LB102 provides that for purposes of financial aid and admission, a student is deemed a high school graduate if he or she has obtained an associate of arts degree or an associate of science degree from a Nebraska Community College.

As indicated by the State College System and the University of Nebraska there should be no or minimal impact to the state.

There is however potential impact to the student. Currently a student must have a high school diploma to receive federal financial aid. With this definition there may be students who will now qualify for federal financial aid who previously did not.
