. *Stewart v. Ress*, 164 Neb. 876, 83 N.W.2d 901 (1957).

#### 60-497.04 Noncompliance; penalty.

Failure, refusal, or neglect by any officer to comply with any of the provisions of sections 60-497.01 to 60-497.03 shall constitute misconduct in office and shall be grounds for his or her removal therefrom.

#### 60-498 Revocation; when mandatory.

The director shall immediately revoke the operator's license of any person upon receiving a copy of judgment of such person's conviction of any of the following offenses when such conviction becomes final:

- (1) Manslaughter resulting from the operation of a motor vehicle;
- (2) Driving a motor vehicle while under the influence of alcoholic liquor or any drug as provided in city or village ordinances or in section 60-6,196. The period of revocation shall, in each case except for revocations pursuant to sections 60-498.01 to 60-498.04 and offenses specified in section 60-4,168, correspond with the period that is determined by the court;
- (3) Any felony in the commission of which a motor vehicle is used;
- (4) Failure to stop and render aid as required under the laws of this state in the event of a motor vehicle accident resulting in the death or personal injury of another;
- (5) Perjury or making of a false affidavit or statement under oath to the director, examining officer, or other officer under the Motor Vehicle Operator's

License Act or under any law relating to the ownership or operation of motor vehicles;

(6) Conviction or forfeiture of bail, not vacated, upon three charges of reckless driving committed within a period of twelve months; or

(7) Willful reckless driving as provided in city or village ordinances or as described in section 60-6,214.

Conclusory notation of "D.U.I." provides no factual reason for an officer's decision to arrest a driver on suspicion of driving under the influence of alcohol instead of merely citing the driver for speeding when excessive speed was the initial reason for the stop. *Snyder v. Department of Motor Vehicles*, 274 Neb. 168, 736 N.W.2d 731 (2007).

In an administrative license revocation proceeding, the sworn report of the arresting officer must, at a minimum, contain the information specified in subsection (3) of section 60-498.01 in order to confer jurisdiction. *Snyder v. Department of Motor Vehicles*, 274 Neb. 168, 736 N.W.2d 731 (2007).

**60-498.01 Driving under influence of alcohol; operator's license; confiscation and revocation; procedures; appeal.**

(1) Because persons who drive while under the influence of alcohol present a hazard to the health and safety of all persons using the highways, a procedure is needed for the swift and certain revocation of the operator's license of any person who has shown himself or herself to be a health and safety hazard (a) by driving with an excessive concentration of alcohol in his or her body or (b) by driving while under the influence of alcohol.

(2) If a person arrested as described in subsection (2) of section 60-6,197 refuses to submit to the chemical test of blood, breath, or urine required by section 60-6,197, the test shall not be given except as provided in section 60-6,210 for the purpose of medical treatment and the arresting peace officer, as agent for the Director of Motor Vehicles, shall verbally serve notice to the arrested person of the intention to immediately confiscate and revoke the operator's license of such person and that the revocation will be automatic thirty days after the date of arrest unless a petition for hearing is filed within ten days after the date of arrest as provided in subsection (6) of this section. The arresting peace officer shall within ten days forward to the director a sworn report stating (a) that the person was arrested as described in subsection (2) of section 60-6,197 and the reasons for such arrest, (b) that the person was requested to submit to the required test, and (c) that the person refused to submit to the required test.

(3) If a person arrested as described in subsection (2) of section 60-6,197 submits to the chemical test of blood or breath required by section 60-6,197, the test discloses the presence of alcohol in any of the concentrations specified in section 60-6,196, and the test results are available to the arresting peace officer while the arrested person is still in custody, the arresting peace officer, as agent for the director, shall verbally serve notice to the arrested person of the intention to immediately confiscate and revoke the operator's license of such person and that the revocation will be automatic thirty days after the date of arrest unless a petition for hearing is filed within ten days after the date of arrest as provided in subsection (6) of this section. The arresting peace officer shall within ten days forward to the director a sworn report stating (a) that the person was arrested as described in subsection (2) of section 60-6,197 and the

reasons for such arrest, (b) that the person was requested to submit to the required test, and (c) that the person submitted to a test, the type of test to which he or she submitted, and that such test revealed the presence of alcohol in a concentration specified in section 60-6,196.

(4) On behalf of the director, the arresting peace officer submitting a sworn report under subsection (2) or (3) of this section shall serve notice of the revocation on the arrested person, and the revocation shall be effective thirty days after the date of arrest. The notice of revocation shall contain a statement explaining the operation of the administrative revocation procedure. The peace officer shall also provide to the arrested person an addressed envelope and a petition form which the arrested person may use to request a hearing before the director to contest the revocation. The petition form shall clearly state on its face that the petition must be completed and delivered to the Department of Motor Vehicles or postmarked within ten days after receipt or the person's right to a hearing to contest the revocation will be foreclosed. The director shall prepare and approve the form for the petition, the addressed envelope, and the notice of revocation and shall provide them to law enforcement agencies.

If the person has an operator's license, the arresting peace officer shall take possession of the license and issue a temporary operator's license valid for thirty days. The arresting peace officer shall forward the operator's license to the department along with the sworn report made under subsection (2) or (3) of this section.

(5)(a) If the results of a chemical test indicate the presence of alcohol in a concentration specified in section 60-6,196, the results are not available to the arresting peace officer while the arrested person is in custody, and the notice of revocation has not been served as required by subsection (4) of this section, the peace officer shall forward to the director a sworn report containing the information prescribed by subsection (3) of this section within ten days after receipt of the results of the chemical test. If the sworn report is not received within ten days, the revocation shall not take effect.

(b) Upon receipt of the report, the director shall serve the notice of revocation on the arrested person by certified or registered mail to the address appearing on the records of the director. If the address on the director's records differs from the address on the arresting peace officer's report, the notice shall be sent to both addresses. The notice of revocation shall contain a statement explaining the operation of the administrative revocation procedure. The director shall also provide to the arrested person an addressed envelope and a petition form which the arrested person may use to request a hearing before the director to contest the revocation. The petition form shall clearly state on its face that the petition must be completed and delivered to the department or postmarked within ten days after receipt or the person's right to a hearing to contest the revocation will be foreclosed. The director shall prepare and approve the form for the petition, the addressed envelope, and the notice of revocation. The revocation shall be effective thirty days after the date of mailing.

(c) If the records of the director indicate that the arrested person possesses an operator's license, the director shall include with the notice of revocation a temporary operator's license which expires thirty days after the date of mailing. Any arrested person who desires a hearing and has been served a notice of revocation pursuant to this subsection shall return his or her operator's license

with the petition requesting the hearing. If the operator's license is not included with the petition requesting the hearing, the director shall deny the petition.

(6)(a) An arrested person's operator's license confiscated pursuant to subsection (4) of this section shall be automatically revoked upon the expiration of thirty days after the date of arrest. An arrested person's operator's license confiscated pursuant to subsection (5) of this section shall be automatically revoked upon the expiration of thirty days after the date of mailing of the notice of revocation by the director. The arrested person shall postmark or return to the director a petition within ten days after the receipt of the notice of revocation if the arrested person desires a hearing. The petition shall be in writing and shall state the grounds on which the person is relying to prevent the revocation from becoming effective. The hearing and any prehearing conference may be conducted in person or by telephone, television, or other electronic means at the discretion of the director, and all parties may participate by such means at the discretion of the director.

(b) The director shall conduct the hearing within twenty days after a petition is filed. Upon receipt of a petition, the director shall notify the petitioner of the date and location for the hearing by certified or registered mail postmarked at least seven days prior to the hearing date. The filing of the petition shall not prevent the automatic revocation of the petitioner's operator's license at the expiration of the thirty-day period. A continuance of the hearing to a date beyond the expiration of the temporary operator's license shall stay the expiration of the temporary license when the request for continuance is made by the director.

(c) At hearing the issues under dispute shall be limited to:

(i) In the case of a refusal to submit to a chemical test of blood, breath, or urine:

(A) Did the peace officer have probable cause to believe the person was operating or in the actual physical control of a motor vehicle in violation of section 60-6,196 or a city or village ordinance enacted in conformance with such section; and

(B) Did the person refuse to submit to or fail to complete a chemical test after being requested to do so by the peace officer; or

(ii) If the chemical test discloses the presence of alcohol in a concentration specified in section 60-6,196:

(A) Did the peace officer have probable cause to believe the person was operating or in the actual physical control of a motor vehicle in violation of section 60-6,196 or a city or village ordinance enacted in conformance with such section; and

(B) Was the person operating or in the actual physical control of a motor vehicle while having an alcohol concentration in violation of subsection (1) of section 60-6,196.

(7) The director shall adopt and promulgate rules and regulations to govern the conduct of the hearing and insure that the hearing will proceed in an orderly manner. The director may appoint a hearing officer to preside at the hearing, administer oaths, examine witnesses, take testimony, and report to the director. All proceedings before the hearing officer shall be recorded. Upon receipt of the arresting peace officer's sworn report, the director's order of revocation has prima facie validity and it becomes the petitioner's burden to

establish by a preponderance of the evidence grounds upon which the operator's license revocation should not take effect. The director shall make a determination of the issue within seven days after the conclusion of the hearing. A person whose operator's license is revoked following a hearing requested pursuant to this section may appeal the order of revocation as provided in section 60-498.04.

#### 1. Constitutionality

The administrative license revocation provisions pertaining to motorists who refuse to submit to chemical testing do not violate the due process or equal protection rights of those motorists by treating them differently than motorists who submit to, but fail, such testing. *Betterman v. Department of Motor Vehicles*, 273 Neb. 178, 728 N.W.2d 570 (2007).

The due process rights of a motorist who refuses to submit to chemical testing are not violated by this section even though the statutory scheme does not operate to reinstate the motorist's administratively revoked driver's license if he or she is acquitted of the criminal refusal charge. *Kenley v. Neth*, 271 Neb. 402, 712 N.W.2d 251 (2006).

This section does not violate the Equal Protection Clauses of the federal and state Constitutions by treating motorists who refuse to submit to chemical testing differently than motorists who submit to, but fail, such testing. *Kenley v. Neth*, 271 Neb. 402, 712 N.W.2d 251 (2006).

Although this section does not allow a motorist to challenge the validity of the initial traffic stop, it does not violate due process because the Fourth Amendment exclusionary rule is not applicable in civil license revocation proceedings. *Chase v. Neth*, 269 Neb. 882, 697 N.W.2d 675 (2005).

This section does not create an unconstitutional classification between those who submit to urine tests and those who submit to blood and breath tests pursuant to this section. *Kalisek v. Abramson*, 257 Neb. 517, 599 N.W.2d 834 (1999).

Administrative license revocation statutes are reviewed using the rational relationship standard of review. The administrative license revocation statutes do not violate equal protection, nor do they constitute cruel and unusual punishment. *Schindler v. Department of Motor Vehicles*, 256 Neb. 782, 593 N.W.2d 295 (1999).

The Legislature intended administrative license revocation to be a civil sanction, and the sanction is not so punitive in purpose or effect as to negate the Legislature's intent; therefore, administrative license revocation for failure to submit to a chemical test does not violate double jeopardy. *State v. Howell*, 254 Neb. 247, 575 N.W.2d 861 (1998).

The purpose of administrative license revocation is to protect the public from the health and safety hazards of driving and to deter drunk driving. Criminal prosecution and punishment following a hearing under this section do not violate the Double Jeopardy Clause of the U.S. Constitution. *State v. Young*, 249 Neb. 539, 544 N.W.2d 808 (1996).

#### 2. Refusal to submit to test

The sworn report of the arresting officer must indicate (1) that the person was arrested as described in section 60-6,197(2) and the reasons for the arrest, (2) that the person was requested to submit to the required test, and (3) that the person refused to submit to the required test. *Nothnagel v. Neth*, 276 Neb. 95, 752 N.W.2d 149 (2008).

Failure to produce an adequate breath sample constitutes a refusal to submit to breath test. *Porter v. Jensen*, 223 Neb. 438, 390 N.W.2d 511 (1986).

A motorist's subsequent offer to take a blood alcohol test previously refused does not nullify or cure such driver's initial refusal to take the test requested by the arresting officer. *Hoyle v. Peterson*, 216 Neb. 253, 343 N.W.2d 730 (1984).

Adoption of this section did not change rule that refusal to submit to test may be shown in prosecution for driving while under influence of intoxicating liquor. *State v. Meints*, 189 Neb. 264, 202 N.W.2d 202 (1972).

#### 3. Rules and regulations

When the applicable rules and regulations are not strictly complied with, the Department of Motor Vehicles cannot obtain the benefit of a presumption that all facts recited in the sworn report are true. *Morrissey v. Department of Motor Vehicles*, 264 Neb. 456, 647 N.W.2d 644 (2002).

Due process is denied where the rules and regulations governing the administrative license revocation procedure were not on file with the Secretary of State for at least 5 days at the time of the arrest. *Dannehl v. Department of Motor Vehicles*, 3 Neb. App. 492, 529 N.W.2d 100 (1995).

#### 4. Venue

For purposes of subsection (6)(a) of this section, an administrative license revocation hearing is held at the location of the hearing officer. *Gracey v. Zwonechek*, 263 Neb. 796, 643 N.W.2d 381 (2002).

Pursuant to subsection (6)(a) of this section, generalized objections directed to the method by which a license revocation hearing was being held are not objections to venue. *Davis v. Wimes*, 263 Neb. 504, 641 N.W.2d 37 (2002).

Subsection (6)(a) of this section is a venue statute. *Reiter v. Wimes*, 263 Neb. 277, 640 N.W.2d 19 (2002).

Subsection (6)(a) of this section, establishing the location for administrative license revocation hearings, is a venue statute. A telephonic hearing under the Administrative Procedure Act pertaining to license revocation is subject to the terms of subsection (6)(a) of this section. *Muir v. Nebraska Dept. of Motor Vehicles*, 260 Neb. 450, 618 N.W.2d 444 (2000).

**5. Prima facie case**

The arresting officer's sworn report triggers the administrative license revocation process by establishing a prima facie basis for revocation. *Nothnagel v. Neth*, 276 Neb. 95, 752 N.W.2d 149 (2008).

A sworn statement containing the recitations required by this section establishes a prima facie case under the provisions of the administrative license revocation statutes. *McPherrin v. Conrad*, 248 Neb. 561, 537 N.W.2d 498 (1995).

The burden is upon the state to make a prima facie case for revocation before the director. *Mackey v. Director of Motor Vehicles*, 194 Neb. 707, 235 N.W.2d 394 (1975).

**6. Miscellaneous**

An acknowledgment on a sworn report which does not set forth the name of the individual making the acknowledgment, i.e., the arresting officer, does not substantially comply with the requirements of Nebraska law. *Johnson v. Neth*, 276 Neb. 886, 758 N.W.2d 395 (2008).

Sworn reports in administrative license revocation proceedings are, by definition, affidavits. *Johnson v. Neth*, 276 Neb. 886, 758 N.W.2d 395 (2008).

Although this section limits the issues under dispute, it does not prohibit evidence pertinent to the issue of enhancement after those issues have been resolved. *Stenger v. Department of Motor Vehicles*, 274 Neb. 819, 743 N.W.2d 758 (2008).

In an administrative license revocation proceeding, the sworn report of the arresting officer must, at a minimum, contain the information specified in subsection (3) of this section in order to confer jurisdiction. *Snyder v. Department of Motor Vehicles*, 274 Neb. 168, 736 N.W.2d 731 (2007).

In an administrative license revocation proceeding, the sworn report of the arresting officer must, at a minimum, contain the information specified in the applicable statute in order to confer jurisdiction. *Betterman v. Department of Motor Vehicles*, 273 Neb. 178, 728 N.W.2d 570 (2007).

The failure to hold a hearing within the time provided in subsection (6)(b) of this section does not invalidate the administrative license revocation proceeding unless the motorist can show that he or she was prejudiced by the delay. *Betterman v. Department of Motor Vehicles*, 273 Neb. 178, 728 N.W.2d 570 (2007).

A report that does not contain the affirmation of an "arresting peace officer" that the facts recited in the report are true is not a proper "sworn report" as required by this section. *Arndt v.*

*Department of Motor Vehicles*, 270 Neb. 172, 699 N.W.2d 39 (2005).

An arresting officer's sworn report must, at a minimum, contain the information specified in this section in order to confer jurisdiction upon the Department of Motor Vehicles to revoke an operator's license. *Hahn v. Neth*, 270 Neb. 164, 699 N.W.2d 32 (2005).

Pursuant to subsection (2) of this section, the administrative license revocation process must be based on a valid arrest, because the sworn report which triggers the administrative license revocation must be prepared by an "arresting peace officer" who has "validly arrested" a driver. *Young v. Neth*, 263 Neb. 20, 637 N.W.2d 884 (2002).

Under subsection (6)(c)(i)(A) of this section, a peace officer must have probable cause prior to revoking a driver's license for refusal to submit to a chemical test. *State v. Howell*, 254 Neb. 247, 575 N.W.2d 861 (1998).

Pursuant to subsection (3) of this section, after January 1, 1993, a person who agrees to submit to a chemical test and fails it is subject to automatic administrative license revocation. *Smith v. State*, 248 Neb. 360, 535 N.W.2d 694 (1995).

The oath to an affidavit is not required to be administered with any particular ceremony, but the affiant must perform some corporal act whereby he consciously takes upon himself the obligation of an oath. *Moore v. Peterson*, 218 Neb. 615, 358 N.W.2d 193 (1984).

This section simply forstalls a forcible taking of a specimen. *Wiseman v. Sullivan*, 190 Neb. 724, 211 N.W.2d 906 (1973).

This section is *pari materia* with section 39-727.03 (transferred to section 60-6,197), and other sections mentioned in opinion. *Stevenson v. Sullivan*, 190 Neb. 295, 207 N.W.2d 680 (1973).

Although this section requires the "sworn report" required by subsection (2) of this section to include the "reasons for [the] arrest," an arresting officer need not specifically delineate on the sworn report all of the information contained on an attached probable cause form, so long as the sworn report provides adequate notice that one is being accused of driving under the influence and/or failure of a chemical test. *Taylor v. Wimes*, 10 Neb. App. 432, 632 N.W.2d 366 (2001).

When an arrested driver is released before the results of blood alcohol content testing are known to the arresting officer, then under subsection (5)(a) of this section (60-6,205 (Reissue 1993)) the arresting officer is "unable to serve" notice, and the statutory provision allowing service by certified mail by the Department of Motor Vehicles becomes operative. *Kuebler v. Abramson*, 4 Neb. App. 420, 544 N.W.2d 513 (1996).

**60-498.02 Driving under influence of alcohol; revocation of operator's license; reinstatement; procedure; eligibility for employment driving permit and ignition interlock permit.**

(1) At the expiration of thirty days after the date of arrest as described in subsection (2) of section 60-6,197 or if after a hearing pursuant to section 60-498.01 the director finds that the operator's license should be revoked, the director shall (a) revoke the operator's license of a person arrested for refusal to submit to a chemical test of blood, breath, or urine as required by section 60-6,197 for a period of one year and (b) revoke the operator's license of a person who submits to a chemical test pursuant to such section which discloses the presence of a concentration of alcohol specified in section 60-6,196 for a period of ninety days unless the person's driving record abstract maintained in the department's computerized records shows one or more prior administrative license revocations on which final orders have been issued during the immediately preceding twelve-year period at the time the order of revocation is issued, in which case the period of revocation shall be one year. Except as otherwise provided in section 60-6,211.05, a new operator's license shall not be issued to

such person until the period of revocation has elapsed. If the person subject to the revocation is a nonresident of this state, the director shall revoke only the nonresident's operating privilege as defined in section 60-474 of such person and shall immediately forward the operator's license and a statement of the order of revocation to the person's state of residence.

(2)(a) At the expiration of thirty days after an order of revocation is entered under subdivision (1)(b) of this section, any person whose operator's license has been administratively revoked for a period of ninety days for submitting to a chemical test pursuant to section 60-6,197 which disclosed the presence of a concentration of alcohol in violation of section 60-6,196 may make application to the director for issuance of an employment driving permit pursuant to section 60-4,130.

(b) At the expiration of sixty days after an order of revocation is entered under subdivision (1)(a) of this section, any person whose operator's license has been administratively revoked for refusal to submit to a chemical test pursuant to section 60-6,197, may make application to the director for issuance of an employment driving permit pursuant to section 60-4,130 unless the person's driving record abstract maintained in the department's computerized records shows one or more prior administrative license revocations on which final orders have been issued during the immediately preceding twelve-year period at the time the order of revocation is issued.

(3)(a) At the expiration of thirty days after an order of administrative license revocation for ninety days is entered under subdivision (1)(b) of this section, any person who submitted to a chemical test pursuant to section 60-6,197 which disclosed the presence of a concentration of alcohol in violation of section 60-6,196 is eligible for an order to allow application for an ignition interlock permit to operate a motor vehicle equipped with an ignition interlock device pursuant to section 60-6,211.05 upon presentation of sufficient evidence to the department that such a device is installed.

(b) At the expiration of sixty days after an order of administrative license revocation for one year is entered under subdivision (1)(b) of this section, any person who submitted to a chemical test pursuant to section 60-6,197 which disclosed the presence of a concentration of alcohol in violation of section 60-6,196 is eligible for an order to allow application for an ignition interlock permit in order to operate a motor vehicle equipped with an ignition interlock device pursuant to section 60-6,211.05 upon presentation of sufficient evidence to the department that such a device is installed.

(c) At the expiration of sixty days after an order of administrative license revocation is entered under subdivision (1)(a) of this section, any person who refused to submit to a chemical test pursuant to section 60-6,197 is eligible for an order to allow application for an ignition interlock permit in order to operate a motor vehicle equipped with an ignition interlock device pursuant to section 60-6,211.05 upon presentation of sufficient evidence to the department that such a device is installed, unless the person's driving record abstract maintained in the department's computerized records shows one or more prior administrative license revocations on which final orders have been issued during the immediately preceding twelve-year period at the time the order of revocation is issued.

(d) A person operating a motor vehicle pursuant to this subsection shall only operate the motor vehicle to and from his or her residence, his or her place of

employment, his or her school, an alcohol treatment program, or an ignition interlock service facility. Such permit shall indicate for which purposes the permit may be used. All permits issued pursuant to this subsection shall indicate that the permit is not valid for the operation of any commercial motor vehicle.

(4) A person may have his or her eligibility for a license reinstated upon payment of a reinstatement fee as required by section 60-694.01.

(5)(a) A person whose operator's license is subject to revocation pursuant to subsection (3) of section 60-498.01 shall have all proceedings dismissed or his or her operator's license immediately reinstated without payment of the reinstatement fee upon receipt of suitable evidence by the director that:

(i) Within the thirty-day period following the date of arrest, the prosecuting attorney responsible for the matter declined to file a complaint alleging a violation of section 60-6,196 and notified the director by first-class mail or facsimile transmission of such decision and the director received such notice within such period or the notice was postmarked within such period; or

(ii) The defendant, after trial, was found not guilty of violating section 60-6,196 or such charge was dismissed on the merits by the court.

(b) The director shall adopt and promulgate rules and regulations establishing standards for the presentation of suitable evidence of compliance with subdivision (a) of this subsection.

(c) If a charge is filed for a violation of section 60-6,196 pursuant to an arrest for which all proceedings were dismissed under this subsection, the prosecuting attorney shall notify the director by first-class mail or facsimile transmission of the filing of such charge and the director may reinstate an administrative license revocation under this section as of the date that the director receives notification of the filing of the charge, except that a revocation shall not be reinstated if it was dismissed pursuant to section 60-498.01.

When the Department of Motor Vehicles provided the motorist a copy of his driver abstract before the revocation hearing and an opportunity to challenge the accuracy of his driver abstract at the revocation hearing, the requirements of due process were met. *Stenger v. Department of Motor Vehicles*, 274 Neb. 819, 743 N.W.2d 758 (2008).

The administrative license revocation provisions pertaining to motorists who refuse to submit to chemical testing do not violate the due process or equal protection rights of those motorists by treating them differently than motorists who submit to, but fail, such testing. *Betterman v. Department of Motor Vehicles*, 273 Neb. 178, 728 N.W.2d 570 (2007).

Administrative revocation of a driver's license under this section is a civil sanction and does not constitute punishment for purposes of double jeopardy. *State v. Isham*, 261 Neb. 690, 625 N.W.2d 511 (2001).

Administrative license revocation statutes are reviewed using the rational relationship standard of review. The administrative license revocation statutes do not violate equal protection, nor

do they constitute cruel and unusual punishment. *Schindler v. Department of Motor Vehicles*, 256 Neb. 782, 593 N.W.2d 295 (1999).

The proscription that there can be no revocation of one's driver's license and operating privileges if the refusal to submit to a chemical test is reasonable under the circumstances contained in this section (formerly section 39-669.16 (Reissue 1988)), relates only to administrative license revocations by the Director of Motor Vehicles. In a criminal proceeding, however, the inquiry centers on the existence of reasonable grounds for the arresting officer to believe that an operator was driving while under the influence of alcohol. *State v. Boyd*, 242 Neb. 144, 493 N.W.2d 344 (1992).

Pursuant to subsection (4) of this section, a Department of Motor Vehicles regulation cannot, as a prerequisite to dismissing an administrative license revocation proceeding, require a prosecuting attorney to provide one of four particular reasons for failing to file a criminal driving under the influence of alcohol charge, as such a requirement modifies, alters, and

restricts the provisions of this section. *Dozler v. Conrad*, 3 Neb. App. 735, 532 N.W.2d 42 (1995).

### 60-498.03 Operator's license revocation decision; notice; contents.

(1) The Director of Motor Vehicles shall reduce the decision revoking an operator's license under sections 60-498.01 to 60-498.04 to writing, and the director shall notify the person in writing of the revocation. The notice shall set forth the period of revocation and be served by mailing it to such person by certified or registered mail to the address provided to the director at the hearing or, if the person does not appear at the hearing, to the address appearing on the records of the director. If the address on the director's records differs from the address on the arresting peace officer's report, the notice shall be sent to both addresses.

(2) If the director does not revoke the operator's license, the director shall immediately notify the person in writing of the decision. The notice shall set forth the time and place the person may obtain his or her license. The notice shall be mailed by certified or registered mail as provided in subsection (1) of this section. No reinstatement fee shall be charged for return of the confiscated operator's license pursuant to this subsection.

Administrative license revocation statutes are reviewed using the rational relationship standard of review. The administrative license revocation statutes do not violate equal protection, nor do they constitute cruel and unusual punishment. *Schindler v. Department of Motor Vehicles*, 256 Neb. 782, 593 N.W.2d 295 (1999).

A refusal to submit to a chemical test for alcohol occurs when the licensee, after being asked to submit to a test, so conducts himself as to justify a reasonable person in the requesting officer's position in believing that the licensee understood that

he was asked to submit to a test and manifested an unwillingness to do so. *Wohlgemuth v. Pearson*, 204 Neb. 687, 285 N.W.2d 102 (1979).

A preliminary refusal followed by a consent to submit to a test for blood alcohol content does not furnish a basis for imposition of the sanction prescribed by the statute if a test was in fact performed and the state was not prejudiced by the delay in performing the test. *Sedlacek v. Pearson*, 204 Neb. 625, 284 N.W.2d 556 (1979).

### 60-498.04 License revocation; appeal; notice of judgment.

Any person who feels himself or herself aggrieved because of the revocation of his or her operator's license under sections 60-498.01 to 60-498.04 may appeal therefrom to the district court of the county where the alleged events occurred for which he or she was arrested in accordance with the Administrative Procedure Act. The district court shall allow any party to an appeal to appear by telephone at any proceeding before the court for purposes of the appeal. Such appeal shall suspend the order of revocation until the final judgment of a court finds against the person so appealing. The court shall provide notice of the final judgment to the Department of Motor Vehicles. The period of revocation shall commence at the time of final judgment of the court for the full period of the time of revocation.

Such notice shall state that such resident has twenty working days after the date of the notice to show the director that the resident has complied with the terms of such traffic citation. No suspension shall be entered by the director if the resident complies with the terms of a citation during such twenty working days. The order shall be sent by registered or certified mail to the person's last-known mailing address as shown by the records of the department.

(4) The reinstatement fee required under section 60-4,100.01 shall be waived if five years have passed since issuance of the license suspension order under this section.

**60-4,105 Appeal; procedure.**

(1) Unless otherwise provided by statute, any person aggrieved by a final decision or order of the director or the Department of Motor Vehicles to cancel, suspend, revoke, or refuse to issue or renew any operator's license, any decision of the director made after consideration of advice from the Health Advisory Board, or suspension of an operator's license under the License Suspension Act may appeal to either the district court of the county in which the person originally applied for the license or the district court of the county in which such person resides or, in the case of a nonresident, to the district court of Lancaster County within thirty days after the date of the final decision or order.

(2) Summons shall be served on the department within thirty days after the filing of the petition in the manner provided for service of a summons in section 25-510.02. The petitioner shall file the transcript with the court within fourteen days after receiving the transcript from the department.

(3) The district court shall hear the appeal as in equity without a jury and determine anew all questions raised before the director. Either party may appeal from the decision of the district court to the Court of Appeals.

**1. Appeal**

Filing of transcript of the proceedings of the Department of Motor Vehicles relating to the revocation of a driver's license within the time set out in this section is a necessary step to the acquisition of subject matter jurisdiction of an implied consent proceeding by the district court and the Supreme Court. *Ernest v. Jensen*, 226 Neb. 759, 415 N.W.2d 121 (1987).

Normally, trial court's findings in revocation case are reviewed de novo in Supreme Court, but sustaining motion to dismiss appeal to district court will be affirmed where evidence presents no questions of fact. *Porter v. Jensen*, 223 Neb. 438, 390 N.W.2d 511 (1986).

Filing in the district court does not satisfy the requirement of this section that the bond be filed in the office of the director of the Department of Motor Vehicles within twenty days of the order concerning which complaint is made. *Bammer v. Jensen*, 222 Neb. 400, 384 N.W.2d 263 (1986).

The execution, approval, and filing of the bond required by this section are necessary steps to the acquisition of subject matter jurisdiction of an implied consent proceeding by the

district court. *Bammer v. Jensen*, 222 Neb. 400, 384 N.W.2d 263 (1986).

When seeking to appeal an order of the director of the Department of Motor Vehicles, the appellant must execute and file the required bond within twenty days of the date of the final order complained of; such filing is a jurisdictional requirement and condition precedent to the initiation of the appellate process. *Black v. State*, 218 Neb. 572, 358 N.W.2d 181 (1984).

An appeal from an order of the Department of Motor Vehicles under this section to revoke a driver's license under section 39-669.16 (transferred to section 60-498.02) is in the nature of a proceeding in review of administrative agency, and such appeal is commenced or perfected by filing a petition within thirty days of the service of the final decision of the director and causing a summons to issue on the petition and be served within six months of such filing. Making an administrative agency a party defendant in an appeal under the provisions of this section or section 84-917(2) is not an action against the state within the meaning of section 24-319 (transferred to section 25-21,201) et seq. so as to require service of summons on the Governor and Attorney General. *Leach v. Dept. of Motor Vehicles*, 213 Neb. 103, 327 N.W.2d 615 (1982).

On appeal to the district court from an order of the Director of the Department of Motor Vehicles made under section 39-669.16 (transferred to section 60-498.02), revoking a motor vehicle operator's license, the burden of proof is on the licensee to establish by a preponderance of the evidence the ground for reversal. *Barton v. Director of Department of Motor Vehicles*, 194 Neb. 765, 235 N.W.2d 863 (1975).

On appeal to district court from order of Director of Motor Vehicles under section 39-669.16 (transferred to section 60-498.02) revoking operator's license, the burden is on licensee to establish ground for reversal. *Mackey v. Filing required bond within twenty days after revocation under point system is jurisdictional and a condition precedent to initiation of appeal process. *Buettner v. Sullivan*, 191 Neb. 592, 216 N.W.2d 872 (1974).

On appeal from order of revocation of a motor vehicle operator's license under the implied consent law, review is de novo as in equity. *Wiseman v. Sullivan*, 190 Neb. 724, 211 N.W.2d 906 (1973).

On appeal from the order of the Director of Motor Vehicles, the director shall furnish a transcript of the proceedings had before him and the appellant shall file it in the district court as provided in this section. *Doran v. Johns*, 186 Neb. 321, 182 N.W.2d 900 (1971).

Filing of approved bond within twenty days is a condition precedent to initiation of appeal; approval of bond by Auditor of Public Accounts is a jurisdictional requirement. *Lydick v. Johns*, 185 Neb. 716, 178 N.W.2d 581 (1970).

The director acts ministerially in revoking driver's license under point system, and appeal procedures contemplate a full evidentiary hearing which meets due process requirements of federal and state constitutions. *State v. Lessert*, 188 Neb. 243, 196 N.W.2d 166 (1972).

Any resident or nonresident whose operator's license or right or privilege to operate a motor vehicle in this state has been suspended or revoked as provided in the Motor Vehicle Operator's License Act shall not operate a motor vehicle in this state under a license, permit, or registration certificate issued by any other jurisdiction or otherwise during such suspension or after such revocation until a new license is obtained when and if permitted under the act. Such persons shall be eligible to operate a motor vehicle, except a commercial motor vehicle, under an employment driving permit as provided by section 60-4,129 or a medical hardship driving permit as provided in section 60-4,130.01.

Circumstantial evidence may serve to establish the operation or actual physical control of a motor vehicle. *State v. Hanger*, 241 Neb. 812, 491 N.W.2d 55 (1992).

A former Nebraska resident whose Nebraska driver's license is suspended or revoked and who obtains a license issued by another state before the period of suspension or revocation expires is not authorized to operate a motor vehicle in Nebraska until a new license is obtained when and if permitted by this act. *State v. Workman*, 233 Neb. 503, 446 N.W.2d 16 (1989).

The gravamen of or the misconduct prohibited by this section and section 39-669.30 (transferred to section 60-4,186) is operation of a motor vehicle after judicial or administrative deprivation of the operator's privilege or license to operate a motor vehicle on the public highways of the State of Nebraska. Although the terms suspension and revocation were used interchangeably in this case, such misuse did not arise to the stature

of sufficient prejudice to warrant reversal of judgment. *State v. Jost*, 219 Neb. 162, 361 N.W.2d 526 (1985).

This act refers to sections 60-401 to 60-440, and they have nothing to do with point system revocations. *Buettner v. Sullivan*, 191 Neb. 592, 216 N.W.2d 872 (1974).

While operator's license is suspended in this state, operation under license issued by another state can be had only when and if permitted. *State v. Smith*, 181 Neb. 846, 152 N.W.2d 16 (1967).

The privilege of operating a motor vehicle is not restored after revocation or suspension by lapse of time alone. *State v. Ruggiere*, 180 Neb. 869, 146 N.W.2d 373 (1966).

After suspension of license, right to operate motor vehicle depends upon the receipt of a new license. *Tyrrell v. State*, 173 Neb. 859, 115 N.W.2d 459 (1962).

If the court orders the person not to operate a motor vehicle for a period of one year from the date ordered by the court, the court shall also order the operator's license of such person to be revoked for a like period. Such orders of the court shall be administered upon sentencing, upon final judgment of any appeal or review, or upon the date that any probation is revoked, whichever is later.

(3) If a juvenile whose operator's license or permit has been impounded by a juvenile court operates a motor vehicle during any period that he or she is subject to the court order not to operate any motor vehicle or after a period of impoundment but before return of the license or permit, such violation shall be handled in the juvenile court and not as a violation of this section.

Penalty for violation of this section is increased upon conviction of second offense. *State v. Steemer*, 175 Neb. 342, 121 N.W.2d 813 (1963).

Under former act, collection and retention by county treasurer of fee of twenty-five cents was not in conflict with general

statute governing compensation of county treasurer, and was not void as extra compensation. *Mehrens v. Bauman*, 120 Neb. 110, 231 N.W. 701 (1930).

**60-4,118 Vision requirements; persons with physical impairments; physical or mental incompetence; prohibited act; penalty.**

(1) No operator's license shall be granted to any applicant until such applicant satisfies the examiner that he or she possesses sufficient powers of eyesight to enable him or her to obtain a Class O license and to operate a motor vehicle on the highways of this state with a reasonable degree of safety. The Department of Motor Vehicles, with the advice of the Health Advisory Board, shall adopt and promulgate rules and regulations:

(a) Requiring a minimum acuity level of vision. Such level may be obtained through the use of standard eyeglasses, contact lenses, or bioptic or telescopic lenses which are specially constructed vision correction devices which include a lens system attached to or used in conjunction with a carrier lens; and

(b) Requiring a minimum field of vision. Such field of vision may be obtained through standard eyeglasses, contact lenses, or the carrier lens of the bioptic or telescopic lenses.

(2) If a vision aid is used by the applicant to meet the vision requirements of this section, the operator's license of the applicant shall be restricted to the use

of such vision aid when operating the motor vehicle. If the applicant fails to meet the vision requirements, the examiner shall require the applicant to present an optometrist's or ophthalmologist's statement certifying the vision reading obtained when testing the applicant within ninety days of the applicant's license examination. If the vision reading meets the vision requirements prescribed by the department, the vision requirements of this section shall have been met. If the vision reading demonstrates that the applicant is required to use bioptic or telescopic lenses to operate a motor vehicle, the statement from the optometrist or ophthalmologist shall also indicate when the applicant needs to be reexamined for purposes of meeting the vision requirements for an operator's license as prescribed by the department. If such time period is two years or more after the date of the application, the license shall be valid for two years. If such time period is less than two years, the license shall be valid for such time period.

(3) If the applicant for an operator's license discloses that he or she has any other physical impairment which may affect the safety of operation by such applicant of a motor vehicle, the examiner shall require the applicant to show cause why such license should be granted and, through such personal examination and demonstration as may be prescribed by the director with the advice of the Health Advisory Board, to show the necessary ability to safely operate a motor vehicle on the highways. The director may also require the person to appear before the board or a designee of the board. If the examiner, board, or designee is then satisfied that such applicant has the ability to safely operate a motor vehicle, an operator's license may be issued to the applicant subject, at the discretion of the director, to a limitation to operate only such motor vehicles at such time, for such purpose, and within such area as the license shall designate.

(4)(a) The director may, when requested by a law enforcement officer, when the director has reason to believe that a person may be physically or mentally incompetent to operate a motor vehicle, or when a person's driving record appears to the department to justify an examination, request the advice of the Health Advisory Board and may give notice to the person to appear before an examiner, the board, or a designee of the director for examination concerning the person's ability to operate a motor vehicle safely. Any such request by a law enforcement officer shall be accompanied by written justification for such request and shall be approved by a supervisory law enforcement officer, police chief, or county sheriff.

(b) A refusal to appear before an examiner, the board, or a designee of the director for an examination after notice to do so shall be unlawful and shall result in the immediate cancellation of the person's operator's license by the director.

(c) If the person cannot qualify at the examination by an examiner, his or her operator's license shall be immediately surrendered to the examiner and forwarded to the director who shall cancel the person's operator's license.

(d) If in the opinion of the board the person cannot qualify at the examination by the board, the board shall advise the director. If the director determines after consideration of the advice of the board that the person lacks the physical or mental ability to operate a motor vehicle, the director shall notify the person in writing of the decision. Upon receipt of the notice, the person shall immedi-

ately surrender his or her operator's license to the director who shall cancel the person's operator's license.

(e) Refusal to surrender an operator's license on demand shall be unlawful, and any person failing to surrender his or her operator's license as required by this subsection shall be guilty of a Class III misdemeanor.

#### **60-4,183 Point system; revocation of license, when; driver education and training course; employment driving permit or medical hardship driving permit, exception.**

Whenever it comes to the attention of the director that any person has, as disclosed by the records of the director, accumulated a total of twelve or more points within any period of two years, as set out in section 60-4,182, the director shall (1) summarily revoke the operator's license of such person and (2) require such person to attend and successfully complete a driver's education and training course consisting of at least eight hours of instruction approved by the Department of Motor Vehicles.

Such instruction shall be successfully completed before the operator's license may be reinstated. Each person who attends such instruction shall pay the cost of such course.

Such revocation shall be for a period of six months from the date of the signing of the order of revocation or six months from the date of the release of such person from the jail or a Department of Correctional Services adult correctional facility, whichever is the later, unless a longer period of revocation was directed by the terms of the abstract of the judgment of conviction transmitted to the director by the trial court.

2. Revocation

When his records disclose any person has accumulated twelve or more points within two years, Director of Motor Vehicles must revoke his license and privileges to operate a motor vehicle in this state. Westenburg v. Weedlun, 187 Neb. 679, 193 N.W.2d 566 (1972).

3. Miscellaneous

Revocation of an individual's license to operate a motor vehicle as the result of accumulation of 12 or more points within a period of 2 years is not an act of a state official done pursuant to, or in enforcing, the provisions of the Driver License

Compact. Gillespie v. State, 230 Neb. 587, 432 N.W.2d 801 (1988).

An accumulation of points comes to the attention of the Director of Motor Vehicles at the time of receipt of the final abstract of conviction by the Department of Motor Vehicles. The action required of the director is ministerial and directory in nature. Thus, the requirement of a summary revocation relates only to the prompt accomplishment of the statute's purpose and does not require a strict and literal compliance as to every detail thereof. Berlowitz v. Dept. of Motor Vehicles, 210 Neb. 843, 317 N.W.2d 93 (1982).

Whenever a guilty plea is treated as a judgment of conviction to support an order revoking a motor vehicle operator's license, and it is challenged in district court, it must appear from the record that there was a judicial acceptance of that plea. Miller v. Peterson, 208 Neb. 658, 305 N.W.2d 364 (1981).

On appeal to district court from order of Director of Motor Vehicles under section 39-669.16 (transferred to section 60-498.02) revoking operator's license, the burden is on licensee to establish ground for reversal. Mackey v. Director of Motor Vehicles, 194 Neb. 707, 235 N.W.2d 394 (1975).

The Director of Motor Vehicles is required to interpret abstracts of conviction in accordance with laws regulating use of motor vehicles. Jarmin v. Kissack, 190 Neb. 365, 208 N.W.2d 675 (1973).

The amount by which the speed limit was exceeded is a part of the information to be shown on the abstract for conviction report. Melanson v. State, 188 Neb. 446, 197 N.W.2d 401 (1972).

The director acts ministerially in revoking a driver's license under this and related section. State v. Lessert, 188 Neb. 243, 196 N.W.2d 166 (1972).

Due process does not require notice and hearing before revocation for point violations hereunder. Stauffer v. Weedlun, 188 Neb. 105, 195 N.W.2d 218 (1972).

In assessing points hereunder, Director of Motor Vehicles must consider provisions of statute which was violated. Westenburg v. Weedlun, 187 Neb. 679, 193 N.W.2d 566 (1972).

Validity of prior judgments of conviction cannot be collaterally attacked on appeal from order of revocation of license. Bradford v. Ress, 167 Neb. 338, 93 N.W.2d 17 (1958).

**60-4,184 Revocation of license; notice; failure to return license; procedure; penalty; appeal; effect.**

Within ten days after the revocation provided for by section 60-4,183, the director shall notify in writing the person whose operator's license has been revoked that such license has been revoked. Such notice shall:

(1) Contain a list of the convictions for violations upon which the director relies as his or her authority for the revocation, with the dates of such violations upon which convictions were had and the dates of such convictions, the trial

courts in which such judgments of conviction were rendered, and the points charged for each conviction;

(2) State the term of such revocation;

(3) Include a demand that the license be returned to the director immediately; and

(4) Be served by mailing it to such person by either registered or certified mail to the last-known residence of such person or, if such address is unknown, to the last-known business address of such person.

If any person fails to return his or her license to the director as demanded, the director shall immediately direct any peace officer or authorized representative of the director to secure possession of such license and return the license to the director. A refusal to surrender an operator's license on demand shall be unlawful, and any person failing to surrender his or her license as required by this section shall be guilty of a Class III misdemeanor.

Any person who feels aggrieved because of such revocation may appeal from such revocation in the manner set forth in section 60-4,105. Such appeal shall not suspend the order of revocation of such license unless a stay of such order is allowed by a judge of such court pending a final determination of the review. The license of any person claiming to be aggrieved shall not be restored to such person, in the event the final judgment of a court finds against such person, until the full time of revocation, as fixed by the Department of Motor Vehicles, has elapsed.

**60-4,185 License; revocation; when points disregarded.**

When the operator's license of a person is revoked for a period of at least six months pursuant to an order of conviction or as provided by sections 60-4,182 to 60-4,186, points accumulated by reason of the conviction containing such order of revocation, or the conviction bringing the total number of points charged to such person to twelve or more, and all prior points accumulated, shall be disregarded so far as any subsequent revocation is concerned.

In construing sections 39-669.26 to 39-669.30 (transferred to sections 60-4,182 to 60-4,186) together, the points which are to be disregarded for purposes of subsequent revocation under this

section are those points for which a conviction had been had prior to the first revocation. *Conkel v. Higgins*, 1 Neb. App. 676, 511 N.W.2d 147 (1993).

**60-4,186 Operation after revocation; violation; penalty; employment driving permit or medical hardship driving permit excepted; proof of financial responsibility.**

It shall be unlawful to operate a motor vehicle on the public highways after revocation of an operator's license under sections 60-4,182 to 60-4,186, except that a motor vehicle other than a commercial motor vehicle may be operated under an employment driving permit as provided by section 60-4,129 or a

medical hardship driving permit as provided in section 60-4,130.01. Any person who violates the provisions of this section shall be guilty of a Class III misdemeanor.

Any operator's license revoked under sections 60-4,182 to 60-4,186 shall remain revoked for six months, and at the expiration of the six-month period, such person shall give and maintain for three years proof of financial responsibility as required by section 60-524. Any person whose operator's license has been revoked pursuant to sections 60-4,182 to 60-4,186 a second time within five years shall have his or her operator's license revoked for three years, and at the expiration of the three-year period, such person shall give and maintain for three years proof of financial responsibility as required by section 60-524.

The gravamen of or the misconduct prohibited by section 60-418 (transferred to section 60-4,107) and this section is operation of a motor vehicle after judicial or administrative deprivation of the operator's privilege or license to operate a motor vehicle on the public highways of the State of Nebraska. Although the terms suspension and revocation were used interchangeably in this case, such misuse did not arise to the stature of sufficient prejudice to warrant reversal of judgment. *State v. Jost*, 219 Neb. 162, 361 N.W.2d 526 (1985).

At expiration of period of revocation or suspension of license, operator of motor vehicle must give and maintain proof of

financial responsibility. *State v. Smith*, 181 Neb. 846, 152 N.W.2d 16 (1967).

Revocation of license for points accumulated before amendment of statute was not ex post facto application of statute. *Durfee v. Ress*, 163 Neb. 768, 81 N.W.2d 148 (1957).

#### **60-4,187 Pardon by mayor or chairperson of board of trustees; effect.**

Upon receipt of notice of a pardon granted by any mayor of any city or any chairperson of the board of trustees of any village, the director shall not restore points assessed against an individual as provided by section 60-4,182 or reinstate any permit to operate a motor vehicle revoked pursuant to section 60-4,183.

#### **60-4,188 Driver improvement course; reduce point assessment.**

Any person who has fewer than twelve points assessed against his or her driving record under section 60-4,182 may voluntarily enroll in a driver improvement course approved by the Department of Motor Vehicles. Upon notification of successful completion of such a course by the conducting organization, the department shall reduce by two the number of points assessed against such person's driving record within the previous two years. This section shall only apply to persons who have successfully completed such driver improvement course prior to committing any traffic offense for which a conviction and point assessment against their driving record would otherwise result in a total of twelve or more points assessed against their record. No person required to enroll in a driver improvement course pursuant to section 60-4,130, 60-4,130.03, or 60-4,183 shall be eligible for a reduction in points assessed against his or her driving record upon the successful completion of such course. If a person has only one point assessed against his or her record within the previous two years, upon notification of successful completion of such a course by the conducting organization, the department shall reduce one

point from such person’s driving record. Such reduction shall be allowed only once within a five-year period. Notification of completion of an approved course shall be sent to the department, upon successful completion thereof, by the conducting organization. An approved course shall consist of at least eight hours of instruction and shall follow such other guidelines as are established by the department.

**60-512 Compliance with law; person with no license or registration; nonresident; resident with accident occurring in other state.**

(1) In case the operator or the owner of a motor vehicle involved in an accident within this state has no license or registration, he shall not be allowed a license or registration until he has complied with the requirements of sections 60-501 to 60-569 to the same extent that would be necessary if, at the time of the accident, he had held a license and registration.

(2) When a nonresident's operating privilege is suspended pursuant to section 60-507 or 60-511, the department shall transmit a certified copy of the record of such action to the official in charge of the issuance of licenses and registration certificates in the state in which such nonresident resides, if the law of such other state provides for action in relation thereto similar to that provided for in subsection (3) of this section.

(3) Upon receipt of certification that the operating privilege of a resident of this state has been suspended or revoked in any such other state pursuant to a law providing for its suspension or revocation for failure to deposit security for the payment of judgments arising out of a motor vehicle accident, or for failure to deposit both security and proof of financial responsibility, under circumstances which would require the department to suspend a nonresident's operating privilege had the accident occurred in this state, the department shall suspend the license of such resident and all of his registrations. Such suspension shall continue until such resident furnishes evidence of his compliance with the law of such other state relating to the deposit of such security, and until such resident files proof of financial responsibility if required by such law.

The person depositing security shall specify in writing the person or persons on whose behalf the deposit is made and, at any time while such deposit is in the custody of the department or State Treasurer, the person depositing it may, in writing, amend the specification of the person or persons on whose behalf the deposit is made to include an additional person or persons, except that a single deposit of security shall be applicable only on behalf of persons required to furnish security because of the same accident. The department may increase or reduce the amount of security ordered in any case at any time after the date of the accident if, in the judgment of the director, the amount ordered is inadequate or excessive. In case the security originally ordered has been deposited, the excess deposited over the reduced amount ordered shall be returned to the depositor or his or her personal representative immediately, notwithstanding the provisions of section 60-514. If any additional security ordered is not deposited within ten days, the Department of Motor Vehicles shall proceed under the provisions of section 60-507.

Neither the action taken by the department pursuant to the Motor Vehicle Safety Responsibility Act, the findings, if any, of the department upon which such action is based, nor the security filed as provided in the act shall be referred to in any way, nor be any evidence of the negligence or due care of either party, at the trial of any action at law to recover damages.

**60-529 Proof of financial responsibility; certificate of insurance; contents.**

Proof of financial responsibility may be furnished by (1) filing with the department the written certificate of any insurance carrier, duly authorized to do business in this state, or (2) electronic transmission of a certificate by an insurance carrier, duly authorized to do business in this state, certifying that there is in effect a motor vehicle liability policy for the benefit of the person required to furnish proof of financial responsibility, also known as an SR-22 certificate. Such certificate shall give the effective date of the certificate and designate, by explicit description or by appropriate reference, all motor vehicles covered thereby unless the policy is issued to a person who is not the owner of a motor vehicle. A certificate of insurance for fleet vehicles may include, as an appropriate reference, a designation that the insurance coverage is applicable to all vehicles owned by the named insured, or wording of similar effect, in lieu of an explicit description.

nance, or use of such motor vehicle or motor vehicles within the United States of America or the Dominion of Canada, subject to limits exclusive of interest and costs, with respect to each such motor vehicle as follows: Twenty-five thousand dollars because of bodily injury to or death of one person in any one accident and, subject to such limit for one person, fifty thousand dollars because of bodily injury to or death of two or more persons in any one accident, and twenty-five thousand dollars because of injury to or destruction of property of others in any one accident.

Under this section, the omnibus clause applies to only owners and operators of motor vehicles who must certify their motor vehicle liability policy pursuant to sections 60-528 to 60-531 in order to reinstate an operator's license or registration which has been suspended or revoked for failure to pay a judgment. *Universal Underwriters Ins. This section is controlling over inconsistent provision of insurance policy. *Protective Fire and Cas. Co. v. Cornelius*, 176 Neb. 75, 125 N.W.2d 179 (1963).

A third party operating a named insured's vehicle becomes an additional insured party when given express or implied permission to operate the vehicle from an initial permittee. Implied permission by a named insured depends upon what actually was said and done prior to the accident. Because the essence of the implied permission doctrine is the course of conduct and relationship between the insured and another driver, the facts that two drivers were friends and periodically borrowed each other's cars without objection justified a finding of implied permission. *State Farm Mut. Ins. Cos. v. AMCO Ins. Co.*, 9 Neb. App. 872, 621 N.W.2d 553 (2001).

### **60-602 Declaration of legislative purpose.**

The purposes and policies of the Nebraska Rules of the Road are:

- (1) To make more uniform highway traffic laws between states;
- (2) To educate drivers so that they can develop instinctive habits resulting in safer emergency reactions;

- (4) To promote economic savings by relieving congestion and confusion in traffic;
- (5) To increase the efficiency of streets and highways by the application of uniform traffic control devices;
- (6) To reduce the huge annual loss of life and property which occurs on Nebraska's highways; and
- (7) To assist traffic law enforcement by encouraging voluntary compliance with law through uniform rules.

When a highway includes two roadways thirty feet or more apart, then every crossing of each roadway of such divided highway by an intersecting highway shall be regarded as a separate intersection. **Source:** Laws 1993, LB 370, § 151.

The standard for determining whether a vehicle is "approaching" is whether or not the vehicle poses an immediate hazard; that is, whether the circumstances are such that there is a danger of collision if one vehicle does not grant precedence to the other. *Springer v. Bohling*, 259 Neb. 71, 607 N.W.2d 836 (2000).

The right-of-way does not include a right to encroach upon that half of the highway upon which cars coming from the opposite direction are entitled to travel. Generally, an unexcused vehicular encroachment on another's lane of traffic, such as driving to the left of the middle of a roadway, prevents acquisition of a right-of-way and precludes the unlawful encroachment from becoming a favored position in movement of traffic. *Krul v. Harless*, 222 Neb. 313, 383 N.W.2d 744 (1986).

A police vehicle enjoys privileges as an emergency vehicle as long as the officer operates emergency equipment in good faith belief that he or she is responding to an emergency. *Maple v. City of Omaha*, 222 Neb. 293, 384 N.W.2d 254 (1986).

Vehicle on the right has the favored position but does not have an absolute right to proceed regardless of the circumstances. *Crink v. Northern Nat. Gas. Co.*, 200 Neb. 460, 263 N.W.2d 857 (1978).

Intersection right-of-way is a qualified, not absolute, right to proceed, exercising due care, in a lawful manner in preference to an opposing vehicle. *Reese v. Mayer*, 198 Neb. 499, 253 N.W.2d 317 (1977).

(1) The operator of any vehicle involved in an accident resulting in injuries or death to any person or damage to the property of any one person, including such operator, to an apparent extent of more than one thousand dollars shall within ten days forward a report of such accident to the Department of Roads.

If the operator is physically incapable of making the report, the owner of the motor vehicle involved in the accident shall, within ten days from the time he or she learns of the accident, report the matter in writing to the Department of Roads. The Department of Roads or Department of Motor Vehicles may require operators involved in accidents to file supplemental reports of accidents upon forms furnished by it whenever the original report is insufficient in the opinion of either department. The operator or the owner of the motor vehicle shall make such other and additional reports relating to the accident as either department requires. Such records shall be retained for the period of time specified by the State Records Administrator pursuant to the Records Management Act.

(2) The report of accident required by this section shall be in two parts. Part I shall be in such form as the Department of Roads may prescribe and shall disclose full information concerning the accident. Part II shall be in such form as the Department of Motor Vehicles may prescribe and shall disclose sufficient information to disclose whether or not the financial responsibility requirements of the Motor Vehicle Safety Responsibility Act are met through the carrying of liability insurance. The form used for the report shall be so perforated that the parts may be readily separated.

(3) Upon receipt of a report of accident, the Department of Roads shall determine the reportability and classification of the accident and enter all information into a computerized data base. Upon completion, the department shall separate the parts of the accident report and shall forward Part II of the report to the Department of Motor Vehicles for processing as provided in section 60-506.01.

(4) Such reports shall be without prejudice. All reports made by peace officers, made to or filed with peace officers in their respective offices or departments, or filed with or made by or to any other law enforcement agency of the state shall be open to public inspection, but accident reports filed by the operator or owner of a motor vehicle pursuant to this section shall not be open to public inspection. The fact that a report by an operator or owner has been so made shall be admissible in evidence solely to prove compliance with this section, but no such report or any part of or statement contained in the report shall be admissible in evidence for any other purpose in any trial, civil or criminal, arising out of such accidents nor shall the report be referred to in any way or be any evidence of the negligence or due care of either party at the trial of any action at law to recover damages.

(5) The failure by any person to report an accident as provided in this section or to correctly give the information required in connection with the report shall be a Class V misdemeanor.

(e) APPLICABILITY OF TRAFFIC LAWS

**60-6,108 Required obedience to traffic laws; private property used for public road by consent of owner; provisions uniform throughout the state.**

(1) The provisions of the Nebraska Rules of the Road relating to operation of vehicles refer exclusively to operation of vehicles upon highways except where a different place is specifically referred to in a given section, but sections 60-6,196, 60-6,197, 60-6,197.04, and 60-6,212 to 60-6,218 shall apply upon highways and anywhere throughout the state except private property which is not open to public access.

(2) Nothing in the Nebraska Rules of the Road shall be construed to prevent the owner of real property used by the public for the purposes of vehicular travel, by permission of the owner and not as a matter of right, from prohibiting such use nor from requiring other, different, or additional conditions from those specified or otherwise regulating the use thereof by such owner.

(3) The Nebraska Rules of the Road shall be applicable and uniform throughout this state and in all political subdivisions and municipalities of this state, and no local authority shall enact or enforce any ordinance directly contrary to the Nebraska Rules of the Road unless expressly authorized by the Legislature.

**60-6,109 Drivers to exercise due care with pedestrian; audible signal.**

Notwithstanding the other provisions of the Nebraska Rules of the Road, every driver of a vehicle shall exercise due care to avoid colliding with any pedestrian upon any roadway and shall give an audible signal when necessary and shall exercise proper precaution upon observing any child or obviously confused or incapacitated person upon a roadway.

**Source:** Laws 1973, LB 45, § 44; R.S.1943, (1988), § 39-644; Laws 1993, LB 370, § 205.

In order for a driver to be held to the higher standard of care in this section, there must be evidence both that the person was actually confused or actually incapacitated and that such condition was objectively obvious to a reasonable driver. *State v. Welch*, 275 Neb. 517, 747 N.W.2d 613 (2008).

This section does not except the operation of section 39-643, which pertains to the duty of care required by a pedestrian who crosses the street between intersections. *Hines v. Pollock*, 229 Neb. 614, 428 N.W.2d 207 (1988) (pursuant to Laws 1993, LB 370, section 250, language from section 39-643 was placed in section 60-6,154).

This section merely sets out a higher standard of care in the situations described therein; intoxicated plaintiff was not an

“obviously confused or incapacitated person” within the meaning of the statute. *Hines v. Pollock*, 229 Neb. 614, 428 N.W.2d 207 (1988).

Defendant failed to exercise due care when he failed to see a pedestrian who was in plain sight near a crosswalk and struck her with the cement truck he was driving. This section is not unconstitutionally vague. Due care under the section means the absence of negligence. *State v. Mattan*, 207 Neb. 679, 300 N.W.2d 810 (1981).

A driver who is aware that a pedestrian standing on the curb is a 78-year-old with poor eyesight is compelled under this section to maintain a proper lookout and to exercise due care. *Dutton v. Travis*, 4 Neb. App. 875, 551 N.W.2d 759 (1996).

**60-6,110 Obedience to peace officers; violation; penalty.**

(1) Any person who knowingly fails or refuses to obey any lawful order of any peace officer who is controlling or directing traffic shall be guilty of a traffic infraction.

**60-6,114 Authorized emergency vehicles; privileges; conditions.**

(1) Subject to the conditions stated in the Nebraska Rules of the Road, the driver of an authorized emergency vehicle, when responding to an emergency call, when pursuing an actual or suspected violator of the law, or when responding to but not when returning from a fire alarm, may:

(b) Except for wreckers towing disabled vehicles and highway maintenance vehicles and equipment:

(i) Proceed past a steady red indication, a flashing red indication, or a stop sign but only after slowing down as may be necessary for safe operation; and

(ii) Exceed the maximum speed limits so long as he or she does not endanger life, limb, or property.

(3) The exemptions granted in subsection (1) of this section shall not relieve the driver from the duty to drive with due regard for the safety of all persons, nor shall such provisions protect such driver from the consequences of his or her reckless disregard for the safety of others.

(4) Authorized emergency vehicles operated by police and fire departments shall not be subject to the size and weight limitations of sections 60-6,288 to 60-6,290 and 60-6,294.

**60-6,115 Closed road; travel permitted; when.**

Notwithstanding the provisions of subsection (1) of section 60-6,119, when the Department of Roads, any local authority, or its authorized representative or permittee has closed, in whole or in part, by barricade or otherwise, during repair or construction, any portion of any highway, the restrictions upon the use of such highway shall not apply to persons living along such closed highway or to persons who would need to travel such highway during the normal course of their operations if no other route of travel is available to such person, but extreme care shall be exercised by such persons on such highway.

## (f) TRAFFIC CONTROL DEVICES

**60-6,118 Manual on Uniform Traffic Control Devices; adoption by Department of Roads.**

Consistent with the provisions of the Nebraska Rules of the Road, the Department of Roads may adopt and promulgate rules and regulations adopting and implementing a manual providing a uniform system of traffic control devices on all highways within this state which, together with any supplements adopted by the department, shall be known as the Manual on Uniform Traffic Control Devices.

**Source:** Laws 1973, LB 45, § 98; Laws 1984, LB 677, § 1; R.S.1943, (1988), § 39-698; Laws 1993, LB 370, § 214.

**60-6,119 Obedience to traffic control devices; exceptions.**

(1) The driver of any vehicle shall obey the instructions of any traffic control device applicable thereto placed in accordance with the Nebraska Rules of the Road, unless otherwise directed by a peace officer, subject to the exceptions granted the driver of an authorized emergency vehicle in the rules.

(2) No provision of the rules for which traffic control devices are required shall be enforced against an alleged violator if at the time and place of the alleged violation an official device is not in proper position and sufficiently legible to be seen by a reasonably observant person. Whenever any provision of the rules does not state that traffic control devices are required, such provision shall be effective even though no devices are erected or in place.

(3) Whenever traffic control devices are placed in position approximately conforming to the requirements of the rules, such devices shall be presumed to have been so placed by the official act or direction of lawful authority unless the contrary is established by competent evidence.

(4) Any traffic control device placed pursuant to the rules and purporting to conform with the lawful requirements pertaining to such devices shall be presumed to comply with the requirements of the rules unless the contrary is established by competent evidence.

Eggers*, 236 Neb. 775, 463 N.W.2d 824 (1990) (pursuant to Laws 1993, LB 370, section 211, language from subsection (5) of section 39-609 was placed in section 60-6,115).

A city ordinance regulating funeral processions was a reasonable and valid exercise of the city's police power under section

39-697(1)(c) (transferred to section 60-680) and does not conflict with Nebraska's present right-of-way statutes, this section and section 39-614(1)(a) (transferred to section 60-6,123). *Herman v. Lee*, 210 Neb. 563, 316 N.W.2d 56 (1982).

This section does not apply to a highway partially barricaded but not closed to traffic. *Central Constr. Co. v. Republican City School Dist. No. 1*, 206 Neb. 615, 294 N.W.2d 347 (1980).

### **60-6,120 Placing and maintaining traffic control devices; jurisdiction.**

(1) The Department of Roads shall place and maintain, or provide for such placing and maintaining, such traffic control devices, conforming to the manual, upon all state highways as it deems necessary to indicate and to carry out the Nebraska Rules of the Road or to regulate, warn, or guide traffic.

(2)(a) In incorporated cities and villages with less than forty thousand inhabitants, the department shall have exclusive jurisdiction regarding the erection and maintenance of traffic control devices on the state highway system but shall not place traffic control devices on the state highway system within incorporated cities and villages of more than twenty-five hundred inhabitants without consultation with the proper city officials.

(b) In incorporated cities of forty thousand or more inhabitants, except on state-maintained freeways of the state highway system where the department retains exclusive jurisdiction, the city shall have jurisdiction regarding erection and maintenance of traffic control devices on the state highway system after consultation with the department, except that there shall be joint jurisdiction with the department for such traffic control devices for which the department accepts responsibility for the erection and maintenance.

(3) No local authority shall place or maintain any traffic control device upon any highway under the jurisdiction of the department, except by permission of the department, or on any state-maintained freeway of the state highway system.

(4) The placing of traffic control devices by the department shall not be a departmental rule, regulation, or order subject to the statutory procedures for such rules, regulations, or orders but shall be considered as establishing precepts extending the provisions of the Nebraska Rules of the Road as necessary to regulate, warn, or guide traffic. Violation of such traffic control devices shall be punishable as provided in the rules.

### **60-6,121 Placing and maintaining traffic control devices; local authorities.**

Local authorities in their respective jurisdictions shall place and maintain such traffic control devices upon highways under their jurisdictions as they deem necessary to indicate and to carry out the provisions of the Nebraska Rules of the Road or to regulate, warn, or guide traffic. All such traffic control devices erected pursuant to the rules shall conform with the manual.

Once a city elects to install a pedestrian crosswalk signal, it is required to conform to the Manual on Uniform Traffic Control Devices in determining the pedestrian clearance interval, and

the discretionary immunity exception of section 13-910 does not apply. *Tadros v. City of Omaha*, 269 Neb. 528, 694 N.W.2d 180 (2005).

**60-6,122 Traffic control devices; when illegal to sell or lease.**

It shall be unlawful for any person to sell, lease, or offer for sale or lease any traffic control devices which are not in compliance with the manual.

**60-6,123 Traffic control signals; meaning; turns on red signal; when; signal not in service; effect.**

Whenever traffic is controlled by traffic control signals exhibiting different colored lights or colored lighted arrows, successively one at a time or in combination, only the colors green, red, and yellow shall be used, except for special pedestrian signals carrying a word legend, number, or symbol, and such lights shall indicate and apply to drivers of vehicles and pedestrians as follows:

(1)(a) Vehicular traffic facing a circular green indication may proceed straight through or turn right or left unless a sign at such place prohibits either such turn, but vehicular traffic, including vehicles turning right or left, shall yield the right-of-way to other vehicles and to pedestrians lawfully within the intersection or an adjacent crosswalk at the time such indication is exhibited;

(b) Vehicular traffic facing a green arrow indication, shown alone or in combination with another indication, may cautiously enter the intersection only to make the movement indicated by such arrow or such other movement as is permitted by other indications shown at the same time, and such vehicular traffic shall yield the right-of-way to pedestrians lawfully within an adjacent crosswalk and to other traffic lawfully using the intersection; and

(c) Unless otherwise directed by a pedestrian-control signal, pedestrians facing any green indication, except when the sole green indication is a turn arrow, may proceed across the roadway within any marked or unmarked crosswalk;

(2)(a) Vehicular traffic facing a steady yellow indication is thereby warned that the related green movement is being terminated or that a red indication will be exhibited immediately thereafter when vehicular traffic shall not enter the intersection, and upon display of a steady yellow indication, vehicular traffic shall stop before entering the nearest crosswalk at the intersection, but if such stop cannot be made in safety, a vehicle may be driven cautiously through the intersection; and

(b) Pedestrians facing a steady yellow indication, unless otherwise directed by a pedestrian-control signal, are thereby advised that there is insufficient time to cross the roadway before a red indication is shown and no pedestrian shall then start to cross the roadway;

(3)(a) Vehicular traffic facing a steady red indication alone shall stop at a clearly marked stop line or shall stop, if there is no such line, before entering the crosswalk on the near side of the intersection or, if there is no crosswalk, before entering the intersection. The traffic shall remain standing until an indication to proceed is shown except as provided in subdivisions (3)(b) and (3)(c) of this section;

(b) Except where a traffic control device is in place prohibiting a turn, vehicular traffic facing a steady red indication may cautiously enter the intersection to make a right turn after stopping as required by subdivision (3)(a) of

this section. Such vehicular traffic shall yield the right-of-way to pedestrians lawfully within an adjacent crosswalk and to other traffic lawfully using the intersection;

(c) Except where a traffic control device is in place prohibiting a turn, vehicular traffic facing a steady red indication at the intersection of two one-way streets may cautiously enter the intersection to make a left turn after stopping as required by subdivision (3)(a) of this section. Such vehicular traffic shall yield the right-of-way to pedestrians lawfully within an adjacent crosswalk and to other traffic lawfully using the intersection; and

(d) Unless otherwise directed by a pedestrian-control signal, pedestrians facing a steady red indication alone shall not enter the roadway;

(4) If a traffic control signal is erected and maintained at a place other than an intersection, the provisions of this section shall be applicable except as to those provisions which by their nature can have no application. Any stop required shall be made at a sign or marking on the pavement indicating where the stop shall be made, but in the absence of any such sign or marking, the stop shall be made at the signal; and

(5)(a) If a traffic control signal at an intersection is not operating because of a power failure or other cause and no peace officer, flagperson, or other traffic control device is providing direction for traffic at the intersection, the intersection shall be treated as a multi-way stop; and

(b) If a traffic control signal is not in service and the signal heads are turned away from traffic or covered with opaque material, subdivision (a) of this subdivision shall not apply.

In the case of a collision involving two vehicles approaching an intersection from opposite directions with a green light for both vehicles, a determination of which vehicle was "lawfully" in the intersection first, thereby possessing a superior right-of-way for purposes of this section, was a question of fact for the jury. *Nguyen v. Rezac*, 256 Neb. 458, 590 N.W.2d 375 (1999).

Speeding up to cross an intersection on a yellow light in violation of subdivision (2)(a) of this section provides sufficient cause for a police officer observing the violation to make an investigatory stop. *State v. LaMere*, 230 Neb. 629, 432 N.W.2d 822 (1988).

A pedestrian crossing at a regular crosswalk with the right-of-way has a right, until he has notice or knowledge to the contrary, to assume that others will respect his right-of-way.

Even though a statute grants the right-of-way to a pedestrian crossing a street in the crosswalk, it does not excuse contributorily negligence on his part. *Holly v. Mitchell*, 213 Neb. 203, 328 N.W.2d 750 (1982).

A city ordinance regulating funeral processions was a reasonable and valid exercise of the city's police power under section 39-697(1)(c) (transferred to section 60-680) and does not conflict with Nebraska's present right-of-way statutes, section 39-609(1) (transferred to section 60-6,119) and this section. *Herman v. Lee*, 210 Neb. 563, 316 N.W.2d 56 (1982).

Directed verdict was improperly granted to a motorist where a factual issue existed as to whether the motorist or a bicyclist was in the favored position to proceed into the intersection. *Luellman v. Ambroz*, 2 Neb. App. 855, 516 N.W.2d 627 (1993).

### 60-6,124 Pedestrian-control signals.

Whenever pedestrian-control signals exhibiting the words WALK or DONT WALK or exhibiting the symbol of a walking person or an upraised hand are in place, such signals shall indicate as follows:

(1) Pedestrians facing a steady WALK indication or a symbol of a walking person may proceed across the roadway in the direction of such signal and shall be given the right-of-way by the drivers of all vehicles; and

(2) No pedestrian shall start to cross the roadway in the direction of a DONT WALK indication or a symbol of an upraised hand, but any pedestrian who has partially completed his or her crossing on the WALK or walking person

indication shall immediately proceed to a sidewalk or safety island while the flashing DONT WALK or flashing upraised hand indication is showing.

A pedestrian crossing at a regular crosswalk with the right-of-way has a right, until he has notice or knowledge to the contrary, to assume that others will respect his right-of-way. Even though a statute grants the right-of-way to a pedestrian

crossing a street in the crosswalk, it does not excuse contributory negligence on his part. *Holly v. Mitchell*, 213 Neb. 203, 328 N.W.2d 750 (1982).

#### **60-6,125 Flashing signals; exception.**

Whenever an illuminated flashing red or yellow light is used in a traffic signal or with a traffic sign, it shall require obedience by vehicular traffic as follows:

(1) When a red lens is illuminated with rapid intermittent flashes, drivers of vehicles shall stop at a clearly marked stop line or shall stop, if there is no such line, before entering the crosswalk on the near side of the intersection or, if there is no crosswalk, at the point nearest the intersecting roadway where the driver has a view of approaching traffic on the intersecting roadway before entering the intersection. The right to proceed shall be subject to the rules applicable after making a stop at a stop sign; and

(2) When a yellow lens is illuminated with rapid intermittent flashes, drivers of vehicles may proceed through the intersection or past such light only with caution.

This section shall not apply at railroad grade crossings. Conduct of drivers of vehicles approaching railroad grade crossings shall be governed by the rules set forth in the Nebraska Rules of the Road pertaining to such railroad grade crossings.

in a favored position. *Treffer v. Seevers*, 195 Neb. 114, 237 N.W.2d 114 (1975).

#### **60-6,126 Lane direction control signals; signs.**

When lane direction control signals are placed over the individual lanes of a street or highway, vehicular traffic may travel in any lane over which a specified or appropriate green indication is shown but shall not enter or travel in any lane over which a specified or appropriate red indication is shown. When such signals are in use, signs adequate to advise motorists of the meaning of such signals shall be erected.

#### **60-6,126.01 Road name signs; authorized.**

Local authorities may place and maintain road name signs on the same sign posts as signs under the jurisdiction of the Department of Roads when highway visibility would not be impaired. Local authorities may also place and maintain road name signs in the right-of-way of any highway under the jurisdiction of the Department of Roads when highway visibility would not be impaired.

**Source:** Laws 2006, LB 853, § 17.

**60-6,127 Display of unauthorized signs, signals, or markings; public nuisance; removal.**

(1) No person shall place, maintain, or display upon or in view of any highway any unauthorized sign, signal, light, marking, or device which purports to be, is an imitation of, or resembles a lawful traffic control device or railroad sign or signal, which uses the words stop or danger prominently displayed, which implies the need or requirement of stopping or the existence of danger, which attempts to direct the movement of traffic, which otherwise copies or resembles any lawful traffic control device, or which hides from view or interferes with the effectiveness of a traffic control device or any railroad sign or signal.

(2) No person shall place or maintain nor shall any public authority permit upon any highway any traffic sign or signal which bears commercial advertising except as authorized by sections 39-204 to 39-206.

(3) This section shall not be deemed to prohibit the erection upon private property adjacent to highways of signs giving useful directional information and of a type that cannot be mistaken for official signs unless prohibited by another statute.

(4) Every such prohibited sign, signal, or marking is hereby declared to be a public nuisance, and the authority having jurisdiction over any highway where such prohibited sign, signal, or marking is found may remove it or cause it to be removed without notice.

**60-6,128 Advertising devices adjacent to highway; when prohibited; public nuisance; removal.**

No advertising devices shall be erected or operated upon any private property adjacent to or near any highway which:

(1) Have a light, the beam of which is concentrated on the highway or adversely affects the vision of operators of vehicles upon the roadway by the use of flashing red, amber, yellow, or green lights which have the very obvious appearance of devices generally used as official traffic control devices; or

(2) Have photo-flash type lights, flood lights, spotlights, or other lighted signs which use the words Stop or Danger prominently displayed, which imply the need or requirement of stopping or the existence of danger, or which otherwise copy or resemble official traffic control devices.

Nothing in this section shall be construed to apply to official traffic control devices erected by the public agencies having jurisdiction.

Any advertising device erected, maintained, or operated in violation of this section is hereby declared to be a public nuisance. It shall be the duty of the public agency having jurisdiction to notify the owner of all lights in violation of the provisions of this section, and the public agency may remove such lights if the owner fails or refuses to remove them within a reasonable time after he or she is notified of such violation.

**60-6,129 Interference with official traffic control devices or railroad signs or signals; prohibited; liability in civil action.**

(1) No person shall, without lawful authority, attempt to or in fact alter, deface, injure, knock down, or remove any traffic control device, any railroad sign or signal, or any part of such a device, sign, or signal.

(2) Any person who moves, alters, damages, or destroys warning devices placed upon roads which the Department of Roads or any local authority or its representative has closed in whole or in part for the protection of the public or for the protection of the highway from damage during construction, improvement, or maintenance operation and thereby causes injury or death to any person or damage to any property, equipment, or material thereon shall be liable, subject to sections 25-21,185 and 25-21,185.07 to 25-21,185.12, for the full or allocated amount of such death, injury, or damage, and such amount may be recovered by the injured or damaged party or his or her legal representative in a civil action brought in any court of competent jurisdiction.

**60-6,130 Signs, markers, devices, or notices; prohibited acts; penalty.**

(1) Any person who willfully or maliciously shoots upon the public highway and injures, defaces, damages, or destroys any signs, monuments, road markers, traffic control devices, traffic surveillance devices, or other public notices lawfully placed upon such highways shall be guilty of a Class III misdemeanor.

(2) No person shall willfully or maliciously injure, deface, alter, or knock down any sign, traffic control device, or traffic surveillance device.

(3) It shall be unlawful for any person, other than a duly authorized representative of the Department of Roads, a county, or a municipality, to remove any sign, traffic control device, or traffic surveillance device placed along a highway for traffic control, warning, or informational purposes by official action of the department, county, or municipality. It shall be unlawful for any person to possess a sign or device which has been removed in violation of this subsection.

(4) Any person violating subsection (2) or (3) of this section shall be guilty of a Class II misdemeanor and shall be assessed liquidated damages in the amount of the value of the sign, traffic control device, or traffic surveillance device and the cost of replacing it.

(1) Upon all roadways of sufficient width, a vehicle shall be driven upon the right half of the roadway except as follows:

(a) When overtaking and passing another vehicle proceeding in the same direction under the rules governing such movement;

(b) When an obstruction exists making it necessary to drive to the left of the center of the highway, except that any person so doing shall yield the right-of-way to all vehicles traveling in the proper direction upon the unobstructed portion of the highway within such distance as to constitute an immediate hazard;

(c) Upon a roadway divided into three marked lanes for traffic under the rules applicable thereon; or

(d) Upon a roadway restricted to one-way traffic.

(2) Upon all roadways, any vehicle proceeding at less than the normal speed of traffic at the time and place and under the conditions then existing shall be driven in the right-hand lane then available for traffic, or as close as practicable to the right-hand curb or edge of the roadway, except when overtaking and passing another vehicle proceeding in the same direction or when preparing for a left turn at an intersection or into a private road or driveway.

(3) Upon any roadway having four or more lanes for moving traffic and providing for two-way movement of traffic, no vehicle shall be driven to the left of the centerline of the roadway except when authorized by official traffic control devices designating certain lanes to the left side of the center of the roadway for use by traffic not otherwise permitted to use such lanes or except as permitted under subdivision (1)(b) of this section. This subsection shall not be construed to prohibit the crossing of the centerline in making a left turn into or from an alley, private road, or driveway unless such movement is otherwise prohibited by signs.

**60-6,135 Limitations on overtaking and passing on the left; precautions required; return to right side of highway.**

(1) No vehicle shall overtake another vehicle proceeding in the same direction on an undivided two-way roadway when such overtaking requires the overtaking vehicle to be driven on the left side of the center of the roadway unless the left side is clearly visible for a distance sufficient to accomplish such overtaking and is free from oncoming traffic for a distance sufficient to:

(a) Permit the overtaking vehicle to return to an authorized lane of traffic before coming within two hundred feet of any approaching vehicle; and

(b) Permit the overtaking vehicle to be safely clear of the overtaken vehicle while returning to the authorized lane of travel as provided in the Nebraska Rules of the Road.

(2) After completing such overtaking, the overtaking vehicle shall return to the authorized lane of travel as soon as practicable.

(3) Any such overtaking shall be subject to the rules.

(1) No driver shall overtake and pass another vehicle or drive to the left of the center of the roadway whenever:

(a) He or she approaches the crest of a grade or is upon a curve in the highway where the driver's view is obstructed within such distance as to create a hazard in the event another vehicle might approach from the opposite direction;

(b) He or she approaches within one hundred feet of or traverses any intersection or railroad grade crossing;

(c) The view is obstructed when he or she approaches within one hundred feet of any bridge, viaduct, or tunnel; or

**60-6,137 No-passing zones; exception.**

(1) The Department of Roads and local authorities may determine those portions of any highway under their respective jurisdictions where overtaking and passing or driving to the left of the center of the roadway would be especially hazardous and may by appropriate signs or markings on the roadway indicate the beginning and end of such zones. When such signs or markings are in place and clearly visible to an ordinarily observant person, every driver of a vehicle shall obey such indications.

(2) Where signs or markings are in place to define a no-passing zone, no driver shall at any time drive on the left side of the roadway within such no-passing zone or on the left side of any pavement striping designed to mark such no-passing zone throughout its length.

(2) Upon a roadway which is divided into three lanes and provides for two-way movement of traffic, a vehicle shall not be driven in the center lane except (a) when overtaking and passing another vehicle traveling in the same direction when such center lane is clear of traffic within a safe distance, (b) in preparation for making a left turn, or (c) when such center lane is at the time allocated exclusively to traffic moving in the same direction that the vehicle is proceeding and such allocation is designated by traffic control devices;

(3) Traffic control devices may be erected by the Department of Roads or local authorities to direct specified traffic to use a designated lane or to designate those lanes to be used by traffic moving in a particular direction regardless of the center of the roadway and drivers of vehicles shall obey the directions of every such device; and

(2) The driver of any motor vehicle drawing a trailer, semitrailer, or another vehicle, when traveling upon a roadway outside of a business or residential district, who is following another vehicle shall, subject to varying road condi-

A state trooper had probable cause to stop a vehicle, in which the defendant was a passenger, for following too closely, despite the trooper's statement that he had a hunch the passengers could be involved in transporting contraband. The trooper testified that he observed the vehicle following one car length

behind a semi-truck while both vehicles were traveling over 70 miles per hour in the rain; thus, the trooper's alleged ulterior motivation for the stop was irrelevant. *State v. Draganescu*, 276 Neb. 448, 755 N.W.2d 57 (2008).

**60-6,141 Driving on divided highways; driving on median prohibited; exceptions.**

(2) Notwithstanding the provisions of subsection (1) of this section, a vehicle entering a highway from an acceleration lane, a ramp, or any other approach road shall yield the right-of-way to a vehicle on the main roadway entering such merging area at the same time, regardless of whether the approach road is to the left or the right of the main roadway, unless posted signs indicate otherwise.

Under subsection (1) of this section, when a collision occurs in an ordinary city or country intersection, unless there is evidence that one of the vehicles was traveling at a very much greater rate of speed than the other, it is self-evident that the vehicles were reaching the intersection at approximately the same time. *Workman v. Stehlik*, 238 Neb. 666, 471 N.W.2d 760 (1991).

Intersection right-of-way is a qualified, not absolute, right to proceed, exercising due care, in a lawful manner in preference to an opposing vehicle. *Reese v. Mayer*, 198 Neb. 499, 253 N.W.2d 317 (1977).

**60-6,147 Vehicle turning left; yield right-of-way.**

Rezac*, 256 Neb. 458, 590 N.W.2d 375 (1999).

The degree of care required by this section was increased by the fact that the sun restricted the visibility of the left-turning driver. *Ambrosio v. Price*, 495 F.Supp. 381 (D. Neb. 1979).

After having stopped, such driver shall yield the right-of-way to any vehicle which has entered the intersection from another highway or which is approaching so closely on such highway as to constitute an immediate hazard if such driver moved across or into such intersection.

(3) The driver of a vehicle approaching a yield sign shall slow to a speed reasonable under the existing conditions and, if required for safety to stop, shall stop at a clearly marked stop line or shall stop, if there is no such line, before entering the crosswalk on the near side of the intersection or, if no crosswalk is indicated, at the point nearest the intersecting roadway where the driver has a view of approaching traffic on the intersecting roadway. Whenever practicable, the left turn shall be made in that portion of the intersection to the left of the center of the intersection.

(3) The Department of Roads and local authorities in their respective jurisdictions may cause traffic control devices to be placed within or adjacent to intersections and thereby require and direct that a different course from that specified in this section be traveled by vehicles turning at an intersection, and when such devices are so placed, no driver of a vehicle shall turn a vehicle at an intersection other than as directed and required by such devices.

(1) No person shall stop, park, or leave standing any vehicle, whether attended or unattended, upon a roadway outside of a business or residential district when it is practicable to stop, park, or leave such vehicle off such part of a highway, but in any event an unobstructed width of the roadway opposite a standing vehicle shall be left for the free passage of other vehicles and a clear view of such stopped vehicle shall be available from a distance of two hundred feet in each direction upon such highway. Such parking, stopping, or standing shall in no event exceed twenty-four hours.

(2) No person shall stop, park, or leave standing any vehicle on a freeway except in areas designated or unless so directed by a peace officer, except that when a vehicle is disabled or inoperable or the driver of the vehicle is ill or incapacitated, such vehicle shall be permitted to park, stop, or stand on the shoulder facing in the direction of travel with all wheels and projecting parts of such vehicle completely clear of the traveled lanes, but in no event shall such parking, standing, or stopping upon the shoulder of a freeway exceed twelve hours.

(3) No person, except law enforcement, fire department, emergency management, public or private ambulance, or authorized Department of Roads or local authority personnel, shall loiter or stand or park any vehicle upon any bridge, highway, or structure which is located above or below or crosses over or under the roadway of any highway or approach or exit road thereto.

(4) Whenever a vehicle is disabled or inoperable in a roadway or for any reason obstructs the regular flow of traffic for reasons other than an accident, the driver shall move or cause the vehicle to be moved as soon as practical so as to not obstruct the regular flow of traffic.

(5) This section does not apply to the driver of any vehicle which is disabled while on the roadway in such manner and to such extent that it is impossible to avoid stopping and temporarily leaving such disabled vehicle in such position until such time as it can be removed pursuant to subsection (4) of this section.

truck. *Tapp v. Blackmore Ranch, Inc.*, 254 Neb. 40, 575 N.W.2d 341 (1998).

Subsection (1) does not apply to disabled vehicles, if the driver thereof observes such requirement so far as he is able and weather permits. *Vrba v. Kelly*, 198 Neb. 723, 255 N.W.2d 269 (1977).

(2) The owner or other person lawfully entitled to the possession of any vehicle towed or stored shall be charged with the reasonable cost of towing and storage fees. Any such towing or storage fee shall be a lien upon the vehicle prior to all other claims. Any person towing or storing a vehicle shall be entitled to retain possession of such vehicle until such charges are paid. The lien provided for in this section shall not apply to the contents of any vehicle.

(3) A local authority may permit angle or center parking on any roadway, except that angle or center parking shall not be permitted on any federal-aid highway or on any part of the state highway system unless the Director-State Engineer has determined that such roadway is of sufficient width to permit angle or center parking without interfering with the free movement of traffic.

(4) The Department of Roads or a local authority may prohibit or restrict stopping, standing, or parking on highways under its respective jurisdiction outside the corporate limits of any city or village and erect and maintain proper and adequate signs thereon. No person shall stop, stand, or park any vehicle in violation of the restrictions stated on such signs.

(1) Whenever any person driving a vehicle approaches a railroad grade crossing under any of the circumstances set forth in this section, the driver of such vehicle shall stop within fifty feet but not less than fifteen feet from the nearest rail of such railroad and shall not proceed until he or she can do so safely. The requirements of this subsection shall apply when:

(a) A clearly visible electric or mechanical signal device gives warning of the immediate approach of a railroad train;

(b) A crossing gate is lowered or a flagperson gives or continues to give a signal of the approach or passage of a railroad train;

(c) A railroad train approaching within approximately one-quarter mile of the highway crossing emits a signal audible from such distance and such railroad train, by reason of its speed or nearness to such crossing, is an immediate hazard; or

(d) An approaching railroad train is plainly visible and is in hazardous proximity to such crossing.

(2) No person shall drive any vehicle through, around, or under any crossing gate or barrier at a railroad crossing while such gate or barrier is closed or is being opened or closed.

Burlington Northern R. Co.*, 234 Neb. 631, 452 N.W.2d 270 (1990).

The driver shall not proceed until he or she can do so safely. After stopping as required by this section and upon proceeding when it is safe to do so, the driver of any such vehicle shall cross only in such gear of the vehicle that there will be no necessity for changing gears while traversing such track and the driver shall not shift gears while crossing such track.

(2) No stop shall be made at any such crossing when a peace officer or a flagperson directs traffic to proceed or at an abandoned or exempted grade crossing which is clearly marked as such by or with the consent of competent authority when such markings can be read from the driver's position.

(2) Before making any such crossing, the person operating or moving any such vehicle or equipment shall first stop the same not less than fifteen feet nor more than fifty feet from the nearest rail of such railroad and while so stopped shall listen and look in both directions along such track for any approaching train and for signals indicating the approach of a train. (1) Upon meeting or overtaking, from the front or rear, any school bus on which the stop warning signal lights are flashing, the driver of a motor vehicle shall reduce the speed of such vehicle to not more than twenty-five miles per hour, shall bring such vehicle to a complete stop when the school bus stop signal arm is extended, and shall remain stopped until the stop signal arm is retracted and the school bus resumes motion or until signaled by the bus driver to proceed. This section shall not apply to approaching traffic in the opposite direction on a divided highway or to approaching traffic when there is displayed a sign as provided in subsection (7) of this section directing traffic to proceed. Any person violating this subsection shall be guilty of a Class IV misdemeanor.

(2) Except as provided in subsection (7) of this section, the driver of any school bus, when stopping to receive or discharge pupils, shall turn on flashing stop warning signal lights at a distance of not less than three hundred feet when inside the corporate limits of any city or village and not less than five hundred feet nor more than one thousand feet in any area outside the corporate limits of any city or village from the point where such pupils are to be received or discharged from the bus. At the point of receiving or discharging pupils, the bus driver shall bring the school bus to a stop and extend a stop signal arm. After receiving or discharging pupils, the bus driver shall turn off the flashing stop warning signal lights, retract the stop signal arm, and then proceed on the route. No school bus shall stop to load or unload pupils unless there is at least four hundred feet of clear vision in each direction of travel.

(3) All pupils shall be received and discharged from the right front entrance of every school bus. If such pupils must cross a roadway, the bus driver shall instruct such pupils to cross in front of the school bus and the bus driver shall keep such school bus halted with the flashing stop warning signal lights turned

on and the stop signal arm extended until such pupils have reached the opposite side of such roadway.

(4) The driver of a vehicle upon a divided highway need not stop upon meeting or passing a school bus which is on a different roadway or when upon a freeway and such school bus is stopped in a loading zone which is a part of or adjacent to such highway and where pedestrians are not permitted to cross the roadway.

(5) Every school bus shall bear upon the front and rear thereof plainly visible signs containing the words school bus in letters not less than eight inches high.

(6) When a school bus is being operated upon a highway for purposes other than the actual transportation of children either to or from school, all markings thereon indicating school bus shall be covered or concealed. The stop signal arm and system of alternately flashing stop warning signal lights shall not be operable through the usual controls.

(7) When a school bus is (a) parked in a designated school bus loading area which is out of the flow of traffic and which is adjacent to a school site or (b) parked on a roadway which possesses more than one lane of traffic flowing in the same direction and which is adjacent to a school site, the bus driver shall engage only the flashing stop warning signal lights when receiving or discharging pupils if a school bus loading area warning sign is displayed. Such signs shall not be directly attached to any school bus but shall be free standing and placed at the rear of a parked school bus or line of parked school buses. No school district shall utilize a school bus loading area warning sign unless such sign complies with the requirements of section 60-6,176.

#### **60-6,176 School bus loading area warning signs; department; duties.**

The Department of Roads shall by rule and regulation adopt and promulgate uniform standards for school bus loading area warning signs. Such standards shall include requirements for the size, material, construction, and required wording. No school district shall use a school bus loading area warning sign unless such sign complies with all rules and regulations adopted and promulgated by the department. The cost of any sign shall be an obligation of the school district.

#### **60-6,177 Signs relating to overtaking and passing school buses.**

The Department of Roads shall post on highways of the state highway system outside of business and residential districts signs to the effect that it is unlawful to pass school buses stopped to load or unload children. Such signs shall be adequate in size and number to properly inform the public of the provisions relative to such passing.

(1) No person shall operate any motor vehicle when towing a mobile home at a rate of speed in excess of fifty miles per hour.

(2)(a) A person may operate any motor-driven cycle at a speed in excess of thirty-five miles per hour upon a roadway at nighttime if such motor-driven cycle is equipped with a headlight or headlights capable of revealing a person or vehicle in such roadway at least three hundred feet ahead and with a taillight on the rear exhibiting a red light visible, under normal atmospheric conditions, from a distance of at least five hundred feet to the rear of such motor-driven cycle.

(b) A person may operate any motor-driven cycle at a speed in excess of twenty-five miles per hour, but not more than thirty-five miles per hour, upon a roadway at nighttime if such motor-driven cycle is equipped with a headlight or headlights capable of revealing a person or vehicle in such roadway at least one hundred feet ahead, but less than three hundred feet ahead, and with a taillight on the rear exhibiting a red light visible, under normal atmospheric conditions, from a distance of at least five hundred feet to the rear of such motor-driven cycle.

**60-6,188 Construction zone; signs; Director-State Engineer; authority.**

(1) The maximum speed limit through any maintenance, repair, or construction zone on the state highway system shall be thirty-five miles per hour in rural areas and twenty-five miles per hour in urban areas.

(2) Such speed limits shall take effect only after appropriate signs giving notice of the speed limit are erected or displayed in a conspicuous place in advance of the area where the maintenance, repair, or construction activity is or will be taking place. Such signs shall conform to the manual and shall be regulatory signs imposing a legal obligation and restriction on all traffic proceeding into the maintenance, construction, or repair zone. The signs may be displayed upon a fixed, variable, or movable stand. While maintenance, construction, or repair is being performed, the signs may be mounted upon moving Department of Roads vehicles displaying such signs well in advance of the maintenance zone.

(3) The Director-State Engineer may increase the speed limit through any highway maintenance, repair, or construction zone in increments of five miles per hour if the speed set does not exceed the maximum speed limits established in sections 60-6,186, 60-6,187, 60-6,189, 60-6,190, 60-6,305, and 60-6,313. The Director-State Engineer may delegate the authority to raise speed limits through any maintenance, repair, or construction zone to any department employee in a supervisory capacity or may delegate such authority to a county, municipal, or local engineer who has the duty to maintain the state highway system in such jurisdiction if the maintenance is performed on behalf of the department by contract with the local authority. Such increased speed limit through a maintenance, repair, or construction zone shall be effective when the Director-State Engineer or any officer to whom authority has been delegated gives a written order for such increase and signs posting such speed limit are erected or displayed.

(4) The Department of Roads shall post signs in maintenance, repair, or construction zones which inform motorists that the fine for exceeding the posted speed limit in such zones is doubled.

**60-6,189 Driving over bridges; maximum speed; determination by department or local authority; effect.**

(1) No person shall drive a vehicle over any public bridge, causeway, viaduct, or other elevated structure at a speed which is greater than the maximum speed which can be maintained with safety thereon when such structure is posted with signs as provided in subsection (2) of this section.

(2) The Department of Roads or a local authority may conduct an investigation of any bridge or other elevated structure constituting a part of a highway under its jurisdiction, and if it finds that such structure cannot safely withstand vehicles traveling at the speed otherwise permissible, the department or local

authority shall determine and declare the maximum speed of vehicles which such structure can safely withstand and shall cause suitable signs stating such maximum speed to be erected and maintained before each end of such structure.

(3) Upon the trial of any person charged with a violation of subsection (1) of this section, proof of such determination of the maximum speed by the department or local authority and the existence of such signs shall constitute conclusive evidence of the maximum speed which can be maintained with safety on such bridge or structure.

**60-6,190 Establishment of state speed limits; power of Department of Roads; other than state highway system; power of local authority; signs.**

(1) Whenever the Department of Roads determines, upon the basis of an engineering and traffic investigation, that any maximum speed limit is greater or less than is reasonable or safe under the conditions found to exist at any intersection, place, or part of the state highway system outside of the corporate limits of cities and villages as well as inside the corporate limits of cities and villages on freeways which are part of the state highway system, it may determine and set a reasonable and safe maximum speed limit for such intersection, place, or part of such highway which shall be the lawful speed limit when appropriate signs giving notice thereof are erected at such intersection, place, or part of the highway, except that the maximum rural and freeway limits shall not be exceeded. Such a maximum speed limit may be set to be effective at all times or at such times as are indicated upon such signs.

(2) The speed limits set by the department shall not be a departmental rule, regulation, or order subject to the statutory procedures for such rules, regulations, or orders but shall be an authorization over the signature of the Director-State Engineer and shall be maintained on permanent file at the headquarters of the department. Certified copies of such authorizations shall be available from the department at a reasonable cost for duplication. Any change to such an authorization shall be made by a new authorization which cancels the previous authorization and establishes the new limit, but the new limit shall not become effective until signs showing the new limit are erected as provided in subsection (1) of this section.

(3) On county highways which are not part of the state highway system or within the limits of any state institution or any area under control of the Game and Parks Commission or a natural resources district and which are outside of the corporate limits of cities and villages, county boards shall have the same power and duty to alter the maximum speed limits as the department if the change is based on an engineering and traffic investigation comparable to that made by the department. The limit outside of a business or residential district shall not be decreased to less than thirty-five miles per hour.

(4) On all highways within their corporate limits, except on state-maintained freeways which are part of the state highway system, incorporated cities and

villages shall have the same power and duty to alter the maximum speed limits as the department if the change is based on engineering and traffic investigation, except that no imposition of speed limits on highways which are part of the state highway system in cities and villages under forty thousand inhabitants shall be effective without the approval of the department.

(5) The director of any state institution, the Game and Parks Commission, or a natural resources district, with regard to highways which are not a part of the state highway system, which are within the limits of such institution or area under Game and Parks Commission or natural resources district control, and which are outside the limits of any incorporated city or village, shall have the same power and duty to alter the maximum speed limits as the department if the change is based on an engineering and traffic investigation comparable to that made by the department.

(6) Not more than six such speed limits shall be set per mile along a highway, except in the case of reduced limits at intersections. The difference between adjacent speed limits along a highway shall not be reduced by more than twenty miles per hour, and there shall be no limit on the difference between adjacent speed limits for increasing speed limits along a highway.

(7) When the department or a local authority determines by an investigation that certain vehicles in addition to those specified in sections 60-6,187, 60-6,305, and 60-6,313 cannot with safety travel at the speeds provided in sections 60-6,186, 60-6,187, 60-6,189, 60-6,305, and 60-6,313 or set pursuant to this section or section 60-6,188 or 60-6,189, the department or local authority may restrict the speed limit for such vehicles on highways under its respective jurisdiction and post proper and adequate signs.

**60-6,192 Speed determination; use of speed measurement devices; requirements; apprehension of driver; when.**

(1) Determinations made regarding the speed of any motor vehicle based upon the visual observation of any peace officer, while being competent evidence for all other purposes, shall be corroborated by the use of a radio microwave, mechanical, or electronic speed measurement device. The results of such radio microwave, mechanical, or electronic speed measurement device may be accepted as competent evidence of the speed of such motor vehicle in any court or legal proceeding when the speed of the vehicle is at issue. Before the state may offer in evidence the results of such radio microwave, mechanical, or electronic speed measurement device for the purpose of establishing the speed of any motor vehicle, the state shall prove the following:

(a) The radio microwave, mechanical, or electronic speed measurement device was in proper working order at the time of conducting the measurement;

(b) The radio microwave, mechanical, or electronic speed measurement device was being operated in such a manner and under such conditions so as to allow a minimum possibility of distortion or outside interference;

(c) The person operating the radio microwave, mechanical, or electronic speed measurement device and interpreting such measurement was qualified by training and experience to properly test and operate the radio microwave, mechanical, or electronic speed measurement device; and

(d) The operator conducted external tests of accuracy upon the radio microwave, mechanical, or electronic speed measurement device, within a reasonable time both prior to and subsequent to an arrest being made, and the device was found to be in proper working order.

(2) The driver of any motor vehicle measured by use of a radio microwave, mechanical, or electronic speed measurement device to be driving in excess of the applicable speed limit may be apprehended if the apprehending officer:

(a) Is in uniform and displays his or her badge of authority; and

(b)(i) Has observed the recording of the speed of the motor vehicle by the radio microwave, mechanical, or electronic speed measurement device; or

(ii) Has received a radio message from a peace officer who observed the speed recorded and the radio message (A) has been dispatched immediately after the speed of the motor vehicle was recorded and (B) gives a description of the vehicle and its recorded speed.

Before evidence of vehicular speed determined by use of a speed measurement device is admissible, the State must establish with reasonable proof that the equipment was accurate and functioning properly at the time the determination of the speed of the vehicle was made. *State v. Jacobson*, 273 Neb. 289, 728 N.W.2d 613 (2007).

To present "reasonable proof" that a primary measuring instrument that measures the speed of a vehicle was operating correctly, one must show that such device was tested against a device whose instrumental integrity or reliability had been established. *State v. Jacobson*, 273 Neb. 289, 728 N.W.2d 613 (2007).

Where evidence of speed is adduced not to establish a driver's rate of travel so as to prove a charge that he or she exceeded a particular speed limit, but, rather, as one piece of evidence tending to establish that the driver operated a vehicle in such a manner as to indicate an indifferent or wanton disregard for the safety of persons or property, the speed is not "at issue", as contemplated by this section and therefore need not be corroborated by a microwave, mechanical, or electronic speed measurement device. *State v. Hill*, 254 Neb. 460, 577 N.W.2d 259 (1998).

The speed of a vehicle is not at issue under this section when the crime charged is reckless driving and evidence is adduced to establish the defendant drove in a manner demonstrating indifferent or wanton disregard for the safety of persons or property. *State v. In order to support admission of a VASCAR speed measurement into evidence, the record must reflect compliance with the requirements for the operation and testing of the measuring device as described in subsection (1) of this section. *State v. Chambers*, 241 Neb. 66, 486 N.W.2d 481 (1992).

The accuracy of a primary measuring device must be tested against a reliable testing device. *State v. Chambers*, 241 Neb. 60, 486 N.W.2d 219 (1992).

Subsection (2) of this section should be read to require a showing of subparts (a) and (c) or a showing of subparts (b) and (c). *State v. Kincaid*, 235 Neb. 89, 453 N.W.2d 738 (1990).

A battery-operated stopwatch is not an "electronic speed measurement" device within the purview of this section. *State v. Chambers*, 233 Neb. 235, 444 N.W.2d 667 (1989).

Corroboration of testimony estimating the rate of speed by visual observation of an officer is not needed when the testimony is offered to show that the defendant was driving recklessly rather than that the defendant was speeding. *State v. Howard*, 5 Neb. App. 596, 560 N.W.2d 516 (1997).

### **60-6,193 Minimum speed regulation; impeding traffic.**

(1) No person shall drive a motor vehicle at such a slow speed as to impede the normal and reasonable movement of traffic except when reduced speed is necessary for safe operation or in compliance with law.

(2) On a freeway no motor vehicle, except emergency vehicles, shall be operated at a speed of less than forty miles per hour or at such a slow speed as

to impede or block the normal and reasonable movement of traffic except when reduced speed is necessary for the safe operation of the motor vehicle because of weather, visibility, roadway, or traffic conditions. All vehicles entering or leaving such freeway from an acceleration or deceleration lane shall conform with the minimum speed regulations while they are within the roadway of the freeway. The minimum speed of forty miles per hour may be altered by the Department of Roads or local authorities on freeways under their respective jurisdictions.

(3) Whenever the department or any local authority within its respective jurisdiction determines on the basis of an engineering and traffic investigation that low speeds on any part of a highway consistently impede the normal and reasonable movement of traffic, the department or such local authority may determine and declare a minimum speed limit below which no person shall drive a vehicle except when necessary for safe operation or in compliance with law.

(4) Vehicular, animal, and pedestrian traffic prohibited on freeways by the Nebraska Rules of the Road shall not travel on any other roadway where minimum speed limits of twenty miles per hour or more are posted.

(5) Any minimum speed limit which is imposed under subsection (2) or (3) of this section shall not be effective until appropriate and adequate signs are erected along the roadway affected by such regulation apprising motorists of such limitation.

(6) On any freeway, or other highway providing for two or more lanes of travel in one direction, vehicles shall not intentionally impede the normal flow of traffic by traveling side by side and at the same speed while in adjacent lanes. This subsection shall not be construed to prevent vehicles from traveling side by side in adjacent lanes because of congested traffic conditions.

Applicability of this section depends on the factual setting; when a motorist's view of a railroad crossing is obstructed, he has no absolute duty to stop before traveling across, but such duty to stop exists where a reasonably prudent person in the

exercise of ordinary care would have considered a stop necessary under the circumstances. *Anderson v. Union Pacific RR. Co.*, 229 Neb. 321, 426 N.W.2d 518 (1988).

**60-6,194 Charging violations of speed regulation; summons; burden of proof; elements of offense.**

(1) In every charge of violation of any speed regulation in the Nebraska Rules of the Road, the complaint and the summons or notice to appear shall specify the speed at which defendant is alleged to have driven and the maximum speed for the type of vehicle involved applicable within the district or at the location. The speed at which defendant is alleged to have driven and the maximum speed are essential elements of the offense and shall be proved by competent evidence.

(2) The provisions of the rules which set maximum speed limitations shall not be construed to relieve the plaintiff in any action from the burden of proving negligence on the part of the defendant as the proximate cause of an accident.

**Source:** Laws 1973, LB 45, § 67; R.S.1943, (1988), § 39-667; Laws 1993, LB 370, § 290; Laws 1993, LB 26, § 1.

**60-6,195 Racing on highways; violation; penalty.**

(1) No person shall drive any vehicle on any highway in any race, speed competition or contest, drag race or acceleration contest, test of physical endurance, or exhibition of speed or acceleration or for the purpose of making a speed record, and no person shall in any manner participate in any such race, competition, contest, test, or exhibition.

(2) For purposes of this section:

(a) Drag race shall mean the operation of two or more vehicles from a point side by side at accelerating speeds in a competitive attempt to outdistance each other or the operation of one or more vehicles over a common selected course, each starting at the same point and proceeding to the same point, for the purpose of comparing the relative speeds or power of acceleration of such vehicle or vehicles within a certain distance or time limit; and

(b) Racing shall mean the use of one or more vehicles in an attempt to outgain or outdistance another vehicle, to prevent another vehicle from passing, to arrive at a given destination ahead of another vehicle or vehicles, or to test the physical stamina or endurance of drivers over long-distance driving routes.

(3) Any person convicted of violating this section shall be guilty of a Class II misdemeanor.

Where a person is injured by the racing of two or more other parties on a public highway, all engaged in the race are liable, although only one of the vehicles came in contact with the injured person or the vehicle in which he was riding. Janssen v. Trennepohl, 228 Neb. 6, 421 N.W.2d 4 (1988).

#### (o) ALCOHOL AND DRUG VIOLATIONS

##### **60-6,196 Driving under influence of alcoholic liquor or drug; penalties.**

(1) It shall be unlawful for any person to operate or be in the actual physical control of any motor vehicle:

(a) While under the influence of alcoholic liquor or of any drug;

(b) When such person has a concentration of eight-hundredths of one gram or more by weight of alcohol per one hundred milliliters of his or her blood; or

(c) When such person has a concentration of eight-hundredths of one gram or more by weight of alcohol per two hundred ten liters of his or her breath.

(2) Any person who operates or is in the actual physical control of any motor vehicle while in a condition described in subsection (1) of this section shall be guilty of a crime and upon conviction punished as provided in sections 60-6,197.02 to 60-6,197.08.

#### 1. Constitutionality

Driving under the influence of alcoholic liquor or drugs is criminalized under this section, and the fact that a defendant has previously been convicted of such offense is irrelevant to the guilt or innocence of the defendant and is relevant only to the defendant's sentence. *State v. Neiss*, 260 Neb. 691, 619 N.W.2d 222 (2000).

This section is a criminal driving under the influence of alcohol statute and is not part of the statutory scheme for an administrative license revocation. *Kalisek v. Abramson*, 257 Neb. 517, 599 N.W.2d 834 (1999).

Successive, separate prosecutions under this section for driving while intoxicated and operating a motor vehicle with a suspended license do not violate the Double Jeopardy Clause of the U.S. Constitution. *State v. Grimm*, 240 Neb. 863, 484 N.W.2d 830 (1992).

This section does not violate equal protection. Proscribing a particular concentration of breath alcohol is not wholly irrelevant to achieving the purpose of prohibiting people from driving while under the influence of drugs or alcohol. The relationship between the classification and its goal is rational. *State v. Kubik*, 235 Neb. 612, 456 N.W.2d 487 (1990).

Statute is valid exercise of police power, and court in which such conviction is had, is vested with jurisdiction to enforce statutory provisions. *Smith v. State*, 124 Neb. 587, 247 N.W. 421 (1933).

#### 2. Motor vehicle homicide

When the predicate offense for motor vehicle homicide is drunk driving in violation of this section, drunk driving is a lesser-included offense in motor vehicle homicide. *State v. Hoffman*, 227 Neb. 131, 416 N.W.2d 231 (1987).

Driving an automobile while under the influence of alcoholic liquor was an unlawful act upon which conviction of motor vehicle homicide could be based. *Rimpley v. State*, 169 Neb. 171, 98 N.W.2d 868 (1959).

#### 3. Manslaughter

Death arising from violation of this section may constitute manslaughter. *Vaca v. State*, 150 Neb. 516, 34 N.W.2d 873 (1948).

Operating motor vehicle while under the influence of intoxicating liquor is an unlawful act under manslaughter statute. *Anderson v. State*, 150 Neb. 116, 33 N.W.2d 362 (1948).

Conviction of manslaughter was sustained where driver was intoxicated. *Benton v. State*, 124 Neb. 485, 247 N.W. 21 (1933).

Defendant may be tried and punished under general statute relating to manslaughter, though acts charged may be punishable under this section. *Crawford v. State*, 116 Neb. 125, 216 N.W. 294 (1927).

#### 4. Offense

A half-hour delay in videotaping a licensee suspected of drunk driving was not unreasonable, and the videotape was probative of the driver's condition regarding whether a violation of this section had occurred, such delay going to the weight and not the admissibility of the videotape. A violation of this section is but one offense, which can be proved in different ways. *State v. Dake*, 247 Neb. 579, 529 N.W.2d 46 (1995).

A violation of this section is one offense, which may be proven in different ways. A person's breath alcohol concentration may be probative of impairment under subsection (1), as well as proof of a violation of this section based solely on breath alcohol concentration pursuant to subsection (3). *State v. Kubik*, 235 Neb. 612, 456 N.W.2d 487 (1990).

An alcohol violation in this section may be proved in either one of two ways: (1) that a person operated or was in actual physical control of a motor vehicle while under the influence of alcoholic liquor; or (2) that a person while driving a motor vehicle or who was in physical control of a motor vehicle had ten-hundredths of one percent or more by weight of alcohol in his/her body fluid as shown by chemical analysis of his/her blood, breath, or urine. *State v. Babcock*, 227 Neb. 649, 419 N.W.2d 527 (1988).

The substantive offense is driving while under the influence of alcohol or with more than .10 percent of alcohol in one's body fluid. The number of times a person has previously been convicted of such a charge is not itself a crime but, rather, is a factor which the trial court is to consider in imposing sentence. *State v. Jameson*, 224 Neb. 38, 395 N.W.2d 744 (1986).

This section defines one offense which can be proved by any of three ways: (1) By proof that the defendant was in physical control of a motor vehicle while under the influence of alcoholic liquor; (2) by proof that the defendant was in physical control of a motor vehicle while under the influence of any drug; or (3) by proof that the defendant was in physical control of a motor vehicle while having ten-hundredths of one percent or more by weight of alcohol in his or her body fluid. *State v. Hilker*, 210 Neb. 810, 317 N.W.2d 82 (1982).

A violation of this section is either a misdemeanor or a felony and is not a traffic infraction within the meaning of section 39-602(106), R.R.S. 1943 (currently section 60-672). State v. Karel, 204 Neb. 573, 284 N.W.2d 12 (1979).

This section defines but one offense which may result from three conditions. State v. Jablonski, 199 Neb. 341, 258 N.W.2d 918 (1977).

This section is *pari materia* with section 39-727.03 (transferred to section 60-6,197) and other sections mentioned in opinion. Stevenson v. Sullivan, 190 Neb. 295, 207 N.W.2d 680 (1973).

Operation of motor vehicle while under the influence of intoxicating liquor is a criminal offense. State v. Berg, 177 Neb. 419, 129 N.W.2d 117 (1964).

It is unlawful to operate or be in the actual physical control of any motor vehicle while under the influence of intoxicating liquor. State v. Fox, 177 Neb. 238, 128 N.W.2d 576 (1964).

Operation of motor vehicle while under the influence of intoxicating liquor is a punishable offense. State v. Amick, 173 Neb. 770, 114 N.W.2d 893 (1962).

Only one crime is defined. Uldrich v. State, 162 Neb. 746, 77 N.W.2d 305 (1956).

Statute defines but one crime, that of operating a motor vehicle while under the influence of alcoholic liquor or drug. Haffke v. State, 149 Neb. 83, 30 N.W.2d 462 (1948).

#### 5. Testing/sufficiency of evidence

If a test for the presence of alcohol or drugs is utilized, it is one piece of evidence that the defendant's ability to operate a motor vehicle is impaired; it is not conclusive under subsection (1)(a) of this section. State v. Falcon, 260 Neb. 119, 615 N.W.2d 436 (2000).

Pursuant to subsection (1)(a) of this section, impairment can be shown by observations of witnesses, particularly police officers who are trained to make these observations. State v. Falcon, 260 Neb. 119, 615 N.W.2d 436 (2000).

Pursuant to subsection (1)(a) of this section, it is a crime to operate a motor vehicle under the influence of alcoholic liquor or drugs, or both, to a degree that the alcoholic liquor or drugs, or both, appreciably impair the driver's ability to operate the motor vehicle. State v. Falcon, 260 Neb. 119, 615 N.W.2d 436 (2000).

Pursuant to subsection (1)(a) of this section, the phrase "under the influence of alcoholic liquor or of any drug" means the ingestion of alcohol or drugs in an amount sufficient to impair to any appreciable degree the driver's ability to operate a motor vehicle in a prudent and cautious manner. State v. Falcon, 260 Neb. 119, 615 N.W.2d 436 (2000).

Pursuant to subsection (1)(a) of this section, the State is required to prove that the defendant was in actual physical control of a motor vehicle and that the defendant's ability to operate a motor vehicle was impaired by reason of the influence of alcoholic liquor or of drugs. State v. Falcon, 260 Neb. 119, 615 N.W.2d 436 (2000).

A violation of this section is one offense, but it can be proved in more than one way, i.e., excessive blood alcohol content shown through a chemical test or by evidence of physical impairment plus other well-known indicia of intoxication. State v. Blackman, 254 Neb. 941, 580 N.W.2d 546 (1998).

Where the evidence established that the defendant was found behind the wheel of a vehicle which was parked on an Interstate off ramp with the engine running and the headlights on, there was sufficient evidence for the trier of fact to establish that the defendant was operating a motor vehicle. State v. Johnson, 250 Neb. 933, 554 N.W.2d 126 (1996).

A half-hour delay in videotaping a licensee suspected of drunk driving was not unreasonable, and the videotape was probative of the driver's condition regarding whether a violation of this section had occurred, such delay going to the weight and not the admissibility of the videotape. A violation of this section is but one offense, which can be proved in different ways. State v. Dake, 247 Neb. 579, 529 N.W.2d 46 (1995).

It is not necessary for a conviction for driving under the influence of alcoholic liquor that a sample of blood, breath, or urine show a certain concentration of alcohol in a defendant's blood, breath, or urine, as those are alternate offenses under this section. Either a law enforcement officer's observations of the defendant's intoxicated behavior or the defendant's poor performance on field sobriety tests constitutes sufficient evidence to sustain a conviction of driving while under the influence of alcoholic beverages. State v. Green, 238 Neb. 328, 470 N.W.2d 736 (1991).

A test made in compliance with section 39-669.11 (transferred to section 60-6,201) is sufficient to make a *prima facie* case on the issue of blood alcohol concentration. Matters of driving and testing are properly viewed as going to the weight of the breath test results, rather than to the admissibility of the evidence. A valid breath test given within a reasonable time after the accused was stopped is probative of a violation of this section. State v. Kubik, 235 Neb. 612, 456 N.W.2d 487 (1990).

Circumstantial evidence may be used to establish physical control of a motor vehicle within the meaning of this section. State v. Miller, 226 Neb. 576, 412 N.W.2d 849 (1987).

A breath test result which is subject to a margin of error must be adjusted so as to give the defendant the benefit of that margin. However, when there is a conflict in the evidence as to what that margin of error actually is, we will affirm the decision of the trier of fact so long as there is sufficient evidence in the record, if believed, to sustain its finding of guilt. State v. Hvistendahl, 225 Neb. 315, 405 N.W.2d 273 (1987).

An alcohol-related violation of this provision may be proved by establishing that one was in actual physical control of a motor vehicle while under the influence of alcohol or that one was in actual physical control of a motor vehicle while having ten-hundredths of 1 percent by weight of alcohol in his or her body fluid. State v. Burling, 224 Neb. 725, 400 N.W.2d 872 (1987).

Evidence was sufficient to find defendant guilty of driving while under the influence in violation of this section, where he was found asleep at the wheel of an automobile parked in the roadway and appeared intoxicated when awakened. Circumstantial evidence may serve to establish the operation or actual physical control of a motor vehicle, under the provisions of this section. State v. Baker, 224 Neb. 130, 395 N.W.2d 766 (1986).

Operation or physical control of an auto may be established by circumstantial evidence. State v. Orosco, 199 Neb. 532, 260 N.W.2d 303 (1977).

Instructions given correctly set forth the elements of driving under influence and driving with ten-hundredths of one percent of alcohol in the body fluid. State v. Triple, 190 Neb. 713, 211 N.W.2d 920 (1973).

Presumption arising from body fluid test applies only to prosecutions under this section. Hoffman v. State, 160 Neb. 375, 70 N.W.2d 314 (1955).

Conviction sustained of drunken driving based in part on evidence of blood test. Schacht v. State, 154 Neb. 858, 50 N.W.2d 78 (1951).

Evidence which went before a jury of a defendant's failure to pass a chemical breath test for which he was not properly advised of the consequences was prejudicial and constituted plain error so as to require a reversal of the conviction and a remand for a new trial. State v. Hingst, 4 Neb. App. 768, 550 N.W.2d 686 (1996).

#### 6. Miscellaneous

The offense of driving under the influence in violation of this section is a lesser-included offense of driving under the influence causing serious bodily injury in violation of section 60-6,198. State v. Dragoo, 277 Neb. 858, 765 N.W.2d 666 (2009).

A sentence of probation is excessively lenient when record shows a history of alcohol-related motor vehicle offenses spanning more than 30 years, an extreme alcohol addiction, and a lack of respect for court orders. State v. Rice, 269 Neb. 717, 695 N.W.2d 418 (2005).

The Omaha Municipal Code conflicts with this section. *State v. Loyd*, 265 Neb. 232, 655 N.W.2d 703 (2003).

“Operate,” as used in this section, refers to the actual physical handling of the controls of the vehicle while under the influence of intoxicating liquor; therefore, it is unlawful for any person to actually physically handle the controls of any motor vehicle while under the influence of alcohol or while having the prohibited amount of alcohol in one’s breath. *State v. Baker*, 236 Neb. 261, 461 N.W.2d 251 (1990).

As used in this section, the phrase “under the influence of alcoholic liquor” means after the ingestion of alcohol in an amount sufficient to impair to any appreciable degree the ability to operate a motor vehicle in a prudent and cautious manner. *State v. Batts*, 233 Neb. 776, 448 N.W.2d 136 (1989).

The phrase “under the influence of alcohol” means after the ingestion of alcohol in an amount sufficient to impair to any appreciable degree the ability to operate a motor vehicle in a prudent and cautious manner. *State v. Thomte*, 226 Neb. 659, 413 N.W.2d 916 (1987).

The phrase “under the influence of alcoholic liquor,” as used in this provision, means after the ingestion of alcohol in an amount sufficient to impair to any appreciable degree the ability to operate a motor vehicle in a prudent and cautious manner. *State v. Burling*, 224 Neb. 725, 400 N.W.2d 872 (1987).

A defendant charged with driving under the influence, pursuant to this section, has only a statutory right to a jury trial, pursuant to section 24-536 (transferred to section 25-2705), for which proper demand is required. *State v. Bishop*, 224 Neb. 522, 399 N.W.2d 271 (1987).

A complaint for violation of this section need not allege that a defendant operated a motor vehicle on a public highway. *State v. Golgert*, 223 Neb. 950, 395 N.W.2d 520 (1986).

A jury need only be unanimous in its conclusion that the defendant violated the law by committing the act and need not be unanimous as to which of several consistent theories it believes resulted in the violation. *State v. Parker*, 221 Neb. 570, 379 N.W.2d 259 (1986).

Conviction upon charge of refusal to submit to a chemical test under section 39-669.08 (transferred to section 60-6,197) did not operate to bar defendant’s trial upon charge under this section. *State v. Stabler*, 209 Neb. 298, 306 N.W.2d 925 (1981).

A defendant charged under this section is entitled to a jury trial as provided under section 24-536, R.R.S. 1943 (transferred to section 25-2705). *State v. Karel*, 204 Neb. 573, 284 N.W.2d 12 (1979).

It was harmless error, if any, for court to accept defendant’s written, all inclusive “Petition to Enter Plea of Guilty” without

orally informing him he was waiving a trial by jury. *State v. Cooper*, 196 Neb. 728, 246 N.W.2d 65 (1976).

This section defines but one offense. *State v. Weidner*, 192 Neb. 161, 219 N.W.2d 742 (1974).

Under facts in this case, sentence to three years imprisonment was not excessive. *State v. Klinkacek*, 190 Neb. 293, 207 N.W.2d 524 (1973).

Word operate as used in this section relates to actual physical handling of controls of a motor vehicle. *State v. Dubany*, 184 Neb. 337, 167 N.W.2d 556 (1969).

Testimony to support conviction may come from a nonexpert witness. *State v. Lewis*, 177 Neb. 173, 128 N.W.2d 610 (1964).

Instruction given by trial court defining the term under the influence of alcoholic liquor was not erroneous. *Langford v. Ritz Taxicab Co.*, 172 Neb. 153, 109 N.W.2d 120 (1961).

As used in this section, the word operate relates to the actual physical handling of the controls of an automobile. *Waite v. State*, 169 Neb. 113, 98 N.W.2d 688 (1959).

Instruction defining the meaning of statutory terms was not erroneous. *Shanahan v. State*, 162 Neb. 676, 77 N.W.2d 234 (1956).

Jury trial for violation of this section could be waived. *Peterson v. State*, 157 Neb. 618, 61 N.W.2d 263 (1953).

Complaint was not defective because words intoxicating liquor were used instead of words alcoholic liquor. *Franz v. State*, 156 Neb. 587, 57 N.W.2d 139 (1953).

Driver’s license revoked for one year upon plea of guilty, and plea not set aside upon claim of defendant that she was not advised of her constitutional rights. *Kissinger v. State*, 147 Neb. 983, 25 N.W.2d 829 (1957).

For a prior conviction based on a plea of guilty to be used for enhancement purposes in an action under this section, the record must show that the defendant entered the guilty plea to the charge. *State v. Schulte*, 12 Neb. App. 924, 687 N.W.2d 411 (2004).

For purposes of this section, substitution of “revocation” with “suspension” has no prejudicial effect. *State v. Mulinix*, 12 Neb. App. 836, 687 N.W.2d 1 (2004).

Alcohol-related violations of this section may be proved either by establishing that one was in actual physical control of a motor vehicle while under the influence or by establishing that one was in actual physical control of a motor vehicle while having more than the prohibited amount of alcohol in his or her body. *State v. Robinson*, 10 Neb. App. 848, 639 N.W.2d 432 (2002).

### **60-6,197 Driving under influence of alcoholic liquor or drugs; implied consent to submit to chemical test; when test administered; refusal; penalty.**

(1) Any person who operates or has in his or her actual physical control a motor vehicle in this state shall be deemed to have given his or her consent to submit to a chemical test or tests of his or her blood, breath, or urine for the purpose of determining the concentration of alcohol or the presence of drugs in such blood, breath, or urine.

(2) Any peace officer who has been duly authorized to make arrests for violations of traffic laws of this state or of ordinances of any city or village may require any person arrested for any offense arising out of acts alleged to have been committed while the person was driving or was in actual physical control of a motor vehicle while under the influence of alcoholic liquor or drugs to submit to a chemical test or tests of his or her blood, breath, or urine for the purpose of determining the concentration of alcohol or the presence of drugs in such blood, breath, or urine when the officer has reasonable grounds to believe that such person was driving or was in the actual physical control of a motor

vehicle in this state while under the influence of alcoholic liquor or drugs in violation of section 60-6,196.

(3) Any person arrested as described in subsection (2) of this section may, upon the direction of a peace officer, be required to submit to a chemical test or tests of his or her blood, breath, or urine for a determination of the concentration of alcohol or the presence of drugs. If the chemical test discloses the presence of a concentration of alcohol in violation of subsection (1) of section 60-6,196, the person shall be subject to the administrative revocation procedures provided in sections 60-498.01 to 60-498.04 and upon conviction shall be punished as provided in sections 60-6,197.02 to 60-6,197.08. Any person who refuses to submit to such test or tests required pursuant to this section shall be subject to the administrative revocation procedures provided in sections 60-498.01 to 60-498.04 and shall be guilty of a crime and upon conviction punished as provided in sections 60-6,197.02 to 60-6,197.08.

(4) Any person involved in a motor vehicle accident in this state may be required to submit to a chemical test of his or her blood, breath, or urine by any peace officer if the officer has reasonable grounds to believe that the person was driving or was in actual physical control of a motor vehicle on a public highway in this state while under the influence of alcoholic liquor or drugs at the time of the accident. A person involved in a motor vehicle accident subject to the implied consent law of this state shall not be deemed to have withdrawn consent to submit to a chemical test of his or her blood, breath, or urine by reason of leaving this state. If the person refuses a test under this section and leaves the state for any reason following an accident, he or she shall remain subject to subsection (3) of this section and section 60-498.02 upon return.

(5) Any person who is required to submit to a chemical blood, breath, or urine test or tests pursuant to this section shall be advised that refusal to submit to such test or tests is a separate crime for which the person may be charged.

(6) Refusal to submit to a chemical blood, breath, or urine test or tests pursuant to this section shall be admissible evidence in any action for a violation of section 60-6,196 or a city or village ordinance enacted in conformance with such section.

### 1. Constitutional

Implied Consent Law as amended in 1971 does not involve compulsion within Fifth Amendment; is constitutional; and penalties are as provided in section 39-727 (transferred to section 60-6,196). *State v. Manley*, 189 Neb. 415, 202 N.W.2d 831 (1972).

Implied Consent Law held constitutional. *State v. Williams*, 189 Neb. 127, 201 N.W.2d 241 (1972).

### 2. Effective

The preliminary test referred to in section 60-6,197.04 (formerly subsection (3) of section 60-6,197) is a different procedure and not a chemical test that will satisfy requirements for a conviction under subsection (3) (formerly subsection (4) of this section). *State v. Howard*, 253 Neb. 523, 571 N.W.2d 308 (1997).

Offering of a preliminary breath test under section 39-669.08 (3) (transferred to section 60-6,197) herein, is not a condition precedent to an arrest under this section. *State v. Orosco*, 199 Neb. 532, 260 N.W.2d 303 (1977).

For implied consent to be effective, person from whom blood sample is taken must have been arrested or taken into custody before test is given. *State v. Baker*, 184 Neb. 724, 171 N.W.2d 798 (1969).

For implied consent to be effective, person must have been arrested or taken into custody before the test may be demanded. *Prigge v. Johns*, 184 Neb. 103, 165 N.W.2d 559 (1969).

For implied consent to be effective, person from whom blood sample is taken must have been arrested or taken into custody before test is given. *Otte v. State*, 172 Neb. 110, 108 N.W.2d 737 (1961).

### 3. Test

The sworn report of the arresting officer must indicate (1) that the person was arrested as described in subsection (2) of this section and the reasons for the arrest, (2) that the person was requested to submit to the required test, and (3) that the person refused to submit to the required test. *Nothnagel v. Neth*, 276 Neb. 95, 752 N.W.2d 149 (2008).

Any person arrested for suspicion of driving under the influence of alcohol may be directed by an officer to submit to a chemical test to determine the concentration of alcohol in that person's body. *Snyder v. Department of Motor Vehicles*, 274 Neb. 168, 736 N.W.2d 731 (2007).

An arrested motorist refuses to submit to a chemical test when the motorist's conduct, demonstrated under the circumstances confronting the officer requesting the chemical test, justifies a reasonable person's belief that the motorist understood the officer's request for a test and manifested a refusal or unwillingness to submit to the requested test. *Betterman v. Department of Motor Vehicles*, 273 Neb. 178, 728 N.W.2d 570 (2007).

A refusal to submit to a chemical test occurs within the meaning of subsection (4) of this section when the licensee, after being asked to submit to a test, so conducts himself as to justify a reasonable person in the requesting officer's position in believing that the licensee understood that he was being asked to submit to a test and manifested an unwillingness to take it. *State v. Beerbohm*, 229 Neb. 439, 427 N.W.2d 75 (1988).

The choice of whether one's blood or urine shall be tested for determination of alcohol content belongs to the licensee; a licensee who, upon the request of a law enforcement officer to do so, refuses to specify which fluid he or she will produce for such testing has refused to submit to a chemical test in violation of subsection (4) of this section. *State v. Beerbohm*, 229 Neb. 439, 427 N.W.2d 75 (1988).

It is established that as a condition precedent to a valid request by an officer to submit to a chemical test under the implied consent law, the arresting officer must have "reasonable

grounds" to believe that the licensee was either driving a motor vehicle or in actual physical control of same while under the influence of intoxicating liquor. *Larson v. Jensen*, 228 Neb. 799, 424 N.W.2d 352 (1988).

A person is not exempted from the provisions of the refusal statute merely because he was too intoxicated to take the test. *State v. Medina*, 227 Neb. 736, 419 N.W.2d 864 (1988).

Anything less than an unqualified, unequivocal assent to an officer's request to submit to a chemical test constitutes a refusal. *State v. Medina*, 227 Neb. 736, 419 N.W.2d 864 (1988); *Clontz v. Jensen*, 227 Neb. 191, 416 N.W.2d 577 (1987).

Deputy had reasonable grounds to request that defendant submit to a chemical test of his blood, breath, or urine where the defendant was observed under circumstances from which the trier of fact could find beyond a reasonable doubt that the defendant had driven while under the influence of alcoholic liquor, in violation of section 39-669.07 (transferred to section 60-6,196). *State v. Baker*, 224 Neb. 130, 395 N.W.2d 766 (1986).

A refusal to submit to a chemical test occurs within the meaning of the implied consent law when the licensee, after being asked to submit to a test, so conducts himself as to justify a reasonable person in the requesting officer's position in believing that the licensee understood he was being asked to submit to a test and manifested an unwillingness to take it. *Pollard v. Jensen*, 222 Neb. 521, 384 N.W.2d 640 (1986).

Where no issue as to the propriety of an arrest is raised and the evidence of the preliminary breath test is relevant only for the limited purpose of establishing probable cause to require a driver to submit to a test of his blood, urine, or breath, the admissibility of the preliminary breath test is a matter of law and should therefore be admitted into evidence out of the presence of the jury. *State v. Klingelhofer*, 222 Neb. 219, 382 N.W.2d 366 (1986).

Reasonable grounds for arrest and arrest are conditions precedent to a valid request to submit to a chemical test. *Fulmer v. Jensen*, 221 Neb. 582, 379 N.W.2d 736 (1986).

A condition precedent to a valid request by an officer to submit to a chemical test is that the officer must have reasonable grounds to believe that the licensee was either driving a motor vehicle or in the actual physical control of same while under the influence of alcoholic liquor. *Emmons v. Jensen*, 221 Neb. 444, 378 N.W.2d 147 (1985).

A delay in chemical testing is nonprejudicial unless it materially affects the results of the test. *Jamros v. Jensen*, 221 Neb. 426, 377 N.W.2d 119 (1985).

Justifiable refusal to take a body fluids test depends on some illegal or unreasonable aspect of the request to submit, the test itself, or both. A conditional refusal is a refusal under Nebraska's implied consent law. A motor vehicle driver is not entitled to consult a lawyer before submitting to a body fluids test because the suspension of a driver's license which results from refusal is a remedial, not strictly punitive, measure. *Bapat v. Jensen*, 220 Neb. 763, 371 N.W.2d 742 (1985).

Under the Nebraska Implied Consent Law, an officer may provide more than one opportunity to acquire a sufficient breath sample, even though only one chance is necessary. *Raymond v. Department of Motor Vehicles*, 219 Neb. 821, 366 N.W.2d 758 (1985).

Only tests taken pursuant to class A or B permits are such a chemical test as to comport with the requirement of subsection (1) of this section and a chemical analysis as to comport with section 39-669.07 (transferred to section 60-6,196). The preliminary test referred to in subsection (3) of this section is a different procedure and not such a chemical test or chemical analysis as to satisfy requirements for a conviction under section 39-669.07 (transferred to section 60-6,196). *State v. Green*, 217 Neb. 70, 348 N.W.2d 429 (1984).

An operator has refused to submit to a test when he conducts himself in a way which would justify a reasonable person in

believing that he understood he had been asked to take the test and manifested an unwillingness to take it. *Bauer v. Peterson*, 212 Neb. 174, 322 N.W.2d 389 (1982).

The results of a test made under the provisions of section 39-669.08 (transferred to section 60-6,197) may be received in evidence only if the requirements of section 39-669.11 (transferred to section 60-6,201) are met. In order to show that the requirements have been met it is necessary to show that the method of performing the test was approved by the Nebraska Department of Health and that the person administering the test was qualified and had a valid license from the Department of Health. *State v. Gerber*, 206 Neb. 75, 291 N.W.2d 403 (1980).

The revocation of a motorist's license to operate a motor vehicle for his refusal to take test under this section on the ground that he has been denied the services of legal counsel is not a deprivation of a constitutional right. *Rusho v. Johns*, 186 Neb. 131, 181 N.W.2d 448 (1970).

Test under this section is not required to be delayed at request of arrested motorist until he be permitted to contact legal counsel. *State v. Oleson*, 180 Neb. 546, 143 N.W.2d 917 (1966). "Chemical test or tests" may refer to a test conducted with chemicals. However, the term also encompasses a test that determines the chemical composition of a person's blood, breath, or urine. *State v. Crabtree*, 3 Neb. App. 363, 526 N.W.2d 688 (1995).

Subsection (2) of this section, previously codified at subsection (2) of section 39-669.08, does not require and section 60-6,204, previously codified at section 39-669.14, was interpreted as not requiring a valid preliminary breath test as a prerequisite to chemical testing of a person arrested for driving under the influence. In this section, "chemical test," as previously codified at section 39-669.08, was interpreted to be a test to determine the body fluid levels of a certain chemical, as well as a test utilizing chemicals. *State v. Cash*, 3 Neb. App. 319, 526 N.W.2d 447 (1995).

#### 4. Implied consent

Any person who operates a motor vehicle in Nebraska is deemed to have given consent to submit to chemical tests for the purpose of determining the concentration of alcohol in the blood, breath, or urine. *Snyder v. Department of Motor Vehicles*, 274 Neb. 168, 736 N.W.2d 731 (2007).

The giving of a sample under this section does not involve a question of involuntariness, want of due process, or self incrimination. *State v. Turner*, 263 Neb. 896, 644 N.W.2d 147 (2002).

Under subsection (5) (formerly subsection (10) of this section), a person arrested for driving under the influence must be advised that refusal to submit to a chemical test is a separate crime for which the person may be charged, but he or she need not be advised of any additional consequences of a refusal to submit to a chemical test. *State v. Turner*, 263 Neb. 896, 644 N.W.2d 147 (2002).

Pursuant to subsection (5) (formerly subsection (10) of this section), substantial compliance with the statute will suffice under certain circumstances. *State v. Roucka*, 253 Neb. 885, 573 N.W.2d 417 (1998).

Pursuant to subsection (10) of this section (60-6,197 (Reissue 1993)), a driver-arrestee who is required to submit to a chemical blood, breath, or urine test under this section should be advised of the natural and direct legal consequence of submitting to a chemical test. Such consequences include that any incriminating results from such a test may be used against the person in a criminal proceeding. *State v. Christner*, 251 Neb. 549, 557 N.W.2d 707 (1997).

A sensible reading of subsection (10) of this section (60-6,197 (Reissue 1993)) indicates that the Legislature intended drivers to be advised of the natural and direct legal consequences flowing from submitting to a chemical blood, breath, or urine test and failing it. *State v. Emrich*, 251 Neb. 540, 557 N.W.2d 674 (1997).

Advisory form under subsection (10) of this section (60-6,197 (Reissue 1993)) must fully advise a motorist of the consequences of both refusing to submit to a chemical breath test and of

submitting to and failing such test, and the failure of the advisory form to do so is plain error. *Perrine v. State*, 249 Neb. 518, 544 N.W.2d 364 (1996).

Pursuant to subsection (10) of this section (60-6,197 (Reissue 1993)), advisory form signed by motorist which failed to mention consequences fails to meet the advisory requirements set forth in this section. *Biddlecome v. Conrad*, 249 Neb. 282, 543 N.W.2d 170 (1996).

Subsection (10) of this section (60-6,197 (Reissue 1993)) requires an arresting officer to advise the arrestee of the natural and direct legal consequences of refusing to submit to the chemical test or taking the test and failing it. *Smith v. State*, 248 Neb. 360, 535 N.W.2d 694 (1995).

One cannot evade the effect of this section simply by repeatedly screaming, while the implied consent form is read to him or her, that he or she does not understand. For purposes of enhancement, a knowing and intelligent waiver of counsel may not be inferred from a defendant's pro se appearance at trial in a prior conviction. At a minimum, a sufficiently complete check-list or other docket entry may be used to establish a valid waiver of counsel as to prior convictions for enhancement purposes. *State v. Green*, 238 Neb. 328, 470 N.W.2d 736 (1991).

Under subsections (3) and (4) of this section, evidence obtained from a driver by testing body fluids in the implied consent context is not testimonial or communicative in nature and does not fall within the constitutional right against self-incrimination. *State v. Green*, 229 Neb. 493, 427 N.W.2d 304 (1988).

Without an implied consent advisement a motorist cannot be cited for a refusal. *Jamros v. Jensen*, 221 Neb. 426, 377 N.W.2d 119 (1985).

In the absence of a valid authorizing statute, the results of a test of blood for alcoholic content are inadmissible where the blood sample is taken involuntarily and requirements of the Fourth Amendment to the United States Constitution have not been satisfied. *State v. Howard*, 193 Neb. 45, 225 N.W.2d 391 (1975).

Implied Consent Law as amended in 1971 does not involve compulsion within Fifth Amendment; is constitutional; and penalties are as provided in section 39-727, 1971 Supp. *State v. Manley*, 189 Neb. 415, 202 N.W.2d 831 (1972).

This section, by its terms, applies to situations where there is no actual consent. *State v. Seager*, 178 Neb. 51, 131 N.W.2d 676 (1964).

This section sets forth the implied consent rule. *State v. Fox*, 177 Neb. 238, 128 N.W.2d 576 (1964).

Any person who operates a motor vehicle upon a public highway thereby gives consent to chemical test of blood or urine. *Prucha v. Department of Motor Vehicles*, 172 Neb. 415, 110 N.W.2d 75 (1961).

Drawing of blood sample by physician who had been directed to act as coroner's physician from body of fatally injured passenger in automobile did not violate prohibition against unreasonable searches and seizures, and result of tests performed by competent chemist using accepted procedures and facilities were admissible. *Gardner v. Meyers*, 491 F.2d 1184 (8th Cir. 1974).

#### 5. Miscellaneous

A sentencing court, as part of its judgment of conviction under the implied consent law, in addition to ordering the convicted person not to drive any vehicle in the state for any purpose for 6 months, shall order that the operator's license of such person be revoked for a like period. The proscription that there can be no revocation of one's driver's license and operating privileges if the refusal to submit to a chemical test is reasonable under the circumstances contained in section 39-669.16 (transferred to section 60-498.02), relates only to administrative license revocations by the Director of Motor Vehicles. In a criminal proceeding, however, the inquiry centers on the existence of reasonable grounds for the arresting officer to believe that an operator was driving while under the influ-

ence of alcohol. *State v. Boyd*, 242 Neb. 144, 493 N.W.2d 344 (1992).

An officer can require a driver to submit to a preliminary breath test without proof of intoxication if the officer has reasonable grounds to believe that such person has committed a moving traffic violation and/or has been involved in a traffic accident. *State v. Lowrey*, 239 Neb. 343, 476 N.W.2d 540 (1991).

Subsection (4)(a) of this section and section 39-669.07(b) (transferred to section 60-6,196) require that the relevant periods of revocation of one's operator's license not run concurrently with any jail term imposed. Revocation of one's operator's license for a period of 180 days does not fulfill the requirement of subsection (4)(a) of this section that revocation be for a period of 6 months. *State v. Contreras*, 236 Neb. 455, 461 N.W.2d 562 (1990).

Where the elements of a crime defined by statute are set out in an information or complaint, it is sufficient; and if words appear in such information or complaint which might be stricken, leaving a crime sufficiently charged, and such words do not tend to negative any of the essential averments, they may be treated as surplusage and be entirely rejected. *State v. Blankenfeld*, 229 Neb. 411, 427 N.W.2d 65 (1988).

Officer had reasonable grounds to believe defendant was under influence of alcohol when operating or in control of vehicle. *Porter v. Jensen*, 223 Neb. 438, 390 N.W.2d 511 (1986).

It is no defense that a licensee asked to submit to a chemical test under the implied consent law does not understand the consequences of refusal or is not able to make a reasoned judgment as to what course of action to take. *Pollard v. Jensen*, 222 Neb. 521, 384 N.W.2d 640 (1986).

A driver is not entitled to consult with an attorney before submitting to a chemical test under the implied consent law, nor is a delay in the test required due to a driver's request to consult with an attorney. *Fulmer v. Jensen*, 221 Neb. 582, 379 N.W.2d 736 (1986).

There is no requirement that Miranda warnings be given prior to a request to submit to a chemical analysis of blood, breath, or urine under the Nebraska implied consent law. *Fulmer v. Jensen*, 221 Neb. 582, 379 N.W.2d 736 (1986).

The trial court must advise a defendant charged with refusal to submit to a chemical test of the penalties for first, second, or third offense. However, when the defendant was charged with, advised of the penalty for, and convicted of first offense refusal, the failure to advise him of the penalties for repeat offenses was not error. *State v. Tichota*, 218 Neb. 444, 356 N.W.2d 85 (1984).

Conviction under this section did not operate to bar trial upon charge under section 39-669.07 (transferred to section 60-6,196), driving while intoxicated. *State v. Stabler*, 209 Neb. 298, 306 N.W.2d 925 (1981).

Accused waives his right to choose the type of test by voluntarily taking either the blood or urine test. *State v. Wahrman*, 199 Neb. 337, 258 N.W.2d 818 (1977).

Single request for chemical test is sufficient, but more than one request may be permissible, and request need not be made at scene of arrest. *Stender v. Sullivan*, 196 Neb. 810, 246 N.W.2d 643 (1976).

On appeal to district court from order of Director of Motor Vehicles under section 39-669.16 (transferred to section 60-498.02) revoking operator's license, the burden is on licensee to establish ground for reversal. *Mackey v. Director of Motor Vehicles*, 194 Neb. 707, 235 N.W.2d 394 (1975).

Procedural due process in connection with hearing as to reasonableness of refusal to submit to test was not violated by fact the notice thereof specified the director's office as the place of hearing but the hearing was held in a different room in the same building and party was advised of the change when he appeared in the director's office. *Atkins v. Department of Motor Vehicles*, 192 Neb. 791, 224 N.W.2d 535 (1974).

Emotional upset due to pending divorce was not good reason for actions indicating intoxication and for refusal to submit to chemical test of body fluids. *Duffack v. Kissack*, 192 Neb. 634, 223 N.W.2d 484 (1974).

It was not necessary to again advise a person of the consequences of refusing to submit to a test after he had been admonished and refused to submit. *State v. Twiss*, 192 Neb. 402, 222 N.W.2d 108 (1974).

Refusal of request to contact attorney affords no reasonable ground for refusing to take alcoholic test. *Stevenson v. Sullivan*, 190 Neb. 295, 207 N.W.2d 680 (1973).

Refusal to submit to test may be shown in prosecution for driving while under influence of intoxicating liquor. *State v. Meints*, 189 Neb. 264, 202 N.W.2d 202 (1972).

A qualified or conditional consent is not sanctioned nor is a dissent on ground party has taken medicine and doesn't know what effect it will have. *Doran v. Johns*, 186 Neb. 321, 182 N.W.2d 900 (1971).

Officer had reason to arrest person who was driving under influence of intoxicating liquor. *Metschke v. Department of Motor Vehicles*, 186 Neb. 197, 181 N.W.2d 843 (1970).

A conditional or qualified refusal to take the test is a refusal to submit to the test within the meaning of the act. *State v. Eckert*, 186 Neb. 134, 181 N.W.2d 264 (1970).

Section does not sanction qualified or conditional consent; such a consent is in fact a refusal. *Preston v. Johns*, 186 Neb. 14, 180 N.W.2d 135 (1970).

Plea of guilty under this section does not establish reasonableness of a refusal to submit to a chemical test under Implied Consent Act. *Ziembra v. Johns*, 183 Neb. 644, 163 N.W.2d 780 (1968).

Conviction of driving while under the influence of intoxicating liquor sustained. *State v. Oleson*, 180 Neb. 546, 143 N.W.2d 917 (1966).

Sentence imposed was within the limits prescribed by this section. *State v. Koziol*, 177 Neb. 648, 130 N.W.2d 557 (1964).

**60-6,197.01 Driving while license has been revoked; driving under influence of alcoholic liquor or drug; second and subsequent violations; restrictions on motor vehicles; additional restrictions authorized.**

(1) Upon conviction for a violation described in section 60-6,197.06 or a second or subsequent violation of section 60-6,196 or 60-6,197, the court shall impose either of the following restrictions:

(a)(i) The court shall order all motor vehicles owned by the person so convicted immobilized at the owner's expense for a period of time not less than five days and not more than eight months and shall notify the Department of Motor Vehicles of the period of immobilization. Any immobilized motor vehicle shall be released to the holder of a bona fide lien on the motor vehicle executed

prior to such immobilization when possession of the motor vehicle is requested as provided by law by such lienholder for purposes of foreclosing and satisfying such lien. If a person tows and stores a motor vehicle pursuant to this subdivision at the direction of a peace officer or the court and has a lien upon such motor vehicle while it is in his or her possession for reasonable towing and storage charges, the person towing the vehicle has the right to retain such motor vehicle until such lien is paid. For purposes of this subdivision, immobilized or immobilization means revocation or suspension, at the discretion of the court, of the registration of such motor vehicle or motor vehicles, including the license plates; and

(ii)(A) Any immobilized motor vehicle shall be released by the court without any legal or physical restraints to any registered owner who is not the registered owner convicted of a second or subsequent violation of section 60-6,196 or 60-6,197 if an affidavit is submitted to the court by such registered owner stating that the affiant is employed, that the motor vehicle subject to immobilization is necessary to continue that employment, that such employment is necessary for the well-being of the affiant's dependent children or parents, that the affiant will not authorize the use of the motor vehicle by any person known by the affiant to have been convicted of a second or subsequent violation of section 60-6,196 or 60-6,197, that affiant will immediately report to a local law enforcement agency any unauthorized use of the motor vehicle by any person known by the affiant to have been convicted of a second or subsequent conviction of section 60-6,196 or 60-6,197, and that failure to release the motor vehicle would cause undue hardship to the affiant.

(B) A registered owner who executes an affidavit pursuant to subdivision (1)(a)(ii)(A) of this section which is acted upon by the court and who fails to immediately report an unauthorized use of the motor vehicle which is the subject of the affidavit is guilty of a Class IV misdemeanor and may not file any additional affidavits pursuant to subdivision (1)(a)(ii)(A) of this section.

(C) The department shall adopt and promulgate rules and regulations to implement the provisions of subdivision (1)(a) of this section; or

(b) As an alternative to subdivision (1)(a) of this section, the court shall order the convicted person, in order to operate a motor vehicle, to obtain an ignition interlock permit and install an ignition interlock device on each motor vehicle owned or operated by the convicted person if he or she was sentenced to an operator's license revocation of at least one year. If the person's operator's license has been revoked for at least a one-year period, after a minimum of a forty-five-day no driving period, the person may operate a motor vehicle with an ignition interlock permit and an ignition interlock device pursuant to this subdivision and shall retain the ignition interlock permit and ignition interlock device for not less than the remainder of a one-year period or period of revocation ordered by the court, whichever is longer. No ignition interlock permit may be issued until sufficient evidence is presented to the department that an ignition interlock device is installed on each vehicle and that the applicant is eligible for use of an ignition interlock device.

(2) In addition to the restrictions required by subdivision (1)(b) of this section, the court may require a person convicted of a second or subsequent violation of section 60-6,196 or 60-6,197 to use a continuous alcohol monitoring device and abstain from alcohol use for a period of time not to exceed the maximum term of license revocation ordered by the court. A continuous

alcohol monitoring device shall not be ordered for a person convicted of a second or subsequent violation unless the installation of an ignition interlock device is also required.

**60-6,197.02 Driving under influence of alcoholic liquor or drugs; implied consent to submit to chemical test; terms, defined; prior convictions; use; sentencing provisions; when applicable.**

(1) A violation of section 60-6,196 or 60-6,197 shall be punished as provided in section 60-6,197.03. For purposes of sentencing under section 60-6,197.03:

(a) Prior conviction means a conviction for a violation committed within the twelve-year period prior to the offense for which the sentence is being imposed as follows:

(i) For a violation of section 60-6,196:

(A) Any conviction for a violation of section 60-6,196;

(B) Any conviction for a violation of a city or village ordinance enacted in conformance with section 60-6,196;

(C) Any conviction under a law of another state if, at the time of the conviction under the law of such other state, the offense for which the person was convicted would have been a violation of section 60-6,196; or

(D) Any conviction for a violation of section 60-6,198; or

(ii) For a violation of section 60-6,197:

(A) Any conviction for a violation of section 60-6,197;

(B) Any conviction for a violation of a city or village ordinance enacted in conformance with section 60-6,197; or

(C) Any conviction under a law of another state if, at the time of the conviction under the law of such other state, the offense for which the person was convicted would have been a violation of section 60-6,197;

(b) Prior conviction includes any conviction under section 60-6,196, 60-6,197, or 60-6,198, or any city or village ordinance enacted in conformance with any of such sections, as such sections or city or village ordinances existed at the time of such conviction regardless of subsequent amendments to any of such sections or city or village ordinances; and

(c) Twelve-year period means the period computed from the date of the prior offense to the date of the offense which resulted in the conviction for which the sentence is being imposed.

(2) In any case charging a violation of section 60-6,196 or 60-6,197, the prosecutor or investigating agency shall use due diligence to obtain the person's driving record from the Department of Motor Vehicles and the person's driving record from other states where he or she is known to have resided within the last twelve years. The prosecutor shall certify to the court, prior to sentencing, that such action has been taken. The prosecutor shall present as evidence for purposes of sentence enhancement a court-certified copy or an authenticated copy of a prior conviction in another state. The court-certified or authenticated copy shall be prima facie evidence of such prior conviction.

(3) For each conviction for a violation of section 60-6,196 or 60-6,197, the court shall, as part of the judgment of conviction, make a finding on the record as to the number of the convicted person's prior convictions. The convicted person shall be given the opportunity to review the record of his or her prior convictions, bring mitigating facts to the attention of the court prior to sentencing, and make objections on the record regarding the validity of such prior convictions.

(4) A person arrested for a violation of section 60-6,196 or 60-6,197 before May 14, 2009, but sentenced pursuant to section 60-6,197.03 for such violation on or after May 14, 2009, shall be sentenced according to the provisions of section 60-6,197.03 in effect on the date of arrest.

- 1. Enhancement
- 2. Offense
- 3. Sufficiency of the evidence
- 4. Miscellaneous

**1. Enhancement**

This section (formerly subsection (2) of section 60-6,196) authorizes a trial court to consider prior convictions of a defendant for driving under the influence of alcoholic liquor or drug within the 12 years prior to the offense for which a defendant currently stands trial and is not ex post facto as to a conviction prior to its passage, since an offender subject to enhancement of punishment under this statute is not receiving additional punishment for his or her previous convictions but is being penalized for an offense committed after its passage. This section deals with offenses committed after its passage, permits an inquiry into a defendant's previous convictions, and in fixing the penalty, does not punish the defendant for previous offenses but for persistence in violating this section. *State v. Hansen*, 258 Neb. 752, 605 N.W.2d 461 (2000).

The language of this section permits a defendant to challenge the validity of a prior driving under the influence conviction offered for purposes of enhancement on the ground that it was obtained in violation of the defendant's Sixth Amendment right to counsel. *State v. Louthan*, 257 Neb. 174, 595 N.W.2d 917 (1999).

Legislative amendments to the length of the cleansing period provided by this section will not implicate vested due process rights of individuals with prior convictions used for enhancement. *State v. Grant*, 9 Neb. App. 919, 623 N.W.2d 337 (2001).

Prior driving under the influence convictions are not necessary elements of a subsequent driving under the influence charge, but, rather, are used to determine the sentence to be imposed for a later driving under the influence conviction. Thus, the district court did not violate the Double Jeopardy Clause when it remanded a conviction for second-offense driving under the influence to the county court with directions to enter a judgment finding the defendant guilty of third-offense driving

under the influence and to sentence her accordingly. *State v. Werner*, 8 Neb. App. 684, 600 N.W.2d 500 (1999).

**2. Offense**

In a prosecution under this section (formerly subsection (6) of section 60-6,196) for driving when one's operator's license has been revoked pursuant to subdivision (2)(c) of this section, proof of the prior conviction under subdivision (2)(c) is an essential element of the offense, and thus, the State has the burden to prove the prior conviction. A prior third-offense drunk driving conviction may be used as an element of a violation under this section (formerly subsection (6) of section 60-6,196) even though the prior conviction is not subject to a collateral attack. *State v. Lee*, 251 Neb. 661, 558 N.W.2d 571 (1997).

This section is a continuance and affirmation of the previous section 39-669.07. Convictions under section 39-669.07 can be used for the purpose of sentence enhancements under this section. *State v. Sundling*, 248 Neb. 732, 538 N.W.2d 749 (1995).

**3. Sufficiency of the evidence**

Subsection (c) of this section (formerly section 39-669.07 (Reissue 1988)) limits the proof which can be used to establish the defendant's prior driving while under the influence convictions. *State v. Jenson*, 236 Neb. 869, 464 N.W.2d 326 (1991).

**4. Miscellaneous**

The time limitations for the use of prior driving under the influence convictions set forth in this section do not apply to the use of prior driving under the influence convictions to section 28-306. *State v. Tlamka*, 7 Neb. App. 579, 585 N.W.2d 101 (1998).

**60-6,197.03 Driving under influence of alcoholic liquor or drugs; implied consent to submit to chemical test; penalties.**

(1) Except as provided in subdivision (2) of this section, if such person has not had a prior conviction, such person shall be guilty of a Class W misdemeanor, and the court shall, as part of the judgment of conviction, order that the operator's license of such person be revoked or impounded for a period of six months from the date ordered by the court. If the court orders the person's

operator's license impounded, the court shall also order that the person shall not operate a motor vehicle for a period of six months and shall not order the installation of an ignition interlock device or an ignition interlock permit. If the court orders the person's operator's license revoked, the revocation period shall be for six months. Such revocation or impoundment shall be administered upon sentencing, upon final judgment of any appeal or review, or upon the date that any probation is revoked.

If the court places such person on probation or suspends the sentence for any reason, the court shall, as one of the conditions of probation or sentence suspension, order that the operator's license of such person be revoked for a period of sixty days from the date ordered by the court. The court may order that during the period of revocation the person apply for an ignition interlock permit and the installation of an ignition interlock device pursuant to section 60-6,211.05. Such order of probation or sentence suspension shall also include, as one of its conditions, the payment of a four-hundred-dollar fine;

The revocation order shall require that the person not drive for a period of sixty days, after which the court may order that the person apply for an ignition interlock permit pursuant to subdivision (1)(b) of section 60-6,197.01 for the remainder of the revocation period and have an ignition interlock device installed on any motor vehicle he or she operates during the remainder of the revocation period. Such revocation shall be administered upon sentencing, upon final judgment of any appeal or review, or upon the date that any probation is revoked.

Such revocation shall be administered upon sentencing, upon final judgment of any appeal or review, or upon the date that any probation is revoked. Such order of probation or sentence suspension shall also include, as conditions, the payment of a five-hundred-dollar fine and either confinement in the city or county jail for two days or the imposition of not less than one hundred twenty hours of community service;

(3) Except as provided in subdivision (5) of this section, if such person has had one prior conviction, such person shall be guilty of a Class W misdemeanor

or, and the court shall, as part of the judgment of conviction, order that the operator's license of such person be revoked for a period of one year from the date ordered by the court. The revocation order shall require that the person not drive for a period of sixty days, after which the court may order that the person apply for an ignition interlock permit for the remainder of the revocation period and have an ignition interlock device installed on any motor vehicle he or she owns or operates during the remainder of the revocation period and shall issue an order pursuant to subdivision (1)(b) of section 60-6,197.01. Such revocation shall be administered upon sentencing, upon final judgment of any appeal or review, or upon the date that any probation is revoked.

If the court places such person on probation or suspends the sentence for any reason, the court shall, as one of the conditions of probation or sentence suspension, order that the operator's license of such person be revoked for a period of one year from the date ordered by the court. The revocation order shall require that the person not drive for a period of forty-five days, after which the court may order that during the period of revocation the person apply for an ignition interlock permit and installation of an ignition interlock device pursuant to section 60-6,211.05 and shall issue an order pursuant to subdivision (1)(b) of section 60-6,197.01. Such order of probation or sentence suspension shall also include, as conditions, the payment of a five-hundred-dollar fine and either confinement in the city or county jail for ten days or the imposition of not less than two hundred forty hours of community service;

Such order of probation or sentence suspension shall also include, as conditions, the payment of a six-hundred-dollar fine and confinement in the city or county jail for thirty days;

(5) If such person has had one prior conviction and, as part of the current violation, had a concentration of fifteen-hundredths of one gram or more by weight of alcohol per one hundred milliliters of his or her blood or fifteen-hundredths of one gram or more by weight of alcohol per two hundred ten liters of his or her breath or refused to submit to a test as required under section 60-6,197, such person shall be guilty of a Class I misdemeanor, and the court shall, as part of the judgment of conviction, revoke the operator's license of such person for a period of at least one year but not more than fifteen years from the date ordered by the court and shall issue an order pursuant to section

#### 1. Constitutionality

Permanent license revocation upon the third conviction for drunk driving does not deprive a person of equal protection of the law, due process of law, or the right to travel, nor does it constitute cruel and unusual punishment. *State v. Michalski*, 221 Neb. 380, 377 N.W.2d 510 (1985).

A defendant is not entitled to a jury trial under provisions of Sixth Amendment to Constitution of the United States in trial for second offense drunk driving hereunder. *State v. Young*, 194 Neb. 544, 234 N.W.2d 196 (1975).

Imposition of greater penalty for subsequent offense is constitutional. *Poppe v. State*, 155 Neb. 527, 52 N.W.2d 422 (1952).

Legislative amendments to the length of the cleansing period provided by this section will not implicate vested due process rights of individuals with prior convictions used for enhancement. *State v. Grant*, 9 Neb. App. 919, 623 N.W.2d 337 (2001).

Prior driving under the influence convictions are not necessary elements of a subsequent driving under the influence charge, but, rather, are used to determine the sentence to be imposed for a later driving under the influence conviction. Thus,

the district court did not violate the Double Jeopardy Clause when it remanded a conviction for second-offense driving under the influence to the county court with directions to enter a judgment finding the defendant guilty of third-offense driving under the influence and to sentence her accordingly. *State v. Werner*, 8 Neb. App. 684, 600 N.W.2d 500 (1999).

#### 2. Offense

This section is a continuance and affirmation of the previous section 39-669.07. Convictions under section 39-669.07 can be used for the purpose of sentence enhancements under this section. *State v. Sundling*, 248 Neb. 732, 538 N.W.2d 749 (1995).

Revocation for 15 years is not an element of the offense of driving with a revoked license under subsection (c) of former section. *State v. Reichstein*, 233 Neb. 715, 447 N.W.2d 635 (1989).

#### 3. Testing/sufficiency of the evidence

Subsection (c) of this section (formerly section 39-669.07 (Reissue 1988)) limits the proof which can be used to establish

the defendant's prior driving while under the influence convictions. *State v. Jensen*, 236 Neb. 869, 464 N.W.2d 326 (1991).

Under this provision (formerly part of section 60-6,196), a defendant may object to the validity of a prior conviction for enhancement purposes where there is no showing that at the time of the previous conviction he was represented by counsel or knowingly and voluntarily waived the right to counsel. *State v. Fraser*, 222 Neb. 862, 387 N.W.2d 695 (1986).

#### 4. Enhancement

Under the enhancement provisions of this section (formerly subsection (2) of section 60-6,196), a drunk driving offender is not receiving additional punishment for his or her previous convictions, but, rather, the offender is being penalized for persisting in committing the offense of driving while under the influence of liquor. *State v. Neiss*, 260 Neb. 691, 619 N.W.2d 222 (2000).

This section (formerly subsection (2) of section 60-6,196) authorizes a trial court to consider prior convictions of a defendant for driving under the influence of alcoholic liquor or drug within the 12 years prior to the offense for which a defendant currently stands trial and is not *ex post facto* as to a conviction prior to its passage, since an offender subject to enhancement of punishment under this statute is not receiving additional punishment for his or her previous convictions but is being penalized for an offense committed after its passage. This section deals with offenses committed after its passage, permits an inquiry into a defendant's previous convictions, and in fixing the penalty, does not punish the defendant for previous offenses but for persistence in violating this section. *State v. Hansen*, 258 Neb. 752, 605 N.W.2d 461 (2000).

The language of this section permits a defendant to challenge the validity of a prior driving under the influence conviction offered for purposes of enhancement on the ground that it was obtained in violation of the defendant's Sixth Amendment right to counsel. *State v. Louthan*, 257 Neb. 174, 595 N.W.2d 917 (1999).

Pursuant to section 60-6,197.06 (formerly subsection (6) of section 60-6,196), the enhancement rules applicable to offenses committed under subdivision (3) of this section (formerly section 60-6,196(2)(c)) are not applicable to license revocation offenses committed under this section. *State v. Kennedy*, 251 Neb. 337, 557 N.W.2d 33 (1996).

Objections to prior convictions used for enhancement refers only to challenges based on a failure to show that in the prior proceeding defendant had counsel or voluntarily and intelligently waived his or her right to counsel. *State v. Wiltshire*, 241 Neb. 817, 491 N.W.2d 324 (1992).

In proceedings under subdivision (3) of this section (formerly subdivision (2)(c) of section 60-6,196) for multiple violations of this section, convictions rendered the same day, if imposed for separate offenses, may each constitute a prior conviction so as to warrant an enhanced penalty. For purposes of determining the 10-year period required by subdivision (2)(c) of this section, the time shall be computed from the date of the prior offense to that date of the offense which resulted in the current conviction. *State v. Towler*, 240 Neb. 103, 481 N.W.2d 151 (1992).

A previous conviction on appeal at the time the second offense is committed may not be considered a conviction for purposes of the punishment enhancement provisions of this section. *State v. Estes*, 238 Neb. 692, 472 N.W.2d 214 (1991).

This section (formerly part of section 60-6,196) requires only that a violator be properly convicted of two previous violations, whether the prior violation was called first or second offense. *State v. Donaldson*, 234 Neb. 683, 452 N.W.2d 531 (1990).

An erroneous designation in a complaint of the date on which and the county in which a prior conviction occurred will not preclude a defendant from being sentenced as one who has previously been convicted of driving while under the influence of alcohol, if the record discloses that the defendant could not have been misled or confused. *State v. Wakeman*, 231 Neb. 66, 434 N.W.2d 549 (1989).

For enhancement purposes under this section (formerly part of section 60-6,196), the sentencing court shall make a finding on the record concerning the number of defendant's prior convictions for drunk driving. *State v. Snodgrass*, 230 Neb. 119, 430 N.W.2d 55 (1988).

For a prior conviction based on a plea of guilty to be used for enhancement purposes in an action under this section (formerly part of section 60-6,196), the record must show that the defendant entered the guilty plea to the charge. *State v. Slezak*, 226 Neb. 404, 411 N.W.2d 632 (1987).

Checklist evidences defendant's waiver of counsel and satisfies State's burden in proving validity of conviction in an enhancement hearing. *State v. Thompson*, 224 Neb. 922, 402 N.W.2d 271 (1987).

The substantive offense is driving while under the influence of alcohol or with more than .10 percent of alcohol in one's body fluid. The number of times a person has previously been convicted of such a charge is not itself a crime but, rather, is a factor which the trial court is to consider in imposing sentence. *State v. Jameson*, 224 Neb. 38, 395 N.W.2d 744 (1986).

A certified copy of a judgment entered on a prior conviction for drunk driving may be used for enhancement purposes. *State v. Hamblin*, 223 Neb. 469, 390 N.W.2d 533 (1986).

A defendant may not relitigate a former conviction in an enhancement proceeding. *State v. Fraser*, 222 Neb. 862, 387 N.W.2d 695 (1986).

Under this provision (formerly part of section 60-6,196), the trial court is required to advise the defendant of his right to review the record of the prior conviction, bring mitigating facts to the attention of the court prior to sentencing, and object to the validity of the prior conviction. *State v. Fraser*, 222 Neb. 862, 387 N.W.2d 695 (1986).

The state has the burden to show only that defendant had or waived counsel at prior proceedings used for enhancement purposes. *State v. Soe*, 219 Neb. 797, 366 N.W.2d 439 (1985).

A transcript of conviction which fails to show on its face that counsel was afforded or the right waived cannot be used for enhancement purposes. *State v. Baxter*, 218 Neb. 414, 355 N.W.2d 514 (1984).

Record of an enhancement proceeding for second or third offense driving while intoxicated must show that the requirements of the statute were met. A defendant may waive the rights provided by this statute with regard to prior convictions. *State v. Ziemba*, 216 Neb. 612, 346 N.W.2d 208 (1984).

In sentencing under this section (formerly part of section 60-6,196) the record of the trial court must show evidence of prior convictions and whether the defendant was represented by counsel or waived such representation in those prior proceedings. *State v. Prichard*, 215 Neb. 488, 339 N.W.2d 748 (1983).

Where under this section (formerly part of section 60-6,196), proof has been made of a defendant's conviction on a prior misdemeanor violation of that statute, the defendant cannot raise a collateral attack upon that conviction. *State v. Kelly*, 212 Neb. 45, 321 N.W.2d 80 (1982).

A defendant may not collaterally attack a prior conviction when proof of that prior conviction is offered in a proceeding on the issue of enhancement of sentence. *State v. Voight*, 206 Neb. 829, 295 N.W.2d 112 (1980).

Third offender need not have previously been punished as second offender, but must only have been twice previously convicted of driving under the influence. *State v. Orosco*, 199 Neb. 532, 260 N.W.2d 303 (1977).

Proof of prior convictions was properly made. *State v. Ninneman*, 179 Neb. 729, 140 N.W.2d 5 (1966).

Compliance with former sentence is not essential to proof of prior conviction. *Danielson v. State*, 155 Neb. 890, 54 N.W.2d 56 (1952).

Standard waiver forms, once signed by a defendant, are sufficient in an enhancement proceeding to meet the State's burden of proving that defendant knowingly, intelligently, and

voluntarily waived his or her right to counsel. *State v. Werner*, 8 Neb. App. 684, 600 N.W.2d 500 (1999).

The time limitations for the use of prior driving under the influence convictions set forth in this section do not apply to the use of prior driving under the influence convictions to section 28-306. *State v. Tlamka*, 7 Neb. App. 579, 585 N.W.2d 101 (1998).

Prior convictions of driving under the influence of alcohol under former section 39-669.07 or ordinances thereunder may properly be used to enhance convictions under this section (formerly part of section 60-6,196), as this section is a mere affirmation of the original act. *State v. Sundling*, 3 Neb. App. 722, 531 N.W.2d 7 (1995).

A defendant's allegation that the State failed to show that the defendant was present at an enhancement proceeding pursuant to a prior conviction under this section (formerly part of section 60-6,196) constituted a collateral attack, which could only be raised in a separate proceeding. *State v. Jones*, 1 Neb. App. 816, 510 N.W.2d 404 (1993).

#### 5. Miscellaneous

Under subdivision (3) of this section (formerly subdivision 2)(c) of section 60-6,196) a 15-year revocation is part of the overall punishment of a defendant, in conjunction with the fines and jail terms imposed for the offense under Class W misdemeanors. *State v. Bainbridge*, 249 Neb. 260, 543 N.W.2d 154 (1996).

Under subdivision (3) of this section (formerly subdivision 2)(c) of section 60-6,196) an order of probation for a person convicted of third-offense driving while under the influence of alcoholic liquor may include a provision not to operate a motor vehicle for any reason whatsoever during the entire term of probation. *State v. Seaman*, 237 Neb. 916, 468 N.W.2d 121 (1991).

The relevant portion of this section (formerly part of section 60-6,196) directs in clear, plain, simple, and unambiguous words that when one convicted of first-offense driving while intoxicated is placed on probation, he or she shall be ordered not to drive for any purpose for a period of 60 days from the date of the order of probation. *State v. Matthews*, 237 Neb. 300, 465 N.W.2d 763 (1991).

Revocation of one's operator's license for a period of 365 days will not always fulfill the requirement that revocation be for a period of 1 year. *State v. Contreras*, 236 Neb. 455, 461 N.W.2d 562 (1990).

Credit against statutory minimum sentence for inpatient treatment was erroneous, and it was within the district court's power to modify the judgment by striking the illegal credit. *State v. Oliver*, 230 Neb. 864, 434 N.W.2d 293 (1989).

In a case pending appeal when this section was amended, a sentence of lifetime suspension of a driver's license for driving while under the influence should be vacated and in lieu thereof

a sentence of suspension for 15 years imposed. *State v. Painter*, 224 Neb. 905, 402 N.W.2d 677 (1987).

Where the record did not show the defendant knew the penalty for second offense DWI included a mandatory minimum confinement under subsection (2) (of former section 39-669.07) when he entered his plea, the cause was remanded to determine if the defendant had such knowledge in fact. *State v. Stastny*, 223 Neb. 903, 395 N.W.2d 492 (1986).

Upon revocation of probation, the court may impose such punishment as may have been imposed originally for the crime of which such defendant was convicted. Resultingly, defendant who was convicted of third offense driving while intoxicated in 1980 and who violated his probation in 1984 was subject to sentencing under the penal statute in effect at the time of his conviction. *State v. Jacobson*, 221 Neb. 639, 379 N.W.2d 772 (1986).

A defendant's operator's license may not be suspended beyond one year from the judgment of conviction; that is, in this case, one year from the date sentence of probation was imposed. *State v. Schulz*, 221 Neb. 473, 378 N.W.2d 165 (1985).

Under subsection (1) of this section (former section 39-669.07), the court-ordered suspending of driving privileges must be for a continuous period computed from the date the order of probation is entered. *State v. Ramirez*, 218 Neb. 899, 360 N.W.2d 484 (1984).

A trial court does not have the authority under this section to interrupt the period of suspension or permit one convicted of driving under the influence of alcoholic liquor or drug, first or second offense, to drive for limited work-related purposes. On second offense the period of prohibition against driving must be for a period of six continuous months computed from the date the order of probation is entered. *State v. Havorka*, 218 Neb. 367, 355 N.W.2d 343 (1984).

A sentence within the statutory maximum will not be disturbed on appeal absent an abuse of discretion. *State v. Rosenberry*, 209 Neb. 383, 307 N.W.2d 823 (1981).

A sentence validly imposed takes effect from the time it is imposed, and the subsequent order of the same court vacating that sentence was a nullity. *State v. Sliva*, 208 Neb. 647, 305 N.W.2d 10 (1981).

Maximum sentence under this statute not excessive in view of defendant's record. *State v. Phillips*, 197 Neb. 343, 248 N.W.2d 773 (1977).

Sentence of imprisonment for one year and revocation of driver's license was not an abuse of discretion by the trial court. *State v. Frans*, 192 Neb. 641, 223 N.W.2d 490 (1974).

A requirement that one convicted of driving while intoxicated attend and complete and pay for an alcohol abuse course is a valid condition of probation. *State v. Muggins*, 192 Neb. 415, 222 N.W.2d 289 (1974).

### **60-6,197.04 Driving under influence of alcoholic liquor or drugs; preliminary breath test; refusal; penalty.**

Any peace officer who has been duly authorized to make arrests for violation of traffic laws of this state or ordinances of any city or village may require any person who operates or has in his or her actual physical control a motor vehicle in this state to submit to a preliminary test of his or her breath for alcohol concentration if the officer has reasonable grounds to believe that such person has alcohol in his or her body, has committed a moving traffic violation, or has been involved in a traffic accident. Any person who refuses to submit to such preliminary breath test or whose preliminary breath test results indicate an alcohol concentration in violation of section 60-6,196 shall be placed under arrest. Any person who refuses to submit to such preliminary breath test shall be guilty of a Class V misdemeanor.

**Source:** Laws 2004, LB 208, § 14.

The preliminary test referred to in this section (formerly subsection (3) of section 60-6,197) is a different procedure and not a chemical test that will satisfy requirements for a conviction under subsection (3) (formerly subsection (4) of section 60-6,197). State v. Howard, 253 Neb. 523, 571 N.W.2d 308 (1997).

**60-6,197.05 Driving under influence of alcoholic liquor or drugs; implied consent to chemical test; revocation; effect.**

Any period of revocation imposed for a violation of section 60-6,196 or 60-6,197 shall be reduced by any period imposed under section 60-498.02. Any period of revocation imposed under subdivision (1) of section 60-6,197.03 for a violation of section 60-6,196 or 60-6,197 or under subdivision (2)(a) of section 60-6,196, as such section existed prior to July 16, 2004, shall not prohibit the operation of a motor vehicle under the terms and conditions of an employment driving permit issued pursuant to subsection (2) of section 60-498.02.

**Source:** Laws 2004, LB 208, § 15; Laws 2009, LB497, § 8.

**60-6,197.06 Operating motor vehicle during revocation period; penalties.**

(1) Unless otherwise provided by law pursuant to an ignition interlock permit, any person operating a motor vehicle on the highways or streets of this state while his or her operator’s license has been revoked pursuant to section 28-306, section 60-698, subdivision (4), (5), (6), (7), (8), (9), or (10) of section 60-6,197.03, or section 60-6,198, or pursuant to subdivision (2)(c) or (2)(d) of section 60-6,196 or subdivision (4)(c) or (4)(d) of section 60-6,197 as such subdivisions existed prior to July 16, 2004, shall be guilty of a Class IV felony, and the court shall, as part of the judgment of conviction, revoke the operator’s license of such person for a period of fifteen years from the date ordered by the court and shall issue an order pursuant to section 60-6,197.01. Such revocation and order shall be administered upon sentencing, upon final judgment of any appeal or review, or upon the date that any probation is revoked.

(2) If such person has had a conviction under this section or under subsection (6) of section 60-6,196 or subsection (7) of section 60-6,197, as such subsections existed prior to July 16, 2004, prior to the date of the current conviction under this section, such person shall be guilty of a Class III felony, and the court shall, as part of the judgment of conviction, revoke the operator’s license of such person for a period of fifteen years from the date ordered by the court and shall issue an order pursuant to section 60-6,197.01. Such revocation and order shall be administered upon sentencing, upon final judgment of any appeal or review, or upon the date that any probation is revoked.

- 5. Miscellaneous

**1. Constitutionality**

A subsequent prosecution of driving while the operator’s license was revoked, after defendant had already been convicted of willful reckless driving and operating a motor vehicle while intoxicated, did not violate the double jeopardy clause, because the State did not prove the entire conduct for which defendant had already been convicted. Willful reckless driving and operating a motor vehicle while intoxicated are not lesser-included offenses of operating a motor vehicle while the operator’s license was revoked, and a subsequent conviction of driving while the operator’s license is revoked would not violate the Blockbur-

ger test. State v. Woodfork, 239 Neb. 720, 478 N.W.2d 248 (1991).

**2. Offense**

Starting a vehicle is an act within the meaning of “operating” a motor vehicle under this section (formerly subsection (6) of section 60-6,196). State v. Porsche, 261 Neb. 160, 622 N.W.2d 582 (2001).

Subsection (3) of former section 60-524 does not terminate a court-ordered suspension required as part of a criminal conviction.

tion under this section (formerly subsection (6) of section 60-6,196). State v. Portsche, 261 Neb. 160, 622 N.W.2d 582 (2001).

In a prosecution under this section (formerly subsection (6) of section 60-6,196) for driving when one's operator's license has been revoked pursuant to subdivision (2)(c) of this section, proof of the prior conviction under subdivision (2)(c) is an essential element of the offense, and thus, the State has the burden to prove the prior conviction. A prior third-offense drunk driving conviction may be used as an element of a violation under this section (formerly subsection (6) of section 60-6,196) even though the prior conviction is not subject to a collateral attack. State v. Lee, 251 Neb. 661, 558 N.W.2d 571 (1997).

### 3. Testing/sufficiency of the evidence

A certified copy from the Department of Motor Vehicles which shows that a defendant's operator's license was revoked is insufficient to show that the defendant either had counsel or waived counsel at the time he was convicted of the prior offense and is therefore insufficient to support a conviction under this

section (formerly subsection (6) of section 60-6,196). State v. Watkins, 4 Neb. App. 356, 543 N.W.2d 470 (1996).

### 4. Enhancement

A felony conviction for driving under a suspended license in violation of this section may not be used either to trigger application of the habitual criminal statute or as a prior offense for purposes of penalty enhancement pursuant thereto. State v. Hittle, 257 Neb. 344, 598 N.W.2d 20 (1999).

Pursuant to this section (formerly subsection (6) of section 60-6,196), the enhancement rules applicable to offenses committed under subsection (3) of section 60-6,197.03 (formerly section 60-6,196(2)(c)) are not applicable to license revocation offenses committed under this section. State v. Kennedy, 251 Neb. 337, 557 N.W.2d 33 (1996).

### 5. Miscellaneous

A 15-year revocation must be part of any sentence for a conviction under this section, including a sentence of probation. State v. Hense, 276 Neb. 313, 753 N.W.2d 832 (2008).

## **60-6,197.07 Driving under influence of alcoholic liquor or drugs; implied consent to submit to chemical test; city or village ordinances; authorized.**

Any city or village may enact ordinances in conformance with sections 60-6,196 and 60-6,197. Upon conviction of any person of a violation of such a city or village ordinance, the provisions of sections 60-6,197.02 and 60-6,197.03 with respect to the operator's license of such person shall be applicable the same as though it were a violation of section 60-6,196 or 60-6,197.

**Source:** Laws 2004, LB 208, § 17.

## **60-6,197.08 Driving under influence of alcoholic liquor or drugs; presentence evaluation.**

Any person who has been convicted of driving while intoxicated shall, during a presentence evaluation, submit to and participate in an alcohol assessment by a licensed alcohol and drug counselor. The alcohol assessment shall be paid for by the person convicted of driving while intoxicated. At the time of sentencing, the judge, having reviewed the assessment results, may then order the convicted person to follow through on the alcohol assessment results at the convicted person's expense in addition to any penalties deemed necessary.

**Source:** Laws 2004, LB 208, § 18; Laws 2006, LB 925, § 13.

### 1. Constitutionality 2. Miscellaneous

#### 1. Constitutionality

The provision in this section (formerly subsection (8) of section 60-6,196) requiring the convicted person to pay the expense for the treatment which is a portion of the sentencing order is not intended to be a punishment and therefore provides for neither a fine nor a penalty and does not on its face violate the constitutional prohibitions against excessive fines under Neb. Const. art. I, section 9, or disproportionate penalties under Neb. Const. art. I, section 15. State v. Hynek, 263 Neb. 310, 640 N.W.2d 1 (2002).

This section (formerly subsection (8) of section 60-6,196), which authorizes sentencing courts to impose alternative penalties for individuals convicted of certain driving under the influence offenses, when such individuals have undergone an alcohol assessment, does not violate the distribution of powers clause, Neb. Const. art. II, section 1. This section (formerly subsection

(8) of section 60-6,196) is held to be harmonious with other sentencing provisions relating to driving under the influence offenses. State v. Divis, 256 Neb. 328, 589 N.W.2d 537 (1999).

#### 2. Miscellaneous

The purpose of this section (formerly subsection (8) of section 60-6,196) is to provide (1) an alcohol assessment to individuals who have not previously been assessed for alcohol abuse and (2) a tool for courts to review alcohol assessment results prior to sentencing in order to aid in an effective sentencing decision. In those cases where the county court orders an alcohol assessment pursuant to subsection (8) of this section, the court shall follow the mandated statutory procedure and order the convicted offender to participate in the alcohol assessment prior to sentencing. State v. Hansen, 259 Neb. 764, 612 N.W.2d 477 (2000).

## **60-6,197.09 Driving under influence of alcoholic liquor or drugs; not eligible for probation, suspended sentence, or employment driving permit.**

Notwithstanding the provisions of section 60-498.02 or 60-6,197.03, a person who commits a violation punishable under subdivision (3)(b) or (c) of section 28-306 or a violation of section 60-6,196, 60-6,197, or 60-6,198 while participating in criminal proceedings for a violation of section 60-6,196, 60-6,197, or 60-6,198, or a city or village ordinance enacted in accordance with section 60-6,196 or 60-6,197, or a law of another state if, at the time of the violation under the law of such other state, the offense for which the person was charged would have been a violation of section 60-6,197, shall not be eligible to receive a sentence of probation, a suspended sentence, or an employment driving permit authorized under subsection (2) of section 60-498.02 for either violation committed in this state.

**Source:** Laws 2006, LB 925, § 14.

**60-6,198 Driving under influence of alcoholic liquor or drugs; serious bodily injury; violation; penalty.**

(1) Any person who, while operating a motor vehicle in violation of section 60-6,196 or 60-6,197, proximately causes serious bodily injury to another person or an unborn child of a pregnant woman shall be guilty of a Class IIIA felony and the court shall, as part of the judgment of conviction, order the person not to drive any motor vehicle for any purpose for a period of at least sixty days and not more than fifteen years from the date ordered by the court and shall order that the operator's license of such person be revoked for the same period.

(2) For purposes of this section, serious bodily injury shall mean bodily injury which involves a substantial risk of death, a substantial risk of serious permanent disfigurement, or a temporary or protracted loss or impairment of the function of any part or organ of the body.

(3) For purposes of this section, unborn child shall have the same meaning as in section 28-396.

The offense of driving under the influence in violation of section 60-6,196 is a lesser-included offense of driving under the influence causing serious bodily injury in violation of this section. *State v. Dragoo*, 277 Neb. 858, 765 N.W.2d 666 (2009).

The material elements of driving under the influence of alcohol and causing serious bodily injury are: (1) the defendant must

have been operating a motor vehicle; (2) the defendant must have been operating the vehicle in violation of section 60-6,196 (driving under the influence of alcohol); and (3) the defendant's act of driving under the influence of alcohol, in violation of section 60-6,196, must proximately cause serious bodily injury. *State v. The peace officer who requires a chemical blood, breath, or urine test or tests pursuant to section 60-6,197 may direct whether the test or tests shall be of blood, breath, or urine. The person tested shall be permitted to have a physician of his or her choice evaluate his or her condition and perform or have performed whatever laboratory tests he or she deems appropriate in addition to and following the test or tests administered at the direction of the officer. If the

officer refuses to permit such additional test to be taken, then the original test or tests shall not be competent as evidence. Upon the request of the person tested, the results of the test or tests taken at the direction of the officer shall be made available to him or her.

2. Refusal to take test
3. Additional test
4. Miscellaneous

#### 1. Required test

An individual required to take a breath test does not have the option of requesting a blood or urine test. *State v. Morse*, 211 Neb. 448, 318 N.W.2d 893 (1982).

This section which provides that if an officer directs that a test shall be of the person's blood or urine such person may choose whether the test shall be of blood or of urine, does not require the officer to notify the person of his option and if the person takes one or the other of these tests then he has waived his right to insist that the test to be made by the state be one of his choice. *State v. Sommers*, 201 Neb. 809, 272 N.W.2d 367 (1978).

An arrest or the taking into custody on a driving offense required before test is administered. *State v. Baker*, 184 Neb. 724, 171 N.W.2d 798 (1969).

Blood test was properly given and made. *State v. Berg*, 177 Neb. 419, 129 N.W.2d 117 (1964).

To render blood test admissible in evidence, there must be a compliance with this section. *Pierce v. State*, 173 Neb. 319, 113 N.W.2d 333 (1962).

Person taken into custody may choose what test shall be given. *Purcha v. Department of Motor Vehicles*, 172 Neb. 415, 110 N.W.2d 75 (1961).

#### 2. Refusal to take test

If an arrested motorist has refused a chemical test to determine the motorist's blood-alcohol level in accordance with section 39-699.08(4), (transferred to section 60-6,197) the motorist has no right to a physician's evaluation of the motorist's condition or chemical tests in addition to that directed by the law enforcement officer. *State v. Clark*, 229 Neb. 103, 425 N.W.2d 347 (1988).

An operator has refused to submit to a test when he conducts himself in a way which would justify a reasonable person in believing that he understood he had been asked to take the test and manifested an unwillingness to take it. *Bauer v. Peterson*, 212 Neb. 174, 322 N.W.2d 389 (1982).

Silence in the face of a direct inquiry as to which test should be administered was equivalent to an express refusal to submit to any test. *Johnson v. Dennis*, 187 Neb. 95, 187 N.W.2d 605 (1971).

#### 3. Additional test

Permitting a requested independent chemical test is foundational to the admission in evidence of the result of the breath test performed by the State. Under this section, the police cannot hamper a motorist's reasonable efforts to obtain independent chemical testing; however, the police have no statutory duty to transport a licensee for the purpose of obtaining such testing. *State v. Dake*, 247 Neb. 579, 529 N.W.2d 46 (1995).

Statute does not require officer to inform person of his or her privilege to request an independent test. *Heusman v. Jensen*, 226 Neb. 666, 414 N.W.2d 247 (1987).

An officer is not required to inform the person to be tested of his privilege to request an independent test. *State v. Klingelhofer*, 222 Neb. 219, 382 N.W.2d 366 (1986).

Statute does not require the officer to inform the person to be tested of his privilege to request an independent test. *State v. Miller*, 213 Neb. 274, 328 N.W.2d 769 (1983).

Lab results of state's blood or urine tests are inadmissible if defendant objects after denial of requests for private physician and tests. *State v. Wahrman*, 199 Neb. 337, 258 N.W.2d 818 (1977).

Failure of officer to advise motorist he could obtain additional test following one directed by officer is not excuse for motorist's failure to submit to test. *Zadina v. Weedlun*, 187 Neb. 361, 190 N.W.2d 857 (1971).

#### 4. Miscellaneous

Result of test should be made available to the defendant but request should be made prior to trial. *State v. Fox*, 177 Neb. 238, 128 N.W.2d 576 (1964).

Registered nurse may withdraw blood for a test only if acting under the direction of a physician. *Otte v. State*, 172 Neb. 110, 108 N.W.2d 737 (1961).

### **60-6,200 Driving under influence of alcoholic liquor or drugs; chemical test; consent of person incapable of refusal not withdrawn.**

Any person who is unconscious or who is otherwise in a condition rendering him or her incapable of refusal shall be deemed not to have withdrawn the consent provided by section 60-6,197 and the test may be given.

Defendant found incapable of refusing taking of blood sample. Therefore, consent was implied under this statute. *State v. Brittain*, 212 Neb. 686, 325 N.W.2d 141 (1982).

A refusal to submit to a chemical test for alcohol occurs when the licensee after being asked to submit to a test so conducts himself as to justify a reasonable person in the requesting officer's position in believing that the licensee understood that he was asked to submit to a test and manifested an unwillingness to do so. *Wohlgemuth v. Pearson*, 204 Neb. 687, 285 N.W.2d 102 (1979).

To constitute a refusal to submit to a chemical test for alcohol requested under this section the only understanding required by the licensee is an understanding that he has been asked to take a test. *Wohlgemuth v. Pearson*, 204 Neb. 687, 285 N.W.2d 102 (1979).

Where a person is incapable of refusal by reason of injuries the same may be taken provided other conditions of section

39-669.08 (transferred to section 60-6,197) are met. *Mackey v. Director of Motor Vehicles*, 194 Neb. 707, 235 N.W.2d 394 (1975).

Blood may be drawn from an unconscious person only upon compliance with the requirements of statutes complimentary hereto. *State v. Howard*, 193 Neb. 45, 225 N.W.2d 391 (1975).

This section authorizes the taking of test for intoxication even when the defendant is unconscious. *State v. Seager*, 178 Neb. 51, 131 N.W.2d 676 (1964).

Drawing of blood sample by physician who had been directed to act as coroner's physician from body of fatally injured passenger in automobile did not violate prohibition against unreasonable searches and seizures, and result of tests performed by competent chemist using accepted procedures and facilities were admissible. *Gardner v. Meyers*, 491 F.2d 1184 (8th Cir. 1974).

**60-6,201 Driving under influence of alcoholic liquor or drugs; chemical test; violation of statute or ordinance; results; competent evidence; permit; fee.**

(1) Any test made under section 60-6,197, if made in conformity with the requirements of this section, shall be competent evidence in any prosecution under a state statute or city or village ordinance involving operating a motor vehicle while under the influence of alcoholic liquor or drugs or involving driving or being in actual physical control of a motor vehicle when the concentration of alcohol in the blood or breath is in excess of allowable levels.

(2) Any test made under section 60-6,211.02, if made in conformity with the requirements of this section, shall be competent evidence in any prosecution involving operating or being in actual physical control of a motor vehicle in violation of section 60-6,211.01.

(3) To be considered valid, tests of blood, breath, or urine made under section 60-6,197 or tests of blood or breath made under section 60-6,211.02 shall be performed according to methods approved by the Department of Health and Human Services and by an individual possessing a valid permit issued by such department for such purpose, except that a physician, registered nurse, or other trained person employed by a licensed health care facility or health care service which is defined in the Health Care Facility Licensure Act or clinical laboratory certified pursuant to the federal Clinical Laboratories Improvement Act of 1967, as such act existed on September 1, 2001, or Title XVIII or XIX of the federal Social Security Act, as such act existed on September 1, 2001, to withdraw human blood for scientific or medical purposes, acting at the request of a peace officer, may withdraw blood for the purpose of a test to determine the alcohol concentration or the presence of drugs and no permit from the department shall be required for such person to withdraw blood pursuant to such an order. The department may approve satisfactory techniques or methods to perform such tests and may ascertain the qualifications and competence of individuals to perform such tests and issue permits which shall be subject to termination or revocation at the discretion of the department.

(4) A permit fee may be established by regulation by the department which shall not exceed the actual cost of processing the initial permit. Such fee shall be charged annually to each permitholder. The fees shall be used to defray the cost of processing and issuing the permits and other expenses incurred by the department in carrying out this section. The fee shall be remitted to the State Treasurer for credit to the Health and Human Services Cash Fund as a laboratory service fee.

(5) Relevant evidence shall not be excluded in any prosecution under a state statute or city or village ordinance involving operating a motor vehicle while under the influence of alcoholic liquor or drugs or involving driving or being in actual physical control of a motor vehicle when the concentration of alcohol in the blood or breath is in excess of allowable levels on the ground that the evidence existed or was obtained outside of this state.

1. Admissibility of test results

#### 1. Admissibility of test results

Pursuant to subsection (3) of this section, a prerequisite to the validity of a breath test made under section 60-6,197(3), and consequently a prerequisite to the validity of an arrest, is that the test must be performed in accordance with the procedures approved by the Department of Health and Human Services Regulation and Licensure and "by an individual possessing a valid permit issued by such department for such purpose". *McGuire v. Department of Motor Vehicles*, 253 Neb. 92, 568 N.W.2d 471 (1997).

It is not necessary for the State to introduce into evidence the actual or a certified copy of an individual's state Department of Health permit to perform a blood, breath, or urine test of a suspect arrested for driving while under the influence of alcoholic liquor. *State v. Obermier*, 241 Neb. 802, 490 N.W.2d 693 (1992).

A test made in compliance with this section is sufficient to make a prima facie case on the issue of blood alcohol concentration. Matters of driving and testing are properly viewed as going to the weight of the breath test results, rather than to the admissibility of the evidence. A valid breath test given within a reasonable time after the accused was stopped is probative of a violation of section 39-669.07 (transferred to section 60-6,196). *State v. Kubik*, 235 Neb. 612, 456 N.W.2d 487 (1990).

Compliance with the requirements of this section in the administration of a breath test may affect the admissibility of the test results but does not go to the question of whether a person was justified in refusing to take the test. *Raymond v. Department of Motor Vehicles*, 219 Neb. 821, 366 N.W.2d 758 (1985).

The requirements of this section are foundational requirements that must be laid before the admission of the test result into evidence; once the court determines that the evidence is to be admitted, weight and credibility are for the jury. *State v. West*, 217 Neb. 389, 350 N.W.2d 512 (1984).

The results of a test made under the provisions of section 39-669.08 (transferred to section 60-6,197) may be received in evidence only if the requirements of section 39-669.11 (transferred to section 60-6,201) are met. In order to show that the requirements have been met it is necessary to show that the method of performing the test was approved by the Nebraska Department of Health and that the person administering the test was qualified and had a valid license from the Department of Health. *State v. Kolar*, 206 Neb. 619, 294 N.W.2d 350 (1980); *State v. Gerber*, 206 Neb. 75, 291 N.W.2d 403 (1980).

Results of chemical tests for alcohol content admissible as evidence under specified conditions. *State v. Jablonski*, 199 Neb. 341, 258 N.W.2d 918 (1977).

Result of test was competent evidence in prosecution for driving motor vehicle while under the influence of intoxicating liquor. *State v. Fox*, 177 Neb. 238, 128 N.W.2d 576 (1964).

To be admissible in evidence, tests made must meet the requirements prescribed by statute. *Otte v. State*, 172 Neb. 110, 108 N.W.2d 737 (1961).

#### 2. Error or tolerance in testing

Evidence of breath or blood alcohol content over the statutory limit is not necessarily insufficient simply because the defendant's expert testimony as to the margin of error is not specifically rebutted by expert testimony from the State. *State v. Kuhl*, 276 Neb. 497, 755 N.W.2d 389 (2008).

In order to support a conviction for the offense of drunk driving based solely on a chemical test the result of the chemical test, when taken together with its tolerance for error, must equal or exceed the statutory percentage. *State v. Bjornsen*, 201 Neb. 709, 271 N.W.2d 839 (1978).

The Legislature having selected a particular percentage of alcohol to be a criminal offense if present in a person operating a motor vehicle, it is not unreasonable to require that a test, designed to show that percent, do so outside of any error or tolerance inherent in the testing process. *State v. Bjornsen*, 201 Neb. 709, 271 N.W.2d 839 (1978).

#### 3. Effect of evidence

While the Legislature has the right to prescribe acceptable methods of testing for alcohol content in the body fluid, and perhaps the right to prescribe that such evidence is admissible in a court of law as competent evidence, it is a judicial function to determine whether the evidence, if believed, is sufficient to sustain a conviction. *State v. Burling*, 224 Neb. 725, 400 N.W.2d 872 (1987).

Evidence admitted pursuant to this section does not create a presumption of guilt but may be sufficient to make out a prima facie case on blood alcohol concentration issue. *State v. Dush*, 214 Neb. 51, 332 N.W.2d 679 (1983).

## 4. Effect of recodification

The substance of section 39-669.11, which requires that driving under the influence of alcohol breath tests be performed

according to the Department of Health and Human Services rules, did not change in any material way when it was recodified in this section. *State v. Engleman*, 5 Neb. App. 485, 560 N.W.2d 851 (1997).

**60-6,202 Driving under influence of alcoholic liquor or drugs; blood test; withdrawing requirements; damages; liability; when.**

(1) Any physician, registered nurse, other trained person employed by a licensed health care facility or health care service defined in the Health Care Facility Licensure Act, a clinical laboratory certified pursuant to the federal Clinical Laboratories Improvement Act of 1967, as amended, or Title XVIII or XIX of the federal Social Security Act, as amended, to withdraw human blood for scientific or medical purposes, or a hospital shall be an agent of the State of Nebraska when performing the act of withdrawing blood at the request of a peace officer pursuant to sections 60-6,197 and 60-6,211.02. The state shall be liable in damages for any illegal or negligent acts or omissions of such agents in performing the act of withdrawing blood. The agent shall not be individually liable in damages or otherwise for any act done or omitted in performing the act of withdrawing blood at the request of a peace officer pursuant to such sections except for acts of willful, wanton, or gross negligence of the agent or of persons employed by such agent.

(2) Any person listed in subsection (1) of this section withdrawing a blood specimen for purposes of section 60-6,197 or 60-6,211.02 shall, upon request, furnish to any law enforcement agency or the person being tested a certificate stating that such specimen was taken in a medically acceptable manner. The certificate shall be signed under oath before a notary public and shall be admissible in any proceeding as evidence of the statements contained in the certificate. The form of the certificate shall be prescribed by the Department of Health and Human Services and such forms shall be made available to the persons listed in subsection (1) of this section.

Any person arrested for any offense involving the operation or actual physical control of a motor vehicle while under the influence of alcoholic liquor or drugs shall be required to submit to a chemical test or tests of his or her blood, breath, or urine as provided in section 60-6,197 without the preliminary breath test if the arresting peace officer does not have available the necessary equipment for administering a breath test or if the person is unconscious or is otherwise in a condition rendering him or her incapable of testing by a preliminary breath test. Only a physician, registered nurse, or other trained person employed by a licensed health care facility or health care service defined in the Health Care Facility Licensure Act or a clinical laboratory certified pursuant to the federal Clinical Laboratories Improvement Act of 1967, as amended, or Title XVIII or XIX of the federal Social Security Act to withdraw human blood for scientific or medical purposes, acting at the request of a peace officer, may withdraw blood for the purpose of determining the concentration of alcohol or the presence of drugs, but this limitation shall not apply to the taking of a urine or breath specimen.

(1) Any person whose operator's license has been revoked pursuant to a conviction for a violation of sections 60-6,196, 60-6,197, and 60-6,199 to 60-6,204 for a third or subsequent time for a period of fifteen years may apply to the Department of Motor Vehicles, on forms prescribed by the department, requesting the department to make a recommendation to the Board of Pardons for reinstatement of his or her eligibility for an operator's license. Upon receipt

of the application, the Director of Motor Vehicles shall review the application if such person has served at least seven years of such revocation and make a recommendation for reinstatement or for denial of reinstatement. The department may recommend reinstatement if such person shows the following:

(a) Such person has completed a state-certified substance abuse program and is recovering or such person has substantially recovered from the dependency on or tendency to abuse alcohol or drugs;

(b) Such person has not been convicted, since the date of the revocation order, of any subsequent violations of section 60-6,196 or 60-6,197 or any comparable city or village ordinance and the applicant has not, since the date of the revocation order, submitted to a chemical test under section 60-6,197 that indicated an alcohol concentration in violation of section 60-6,196 or refused to submit to a chemical test under section 60-6,197;

(c) Such person has not been convicted, since the date of the revocation order, of driving while under suspension, revocation, or impoundment under section 60-4,109;

(d) Such person has abstained from the consumption of alcoholic beverages and the consumption of drugs except at the direction of a licensed physician or pursuant to a valid prescription; and

(e) Such person's operator's license is not currently subject to suspension or revocation for any other reason.

(2) In addition, the department may require other evidence from such person to show that restoring such person's privilege to drive will not present a danger to the health and safety of other persons using the highways.

(3) Upon review of the application, the director shall make the recommendation to the Board of Pardons in writing and shall briefly state the reasons for the recommendations. The recommendation shall include the original application and other evidence submitted by such person. The recommendation shall also include any record of any other applications such person has previously filed under this section.

(4) The department shall adopt and promulgate rules and regulations to govern the procedures for making a recommendation to the Board of Pardons. Such rules and regulations shall include the requirement that the treatment programs and counselors who provide information about such person to the department must be certified or licensed by the state.

(5) If the Board of Pardons reinstates such person's eligibility for an operator's license or orders a reprieve of such person's motor vehicle operator's license revocation, such reinstatement or reprieve may be conditioned for the duration of the original revocation period on such person's continued recovery. If such person is convicted of any subsequent violation of section 60-6,196 or 60-6,197, the reinstatement of the person's eligibility for an operator's license shall be withdrawn and such person's operator's license will be revoked by the Department of Motor Vehicles for the time remaining under the original revocation, independent of any sentence imposed by the court, after thirty days' written notice to the person by first-class mail at his or her last-known mailing address as shown by the records of the department.

(6) If the Board of Pardons reinstates a person's eligibility for an operator's license or orders a reprieve of such person's motor vehicle operator's license revocation, the board shall notify the Department of Motor Vehicles of the

reinstatement or reprieve. Such person may apply for an operator's license upon payment of a fee of one hundred twenty-five dollars and the filing of proof of financial responsibility. The fees paid pursuant to this section shall be collected by the department and remitted to the State Treasurer. The State Treasurer shall credit seventy-five dollars of each fee to the General Fund and fifty dollars of each fee to the Department of Motor Vehicles Cash Fund.

This section (60-6,209 (Reissue 1993)) clearly defines the 15-year revocation as serving as a punishment and is unconstitutional because it permits a judicial commutation of a sentence of punishment. Because this section permits the judicial branch to exercise the power of commutation, a power that clearly belongs to the executive branch, this section is unconstitutional as a violation of the separation of powers clause of the Nebraska Constitution. *State v. Bainbridge*, 249 Neb. 260, 543 N.W.2d 154 (1996).

The law does not grant an absolute right to defendant to a reduction of a term of revocation, but provides that the period of revocation "may" be reduced if the provisions of the statute are shown by the applicant to be satisfied by the preponderance of the evidence. *State v. Packett*, 246 Neb. 888, 523 N.W.2d 695 (1994).

**60-6,210 Blood sample; results of chemical test; admissible in criminal prosecution; disclosure required.**

(1) If the driver of a motor vehicle involved in an accident is transported to a hospital within or outside of Nebraska and a sample of the driver's blood is withdrawn by a physician, registered nurse, qualified technician, or hospital for the purpose of medical treatment, the results of a chemical test of the sample shall be admissible in a criminal prosecution for a violation punishable under subdivision (3)(b) or (c) of section 28-306 or a violation of section 28-305, 60-6,196, or 60-6,198 to show the alcoholic content of or the presence of drugs or both in the blood at the time of the accident regardless of whether (a) a peace officer requested the driver to submit to a test as provided in section 60-6,197 or (b) the driver had refused a chemical test.

(2) Any physician, registered nurse, qualified technician, or hospital in this state performing a chemical test to determine the alcoholic content of or the presence of drugs in such blood for the purpose of medical treatment of the driver of a vehicle involved in a motor vehicle accident shall disclose the results of the test (a) to a prosecuting attorney who requests the results for use in a criminal prosecution under subdivision (3)(b) or (c) of section 28-306 or section 28-305, 60-6,196, or 60-6,198 and (b) to any prosecuting attorney in another state who requests the results for use in a criminal prosecution for driving while intoxicated, driving under the influence, or motor vehicle homicide under the laws of the other state if the other state requires a similar disclosure by any hospital or person in such state to any prosecuting attorney in Nebraska who requests the results for use in such a criminal prosecution under the laws of Nebraska.

thorized under this section. *State v. Brouillette*, 265 Neb. 214, 655 N.W.2d 876 (2003).

**60-6,211 Lifetime revocation of motor vehicle operator's license; reduction; procedure.**

Any person who prior to April 19, 1986, has had his or her motor vehicle operator's license revoked for life pursuant to section 60-6,196 or 60-6,197 may submit an application to the court for a reduction of such lifetime revocation. The court in its discretion may reduce such revocation to a period of fifteen years.

The commutation of a motor vehicle operator's license suspension by the judiciary is an improper use of a power reserved for the executive branch, and since the thrust of this section is toward that end, it is unconstitutional. *State v. Diaz*, 266 Neb. 966, 670 N.W.2d 794 (2003).

Where a criminal statute is amended to mitigate punishment, the sentence is that provided by a statute amended before final

judgment absent a specific contrary legislative mandate. *State v. Thompson*, 224 Neb. 922, 402 N.W.2d 271 (1987).

In a case pending appeal when section 39-669.07 (transferred to section 60-6,196) was amended, a sentence of lifetime suspension of a driver's license for driving while under the influence should be vacated and in lieu thereof a sentence of suspension for 15 years imposed. *State v. Painter*, 224 Neb. 905, 402 N.W.2d 677 (1987).

#### **60-6,211.02 Implied consent to submit to chemical test; when test administered; refusal; penalty.**

(1) Any person who operates or has in his or her actual physical control a motor vehicle in this state shall be deemed to have given his or her consent to submit to a chemical test or tests of his or her blood or breath for the purpose of determining the concentration of alcohol in such blood or breath.

(2) Any peace officer who has been duly authorized to make arrests for violations of traffic laws of this state or of ordinances of any city or village may require any person under twenty-one years of age to submit to a chemical test or tests of his or her blood or breath for the purpose of determining the concentration of alcohol in such blood or breath when the officer has probable cause to believe that such person was driving or was in the actual physical control of a motor vehicle in this state in violation of section 60-6,211.01. Such peace officer may require such person to submit to a preliminary breath test. Any person who refuses to submit to such preliminary breath test or whose preliminary breath test results indicate an alcohol concentration in violation of section 60-6,211.01 shall be placed under arrest.

(3) Any person arrested as provided in this section may, upon the direction of a peace officer, be required to submit to a chemical test or tests of his or her blood or breath for a determination of the concentration of alcohol. If the chemical test discloses the presence of a concentration of alcohol in violation of section 60-6,211.01, the person shall be found guilty of a traffic infraction as defined in section 60-672 and upon conviction shall have his or her operator's

license impounded by the court for thirty days for each violation of section 60-6,211.01. Any person who refuses to submit to such test or tests required pursuant to this section shall not have the tests taken but shall be found guilty of a traffic infraction as defined in section 60-672 and upon conviction shall have his or her operator's license impounded by the court for ninety days for refusal to submit to such tests required pursuant to this section.

**60-6,211.04 Applicability of other laws.**

Sections 60-6,211.01 to 60-6,211.03 shall not operate to prevent any person, regardless of age, from being prosecuted or having any action taken for a violation of section 60-6,196 or 60-6,197 or having his or her operator's license revoked pursuant to sections 60-498.01 to 60-498.04 for a violation of section 60-6,196 or 60-6,197 or from being prosecuted or having any action taken under any other provision of law. If such person is believed to be under the influence of alcoholic liquor pursuant to section 60-6,196 or 60-6,197, sections 60-6,211.01 to 60-6,211.03 shall not operate to prevent prosecution of such person for a violation of section 60-6,196 or 60-6,197 even if sections 60-6,211.01 to 60-6,211.03 apply.

**Source:** Laws 1993, LB 564, § 5; Laws 2003, LB 209, § 14; Laws 2004, LB 208, § 21.

**60-6,211.05 Ignition interlock device; continuous alcohol monitoring device and abstention from alcohol use; orders authorized; prohibited acts; violation; penalty; costs; tampering with device; hearing.**

(1)(a) If an order is granted under section 60-6,196 or 60-6,197, as such sections existed prior to July 16, 2004, or section 60-6,196 or 60-6,197 and sections 60-6,197.02 and 60-6,197.03, as such sections existed on or after July 16, 2004, the court may order that the defendant install an ignition interlock device of a type approved by the Director of Motor Vehicles on each motor vehicle operated by the defendant during the period of probation. Upon sufficient evidence of installation, the defendant may apply to the director for an ignition interlock permit pursuant to section 60-4,118.06. The device shall, without tampering or the intervention of another person, prevent the defendant from operating the motor vehicle when the defendant has an alcohol concentration greater than three-hundredths of one gram or more by weight of alcohol per one hundred milliliters of his or her blood or three-hundredths of one gram or more by weight of alcohol per two hundred ten liters of his or her breath.

(b) If the court orders an ignition interlock permit and installation of an ignition interlock device as part of the judgment of conviction pursuant to section 60-6,197.03, the device shall be of a type approved by the director and shall be installed on each motor vehicle operated by the defendant. The device shall, without tampering or the intervention of another person, prevent the

defendant from operating the motor vehicle when the defendant has an alcohol concentration greater than three-hundredths of one gram or more by weight of alcohol per one hundred milliliters of his or her blood or three-hundredths of one gram or more by weight of alcohol per two hundred ten liters of his or her breath.

(2) If the court orders installation of an ignition interlock device and issuance of an ignition interlock permit pursuant to subsection (1) of this section, the court may also order the use of a continuous alcohol monitoring device and abstention from alcohol use at all times. The device shall, without tampering or the intervention of another person, test and record the alcohol consumption level of the defendant on a periodic basis and transmit such information to probation authorities.

(3) Any order issued by the court pursuant to this section shall not take effect until the defendant is eligible to operate a motor vehicle pursuant to subsection (3) of section 60-498.02.

(4)(a) If the court orders an ignition interlock device or the Board of Pardons orders an ignition interlock device under section 83-1,127.02, the court or the Board of Pardons shall order the defendant to apply for an ignition interlock permit as provided in section 60-4,118.06 which indicates that the defendant is only allowed to operate a motor vehicle equipped with an ignition interlock device.

(b) Such court order shall remain in effect for a period of time as determined by the court not to exceed the maximum term of revocation which the court could have imposed according to the nature of the violation and shall allow operation of an ignition-interlock-equipped motor vehicle only to and from the defendant's residence, the defendant's place of employment, the defendant's school, an alcohol treatment program, or an ignition interlock service facility.

(c) Such Board of Pardons order shall remain in effect for a period of time not to exceed any period of revocation the applicant is subject to at the time the application for a reprieve is made.

(5) A person who tampers with or circumvents an ignition interlock device installed under a court order while the order is in effect, who operates a motor vehicle which is not equipped with an ignition interlock device in violation of a court order made pursuant to this section, or who otherwise operates a motor vehicle equipped with an ignition interlock device in violation of the requirements of the court order under which the device was installed shall be guilty of a Class II misdemeanor.

(6) Any person restricted to operating a motor vehicle equipped with an ignition interlock device, pursuant to a Board of Pardons order, who operates upon the highways of this state a motor vehicle without such device or if the device has been disabled, bypassed, or altered in any way, shall be punished as provided in subsection (3) of section 83-1,127.02.

(7) If a person ordered to use a continuous alcohol monitoring device and abstain from alcohol use pursuant to a court order as provided in subsection (2) of this section violates the provisions of such court order by removing, tampering with, or otherwise bypassing the continuous alcohol monitoring device or by consuming alcohol while required to use such device, he or she shall have his or her ignition interlock permit revoked and be unable to apply for reinstatement for the duration of the revocation period imposed by the court.

(8) The director shall adopt and promulgate rules and regulations regarding the approval of ignition interlock devices, the means of installing ignition interlock devices, and the means of administering the ignition interlock permit program.

(9) The costs incurred in order to comply with the ignition interlock requirements of this section shall be paid by the person complying with an order for an ignition interlock permit and installation of an ignition interlock device unless the court or the Board of Pardons has determined the person to be incapable of paying for the cost of installation, removal, or maintenance of the ignition interlock device in accordance with this subsection.

(10)(a) An ignition interlock service facility shall notify the appropriate district probation office, if the order is made pursuant to subdivision (1)(a) of this section, or notify the appropriate court if the order is made pursuant to subdivision (1)(b) of this section, of any evidence of tampering with or circumvention of an ignition interlock device, or any attempts to do so, when the facility becomes aware of such evidence.

(b) If a district probation office receives evidence of tampering with or circumvention of an ignition interlock device, or any attempts to do so, from an ignition interlock service facility, the district probation office shall notify the appropriate court of such violation. The court shall immediately schedule an evidentiary hearing to be held within fourteen days after receiving such evidence, either from the district probation office or an ignition interlock service facility, and the court shall cause notice of the hearing to be given to the person operating a motor vehicle pursuant to an order under subsection (1) of this section. If the person who is the subject of such evidence does not appear at the hearing and show cause why the order made pursuant to subsection (1) of this section should remain in effect, the court shall rescind the original order. Nothing in this subsection shall apply to an order made by the Board of Pardons pursuant to section 83-1,127.02.

(11) Notwithstanding any other provision of law, the costs associated with the installation, maintenance, and removal of a court-ordered ignition interlock device by the Office of Probation Administration shall not be construed so as to create an order of probation when an order for the installation of an ignition interlock device and ignition interlock permit was made pursuant to subdivision (1)(b) of this section as part of a conviction.

This violation shall become part of the person's record maintained by the department for a period of not longer than ninety days. After ninety days, the department shall expunge the violation from the person's record.

(2) Any person whose license has been impounded pursuant to section 60-6,211.02 and who refused to submit to a chemical test or tests required

Willful reckless driving is characterized by a deliberate disregard for the safety of others or their property. For there to be willful reckless driving it is not necessary that there be property damage or injury inflicted. Here, intentional or deliberate disregard for the safety or property of others was lacking, since there was no evidence of the presence of any persons or property subjected to danger in the area, and the defendant was only driving 36 m.p.h. in a 25-m.p.h. zone. *State v. Applications shall be made and may be revoked in the same manner as for volunteer firefighters as provided in subsection (1) of this section.

**60-6,235 Clearance lights; requirements; substitution; violations; penalty.**

Every vehicle, including road rollers, road machinery, combines, farm machinery, wagons, racks, and farm tractors, (1) having a width, including load, of eighty inches or more or (2) having any part thereof or having any load thereupon which extends forty inches or more to the left of the center of the chassis shall display, when driven, pulled, operated, or propelled upon any highway during the period from sunset to sunrise and at all other times when there is not sufficient light to render such vehicle clearly discernible, two clearance lights on the left side of such vehicle.

One clearance light shall be located at the front and display an amber light which is visible, under normal atmospheric conditions, from a distance of three hundred feet to the front of such vehicle. The other clearance light shall be located at the rear and display a red light which is visible, under normal atmospheric conditions, from a distance of three hundred feet to the rear of the vehicle. The light at the rear shall be so located as not to be confused with the taillight by those approaching from the rear.

Such lights shall be located on a line with the extreme outer point of such vehicle or the load on the vehicle. The installation of the lights shall be made in such a manner that no hazard will be created by their use on the highway.

Suitable reflectors of like color and equal visibility may be substituted for such clearance lights.

Any person who violates any provision of this section shall be guilty of a Class III misdemeanor. In the event of such a conviction, as part of the judgment of conviction, the trial judge shall direct the person to produce in court or submit to the prosecuting attorney, before such person again operates the vehicle upon a highway, satisfactory proof showing that the light equipment involved in the person's conviction has been made to conform with the requirements of this section. The failure, refusal, or neglect of the convicted person to abide by such direction in the judgment of conviction shall be deemed an additional offense for which the person shall be prosecuted.

### **60-6,237 Vehicles required to have clearance lights; flares; reflectors; how and when displayed.**

The operator of any vehicle required by section 60-6,235 to have clearance lights shall, immediately upon bringing his or her vehicle to a stop upon or immediately adjacent to the traveled portion of the highway at any time during the period from sunset to sunrise, (1) place one lighted flare or one red emergency reflector at the side of such vehicle just inside the white line marking the center of paved highways and near the center of dirt or gravel highways, (2) place one lighted flare or one red emergency reflector approximately one hundred feet to the rear of such vehicle, and (3) place one lighted flare or one red emergency reflector approximately one hundred feet to the front of such vehicle. The operator shall maintain such lighted flares or red emergency reflectors in such positions during the time such vehicle remains parked, except that motor vehicles transporting flammables shall be required to use two flares or two red emergency reflectors to be placed as described in this section to the front and rear but shall not be permitted to place open flame flares adjacent to such vehicles.

Whenever the load on any vehicle extends more than four feet beyond the rear of the bed or body thereof, there shall be displayed at the end of such load in such position as to be clearly visible at all times from the rear of such load a red flag not less than twelve inches both in length and width, except that between sunset and sunrise, there shall be displayed at the end of any such load a red light plainly visible under normal atmospheric conditions at least two hundred feet from the rear of such vehicle.

(r) BRAKES

**60-6,244 Motor vehicles; brakes; requirements.**

(1) Every motor vehicle when operated upon a highway shall be equipped with brakes adequate to control the movement of and to stop and to hold such vehicle, including two separate means of applying the brakes, each of which means shall be effective to apply the brakes to at least two wheels and so constructed that no part which is liable to failure shall be common to the two, except that a motorcycle shall be required to be equipped with only one brake. All such brakes shall be maintained at all times in good working order.

(2) It shall be unlawful for any owner or operator of any motor vehicle, other than a motorcycle, to operate such motor vehicle upon a highway unless the brake equipment thereon qualifies with regard to maximum stopping distances from a speed of twenty miles per hour on dry asphalt or concrete pavement free from loose materials as follows:

(a) Two-wheel brakes, maximum stopping distance, forty feet;

(b) Four or more wheel brakes, vehicles up to seven thousand pounds gross weight, maximum stopping distance, thirty feet;

(c) Four or more wheel brakes, vehicles seven thousand pounds or more gross weight, maximum stopping distance, thirty-five feet;

(d) All hand, parking, or emergency brakes, vehicles up to seven thousand pounds gross weight, maximum stopping distance, fifty-five feet; and

(e) All hand, parking, or emergency brakes, vehicles seven thousand pounds or more gross weight, maximum stopping distance, sixty-five feet.

(3) All braking distances specified in this section shall apply to all vehicles whether unloaded or loaded to the maximum capacity permitted by law.

(4) The retarding force of one side of the vehicle shall not exceed the retarding force on the opposite side so as to prevent the vehicle stopping in a straight line.

**Source:** Laws 1931, c. 110, § 38, p. 317; Laws 1939, c. 78, § 2, p. 318; C.S.Supp.,1941, § 39-1169; R.S.1943, § 39-773; Laws 1977, LB 314, § 2; R.S.1943, (1988), § 39-6,133; Laws 1993, LB 370, § 340.

Under circumstances in this case, defendant was guilty of negligence as a matter of law for failure to utilize second braking system when first failed. *Ritchie v. Davidson*, 183 Neb. 94, 158 N.W.2d 275 (1968).

Condition of brakes, even if defective, was not a proximate cause of accident. *Odom v. Willms*, 177 Neb. 699, 131 N.W.2d 140 (1964).

Violation of this section was not negligence as matter of law and plaintiff had burden of proving negligence and proximate cause. *Starns v. Jones*, 500 F.2d 1233 (8th Cir. 1974).

#### **60-6,245 Violations; penalties.**

Any person who violates any provision of section 60-6,244 shall be guilty of a Class III misdemeanor. In the event of such conviction, as a part of the judgment of conviction, the trial judge shall direct the person so convicted to produce in court or submit to the prosecuting attorney, before such person again operates the motor vehicle upon a highway, satisfactory proof showing that the brake equipment involved in the person's conviction has been made to conform with the requirements of such section. The failure, refusal, or neglect of the convicted person to abide by such direction in the judgment of conviction shall be deemed an additional offense for which the person shall be prosecuted.

**Source:** Laws 1993, LB 370, § 341.

#### **60-6,246 Trailers; brake requirements; safety chains; when required.**

(1) All commercial trailers with a carrying capacity of more than ten thousand pounds and semitrailers shall be equipped on each wheel with brakes that can be operated from the driving position of the towing vehicle.

(2) Cabin trailers and recreational trailers having a gross loaded weight of three thousand pounds or more but less than six thousand five hundred pounds shall be equipped with brakes on at least two wheels, and such trailers with a gross loaded weight of six thousand five hundred pounds or more shall be equipped with brakes on each wheel. The brakes shall be operable from the driving position of the towing vehicle. Such trailers shall also be equipped with a breakaway, surge, or impulse switch on the trailer so that the trailer brakes are activated if the trailer becomes disengaged from the towing vehicle.

(3) Cabin trailers, recreational trailers, and utility trailers, when being towed upon a highway, shall be securely connected to the towing vehicle by means of

two safety chains or safety cables in addition to the hitch or other primary connecting device. Such safety chains or safety cables shall be so attached and shall be of sufficient breaking load strength so as to prevent any portion of such trailer drawbar from touching the roadway if the hitch or other primary connecting device becomes disengaged from the towing vehicle.

(4) For purposes of this section:

(a) Recreational trailer means a vehicular unit without motive power primarily designed for transporting a motorboat as defined in section 37-1204 or a vessel as defined in section 37-1203; and

(b) Utility trailer has the same meaning as in section 60-358.

**60-6,247 Trucks and buses; brake requirements; violation; penalty.**

It shall be unlawful for any person to operate or cause to be operated on the highways in the State of Nebraska buses or trucks having a gross weight of the truck and load exceeding twelve thousand pounds unless such bus or truck is equipped with power brakes, auxiliary brakes, or some standard booster brake equipment. Any person who violates this section shall be guilty of a Class V misdemeanor.

In order to constitute evidence of negligence, failure to have auxiliary brake equipment must have some causal relation between violation of this section and an accident. *Herman v. Firestone*, 146 Neb. 730, 21 N.W.2d 444 (1946).

When petition charges negligence in that defendant failed to have truck equipped with proper brakes, the evidence must sustain such allegations. *Knoche v. Pease Grain & Seed Co.*, 134 Neb. 130, 277 N.W. 798 (1938).

**60-6,248 Hydraulic brake fluids; requirements; violation; penalty.**

In order to promote highway safety by providing the public with safe and efficient hydraulic fluids for motor vehicle braking systems, it shall be unlawful for any person to sell, offer to sell, or display for sale any hydraulic fluids for use in motor vehicle braking systems that do not equal or exceed the specifications for types SAE 70R1 or SAE 70R3 brake fluids as set forth in 49 C.F.R. 571.116.

Any person who violates this section shall be guilty of a Class V misdemeanor.

**60-6,252 Tire condition; requirements.**

(1) No person shall drive or move a motor vehicle on any highway unless such vehicle is equipped with tires in safe operating condition in accordance with subsection (2) of this section.

(2) A tire shall be considered unsafe if it has:

(a) Any bump, bulge, or knot affecting the tire structure;

(b) A break which exposes a tire body cord or is repaired with a boot or patch;

(c) A tread depth of less than two thirty-seconds of an inch measured in any two tread grooves at three locations equally spaced around the circumference of the tire or, on those tires with tread wear indicators, been worn to the point that the tread wear indicators contact the road in any two tread grooves at three locations equally spaced around the circumference of the tire, except that this subdivision shall not apply to truck tires with ten or more cord plies which are mounted on dual wheels; or

(d) Such other conditions as may be reasonably demonstrated to render the tire unsafe.

(1) Meets the requirements of 49 C.F.R. 571.208, 571.209, and 571.210 as such regulations currently exist or as the regulations existed when the occupant protection system was originally installed by the manufacturer; or

(2) If the occupant protection system has been replaced, meets the requirements of 49 C.F.R. 571.208, 571.209, and 571.210 that applied to the originally installed occupant protection system or of a more recently issued version of such regulations. The purchaser of any such vehicle may designate the make or brand of or furnish such occupant protection system to be installed.

Any person selling a motor vehicle in this state not in compliance with this section shall be guilty of a Class V misdemeanor.

(b) All children six years of age and less than eighteen years of age being transported by such vehicle use an occupant protection system.

This subsection shall apply to every motor vehicle which is equipped with an occupant protection system or is required to be equipped with restraint systems pursuant to Federal Motor Vehicle Safety Standard 208, as such standard existed on January 1, 2009, except taxicabs, mopeds, motorcycles, and any motor vehicle designated by the manufacturer as a 1963 year model or earlier which is not equipped with an occupant protection system.

(2) Whenever any licensed physician determines, through accepted medical procedures, that use of a child passenger restraint system by a particular child would be harmful by reason of the child's weight, physical condition, or other medical reason, the provisions of subsection (1) of this section shall be waived.

The driver of any vehicle transporting such a child shall carry on his or her person or in the vehicle a signed written statement of the physician identifying the child and stating the grounds for such waiver.

(3) The drivers of authorized emergency vehicles shall not be subject to the requirements of subsection (1) of this section when operating such authorized emergency vehicles pursuant to their employment.

(4) A driver of a motor vehicle shall not be subject to the requirements of subsection (1) of this section if the motor vehicle is being operated in a parade or exhibition and the parade or exhibition is being conducted in accordance with applicable state law and local ordinances and resolutions.

(5) The Department of Roads shall develop and implement an ongoing statewide public information and education program regarding the use of child passenger restraint systems and occupant protection systems and the availability of distribution and discount programs for child passenger restraint systems.

(1) A person violating any provision of subsection (1) of section 60-6,267 shall be guilty of an infraction as defined in section 29-431 and shall be fined twenty-five dollars for each violation. The failure to provide a child restraint system for more than one child in the same vehicle at the same time, as required in such subsection, shall not be treated as a separate offense.

(2) Enforcement of subdivision (1)(b) and subsection (6) of section 60-6,267 shall be accomplished only as a secondary action when an operator of a motor vehicle has been cited or charged with a violation or some other offense unless the violation involves a person under the age of eighteen years riding in or on any portion of the vehicle not designed or intended for the use of passengers when the vehicle is in motion.

**60-6,269 Violation of child passenger restraint requirements; how construed.**

Violations of the provisions of sections 60-6,267 and 60-6,268 shall not constitute prima facie evidence of negligence nor shall compliance with such sections constitute a defense to any claim for personal injuries to a child or recovery of medical expenses for injuries sustained in any motor vehicle accident. Violation of such sections by a driver shall not constitute a defense for

another person to any claim for personal injuries to a child or recovery of medical expenses for injuries sustained in any motor vehicle accident.

**60-6,270 Occupant protection system; use required; when; exceptions.**

(1) Except as provided in subsection (2) of this section, no driver shall operate a motor vehicle upon a highway or street in this state unless the driver and each front-seat occupant in the vehicle are wearing occupant protection systems and all occupant protection systems worn are properly adjusted and fastened.

(2) The following persons shall not be required to wear an occupant protection system:

(a) A person who possesses written verification from a physician that the person is unable to wear an occupant protection system for medical reasons;

(b) A rural letter carrier of the United States Postal Service while performing his or her duties as a rural letter carrier between the first and last delivery points; and

(c) A member of an emergency medical service while involved in patient care.

**60-6,271 Enforcement of occupant protection system requirements; when.**

Enforcement of section 60-6,270 by state or local law enforcement agencies shall be accomplished only as a secondary action when a driver of a motor vehicle has been cited or charged with a violation or some other offense.

**60-6,272 Occupant protection system; violation; penalty.**

Any person who violates section 60-6,270 shall be guilty of a traffic infraction and shall be fined twenty-five dollars, but no court costs shall be assessed against him or her nor shall any points be assessed against the driving record of such person. Regardless of the number of persons in such vehicle not wearing an occupant protection system pursuant to such section, only one violation shall be assessed against the driver of such motor vehicle for each time the motor vehicle is stopped and a violation of such section is found.

**Source:** Laws 1985, LB 496, § 5; Laws 1992, LB 958, § 5; R.S.Supp.,1992, § 39-6,103.06; Laws 1993, LB 370, § 368; Laws 1993, LB 575, § 22.

**60-6,273 Occupant protection system violation; evidence; when admissible.**

Evidence that a person was not wearing an occupant protection system at the time he or she was injured shall not be admissible in regard to the issue of liability or proximate cause but may be admissible as evidence concerning

mitigation of damages, except that it shall not reduce recovery for damages by more than five percent.

**Source:** Laws 1985, LB 496, § 7; Laws 1992, LB 958, § 7; R.S.Supp.,1992, § 39-6,103.08; Laws 1993, LB 370, § 369.

Under this section, evidence that a person was not wearing a seatbelt is admissible only as evidence concerning the mitigation of damages and cannot be used with respect to the issue of liability or proximate cause. *Fickle v. State*, 273 Neb. 990, 735 N.W.2d 754 (2007).

Evidence of seatbelt misuse or nonuse was not admissible under this section where the plaintiff had dropped her claim that the seatbelt was faulty and stipulated before trial to a 5-percent reduction in the judgment. The trial court's reduction of the jury's award by 5 percent represented the full mitigation of damages available. *Shipler v. General Motors Corp.*, 271 Neb. 194, 710 N.W.2d 807 (2006).

Evidence of plaintiff's failure to wear a seatbelt may be introduced for mitigation of damages if defendant has demonstrated a causal connection between plaintiff's failure to wear an available seatbelt and the damages sustained by plaintiff. Jury instruction on plaintiff's failure to wear a seatbelt is proper to reduce damages by 5 percent or less, but only when defendant has demonstrated a causal connection between plaintiff's failure to wear an available seatbelt and the damages sustained by plaintiff. *Vredeveld v. Clark*, 244 Neb. 46, 504 N.W.2d 292 (1993).

Any device prohibited by sections 60-6,275 and 60-6,276 found as the result of an arrest made under such sections shall be seized, and when no longer needed as evidence, such device shall, if the owner was convicted of an offense under such sections, be considered as contraband and disposed of pursuant to section 29-820.

## (w) HELMETS

**60-6,278 Legislative findings.**

The Legislature hereby finds and declares that head injuries that occur to motorcyclists and moped operators which could be prevented or lessened by the wearing of helmets are a societal problem and that the financial and emotional costs of such injuries cannot be viewed solely on a personal level. It is the intent of the Legislature to prevent injuries and fatalities which occur due to motorcycle and moped accidents and to prevent the subsequent damage to society which results due to the cost of caring for injured people, the pain and suffering which accompanies such injuries and fatalities, and the loss of productive members of society from such injuries.

**60-6,279 Protective helmets; required; when.**

A person shall not operate or be a passenger on a motorcycle or moped on any highway in this state unless such person is wearing a protective helmet of the type and design manufactured for use by operators of such vehicles and unless such helmet is secured properly on his or her head with a chin strap while the vehicle is in motion. All such protective helmets shall be designed to reduce injuries to the user resulting from head impacts and shall be designed to protect the user by remaining on the user's head, deflecting blows, resisting penetration, and spreading the force of impact. Each such helmet shall consist of lining, padding, and chin strap and shall meet or exceed the standards established in the United States Department of Transportation's Federal Motor Vehicle Safety Standard No. 218, 49 C.F.R. 571.218, for motorcycle helmets.

**Source:** Laws 1988, LB 428, § 2; R.S.1943, (1988), § 39-6,211; Laws 1993, LB 370, § 375.

The list required by section 39-6,212 (transferred to section 60-6,280) acts as a limiting construction of this section by enumerating some of those helmets which meet the criteria of this section; when taken together, the helmet law and list are not vague. Claims that this section violates constitutional rights to due process and equal protection are without merit, since the helmet law implicates neither a fundamental right nor a suspect

classification and is rationally related to a legitimate legislative aim. Although the State may promulgate and enforce motorcycle helmet standards only if the state standards are identical to those promulgated by the federal Department of Transportation, the helmet law is constitutional, since the visor requirement is properly severable from the remainder of this section. *Robertham v. State*, 241 Neb. 379, 488 N.W.2d 533 (1992).

**60-6,280 Approved protective helmets.**

The Department of Motor Vehicles shall publish a list of approved protective helmets which meet the requirements of section 60-6,279. Such list shall not be inclusive. Any person wearing a protective helmet which meets the require-

ments established pursuant to such section shall be deemed to be in compliance with such section.

**Source:** Laws 1988, LB 428, § 3; R.S.1943, (1988), § 39-6,212; Laws 1993, LB 370, § 376.

Since the list required by this section is noninclusive, it does not improperly delegate to the Department of Motor Vehicles the authority to define the essential elements of a crime. *Robot-ham v. State*, 241 Neb. 379, 488 N.W.2d 533 (1992).

**60-6,281 Protective helmets; conformance with federal standards; effect.**

Any person using a protective helmet purchased prior to July 9, 1988, which is labeled to show that it conforms with applicable federal motor vehicle safety standards shall be deemed to be in compliance with section 60-6,279.

**Source:** Laws 1988, LB 428, § 4; R.S.1943, (1988), § 39-6,213; Laws 1993, LB 370, § 377.

**60-6,282 Violation; penalty.**

Any person who violates section 60-6,279 shall be guilty of a traffic infraction and shall be fined fifty dollars.

(x) MISCELLANEOUS EQUIPMENT PROVISIONS

**60-6,283 Splash aprons; requirements.**

Every new motor vehicle or semitrailer purchased after January 1, 1956, and operated on any highway in this state shall be equipped with fenders, covers, or devices, including flaps or splash aprons, unless the body of the vehicle affords adequate protection to effectively minimize the spray or splash of water or mud to the rear of the motor vehicle or semitrailer.

**60-6,284 Towing; drawbars or other connections; length; red flag required, when.**

The drawbar or other connection between any two vehicles, one of which is towing or drawing the other on a highway, shall not exceed fifteen feet in length from one vehicle to the other, except a vehicle being towed with a connection device that is an integral component of the vehicle and is designed to attach to a lead unit with construction in such a manner as to allow articulation at the attachment point on the chassis of the towed vehicle but not to allow lateral or side-to-side movement. Such connecting device shall meet the safety standards for towbar failure or disconnection in the parts, subparts, and sections of Title 49 of the Code of Federal Regulations adopted pursuant to section 75-363 and shall have displayed at approximately the halfway point between the towing vehicle and the towed vehicle on the connecting mechanism a red flag or other signal or cloth not less than twelve inches both in length and width that shall be at least five feet and not more than ten feet from the level of the paving and shall be displayed along the outside line on both sides of the towing and towed vehicles. Whenever such connection consists of a

chain, rope, or cable, there shall be displayed upon such connection a red flag or other signal or cloth not less than twelve inches both in length and width.

**60-6,285 Horn; requirements; prohibited acts.**

Every motor vehicle when operated upon a highway shall be equipped with a horn in good working order capable of emitting sound audible under normal conditions from a distance of not less than two hundred feet. Except as otherwise provided in this section, it shall be unlawful for any vehicle to be equipped with or for any person to use upon a vehicle any siren, exhaust, compression, or spark plug whistle or for any person at any time to use a horn, otherwise than as a reasonable warning, or to make any unnecessary or unreasonably loud or harsh sound by means of a horn or other warning device. Every police and fire department and fire patrol vehicle and every ambulance used for emergency calls shall be equipped with a bell, siren, or exhaust whistle.

Where evidence is not sufficient to support finding there was a duty to sound a horn, court could not properly submit that issue. *Merritt v. Reed*, 186 Neb. 561, 185 N.W.2d 261 (1971).

The duty to sound a signal, warning of the approach of a motor vehicle, depends largely on the circumstances of the particular case. *Tews v. Bamrick and Carroll*, 148 Neb. 59, 26 N.W.2d 499 (1947).

Before backing a motor vehicle, operator must give signal of intention. *Chew v. Coffin*, 144 Neb. 170, 12 N.W.2d 839 (1944).

Failure of trial court to supplement its instructions to include provisions of this section was not erroneous. *Bern v. Evans*, 349 F.2d 282 (8th Cir. 1965).

**60-6,286 Muffler or noise-suppressing system; prevention of fumes and smoke; requirements.**

Every vehicle shall be equipped, maintained, and operated so as to prevent excessive or unusual noise. No person shall drive a motor vehicle on a highway unless such motor vehicle is equipped with a muffler or other effective noise-suppressing system in good working order and in constant operation. It shall be unlawful to use a muffler cutout, bypass, or similar device on any motor vehicle upon a highway.

The engine and power mechanism of every motor vehicle shall be so equipped and adjusted as to prevent the escape of excessive fumes or smoke.

**60-6,287 Television set; equipping motor vehicle with screen visible to driver; unlawful; penalty.**

It shall be unlawful to operate upon any public highway in this state a motor vehicle which is equipped with or in which is located a television set so placed

that the viewing screen is visible to the driver while operating such vehicle. Any person violating this section shall be guilty of a Class V misdemeanor.

(1) No vehicle which exceeds a total outside width of one hundred two inches, including any load but excluding designated safety devices, shall be permitted on any portion of the National System of Interstate and Defense Highways. The Director-State Engineer shall adopt and promulgate rules and regulations, consistent with federal requirements, designating safety devices which shall be excluded in determining vehicle width.

(2) No vehicle which exceeds a total outside width of one hundred two inches, including any load but excluding designated safety devices, shall be permitted on any highway which is not a portion of the National System of Interstate and Defense Highways, except that such prohibition shall not apply to:

(a) Farm equipment in temporary movement, during daylight hours or during hours of darkness when the clearance light requirements of section 60-6,235 are fully complied with, in the normal course of farm operations;

(b) Combines eighteen feet or less in width, while in the normal course of farm operations and while being driven during daylight hours or during hours of darkness when the clearance light requirements of section 60-6,235 are fully complied with;

(c) Combines in excess of eighteen feet in width, while in the normal course of farm operations, while being driven during daylight hours for distances of twenty-five miles or less on highways and while preceded by a well-lighted pilot vehicle or flagperson, except that such combines may be driven on highways while in the normal course of farm operations for distances of twenty-five miles or less and while preceded by a well-lighted pilot vehicle or flagperson during hours of darkness when the clearance light requirements of section 60-6,235 are fully complied with;

(d) Combines and vehicles used in transporting combines or other implements of husbandry, and only when transporting combines or other implements of husbandry, to be engaged in harvesting or other agricultural work, while being transported into or through the state during daylight hours, when the total width including the width of the combine or other implement of husbandry being transported does not exceed fifteen feet, except that vehicles used in transporting combines or other implements of husbandry may, when necessary to the harvesting operation or other agricultural work, travel unloaded for

distances not to exceed twenty-five miles, while the combine or other implement of husbandry to be transported is engaged in a harvesting operation or other agricultural work;

(h) Mobile homes or prefabricated livestock buildings not exceeding sixteen feet in width and with an outside tire width dimension not exceeding one hundred twenty inches moving during daylight hours;

(i) Self-propelled specialized mobile equipment with a fixed load when:

(i) The self-propelled specialized mobile equipment will be transported on a state highway, excluding any portion of the National System of Interstate and Defense Highways, on a city street, or on a road within the corporate limits of a city;

(ii) The city in which the self-propelled specialized mobile equipment is intended to be transported has authorized a permit pursuant to section 60-6,298 for the transportation of the self-propelled specialized mobile equipment, specifying the route to be used and the hours during which the self-propelled specialized mobile equipment can be transported, except that no permit shall be issued by a city for travel on a state highway containing a bridge or structure which is structurally inadequate to carry the self-propelled specialized mobile equipment as determined by the Department of Roads;

(iii) The self-propelled specialized mobile equipment's gross weight does not exceed ninety-four thousand pounds if the self-propelled specialized mobile equipment has four axles or seventy-two thousand pounds if the self-propelled specialized mobile equipment has three axles; and

(k) A motor home or travel trailer, as those terms are defined in section 71-4603, which may exceed one hundred and two inches if such excess width is attributable to an appurtenance that extends no more than six inches beyond the body of the vehicle. For purposes of this subdivision, the term appurtenance includes (i) an awning and its support hardware and (ii) any appendage that is intended to be an integral part of a motor home or travel trailer and that is installed by the manufacturer or dealer. The term appurtenance does not include any item that is temporarily affixed or attached to the exterior of the motor home or travel trailer for purposes of transporting the vehicular unit from one location to another. Appurtenances shall not be considered in calculating the gross trailer area as defined in section 71-4603.

(3) The Director-State Engineer, with respect to highways under his or her jurisdiction, may designate certain highways upon which vehicles of no more than ninety-six inches in width may be permitted to travel. Highways so designated shall be limited to one or more of the following:

- (a) Highways with traffic lanes of ten feet or less;
- (b) Highways upon which are located narrow bridges; and

### 60-6,292 Extra-long vehicle combinations; permit; conditions; fee; rules and regulations; violation; penalty.

(1) The Department of Roads may issue permits for the use of extra-long vehicle combinations. Such permits shall allow the extra-long vehicle combinations to operate only on the National System of Interstate and Defense Highways and only if such vehicles are empty and are being delivered for the manufacturer or retailer, except that a highway located not more than six miles from the National System of Interstate and Defense Highways may also be designated in such permits if it is determined by the Director-State Engineer that such designation is necessary for the permit holder to have access to the National System of Interstate and Defense Highways. An annual permit for such use may be issued to each qualified carrier company or individual. The carrier company or individual shall maintain a copy of such annual permit in each truck-tractor operating as a part of an extra-long vehicle combination. The fee for such permit shall be two hundred fifty dollars per year.

(2) The permit shall allow operation of the following extra-long vehicle combinations of not more than three cargo units and not fewer than six axles nor more than nine axles:

(a) A truck-tractor, a semitrailer, and two trailers having an overall combination length of not more than one hundred five feet. Semitrailers and trailers shall be of approximately equal lengths;

(b) A truck-tractor, semitrailer, and single trailer having an overall length of not more than one hundred five feet. Semitrailers and trailers shall be of approximately equal lengths; and

(c) A truck-tractor, semitrailer, or single trailer, one trailer of which is not more than forty-eight feet long, the other trailer of which is not more than twenty-eight feet long nor less than twenty-six feet long, and the entire combination of which is not more than ninety-five feet long. The shorter trailer shall be operated as the rear trailer.

For purposes of this subsection, a semitrailer used with a converter dolly shall be considered a trailer.

(3) The department shall adopt and promulgate rules and regulations governing the issuance of the permits, including, but not limited to, selection of carriers, driver qualifications, equipment selection, hours of operations, weather conditions, road conditions, and safety considerations.

(4) Any person who violates this section shall be guilty of a Class IV misdemeanor.

**60-6,293 Truck-trailer combination; warning decal, when.**

A warning decal shall be attached to every truck-trailer combination, except trailers subject to section 60-6,243, having a connection device between such vehicles which is more than twelve feet in length. Such decal shall be made of red reflectorized material and contain the words:

LONG VEHICLE  
PASS WITH CARE

The letters shall be of white reflectorized material and shall be not less than three inches in height.

The decal shall be affixed to the sides and rear parts of the trailer at a height of not less than forty-eight inches nor more than seventy-four inches from the ground level.

**60-6,294 Vehicles; weight limit; further restrictions by department, when authorized; axle load; load limit on bridges; overloading; liability.**

(1) Every vehicle, whether operated singly or in a combination of vehicles, and every combination of vehicles shall comply with subsections (2) and (3) of this section except as provided in sections 60-6,294.01 and 60-6,297. The limitations imposed by this section shall be supplemental to all other provisions imposing limitations upon the size and weight of vehicles.

(2) No wheel of a vehicle or trailer equipped with pneumatic or solid rubber tires shall carry a gross load in excess of ten thousand pounds on any highway nor shall any axle carry a gross load in excess of twenty thousand pounds on any highway. An axle load shall be defined as the total load transmitted to the

highway by all wheels the centers of which may be included between two parallel transverse vertical planes forty inches apart extending across the full width of the vehicle.

(3) No group of two or more consecutive axles shall carry a load in pounds in excess of the value given in the following table corresponding to the distance in feet between the extreme axles of the group, measured longitudinally to the nearest foot, except that the maximum load carried on any group of two or more axles shall not exceed eighty thousand pounds on the National System of Interstate and Defense Highways unless the Director-State Engineer pursuant to section 60-6,295 authorizes a greater weight.

(4) The distance between axles shall be measured to the nearest foot. When a fraction is exactly one-half foot, the next larger whole number shall be used, except that:

(a) Any group of three axles shall be restricted to a maximum load of thirty-four thousand pounds unless the distance between the extremes of the first and third axles is at least ninety-six inches in fact; and

(b) The maximum gross load on any group of two axles, the distance between the extremes of which is more than eight feet but less than eight feet six inches, shall be thirty-eight thousand pounds.

(5) The limitations of subsections (2) through (4) of this section shall apply as stated to all main, rural, and intercity highways but shall not be construed as inhibiting heavier axle loads in metropolitan areas, except on the National System of Interstate and Defense Highways, if such loads are not prohibited by city ordinance.

(6) The weight limitations of wheel and axle loads as defined in subsections (2) through (4) of this section shall be restricted to the extent deemed necessary by the Department of Roads for a reasonable period when road subgrades or pavements are weak or are materially weakened by climatic conditions.

(7) Two consecutive sets of tandem axles may carry a gross load of thirty-four thousand pounds each when the overall distance between the first and last axles of such consecutive sets of tandem axles is thirty-six, thirty-seven, or thirty-eight feet except as provided in section 60-6,297. Such vehicles shall be subject to section 60-6,301.

(8) If any vehicle crosses a bridge with a total gross load in excess of the posted capacity of such bridge and as a result of such crossing any damage results to the bridge, the owner of such vehicle shall be responsible for all of such damage.

(9) Vehicles equipped with a greater number of axles than provided in the tables in subsection (3) of this section shall be legal if they do not exceed the maximum load upon any wheel or axle, the maximum load upon any group of

two or more consecutive axles, and the total gross weight, or any of such weights as provided in subsections (2) and (3) of this section.

(10) Subsections (1) through (9) of this section shall not apply to a vehicle which has been issued a permit pursuant to section 60-6,299, self-propelled specialized mobile equipment with a fixed load when the requirements of subdivision (2)(i) of section 60-6,288 are met, or an emergency vehicle when the requirements of subdivision (1)(a)(v) of section 60-6,298 are met.

(11) Any two consecutive axles the centers of which are more than forty inches and not more than ninety-six inches apart, measured to the nearest inch between any two adjacent axles in the series, shall be defined as tandem axles, and the gross weight transmitted to the road surface through such series shall not exceed thirty-four thousand pounds. No axle of the series shall exceed the maximum weight permitted under this section for a single axle.

(12) Dummy axles shall be disregarded in determining the lawful weight of a vehicle or vehicle combination for operation on the highway. Dummy axle shall mean an axle attached to a vehicle or vehicle combination in a manner so that it does not articulate or substantially equalize the load and does not carry at least the lesser of eight thousand pounds or eight percent of the gross weight of the vehicle or vehicle combination.

(13) The maximum gross weight limit and the axle weight limit for any vehicle or combination of vehicles equipped with idle reduction technology may be increased by an amount necessary to compensate for the additional weight of the idle reduction technology as provided in 23 U.S.C. 127(a)(12), as such section existed on July 18, 2008. The additional amount of weight allowed by this subsection shall not exceed four hundred pounds and shall not be construed to be in addition to the five-percent-in-excess-of-maximum-load provision of subdivision (1) of section 60-6,301.

(1)(a) The Department of Roads or the Nebraska State Patrol, with respect to highways under its jurisdiction including the National System of Interstate and Defense Highways, and local authorities, with respect to highways under their jurisdiction, may in their discretion upon application and good cause being shown therefor issue a special, continuing, or continuous permit in writing authorizing the applicant or his or her designee:

(i) To operate or move a vehicle, a combination of vehicles, or objects of a size or weight of vehicle or load exceeding the maximum specified by law when such permit is necessary:

(A) To further the national defense or the general welfare;

(B) To permit movement of cost-saving equipment to be used in highway or other public construction or in agricultural land treatment; or

(C) Because of an emergency, an unusual circumstance, or a very special situation;

(ii) To operate vehicles, for a distance up to one hundred twenty miles, loaded up to fifteen percent greater than the maximum weight specified by law, up to ten percent greater than the maximum length specified by law, except that for a truck-tractor semitrailer trailer combination utilized to transport sugar beets which may be up to twenty-five percent greater than the maximum length specified by law, or both, when carrying grain or other seasonally harvested products from the field where such grain or products are harvested to storage, market, or stockpile in the field or from stockpile to market or factory when failure to move such grain or products in abundant quantities would cause an economic loss to the person or persons whose grain or products are being transported or when failure to move such grain or products in as large quantities as possible would not be in the best interests of the national defense or general welfare. The distance limitation may be waived for vehicles when carrying dry beans from the field where harvested to storage or market when dry beans are not normally stored, purchased, or used within the permittee's local area and must be transported more than one hundred twenty miles to an available marketing or storage destination. No permit shall authorize a weight greater than twenty thousand pounds on any single axle;

(iii) To transport an implement of husbandry which does not exceed twelve and one-half feet in width during daylight hours, except that the permit shall not allow transport on holidays;

(iv) To operate one or more recreational vehicles, as defined in section 71-4603, exceeding the maximum width specified by law if movement of the recreational vehicles is prior to retail sale and the recreational vehicles comply with subdivision (2)(k) of section 60-6,288; or

(v) To operate an emergency vehicle for purposes of sale, demonstration, exhibit, or delivery, if the applicant or his or her designee is a manufacturer or sales agent of the emergency vehicle. No permit shall be issued for an emergency vehicle which weighs over sixty thousand pounds on the tandem axle.

(b) No permit shall be issued under subdivision (a)(i) of this subsection for a vehicle carrying a load unless such vehicle is loaded with an object which exceeds the size or weight limitations, which cannot be dismantled or reduced in size or weight without great difficulty, and which of necessity must be moved over the highways to reach its intended destination. No permit shall be required for the temporary movement on highways other than dustless-surfaced state highways and for necessary access to points on such highways during daylight hours of cost-saving equipment to be used in highway or other public construction or in agricultural land treatment when such temporary movement is necessary and for a reasonable distance.

(2) The application for any such permit shall specifically describe the vehicle, the load to be operated or moved, whenever possible the particular highways for which permit to operate is requested, and whether such permit is requested for a single trip or for continuous or continuing operation.

(3) The department or local authority is authorized to issue or withhold such permit at its discretion or, if such permit is issued, to limit the number of days during which the permit is valid, to limit the number of trips, to establish seasonal or other time limitations within which the vehicles described may be operated on the highways indicated, or to issue a continuous or continuing permit for use on all highways, including the National System of Interstate and Defense Highways. The permits are subject to reasonable conditions as to periodic renewal of such permit and as to operation or movement of such vehicles. The department or local authority may otherwise limit or prescribe conditions of operation of such vehicle or vehicles, when necessary to assure against undue damage to the road foundations, surfaces, or structures or undue danger to the public safety. The department or local authority may require such undertaking or other security as may be deemed necessary to compensate for any injury to any roadway or road structure.

(4) Every such permit shall be carried in the vehicle to which it refers and shall be open to inspection by any peace officer, carrier enforcement officer, or authorized agent of any authority granting such permit. Each such permit shall state the maximum weight permissible on a single axle or combination of axles and the total gross weight allowed. No person shall violate any of the terms or conditions of such special permit. In case of any violation, the permit shall be deemed automatically revoked and the penalty of the original limitations shall be applied unless:

(a) The violation consists solely of exceeding the size or weight specified by the permit, in which case only the penalty of the original size or weight limitation exceeded shall be applied; or

(b) The total gross load is within the maximum authorized by the permit, no axle is more than ten percent in excess of the maximum load for such axle or group of axles authorized by the permit, and such load can be shifted to meet the weight limitations of wheel and axle loads authorized by such permit. Such shift may be made without penalty if it is made at the state or commercial scale designated in the permit. The vehicle may travel from its point of origin to such designated scale without penalty, and a scale ticket from such scale, showing

the vehicle to be properly loaded and within the gross and axle weights authorized by the permit, shall be reasonable evidence of compliance with the terms of the permit.

(5) The department or local authority issuing a permit as provided in this section may adopt and promulgate rules and regulations with respect to the issuance of permits provided for in this section.

(6) The department shall make available applications for permits authorized pursuant to subdivisions (1)(a)(ii) and (1)(a)(iii) of this section in the office of each county treasurer. The department may make available applications for all other permits authorized by this section to the office of the county treasurer and may make available applications for all permits authorized by this section to any other location chosen by the department.

(7) The department or local authority issuing a permit may require a permit fee of not to exceed twenty-five dollars, except that:

(a) The fee for a continuous or continuing permit may not exceed twenty-five dollars for a ninety-day period, fifty dollars for a one-hundred-eighty-day period, or one hundred dollars for a one-year period; and

(b) The fee for permits issued pursuant to subdivision (1)(a)(ii) of this section shall be twenty-five dollars for a thirty-day permit and fifty dollars for a sixty-day permit. Permits issued pursuant to such subdivision shall be valid for thirty days or sixty days and shall be renewable for a total number of days not to exceed one hundred and twenty days per year.

A vehicle or combination of vehicles for which an application for a permit is requested pursuant to this section shall be registered under section 60-3,147 or 60-3,198 for the maximum gross vehicle weight that is permitted pursuant to section 60-6,294 before a permit shall be issued.

#### **60-6,299 Permit to move building; limitations; application; Department of Roads; rules and regulations; violation; penalty.**

(1) The Department of Roads may issue permits for vehicles moving a building or objects requiring specialized moving dollies. Such permits shall

allow the vehicles transporting buildings or objects requiring specialized dollies to operate on highways under the jurisdiction of the department, excluding any portion of the National System of Interstate and Defense Highways. Such permit shall specify the maximum allowable width, length, height, and weight of the building to be transported, the route to be used, and the hours during which such building or object may be transported. Any vehicle moving a building or object requiring specialized moving dollies shall be escorted by another vehicle or vehicles in the manner determined by the department. Such vehicles shall travel at a speed which is not in excess of five miles per hour when carrying loads which are in excess of the maximum gross weight specified by law by more than twenty-five percent. The permit shall not be issued for travel on a state highway containing a bridge or structure which is structurally inadequate to carry such building or object as determined by the department. The department may prescribe conditions of operation of such vehicle when necessary to assure against damage to the road foundations, surfaces, or structures and require such security as may be deemed necessary to compensate for any injury to any roadway or road structure.

(2) The application for any such permit shall specifically describe the vehicle, the load to be moved, and whenever possible the particular highways for which the permit is requested. The company or individual shall maintain a copy of the permit in each vehicle moving a building or object requiring specialized moving dollies which shall be open to inspection by any peace officer, carrier enforcement officer, or authorized agent of any authority granting such permit. The fee for such permit shall be ten dollars.

(3) The department shall adopt and promulgate rules and regulations governing the issuance of the permits. Such rules and regulations shall include, but not be limited to, driver qualifications, equipment selection, hours of operation, weather conditions, road conditions, determination of any damage caused to highways or bridges, cutting or trimming of trees, removal or relocation of signs or other property of the state, raising or lowering of electric supply and communication lines, and such other safety considerations as the department deems necessary.

**60-6,301 Vehicles; overload; reduce or shift load; exceptions; permit fee; warning citation; when.**

When any motor vehicle, semitrailer, or trailer is operated upon the highways of this state carrying a load in excess of the maximum weight permitted by section 60-6,294, the load shall be reduced or shifted to within such maximum tolerance before being permitted to operate on any public highway of this state, except that:

(1) If any motor vehicle, semitrailer, or trailer exceeds the maximum load on only one axle, only one tandem axle, or only one group of axles when (a) the distance between the first and last axle of such group of axles is twelve feet or less, (b) the excess axle load is no more than five percent in excess of the maximum load for such axle, tandem axle, or group of axles permitted by such section, while the vehicle or combination of vehicles is within the maximum gross load, and (c) the load on such vehicle is such that it can be shifted or the configuration of the vehicle can be changed so that all axles, tandem axle, or groups of axles are within the maximum permissible limit for such axle, tandem axle, or group of axles, such shift or change of configuration may be made without penalty;

(2) Any motor vehicle, semitrailer, or trailer carrying only a load of livestock may exceed the maximum load as permitted by such section on only one axle, only one tandem axle, or only one group of axles when the distance between the first and last axle of the group of axles is six feet or less if the excess load on the axle, tandem axle, or group of axles is caused by a shifting of the weight of the livestock by the livestock and if the vehicle or combination of vehicles is within the maximum gross load as permitted by such section;

(3) With a permit issued by the Department of Roads or the Nebraska State Patrol, a truck with an enclosed body and a compacting mechanism, designed and used exclusively for the collection and transportation of garbage or refuse, may exceed the maximum load as permitted by such section by no more than twenty percent on only one axle, only one tandem axle, or only one group of axles when the vehicle is laden with garbage or refuse if the vehicle is within the maximum gross load as permitted by such section. There shall be a permit fee of ten dollars per month or one hundred dollars per year. The permit may be issued for one or more months up to one year, and the term of applicability shall be stated on the permit;

(4) Any motor vehicle, semitrailer, or trailer carrying any kind of a load, including livestock, which exceeds the legal maximum gross load by five percent or less may proceed on its itinerary and unload the cargo carried thereon to the maximum legal gross weight at the first unloading facility on the itinerary where the cargo can be properly protected. All material so unloaded shall be cared for by the owner or operator of such vehicle at the risk of such owner or operator; and

(5) Any motor vehicle, semitrailer, or trailer carrying grain or other seasonally harvested products may operate from the field where such grain or products are harvested to storage, market, or stockpile in the field or from stockpile to market or factory up to seventy miles with a load that exceeds the maximum load permitted by section 60-6,294 by fifteen percent on any tandem axle, group of axles, and gross weight. Any truck with no more than a single rear axle carrying grain or other seasonally harvested products may operate from the field where such grain or products are harvested to storage, market, or stockpile in the field or from stockpile to market or factory up to seventy miles with a load that exceeds the maximum load permitted by section 60-6,294 by fifteen percent on any single axle and gross weight. The owner or a representative of the owner of the agricultural product shall furnish the driver of the loaded vehicle a signed statement of origin and destination.

Nothing in this section shall be construed to permit to be operated on the National System of Interstate and Defense Highways any vehicle or combination of vehicles which exceeds any of the weight limitations applicable to such system as contained in section 60-6,294.

If the maximum legal gross weight or axle weight of any vehicle is exceeded by five percent or less and the arresting peace officer or carrier enforcement officer has reason to believe that such excessive weight is caused by snow, ice, or rain, the officer may issue a warning citation to the operator.

**60-6,303 Vehicles; overloading; powers of peace officer or carrier enforcement officer; violation; penalty.**

Any peace officer or carrier enforcement officer having reason to believe that the weight of a vehicle and load is unlawful is authorized to require the driver to stop and submit to a weighing of the vehicle and load. Upon weighing a vehicle and load, if the officer determines that the weight on any axle exceeds the lawful weight, that the weight on any group of two consecutive axles exceeds their lawful weight, or that the weight is unlawful on any axle or group of consecutive axles on any road restricted in accordance with section 60-6,294, the officer may require the driver to stop the vehicle in a suitable place and remain standing until such portion of the load is removed as may be necessary to reduce the gross weight of such vehicle to such limit as permitted under such

section. All material so unloaded shall be cared for by the owner or driver of such vehicle at the risk of such owner or driver.

For purposes of this section, lawful weight shall mean the maximum weight permitted by section 60-6,294.

Any driver of a vehicle who refuses to stop and submit the vehicle and load to a weighing or who refuses, when directed by a peace officer or carrier enforcement officer upon a weighing of the vehicle, to stop the vehicle and otherwise comply with the provisions of this section shall be guilty of a Class III misdemeanor.

**60-6,304 Load; contents; requirements; violation; penalty.**

(1) No vehicle shall be driven or moved on any highway unless the vehicle is so constructed or loaded as to prevent its contents from dropping, sifting, leaking, or otherwise escaping from the vehicle.

(2) No person shall transport any sand, gravel, rock less than two inches in diameter, or refuse in any vehicle on any hard-surfaced state highway if such material protrudes above the sides of that part of the vehicle in which it is being transported unless such material is enclosed or completely covered with canvas or similar covering.

(3) No person shall drive or move a motor vehicle, trailer, or semitrailer upon any highway unless the cargo or contents carried by the motor vehicle, trailer, or semitrailer are properly distributed and adequately secured to prevent the falling of cargo or contents from the vehicle. The tailgate, doors, tarpaulins, and any other equipment used in the operation of the motor vehicle, trailer, or semitrailer or in the distributing or securing of the cargo or contents carried by the motor vehicle, trailer, or semitrailer shall be secured to prevent cargo or contents falling from the vehicle. The means of securement to the motor vehicle, trailer, or semitrailer must be either tiedowns and tiedown assemblies of adequate strength or sides, sideboards, or stakes and a rear endgate, endboard, or stakes strong enough and high enough to assure that cargo or contents will not fall from the vehicle.

**60-1301 Weighing stations; portable scales; purpose; location; effect as evidence of weight determination; reweighing, when required; pickup trucks; exception; Nebraska State Patrol; rules and regulations.**

In order to promote public safety, to preserve and protect the state highways and bridges and prevent immoderate and destructive use of the same, and to enforce the motor vehicle registration laws, the Department of Roads shall have the responsibility to construct, maintain, provide, and contract with the Nebraska State Patrol for the operation of weighing stations and provide the funding for the same. The Nebraska State Patrol shall operate the weighing stations, including portable scales, for the weighing and inspection of buses, motor trucks, truck-tractors, semitrailers, trailers, and towed vehicles. Each of the weighing stations shall be located near, on, or adjacent to a state highway upon real estate owned by the State of Nebraska or upon real estate acquired for that purpose. Weights determined on such weighing stations and portable scales shall be presumed to be accurate and shall be accepted in court as prima facie evidence of a violation of the laws relating to the size, weight, load, and registration of buses, motor trucks, truck-tractors, semitrailers, trailers, and towed vehicles. The owner or driver of a vehicle found to be in violation of such laws by the use of portable scales shall be advised by the officer operating the portable scale that he or she has the right to demand an immediate reweighing at his or her expense at the nearest permanent state-approved scale capable of weighing the vehicle, and if a variance exists between the weights of the permanent and portable scales, then the weights determined on the permanent scale shall prevail. Sections 60-1301 to 60-1309 shall not apply to pickup trucks with a factory-rated capacity of one ton or less, except as may be provided by rules and regulations of the Nebraska State Patrol, or to recreational vehicles as defined in section 71-4603. The Nebraska State Patrol may adopt and promulgate rules and regulations concerning the weighing of pickup trucks with a factory-rated capacity of one ton or less which tow vehicles. Such rules and regulations shall require trucks towing vehicles to comply with sections

60-1301 to 60-1309 when it is necessary to promote the public safety and preserve and protect the state highways and bridges.

**60-1302 Eminent domain; procedure.**

The Department of Roads is hereby authorized to take, hold, and acquire by eminent domain so much real estate as may be necessary and convenient to carry out the provisions of section 60-1301. The procedure to condemn property shall be exercised in the manner set forth in sections 76-704 to 76-724.

**60-1303 Weighing stations; portable scales; operation; carrier enforcement division; rules and regulations.**

(1) The Nebraska State Patrol is hereby designated as the agency to operate the weighing stations and portable scales and to perform carrier enforcement duties.

(2)(a) On and after July 20, 2002, officers of the Nebraska State Patrol appointed to operate the weighing stations and portable scales and to perform carrier enforcement duties shall be known as the carrier enforcement division. The Superintendent of Law Enforcement and Public Safety shall appoint officers of the Nebraska State Patrol to the carrier enforcement division, including officers as prescribed in sections 81-2001 to 81-2009, and carrier enforcement officers as prescribed in sections 60-1301 to 60-1309.

(b) The employees within the Nebraska State Patrol designated to operate the weighing stations and portable scales and to perform carrier enforcement duties before July 20, 2002, and not authorized to act under subdivisions (1) through (8) of section 81-2005 shall be known as carrier enforcement officers.

(3) All carrier enforcement officers shall be bonded or insured as required by section 11-201. Premiums shall be paid from the money appropriated for the construction, maintenance, and operation of the state weighing stations.

(4) All employees of the Nebraska State Patrol who are carrier enforcement officers and who are not officers of the Nebraska State Patrol with the powers and duties prescribed in sections 81-2001 to 81-2009 shall be members of the State Employees Retirement System of the State of Nebraska. Officers of the Nebraska State Patrol who are carrier enforcement officers on July 20, 2002, who subsequently become officers of the Nebraska State Patrol with the powers and duties prescribed in sections 81-2001 to 81-2009, and who elect to remain members of the State Employees Retirement System of the State of Nebraska shall continue to participate in the State Employees Retirement System of the State of Nebraska. Carrier enforcement officers shall not receive any expense allowance as provided for by section 81-2002.

(5) The Nebraska State Patrol and the Department of Roads shall have the duty, power, and authority to contract with one another for the staffing and operation of weighing stations and portable scales and the performance of

carrier enforcement duties to ensure that there is adequate personnel in the carrier enforcement division to carry out the duties specified in sections 60-1301 to 60-1309. Through June 30, 2005, the number of full-time equivalent positions funded pursuant to such contract shall be limited to eighty-eight officers, including carrier enforcement officers as prescribed in sections 60-1301 to 60-1309 and officers of the Nebraska State Patrol as prescribed in sections 81-2001 to 81-2009 assigned to the carrier enforcement division. Pursuant to such contract, command of the personnel involved in such carrier enforcement operations shall be with the Nebraska State Patrol. The Department of Roads may use any funds at its disposal for its financing of such carrier enforcement activity in accordance with such contract as long as such funds are used only to finance those activities directly involved with the duties specified in sections 60-1301 to 60-1309. The Nebraska State Patrol shall account for all appropriations and expenditures related to the staffing and operation of weighing stations and portable scales and the performance of carrier enforcement duties in a budget program that is distinct and separate from budget programs used for non-carrier-enforcement-division-related activities.

(6) The Nebraska State Patrol may adopt, promulgate, and enforce rules and regulations consistent with statutory provisions related to carrier enforcement necessary for (a) the collection of fees, as outlined in sections 60-3,177 and 60-3,179 to 60-3,182 and the International Fuel Tax Agreement Act, (b) the inspection of licenses and permits required under the motor fuel laws, and (c) weighing and inspection of buses, motor trucks, truck-tractors, semitrailers, trailers, and towed vehicles.

The arrest powers granted to carrier enforcement officers under this section do not allow arrests for all stated law violations which are observed while on duty, but are limited to arrests only for such stated violations which are viewed by the officer while performing a function specifically related to the

duties enumerated in subsections (1) and (2) of this section or a function specifically related to those duties addressed in the statutes and laws referred to in subsections (3), (4), and (5) of this section. *State v. Langan*, 6 Neb. App. 739, 577 N.W.2d 752 (1998).

**60-1307 Size, weight, load, and registration violations; summons; hearing; promise to appear; violation; penalty; nonresidents, personal appearance required; motor vehicle; seizure and detention; when; release.**

(1) Whenever any person is arrested at one of the state weighing stations or portable scales for a violation of the laws relating to the trip permit provided in section 66-1418, the Motor Vehicle Registration Act, or the laws relating to the size, weight, and load of buses, trucks, truck-tractors, semitrailers, trailers, or towed vehicles, the arresting officer shall take the name and address of such person and the license number of his or her motor vehicle and issue a summons or otherwise notify him or her in writing to appear at a time and place to be specified in such summons or notice, such time to be at least five days after such arrest unless the person arrested demands an earlier hearing. Such person shall, if he or she desires, have a right to an immediate hearing or a hearing within twenty-four hours at a convenient hour. The hearing shall be before a magistrate within the county in which the offense was committed. Such officer shall, upon such person giving a written promise to appear at such time and place, release him or her from custody. Such person arrested and released shall not be permitted to operate the motor vehicle concerned until it is in compliance with the Motor Vehicle Registration Act and section 60-6,301. Any person refusing to give such written promise to appear shall be immediately taken by the arresting officer before the nearest or most accessible magistrate. Any person who willfully violates a written promise to appear given in accordance with this section shall be guilty of a Class III misdemeanor regardless of the disposition of the charge upon which he or she was originally arrested.

(2) Subsection (1) of this section shall not apply to any person not a resident of the State of Nebraska. The arresting officer shall take such person forthwith before the nearest or most accessible magistrate.

(3)(a) The arresting officer shall seize and detain the motor vehicle concerned until the motor vehicle is in compliance with section 60-6,294 or in conformity with the exceptions permitted by section 60-6,301, and unless all the violations pending before the magistrate relating to section 60-6,294 have been the subject of a conviction, acquittal, or dismissal and all related fines and costs have been paid, the arresting officer may detain the motor vehicle concerned when the officer has reasonable grounds to believe that (i) the accused will refuse to respond to the citation, (ii) the accused has no ties to the jurisdiction reasonably sufficient to assure his or her appearance in court, or (iii) the accused has previously failed to appear in response to a citation.

(b) If a motor vehicle detained pursuant to this section is transporting livestock, procedures and precautions shall be taken if necessary to ensure the health and welfare of such livestock while the motor vehicle is detained.

(c) A motor vehicle detained pursuant to this subsection shall be released upon execution of a bond with such surety or sureties as the court deems proper or, in lieu of such surety or sureties and at the option of the accused, a cash deposit, conditioned upon his or her appearance before the proper court

to answer the offense for which he or she may be charged and to appear at such times thereafter as the court so orders. Such bond shall be in an amount as set forth in the schedule adopted pursuant to section 29-901.05 and shall be administered, subject to review and forfeiture, in the same manner as bail bonds, except that for violations of section 60-6,294, such bond or cash deposit shall be in an amount not less than the sum of costs together with the appropriate fine prescribed in section 60-6,296.

(d) In addition to the operator, any owner or lessee of the motor vehicle may execute the bond or make the cash deposit required by this section. Upon execution of the bond or cash deposit, the arresting or custodial officer shall release the motor vehicle and cargo to the person who executed the bond or deposited the cash or to the designee of such person.

(e) Towing and storage charges, if any, shall be paid by the person to whom the motor vehicle is released prior to the release of the motor vehicle. Such charges shall be assessed as costs in any action for the forfeiture of the recognizance.

(4) Nothing in this section shall (a) prevent the owner or the owner's representative of such motor vehicle or the cargo on the motor vehicle from taking possession of the cargo and transferring it to another vehicle or taking possession of the cargo and the trailer, if the trailer can be separated from the power unit, or (b) create any liability for the state arising out of damage to such motor vehicle and its cargo.

**60-1401.01 Legislative findings and declaration.**

(1) The Legislature finds and declares that the distribution and sales of motor vehicles, motorcycles, and trailers in the State of Nebraska vitally affects the general economy of the state, the public interest, the public welfare, and public safety and that in order to promote the public interest and the public welfare and in the exercise of its police power, it is necessary to regulate motor vehicle, motorcycle, and trailer dealers, manufacturers, distributors, and their representatives doing business in the State of Nebraska.

(2) The Legislature further finds that the sales of motor vehicles, motorcycles, and trailers are involved to a large extent in a franchise system established between manufacturers and dealers and hereby declares that the sale of motor vehicles, motorcycles, and trailers to the public in the state under the franchise system includes more than the mere transfer of title, being a continuing obligation of the manufacturer, distributor, and dealer to the buying public affecting the public interest; that the termination or failure of the established relationship between the manufacturer, distributor, and dealer without cause or good faith denies to the general buying public its right to availability of continuing post-sale mechanical and operational services and precludes the relationship, expected and implied at the time of sale, between the buyer and the seller necessary to insure safe operating condition of the vehicle.

(3) The Legislature further finds and declares that the distribution and sale of motor vehicles in the state under the franchise system vitally affects commerce, the general economy of the state, and the welfare of the citizens of the state requiring the exercise of its police power to insure the public welfare, to regulate commerce, to establish guidelines for enforcement of a fair and equitable balance between parties to such franchises, and to provide judicial relief from unfair and inequitable practices affecting the public interest.

It shall be unlawful for any licensee or motor vehicle dealer to engage, directly or indirectly, in the following acts:

(1) To advertise and offer any year, make, engine size, model, type, equipment, price, trade-in allowance, or terms or make other claims or conditions pertaining to the sale, leasing, or rental of motor vehicles, motorcycles, and trailers which are not truthful and clearly set forth;

(2) To advertise for sale, lease, or rental a specific motor vehicle, motorcycle, or trailer which is not in the possession of the dealer, owner, or advertiser and

willingly shown and sold, as advertised, illustrated, or described, at the advertised price and terms, at the advertised address. Unless otherwise specified, a motor vehicle, motorcycle, or trailer advertised for sale shall be in operable condition and, on request, the advertiser thereof shall show records to substantiate an advertised offer;

(3) To advertise a new motor vehicle, motorcycle, or trailer at a price which does not include standard equipment with which it is fitted or is ordinarily fitted, without disclosing such fact, or eliminating any such equipment for the purpose of advertising a low price;

(4) To advertise (a) that the advertiser's prices are always or generally lower than competitive prices and not met or equalled by others or that the advertiser always or generally undersells competitors, (b) that the advertiser's prices are always or generally the lowest or that no other dealer has lower prices, (c) that the advertiser is never undersold, or (d) that no other advertiser or dealer will have a lower price;

(5) To advertise and make statements such as, Write Your Own Deal, Name Your Own Price, or Name Your Own Monthly Payments and other statements of a similar nature;

(6) To advertise by making disparaging comparisons with competitors' services, quality, price, products, or business methods;

(7) To advertise by making the layout, headlines, illustrations, and type size of an advertisement so as to convey or permit an erroneous impression as to which motor vehicle, motorcycle, or trailer or motor vehicles, motorcycles, or trailers are offered at featured prices. No advertised offer, expression, or display of price, terms, downpayment, trade-in allowance, cash difference, or savings shall be misleading by itself, and any qualification to such offer, expression, or display shall be clearly and conspicuously set forth in comparative type size and style, location, and layout to prevent deception;

(8) To advertise the price of a motor vehicle, motorcycle, or trailer without including all charges which the customer must pay for the motor vehicle, motorcycle, or trailer, excepting state and local taxes and license, title, and other fees. It shall be unlawful to advertise prices described as unpaid balance unless they are the full cash selling price and to advertise price which is not the full selling price even though qualified with expressions such as with trade, with acceptable trade, or other similar words;

(9) To advertise as at cost, below cost, below invoice, or wholesale, unless the term used is strictly construed that the word cost as used in this subdivision or in a similar meaning is the actual price paid by the advertiser to the manufacturer for the motor vehicle, motorcycle, or trailer so advertised;

(10) To advertise claims that Everybody Financed, No Credit Rejected, or We Finance Anyone and other similar affirmative statements;

(11) To advertise a specific trade-in amount or range of amounts;

(12) To advertise the words Finance, Loan, or Discounts or others of similar import in the firm name or trade style of a person offering motor vehicles, motorcycles, and trailers for sale unless such person is actually engaged in the finance business and offering only bona fide repossessed motor vehicles, motorcycles, and trailers. It shall be unlawful to use the word Repossessed in the name or trade style of a firm in the advertising of motor vehicles, motorcycles, and trailers sold by such a company unless they are bona fide

repossessions sold for unpaid balances due only. Advertisers offering repossessed automobiles for sale shall be able to offer proof of repossession;

(13) To advertise the term Authorized Dealer in any way as to mislead as to the make or makes of motor vehicles, motorcycles, or trailers for which a dealer is franchised to sell at retail;

(14) To advertise or sell new motor vehicles, motorcycles, and trailers by any person not enfranchised by the manufacturer of the motor vehicle, motorcycle, or trailer offered without disclosing the fact in each advertisement which includes the motor vehicle, motorcycle, or trailer, and in writing in the lease or purchase agreement that the licensee or motor vehicle dealer is not enfranchised by the manufacturer for service under factory warranty provisions. No person shall transfer ownership of a motor vehicle by reassignment on a manufacturer's statement of origin unless the person is enfranchised to do so by the manufacturer of the motor vehicle;

(15) To advertise used motor vehicles, motorcycles, or trailers so as to create the impression that they are new. Used motor vehicles, motorcycles, and trailers of the current and preceding model year shall be clearly identified as Used, Executive Driven, Demonstrator, or Driver Training, and lease cars, taxicabs, fleet vehicles, police motor vehicles, or motorcycles as may be the case and descriptions such as Low Mileage or Slightly Driven may also be applied only when correct. The terms demonstrator's, executive's, and official's motor vehicles, motorcycles, or trailers shall not be used unless (a) they have never been sold to a member of the public, (b) such terms describe motor vehicles, motorcycles, or trailers used by new motor vehicle, motorcycle, or trailer dealers or their employees for demonstrating performance ability, and (c) such vehicles are advertised for sale as such only by an authorized dealer in the same make of motor vehicle, motorcycle, or trailer. Phrases such as Last of the Remaining, Closeout, or Final Clearance and others of similar import shall not be used in advertising used motor vehicles, motorcycles, and trailers so as to convey the impression that the motor vehicles, motorcycles, and trailers offered are holdover new motor vehicles, motorcycles, and trailers. When new and used motor vehicles, motorcycles, and trailers of the current and preceding model year are offered in the same advertisement, such offers shall be clearly separated by description, layout, and art treatment;

(16) To advertise executives' or officials' motor vehicles, motorcycles, or trailers unless they have been used exclusively by the personnel or executive of the motor vehicle, motorcycle, or trailer manufacturer or by an executive of any authorized dealer of the same make thereof and such motor vehicles, motorcycles, and trailers have not been sold to a member of the public prior to the appearance of the advertisement;

(17) To advertise motor vehicles, motorcycles, and trailers owned by or in the possession of dealers without the name of the dealership or in any other manner so as to convey the impression that they are being offered by private parties;

(18) To advertise the term wholesale in connection with the retail offering of used motor vehicles, motorcycles, and trailers;

(19) To advertise the terms auction or auction special and other terms of similar import unless such terms are used in connection with motor vehicles, motorcycles, and trailers offered or sold at a bona fide auction to the highest

bidder and under such other specific conditions as may be required in the Motor Vehicle Industry Regulation Act;

(20) To advertise free driving trial unless it means a trial without obligation of any kind and that the motor vehicle, motorcycle, or trailer may be returned in the period specified without obligation or cost. A driving trial advertised on a money back basis or with privilege of exchange or applying money paid on another motor vehicle, motorcycle, or trailer shall be so explained. Terms and conditions of driving trials, free or otherwise, shall be set forth in writing for the customer;

(21) To advertise (a) the term Manufacturer's Warranty unless it is used in advertising only in reference to cars covered by a bona fide factory warranty for that particular make of motor vehicle, motorcycle, or trailer. In the event only a portion of such warranty is remaining, then reference to a warranty may be used only if stated that that unused portion of the warranty is still in effect, (b) the term New Car Guarantee except in connection with new motor vehicles, motorcycles, and trailers, and (c) the terms Ninety-day Warranty, Fifty-fifty Guarantee, Three-hundred-mile Guarantee, and Six-month Warranty, unless the major terms and exclusions are sufficiently described in the advertisement;

(22) To advertise representations inconsistent with or contrary to the fact that a motor vehicle, motorcycle, or trailer is sold as is and without a guarantee. The customer contract shall clearly indicate when a car will be sold with a guarantee and what that guarantee is and similarly shall clearly indicate when a car is sold as is and without a guarantee; and

(23) To advertise or to make any statement, declaration, or representation in any advertisement that cannot be substantiated in fact, and the burden of proof of the factual basis for the statement, declaration, or representation shall be on the licensee or motor vehicle dealer and not on the board.

(1) Before the board denies any license or any registration as described in section 60-1417.02, revokes or suspends any such license or registration, places a licensee or registrant on probation, or assesses an administrative fine under section 60-1411.02, the board shall give the applicant, licensee, registrant, or violator a hearing on the matter unless the hearing is waived upon agreement between the applicant, licensee, registrant, or violator and the executive director, with the approval of the board. As a condition of the waiver, the

applicant, licensee, registrant, or violator shall accept the fine or other administrative action. If the hearing is not waived, the board shall, at least thirty days prior to the date set for the hearing, notify the party in writing. Such notice in writing shall contain an exact statement of the charges against the party and the date and place of hearing. The party shall have full authority to be heard in person or by counsel before the board in reference to the charges. The written notice may be served by delivery personally to the party or by mailing the notice by registered or certified mail to the last-known business address of the party. If the applicant is a salesperson or dealer's agent, the board shall also notify the dealer employing or contracting with him or her or whose employ he or she seeks to enter by mailing the notice to the dealer's last-known business address. A stenographic record of all testimony presented at the hearings shall be made and preserved pending final disposition of the complaint.

(2) When the licensee fails to maintain a bond as provided in section 60-1419, an established place of business, or liability insurance as prescribed by subsection (3) of section 60-1407.01, the license shall immediately expire. The executive director shall notify the licensee personally or by mailing the notice by registered or certified mail to the last-known address of the licensee that his or her license is revoked until a bond as required by section 60-1419 or liability insurance as prescribed by subsection (3) of section 60-1407.01 is furnished and approved in which event the license may be reinstated.

(3) Upon notice of the revocation or suspension of the license, the licensee shall immediately surrender the expired license to the executive director or his or her representative. If the license is suspended, the executive director or his or her representative shall return the license to the licensee at the time of the conclusion of the period of suspension. Failure to surrender the license as required in this section shall subject the licensee to the penalties provided in section 60-1416.

**60-1414 Denial, revocation, or suspension of license or registration; hearing; attendance of witness; production of books and papers; effect.**

In the preparation and conduct of such hearings, the members of the board and executive director shall have the power to require the attendance and testimony of any witness and the production of any papers or documents in order to assure a fair trial. They may sign and issue subpoenas therefor and administer oaths and examine witnesses and take any evidence they deem pertinent to the determination of the charges. Any witnesses so subpoenaed shall be entitled to the same fees as prescribed by law in judicial proceedings in the district court of this state in a civil action and mileage at the same rate provided in section 81-1176 for state employees. The payment of such fees and mileage must be out of and kept within the limits of the funds provided for the administration of the board. The party against whom such charges may be filed shall have the right to obtain from the executive director a subpoena for any witnesses which he or she may desire at such hearing and depositions may be taken as in civil court cases in the district court. Any information obtained from

the books and records of the person complained against may not be used against the person complained against as the basis for a criminal prosecution under the laws of this state.

**60-1415 Disciplinary actions; findings of board; order; restitution; appeal; distribution of fines.**

(1) The board shall state in writing, officially signed by the chairperson or vice-chairperson and the executive director, its findings and determination after such hearing and its order in the matter. If the board determines and orders that an applicant is not qualified to receive a license or registration, no license or registration shall be granted. If the board determines that the party has willfully or through undue negligence been guilty of any violation of the Motor Vehicle Industry Regulation Act or any rule or regulation adopted and promulgated by the board under authority of the act, the board may suspend or revoke the license or registration, place the party on probation, assess an administrative fine, or take any combination of such actions. In determining the amount of the fine, the board may consider the appropriateness of the penalty with respect to the gravity of the violation, the history of previous violations, and any attempt made by the party to retaliate against another party for seeking relief pursuant to the laws, rules, or regulations relating to motor vehicle industry licensing. The board may also, after hearing, assess an additional administrative fine in an amount not to exceed five thousand dollars for each day a violation continues if a party fails to obey a direct order of the board or repeats the same violation within forty-eight months of the previous violation. The imposition of any such additional administrative fine shall commence one month after the initial order of the board or any final order on appeal if taken for failure to obey a direct order of the board and on the date of the second or subsequent violation for repeat violations within forty-eight months. The board may make a demand on a violator for restitution to a harmed consumer. The party may appeal the decision of the board. The appeal shall be in accordance with the Administrative Procedure Act.

(2) The board shall remit administrative fines to the State Treasurer on a monthly basis for distribution in accordance with Article VII, section 5, of the Constitution of Nebraska. Any administrative fine imposed under this section and unpaid shall constitute a debt to the State of Nebraska which may be collected by lien foreclosure or sued for and recovered in any proper form of action, in the name of the State of Nebraska, in the district court of the county in which the violator resides or owns property.

**60-1417.01 Auction dealer; records; requirements; sale on consignment; title; exception.**

(1)(a) Each auction dealer shall establish and retain at the primary place of business a record of the following information for each motor vehicle or trailer coming into his or her possession as an auction dealer: (i) The name of the most recent owner, other than the auction dealer; (ii) the name of the buyer; (iii) the vehicle identification number; (iv) the odometer reading on the date on which the auction dealer took possession of the motor vehicle or trailer; and (v) a bill of sale or other transaction document signed by the seller or the seller's agent and the buyer or the buyer's agent.

(b) The dealer shall maintain the information in a manner that permits systematic retrieval for five years following the date of sale of each vehicle or trailer. The information may be maintained in a tangible medium or stored in an electronic or other medium that is retrievable in perceivable form.

(c) The auction dealer shall be responsible for insuring that the information required in subdivisions (1)(a)(i), (iii), and (iv) of this section is available to all prospective buyers at the time a vehicle or trailer is offered for sale at auction and shall give the bill of sale or other transaction document required in subdivision (1)(a)(v) of this section to the buyer purchasing the vehicle or trailer at auction.

(2) When any dealer, except an auction dealer selling at auction, sells any unit on consignment, he or she shall take title to such unit in his or her own name, except that any dealer or other person, other than the owner of a used mobile home, selling a used mobile home shall not be required to take title but shall complete a buyer's information form approved by the board. The seller of the used mobile home shall be responsible for insuring that a copy of the form is delivered to the buyer prior to closing the sale of the used mobile home. The form shall include the (a) name and address of the record owner of the mobile home, (b) model, (c) year, and (d) serial number.

Registration shall be made on a form provided by the auction dealer and approved by the board. A copy of the registration shall serve as proof of registration for the calendar year. The registration information shall be made available and accessible to the board by the auction dealer within seventy-two hours after the registrant has met the registration requirements and such registration is issued. Such registration information shall be maintained and made accessible to the board by the auction dealer for two years. It shall be the duty of the auction dealer to ensure that no seller participates in any sales activities until and unless registration has

been received by the auction dealer or unless such seller is otherwise licensed under the act.

(2) The information required on the registration form shall include, but not be limited to, the following: (a) The legal name of the registrant; (b) the registrant's current mailing address and telephone number; (c) the business name and address of the person with whom the registrant is associated; and (d) whether or not the registrant is bonded.

The bond shall be on a form prescribed by the Attorney General of the State of Nebraska and shall be signed by the Nebraska registered agent. A false representation, standing alone, is insufficient to justify recovery by a lienholder under subsection (2)(e) of this section. The lienholder must also show that its loss is proximately caused by the false representation. This section provides no relief for conversion of a vehicle apart from a cause of action for false representation. *First Nat. Bank in Morrill v. Union Ins. Co.*, 246 Neb. 636, 522 N.W.2d 168 (1994).

A motor vehicle dealer's bond protects persons in addition to purchasers against loss resulting from misappropriation of funds belonging to the purchasers. A bank can recover on a motor vehicle dealer's bond if it can prove that it sustained a loss as a result of the dealer's breach of one of the conditions of the bond. *Adams Bank & Trust v. Empire Fire & Marine Ins. Co.*, 235 Neb. 464, 455 N.W.2d 569 (1990).

A bank, if it can prove a loss occasioned by a statutory motor vehicle dealer's breach of one of the conditions outlined in this statute, is entitled to recover on the dealer's statutory bond. *Havelock Bank v. Western Surety Co.*, 217 Neb. 560, 352 N.W.2d 855 (1984).

A motor vehicle dealer's bond, furnished pursuant to the provisions of this section, which creates a liability on the part of the surety to indemnify any person "by reason of any loss suffered" requires proof of an actual loss suffered before recovery is permitted, and does not cover statutory penalties. *Darr v. Long*, 210 Neb. 57, 313 N.W.2d 215 (1981).

Failure of motor vehicle dealer to keep a promise to do an act in the future did not amount to fraud. *Sterner v. Lehmanowsky*, 173 Neb. 401, 113 N.W.2d 588 (1962).

Any loss by reason of a motor vehicle dealer's conduct in engaging in acts prohibited by law and enumerated in this section entitles the offended party recourse on a motor vehicle dealer's bond. A dealer's oral promise to repay a party upon the subsequent sale of vehicles did not create a security interest, and therefore, the dealer's failure to remit the proceeds to the party did not amount to a misappropriation of anyone's funds, nor was the dealer's failure to pay an unlawful act. *Paus Motor Sales, Inc. v. Western Surety Co.*, 6 Neb. App. 233, 572 N.W.2d 403 (1997).

#### **60-1420 Franchise; termination; hearing; when required.**

(1) Except as provided in subsection (2) of this section, no franchisor shall terminate or refuse to continue any franchise unless the franchisor has first established, in a hearing held pursuant to section 60-1425, that:

(a) The franchisor has good cause for termination or noncontinuance;

(b) Upon termination or noncontinuance, another franchise in the same line-make will become effective in the same community, without diminution of the franchisee's service formerly provided, or that the community cannot be reasonably expected to support such a dealership; and

(c) The franchisor is willing and able to comply with section 60-1430.02.

(2) Upon providing good and sufficient evidence to the board, a franchisor may terminate a franchise without such hearing (a) for a particular line-make if the franchisor discontinues that line-make, (b) if the franchisee's license as a motor vehicle, combination motor vehicle and trailer, motorcycle, or trailer dealer is revoked pursuant to the Motor Vehicle Industry Regulation Act, or (c) upon a mutual written agreement of the franchisor and franchisee.

State*, 241 Neb. 523, 489 N.W.2d 550 (1992).

#### **60-1421 Franchise; termination; effect.**

If franchisor is permitted to terminate or not continue a franchise, and is further permitted not to enter into a franchise, for the line-make in the

community, no franchise shall thereafter be entered into for the sale of a motor vehicle, combination motor vehicle and trailer, motorcycle, or trailer dealer of that line-make in the community, unless the franchisor has first established in a hearing held under the Motor Vehicle Industry Regulation Act that there has been a change of circumstances so that the community at that time can be reasonably expected to support the dealership.

**Source:** Laws 1971, LB 768, § 21; Laws 2010, LB816, § 73.

**60-1422 Franchise; hearing; approval.**

No franchisor shall enter into any franchise for the purpose of establishing an additional motor vehicle, combination motor vehicle and trailer, motorcycle, or trailer dealership or warranty repair service facility, in any community in which the same line-make is then represented, unless the franchisor has first established in a hearing held under the Motor Vehicle Industry Regulation Act that there is good cause for such additional motor vehicle, combination motor vehicle and trailer, motorcycle, or trailer dealership under such franchise, or warranty repair service facility, and that it is in the public interest.

In re Application of General Motors Corp., 232 Neb. 11, 439 N.W.2d 453 (1989).

**60-1423 Franchise; contract; fulfillment; violation; damages.**

Every franchisor and franchisee shall fulfill the terms of any express or implied warranty concerning the sale of a motor vehicle, combination motor vehicle and trailer, motorcycle, or trailer to the public of the line-make which is the subject of a contract or franchise agreement between the parties. If it is determined by the district court that either the franchisor or franchisee, or both, have violated an express or implied warranty, the court shall add to any award or relief granted an additional award for reasonable attorney fees and other necessary expenses for maintaining the litigation.

**60-1424 Franchise; termination; additional; application.**

If a franchisor seeks to terminate or not continue any franchise, or seeks to enter into a franchise establishing an additional motor vehicle, combination motor vehicle and trailer, motorcycle or trailer dealership of the same line-make, the franchisor shall file an application with the board for permission to terminate or not continue the franchise, or for permission to enter into a franchise for additional representation of the same line-make in that community.

**Source:** Laws 1971, LB 768, § 24.

**60-1425 Franchise; termination; additional; application; hearing; notice.**

Upon receiving an application under the provisions of section 60-1424, the board shall enter an order fixing a time, which shall be within ninety days of the date of such order, and place of hearing, and shall send by certified or registered mail, with return receipt requested, a copy of the order to the franchisee whose franchise the franchisor seeks to terminate or not continue. If

the application requests permission to establish an additional motor vehicle, combination motor vehicle and trailer, motorcycle, or trailer dealership, a copy of the order shall be sent to all franchisees in the community who are then engaged in the business of offering to sell or selling the same line-make. Copies of orders shall be addressed to the franchisee at the place where the business is conducted. The board may also give notice of franchisor's application to any other parties whom the board may deem interested persons, such notice to be in the form and substance and given in the manner the board deems appropriate. Any person who can show an interest in the application may become a party to the hearing, whether or not he receives notice, but a party not receiving notice shall be limited to participation at the hearing on the question of the public interest in the termination or continuation of the franchise or in the establishment of an additional motor vehicle dealership.

**Source:** Laws 1971, LB 768, § 26.

**60-1427 Franchise; termination; additional dealership; application; hearing; burden of proof.**

Upon hearing, the franchisor shall have the burden of proof to establish that under the Motor Vehicle Industry Regulation Act the franchisor should be granted permission to terminate or not continue the franchise or to enter into a franchise establishing an additional motor vehicle, combination motor vehicle and trailer, motorcycle, or trailer dealership.

Nothing contained in the act shall be construed to require or authorize any investigation by the board of any matter before the board under the provisions of sections 60-1420 to 60-1435. Upon hearing, the board shall hear the evidence introduced by the parties and shall make its decision solely upon the record so made.

**60-1428 Franchise; discovery; inspection; rules of civil procedure.**

The rules of civil procedure relating to discovery and inspection shall apply to hearings held under the Motor Vehicle Industry Regulation Act, and the board may issue orders to give effect to such rules.

If issues are raised which would involve violations of any state or federal antitrust or price-fixing law, all discovery and inspection proceedings which would be available under such issues in a state or federal court action shall be available to the parties to the hearing, and the board may issue orders to give effect to such proceedings.

Evidence which would be admissible under the issues in a state or federal court action shall be admissible in a hearing held by the board. The board shall apportion all costs between the parties.

**60-1429 Franchise; termination or noncontinuation; acts not constituting good cause.**

Notwithstanding the terms, provisions, or conditions of any agreement or franchise, the following shall not constitute good cause, as used in sections 60-1420 and 60-1422, for the termination or noncontinuation of a franchise or for entering into a franchise for the establishment of an additional dealership in a community for the same line-make:

- (1) The sole fact that the franchisor desires further penetration of the market;
- (2) The change of ownership of the franchisee's dealership or the change of executive management of the franchisee's dealership unless the franchisor, having the burden of proof, proves that such change of ownership or executive management will be substantially detrimental to the distribution of the franchisor's motor vehicles, combination motor vehicles and trailers, motorcycles, or trailer products or to competition in the community. Substantially detrimental may include, but is not limited to, the failure of any proposed transferee or individual to meet the current criteria generally applied by the franchisor in qualifying new motor vehicle dealers; or
- (3) The fact that the franchisee refused to purchase or accept delivery of any motor vehicle, combination motor vehicle and trailer, motorcycle, trailer, vehicle parts or accessories, or other commodity or service not ordered by the franchisee.

When the franchisee transfers its ownership, the franchisor need not recognize the transfer until after the board has had a chance to act on the issue of whether the transfer is detrimental to the distribution of franchisor's vehicles in the community. *Kizzier Chevrolet Co. v. General Motors Corp.*, 705 F.2d 322 (8th Cir. 1983).

**60-1430 Franchise; sale or transfer of ownership; franchisor; duties.**

Notwithstanding the terms, provisions, or conditions of any agreement or franchise, subject to subdivision (2) of section 60-1429, in the event of the sale or a contract for sale or transfer of ownership of the franchisee's dealership by sale or transfer of the business or by stock transfer or in the event of change in the executive management of the franchisee's dealership, the franchisor shall give effect to such a change in the franchise unless (1) the transfer of the franchisee's license under the Motor Vehicle Industry Regulation Act is denied or the new owner is unable to obtain a license under the act, as the case may be, or (2) the proposed sale or transfer of the business or change of executive management will be substantially detrimental to the distribution of the franchisor's motor vehicles, combination motor vehicles and trailers, motorcycles, or trailer products or to competition in the community if the franchisor has given written notice of such fact to the franchisee within sixty days of receipt by the

franchisor of information reasonably necessary to evaluate the proposed change.

**60-1430.01 Succession to new motor vehicle dealership by family member; conditions.**

(1) Any designated family member of a deceased or incapacitated new motor vehicle dealer may succeed the dealer in the ownership or operation of the dealership under the existing dealer agreement if the designated family member gives the manufacturer or distributor written notice of his or her intention to succeed to the dealership within one hundred twenty days after the dealer's death or incapacity, agrees to be bound by all of the terms and conditions of the dealer agreement, and meets the current criteria generally applied by the manufacturer or distributor in qualifying new motor vehicle dealers. A manufacturer or distributor may refuse to honor the existing dealer agreement with the designated family member only for good cause.

(2) The manufacturer or distributor may request from a designated family member such personal financial data as is reasonably necessary to determine whether the existing dealer agreement should be honored. The designated family member shall supply the personal and financial data promptly upon the request.

(3) If a manufacturer or distributor believes that good cause exists for refusing to honor that succession, the manufacturer or distributor may, within sixty days after receipt of the notice of the designated family member's intent to succeed the dealer in the ownership and operation of the dealership, or within sixty days after the receipt of the requested personal and financial data, whichever is later, serve upon the designated family member notice of its refusal to approve the succession.

(4) The notice of the manufacturer or distributor provided in subsection (3) of this section shall state the specific ground for the refusal to approve the succession and that discontinuance of the agreement shall take effect not less than ninety days after the date the notice is served.

(5) If notice of refusal is not served within the sixty days provided for in subsection (3) of this section, the dealer agreement shall continue in effect and shall be subject to termination only as otherwise permitted by the Motor Vehicle Industry Regulation Act.

(6) This section shall not preclude a new motor vehicle dealer from designating any person as his or her successor by written instrument filed with the manufacturer or distributor, and if such an instrument is filed, it alone shall determine the succession rights to the management and operation of the dealership.

**60-1430.02 Franchise termination, cancellation, or noncontinuation; termination, elimination, or cessation of line-make; payments required; mitigate damages.**

(1) Upon the termination, cancellation, or noncontinuation of a franchise by the franchisor or franchisee pursuant to the Motor Vehicle Industry Regulation Act, the franchisor shall pay the franchisee:

(a) The dealer cost, plus any charges made by the franchisor for distribution, delivery, and taxes, less all allowances paid or credited to the franchisee by the franchisor, of unused, undamaged, and unsold motor vehicles in the franchisee's inventory acquired from the franchisor or another franchisee of the same line and made within the previous twelve months;

(b) The dealer cost, less all allowances paid or credited to the franchisee by the franchisor, for all unused, undamaged, and unsold supplies, parts, and accessories in original packaging, except that (i) in the case of sheet metal, a comparable substitute for original packaging may be used if such supply, part, or accessory is offered for sale by the franchisor and was acquired from the franchisor or the predecessor franchisee as a part of the franchisee's initial inventory and (ii) in the case of a motorcycle franchise, the payment for such supplies, parts, and accessories shall be based upon the currently published dealer cost for all unused, undamaged, and unsold supplies, parts, and accessories currently offered for sale by the franchisor and originally acquired from the franchisor or the predecessor franchisee as a part of the franchisee's initial inventory, and all such supplies, parts, and accessories shall be currently identifiable and labeled and in the original packaging or a comparable substitute for the original packaging;

(c) The fair market value of each undamaged sign owned by the franchisee which bears a common name, trade name, or trademark of the franchisor if acquisition of such sign was recommended or required by the franchisor;

(d) The fair market value of all special tools, equipment, and furnishings acquired from the franchisor or sources approved by the franchisor which were recommended and required by the franchisor and are in good and usable condition except for reasonable wear and tear; and

(e) The cost of transporting, handling, packing, and loading motor vehicles, supplies, parts, accessories, signs, special tools, equipment, and furnishings.

(2) The franchisor shall pay the franchisee the amounts specified in subsection (1) of this section within ninety days after the tender of the property if the franchisee has clear title to the property and is in a position to convey that title to the franchisor. This section shall not apply to a termination or noncontinuation of a franchise that is implemented as a result of the sale of the assets or stock of the franchisee.

(3)(a) If the termination, cancellation, or nonrenewal of a franchise is the result of the termination, elimination, or cessation of a line-make by the manufacturer, distributor, or factory branch, then, in addition to the payments to the franchisee pursuant to subsection (1) of this section, the manufacturer, distributor, or factory branch shall be liable to the franchisee for an amount at least equivalent to the fair market value of the franchise for the line-make, which shall be the greater of that value determined as of (i) the date the franchisor announces the action that results in termination, cancellation, or nonrenewal of the line-make or (ii) the date the action that resulted in

termination, cancellation, or nonrenewal of the line-make first became general knowledge. In determining the fair market value of a franchise for a line-make, if the line-make is not the only line-make for which the franchisee holds a franchise in the dealership facilities, the franchisee shall also be entitled to compensation for the contribution of the line-make to payment of the rent or to covering obligations for the fair rental value of the franchise facilities for the period set forth in subdivision (b) of this subsection. Fair market value of the franchise for the line-make shall only include the goodwill value of the franchise for that line-make in the franchisee's community.

(b) If the line-make is the only line-make for which the franchisee holds a franchise, the manufacturer, distributor, or factory branch shall also pay assistance with respect to the franchise facilities leased or owned by the franchisee as follows:

(i) The manufacturer, distributor, or factory branch shall pay the franchisee a sum equivalent to the rent for the unexpired term of the lease or two years' rent, whichever is less; or

(ii) If the franchisee owns the franchise facilities, the manufacturer, distributor, or factory branch shall pay the franchisee a sum equivalent to the reasonable rental value of the franchise facilities for two years.

(c) To be entitled to franchise facilities assistance from the manufacturer, distributor, or factory branch, the franchisee shall have the obligation to mitigate damages by listing the franchise facilities for lease or sublease with a licensed real estate agent within thirty days after the effective date of the termination of the franchise and by reasonably cooperating with the real estate agent in the performance of the agent's duties and responsibilities. If the franchisee is able to lease or sublease the franchise facilities on terms that are consistent with local zoning requirements to preserve the right to sell motor vehicles from the franchise facilities and the terms of the franchisee's lease, the franchisee shall be obligated to pay the manufacturer the net revenue received from such mitigation, but only following receipt of franchise facilities assistance payments pursuant to subdivision (3)(b) of this section and only up to the total amount of franchise facilities assistance payments that the franchisee has received.

(d) This subsection does not apply to the termination of a line-make by a franchisor of recreational vehicles.

(4) This section shall not relieve a franchisee from any other obligation to mitigate damages upon termination, cancellation, or noncontinuation of the franchise.

**60-1432 Franchise; denial; license refused.**

If a franchisor enters into or attempts to enter into a franchise, whether upon termination or refusal to continue another franchise or upon the establishment of an additional motor vehicle, combination motor vehicle and trailer, motorcycle, or trailer dealership in a community where the same line-make is then represented, without first complying with the Motor Vehicle Industry Regulation Act, no license under the act shall be issued to that franchisee or proposed franchisee to engage in the business of selling motor vehicles, combination motor vehicles and trailers, motorcycles, or trailers manufactured or distributed by that franchisor.

**60-1433 Franchise; termination; discontinuance; evidence of good cause.**

In determining whether good cause has been established for terminating or not continuing a franchise, the board shall take into consideration the existing circumstances, including, but not limited to:

- (1) Amount of business transacted by the franchisee;
- (2) Investment necessarily made and obligations incurred by the franchisee in the performance of his part of the franchise;
- (3) Permanency of the investment;
- (4) Whether it is injurious to the public welfare for the business of the franchisee to be disrupted;
- (5) Whether the franchisee has adequate motor vehicle, combination motor vehicle and trailer, motorcycle, or trailer service facilities, equipment, parts and qualified service personnel to reasonably provide consumer care for the motor vehicles, combination motor vehicles and trailers, motorcycles, or trailers sold at retail by the franchisee and any other motor vehicle, combination motor vehicle and trailer, motorcycle, or trailer of the same line-make;
- (6) Whether the franchisee refuses to honor warranties of the franchisor to be performed by the franchisee if the franchisor reimburses the franchisee for such warranty work performed by the franchisee;
- (7) Except as provided in section 60-1429, failure by the franchisee to substantially comply with those requirements of the franchise which are determined by the board to be reasonable and material; and
- (8) Except as provided in section 60-1429, bad faith by the franchisee in complying with those terms of the franchise which are determined by the board to be reasonable and material.

**60-1434 Franchise; additional; service facility; evidence of good cause.**

In determining whether good cause has been established for entering into an additional franchise for the same line-make, the board shall take into consideration the existing circumstances, including, but not limited to:

- (1) Amount of business transacted by other franchisees of the same line-make in that community;
- (2) Investment necessarily made and obligations incurred by other franchisees of the same line-make, in that community, in the performance of their part of their franchises;

- (3) Permanency of the investment;
- (4) Effect on the retail motor vehicle business as a whole in that community;
- (5) Whether it is injurious to the public welfare for an additional franchise to be established; and
- (6) Whether the franchisees of the same line-make in that community are providing adequate consumer care for the motor vehicle, combination motor vehicle and trailer, motorcycle, or trailer products of the line-make which shall include the adequacy of motor vehicle, combination motor vehicle and trailer, motorcycle, or trailer dealer service facilities, equipment, supply of parts, and qualified service personnel.

No franchisor, franchisee, or other person shall, directly or indirectly, establish or authorize a separate consumer care or service facility to perform repairs and service, pursuant to the manufacturer's original warranty, on motor vehicles within any community previously assigned to and being served by an existing franchisee without first establishing good cause in the same manner as required for an additional franchise.

#### **60-1436 Manufacturer or distributor; prohibited acts with respect to new motor vehicle dealers.**

A manufacturer or distributor shall not require or coerce any new motor vehicle dealer in this state to do any of the following:

- (1) Order or accept delivery of any new motor vehicle, part or accessory, equipment, or other commodity not required by law which was not voluntarily ordered by the new motor vehicle dealer. This section shall not be construed to prevent the manufacturer or distributor from requiring that new motor vehicle dealers carry a reasonable inventory of models offered for sale by the manufacturer or distributor;
- (2) Offer or accept delivery of any new motor vehicle with special features, accessories, or equipment not included in the list price of the new motor vehicle as publicly advertised by the manufacturer or distributor;
- (3) Participate monetarily in any advertising campaign or contest or purchase any promotional materials, display devices, or display decorations or materials at the expense of the new motor vehicle dealer;
- (4) Join, contribute to, or affiliate with an advertising association;
- (5) Enter into any agreement with the manufacturer or distributor or do any other act prejudicial to the new motor vehicle dealer by threatening to termi-

nate a dealer agreement or any contractual agreement or understanding existing between the dealer and the manufacturer or distributor. Notice in good faith to any dealer of the dealer's violation of any terms or provisions of the dealer agreement shall not constitute a violation of the Motor Vehicle Industry Regulation Act;

(6) Change the capital structure of the new motor vehicle dealership or the means by or through which the dealer finances the operation of the dealership, if the dealership at all times meets any reasonable capital standards determined by the manufacturer in accordance with uniformly applied criteria;

(7) Refrain from participation in the management of, investment in, or the acquisition of any other line of new motor vehicle or related products as long as the dealer maintains a reasonable line of credit for each make or line of vehicle, remains in compliance with reasonable facilities requirements, and makes no change in the principal management of the dealer;

(8) Prospectively assent to a release, assignment, novation, waiver, or estoppel which would relieve any person from liability imposed by the act or require any controversy between the new motor vehicle dealer and a manufacturer or distributor to be referred to a person other than the duly constituted courts of the state or the United States, if the referral would be binding upon the new motor vehicle dealer;

(9) Change the location of the new motor vehicle dealership or make any substantial alterations to the dealership premises, if such changes or alterations would be unreasonable;

(10) Release, convey, or otherwise provide customer information if to do so is unlawful or if the customer objects in writing to doing so, unless the information is necessary for the manufacturer, factory branch, or distributor to meet its obligations to consumers or the new motor vehicle dealer including vehicle recalls or other requirements imposed by state or federal law;

(11) Release to any unaffiliated third party any customer information which has been provided by the new motor vehicle dealer to the manufacturer except as provided in subdivision (10) of this section;

(12) Establish in connection with the sale of a motor vehicle prices at which the dealer must sell products or services not manufactured or distributed by the manufacturer or distributor, whether by agreement, program, incentive provision, or otherwise; or

(13) Underutilize the dealer's facilities by requiring or coercing a dealer to exclude or remove from the dealer's facilities operations for selling or servicing a line-make of motor vehicles for which the dealer has a franchise agreement to utilize the facilities, except that this subdivision does not prohibit a manufacturer from requiring exclusive sales facilities that are in compliance with reasonable requirements for the facilities.

Any action prohibited for a manufacturer or distributor under the Motor Vehicle Industry Regulation Act is also prohibited for a subsidiary which is wholly owned or controlled by contract by a manufacturer or distributor or in which a manufacturer or distributor has more than a ten percent ownership interest, including a financing division.

**Source:** Laws 1984, LB 825, § 19; Laws 1999, LB 632, § 7; Laws 2010, LB816, § 81.

**60-1437 Manufacturer or distributor; prohibited acts with respect to new motor vehicles.**

In addition to the restrictions imposed by section 60-1436, a manufacturer or distributor shall not:

(1) Fail to deliver new motor vehicles or new motor vehicle parts or accessories within a reasonable time and in reasonable quantities relative to the new motor vehicle dealer's market area and facilities, unless the failure is caused by acts or occurrences beyond the control of the manufacturer or distributor or unless the failure results from an order by the new motor vehicle dealer in excess of quantities reasonably and fairly allocated by the manufacturer or distributor;

(2) Refuse to disclose to a new motor vehicle dealer the method and manner of distribution of new motor vehicles by the manufacturer or distributor;

(3) Refuse to disclose to a new motor vehicle dealer the total number of new motor vehicles of a given model which the manufacturer or distributor has sold during the current model year within the dealer's marketing district, zone, or region, whichever geographical area is the smallest;

(4) Increase the price of any new motor vehicle which the new motor vehicle dealer had ordered and delivered to the same retail consumer for whom the vehicle was ordered, if the order was made prior to the dealer's receipt of the written official price increase notification. A sales contract signed by a private retail consumer and binding on the dealer shall constitute evidence of such order. In the event of manufacturer or distributor price reduction or cash rebate, the amount of any reduction or rebate received by a dealer shall be passed on to the private retail consumer by the dealer. Any price reduction in excess of five dollars shall apply to all vehicles in the dealer's inventory which were subject to the price reduction. A price difference applicable to a new model or series of motor vehicles at the time of the introduction of the new model or series shall not be considered a price increase or price decrease. This subdivision shall not apply to price changes caused by the following:

(a) The addition to a motor vehicle of required or optional equipment pursuant to state or federal law;

(b) In the case of foreign-made vehicles or components, revaluation of the United States dollar; or

(c) Any increase in transportation charges due to an increase in rates charged by a common carrier or other transporter;

(5) Fail or refuse to sell or offer to sell to all franchised new motor vehicle dealers in a line-make every new motor vehicle sold or offered for sale to any franchised new motor vehicle dealer of the same line-make. However, the failure to deliver any such new motor vehicle shall not be considered a violation of this section if the failure is due to a lack of manufacturing capacity or to a strike or labor difficulty, a shortage of materials, a freight embargo, or any other cause over which the franchisor has no control. A manufacturer or distributor shall not require that any of its new motor vehicle dealers located in this state pay any extra fee, purchase unreasonable or unnecessary quantities of advertising displays or other materials, or remodel, renovate, or recondition the new motor vehicle dealer's existing facilities in order to receive any particular model or series of vehicles manufactured or distributed by the manufacturer for which the dealers have a valid franchise. Notwithstanding the provisions of this

subdivision, nothing contained in this section shall be deemed to prohibit or prevent a manufacturer from requiring that its franchised dealers located in this state purchase special tools or equipment, stock reasonable quantities of certain parts, or participate in training programs which are reasonably necessary for those dealers to sell or service any model or series of new motor vehicles. This subdivision shall not apply to manufacturers of recreational vehicles;

(6) Fail to offer dealers of a specific line-make a new franchise agreement containing substantially similar terms and conditions for sales of the line-make if the ownership of the manufacturer or distributor changes or there is a change in the plan or system of distribution;

(7) Take an adverse action against a dealer because the dealer sells or leases a motor vehicle that is later exported to a location outside the United States. A franchise provision that allows a manufacturer or distributor to take adverse action against a dealer because the dealer sells or leases a motor vehicle that is later exported to a location outside the United States is enforceable only if, at the time of the original sale or lease, the dealer knew or reasonably should have known that the motor vehicle would be exported to a location outside the United States. A dealer is presumed to have no knowledge that a motor vehicle the dealer sells or leases will be exported to a location outside the United States if, under the laws of a state of the United States (a) the motor vehicle is titled, (b) the motor vehicle is registered, and (c) applicable state and local taxes are paid for the motor vehicle. Such presumption may be rebutted by direct, clear, and convincing evidence that the dealer knew or reasonably should have known at the time of the original sale or lease that the motor vehicle would be exported to a location outside the United States. Except as otherwise permitted by subdivision (7) of this section, a franchise provision that allows a manufacturer or distributor to take adverse action against a dealer because the dealer sells or leases a motor vehicle that is later exported to a location outside the United States is void and unenforceable;

(8) Discriminate against a dealer holding a franchise for a line-make of the manufacturer or distributor in favor of other dealers of the same line-make in this state by:

(a) Selling or offering to sell a new motor vehicle to a dealer at a lower actual price, including the price for vehicle transportation, than the actual price at which the same model similarly equipped is offered to or is available to another dealer in this state during a similar time period; or

(b) Using a promotional program or device or an incentive, payment, or other benefit, whether paid at the time of the sale of the new motor vehicle to the dealer or later, that results in the sale or offer to sell a new motor vehicle to a dealer at a lower price, including the price for vehicle transportation, than the price at which the same model similarly equipped is offered or is available to another dealer in this state during a similar time period. This subdivision shall not prohibit a promotional or incentive program that is functionally available to competing dealers of the same line-make in this state on substantially comparable terms; or

(9) Make any express or implied statement or representation directly or indirectly that the dealer is under any obligation whatsoever to offer to sell or sell any extended service contract or extended maintenance plan offered, sold, backed by, or sponsored by the manufacturer or distributor or to sell, assign, or

transfer any of the dealer's retail sales contracts or leases in this state on motor vehicles manufactured or sold by the manufacturer or distributor to a finance company or class of finance companies, leasing company or class of leasing companies, or other specified person, because of any relationship or affiliation between the manufacturer or distributor and the finance company or companies, leasing company or leasing companies, or the specified person or persons.

Any such statements, threats, promises, acts, contracts, or offers of contracts, when their effect may be to lessen or eliminate competition or tend to create a monopoly, are declared unfair trade practices and unfair methods of competition and are prohibited.

**60-1438 Manufacturer or distributor; warranty obligation.**

(1) Each new motor vehicle manufacturer or distributor shall specify in writing to each of its new motor vehicle dealers licensed in this state the dealer's obligations for preparation, delivery, and warranty service on its products. The manufacturer or distributor shall compensate the new motor vehicle dealer for warranty service which such manufacturer or distributor requires the dealer to provide. The manufacturer or distributor shall provide the new motor vehicle dealer with the schedule of compensation to be paid to the dealer for parts, work, and service and the time allowance for the performance of the work and service.

(2) The schedule of compensation shall include reasonable compensation for diagnostic work, as well as repair service, parts, and labor. Time allowances for the diagnosis and performance of warranty work and service shall be reasonable and adequate for the work to be performed. In the determination of what constitutes reasonable compensation under this section, the principal factors to be given consideration shall be the prevailing wage rates being paid by dealers in the community in which the dealer is doing business, and in no event shall the compensation of the dealer for warranty parts and labor be less than the rates charged by the dealer for like parts and service to retail or fleet customers, as long as such rates are reasonable.

(3) A manufacturer or distributor shall not do any of the following:

- (a) Fail to perform any warranty obligation;
- (b) Fail to include in written notices of factory recalls to new motor vehicle owners and dealers the expected date by which necessary parts and equipment will be available to dealers for the correction of the defects; or
- (c) Fail to compensate any of the new motor vehicle dealers licensed in this state for repairs effected by the recall.

(4) All claims made by a new motor vehicle dealer pursuant to this section for labor and parts shall be paid within thirty days after their approval. All claims shall be either approved or disapproved by the manufacturer or distributor within thirty days after their receipt on a proper form generally used by the manufacturer or distributor and containing the usually required information therein. Any claim not specifically disapproved in writing within thirty days after the receipt of the form shall be considered to be approved and payment shall be made within thirty days. The manufacturer has the right to audit the claims for two years after payment and to charge back to the new motor vehicle

dealer the amount of any false or fraudulent claim. A manufacturer may not deny a claim based solely on a dealer's incidental failure to comply with a specific claim processing requirement, such as a clerical error that does not put into question the legitimacy of the claim. If a claim is rejected for a clerical error, the dealer may resubmit a corrected claim in a timely manner.

(5) The warranty obligations set forth in this section shall also apply to any manufacturer of a new motor vehicle transmission, engine, or rear axle that separately warrants its components to customers.

**60-1438.01 Manufacturer or distributor; restrictions with respect to franchises and consumer care or service facilities.**

(1) For purposes of this section, manufacturer or distributor includes (a) a factory representative or a distributor representative or (b) a person who is affiliated with a manufacturer or distributor or who, directly or indirectly through an intermediary, is controlled by, or is under common control with, the manufacturer or distributor. A person is controlled by a manufacturer or distributor if the manufacturer or distributor has the authority directly or indirectly, by law or by agreement of the parties, to direct or influence the management and policies of the person. A franchise agreement with a Nebraska-licensed dealer which conforms to and is subject to the Motor Vehicle Industry Regulation Act is not control for purposes of this section.

(2) Except as provided in this section, a manufacturer or distributor shall not directly or indirectly:

(a) Own an interest in a franchise, franchisee, or consumer care or service facility, except that a manufacturer or distributor may hold stock in a publicly held franchise, franchisee, or consumer care or service facility so long as the manufacturer or distributor does not by virtue of holding such stock operate or control the franchise, franchisee, or consumer care or service facility;

(b) Operate or control a franchise, franchisee, or consumer care or service facility; or

(c) Act in the capacity of a franchisee.

(3) A manufacturer or distributor may own an interest in a franchisee or otherwise control a franchise for a period not to exceed twelve months after the date the manufacturer or distributor acquires the franchise if:

(a) The person from whom the manufacturer or distributor acquired the franchise was a franchisee; and

(b) The franchise is for sale by the manufacturer or distributor.

(4) For purposes of broadening the diversity of its franchisees and enhancing opportunities for qualified persons who lack the resources to purchase a franchise outright, but for no other purpose, a manufacturer or distributor may temporarily own an interest in a franchise if the manufacturer's or distributor's participation in the franchise is in a bona fide relationship with a franchisee and the franchisee:

(a) Has made a significant investment in the franchise, which investment is subject to loss;

(b) Has an ownership interest in the franchise; and

(c) Operates the franchise under a plan to acquire full ownership of the franchise within a reasonable time and under reasonable terms and conditions.

(5) On a showing of good cause by a manufacturer or distributor, the board may extend the time limit set forth in subsection (3) of this section. An extension may not exceed twelve months. An application for an extension after the first extension is granted is subject to protest by a franchisee of the same line-make whose franchise is located in the same community as the franchise owned or controlled by the manufacturer or distributor.

(6) The prohibition in subdivision (2)(b) of this section shall not apply to any manufacturer of manufactured housing, recreational vehicles, or trailers.

**60-1439 Dealer, manufacturer, distributor; liability for damages to motor vehicles.**

(1) The new motor vehicle dealer shall be solely liable for damages to new motor vehicles after acceptance from the carrier and before delivery to the ultimate purchaser. A delivery receipt signed by a new motor vehicle dealer shall be evidence of such dealer's acceptance of any new motor vehicles.

(2) The manufacturer or distributor shall be liable for all damages to motor vehicles before delivery to a carrier or transporter and while such vehicles are on the carrier or transporter, except that if the new motor vehicle dealer selected the method and mode of transportation and the carrier or transporter, then such dealer shall be liable for damages to any new motor vehicles after delivery to the carrier or transporter.

**Source:** Laws 1984, LB 825, § 22.

**60-1440 Violations; actions for damages and equitable relief; arbitration.**

(1) Any person who is or may be injured by a violation of the Motor Vehicle Industry Regulation Act or any party to a franchise whose business or property is damaged by a violation of the act relating to that franchise may bring an action for damages and equitable relief, including injunctive relief.

(2) When a violation of the act can be shown to be willful or wanton, the court shall award damages. If the manufacturer engages in continued multiple violations of the act, the court may, in addition to any other damages, award court costs and attorney's fees.

(3) A new motor vehicle dealer, if he or she has not suffered any loss of money or property, may obtain final equitable relief if it can be shown that a violation of the act by a manufacturer may have the effect of causing such loss of money or property.

(4) If any action to enforce any of the provisions of the act is brought by a new motor vehicle dealer against a manufacturer and the new motor vehicle dealer prevails, he or she shall be awarded reasonable attorney's fees and the court shall assess costs against the manufacturer.

(5) If any dispute between a franchisor and franchisee becomes subject to resolution by means of binding arbitration, the provisions of the act regulating

the relationship of franchisor and franchisee shall apply in any such proceeding.

(1) The Legislature hereby finds and declares that a statewide system for the collection, storage, and transfer of data on vehicle titles and registration and the cooperation of state and local government in implementing such a system is essential to the efficient operation of state and local government in vehicle titling and registration. The Legislature hereby finds and declares that the electronic issuance of operators' licenses and state identification cards using a digital system as described in section 60-484.01 and the cooperation of state and local government in implementing such a system is essential to the efficient operation of state and local government in issuing operators' licenses and state identification cards.

**CABIN TRAILERS**

**§ 60-1603**

(a) To pay for the cost of issuing motor vehicle titles and registrations on a system designated by the department. The costs shall include, but not be limited to, software and software maintenance, programming, processing charges, and equipment including such terminals, printers, or other devices as deemed necessary by the department after consultation with the county to support the issuance of motor vehicle titles and registrations. The costs shall not include the cost of county personnel or physical facilities provided by the counties;

**Source:** Laws 1979, LB 348, § 9; Laws 2010, LB1065, § 9.

**60-2410 Towing and storage fees; liability; lien; notice.**

(1) The owner or other person lawfully entitled to the possession of any vehicle towed or stored shall be charged with the reasonable cost of towing and storage fees. Any such towing or storage fee shall be a lien upon the vehicle under Chapter 52, article 6, and, except as provided in subsection (3) of this section, shall be prior to all other claims. Any person towing or storing a vehicle may retain possession of such vehicle until such charges are paid or, after ninety days, may dispose of such vehicle to satisfy the lien. Upon payment of such charges, the person towing or storing the vehicle shall return possession of the vehicle to the (a) owner, (b) lienholder, or (c) any other person lawfully entitled to the possession of such vehicle making payment of such charges. The lien provided for in this section shall not apply to the contents of any vehicle.

(2) The person towing the vehicle shall, within fifteen business days after towing, notify any lienholder appearing on the certificate of title of the vehicle and the owner of the vehicle of the towing of the vehicle. (e) A statement that the vehicle is subject to lien and disposition by sale or other manner ninety days after the date of towing under Chapter 52, article 6.

(3) Failure to provide notice as prescribed in subsection (2) of this section shall result in the lien of the person who towed the vehicle being subordinate to the lien of the lienholder appearing on the certificate of title and render void any disposition of the vehicle by the person who towed the vehicle.

This section does not provide for a lien for protection of the tow in collecting fees. The reference in this section to section 60-2405 is an obvious error because section 60-2405 does not concern a lien. Section 60-2404 was apparently intended. Packett v. As used in sections 60-2701 to 60-2709, unless the context otherwise requires:

(1) Consumer shall mean the purchaser, other than for purposes of resale, of a motor vehicle normally used for personal, family, household, or business purposes, any person to whom such motor vehicle is transferred for the same purposes during the duration of an express warranty applicable to such motor vehicle, and any other person entitled by the terms of such warranty to enforce the obligations of the warranty;

A precise or specific defect does not need to be proved in order to find a product defective under either article 2 of the Uniform Commercial Code or sections 60-2701 to 60-2709. *Genetti v. Caterpillar, Inc.*, 261 Neb. 98, 621 N.W.2d 529 (2001).

An action under sections 60-2701 to 60-2709 is an action at law. *Genetti v. Caterpillar, Inc.*, 261 Neb. 98, 621 N.W.2d 529 (2001).

Under section 60-2708, a theory of recovery under sections 60-2701 to 60-2709 may be brought together with other theories of recovery. Theories of recovery for both breach of warranty and for recovery under sections 60-2701 to 60-2709 may be submitted to the jury, but once a plaintiff receives verdicts under both theories of recovery, he or she must elect between them. *Genetti v. Caterpillar, Inc.*, 261 Neb. 98, 621 N.W.2d 529 (2001).

**60-2702 Motor vehicle not conforming to express warranties; duty to repair.**

If a motor vehicle does not conform to all applicable express warranties, and the consumer reports the nonconformity to the manufacturer, its agent, or its authorized dealer during the term of such express warranties or during the period of one year following the date of original delivery of the motor vehicle to a consumer, whichever is the earlier date, the manufacturer, its agent, or its authorized dealer shall make such repairs as are necessary to conform the vehicle to such express warranties, notwithstanding the fact that such repairs are made after the expiration of such term or such one-year period.

**Source:** Laws 1983, LB 155, § 2.

**60-2703 Manufacturer's duty to replace vehicle or refund price; when; affirmative defense.**

If the manufacturer, its agents, or authorized dealers are unable to conform the motor vehicle to any applicable express warranty by repairing or correcting any defect or condition which substantially impairs the use and market value of the motor vehicle to the consumer after a reasonable number of attempts, the manufacturer shall replace the motor vehicle with a comparable motor vehicle or accept return of the vehicle from the consumer and refund to the consumer the full purchase price including all sales taxes, license fees, and registration fees and any similar governmental charges, less a reasonable allowance for the consumer's use of the vehicle. Refunds shall be made to the consumer and lienholder, if any, as their interests may appear. A reasonable allowance for use shall be that amount directly attributable to use by the consumer and any previous owner prior to his or her first report of the nonconformity to the manufacturer, agent, or dealer and during any subsequent period when the vehicle is not out of service by reason of repair. It shall be an affirmative defense to any claim under sections 60-2701 to 60-2709 (1) that an alleged nonconformity does not substantially impair such use and market value or (2) that a nonconformity is the result of abuse, neglect, or unauthorized modifications or alterations of a motor vehicle by a consumer.

**Source:** Laws 1983, LB 155, § 3.

**60-2704 Attempts to conform motor vehicle to warranties; presumption; term of warranty; how computed.**

It shall be presumed that a reasonable number of attempts have been undertaken to conform a motor vehicle to the applicable express warranties, if (1) the same nonconformity has been subject to repair four or more times by the manufacturer, its agents, or authorized dealers within the express warranty term or during the period of one year following the date of original delivery of the motor vehicle to a consumer, whichever is the earlier date, but such nonconformity continues to exist or (2) the vehicle is out of service by reason of repair for a cumulative total of forty or more days during such term or during such period, whichever is the earlier date. The term of an express warranty, such one-year period, and such forty-day period shall be extended by any period of time during which repair services are not available to the consumer because of a war, invasion, or strike, or fire, flood, or other natural disaster. In no event shall the presumption provided in this section apply against a manufacturer unless the manufacturer has received prior written direct notification by certified mail from or on behalf of the consumer and an opportunity to cure the defect alleged.

**Source:** Laws 1983, LB 155, § 4.

**60-2705 Dispute settlement procedure; effect; director; duties.**

The Director of Motor Vehicles shall adopt standards for an informal dispute settlement procedure which substantially comply with the provisions of 16 C.F.R. part 703, in existence as of February 22, 1983.

If a manufacturer has established or participates in a dispute settlement procedure certified by the Director of Motor Vehicles within the guidelines of such standards, the provisions of section 60-2703 concerning refunds or replacement shall not apply to any consumer who has not first resorted to such a procedure.

**Source:** Laws 1983, LB 155, § 5.

**60-2706 Statute of limitations.**

Any action brought under sections 60-2701 to 60-2709 shall be commenced within (1) one year following the expiration of the express warranty term or (2) two years following the date of original delivery of the motor vehicle to a consumer, whichever is the earlier date.

**60-2903 Legislative findings and intent.**

(1) The Legislature hereby finds that the federal Driver's Privacy Protection Act of 1994, with an effective date of September 13, 1997, provides for mandatory release in some instances and restrictions on release and use in other instances of certain personal information from state motor vehicle records and also provides numerous exceptions from those restrictions. Some of the exceptions are dependent on state legislation, and the purpose of the Uniform Motor Vehicle Records Disclosure Act is to enact choices permitted under the federal legislation in the interest of ensuring that motor vehicle record information which is a matter of public record shall remain a matter of public record in this state to the maximum extent permitted under the federal law.

(2) The Legislature intends that to the extent permitted by the federal law, Nebraska law pertaining to motor vehicle records should continue to recognize such records as public records to the extent it has done so prior to the effective date of the federal legislation and the terms of the Uniform Motor Vehicle Records Disclosure Act should be construed liberally to effect that purpose.
