LB 486 would require all state and local governmental agencies and units to include as part of their official name words or phrases that clearly identify the entity as a unit of government. Any costs of complying with this requirement are likely to be minor. For example, in the short term, stickers or stamps could be used to add the necessary wordage needed to comply with this act. This would allow the phasing in of permanent changes to letterhead, signs, etc., as they require replenishment or replacement.
