**Summary of purpose and/or changes:**

LB 914 allows judicial discretion in the suspension of a license when there has been a conviction for failure of the duty to stop and provide motor vehicle information after an accident.

The bill amends Sec. 60-696 to provide that in the case of a person who violates the duty to stop and provide information after a motor vehicle accident, the court may order the defendant not to drive for up to one year.

Current statute requires the court to order the defendant not to drive for a one year period.

The section is also amended to require the court to revoke the defendant's license for the same period that he or she is ordered not to drive. This language is consistent with other statutory provisions referring to the revocation of a driver's license.
