Be it enacted by the people of the State of Nebraska,

Section 1. Section 23-1118, Revised Statutes Supplement, 2011, is amended to read:

23-1118 (1)(a) Unless the county has adopted a retirement system pursuant to section 23-2329, the county board of any county having a population of one hundred fifty thousand inhabitants or more, as determined by the most recent federal decennial census, may, in its discretion and with the approval of the voters, provide retirement benefits for present and future employees of the county. The cost of such retirement benefits shall be funded in accordance with sound actuarial principles with the necessary cost being treated in the county budget in the same way as any other operating expense.

(b) Except as provided in subdivision (c) of this subsection, each employee shall be required to contribute, or have contributed on his or her behalf, an amount at least equal to the county's contribution to the cost of any such retirement program as to service performed after the adoption of such retirement program, but the cost of any benefits based on prior service shall be borne solely by the county.

(c) In a county or municipal county having a population of two hundred thousand or more inhabitants but not more than three hundred thousand inhabitants, as determined by the most recent federal decennial census, the county or municipal county shall establish the employee and employer contribution rates to the retirement program for each year after July 15, 1992. The county or municipal county shall contribute ~~at least an amount equal to each employee's mandatory contribution, if any, to the cost of any such retirement program and by January 1, 1996, shall be contributing one hundred fifty percent of each employee's mandatory contribution, and for an employee hired on or after July 1, 2012, the county or municipal county shall contribute at least one hundred percent of each such employee's mandatory contribution.~~ The combined contributions of the county or municipal county and its employees to the cost of any such retirement program shall not exceed thirteen percent of the employees' salaries.

(2) Before the county board or council provides retirement benefits for the employees of the county or municipal county, such question shall be submitted at a regular general or primary election held within the county or municipal county, and in which election all persons eligible to vote for the officials of the county or municipal county shall be entitled to vote on such question, which shall be submitted in the following language: Shall the county board or council provide retirement benefits for present and future employees of the county or municipal county? If a majority of the votes cast upon such question are in favor of such question, then the county board or council shall be empowered to provide retirement benefits for present and future employees as provided in this section. If such retirement benefits for present and future county and municipal county employees are approved by the voters and authorized by the county board or council, then the funds of such retirement system, in excess of the amount required for current operations as determined by the county board or council, may be invested and reinvested in the class of securities and investments described in section 30-3209.

(3) As used in this section, employees shall mean all persons or officers devoting more than twenty hours per week to employment by the county or municipal county, all elected officers of the county or municipal county, and such other persons or officers as are classified from time to time as permanent employees by the county board or council.

(4) The county or municipal county may pick up the member contributions required by this section for all compensation paid on or after January 1, 1985, and the contributions so picked up shall be treated as employer contributions in determining federal tax treatment under the Internal Revenue Code, except that the county or municipal county shall continue to withhold federal income taxes based upon these contributions until the Internal Revenue Service or the federal courts rule that, pursuant to section 414(h) of the Internal Revenue Code, these contributions shall not be included

as gross income of the member until such time as they are distributed or made available. The county or municipal county shall pay these member contributions from the same source of funds which is used in paying earnings to the member. The county or municipal county shall pick up these contributions by a salary deduction either through a reduction in the cash salary of the member or a combination of a reduction in salary and offset against a future salary increase. Member contributions picked up shall be treated in the same manner and to the same extent as member contributions made prior to the date picked up.

(5) (a) Beginning December 31, 1998, and each December 31 thereafter, the chairperson of the county board or council with a retirement plan established pursuant to this section and section 401(a) of the Internal Revenue Code shall file with the Public Employees Retirement Board ~~an annual~~ a report on such plan and shall submit copies of such report to the Auditor of Public Accounts.
