LB 926, as amended, would allow signs advertising “attractions” to be erected in the highway right-of-way pursuant to rules and regulations administered by the Department of Roads. Attractions are defined as having regional significance with the primary purpose of providing amusement, historical, cultural, or leisure activity to the public. The expansion of who is eligible for signage may increase the number of signs placed and maintained. The business or other entity requesting signage is required to pay for the cost of erecting and maintaining the sign so LB 926 will have no net fiscal impact on the Department of Roads.
