

LEGISLATIVE BILL 696

Approved by the Governor April 12, 2010

Introduced by Pahls, 31; Langemeier, 23.

FOR AN ACT relating to the Integrated Solid Waste Management Act; to amend section 13-2042, Reissue Revised Statutes of Nebraska, and section 13-2042.01, Revised Statutes Supplement, 2009; to change provisions relating to disposal fees; to harmonize provisions; and to repeal the original sections.

Be it enacted by the people of the State of Nebraska,

Section 1. Section 13-2042, Reissue Revised Statutes of Nebraska, is amended to read:

13-2042 (1) A disposal fee of one dollar and twenty-five cents is imposed for each six cubic yards of uncompacted solid waste, one dollar and twenty-five cents for each three cubic yards of compacted solid waste, or one dollar and twenty-five cents per ton of solid waste (a) disposed of at landfills regulated by the department or (b) transported for disposal out of state from a solid waste processing facility holding a permit under the Integrated Solid Waste Management Act. Each operator of a landfill or solid waste processing disposal facility shall make the fee payment quarterly. The fee shall be paid quarterly to the department on or before the forty-fifth day following the end of each quarter. For purposes of this section, landfill has the same definition as municipal solid waste landfill unit in 40 C.F.R. ~~part 258, subpart A, section 258.2.~~

(2) Each fee payment shall be accompanied by a form prepared and furnished by the department and completed by the permitholder. The form shall state the total volume of solid waste disposed of at ~~that~~ the landfill or transported for disposal out of state from the solid waste processing facility during the payment period and shall provide any other information deemed necessary by the department. The form shall be signed by the permitholder.

(3) If a permitholder fails to make a timely payment of the fee, he or she shall pay interest on the unpaid amount at the rate specified in section 45-104.02, as such rate may from time to time be adjusted.

(4) This section shall not apply to a site used solely for the reclamation of land through the introduction of landscaping rubble or inert material.

(5) Fifty percent of the total of such fees collected in each quarter shall be remitted to the State Treasurer for credit to the Integrated Solid Waste Management Cash Fund and shall be used by the department to cover the direct and indirect costs of responding to spills or other environmental emergencies, of regulating, investigating, remediating, and monitoring facilities during and after operation of facilities, or of performance of regulated activities under the Integrated Solid Waste Management Act, the Livestock Waste Management Act, the Nebraska Litter Reduction and Recycling Act, and the Waste Reduction and Recycling Incentive Act. The department may seek recovery of expenses paid from the fund for responding to spills or other environmental emergencies or for investigation, remediation, and monitoring of a facility from any person who owned, operated, or used the facility in violation of the Integrated Solid Waste Management Act, the Livestock Waste Management Act, the Nebraska Litter Reduction and Recycling Act, and the Waste Reduction and Recycling Incentive Act in a civil action filed in the district court of Lancaster County. Of the amount credited to the Integrated Solid Waste Management Cash Fund, the department may disburse amounts to political subdivisions for costs incurred in response to and remediation of any solid waste disposed of or abandoned at dump sites or discrete locations along public roadways or ditches and on any contiguous area affected by such disposal or abandonment. Such reimbursement shall be by application to the department on forms prescribed by the department. The department shall prepare and make available a schedule of eligible costs and application procedures which may include a requirement of a demonstration of preventive measures to be taken to discourage future dumping. The department may not disburse to political subdivisions an amount which in the aggregate exceeds five percent of total revenue from the disposal fees collected pursuant to this section in the preceding fiscal year. These disbursements shall be made on a fiscal-year basis, and applications received after funds for this purpose have been exhausted may be eligible during the next fiscal year but are not an obligation of the state. Any eligible costs incurred by a political subdivision which are not funded due to a lack of funds shall not be considered an obligation of the state. In disbursing funds under this section,

the director shall make efforts to ensure equal geographic distribution throughout the state and may deny reimbursements in order to accomplish this goal.

(6) The remaining fifty percent of the total of such fees collected per quarter shall be remitted to the State Treasurer for credit to the Waste Reduction and Recycling Incentive Fund. For purposes of determining the total fees collected, any amount of fees rebated pursuant to section 13-2042.01 shall be included as if the fees had not been rebated, and the amount of the fees rebated pursuant to such section shall be deducted from the amount to be credited to the Waste Reduction and Recycling Incentive Fund.

(7) The council shall adopt and promulgate rules and regulations for the distribution of grants under subsection (6) of this section from the proceeds of the fees imposed by this section to counties, municipalities, and agencies for the purposes of planning and implementing facilities and systems to further the goals of the Integrated Solid Waste Management Act. The fees collected pursuant to this section shall not be used as grant proceeds to fund landfill closure site assessments, closure, monitoring, or investigative or corrective action costs for existing landfills or landfills already closed prior to July 15, 1992. The rules and regulations shall base the awarding of grants on a project's reflection of the integrated solid waste management policy and hierarchy established in section 13-2018, the proposed amount of local matching funds, and community need.

Sec. 2. Section 13-2042.01, Revised Statutes Supplement, 2009, is amended to read:

13-2042.01 (1) The Department of Environmental Quality shall rebate to the municipality or county of origin ten cents of the disposal fee required by section 13-2042 for ~~each six cubic yards of uncompact solid waste, for each three cubic yards of compacted solid waste, or for each ten of solid waste disposed of at landfills regulated by the department and originating or transported for disposal out of state from a solid waste processing facility holding a permit under the Integrated Solid Waste Management Act and when such solid waste originated~~ in a municipality or county with a purchasing policy approved by the department. The fee shall be rebated on a schedule agreed upon between the municipality or county and the department. The schedule shall be no more often than quarterly and no less often than annually.

(2) Any municipality or county may apply to the department for the rebate authorized in subsection (1) of this section if the municipality or county has a written purchasing policy in effect requiring a preference for purchasing products, materials, or supplies which are manufactured or produced from recycled material. The policy shall provide that the preference shall not operate when it would result in the purchase of products, materials, or supplies which are of inadequate quality as determined by the municipality or county. Upon receipt of an application, the Department of Environmental Quality shall submit the application to the materiel division of the Department of Administrative Services for review. The materiel division shall review the application for compliance with this section and any rules and regulations adopted pursuant to this section and to determine the probable effectiveness in assuring that a preference is given to products, materials, or supplies which are manufactured or produced from recycled material. The materiel division shall provide a report of its findings to the Department of Environmental Quality within thirty days after receiving the review request. The Department of Environmental Quality shall approve the application or suggest modifications to the application within sixty days after receiving the application based on the materiel division's report, any analysis by the Department of Environmental Quality, and any factors affecting compliance with this section or the rules and regulations adopted pursuant to this section.

(3) A municipality or county shall file a report complying with the rules and regulations adopted pursuant to this section with the Department of Environmental Quality before April 1 of each year documenting purchasing practices for the past calendar year in order to continue receiving the rebate. The report shall include, but not be limited to, quantities of products, materials, or supplies purchased which were manufactured or produced from recycled material. The department shall provide copies of each report to the materiel division in a timely manner. If the department determines that a municipality or county is not following the purchasing policy presented in the approved application or that the purchasing policy presented in the approved application is not effective in assuring that a preference is given to products, materials, or supplies which are manufactured or produced from recycled material, the department shall suspend the rebate until it determines that the municipality or county is giving a preference to products, materials, or supplies which are manufactured or produced from recycled material pursuant to a written purchasing policy approved by the department

subsequent to the suspension. The materiel division may make recommendations to the department regarding suspensions and reinstatements of rebates. The Department of Administrative Services may adopt and promulgate rules and regulations establishing procedures for reviewing applications and for annual reports.

(4) Any suspension of the rebate or denial of an application made under this section may be appealed. The appeal shall be in accordance with the Administrative Procedure Act.

(5) The council shall adopt and promulgate rules and regulations establishing criteria for application procedures, for accepting and denying applications, for required reports, and for suspending and reinstating the rebate. The materiel division shall recommend to the council criteria for accepting and denying applications and for suspending and reinstating the rebate. The materiel division may make other recommendations to the council regarding rules and regulations authorized under this section.

Sec. 3. Original section 13-2042, Reissue Revised Statutes of Nebraska, and section 13-2042.01, Revised Statutes Supplement, 2009, are repealed.
