Summary of purpose and/or changes:

LB 210 would change an existing state aid formula for natural resources districts. Under current law, each district's share of state aid is determined by calculating the district's share of total property taxes levied statewide by all districts. The bill would separate taxes levied into non-bond and bond taxes, and use only the non-bond share to determine the share of state aid.

The bill has an operative date of January 12, 2010. This bill would not affect the 2009 distribution of aid.
