Patrick O’Donnell, Clerk of the Legislature  
State Capitol, Room 2018  
PO Box 94604  
Lincoln, Nebraska 68509

Dear Mr. O’Donnell:

Legislative Bill 820 of the 102nd Legislative Session of 2012 requires the Foster Care Reimbursement Rate Committee to report on its activities to the Health and Human Services Committee on or before September 15, 2012.

The attached report provides a progress summary regarding committee activities to date. The report includes meeting minutes from the meetings in June, July and August 2012.

Sincerely,

[Signature]

Thomas D. Pristow, MSW, ACSW, Director  
Division of Children and Family Services  
Department of Health and Human Services
General Information

LB 820, Sections 4 & 5 requires the Department to create a committee to develop a standard statewide foster care reimbursement rate structure. This will include a statewide standardized level of care assessment and tie performance with payments to achieve permanency outcomes for children and families.

Progress Summary

Since the July 1, 2012 report, the full Committee met in the Nebraska State Office Building in Lincoln on the following dates:

- July 11, 2012
- August 6, 2012
- September 5, 2012

The meeting minutes are attached to this report for reference.

The Nebraska Public Meeting Calendar is being used for meeting notices.

DHHS established public web pages for the Commission activity, and posts final minutes for this committee on-line. [http://dhhs.ne.gov/Pages/childrenscommission.aspx](http://dhhs.ne.gov/Pages/childrenscommission.aspx)

The two sub-committees established at the June 20, 2012 meeting met as follows:

The Foster Care Reimbursement Rate Sub-Committee met

- July 9, 2012
- July 30, 2012

Rate discussion included an analysis of the Nebraska FCPAY checklist, the M.A.R.C. study and data, and the USDA Cost of raising children by age group report. These documents include some similar information, however further analysis is required to compare the costs reported. The USDA cost of raising children included additional expense categories already provided by DHHS for children in foster care (e.g. medical insurance).
The sub-committee chose to use the Midwest Urban two parent family as a baseline to calculate the minimum rate to care for a child in foster care. Further methodology and calculations will be shared with the committee for final approval of a baseline rate after the sub-committee completes the final analysis.

The Foster Care Level of Care Sub-Committee met:

- June 28, 2012
- July 11, 2012
- July 30, 2012
- August 17, 2012
- September 5, 2012

The Level of Care sub-committee discussions have centred on researching assessment tools within Nebraska and other states, evaluating their effectiveness, attributes and complications of each. Sub-committee members have taken time to personally contact experts in other states to gain insight into their assessments.

**Issues**

The Level of Care Assessment sub-committee has received strong recommendations from other states regarding the use of Level of Care Assessment tools, and their use in combination with establishing foster care reimbursement rates.

1. All states interviewed recommended not tying an assessment to foster care payments up front, but instead recommended a “hold harmless” phase where foster parents rates do not change for a period of time;
2. An ongoing quality assurance process is critical to success;
3. Other states recommended training, implementation, ongoing training support;
4. Do not tie foster payment directly to the score from a tool; and
5. Use caution when developing or choosing a tool to ensure the tool or subsequent payment methodology does not include behaviors or conditions that overlap with other services/funding streams (i.e., developmental disabilities, behavioral health, medically fragile, OJS)

**Recommendations**

Recommendations will follow once the sub-committees conclude their work.

An assessment tool and rates are expected to be decided upon in October and November, and will be ready for submission to the Legislature in the December 2012 report.
